## HOW THE FACEBOOK CLUB HIJACKED U.S. POLITICS FOR ANOINTED CANDIDATES

### D.O.J. STONEWALLS *LEADER V. FACEBOOK* FOIA REQUEST — TELEGRAPHS A RAT'S MAZE TO AVOID PUBLIC SCRUTINY & ACCOUNTABILITY

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | UPDATED SEP. 30, 2013 | PDF

**(SEP. 26, 2013)**—On Jan. 21, 2009 President Obama declared "a democracy requires accountability, and accountability requires transparency." Apparently, the Department of Justice (D.O.J.) and the Patent Office didn't get the memo.<sup>[1]</sup>

The mission of the D.O.J. is to "ensure fair and impartial administration of justice for all Americans."<sup>[2]</sup>

On Aug. 15, 2013 the D.O.J.'s Vanessa R. Brinkman responded to a Freedom of Information Act (FOIA) request for information regarding *Leader v. Facebook* with anything but transparency.<sup>[6]</sup>

Even though the request was addressed according to instructions on the D.O.J. FOIA website, the D.O.J. Office of Information Policy (OIP) who "processes Freedom of Information Act (FOIA) and Privacy Act (PA) requests" said nonsensically "this Office nor any of these senior leadership [including the Attorney General] typically maintain records on specific court cases."

**FIG. 1—THE D.O.J.'S TRANSPARENCY MERRY GO ROUND.**

The U.S. Department of Justice has created a Freedom of Information Act (FOIA) Merry Go Round to avoid ever having to provide actual transparency information to the public. This conduct breaches democracy's most fundamental principles of accountability. Graphic: Melissa Suriel.

[Editorial: This statement deserves a ROTFL (rolling on the floor laughing). Here we have our chief law enforcers claiming ignorance about conflicts disclosure information from the people who work for them. This is reminiscent of the President first learning

**UPDATE SEP. 30, 2013—JAMIE DIMON**, CEO, JP Morgan Chase (left), was photographed on Thursday, Sep. 19, 2013 leaving an almost unprecedented meeting with Attorney General **ERIC HOLDER** (right). What could they achieve in person that they could not by phone or video conference? (1) No NSA recording. (2) Lots of non-verbal winking & nodding. Well worth Dimon's trip from New York to keep Holder and Obama in line.

Reuters reported (PDF) that Holder would not disclose the details of the conversation. Holder included two D.O.J. attorneys with close ties to Obama and JP Morgan Chase—one of Holder's sidemen was **TONY WEST**. West is another of **LARRY SUMMERS'** Harvard protégés (along with Facebook COO Sheryl Sandberg and DST Moscow's Yuri Milner and Alisher Asmanov). West was **OBAMA'S 2008 CALIFORNIA CAMPAIGN MANAGER**. What roused Dimon out of New York? Dimon claims the 2008 meltdown was mismanagement, nothing more. Could the AFI revelations of 2008 and 2012 election rigging be causing him heartburn? [See Comment 4 below](#). Photos: Reuters, Main Justice.

## THE D.O.J. MERRY GO ROUND

Let's get this straight.

1. According to the D.O.J. website (<http://www.justice.gov> - in the bottom right sidebar titled "Justice.gov" click "FOIA" which goes to:
2. OIP (<http://www.justice.gov/oip/>). The menu on that page presents "OIP FOIA" which goes to the contact information for:
3. OIP FOIA (<http://www.justice.gov/oip/oip.htm>).
4. However, Ms. Brinkman responds that while OIP "processes" requests, they don't "maintain records." Huh? This is reminiscence of the Seinfeld car reservation episode where the car rental agency takes reservations, but they don't hold those reservations.

[Cue circus music.]

## WHY DO WE PAY THESE PEOPLE?

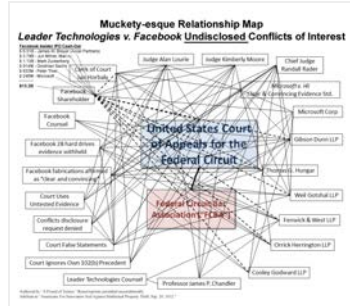

These D.O.J. people are either incompetent, or they are intentionally obscuring the FOIA process to discourage public transparency. If its either reason, why do we pay them? The Requester appealed this embarrassing D.O.J. conduct. [Click here to read the appeal](#) (also displayed at the end of this post).

Brinkman took great pains to spell out what they do not, will not and are not required to do. The “decentralized” nature of the D.O.J. FOIA system was emphasized, but nowhere was it mentioned that the D.O.J. website promises to “forward your request to the D.O.J.”

about the IRS scandal from the evening news.  
If our leaders are not in charge, who is?  
Answer: The Facebook Club, we think.]

The response goes on to inform the requester that the D.O.J. system for handling FOIA requests is "decentralized" and that the requester should consult <http://www.justice.gov/oip/oip.htm>. Humorously, this website gives the Office of Information Policy contact information—the very ones making the suggestion. In short, contact us, then we'll tell you to... contact us again... then, we'll keep suggesting that you contact us until we've generated lots of official looking paper for our files... and/or until you give up.

**UPDATE SEP. 27, 2013**

**FIG. 2—JUST A FEW OF THE ACTUAL CONFLICTS MAPPED RE. THE FEDERAL CIRCUIT IN *LEADER V. FACEBOOK*.**

These conflicts mapped above **do not include** Chief Justice John G. Roberts, Jr., Leonard P. Stark, Perkins Coii LLP, Blank Rome LLP, Anita B. Dunn, Robert F. Bauer, Kathryn Ruemmler., Thomas J. Kim, Donald K. Stern, John P. Breyer, IDG Capital Partners China, Roel Campos, David Plouffe, DC Bar Assoc., A.F.L.C.T.A.C.A.F.C., Patent Office, David J. Kappos, Kathryn W. THE FEDERAL CIRCUIT'S MONOPOLY

Is a judicial fix for the corrupt *Leader v. Facebook* appeal in the offing, or will Congress be forced to fix it? (Rumor has it that Congressional committees are investigating how to fix the corruption emanating from the Executive and Judicial Branches in this case.)

UPDATE MAR. 25, 2014

## FOUR CRITICAL AFI POSTS ON JUDICIAL COMPROMISE

Fully updated Mar. 25, 2014 in the wake of the Scribd censorship:

1. **WAS CHIEF JUSTICE ROBERTS BLACKMAILED** into supporting Obamacare by his ethical compromises in *Leader v. Facebook*?
2. **JUSTICE ROBERTS MENTORED** Facebook Gibson Dunn LLP attorneys.
3. **JUSTICE ROBERTS HOLDS** substantial Facebook

D.O.J.'s FOIA policy toward U.S. citizens.  
Graphic: 7thBoro

The reader is left with the impression that Brinkman could not be bothered, or is hiding something. Perhaps both.

Given the D.O.J.'s obstruction, [the requester spelled out a list of people and organizations](#)

suspected of misconduct in Leader v. Facebook, including their possible collusion with members of the Department of Justice. This person even suggested basic search instructions.

## D.O.J.'S "DECENTRALIZED" FOIA MAZE PREVENTS SCRUTINY

The D.O.J.'s “decentralized” FOIA data processing system appears to be at cross purposes with the law of the land on conflicts of interest disclosure. That information should be readily accessible, not hidden inside a rat's maze of deceptions and misdirection. The fact that it is hidden begs the question, “What is so important to hide that the D.O.J. won't follow mandates for which they are supposed to be the chief law enforcers?”

The Ethics in Government Act of 1978 requires mandatory, public disclosure of financial and employment history of public officials and their immediate family.[4]

In 2006, well before Leader v. Facebook, the Judicial Conference mandated automated conflicts screening for courts and judges.[5]

## HOW THE FACEBOOK CLUB HIJACKED U.S. POLITICS

The misconduct revealed by the Leader scandal begs the question: “What drives the Department of Justice these days, the U.S. Constitution or the Facebook Club?”

The requester's list reads more like a shadow U.S. Government. Their conduct certainly gives one pause:

- President Obama's protection of Facebook to preserve his 47 million “likes” on Facebook; White House reliance on confiscated private property to sustain its power;
- 16,000 Patent Office Facebook “likes” protected by Director David J. Kappos, using a patented system stolen from Leader Technologies which the Patent Office is right now trying wipe off the map by autocratic fiat;
- Fabricated “likes” are used to titillate and manipulate low-information voters (just enough to statistically manipulate any close election);
- Deregulated Internet electioneering

**UPDATE SEP. 27, 2013**—Yesterday, Seventh Circuit Judge Diane P. Wood proposed ending the Federal Circuit's exclusive jurisdiction over patent appeals, according to Law360 (click here). Finally, a federal judge has dressed down this court which has become corrupted by the [Facebook Club](#).

Even though Judge Wood sidestepped the corruption elephant in the room, her

Graphic: Leo Cullum

recommendations are welcomed nonetheless. She was careful to discuss only systemic problems, while avoiding specific examples of Federal Circuit abuse of private property rights—as has occurred in Leader v. Facebook and Zoltek Corp. v. U.S. (Fed. Cir. and their Facebook Club members are working to strip Congress of jurisdiction over private property rights by flat out ignoring constitutional precedent, e.g., the on-sale bar whitewash in Leader v. Facebook.)

FIG. 3—7TH CIRCUIT JUDGE DIANE P.

MacDonald, DC Bar, Federal Circuit Bar Association, A.F.L.C.T.A.C.A.F.C., Clerk Horbaly, USPTO Director Kappos and Chief Justice John Roberts? In the case of these judges, their inside knowledge of the Facebook IPO planned by Goldman Sachs lured them to the rocky shoals of profligacy. How many others are equally compromised for life?

## PREPARE FOR THE RATS TO SCURRY (SOME LIKE KAPPOS, REA, STERN, BAUER, PLOUFFE, RUEMMER & HORBALY ALREADY HAVE)

AFI's position is that these compromised, constitutionally oath-bound judges and lawyers must resign, be impeached and/or be brought up on fraud and racketeering charges for their collusion with

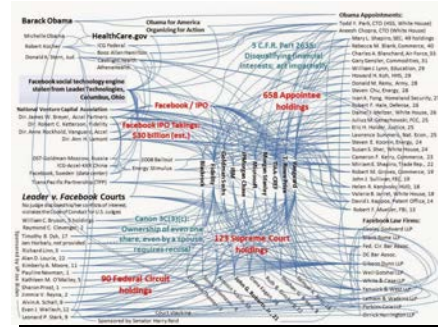

financial interests.

## STOP FACEBOOK PROPERTY THEFT

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Sickle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

## ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

founded upon fraudulent misrepresentation (by Perkins Coii LLP partners — long time person counsels of Barack Obama);

- Protection of the stolen Facebook platform for electioneering and global financial manipulations via massive judicial misconduct in *Leader v. Facebook*;
- Lack of electioneering accountability and transparency over the private Facebook data manipulation of "likes" without equal access;
- Substantial foreign influence in American electioneering via intertwined Facebook Club relationships; and
- Facebook's Washington, Silicon Valley and Moscow law firms and financiers undermining the Constitutional separation of powers—to secure their own, led by their mentor, Lawrence "Larry" Summers.

We could go on, but the evidence is clear . . .

She credits this firm with the reason why not a single Wall Street banker has gone to jail since 2008. This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ulliot, who appears to have helped lead the Leader v. Medal of Honor recipient, Sammy L. Davis, has wonderful advice for all of us. He and the other 79 surviving recipients of the honor are our country's true heroes. His advice to his fellow U.S. citizens, is that there are no problems that we cannot solve if "We the People" stand up, express our opinions, and work together. (from his speech on Sept. 25, 2013).

I encourage everyone to take the information from this site and share it widely. Everyone in this country needs to be aware of the corruption. Everyone needs to use their power as a citizen to inform our current officials and use the ballot box to ensure that we get the best leadership possible.

We need to stand up, speak up, and work together to end the corruption exposed by Americans for Innovation.

Do ya think there was a lot of winking and nodding in this meeting of Wall Street and Justice on Thursday?????

Curiously, following the revelations on this website, JAMIE DIMON himself travels to Washington to meet personally with the Attorney General ERIC HOLDER. Maybe coincidence, but I don't believe in coincidences in Leader v. Facebook any more.

Even REUTERS could not avoid pointing out "It is unusual for a CEO of a company to meet with the head of the U.S. Justice Department... Legal sources said high-level meetings between corporate executives and the U.S. attorney general are unusual..."

Also curious, Holder "declined to give details of the talks."

All the attendees were FACEBOOK CLUB FRIENDLY. Curiouser and curiouser (Alice in Wonderland).

With HOLDER at the meeting were Deputy Attorney General JAMES COLE (formerly with a long time JP Morgan law firm Bryan Cave LLP), and TONY WEST who attended Harvard and Stanford, and was co-chair of Obama's California 2008 presidential campaign.

No doubt their winkers and noddors needed adjustment from overwork after this closed door meeting. Of course these attorneys will have all kinds of reasons why their discussions were private. blah blah blah.

Gibson Dunn touts itself as a "recognized leader" in representing multinational corporations, banks and government entities, having recruited an impressive collection of former judges, prosecutors and government officials who have left their positions to join the firm (in some instances, under highly suspicious circumstances). While corporate thieves go forth and prosper, prosecutions against truth-tellers are on the rise. Close connections to the top tiers of the legal system and the government allow Gibson Dunn to carve out an escape route for their clients

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

It's pretty clear dave123 that Gibson Dunn is one of the law firms that is driving this constitutional takeover. Here's the Corruption Watch List of attorneys. We suspect no attorney working for any of these firms is trustworthy, since even if they are not actively participating in the current obstructions of justice in Washington, they know about them, and are therefore complicit in their silence:

- Perkins Coii LLP
- Fenwick & West LLP
- Orrick Herrington LLP
- Cooley Godward LLP
- Weil Gotshal LLP
- White & Case LLP
- Blank Rome LLP
- Latham & Watkins LLP
- DC Bar Assoc.
- Fed. Cir. Bar Assoc.
- A.F.L.C.T.A.C.A.F.C. (Assoc. of Former Law Clerks and Technical Assistants for the United States Court of Appeals for the Federal Circuit)
- U.S. Patent Office
- Federal Circuit Court, Randal R. Rader, Presiding Judge
- US Supreme Court, John G. Roberts, Chief Justice
- Delaware District Court, Leonard P. Stark, Leader v. Facebook

It should be noted that these firms either represent President Obama directly, advise him directly, and are almost exclusively Democratic in their political affiliation. These firms are also close to Nancy Pelosi and Harry Reid.

The nexus of relationships would certainly indicate that these people are driving a hidden Facebook Club agenda in the current Washington standoff. We believe these people want total control of Digital America... healthcare, finance, relationships, spending, entertainment, phone calls, texts, emails... a nefarious agenda is afoot.

Ironically, Darren, the Facebook law firms all seem to be specialists in ethics and governance. (Un)ethics and (un)government? Beware a Facebook law firm bearing a PowerPoint on business and legal ethics.

I just sent this message to my Congressperson:

Re: Digital Totalitarianism, the Facebook Club & the priority to defund Obamacare

Most people don't realize that the Facebook Club only needs a snapshot of all American data once to take over. (Facebook has opened a data facility in Sweden that could house this data—outside the reach of U.S. laws). It's like a still photo. Once they have that database snapshot once, they will be able to "mine" that data for decades—even if they never got that snapshot again. That's because demographic data of the kind that can control people's lives, doesn't change quickly. It evolves over time. So, getting that data just once puts UNPRECEDENTED POWER into the hands of the unscrupulous (blackmail, coercion, sabotage, manipulation, business interference, robbery, harassment, etc.). Much of that data comes to them with Obamacare, if implemented like they want. They will know a person's every strength, weakness, vice, predilection, preference, orientation, secret, etc. When you add the NSA snooping, AP snooping, IRS snooping, that pretty much covers all Americans' personal data.

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

The threat is real and it is upon us IMHO. This impasse in Washington is driven by this IMHO. While those not in the Facebook Club may not understand why it is happening, their guts are telling them something is rotten. The reality is, once the Club gets it the first time, it will be 10 times easier for them to manipulate their way to access to it, again and again. "Digital Totalitarianism" is a very accurate description. This kind of power in private hands no less, will make history's previous dictators look like school children.

We must draw the line now, before they get this data. Once they get it just once, the barn door is open forever, IMHO.

Keep up the good work, and let us know how we can help.

Thought I would drop a note reminding everyone why the Judiciary Committees needs to get involved in this matter!  
Massive undisclosed conflicts of interest from Judges, lawyers and Freedom of Information personnel!

Records that are required by Law to be kept and be available to the public are said to be nonexistent. Then the FOIA personnel's excuse to the public is that we need to tell them

1. What continent the information exists.
2. What part of the country
3. What State they exist in.
4. What city they reside in.
5. What street they are on.
6. What building they are located in.
7. What floor, if a multi-story building, they are located
8. Which particular office they are in.
9. Which file cabinet they are located in
10. Which folder they reside in.

See Vanessa R. Brinkman, letter dated Aug. 15, 2013

Another reminder of judicial conflicts of interest is from Wikipedia.

A conflict of interest (COI) occurs when an individual or organization is involved in multiple interests, one of which could possibly corrupt the motivation for an act in another.

The presence of a conflict of interest is independent from the execution of impropriety. Therefore, a conflict of interest can be discovered and voluntarily defused before any corruption occurs. A widely used definition is: "A conflict of interest is a set of circumstances that creates a risk that professional judgment or actions regarding a primary interest will be unduly influenced by a secondary interest." [1] Primary interest refers to the principal goals of the profession or activity, such as the protection of clients, the health of patients, the integrity of research, and the duties of public office. Secondary interest includes not only financial gain but also such motives as the desire for professional advancement and the wish to do favours for family and friends, but conflict of interest rules usually focus on financial relationships because they are relatively more objective, fungible, and quantifiable. The secondary interests are not treated as wrong in themselves, but become objectionable when they are believed to have greater weight than the primary interests. The conflict in a conflict of interest exists whether or not a particular individual is actually influenced by the secondary interest. It exists if the circumstances are reasonably believed (on the basis of past experience and objective evidence) to create a risk that decisions may be unduly influenced by secondary interests. (1)

Amazing how ALL of the Judges associated with the Leader v Facebook case own stock in Facebook.

From Fidelity's website about mutual funds they have 3 ways to select.

Help Finding Funds

There are a number of ways to choose funds, whether you:

1. Would like Fidelity to select and monitor your investments for you.

## CODE OF CONDUCT FOR U.S. JUDGES

"CANON 2: A JUDGE SHOULD AVOID IMPROPRIETY AND THE APPEARANCE OF IMPROPRIETY IN ALL ACTIVITIES"

## GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact

2. Prefer to select funds yourself, supporting your decisions with guidance from investment professionals along the way.  
 3. Want to take an active role in building and managing your own portfolio, using our screening tools and independent research.(2)  
 If either reason 2 or 3 is the case then a reasonable person would be in management of that fund because he would have had to approve the stocks selected.  
 Remember if a Judge MANAGES his mutual fund he is required to notify all parties or recuse himself from the case, for possible conflicts of interest  
 We are then asked to believe that the Judges in question are all dumb and ignorant SHEEP when it comes to their financial holdings!  
 ALL have Facebook stock!!!!!!  
 Are they stooges to the Facebook Club  
 One person's observation!!!!!!

The United States is rated 19th on Transparency International's 2012 Corruption Perception Index. The U.K. is only 17th. Leader v. Facebook has put names and faces to the people undermining democracy in the developed world. Business is destabilized when corruption undermines contracts, privacy, property and business opportunity. How much of this debt ceiling controversy is fueled by the distrust in Washington generated by the hidden agendas and corruption of the Facebook Club? They are a Who's Who of President Obama's political support base, including a gaggle of law firms.

## HOW TO FILE A FRAUD COMPLAINT AGAINST A UNIVERSITY

The following universities were announced as participants in Ohio State Provost Joseph A. Steinmetz's corrupt MOOC education initiative named "University Innovation Alliance" (UIA). We have identified the instructions and online forms you need to file a complaint with the participants. MOOC stands for "Massive Open Online Course."

You should complain about:

(1) the intellectual property theft of social networking source code from Leader Technologies, Columbus, Ohio that is the software engine running the UIA;

(2) the corruption at Ohio State University and OSU's collusion with Battelle Memorial Institute which helped steal the software being used by UIA; and

(3) the mistreatment of OSU Marching Band Director Jon Waters regarding fabricated Title IX charges that were used to pave the way for Steinmetz to announce UIA.

Universities pride themselves on protection of intellectual property.

Therefore, these universities cannot participate in this abuse of inventor copyrights, patents and trade secrets by The

Ohio State Trustees and Administration. If these universities participate knowingly with Ohio State in its theft of intellectual property, then they are aiding and abetting the theft of intellectual property on a "massive" scale... Massive Open Online Course (MOOC) also known as The Eclipse Foundation.
