PATENT OFFICE REMOVES CRITICAL LEADER V. FACEBOOK DISCLOSURE ITEMS

USPTO CONDUCT PARALLELS THE DOCUMENT OBSTRUCTION BY THE IRS

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | UPDATED MAR. 05, 2014 | PDF

DISARM THE POWERMONGERS — FORCE FACEBOOK TO RETURN LEADER'S INVENTION (WHAT THE COURTS FAILED TO DO)

Justice advocates today called on Congress to step in and fix the Wild West abortions of American justice that have been exposed by the Leader v. Facebook scandal. One activist asked, "How can any innovator rely upon the trustworthiness of the U.S. Patent Office and the Justice Department, after knowing that all the judges held Facebook stock during Leader case? I am thinking it makes no sense to file my new patents until this trust issue is fixed, if it ever gets fixed. My confidence level is low right now."

[CLICK HERE](#) to view a document received today titled Lawfare which highlights the big picture of the Leader v. Facebook corruption. Readers should note that we have been writing about "lawfare" for some time. It was a highly successful asymmetric warfare tactic of the former [Soviet KGB's Department of Disinformation](#). Facebook's Moscow partners have evidently dusted off the training

The bylines are even more interesting: "When lawyers, bankers and techs conspire illegally with the President to seize powers, democracy dies" and "American society's new battleground—citizens who exploit the law's good faith expectations, and breach their public oaths, in order to neuter checks and balances and prevent accountability." The document suggests that Congress take away Facebook technology engine and give it back to the inventor, Leader Technologies. By doing so, the Facebook crowd would lose their primary organizing tool. The illustration contains a background photo of President Obama's toast with Mark Zuckerberg, Larry Ellison and the late Steve Jobs at a pre-election Silicon Valley dinner in February 2011. A fitting comeuppance.

as her justification for withholding mandated judicial financial and background disclosures. The request did not ask for healthcare information, and more than 70% of the information identified was withheld.

OGE 278 FINANCIAL DISCLOSURE REPORTS ARE REQUIRED BY LAW

Public disclosure of judicial and senior staff financial records is required by law. The Patent Office even says so in a current job posting for an administrative judge at [JOBSUSA](#): "The Ethics in Government Act of 1978... requires senior officials in the executive, legislative and judicial branches to file public reports of their finances as well as other interests outside the Government... The OGE 278 [Financial Disclosure Report] is available to the public." Therefore, the FOIA response breaks the law by refusing to provide those reports in a public FOIA request. In fact, not a single judicial financial report has been provided by the FOIA officer to this or any previous FOIA request. [15]

The Patent Office's disturbing FOIA conduct directly contradicts their own words in their current USAJOBS posting. A reasonable person can only assume that the Patent Office is

(Aug. 15, 2013)—The U.S. Patent Office continues to dig its Leader v. Facebook ethics hole deeper. [On Aug. 7 the Patent Office responded to a Jul. 9, 2013 FOIA request \(CLICK HERE\).](#)[01]

For starters, the Deputy FOIA Officer, [Kathryn W. Siehndel](#), still does not disclose her prior employment by Facebook's attorney, White & Case LLP. Now, she refuses to provide any biographical or financial information about herself, Director David R. Kappos or any of the Leader v. Facebook patent judges.

Tellingly, Siehndel provides no required public disclosure information about Judge Stephen C. Siu, the judge assigned by Director David Kappos to oversee the 3rd Leader Technologies politically-motivated patent reexam. She uses HIPAA healthcare information protection statutes

UPDATE MAR. 25, 2014

FOUR CRITICAL AFI POSTS ON JUDICIAL COMPROMISE

Fully updated Mar. 25, 2014 in the wake of the Scribd censorship:

1. **WAS CHIEF JUSTICE ROBERTS BLACKMAILED** into supporting Obamacare by his ethical compromises in Leader v. Facebook?
2. **JUSTICE ROBERTS MENTORED** Facebook Gibson Dunn LLP attorneys.
3. **JUSTICE ROBERTS HOLDS** substantial Facebook financial interests.

running some sort of protection racket. Perhaps these judges become compromised once they are employed, then it becomes the FOIA counsel's and Director's jobs to protect those individuals from exposure of their misconduct. Perhaps this is where the side deals to protect cronies begins. Wink. Wink. Since they are refusing to release even one financial report, one can only conclude that they must be hiding many sins.

USPTO LAWYER FABRICATION

Update Aug. 20, 2013—AFI investigators have just learned that USPTO FOIA counsel Kathryn W. Siehndel (formerly employed by Facebook's counsel White & Case LLP) made false claims in her response. She wrote "In our July, 9, 2013 telephone call to clarify this request, you indicated that you intended your requests to be limited to records related to the subject line . . . 3rd Reexam." [CLICK HERE to read this statement in her letter](#). This claim is impossible since the requester did not email the request until 5:58PM on July 10, 2013. [CLICK HERE to see that email](#). The Express Mail copy was not received until 8:21AM on July 12, 2013. [CLICK HERE to see that delivery receipt](#).

In fabricating her story, Ms. Siehndel appears to have become confused by the dates since the file name on the email attachment is July 8, but it was not attached and sent until July 10. She evidently believed she needed this excuse to justify her redactions. Tellingly, in her redactions one cannot find a single reference to Facebook or Microsoft. A Microsoft dictionary is among the items of alleged "prior art" that Facebook keeps putting forward (and losing on—at trial and in two previous reexams). The USPTO has almost 15,000 "likes" on Facebook.

Fig. 4—U.S. Patent Office gorging on Facebook burgers, since May 20, 2010, with Director David J. Kappos leading the feeding.

Rhetorical questions: Does the USPTO's daily consumption of Facebook bias their perspectives? Of course it does. Can one taste-test two burgers impartially when one has been gorging on one of the brands for years? Of course not. This is precisely why we have conflicts of interest disqualification laws; none of which were followed by the [entire](#) U.S. Patent Office.

Update Aug. 21, 2013—AFI investigators just uncovered another smoking gun. Not only did Kathryn W. Siehndel conceal FOIA information about Facebook and Director Kappos, but she failed to even provide a May 20, 2010 USPTO press release by Director David J. Kappos announcing the USPTO's new Facebook Page. Note that Kappos even uses the word "consume." (see Fig. 4). [Editorial: We must pat our volunteer investigators on the backs for this find.] [CLICK HERE to read the press release.](#)[13]

Here are a few statistics about the Patent Office's Facebook Page. Patent Office Director David J. Kappos has used Facebook as a Director's exclusive newsletter that carries his propaganda, without the possibility of objection, dissent or public comment (as AFI activists discovered yesterday when they attempted to post a comment about Leader v. Facebook, which was removed). Director Kappos has made a total of 303 Facebook entries since May 14, 2010. [Kappos is mentioned by name in 40 Facebook entries \(CLICK HERE\)](#). Kappos' photo appears in 15 Facebook entries. Kappos' video appears in 2 Facebook entries. [Kappos ordered the 3rd Leader patent reexam on Apr. 17, 2012 \(CLICK HERE\)](#).

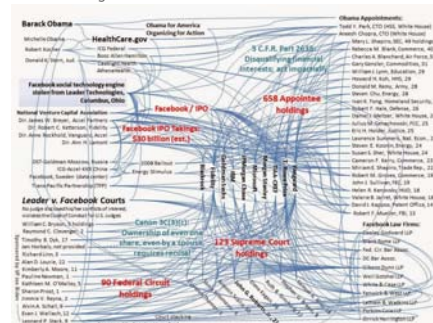

Fig. 6—David J. Kappos, USPTO Director. Kappos made over 300 Facebook posts during the Leader v. Facebook proceedings, including posting pictures and videos of himself 17 times. Source: USPTO

STOP FACEBOOK PROPERTY THEFT

W LL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

WITHOUT PUBLIC DISCLOSURE, JUDGES AND JUDICIAL EMPLOYEES CANNOT BE HELD ACCOUNTABLE

WITHOUT PATENT OFFICE TRUTHFULNESS AND IMPARTIALITY, NO PATENT IS SAFE

Worse, Siehndel even redacted information that the judges themselves have disclosed on their LinkedIn Profiles. These judge disclosures make a mockery of Ms. Siehndel's actions, especially in light of the high-sounding call for transparency and accountability in [President Obama's Jan. 21, 2009 FOIA speech](#), [02] also cited in the second table below.

The USPTO Leader v. Facebook judges and Siehndel are **highlighted below in yellow**.

LEADER TECHNOLOGIES Inventor Protection Act (Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

—a technology upon which the President and U.S. government now rely;

—a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

*Rescind. Investigate.
Sanction. Certify.*

Contact your representatives. Ask them to pass it.

Real American inventors need your support.

firm with the reason why not a single Wall Street banker has gone to jail since 2008. [Click here](#) to read her article "Everybody hates whistleblowers." Examiner.com, Apr. 10, 2012. Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ulyot, who appears to have helped lead the Leader v. OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

... our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact

HUMPTY DUMPTY HAD A GREAT FALL

The Patent Office clearly cannot sustain this level of badness for very long. The rules and common sense are against them. The light of public accountability shines, and compliance is inevitable. The chorus for transparency and fairness is growing louder each day. We encourage whistle blowers to step forward.

The public must be able to trust the impartiality of the Patent Office. Without that trust, small business inventors will stop filing patents since they will not be able to rely on a full and fair hearing that is free of the undue influence of big infringers like Microsoft (for Facebook) and IBM (for Facebook), Judge Stephen C. Siu's former employers.

Deputy Counsel Kathryn W. Siehndel is evidently protecting Facebook and their cronies. Is the Patent Office and its parent, the Executive Branch, one big, ethically-challenged Humpty Dumpty?

Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. (Read Leader's May 20, 2010 motion [here](#).) He also permitted the jury to ignore the Pfaff v. Wells Electronics, Inc. test for on-sale bar, even after instructing the jury to use it. (See [that Jury Instruction No. 4.7 here](#).) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Court of Appeals for the Federal Circuit, panel judge in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. See disclosure of substantial holdings in Facebook and Facebook-related stocks. Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in Pfaff v. Wells Electronics, Inc.—an evident and intentional omission coming from a former patent law professor. Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. See Motion to Disclose Conflicts of Interest. Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr. Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. See a full analysis of these events at Donna Kline Now! This post is receiving an extraordinary number of views. We encourage whistleblowers to come forward. If you wish to remain anonymous, we encourage you to do so. Just send us enough information so that we can independently verify your information. The AFI email address is: amer4innov@gmail.com

Alternatively, we encourage you to contact the House Oversight Committee on Government Reform with your information. Be sure to approach a Congressperson who is not already known to be taking donations from Facebook and Friends. We hear nothing but crickets on Capitol Hill from Facebook's Friends.

You can check on anyone's political donation history at the Federal Election Commission. Also Organizing For Action (barackobama.com) donations do not appear on the FEC database, but they self-report.

Anyone can send in a FOIA request to the Patent Office to drill down on the conduct being exposed here. Here's a link to the instructions. The request can be in writing or by email. Be sure to follow the instructions carefully, because as we can see, the FOIA Officer is looking for any reason she can find to deny your request.

As we are seeing, the information that agencies conceal, deny or black/white out can be as instructive as what they disclose. Let's keep pounding. We pay these people their salaries and they owe us duties of loyalty, honesty and good faith.

Administrative Patent Judge JENNIFER B. BISK also worked at Facebook's attorney Cooley Godward LLP firm (the Leader v. Facebook trial attorney - Michael Rhodes, Heidi Keefe, Mark Weinstein, Jeffrey Norberg, Theodore Ulyot, Sam O'Rourke, Elizabeth Stameshkin) in 2006-2007. We missed this in earlier analysis.

the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's *Pfaff v. Wells Electronics, Inc.* test for on-sale bar evidence, which included even the Federal Circuit's own *Group One v. Hallmark Cards, Inc.* test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie helped write that opinion. [Group One test omission analysis.](#)

Clerk of Court Jan Horbaly, U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court's ruling was challenged by an amicus curiae brief revealing clear mistakes of law and new evidence. [See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in Leader v. his close association with one of Facebook's largest

Additionally, the DC Bar revealed in a written statement that Clerk Horbaly is not licensed to practice law in the District of Columbia. Ran across this guy: Patent Judge David McKone.

He was at Latham & Watkins LLP, Facebook's James W. Breyer's firm, between 2004-2008. That's when all the Leader v. Facebook theft and dirty work was done. Then he moved to, ahhhhmm, Chicago and worked at Nixon Peabody LLP until he was appointed a Patent Judge by, ahhhhmmmm, Obama-appointed Director David Kappos and Federal Circuit Judge Randall R. Rader. Just look at the guy's picture. Mole? No wonder Siehndel doesn't want to release their background information. Dollar to donuts he's got a ton of Facebook and related stock.

I scratched an itch this weekend. It has started to bug me that Wikipedia has NO ENTRIES for Leader Technologies, Michael McKibben or Jeffrey Lamb, the inventors of social networking. This parallels the fact that one hears nothing but crickets from the mainstream media on Leader v. Facebook, the corruption, the judicial misconduct. Nothing. Nada. Zilch.

This observation led me to investigate Wikipedia's history. They appear to use "Socialtext" software, founded in 2002, and funded in 2004 by OMIDYAR NETWORK and REID HOFFMAN (PayPal, LinkedIn, Facebook). Ahhhmmmm. This is the exact same time frame as the Accel Partners'/James W. Breyer's/Zuckerberg's theft of Leader's software at Harvard in late 2003 early 2004 (Facebook went live on Feb. 4, 2004). Hoffman now even admits publicly to having coached the 19-year old Zuckerberg at Harvard then. Hoffman was a busy boy. PayPal sale, fund LinkedIn, fund Facebook, fund Socialtext/Wikipedia.... one gets the impression that the CROWD AROUND ACCEL PARTNERS AND JAMES W. BREYER

for the (mis)conduct of his judges and Clerk of Court in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. Chandler. [See analysis of Judge Rader's undisclosed conflicts of interest in Leader v. Facebook.](#)

was frantically carving up Leader's invention like an elephant--every man and women getting their chunk. How could one person like Hoffman do so much, so quickly, unless the core tech was stolen? Remember, Zuckerberg claims to have done his part in "one to two weeks" while studying for finals.

OMIDYAR was founded in 2004. One of its senior directors is TODIR TASHEV from Moscow, Russia who used to work for JP Morgan and maintains strong ties to Moscow as well as Harvard. Hmmm. Still more Harvard people. Socialtext even took an investment by the University of Utah's Endowment in April 2009 -- that's HARRY REID'S alma mater!

Given that Leader and McKibben have had some remarkable accomplishments and contributions, like the Hurricane Katrina lifesaving with Governor Kathleen Blanco and the State of Louisiana, not to mention inventing SOCIAL NETWORKING, one gets the impression that Wikipedia is very intentionally not telling the truth.

Sigh. You don't understand how Wikipedia works. It's all publicly authored. This means that the reason there is no entry for Leader or McKibben is because no one ever wrote an article. Go write your own article, post it, and then if the Wikipedia authorities pull it you can start talking about conspiracy theories.

AFi researchers have been digging more into the FOIA disclosure and discovered more mess. Take note of a new 4th paragraph about USPTO FOIA deputy counsel Kathryn Sienhdel's outright lie about calling the requester (she did not), updates on the conflicts in Table 1, especially the fact that the ENTIRE US PATENT OFFICE has been using Facebook since before the Leader v. Facebook trial. Simply put, the whole of the Patent Office drank the Kool-Aid, and are thus conflicted out of any decisions regarding Leader Technologies' patent.

Here is one of the press release by the Patent office! This was made while the Patent office is still in the reexam of Leaders patent!!!! Leader was still in the court system with their appeals!!!!

This "proves" that the Patent office is conflicted, biased and corrupted. Remember there is not a Patent on the core technology for Facebook other than Leader's 761 patent which has been proven in court and Leader was issued a Patent by the USPTO, reaffirmed twice in previous reexams!!!!

Now the patent office is trying to steal Leader's by using scheming lawyers inside and outside the patent office!

Contact your Congressional representatives and express your outrage and request an investigation!

What?? This is beyond ridiculous.

So let's say there is an Apple patent and they allege that Microsoft infringes it through Windows. Apple patent is up for review. By your logic, no one at the patent office could use Windows because this would be a conflict of interest. It would show bias.

In fact the patent office would be prohibited from using any product involving any patent being challenged. Want to use that Xerox machine? Sorry. Conflict of interest. Bias. Want to use that AT&T long distance. Sorry, Sprint is suing then and the patent is under review. Conflict of interest. Bias. Want to use that Swingline stapler? Sorry, Bostitch is suing. Conflict of interest. Bias.

This sounds ridiculous because it is. You can't prohibit the patent office from having any association whatsoever with products that involve allegations of patent infringement. It's nonsensical and completely unworkable.

Here are some suggestions on what your USPTO FOIA requests might ask for:

1. Notes of the alleged July 9, 2013 telephone call between Kathryn W. Siehndel and the requester of F-13-00218. Please include all briefing notes on conclusions drawn from this alleged conversation.

2. statutory background and financial disclosure for Kathryn W. Siehndel and David J. Kappos. (Siehndel's claim that no information exists is not credible.)

3. Conflicts of interest assessment performed before Kathryn W. Siehndel was approved as the FOIA officer for Leader v. Facebook since she was formerly employed by White & Case LLP, one of Facebook's law firms in Leader v. Facebook.

4. Conflicts of interest assessment performed by David J. Kappos's office before issuing the 3rd reexam order on Leader Technologies' patent.

5. Conflicts of interest assessments performed on the administrative patent judges (incl. Petravick, MacDonald, Siu, Hughes, Timm) assigned to any of Leader Technologies' patent reexaminations.

6. Statutory annual judicial financial disclosure of all patent judges and judicial employees involved in the Leader v. Facebook reexaminations.

Craven got it wrong again. Conflicts are conflicts, no matter how well known a product or brand is. The Code of Conduct for US Judges says even holding one share in a company like Apple or IBM etc. is enough to conflict a judge out of a case. The Supreme Court clarified this further by saying even the APPEARANCE of impropriety is enough to disqualify a judge. Their utter silence is prima facie evidence that these judges and employees all have their hands in the Facebook cookie jar. Gee Beev, was that wrong?

Gotta love this Facebook post by Patent Office Director Kappos on Jul. 6, 2012 -- Kappos: "I think this is really is the best time there's ever been to be an inventor."

More Facebook Orwellian doublespeak. He and his crony administrative patent judges are making it as bad as it has ever been to be an inventor.

I have worked with HIPAA since its inception.

I find it bizarre that the USPTO FOIA counsel used health care privacy regulations to prevent disclosure of the USPTO Facebook page.

Perhaps Facebook and the USPTO had severe "allergy" problems that prevented them from disclosing legal, good faith requests. Those "allergies" might qualify for protection under HIPAA-but it takes an Alice in Wonderland twist to be able to justify the denial. I hope the USPTO is not using similar logic to deny other people's patents.

John, you need to catch up. Your knowledge seems to be slipping.

The American Bar Association published an opinion on February 13, 2013. To try and say this would not apply to all judges or could be argued against if it comes up at trial or hearing would be laughable.

Quote, "A judge may participate in electronic social networking, but as with all social relationships and contacts, a judge must comply with relevant provisions of the Code of Judicial Conduct and avoid any conduct that would undermine the judge's independence, integrity, or impartiality, or create an appearance of impropriety."¹

They go on to say, "Upon assuming the bench, judges accept a duty to "respect and honor the judicial office as a public trust and strive to maintain and enhance confidence in the legal system."³ Although judges are full-fledged members of their communities, nevertheless, they "should expect to be the subject of public scrutiny that might be viewed as burdensome if applied to other citizens...."⁴ All of a judge's social contacts, however made and in whatever context, including ESM, are governed by the requirement that judges must at all times act in a manner "that promotes public

Wally gives Darren an attaboy. Attorneys and judges have more ethics rules than any other profession on the planet. Ever wonder why they have such difficulty doing the right thing? Could it be because the profession actually attracts liars, cheats and thieves like moths to light? ... and we let them be "self-policing." This is like letting murderers run the prison. This system needs constitutionally overhauled. Simply making more rules and paying for more studies, etc. only gives the unscrupulous more Play Dough to manipulate.

BEWARE FORMER WORLD BANK ECONOMISTS ALLIED WITH FACEBOOK BEARING GIFTS

I notice that the mobile app company SQUARE is advertising heavily to get small business vendors to use their product. Everyone should know that Facebook Cabal President Lawrence "Larry" Summers is behind that company. This probably means this is another piece in his puzzle for dominating world commerce after his buddy Obama is out of power... and he wants to be Chairman of the Federal Reserve to boot.

A federal judge has set Jan. 23 for a pretrial conference of parties involved in the giant class-action lawsuit brought against Facebook (NASDAQ:FB) as a result of its controversial May 2012 initial public offering.

U.S. District Court Judge Robert W. Sweet, in Manhattan, who was assigned the consolidated cases by a panel of 11 other federal judges, will preside over the conference and the subsequent trial.

Lawyers had previously said the judges would assign the trial to New York because of proximity to Facebook's principal underwriters, Morgan Stanley (NYSE: MS), Goldman Sachs (NYSE: GS) and JPMorgan Chase (NYSE: JPM), as well as the court's familiarity with complex financial matters.

At one point during the summer of 2004, according to documents viewed by Business Insider, Mark told friends he had exploited a flaw in ConnectU's account verification process to create a fake Cameron Winklevoss account with a fake Harvard.edu email address.

Next, Mark told a friend he logged into the accounts of some ConnectU users and changed their privacy settings to invisible. In an IM, Mark explained his idea was to make it harder for ConnectU users to find their friends on the site, thus reducing its utility.

Later,

Mark told a friend he'd gone a step further, deactivating about 20 ConnectU accounts entirely.

It is not clear how Mark accessed these accounts. It does appear that he retained access to ConnectU's servers for quite some time. (In an earlier hack of the email accounts of two Harvard Crimson editors, he used login information stored in Facebook's servers.)

JOEL SALATIN, author of "Folks, This Ain't Normal" agrees with AFI about our broken justice system.

"This whole litigation climate is destroying innovation because it makes people too afraid to move. If I think you might sue me, I'm going to move much more cautiously in my relationship with you than if I know you won't sue me. Polyface [Farm] now leases several farms in the area. These are landowners who, for the most part, have approached us and asked us to manage their properties. It allows us to expand to meet our market demand but maintain a decentralized, spread-out production and processing model consistent with our ecological and business values.

Each agreement contains a no-litigation clause. No matter what happens or who is at fault, neither party can sue the other. Instead, we must go to binding arbitration. I have been in courtrooms several times and find them outrageous. I think if we elected non-attorneys as legislators, and selected judges from regular people, including the Supreme Court, we would have more reasonable decisions. The Constitution does not encourage attorneys to be judges. Our cultural assumption that only licensed attorneys are eligible to be judges automatically excludes innovation. It assures a fraternity of like-minded people who will assuredly protect the culture's power brokers."

taxpayer bailout monies along with Goldman Sachs, Morgan Stanley and State Street Corporation)

106. Lloyd Blankfein (Goldman Sachs, CEO)
107. Jamie Dimon (JP MorganChase, CEO)
108. Steve Cutler (JP MorganChase, General Counsel)
109. Rodgin Cohen (JP MorganChase, Outside Counsel; Sullivan Cromwell, LLP)
110. U.S. Securities & Exchange Commission (granted Fenwick & West's application on behalf of Facebook for an unprecedented exemption to the 500 shareholder rule; opened the floodgates for Goldman Sachs and Morgan Stanley to make a private market in Facebook pre-IPO insider stock; facilitated the influx of billions of dollars from "dubious" sources associated with Russian oligarchs, Alisher Asmanov and Yuri Milner, and the Kremlin; Goldman Sachs is a partner with this Moscow company, Digital Sky Technologies, aka DST, aka Mail.ru)
111. Jeff Markey (McBee Strategic LLC; allied with Facebook's Cooley Godward Kronish LLP to arrange Obama's green energy funding; arranged \$1.6 billion for failed BrightSource and \$535 million for failed Solyndra)
112. Steve McBee (McBee Strategic LLC; allied with Facebook's Cooley Godward Kronish LLP to arrange Obama's green energy funding; arranged \$1.6 billion for failed BrightSource and \$535 million for failed Solyndra)
113. Michael F. McGowan (Stroz Friedberg; Facebook forensic expert who lied about his knowledge of the contents of the 28 Zuckerberg hard drives and Harvard Email accounts)
114. Bryan J. Rose (Stroz Friedberg; Facebook forensic expert who lied about his knowledge of the contents of the 28 Zuckerberg hard drives and Harvard Email accounts)
115. Dr. Saul Greenberg (Facebook's expert witness from the University of Calgary; disingenuously waived his hands and [said he would be "wild guessing" about the purpose of a Java "sessionstate" import statement](#) (even Java newbies know it is used for tracking a user while in a web session); in short, Dr. Greenberg lied to the jury, thus discrediting his testimony)
116. Toni Townes-Whitley (CGI Federal; Michelle Obama's 1985 Princeton classmate; CGI "donated" \$47 million to the Obama campaign; CGI won the no-bid contract to build the [www.healthcare.gov](#) Obamacare website; CGI shut off the security features on Obama's reelection donation sites to increase donations)

117. CGI Federal (US division of a Canadian company; Donated \$47 million to Obama's reelection, then received the no-bid contract to build the ill-fated Obamacare website; Michelle Obama's Princeton classmate, Toni Townes-Whitely, is a Senior Vice President of CGI; the website is replete with social features and links to Facebook)
118. Kathleen Sebelius (Obama's Secretary of Health & Human Services since 2009 responsible for \$678 million Obamacare implementation; made the decision to hire CGI Federal on a no-bid contract despite the evident conflict of interest with Michelle Obama and \$47 million in Obama campaign donations by CGI; the website is replete with social features and links to Facebook)
119. Todd Y. Park (White House Chief Technology Officer (CTO); former CTO for Health & Human Services; chief architect of HealthCare.gov; founder, director, CEO, Athenahealth, Inc.; founder, director, CEO, Castlight Health, Inc.)
120. Frank M. Sands, Sr. / Frank M. Sands, Jr. (Founder and CEO, respectively, of Sands Capital Management LLC; failed to file S.E.C. Form SC 13G acquisition reports for Athenahealth, Inc., Baidu, Inc. (ADR) and Facebook stock during 2012; masked the association of Todd Y. Park with Athenahealth, Inc. and Baidu, Inc., and the association of both of those companies with the Facebook IPO fraud)
121. Robin "Handsome Reward" Yangong Li (CEO, Baidu, Inc. (ADR); appointed Jan. 2004, the same month that Mark Zuckerberg obtained Leader Technologies' social networking source code to start Facebook; Robin Y. Li is very likely associated with John P. and James W. Breyer through their Chinese entities, including IDG Capital Partners, IDG-Accel and other variants; Li appointed a junior attorney from Fenwick & West LLP, Palo Alto/Mountain View, namely Parker Zhang, to be his "Head of Patents;" Fenwick & West LLP represented both Leader Technologies, Inc. and Accel Partners LLC in 2002-2003 and had Leader's source code in their files.)
122. Parker Zhang ("Head of Patents" at Baidu, Inc. (ADR), appointed in approx. May 2012; formerly a junior Associate attorney at Fenwick & West LLP; graduate from Michigan Law in 2005)
123. Penny S. Pritzker (Secretary, Department of Commerce; replaced Rebecca M. Blank; holds over \$24 million in Facebook "dark pools" stock, most notably in Goldman Sachs, Morgan Stanley and JPMorgan)
124. Rebecca M. Blank (Secretary,

Department of Commerce; oversaw the dubious Leader v. Facebook activities of the Patent Office Director, David J. Kappos, who held over one million dollars in Facebook "dark pools" during the Leader v. Facebook proceedings; Kappos purchased this stock within weeks of his surprise recess appointment by President Obama; Kappos also was formerly employed by IBM, who sold Facebook 750 patents during the Leader v. Facebook proceedings; right before leaving the Patent Office, Kappos also ordered an unprecedented 3rd reexamination of Leader's patent without even identifying claims)

125. Mary L. Schapiro (Chairman, Securities & Exchange Commission; holds 51 Facebook "dark pools" stocks which held stock in Facebook, Baidu and more than a dozen Facebook crony companies; failed to regulate the "dark pools;" failed to disclose her substantial conflict of interest in regulating the run up to the Facebook IPO)
126. Robert C. Hancock (Chief Compliance Officer, Sands Capital Management, LLC; failed to file S.E.C. Form SC 12G notice of acquisition reports for Athenahealth, Baidu and Facebook during the period of the Facebook IPO in 2012; this conduct masked the conflicts of interest of Todd Y. Park, who was appointed by President Obama to be the U.S. Chief Technology Officer during this same period; Todd Y. Park is/has been founder, director and CEO of both Athenahealth and Castlight Health; Todd Y. Park deeply embedded the software from Athenahealth and Castlight Health into HealthCare.gov when he was CTO at Health & Human Services; none of these conflicts of interest were disclosed; Todd Y. Park's ethics pledges and reports are missing from the Office of Government Ethics)
127. Jonathan Goodman (Chief Counsel, Sands Capital Management, LLC; failed to file S.E.C. Form SC 12G notice of acquisition reports for Athenahealth, Baidu and Facebook during the period of the Facebook IPO in 2012; this conduct masked the conflicts of interest of Todd Y. Park, who was appointed by President Obama to be the U.S. Chief Technology Officer during this same period; Todd Y. Park is/has been founder, director and CEO of both Athenahealth and Castlight Health; Todd Y. Park deeply embedded the software from Athenahealth and Castlight Health into HealthCare.gov when he was CTO at Health & Human Services; none of these conflicts of interest were disclosed; Todd Y. Park's ethics pledges and reports are missing from the Office of Government Ethics; Goodman was formerly employed by Gibson
