OHIO STATE TRUSTEES APPROVE CRONY INVESTMENTS IN JPMORGAN & FACEBOOK WHILE ABUSING THEIR MARCHING BAND & SOCIAL NETWORKING INVENTOR

DRAKE & STEINMETZ GIVEN \$100 MILLION DISCRETIONARY, UNACCOUNTABLE "BLANK CHECK" INVESTING AUTHORITY IN FIRST MONTHS ON THE JOB

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | OCT. 28, 2014, UPDATED NOV. 07 | PDF

NOV. 7, 2014 NEWS UPDATE—The Federal Circuit just issued a reprimand of California attorney **EDWARD R. REINES** of the **WEIL GOTSHAL LLP** law firm, the appeals attorney who traded on his insider relationship with disgraced former chief judge **RANDALL R. RADER**. Given the court's chummy relationships with the law firms and lawyers who make daily pilgrimages to Lafayette Square across from the White House, little can be gleaned from this anomolous event, other than they were shamed into it. This is a case of the pot calling the kettle black. Three of the judges who signed the reprimand are the three judges in the *Leader v. Facebook* appeal. These judges, **KIMBERLY A. MOORE**, **ALAN D. LOURIE** and **EVAN J. WALLACH**, failed then refused when compelled to disclose their mountains of Facebook interests during the *Leader* appeal, including their relationships to Weil Gotshal LLP (former Moore client), Reines and Facebook's appeals attorney, **THOMAS G. HUNGAR**, **GIBSON DUNN LLP**. Arguably, these judges' offenses are a much more egregious breach of the Code of Conduct ethics rules than Reines' silly BFF (Best Friends Forever) email that got Chief Judge Rader fired. [Click here for the Reines Reprimand Only \(1MB\)](#). [Click here for the Reines Reprimand with full public Exhibits \(28MB\)](#). These same judges march to JPMorgan's tune, hold several mountains of **JPMORGAN CHASE** stock, yet pretend impartiality in inventor Dr. Lakshmi Arunachalam's case currently.

OCT. 30 UPDATE

OHIO STATE DONOR JPMORGAN AND FEDERAL JUDGES COLLUDE TO FEED INNOVATION TO CRONIES

Yesterday, Dr. Lakshmi Arunachalam filed a reply to JPMORGAN in the Federal Circuit Court in Washington D.C. (the sole patent appeals court). She chronicles a sordid history of collusion between JPMorgan and the court's judges. She exposes the "legalized judicial piracy" underway in America by hiding judicial holdings in deep-pocketed infringers under mutual funds euphemistically named "safe harbor" blankets. JPMorgan's misconduct figures prominently in all three cases covered by this blog: (1) *Leader Technologies'* patents, (2) Dr. Arunachalam's patents and (3) the OSU Marching Band abuse. Given the kid-glove \$13b treatment that JPMorgan just received from U.S. Attorney General Eric H. Holder for the bank's central role in the 2008 banking collapse, *JPMorgan appears to run the U.S. justice system—rewarding hip-pocket judges with insider stock tips*. [Click](#)

(OCT. 28, 2014)—On Aug. 29, 2014, four weeks after firing OSU Marching Band director Jon Waters on a Title IX pretext, the Ohio State trustees approved sweeping changes to OSU investment policy.

According to the 440 pages of meeting minutes (originally 50 MB; we compressed to 16 MB), the OSU trustees voted to give **newly-installed** President **MICHAEL V. DRAKE** and **newly-installed** Provost **JOSEPH A. STEINMETZ** broad authority to invest up to \$100 million per investment. They also placed **newly-installed** trustee, **ALEX R. FISCHER**, on the finance committee along with trustee president **JEFFREY WADSWORTH**, Fischer's boss from Battelle Memorial Institute.

Buried on page 436, the trustees approved investing in three indexes: 60% in Morgan Stanley's MSCI index, 30% in Barclays' U.S. Aggregate Bond index and 10% in the Consumer Price Index.

FIG. 1—THE SHAME OF THE BUCKEYES, The OSU Board of Trustees & Administration. In their Aug. 29, 2014 meeting they approved unprecedented \$100 million investing privileges to newly-appointed officers Michael V. Drake and Joseph A. Steinmetz, men who have failed to disclose their personal holdings and other conflicts of interest in violation of the law and their oaths of office. These are the same men who had just fired beloved OSU Marching Band Director Jon Waters on a fabricated Title IX pretext which cleared the way for the U.S. Dept. of Education to magically absolve OSU of all Title IX sins under investigation. The elephant in the room question asked by the likes of Charles Barkley: Would this have occurred if Jon Waters was black?

ACCOUNT VALUATION

Ohio State officers Drake, Steinmetz and Chatas can invest up to \$100 million "at their discretion" p. 228

Notwithstanding the foregoing, the President, the Provost and the Senior Vice President for Business and Finance of the University, in consultation with the Chair of the Finance Committee of the Board of Trustees, may direct that certain LTIP funds that are transferred to the LTIP from Operating Funds as further described in Section III(E)(3)(b), up to a maximum amount of \$100 million, be invested at their discretion in compliance with this Policy, other than the Asset Allocation and Rebalancing and benchmarks provisions and as expressly set forth in this paragraph. Such LTIP funds will not be allocated units in the LTIP and any investments made using such funds will not be included in the unit value calculation referred to above. Such LTIP funds will constitute a separate component fund of the LTIP and will receive distributions in the amount of and only to the extent of distributions on the underlying investments made using such funds. Investment expenses and fees will be assessed on such funds to the extent applicable.

NEW, OCT. 29, 2014—FIG. 2—The Ohio State Trustees secretly (without public comment) gave newly-appointed President Michael V. Drake and newly-appointed Provost Joseph A. Steinmetz signing authority to invest up to \$100 million per investment "at their discretion" at their Aug. 29, 2014 meeting while a public protest at the firing of band director Jon Waters boiled outside, forcing the trustees to give spokesman Gary Leppla, a band alum and Dayton attorney, five minutes to express their grievance. Others wanted to speak, including parents of bandmen, but the trustees walked out. See *The Lantern* coverage. Source: *Ohio State Trustees Aug. 29, 2014 Meeting Minutes*, p. 228 of 440 pgs. CPA ANALYSIS OF AUG. 29, 2014 OSU TRUSTEE INVESTING AUTHORITY TO DRAKE / STEINMETZ LABELS IT AN UNACCOUNTABLE "BLANK CHECK"

NEW, OCT. 29, 2014—AFI investigators reached out today to an experienced certified public accountant for an evaluation of the page 228 investing authority in Fig. 2 above. [Click here for the CPA Opinion Letter.](#)

Ironically, despite their concurrent lack of ethics in the Jon Waters affair, they got religion and promised "no conflicts of interest or perceptions of conflicts of interest when making investment decisions" (p. 229). They violated this pledge the moment they voiced it.

UPDATE MAR. 25, 2014

FOUR CRITICAL AFI POSTS ON JUDICIAL COMPROMISE

Fully updated Mar. 25, 2014 in the wake of the Scribd censorship:

1. **WAS CHIEF JUSTICE ROBERTS BLACKMAILED** into supporting Obamacare by his ethical compromises in *Leader v. Facebook*?
2. **JUSTICE ROBERTS MENTORED** Facebook Gibson Dunn LLP attorneys.
3. **JUSTICE ROBERTS HOLDS** substantial Facebook financial interests.
4. **JUDGE LEONARD STARK FAILED** to disclose his Facebook financial interests and his reliance on

A public official has a conflict if he could benefit personally by decisions favorable to one side or the other in the matter. In such circumstances, the right thing to do is to disclose the conflict and disqualify himself from that decision. This helps insure that the decision benefits those he serves, and not himself, his friends, family or close relationships.

TRUSTEES APPROVED INVESTMENTS IN WADSWORTH'S MCBEE STRATEGIC CLIENTS WHO ARE ALSO OSU CONTRACTORS

FIG. 3—JEFFREY WADSWORTH, President, The Ohio State University Board of Trustees; CEO, Battelle Memorial Institute. Wadsworth's lobbyist, McBee Strategic, has 16 contracts with Ohio State. Before coming to Battelle, Wadsworth had no prior ties to Ohio, Ohio State or the Big 10; neither did Michael V. Drake. Their ties are all in California, LLNL, Univ. of Calif., Stanford.

Photo: The Columbus Dispatch.

The OSU Trustees try to avoid telling the public about their crony investments by hiding behind "indexes." Perhaps the biggest lie of the century is the notion that a public official can invest in a mutual fund that contains the stock he is interested in, and then avoid disclosing that holding when the company he is invested in comes before him in a public matter. If this were true, then the only conflicts that would have to be disclosed would be matters directly involving mutual funds. It is a silly notion that lawyers, politicians and bureaucrats have used to line their pockets with insider tips to grow rich while they are in office.

Closer analysis of the fund indexes reveals that the trustees approved all of McBee Strategic's clients who are Ohio State contractors for investing. McBee Strategic is Jeffrey Wadsworth's lobbying firm at Battelle Memorial Institute.

Any trustee who holds stock in any of the indexes funds approved had a duty to disclose that conflict and recuse himself from a decision in favor of that index.

The trustees conflicts of interest in selecting the Morgan Stanley and Barclay's indexes are many.

WADSWORTH TAKES HIS ORDERS FROM JPMORGAN, CITIGROUP & FACEBOOK

Chief among Wadsworth's cronies are **JPMORGAN**, **CITIGROUP** and **FACEBOOK**. These two banks are currently embroiled in a patent infringement battle with Internet pioneer, **DR. LAKSHMI ARUNACHALAM**. Dr. Arunachalam is former director of network architecture for Sun Microsystems, and is a true pioneer of how web transactions work. She holds over a dozen patents, and yet she is experiencing massive collusion among JPMorgan, the judges in her case, and the Patent Office who, like Wadsworth, are "chummy" with JPMorgan and Facebook. Stay tune for more developments in this case of deep-pocketed bullying of true inventors.

JPMorgan was also one of Facebook's underwriters who funded mutual funds like **Fidelity Contrafund** who helped facilitate the theft of **MICHAEL MCKIBBEN AND LEADER TECHNOLOGIES'** invention of social networking as well.

A FINANCIAL INTEREST IS A FINANCIAL INTEREST, NO MATTER HOW MANY MUTUAL FUND BLANKETS YOU THROW OVER THE BODY

The OSU trustees approved investments in the following McBee Strategic / Wadsworth clients: Facebook, Google, Alcoa, Boeing, Eastman Chemical, Fedex, Duke Energy, General Dynamics, General Electric, Honeywell, JPMorgan, Oracle, Praxair, Time Warner and WellPoint. However, from a conflict of interest perspective, Wadsworth had an affirmative duty to recuse himself from these decisions. Instead, he led the way.

WELLPOINT, INC., a donor to Betty Montgomery's 2006 campaign, and Woodrow A. Myers' company (a Michael V. Drake crony from Stanford), is the 5th largest investment in one of the funds (SPDR Barclays Aggregate Bond ETF). Drake had a duty to disclose this conflict and recuse himself. There is no record he did. Neither did Drake disqualify Betty

Facebook's Cooley Godward LLP attorneys for his appointment.

STOP FACEBOOK PROPERTY THEFT

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

Montgomery from being involved with the ongoing investigations/fishing expeditions involving the band.

The trustees also approved investments in **SMUCKERS**, even though Smuckers' CEO, **TIMOTHY P. SMUCKER**, serves as a trustee. At a minimum, Smucker should have recused himself from any decisions involving the two key indexes in which his stock is listed. There is no record that he disclosed the conflict.

The trustees approved a **TIAA-CREF** fund chaired by **HOWELL E. JACKSON**. Jackson is a former Harvard Law vice dean, former consultant to the IMF and World Bank, and long-time colleague of Lawrence "Larry" Summers, President Obama's 2008 bailout director who fed over \$33 billion to his Facebook underwriter cronies, Goldman Sachs and Morgan Stanley. Summers was also the former Harvard president when Mark Zuckerberg attended and was fed the Michael McKibben/Leader Technologies' programming code needed to start Facebook. (Michael McKibben's son, Max, also attended Harvard and is now a surgeon at UNC.) Summers is also a former Treasury Secretary who recently was overwhelmingly opposed by his economist colleagues to head the Federal Reserve.

WITCHES' BREW OF MUTUAL FUNDS

Tellingly, almost no Yale Law and no Ohio State Law graduates are involved in the Facebook Cartel. The Cartel is overwhelmingly comprised of unscrupulous Harvard Law graduates who are colluding with Wall Street in the formation of these witches' brew mutual funds.

WADSWORTH'S CRONY COLLEGES AND MEDICAL CENTERS TO GET OSU INVESTMENTS

The trustees also approved investments in **STANFORD UNIVERSITY, UNIVERSITY OF CALIFORNIA, MIT, CORNELL, PRINCETON, GEORGE WASHINGTON UNIVERSITY, CLEVELAND CLINIC, MAYO CLINIC**—all known members of the **FACEBOOK CARTEL**. Those OSU trustees and officers who have worked at any of these schools should have disqualified themselves because their friends and colleagues would benefit personally from decisions favorable to any of their cronies.

The trustees also approved investments in approximately 30 companies with known direct affiliations with the **FACEBOOK CARTEL**, not counting the mainstream media, where they approved investments in CBS, NBC, ABC, Comcast, Walt Disney and Fox. Any trustee who has personal holdings in any of these companies had a duty to disclose and recuse, but there is no record they did.

WADSWORTH AND CRONIES ARE LINING THEIR POCKETS WITH INSIDER OSU DEALS

Jeffrey Wadsworth took two bites at the conflicts of interest apple. (1) He arranged OSU contracts for his McBee Strategic lobbyist, and then (2) he arranged for these same cronies to be approved to receive Ohio State investing dollars—up to \$100 million, at practically the sole discretion of Michael V. Drake and Joseph A. Steinmetz, whom he had maneuvered into place following the Waters firing.

LEADER TECHNOLOGIES Investor Protection Act (Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking ...

—a technology upon which the President and U.S. government now rely.

—a technology stolen by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

Rescind. Investigate.
Sanction. Certify.

Contact your representatives. Ask them to pass it.

Real American inventors need your support.

THE OSU TRUSTEES ARE RUNNING A RACKET TO BENEFIT THEIR CRONIES, NOT THE PEOPLE OF OHIO

CONFLICT #1: MICHAEL V. DRAKE—*Newly-installed* president Michael V. Drake failed to disclose his financial holdings in his [Sep. 29, 2004 financial disclosure](#) filed with the Ohio Ethics Commission. He gave his broker's name instead. In so doing, Drake has seriously violated Ohio ethics laws and has thwarted the ability of the public to hold him accountable for his financial decisions.

Drake did not submit this disclosure until AFTER the Aug. 29, 2014 trustee vote. The devil will be in the details of his undisclosed investments. Inquiries into this lack of disclosure should be made to the [Ohio Ethics Commission](#).

Knowledge of Drakes's financial holdings are especially critical since he was give co-signing authority with provost Joseph A. Steinmetz up to \$100 million of OSU public funds

CONFLICT #2: JOSEPH A. STEINMETZ—*Newly-installed* provost Joseph A. Steinmetz does not make his financial holdings public, but given the conflicts discovered among his cronies, we can surmise that his conflicts are legion too. Steinmetz also failed to disclose his close association with M.O.O.C. (Massive Open Online Course) vendors, including Google and Oracle, whom he has been promoting.

Also, Steinmetz was given co-signing authority with Michael V. Drake over up to \$100 million in university investments (public funds), yet has failed to disclose his personal financial holdings for public scrutiny.

CONFLICT #3: ALEX R. FISCHER—*Newly-installed* trustee Alex R. GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's *Leader v. Facebook* attorney Gibson Dunn LLP. She credits this

firm with the reason why not a single Wall Street banker has gone to jail since 2008. [Click here](#) to read her article "Everybody hates whistleblowers." *Examiner.com*, Apr. 10, 2012. Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the *Leader v. Facebook* case, Theodore Ulyot, who appears to have helped lead the *Leader v. Facebook* judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in

Fischer and Barreras personally.

OSU HAS GIVEN SWEEPING POWERS TO THESE SCHEMERS

OSU football coach Urban Meyer does not just hand the reins of his football team to a new quarterback and expect him to perform well. Leadership takes time and trust from one's teammates and coaches. By contrast, these newly-installed OSU "leaders" are fumbling and stumbling, or so it seems.

They are either very stupid, or very sneaky. We don't think it is the former. We believe they have one goal: to get OSU's digital pipelines plugged in to their Silicon Valley and Wall Street cronies in order to gather Ohio voter data, and suck OSU ideas out to their favored companies ([just look at the list](#)). OSU generates a plethora of ideas in healthcare, research and student interaction.

A GLOBAL PROGRESSIVE AGENDA IS AFOOT. IT'LL BE GOOD FOR YOU, DID YOU GET THE MEMO?

In our opinion, Wadsworth, Drake and Steinmetz only care about their personal finances and achieving control of Ohio State's digital infrastructure in student interaction and research as good foot soldiers for the Cartel. They don't care about Ohio State's storied traditions. The band is expendable. Propriety is old fashion. Decency is passe. Nothing matters except achieving their goal by the time the Obama Administration is out of power. With control of those pipelines, they'll be in control forever.

Prudence left the building at Ohio State. Since when is it OK for trustees and officers, much less newbies, to be given sole authority to spend \$100 million per investment on their signature? Experience with the Obama energy stimulus handouts has already shown where these funds will go: to political hacks.

OSU's current trustee who are trying to seize control of OSU's cash, are the same people who fired one of OSU's more successful employees—OSU Marching Band Director Jon Waters.

In Waters' lawsuit, these are the same trustees who dug out a lampooning student calendars from Waters' desk drawer and are misrepresenting it in salacious terms. At the same time, they are performing back flips to make a flimsy case for "at will" employment technicalities—after that is, they cashed the \$30 million check that Waters generated for the university in the Apple i-Pad commercial. Unprecedented funds for a university music program.

No, the OSU trustee dog doesn't hunt.

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney dark arts, destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

Wouldn't you know it , we got our fish limit with the first stick of dynamite ! So now I am sitting out on the lake day dreaming when a lake ranger pulls up.....

" Hey mister, can I see your fishing license?"

" I am not fishing now, but sure....oh wait, it's in the Hummer"

" Did you run over that Prius near the boat ramp ? Are you an American citizen ?"

"Yes, sir on both "

" Then I will have to give you a ticket"

" Well what about those four foreigners sitting in that boat over there.....did you check them ?"

"Yes, earlier . They are not citizens so they don't need a licensethey are " legal" illegals."

"But they have head bands, automatic weapons, machetes, and they stole the Prius and that boat"

"Well, that's the new rules."

So now I start thinking. Things around here are really upside down.

- both our alleged president and that darling Clinton lady have now clearly stated that companies have no place in our society because they do not create jobs . We actually celebrate a smaller number of people trying to find work .

- a US Marine is rotting in a Mexican jail for making a wrong turn in Mexico while every person on this planet can cross our US border with a jukebox blaring on their back without confrontation from our border patrol....and we never leave anyone behind .

- we expand Medicaid to include everyone , but fail to provide adequate care for our veterans in the VA system . We never leave a soldier behind.

- we trade five radical Islamic killers for a lone deserter that left his fellow soldiers vulnerable during war. We draw invisible "red lines".

- we leave four Americans to die on our soil in Libya and declare "what difference does it make? And we never leave anyone behind.

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The *Leader v. Facebook* patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from *Leader Technologies* that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on *Leader v. Facebook* until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

WELCOME TO DONNA KLINE NOW! READERS!

AFI has been supporting Donna and is now picking up the main *Leader v. Facebook* coverage (she will continue coverage as well).

- our Dept of Revenge sees a video of Black Panthers with ball bats patrolling a voting site and they do nothing.....and then they give automatic weapons to drug cartel members and a border patrol is killed with one of those guns. Nothing happens to Eric Holder.
- two Americans are BEHEADED on video and Obama plays golf. And his swing sucks.
- the IRS targets only those folks that oppose the president and people on the left cheer this great new approach to debate.
- the Secret Service is corrupt and incompetent, the FBI is incompetent and toothless, the military is feminized, the borders are obliterated, marriage and faith are marginalized, and tradition is removed from our American society. Wow.....

Folks, my mullet is on fire. Most of our elected officials and the bureaucrats that support them are liars, deceivers, manipulators, and are dishonest.....and I hate fish. I have discovered another suspicious item of conduct among the Facebook Cartel. One of Facebook's biggest stockholders is T.Rowe Price. In practically every T.Rowe mutual fund, about 5% or more is held by "T. Rowe Price Reserve Investment Funds, Inc." However, it has been difficult to discover the holdings in this fund.

So, I started digging at the SEC and finally found the latest listing at:

T. Rowe Price Reserve Investment Funds, Inc., FORM N-Q, Aug. 31, 2014

<http://www.sec.gov/Archives/edgar/data/1034386/000120677414003164/nqrf.htm>

The suspicious thing about this filing is that none of the numbers and stock names are searchable! They're all displayed as JPG PICTURES!!! This is obvious obfuscation. After all, this is T.Rowe Price, one of the largest shareholders in Facebook/LinkedIn/Instagram and Baidu (China). These are the prime proponents of "big data" and getting everyone's data online and searchable!!!

My conclusion: T.Rowe is obscuring search access to their investment data for the "T. Rowe Price Reserve Investment Funds, Inc."

Thanks Rain,

Friends have made a PDF of the "T. Rowe Price Reserve Investment Funds, Inc., FORM N-Q, Aug. 31, 2014" here. These online records have a way of changing after AFI exposes them!

We have just attempted to perform character recognition on the T.Rowe Price PDF file above and found something else very interesting. The images of the tables are blocking the program's ability to perform the recognition. This will require some more work. This is very unusual and out of the ordinary. Someone definitely doesn't want search engines to read these files, and it looks like Adobe Acrobat is playing their tune by refusing to render the T. Rowe Price data table images as text.

FB for currency scams? EU may probe bankers' social media

RT

Between 2005-2010, banks manipulated the Libor interbank lending rate which led to more than \$6 billion in fines in the longest-running banking scam in history (But who was running this SCAM)

The Fed certainly knew about the risk-hiding Libor manipulation where banks submitted lower Libors to improve market confidence. Each morning at a meeting of UBS's interest-rate-derivatives desk in Tokyo, Mr. Hayes would change his status on his Facebook page to reflect his daily desires for Libor to move up or down Facebook than added the feature to tag certain friends or groups, (bankers lawyer Shady traders etc.) The ponzi scheme had everything it needed mark zuckerberg ,They all new that facebook was stolen and the cod David Kirkpatrick and Henry Blodget new about libor manipulation as far back as 2004 IN the early days of FACEBOOK david Kirkpatrick set up libor manipulation in England under the guise of doing an investigation . Remember how this blog constantly claimed that the Federal Circuit was in the hip pocket of Ed Reines? So much for that theory. The court actually sanctioned him (very publicly).

<http://patentlyo.com/hricik/2014/11/publicly-reprimands-recipient.html>

I think what is more interesting is that this demonstrates that when a judge or attorney actually acts improperly, the judicial self-reporting system does kick in to correct the problem. Contrast this with the hundreds of complaints this blog has levied against the federal circuit judges, attorneys, supreme court justices, administrative officials, etc. If any of those complaints actually had merit, we would have seen the same type of disciplinary action.

discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the

claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. (Read Leader's May 20, 2010 motion here.) He also permitted the jury to ignore the Pfaff v. Wells Electronics, Inc. test for on-sale bar, even after instructing the jury to use it. (See that Jury

Instruction No. 4.7

here.) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. See his Sep. 14, 2009 Order. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO.

Judge Lourie also failed to apply his own law-test in

Group One v. Hallmark Cards to the evidence. After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Deer Beer calls AFI investigations "theory." He is either intentionally practicing misdirection, or he can't handle the facts. Either way, financial reports and public documents from the perpetrators themselves don't lie. Facts and evidence are pesky things. The fact that the Federal Circuit issued this opinion is little more than face saving, and proves that they really do know the law, and are just choosing not to follow it when their deep-pocketed chums are sued by real American inventors.

Email comment by TEX:

Deer Beer, your post is sophism ! To say that a disclosure of gross malpractice and fraudulent activity by a member of the patent circuit court proves that it is NOT corrupt , is , quite frankly, ludicrous. Would two sanctions give further authenticity to your argument ? How about three ?

I suspect that you may be a lawyer or an advocate for the court. Have you read the arguments in the original case wherein Leader won all eleven points on defense of their patents but the findings were usurped by the judges ? And then to find out later about the chain of relationships and monetary gains were all covered uphow can you , with a straight face , declare that there was no impropriety ? Surely you jest

I love the way you progressives justify your actions . How about this one.....Obama castigates American companies for outsourcing American jobs (a high majority of which are from his buddies in Silicon Valley) and then he talks about creating presidential mandates without consent of Congress to "insource " millions of cheap labor workers. Since 2000, the US businesses have outsourced around 500k jobs overseas ,while Obama is talking about 4 million new workers being insourced this year alone. Which one hurts the US economy the most ? Outsourcing was done for business reasons, insourcing is done for political reasons. Hypocrisy abounds but it was called out last Tuesday.

Oh, by the way, a big Rut Ro to the Dems.....I'll bet you are now excited about the " nuclear option" that Harry Reid imposed a couple of years ago. And I'll bet you are excited ,also , about the blame game in your party. Obama states that his policies ARE on the ballot but when they get smeared , he says that it does not reflect on him. This is going to be very entertaining.....

Have a great day, unless you have something better to do.....TEX

Deer Beer,

We concur with TEX. The leap of logic is astounding. The judges were clearly shamed into making a comment. Tellingly, Dr. Arunachalam's latest exposure of the judges, and their relationships, in her patent case against JPMorgan has NOT been docketed by the Federal Circuit. Such censorship of due process is too typical of this sole patent appeals court. Also notable in the Reines opinion, are the signatories Judge Kimberly A. Moore, Judge Evan J. Wallach and Judge Alan D. Lourie. These people comprised the appeals panel in Leader v. Facebook. Despite their massive financial holdings in Facebook interests, they were totally silent about their conflicts of interest.

Also, Deer Beer neglected to mention that Reines REPRESENTED the judges and the Federal Circuit Bar Association in pleadings in Leader v. Facebook. Neither Rader, Moore, Lourie or Wallach admitted their conflicts with Reines.

Court of Appeals for the Federal Circuit, panel judge in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. [See Motion to Disclose Conflicts of Interest.](#) Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr. Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's *Pfaff v. Wells Electronics, Inc.* test for on-sale bar evidence, which included even the Federal Circuit's own *Group One v. HOW TO FILE A FRAUD COMPLAINT AGAINST A UNIVERSITY

The following universities were announced as participants in Ohio State Provost Joseph A. Steinmetz's corrupt MOOC education initiative named "University Innovation Alliance" (UIA). We have identified the instructions and online forms you need to file a complaint with the participants. MOOC stands for "Massive Open Online Course."

You should complain about:

(1) the intellectual property theft of social networking source code from Leader Technologies, Columbus, Ohio that is the software engine running the UIA;

(2) the corruption at Ohio State University and OSU's collusion with Battelle Memorial Institute which helped steal the software being used by UIA; and

(3) the mistreatment of OSU Marching Band Director Jon Waters regarding fabricated Title IX charges that were used to pave the way for Steinmetz to announce UIA.

Universities pride themselves on protection of intellectual property.

Therefore, these universities cannot participate in this abuse of inventor copyrights, patents and trade secrets by The

Ohio State Trustees and Administration. If these universities participate knowingly with Ohio State in its theft of intellectual property, then they are aiding and abetting the theft of intellectual property on a "massive" scale... Massive Open Online Course (MOOC) also known as The Eclipse Foundation.
