OBAMA ATTEMPTING TO SHOEHORN CRONY CONTROL OF THE INTERNET DISGUISED AS "NET NEUTRALITY"

IBM AND ECLIPSE SHUFFLED COLUMBUS INNOVATOR LEADER TECHNOLOGIES' SOCIAL NETWORKING INVENTION TO ECLIPSE MEMBERS TO FACILITATE A GLOBAL DIGITAL TAKEOVER

BREAKING NEWS, FEB. 14, 2015: AFI investigators have just released the results of a year-long investigation, recently bolstered by the latest HSBC Swiss Bank leaks that proved long-suspected direct links between that banking scandal and the Facebook Cartel, especially Facebook's largest shareholder, James W. BREAKING NEWS, FEB. 09, 2015: FACEBOOK CARTEL'S "ASTROTURF" PROPAGANDA EXPOSED BY FORMER CBS INVESTIGATIVE REPORTER SHERYL ATTKISSON

Emmy-winning investigative reporter Sheryl Attkisson sheds light on "astroturf" propaganda (faking grassroots feedback) by deep pockets intent on bending or breaking the truth. "Astroturf seeks to manipulate you into changing your opinion by making it seem as if you're an outlier—when you're not. Hallmarks of astroturf and propaganda include use of inflammatory language such as quack, crank, nutty, pseudo, paranoid and conspiracy." [Full Story.](#) See her [TEDx talk](#) on YouTube.

LEGEND: Some corruptocrat photos in this blog contain a stylized Christian Celtic Wheel Cross in the background alongside the text "Corruption Central" meaning we have put the person's conduct under the microscope and discovered that he or she is at the center of global corruption. Judge Amy Berman Jackson asserts that it is unambiguously (to her anyway) a rifle cross hair. This shows her woeful ignorance of theology, history, symbology and engineering. It could be many things, but she clearly *wanted* to see a rifle sight (ask her about her role in Fast and Furious gun running). Others assert equally ignorantly that it is a pagan or white supremacist symbol. This stylized Christian Chi-Rho Cross dates to 312 A.D. when Emperor Constantine adopted the symbol after his history-changing "By this sign, you shall conquer" vision on the Milvian Bridge. A similar Wheel Cross form was widely used in Ireland by the eighth century. The triple entendre indicates that the person's corrupt life, when studied under a microscope, has been found wanting, but that there is hope in Christ if the person repents from his or her wicked ways. It triples as a reticle or graticule built into all sorts of eyepieces in microscopes, oscilloscopes, surveying instruments, astronomy optics,

47 INSPECTORS GENERAL COMPLAIN THE OBAMA ADMINISTRATION IS STONEWALLING THEM

Reporter Sharyl Attkisson wrote this morning in her blog: "By all neutral assessments, it has to be regarded as stunning disregard for a carefully devised system of federal oversight: Inspectors General say they are not being allowed to properly oversee the agencies they are assigned to police." These Inspectors General include those at the Commerce Department, SEC and the Justice Department to whom *Leader v. Facebook* activists have complained numerous times. [Full Story](#).

FACEBOOK SLAPPED WITH ANTITRUST SUIT; BIASED OBAMA JUDGE STARK ASSIGNED

On Dec. 29, 2014, [Facebook was sued in Delaware federal court by Social Ranger](#) over Facebook forcing app developers to use Facebook virtual currency. The ignoble **LEONARD P. STARK** was just assigned as judge despite his mountain of [financial holdings in Facebook interests](#). Stark appears to be doubling down on his Facebook corruption after his misconduct in *Leader v. Facebook*. So much for Canon 2 of the [Code of Conduct](#) that he pledged to follow: "A judge should avoid impropriety and the appearance of impropriety in all activities." Will Social Ranger's attorneys move immediately for Stark to be disqualified, or will they turn a blind eye and throw their client under the bus? Their email addresses are in the complaint. They should be given a heads up, then let's follow whether they operate in "good old boy" silence, or stand

precision pointers, binoculars, etching equipment, and yes, gun sights, but also computer mouse pointers! Therefore, to claim that it could only mean a gun sight, as Judge Jackson did, is truly ignorant. As shown, it is a call to prayer and repentance based upon microscopic observation of the corruptcrat's conduct. For Judge Jackson to use her ignorance of this symbol as the excuse to gag Roger Stone's **FREE SPEECH** right to defend himself is heinous abuse of authority. Chief Justice John Roberts should censor her immediately. Patriots must demand it.

PAY-to-PLAY NEW WORLD ORDER

This timeline shows how insiders sell access & manipulate politicians, police, intelligence, judges and media to keep their secrets

Clintons, Obamas, Summers were paid in cash for outlandish speaking fees and Foundation donations. Sycophant judges, politicians, academics, bureaucrats and media were fed tips to mutual funds tied to insider stocks like Facebook. Risk of public exposure, blackmail, pedophilia, "snuff parties" (ritual child sexual abuse and murder) and Satanism have ensured silence among pay-to-play beneficiaries. The U.S. Patent Office is their toy box from which to steal new ideas.

SMALL VICTORY FOR IMPARTIALITY, OR C.Y.A. FOR FACEBOOK, IBM, ECLIPSE & NSA?

(JAN. 24, 2015 UPDATE)—On Jan. 8, 2015, Judge **ANDREW L. CARTER, JR.** recused himself without explanation in *U.S. (ZUCKERBERG, FACEBOOK, ECLIPSE) V. CEGLIA*. We claim this as a small victory for American justice, but let’s not celebrate very long. Carter’s replacement is Judge **VERNON S. BRODERICK**. Broderick is a new Obama judge, like Carter, who was magically elevated to the *ACLU v. Clapper (NSA)* appeals panel. Is Broderick running cover for **THE ECLIPSE FOUNDATION** (the NSA’s embedded systems technology) and the **FACEBOOK CARTEL** ?

On July 29, 2014, we published our investigation into the financial holdings of [Judge Andrew L. Carter, Jr.](#) in the *USA v. Ceglia* criminal trial. **ERIC H. HOLDER, JR.’S** Justice Department unconscionably sued Ceglia for wire fraud after Ceglia’s *blistering* deposition of Facebook experts, **BRYAN J. ROSE** and **MICHAEL F. MCGOWEN**, Holder was very evidently attempting to bury Ceglia in more litigation to prevent further exposure of [The Eclipse Foundation](#).

Rose and McGowen revealed for the first time that the “missing” Mark Zuckerberg Harvard evidence was never “lost,” but was in the hands of Facebook’s *Leader v. Facebook* appeals attorney, **GIBSON DUNN LLP** the whole time. Facebook’s trial lawyers in *Leader v. Facebook*, **COOLEY GODWARD LLP**, told the court that Zuckerberg’s 2003-2004 computer files and documents were “lost.” The Rose and McGowen testimony verified that Cooley Godward and Gibson Dunn lied.

Magically, Facebook resurrected those 28 Zuckerberg hard drives and emails for the Ceglia case just *two days* after the Federal Circuit court of appeals (the patent appeals court) in Washington denied [Leader Technologies’ appeal](#). What were they so intent on hiding from Leader? When the judges were told about this new evidence, they ignored it. They also failed to disclose their substantial in Facebook, Facebook underwriters and stakeholders. Neither did they disclose their close relationships to Facebook’s attorneys Gibson Dunn LLP, Cooley Godward LLP and Weil Gotshal LLP.

ZUCKERBERG CITES *BUSINESS INSIDER* SECURITIES FRAUDSTER HENRY BLODGET AS A FACT SOURCE FOR HIS HARVARD HISTORY

More evidence of Eric Holder’s brutishness came on Oct. 20, 2014 when [Facebook and Zuckerberg sued ALL of Ceglia’s attorneys](#) for persecuting them with frivolous claims (age-old scoundrel tactic: accuse your victims of what you are doing). Most telling in Zuckerberg’s complaint is his reliance on alleged evidence of his 2003-2004 activity by [HENRY BLODGET](#), co-founder of *Business Insider*. Blodget became a journalist after he was permanently banned from the securities business and fined \$4 million for securities fraud.

We believe Zuckerberg and Facebook hired Blodget and **DAVID KIRKPATRICK** (*The Facebook Effect*) as their early hired media liars whom the NBC, CBS, ABC, MSNBC, CNN, NYT, WSJ mainstream media quoted as fact sources in subsequent years. See [“Obama’s Wall Street handlers gag the mainstream media.”](#) See also previous post on mainstream media investments by the Facebook “dark pools” cartel. In his new complaint, Zuckerberg kept

FIG. D—JUDGE VERNON S, BRODERICK replaced Judge Andrew L. Carter on Jan 8, 2015 in *U.S. v. His body language says: “Help Me, I'm drowning in my lawlessness and lies!”

Nazi Swastika Soviet Hammer & Sickle Maoist Red Star Facebook

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

unthinking “low information voters” who accept his words uncritically anyway.

Buried in the details is a federalization of the Internet. We at AFI predicted that this would be his next move. He has many Silicon Valley IOUs to cover before leaving office. Six years of this president have taught us that he smothers his actual agenda in flowery opposites.

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

OBAMA'S DECEPTIONS ON NET NEUTRALITY

Free!	"Laying out a plan to keep the Internet free and open"	Lie. Obama will impose monopolistic federal regulation over the Internet that will permanently favor government infrastructure suppliers like IBM, Microsoft, Facebook, Google, Cisco, etc.

THE INTERNET A DECADE AGO—FOUNDED ON LEADER TECHNOLOGIES' SOCIAL NETWORKING INVENTION

A newly compiled timeline pulls back the covers on IBM's scheme, cooked up by a predominance of Harvardians, to wrest control of Leader Technologies' invention in 2001. The technology was placed in the hands of the people and companies that President Obama is now promoting in his 2015 "net neutrality" push. This group worked to smother Leader's patent property rights in a blizzard of legal sophistry.

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

If these people truly lost track of the authorship of social networking, then Chandler, Fenwick & West LLP and the other geniuses at The Eclipse Foundation have incompetently breached one of the most fundamental tenants of patent and copyright law—**authorship attribution**. This is yet another example of this **fraud**. In patent and copyright terms it is called **"inequitable conduct."** Note: Fenwick failed to disclose Leader's invention in prior art in hundreds of Facebook patents they began filing by 2007—yet more lawlessness from the Patent Office.

Clearly, “the dog ate it” tactic was afoot to steal Leader Technologies’ invention by an over-lawyered group of IBM, Harvard and Eclipse sycophants who have *obscured their identities* for more than a decade. But, even these chickens are coming home to the roost now.

FIG. 3—THE MANTRA OF OBAMA’S CARTEL: IN CONFUSION THERE IS PROFIT.

These actors appear to be getting anxious to get their digital pipes and controls laid while Obama still controls the three-letter regulatory agencies (FCC, FEC, SEC, HHS, DOC, FTC, etc.)

It behooves all Americans to stop this “eclipse” of the U.S. Constitution. Perhaps "The Eclipse Foundation" name was Freudian, in more ways than one.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The *Leader v. Facebook* patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury’s admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook’s appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on *Leader v. Facebook* until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

CONGRESSIONAL SPENDING RIDERS NEED TO COMPENSATE FOR PATENT PROPERTY AND CIVIL RIGHTS CONFISCATED BY THE OBAMA GOVERNMENT

We need to ask Congress to start attaching riders to spending bills to compensate true American inventors whose inventions have been confiscated by this cartel.

We also need to ask Congress to figure out how to put these people in jail for their crimes and abuses of the U.S. Constitution.

ON SIMPLICITY: AFI readers ask regularly for Cliff's Notes of our posts. We made an editorial decision some time ago to err on the side of giving you the full facts, rather than try and summarize them prematurely. Here's the problem: This corruption is perpetrated by devious minds who hide their misconduct in misdirection and sophistry (e.g., you and I say "He lied" while they say "He ran afoul of the situation with misperceived facts."). You'll read this in spades in the tortured 13-page Office of Government Ethics (OGE) advisory linked below. While these guys get paid \$800 an hour, the rest of us must do real work. Having contributed to this research, it is crystal clear that the firewall of integrity between Harvard Business and Harvard Law crumbled in the 1990's. By the time Larry Summers became president of Harvard in 2001, he was overseeing little more than a mob enterprise.

The Harvard Law and Harvard Finance scoundrels were coaching each other on how to fleece America and undermine our Republic with their ghastly philosophy of self-aggrandizement. That is when they hand picked Obama and Holder as their wind up toys. All roads lead back to Harvard. James W. Breyer (Accel Partners, Facebook's largest shareholder) graduated from Harvard. Professor James P. Chandler taught at Harvard Law, so when Leader Technologies selected him to be their Washington patent and copyright attorney, they had no idea that he would so flagrantly and completely abandon his ethical oath. One lesson to real inventors is beware of patent attorneys making promises.

This latest post makes no logical sense and is riddled with false statements. Let's take some of the most egregious.

ECLIPSE FOUNDATION

A while ago, some commenter claimed that the original source code for the Eclipse Foundation came from Leader. There is zero evidence that this actually occurred, but nonetheless this blog has now decided that this statement should be taken as gospel.

It is categorically false. See <https://eclipse.org/legal/legalfaq.php>. Specifically (and not surprisingly) it reveals "In the case of the Eclipse Project, the initial code base was contributed by IBM." Not surprising, since IBM founded the Eclipse Foundation.

This blog does not seem to understand anything about what the Eclipse Foundation is or what it does. It is a massive open-source project which counts hundreds upon hundreds of companies as members. Basically the entire tech world.

The reason that this blog's position makes absolutely no sense is the very nature of the Foundation itself. It is OPEN SOURCE, meaning that its code is available freely to anyone. Think about the logic here for a moment. This blog claims that Leader invented the most amazing code ever written and as a result, an entire secret government society stepped in to steal that code and use it to take over the world. Let's set aside the chuckles there and focus on what they supposedly did with that code.

Did they--as you would expect such nefarious actors would do--keep that code secret and use it to accomplish their evil goals? Did they use this supposedly incredible technological edge to muscle out everyone else in the tech world? NO! They did exactly the opposite of what they should have done if they had actually stolen code. They made the code OPEN SOURCE! Yes, they took this incredibly top-secret, groundbreaking code and made it so that ANYONE could use it, study it, create derivative works from it, etc. Basically, they did the LAST POSSIBLE THING YOU WOULD DO IN THE WORLD if the supposed plot that this blog has laid out were even remotely true.

And here's the really telling fact. Leader's code is supposedly now the foundation for open source software. Show me a single instance--ANYWHERE--where an Eclipse module implements Leader's technology, or a single instance where even a line of Leader's code appears anywhere in this open source community. It's all there. It's all freely accessible. And yet all we hear are crickets.

Deer Beer, you are wasting your time with this crowd. It's funny that this blog posted the "in confusion there is profit" graphic, because that is exactly what goes on here. In fact, that is all that goes on here. Over the past two years, we have seen wild conspiracy theory after wild conspiracy theory, but no proof of any wrongdoing. What this blog does is try to line up random, unconnected events on a timeline, and then claim that is evidence. It's like the 6 degrees of separation Kevin Bacon game that we used to play in junior high. It ignores one of the fundamental tenets of statistics, namely that correlation does not equal causation.

You are spot on about the Eclipse Foundation. If you're capitalizing on ground-breaking technology to implement some master plan to take over the Internet (or rig elections, or orchestrate stock scams, etc.), the last thing you would do is make that software open source. You would keep it as secret as possible, never distribute it to another entity, and make sure the whole thing stays under wraps. Giving it to an open-source community is literally the last thing you would do. And I agree with your point that there is no Eclipse module that incorporates Leader's code, nor a single example of Leader's code appearing anywhere in the world of Eclipse software, which is freely accessible. If what this blog claims happened actually happened, then it would be incredibly simple to locate Leader's

preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. (See that [Jury Instruction No. 4.7 here.](#)) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See [analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO](#).

Judge Lourie also failed to apply his own law-test in *Group One v. Hallmark Cards* to the evidence.

After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. See [disclosure of substantial holdings in Facebook and Facebook-related stocks](#). Judge Moore failed

code (or even Leader's functionality) in Eclipse software. It's telling that never happened.

You overlooked the other big lie that this blog has put forth, namely that investment in mutual funds somehow constitutes a conflict of interest. It's so ridiculous that I don't even know where to start.

Let's take the JP Morgan example from a couple of posts ago. This blog admitted that the JP Morgan holdings in a mutual fund constituted ".0017%" of the value of the fund. Think about that for a minute. The holdings constitute less than 1/10 of 1 percent of the fund. And yet this blog would lead you to believe that this miniscule holding is somehow motivation for a judge to rule in JP Morgan's favor. Even if the value of JP Morgan quadrupled, it would have virtually no effect on the fund. There is no motivation whatsoever for a judge to rule in favor of JP Morgan on this basis, and this is the very reason that diversified mutual funds do not constitute a conflict of interest.

[Reply](#)

Michael Krecht January 19, 2015 at 8:49 AM

But this blog takes it WAY beyond that! Take a look at the list of supposed "conflicts" by Judge Siu in the previous post. It includes 27--yes 27--supposed conflicts, including entities such as Bank of America, Citicorp, Wells Fargo, Credit Suisse, etc. These are banks that have literally THOUSANDS of investments in various companies. So by the logic of this blog, a judge holding this fund would be required to recuse himself from literally thousands of cases that involved any of these companies. And this would have to happen daily, as judges get new cases on their docket on a constant basis. Essentially, judges would be "conflicted out" of probably 95% of the cases that come before them. Probably even more. And this blog would require the judge--again daily-- (1) examine his mutual fund holdings to find out every underlying company included in the fund and then (2) somehow examine the investments of every one of those companies! So basically, the conflict check for each and every case could take weeks to perform. Again, this is the very reason that diversified mutual fund holdings do not constitute conflicts of interest. I don't know why this blog can't seem to understand this.

Actually, I take that back. The purpose of this blog appears to be nothing more than to sling mud around and create the appearance of impropriety. But when you pull back the curtain, you see that the complaints actually have no substance. This explains why this story has not been picked up by the media, congress, or any entity over the past 3 years. It's a hollow, empty shell.

Cathy Lee January 19, 2015 at 4:28 PM

Dear Michael and Deer Beer--

You seem to have a problem understanding facts.

1. Open Source means that the source code is publicly available to be used.

This is not the case with Leader's Code. Leaders proved in court that Facebook infringed on all 11 of 11 claims of infringement. Facebook then used that code as publicly available source code--as have the U.S. Government and the Eclipse Foundation.

An analogy, if your cars had been stolen and called "public transportation" by a thief, you probably would have reported the theft to the police and requested return of your cars. That's what Leader Technologies did in FEDERAL COURT, and the evidence supported the infringement claims.

2. The evidence was pushed aside by corrupt judges who had conflicts of interest. You comment that the amount of the conflicts was small. But even Clayton M. Christensen, the notable Harvard professor who wrote the best selling book called the Innovator's Dilemma has states that there is no minimum level of lying or stealing. If you lie or steal a SMALL AMOUNT, where do you draw the line on when to stop? One must not lie or steal at all.

We have been given the rules by a higher power. The Ten Commandments and U.S. law clearly state that we must not steal or bear false witness. Those rules are simple. What don't you understand about the behavior or justification of the people who have stolen Leader's property?

Judges are smart people. They can read a simple mutual fund prospectus and understand their potential conflicts of interest. If they can't, they shouldn't be passing judgment over the rest of us.

The late George Carlin was quoted as saying: "The real reason that we can't have the Ten Commandments in a courthouse: You cannot post 'Thou shall not steal,' 'Though shalt not commit adultery' and 'Thou shalt not lie' in a building full of lawyers, judges, and politicians. It creates a hostile work environment."

to follow the long-held precedent for testing on-sale bar evidence in *Pfaff v. Wells*

Electronics, Inc.—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. [See Motion to Disclose Conflicts of Interest](#). Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr.

Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. [See a full analysis of these events at Donna Kline Now!](#) Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's *Pfaff v. Wells Electronics, Inc.* test for on-sale bar evidence, which included even the Federal Circuit's own *Group One v. Hallmark Cards, Inc.* test—a

Seriously, we can do better than that! And I sincerely hope your property never gets stolen (especially property that took years and ~\$15M dollars to create).

Michael Krecht January 19, 2015 at 4:54 PM

Cathy, I appreciate your comments but you have misread the posts above.

The whole point is that Leader's code was never provided to the Eclipse Foundation. If the code were supposedly so valuable, the last thing IBM or Chandler or whoever this blog claims had the code would do is make it open source so that anyone could use it.

And the proof is already out there. If Leader's code had been taken by Eclipse, then it would be out there, freely accessible by anyone (including Leader!). It's not. That is why I do not believe for a second that Eclipse has anything remotely to do with Leader. Prove me wrong.

And as to the judge's "conflicts", there just weren't any. Mutual funds aren't conflicts. This is very well-settled law. And the other conflicts that this blog claims are just silly.

As to your last point, this is how business works, and Leader's failure had nothing to do with Facebook. Leader was out selling their product a good 2+ years before Facebook even launched. If Leader's product was going to succeed, it would have happened then. It didn't. And the fact remains that Leader's business-focused product is entirely different from Facebook's consumer-focused platform. Facebook's success had absolutely nothing to do with Leader's target market.

Michael, looks like the Facebook cartel is getting worried and paying you your overpaid lawyer fees to post your lies and misdirection.. Keep lying until your lies become truth. We get it. I will point out just one of your many misdirections above since I too have followed this blog and read the evidence, The law on mutual funds is hardly "well settled law." In fact, there is almost no case law on it, so that disproves your statement on its face. What is well settled is how the so-called "mutual fund" advisory is being abused by your kind. "Canon 2: Avoid even the appearance of impropriety" is the standard, not "Cartel 2: I can hide investments in litigants all day long inside my mutual funds because Michael Krecht and his crooked friends say it is well-settled that I can."

Michael Krecht, First , a hat tip to you for advocating quite well for your client. You represent them in a professional manner. But that doesn't change the facts.....

The Eclipse Project was started several years before the Eclipse Foundation was launched. The Project was searching for a platform. When the platform was found, the Foundation was launched. It appears that the Leader code (which had a DNA complexity about it) heist and the launch of the Eclipse " Foundation" were basically at the same time that the Winklevoss twins claim that the Zuckster stole the ConnectU idea for Facebook. They made a movie out of that fiasco (The Social Network) and the Zuckster paid them \$65 million in a settlement. Ironically , the Zuckster was stealing another part of the Facebook plan from Leader even though there were patents (11 of them) to protect their invention. The twins had no such patents . Through a series of nefarious " legal maneuvers " and a bunch of blind judges , Facebook prevailed because of a Leader email that was claimed to be an " on- sale" bar patent disqualifier . Think about the timing.....all occurred within months of each other. The Foundation found a code . By making it "open source" it took on the air of something noble. And Facebook became a company worth \$34 billion.

Do you, Mr Krecht, believe in the notion of follow the money ? Or do you believe in moon dust ? Zuckerberg was and remains a thief and not just once. Many times. Is he smart ? Absolutely. Does that make it ok with you ? I regret to say that it appears so. These kinds of inventions and research/ development don't fall out of the sky. They take thousands of very smart man hours, unswerving dedication, and millions of dollars. That's why we patent these precious inventions.

Have all of the fun you want firing salvos at the inventors of the source code.....then turn your hat around and imagine this happening to you, your company, or your client. You were hacked, cheated, and scorned. Feel pretty good ?

Tex, I appreciate your comments, but here's the rub. I've followed this blog for 2+ years, along with Donna Kline's blog. After having seen all of the evidence, I do not believe, for a second, that anything was stolen from Leader. I say this for a number of reasons.

First, I don't think that what Leader patented was anything special. If you read this blog, you would think that Leader had invented the microprocessor, the internal combustion engine, and the Internet itself. In truth, Leader came up with a very mundane concept that adds additional metadata to a file. That's it. Leader didn't invent social networking. Leader's idea was to provide a corporate online whiteboard. Never did Leader pitch or promote the idea of social information sharing as we have seen with Facebook. And even Facebook wasn't original; it was essentially a copy of existing sites such as Friendster, MySpace, etc.

Second, Leader was provided with Facebook's source code in the trial. This is very well documented. If Facebook had actually incorporated Leader's code, then it would have been glaringly apparent during that inspection. That's your smoking-gun evidence right there, and it was absent.

Third, and similarly, if the Eclipse project or the Eclipse Foundation actually took Leader's code, again, it would be child's play to locate it and identify it, as the code is open source. There's no evidence here.

This blog has tried to weave the most convoluted conspiracy theory of all time. At the end of the day, I believe the true story is very simple. Leader sold its product too early. The company tried to cover it up, and the jury saw through that. The Federal Circuit deferred to the jury, as an appellate court almost always does. And the Supreme Court denied cert, as they do with 99+% of all of the petitions. That's it.

K. Craine January 22, 2015 at 7:14 AM

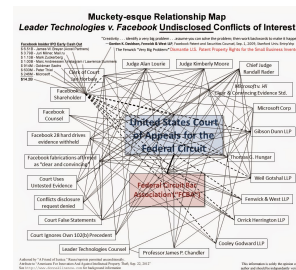

"Michael," you have repeated your opinions many times under different pseudonyms, but they remain unconvincing and founded on innuendo, haughty, elitist conclusions, and tired "conspiracy theory!" epithets. Leader's and America's problem is not lack of evidence to support blind justice, its a legal system that is not blind and is lining its pockets with your bribes. This site and other judicial corruption sites are providing ample evidence that your judge cronies are corrupt. You boys must be denied your toys. We encourage your colleagues to come forward and tell the truth on you. First one in can probably cut a deal.

Rain Onyourparade January 23, 2015 at 6:05 AM

The fundamental flaw in "Michael Krecht's" premise is his assumption that Leader has faced impartial tribunals, which this site has clearly shown with hard evidence that they have not. Therefore, his conclusions are all drawn from a faulty premise. Out of one side of his mouth he wants us to accept his premise that "Leader didn't invent anything special," but ignores that Leader proved Facebook infringes Leader's invention on 11 of 11 counts, and that there was no prior art (the proof that would have proved it wasn't special, which Facebook with its millions to hire for experts, couldn't conjure up.)

Then, he harkens back to corrupt Delaware District Court and Federal Circuit courts (his playground) where ALL the judges held Facebook stock and were Facebook attorney BFF buddies for proof that they can't all be wrong. Proof AFI has amply shown.

So Michael Krechts' premises are faulty, and therefore bogus. You cannot build a solid house on a faulty foundation. Even my kids know that.

[Editors]: We have removed "Michael Krecht's" latest post for violation of the editorial rules on his wild speculation about anonymous contributors, but we are re-posting his comment which further illustrates his uncommon knowledge of even other Facebook-related cases. What is most interesting is that he allegedly knows why Judge Carter recused himself when not even defendants' attorneys were told why (we know because we do our investigative work properly and checked). Further, he continues his fishing expedition on Zuckerberg's 28 hard drives and Harvard emails. We won't help him there since we have also done our investigative homework and don't get paid his \$1,000 per hour fee by Facebook to interminably float his speculation, misinformation and misdirection. BTW, "Michael Krecht," we have indeed taken an objective look at the Ceglia facts. The record shouts a gross violation of Ceglia's due process rights, for starters. You don't get to violate the Constitution, then call it a slam dunk case for the government.

-----Re-post of Krecht comment, below:-----

[REDACTED NAME], for god's sake. It's over. It was over 2 year ago. It's really time to stop beating this dead horse. Ceglia is as guilty as they come. Take an objective look at the evidence.

And Judge Carter did not recuse himself; this was a routine reassignment based on caseload.

And this claim that the Facebook emails were lost? Complete fabrication. If this were the

Email comment by TEX:

Old TEX learned a long time ago that a good and civil society can not tolerate basic liars, cheaters, obfuscators , manipulators, killers, and/or a majority other immoral citizens , or else it collapses under its own vileness. History is replete with examples of empires, countries, businesses, and individuals that survived moral turpitude for a while but ultimately just went too far and it caught up to them. I proffer Bernie Madoff, Enron, Soviet Union, Adolph Hitler, and yes even Barack Hussein Obama as examples of lies and deceit being discovered , judged, and finally castigated into the evil dust bins of history. Fear not, Obama will get there.

Facebook is one of those that will collapse. It was founded on theft, lies, and manipulation. Clearly the Zuckster used all of the above. Clearly the investment group around him used , among other things, their Harvard connections, coupled with the Russian mob money, to control its destiny. It appears that certain judges were inculcated into the scheme as well. It operates today as a gatherer of personal data that is nefariously being sold to others to be used , without full disclosure, to control human behavior while casting itself to the public as "a real sweet way for friends and families to stay in touch ". Obama knows the story . Eric Holder knows the story. James Chandler wrote the first chapter to the story. The scary part is that a bunch of people know the story, and it will become much more difficult over time to control the message, huh ? And you know the story, Michael Krecht, aka , lawyer for the defense. Lots of people are involved.

So Michael Krecht, attorney at law, should Leader really give up ? I don't think so.....as matter of fact, you boys had better pray that a Donna Kline, Sharyl Attkisson , or Charlie Gasparino don't put a full court press on this story. And others may , if they don't. This could be a career maker. As you know from your trial work, commission and omission are considered to be equal in the eyes of the real justice system. You might want to rethink your eagerness to defend Facebook's actions. Who knows when the lid will be removed? So, giving up isn't going to happen anytime soon. Have a nice day.....TEX

Only two weeks after Facebook CEO Mark Zuckerberg released a strongly worded #JeSuisCharlie statement on the importance of free speech, Facebook has agreed to censor images of the Prophet Mohamed in Turkey – including the very type of image that precipitated the Charlie Hebdo attack.

It's an illustration, perhaps, of how extremely complicated and nuanced issues of online speech really are. It's also conclusive proof of what many tech critics said of Zuckerberg's free-speech declaration at the time: Sweeping promises are all well and good, but Facebook's record doesn't entirely back it up.

Just this December, Facebook agreed to censor the page of Russia's leading Putin critic, Alexei Navalny, at the request of Russian Internet regulators. (It is a sign, the Post's Michael Birnbaum wrote from Moscow, of "new limits on Facebook's ability to serve as a platform for political opposition movements.") Critics have previously accused the site of taking down pages tied to dissidents in Syria and China; the International Campaign for Tibet is

 Sheryl Sandberg of facebook was put there by Larry Summers who is best friend's of Moscow partners Alisher Asmanov, Yuri Milner, DST, and Digital Sky Technologies invested up to \$3 billion in private Facebook stock to become the second largest shareholder using stolen bailout funds and they all knew how facebook was stolen?. Bill Maher says Obama "is perhaps the worst president...clamping down on the press" by sattkisson on January 31, 2015 in News

Bill Maher adds to the chorus of voices criticizing Obama administration crack down on press freedom. "I don't understand why he is perhaps the worst president we've had on clamping down on the press," Maher said.

Bill Maher is throwing some shade on President Obama's credentials as a supposed champion of freedom of the press.

The host of HBO's "Real Time" sat down Friday to discuss media coverage of secret government work with documentary filmmaker Laura Poitras, one of the journalists centrally involved in bringing revelations from former National Security Agency contractor Edward Snowden to light.

FROM THE HILL:

"He's used the Espionage Act more than any other president, right?" Maher added.

One of our readers should send the AFI links to Mr. Maher so he can learn the extent of Obama's Patriot Act abuses, and what Obama and his cronies aim to accomplish: CONTROL OF THE GLOBAL DIGITAL PIPES and to amass dark, cradle to grave digital profiles on every American.

Suggest that Mr. Maher start with this latest post and read the blogs in reverse order.

The evidence is all there. It was given flight by the unilateral powers that the FISA court gave to Eric Holder soon after Obama came to power:

Tex, I have a simple question, regarding the numerous comments made by Michael Krecht, and that is, if all of the years of investigation and blogging from Donna Kline and Americans for Innovation is a farce, then why has he been following this so closely for over 2+ years? That isn't the path of a non-believer. That is the path of a believer and someone who knows they are on the wrong side.

Hey Tucson group, you have asked the correct question about Krecht. Why hang around to disengage a bomb if no bomb exists? My first response is to follow the money. Somewhere, somehow, this person is engaged because of money. That's ok, it's the American way. But my question is why jeopardize one's personal character when being on the other side could actually create much more real, and honorable, wealth.....I feel confident that a whistleblower with intimate knowledge of the nefarious history of the Facebook heist could become very wealthy while remaining incognito. This would be money paid for doing the "right thing" rather than earning blood money to disrupt a journey of seeking justice. And if being famous sounds interesting, that is almost a given if the whistleblower had courage. I wish I had hard evidence of how this heist went down, I would love to be rich and famous. I promise you, I have the guts. How about you" Krecht"? Give it a thought. Have a great day, TEX.

Collingsworth suggested that the NFL was opening a can of worms. And inside , he said, were some worms. I agree and I hope the NFL buries anyone that cheated.....

This is just one of a million fractures in the total integrity of what America stands for. Think about the various institutions that we want to trust but just can't. The media, the school systems. the judiciary, the White House (especially the alleged President), our churches who distort Scripture, the institution of family (50% get divorced and ,now , same gender marriages), our military (they have bowed to political correctness) , the IRS, the DOJ, and even corporate America.

The NFL commissioner must take this seriously and be a example. This year alone he has dealt with a myriad of terrible issues, including murder. So far, I give him a very poor grade. Baseball let drug use go too far. The NBA is made up of mostly thugs. College coaches are not teaching young men about being strong men and women later in life, it's all about winning. Even in the band scandal at Ohio State we saw a collapse of integrity. I hate war but war is better than allowing a growing group of jihadists to behead Americans and get away with it. Obama has put this free world in a big mess. We are in real trouble in this country.

I played four sports in high school and boxed in junior Golden Gloves. I played D1 sports in college, and played a professional sport as an adult. Cheating, quitting, lying, etc. , were not even a thought for me or others. I served in the military. Same thing. Been in business for 40 years. Same thing. What the heck happened to us ? Today, we can see these flaws in everything Americans do. It's everywhere, it's ubiquitous, and it permeates our entire society. It makes me sick.

I am going to challenge all readers of this AFI blog to work hard to elect honest politicians. Challenge dishonest businessmen, cancel dishonest publications and turn off dishonest TV networks. Do not go to trashy, immoral movies. If sports allow cheating, quit supporting them. Take a stand, America. We are on the edge of total collapse. And, yes, I took my meds. Go Seahawks. sound fair. At the National Prayer Breakfast today he reminded people that extremism in the name of in religion isn't exclusive to Islam and has been carried out by Christians as well.

People are very willing to "hijack religion for their own murderous ends. [R]emember that during the Crusades and the Inquisition, people committed terrible deeds in the name of Christ," Obama said. "In our home country, slavery and Jim Crow all too often was justified in the name of Christ."

So even though Islam is the greatest murderous ideology in the history of the world with at least 250,000,000 dead according to historians, we must not forget Christians have done evil, too.

Here's the error in this flawed argument of moral equivalency. When Muslims commit terrorist acts in the name of Islam, i.e. beheading, kidnapping women and children, assassinating critics, etc., they are simply doing what Mohammed did. This is recorded in the Koran and the other authoritative books of Islam.

When Christians use their religion to justify murder and injustice they are acting diametrically AGAINST the principles of Christianity. According to Obama, "We see ISIL, a brutal vicious death cult that in the name of religion carries out unspeakable acts of barbarism claiming the mantle of religious authority for such actions." Where did they learn to be so vicious?

According to Islam's own account ...

Yr.:
613: Mohammed begins his public preaching in Mecca
622: Mohammad consummates his marriage to a nine-year-old wife.
624: The Nakhla raid begins violence in the name of Islam
624: The Battel of Badr, Muslims attack and defeat the Meccans
624: Mohammed attacks the Qaynuqa Jews and exiles them from Medina.
625: The Battle of Uhud where the pagan Meccans defeats the Muslims
625: The siege and exile from Medina of the Jewish Nadir tribe
627: The Battle of Trench: The Jewish Qurayzak tribe betrays Mohammed
627: Mohammed beheads the males of the Qurayzak tribe and enslaves the women and children.
628: Mohammed and the Muslims besiege Khaybar oasis and exile the Jews from it
630: Mohammed and the Muslims conquer Mecca
630: The Battle of Hunayn and Mohammed becomes the master of Arabia
630: Warfare against the Christians
•Three people are assassinated on Mohammed's orders for making fun of him; Abu Afak; Asma bint Marwan (Poetess); Ka'b bin Al-Ashraf.

CONTRAST:

The mind wanders when one realizes that one's President is lying to us about just about everything.

Wedding Ring Repair?

The Wedding ring is in for repair again this year. Since when does a plain wedding band need repairs, along with your watch, for a whole month? In a press conference last week Obama was not wearing his wedding ring nor was he wearing his watch. When noticed, his staff said his ring was out for repairs. No reason was given for the missing watch. You may recall that it has been repaired at the same time the last few years.

So it's just a coincidence that Muslims are forbidden from wearing jewelry during the month of Ramadan...

Can't possibly be that, because although he hasn't gone to a Christian church service since entering the White House, we know he's a committed Christian "cause he said so during his campaign". And don't forget his latest Prayer Breakfast wherein he blamed the Crusades for ISIS. Oh , and let's remind ourselves that Rev Jeremiah Wright was first a Muslim and Valerie Jarrett was born in Iran. Fact check that!!!

This is the same president that spent the Christmas holidays in Hawaii to avoid religious obligations as president at the White House. His children do not receive Christmas presents. Let's just face the facts and quit trying to distort the truth, we have a Muslim for president in the White House, and he has no knowledge of American traditions or history. Remember, it is OK in their Islam faith to deceive (lie) non believers.

I truly hope that I am a lunatic nutcase rather than Obama being a sleeper , one man Islamic cell that we naively gave eight unfettered years to destroy our country, one fabric at a time. I would say the jury is out for both of these options.

Have a great day..... TEX

On the issue of Muslims and the ethic of telling the truth, we reached out to an eminent theologian who is expert in both Christianity and Islam. He lives and works in a country where the citizenry is predominantly Muslim.

"Hello!, how are you? I am in Egypt now, tomorrow I am returning back to COUNTRY-NAME. According to the Qur'an people of the book (Westerners, Christians and Jews) are the worst of all creatures (Qur'an 98:6), and Muslims are not to befriend them Q.3:51).Therefore if Muslims are feeling that they are in the position of feeling threatened they can lie to them (Q.3:28). Please read those verses. You can find them on line (free online Qur'an in English). God bless you.

Wow. Just wow.

Tex, I have enjoyed your comments over the years, but you really need to step away from Fox News. I find you to be an intelligent person, but your mind is being corrupted in real time by those hacks.

You stated that "last week" President Obama was seen without his wedding ring and watch. And you are claiming that this is evidence that he is a secret Muslim, because Muslims don't wear jewelry during Ramadan. That statement is actually false, but you might want to check your calendar. Ramadan this year starts in June. As in 3+ months from now. And this whole myth has already been soundly discredited. The Internet is your friend. <http://www.snopes.com/politics/obama/weddingring.asp>

And as to the author of this blog "K. Craine", it's pretty amazing that you could receive a comment from "Tex" at 8:54 a.m., and then miraculously contact an "eminent theologian"

Deer Beer must be off the meds. I have read those citations from the Koran from numerous people. The timeline speculation is nonsensical. Who cares? Just read the citations for yourself. Deer Beer appears to have become an Islamic apologist now too. Weird.

K. Craine February 13, 2015 at 6:28 AM

Well now, who is into "conspiracy theories" now. Deer Beer is making a mountain out of a mole hill. We received both TEX's email post and the message from Egypt by EMAIL yesterday morning. The Email from Egypt was a reply to our query on the same subject from a week ago. The timing was coincidental.

As to the speculation about President Obama's religion, we must say that our friend in Egypt has told us that Obama is a Muslim repeatedly ever since Obama was elected in 2008. Our friend's academic qualifications are impeccable, so we are inclined to put some credence in the current conclusions about the subject based on the observations of our President's behavior.

What is the popular wisdom: "The proof is in the pudding?"

Deer Beer.....do you really and truly believe in your heart that America is collapsing because the rednecks watch Fox News? Calling our beloved president a Muslim sympathizer is not a function of channel surfing, it is for me a function of connecting the dots in his in his adolescent upbringing, and his everyday actions and words as an adult.

You seem to be keen on timelines , as all good lawyers should be. Apparently, however, timelines for bigger things don't seem to matter to you. Have some fun and go back to the early Leader Technologies timelines and follow the yellow bouncing ball from the Zuckster's Harvard days, to James Chandler, to the VC's in California, to Russian mob money, to the connections between the lawyers on the FB side and the judges assigned to the various cases, especially the appellate level. I personally wish Fox News would pick it up.....

No , America is not collapsing because of Fox News. They simply report the unfolding disaster. The other government propaganda outlets (NBC, MSNBC, et al) avoid talking about the criminal activities and constitutional usurpation going on in this administration. They talk more about FOX as the problem (as you do) to distract Americans from the actual " transformation of America" that Hussein Obama promised.

Seriously, we traded a handful of known terrorist killers for a US Army deserter and no one talks about it. Policeman shoot criminals and these idiots castigate the police. The IRS decimates trust, and FOX is blamed. Benghazi investigators are stonewalled, FOX is blamed. Obama is allowing the Middle East to blur the sovereign boundaries of Syria, Iraq, etc. through his planned incompetence while totally thumbing his nose at our allies. FOX is to blame, right ? We have 11,000,000 new legal quasi citizens to bless with free benefits at a time that we are absolutely beyond our ability to EVER repay our unfunded committed liabilities going forward. Think about this Deer Beer.....we owe to our future generations commitments that exceed more than half of all of the wealth that exists on this planet. And that is FOX's fault.

So, I say let's uncover the charade that sits as CEO of America. He's a fraud, he's incompetent, he's ideologically opposed to American values and traditions. Have a great day and enjoy Brian Williams, TEX

Editors (Feb. 10, 2015). Tax office says it was prevented from sharing HSBC tax data. BBC

http://www.bbc.com/news/business-31359962#story_continues_2

FCA (Financial Conduct Authority) boss Martin Wheatley was not told about the HSBC tax allegations before they emerged in the media.

The UK tax office said it was prevented by an international agreement from sharing information about HSBC's possible involvement in tax evasion.

Amid a row over what ministers knew and the regulator's role, HM Revenue & Customs said the details it had could not "move outside the department".

HMRC was passed a horde of documents in 2010 from France about clients of HSBC's Swiss operation.

The scandal has triggered promises of scrutiny from around the world.

The US government has been asked to reveal what it knew about the documents and the US Justice Department is among the bodies looking at whether action should be taken against HSBC.

'Restrictions'

The Financial Conduct Authority (FCA) chief executive Martin Wheatley had earlier told the Treasury Committee that he was "not aware" of his organisation being told of specific claims of collusion in tax evasion.

He said: "It's quite clear that the number of scandals that we've seen in financial services, particularly in banks, has been staggering, and the latest allegations I think are equally scandalous."

In the UK, a Downing Street spokeswoman said no ministers were aware of the claims.

HMRC told the BBC that under a deal with France it could not share the information.

Inside the bizarre fight for Mark Zuckerberg's bedroom privacy
In November 2012, Voskerician was in a contract to buy the property behind Zuckerberg's home in Palo Alto, California. He sent a letter to the Facebook chief executive officer saying he planned to tear down the home and build a 9,600 square-foot replacement. It would overlook the back of the Zuckerberg abode, a view that would include the master bedroom. A nasty legal spat between Mark Zuckerberg and his neighbour offers a fascinating glimpse into the Facebook founder's private universe and how Silicon Valley's power elite fend off those seeking to force their way into the club. Voskerician's attorney, David Draper, declined to comment on the complaint, which includes allegations of fraud, breach of contract and misrepresentation. Zuckerberg denied all the allegations in an October court filing. His lawyer, Patrick Gunn, and Makan's lawyer, Daniel Bergeson, declined to comment on the case. However the case turns out, Zuckerberg's privacy is unlikely to be threatened by other neighbours thanks to Makan, the former Goldman Sachs Group Inc. and Morgan Stanley executive who described his team as "Mark's family office."

S&P pays \$1.86b penalty for it's role in the meltdown this doesn't fix anything it's just a traffic ticket.

A thousand convictions per year may sound like a lot, but consider the size of the pre-crisis mortgage market and the large role shady mortgage originators played in it. In 2007, Countrywide Financial alone originated \$408 billion in mortgages and serviced 9 million individual mortgages worth a total of \$1.5 trillion. This is the same company that failed to send the actual mortgages it originated to the people pooling them into securities, an incredible failure to perform their basic responsibilities. \$600 billion in pay option adjustable rate mortgages - widely sold to people who couldn't handle them - were issued industrywide from 2005 to 2007. Holder says (Well who gives a FUCK what holder got to say) When the Justice Department did release data on its own, it was glaringly misleading. Big splashy numbers thrown around in press conferences to announce enforcement actions often shrank in reality.

Email comment by TEX:

I grew up in the oil patch both drilling /operating wells and building gathering systems / pipelines. Without question , the energy provided by the " oilies" to our industries fueled our great industrial expansion. This country still relies heavily on oil and natural gas . And so does the rest of the world, especially the Middle East.

The primary source of funding for ISIS is the revenue provided by the captured oil fields in Iraq. The primary source of revenue for Iran is oil revenue. The primary source of revenue to the Saudi' s and Syria, Libya, and other radical Islam funding countries is oil revenue. If you knew that these countries were taking the demise of freedom loving countries around the world, would you talk about how misguided our citizens are by blaming Islam (a peaceful religion) , or would you make a decision to eliminate their funding ? To insulate the US from an economic shock of less oil available to the US and it's allies , would you block drilling, new refineries, and new pipelines, or would you aggressively expand our internal capabilities to withstand shortages ? Which of these is Obama doing? He told us that this is not a religious war, at least not to us. He said we are winning, yet, ISIS advances.

The people that hate us the most (Russia, Venezuela, Iran, ISIS) have oil production in some measurable quantities. If we don't advance our own capabilities , they can also mess with our economic future. Many of the new very large undeveloped oil fields are off of the coast of Africa. The radicals are strategically taking control of those precious assets and we sit idly by. Interestingly , all of these enemies of freedom have substantial wealth planted in the nations that they are trying to engulf . London, Paris, New York, San Francisco, and even Washington, DC, are havens for their wealth. The US houses trillions of dollars of wealth that finds its way into the coffers of radical Islamists pockets.

So TEX is going to give Obama a plan.....carpet bomb all oil wells in Iran controlled by ISIS. NOW. This afternoon.....Then, If other surrounding nations provide funds to ISIS, take out their oil fields. Stop their only source of revenue now. Send a message to the world that we are tired of being beheaded. Take control of all funds , weapon outlets, and markets necessary for the radicals military advancement. Put together a plan to militarily isolate these killers and kill them back. The map of ISIS controlled land is growing faster than anyone could have imagined. They are loving the cowardly approach that Obama has laid out for our nation. These unrelenting killers do not fear the United States of America and they must.

What does it take to get Obama's attention off of the golf course and his political fund raising? How many do we watch die before we put together a meaningful strategy ? Hey Obama, they want to come to DC.....they want to go to Rome, and London, and Paris. Wake up and lead us . You were not elected to watch us wither away into insignificance. Grow some huevos and be a man.

And now a serious challenge.....Obama, come to Texas. Let's have a small challenge event....just me and you. We will wrestle five minutes. Spar in a ring for five minutes. Shoot free throws (I will spot you five to 20). Play 18 holes of golf (I will give you a shot a hole), and then let's debate about our economic well being with no TelePrompTer. If you win any one of these, I will back off.....and I am 70 years old.

Have a great day, TEX=
