HILLARY SERVER-GATE COVERED UP BY FBI DIRECTORS

OFFSHORE HEDGE FUNDS FEED PAYOLA TO HILLARY AND RUN THE FBI

CONTRIBUTING WRITERS | OPINION | *AMERICANS FOR INNOVATION* | APR. 01, 2016, **UPDATED APR. 05, 2016** | PDF

FIG. 1 – JAMES B. COMEY. FBI director since 2013 when he replaced 12-year director Robert S. Mueller. Mueller was chief counsel for London-based bank HSBC, exposed in 2015 for sheltering \$100 billion in client funds in murky offshore tax havens populated by drug dealers, money launderers and arms traffickers. Comey also served as chief counsel for Bridgewater Associates, the largest hedge fund in the world. In 2012, Comey's Bridgewater salary was \$6,632,616 just before taking over the helm at the FBI. In his first year at the FBI, he received another \$3.3 million in Bridgewater severance cash outs. Others might call it payola from his Cartel buds. A year later, his net worth jumped up to \$34 million. Comey is either the best lawyer ever, or he keeps secrets from the American people. With such exclusive Cartel relationships nurtured by Hillary and Bill, it is highly doubtful Comey will actually move against Hillary Clinton for abusing national security on her personal server.

Management (BLM) confiscations, baby parts trafficking, LIBOR rigging, open borders, overstayed visas of more than one million people, religious persecution and so on.

NOW WE KNOW WHY

The current and former FBI directors are members of a dangerous Cartel whose agenda is a self-styled New World Order.

For new readers, the “Cartel” is a group of about 200 known bankers, lawyers, politicians, bureaucrats, technologists and judges, both Republicans and Democrats, who are deeply invested in one another through relationships, stocks and mutual funds. This group is currently attempting to seize control of global information data flow. Their agenda is defined by A New World Order doctrine. See below.

A light was shined on the FBI director when it was discovered that former FBI director, Robert S. Mueller, III (2001-2013), recommended Obama’s Supreme Court recent nominee, Merrick B. Garland, to be circuit judge for the District of Columbia in 1995.

New World Order proponents, like hedge fund billionaire, George Soros, and former Hillary Clinton political adviser, Anne-Marie Slaughter, call it A New World Order. The rest of us call it plain old greed and lust for power in new clothes.

WE ARE APPROACHING A POINT OF NO RETURN: A DIGITAL WORLD CONTROLLED BY SPIES & POWER-MONGERS

The quantum difference from past attempts by power-brokers to rewrite history is the ubiquity of the digital world. In our new digital world, [information](#) is more valuable than [gold](#).

Since about 1990, unscrupulous people in banking, technology, politics, intelligence and law compared notes and began joining forces to embed their power permanently while lining their pockets.

The AFI research below concludes:

1. FBI directors since 2001 have been tied at the hip to a Cartel that promotes a new world order. The current FBI director James B. Comey (2013-current), and former director Robert S Mueller (2001-2013) have numerous financial holdings and relationships that tie them unmistakably to this group.
2. The net worth of FBI directors since 2001 have skyrocketed during the Great Recession:
 - a. Comey’s from [\\$206,000 in 2002](#) to up to [\\$33.5 million in 2012](#) (\$3.33 million increase per year)
 - b. Mueller’s from [\\$1.8 million in 2001](#) to [\\$7.0 million in 2011](#) (\$520,000 increase per year)
3. FBI directors since 2001 have enjoyed exclusive hedge fund holdings not open to average Americans:
 - a. [Comey](#) was paid a \$6,632,616 salary in 2012 by Bridgewater Associates, the world’s largest hedge fund, then another \$3,235,654 when he left Bridgewater to become FBI director.
 - b. Comey was general counsel for London bank HSBC which was caught sheltering \$100 billion in dubious client funds in murky offshore accounts.
 - c. Mueller held two exclusive hedge fund investments run by Bank of New York with at least 36% of the funds’ assets run out of the Cayman Islands. One fund, Defenders Multi-Strategy Hedge Fund LLC (one of four names the fund had), was closely associated with Ponzi schemers including Bernie Madoff. Mueller’s fund was fined \$200 million by the SEC for funneling clients to Bernie Madoff.

UPDATE MAR. 25, 2014

FIVE CRITICAL AFI POSTS ON JUDICIAL COMPROMISE

Fully updated Mar. 25, 2014 in the wake of

- On Sep. 06, 2005, Bill Clinton brokered a UrAsia uranium mining deal in Kazakhstan that netted The Clinton Foundation \$152 million in “donations” and \$1 million in Goldman Sachs fees, the broker of that uranium deal.

Department (2009-2011). Slaughter published A New World Order and is related to her new world order mentor George Soros by marriage. Much of what we know about Slaughter's relationship to Hillary comes from Judicial Watch's FOIA releases from Hillary Clinton's private email server.

Slaughter famously encouraged Obama and Clinton to "harness private incentives to public goals." To some, this sounds like German Fascism where Adolf Hitler did not nationalize industries that supported his policies. On the other hand, Jewish businesses and property were confiscated.

In other words, Obama and Clinton have used the power of their office to reward those who agree with them and punish those who don't.

This partisan policy has forsaken the American Republic. Instead of the process of compromise our Republic is suffering a wave of scandals including the bank bailout, energy company subsidies, Obamacare, IRS Tea Party targeting, BLM land rights confiscations, trafficking in baby body parts, LIBOR fixing, America Invents Act, Fast and Furious, Common Core, Massive Open Online Course (MOOC), open borders, Islamic pandering, allowing/losing more than one million visa violators and attacks on religious values.

WHY HAS THE FBI FAILED TO PROSECUTE THESE EVIDENT CRIMES?

FBI operations are shrouded in secrecy. Uncovering illegal conduct within the FBI is a minefield where out-of-the-office discussion of top secret information generally lands you in prison and the victim of smear campaigns by the powers that be.

An FBI run by honorable people keeping secrets is a good thing. However, an FBI run by money-grubbing, power-grabbing opportunists in the name of national security threatens the American Republic itself.

FOLLOW THE MONEY

One of the few times the public gets a glimpse into the personal affairs of the FBI director is in their Senate confirmation hearing and their required annual financial disclosure. The rest of the time, these people just refuse to answer questions or stonewall, with a smile and condescending "trust us" words, or with belligerence (Hillary: "What difference does it make.").

JUDGE MERRICK B. GARLAND'S NOMINATION RAISED SUSPICION ABOUT THE FBI'S IMPARTIALITY

Judge Garland's 1995 Senate confirmation document included a letter of recommendation from [Robert S. Mueller](#), then Assistant Attorney General, later FBI Director (2001-2013).

Investigation into Mueller's [2001](#) and [2011](#) financial disclosures revealed an astounding increase in net worth from \$1.8 to \$7.0 million. Cleverly buried in 233 entries were two hedge funds invested in almost \$100 billion in hedge fund assets with at least 36% of them offshore in the Cayman Islands.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

LEADER TECHNOLOGIES Inventor Protection Act (Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

—a technology upon which the President and U.S. government now rely;

—a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

Rescind. Investigate. Sanction. Certify.

Contact your representatives. Ask them to pass it.

Real American inventors need your support.

Mueller held Defenders Multi-Strategy Hedge Fund LLC and Mellon Optima L/S Strategy Fund LLC. These “funds of funds” invest in other hedge funds with innocuous names like “Pershing Square” and Glenview Institutional Partners.” But as HSBC whistleblower Hervé Falciani revealed in 2015, many are secret havens for money laundering, arms trafficking and tax evasion.

Mueller’s exclusive funds were not open to the general public. The minimum investment in several of the funds of funds is \$10,000,000—MESSAGE: Great unwashed Americans do not qualify, but we’ll make an exception for FBI director Mueller.

Mueller was evidently allowed into these funds by the Cartel to buy influence at the FBI. [See previous post](#) for more on this investigation.

Both Mueller hedge funds were managed by Mellon Bank of New York (BNY).

GROUND ZERO FOR WASHINGTON'S POISONED WELL?

No less than ten (10) BNY directors were shared between Mueller’s Defenders and Mellon Optima funds.

Laughably, these people were mostly designated “outside directors.” According to ethics laws, an outside director must have an “arm’s length” relationship to the company. One cannot be an “outside director” and be employed by the company also. This is a bad joke, a charade. Clearly these people care nothing about real ethics, they only make their actions look ethical to an unsuspecting outsider. Attorneys are especially adept at such deceptions. American regulators are obviously turning a blind eye for their friends. **The system of accountability is broken.**

These hedge fund disclosures are a charade of transparency. Are these people Ground Zero for the corruption that has poisoned the well in Washington, D.C.? Inquiring minds wonder. Few photos of these people are available, in fact, only two.

Mueller’s Defenders Fund had four names (same BNY bank) during its 9 years existence.

1. 2002-2004: Ivy Multi-Strategy Hedge Fund LLC
2. 2004-2009: BNY Ivy Multi-Strategy Hedge Fund LLC
3. 2009-2010: Defenders Multi-Strategy Hedge Fund LLC
4. 2010-2011: Ivy Asset Management LLC

MUELLER BENEFITED FROM PONZI SCHEMERS

The incorporator of Mueller’s Defenders Fund was [William P. Sauer](#). He had been sued two months earlier by the U.S. Securities & Exchange Commission for running two Ponzi schemes for which he eventually paid \$5 million to settle.

Then, the fourth name for Mueller’s holding, Ivy Asset Management fed clients to Ponzi schemer Bernie Madoff and eventually paid \$200 million to settle those complaints.

Tellingly, the FBI never prosecuted any of these BNY Ponzi schemers associated with Mueller’s Defenders hedge fund.

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook’s Leader v. Facebook attorney Gibson Dunn LLP. She credits this

firm with the reason why not a single Wall Street banker has gone to jail since 2008. Click here to read her article “Everybody hates whistleblowers.” Examiner.com, Apr. 10, 2012. Here’s an excerpt:

“Skillful manipulation of the firm’s extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage.”

This statement followed right after Davis cited Facebook’s chief inside counsel in the

MUELLER'S REPLACEMENT, JAMES B. COMEY, CARRIES ON THE FBI HEDGE FUND TRADITION

Counting his clerk job during University of Chicago Law School in 1982, Comey has held 15 jobs before becoming FBI director. He changed jobs every two years. Most employers would consider such job hopping a sign of instability, but in government legal circles, that makes you qualified to be FBI director. It appears that he was being groomed. See Bibliography below for a complete timeline of Comey's jobs.

James B. Comey's five most recent jobs were:

Sep. 2013 to current	U.S. Justice Department	Government	Member/Beneficiary	FBI Director

TABLE 1: James B. Comey's four most recent employers of 15 jobs since 1982. Source: [Library of Congress](#).

These disclosures prove that Comey is a card-carrying member of the IBM Eclipse Foundation and the NSA spy state machine.

New investigations into the financial holdings of Robert S. Mueller and James B. Comey reveal astounding conflicts of interest. These relationships would have stopped any mere mortal from being offered the top law enforcement job.

LOCKHEED PATENT THEFT

Comey was general counsel to Lockheed Martin (09/2005-11/2010). This might not be notable except for the fact that Lockheed Martin was and is an active member of IBM's Eclipse Foundation.

IBM Eclipse has and is exploiting the social networking invention of Columbus innovator, Leader Technologies. As Lockheed General Counsel, Comey was either asleep at the general counsel wheel, or he participated in the theft of Leader's important invention. In short, Comey aided and abetted the Great Financial Crime in the History of the World.

Lockheed prosecutions for Leader Technologies' social networking patent property theft have [not occurred](#).

BRIDGEWATER PAID COMEY \$7.2 MILLION IN 2012

[Comey's financial disclosure for 2012](#) declared \$7,200,595. That is \$600,000 per month. Is any former U.S. Attorney worth such pay? What were they paying for? The likely answer is influence with the future FBI director.

Comey's Bridgewater pay works out to \$3,800 per hour for a 48 week year. By comparison, \$1,000 per hour is generally considered the highest attorney fee. Rates for salaried inside attorneys are generally half that, or less.

Comey also disclosed direct holdings (not counting portfolio holdings in his many mutual funds) in IBM Eclipse Foundation members: Verizon, Intel, Emerson Electric, Microsoft, Qualcomm, AT&T, Apple, HP, Morgan Stanley, Lockheed Martin, JPMorgan, Wells Fargo

These holdings are more proof that Comey carries water for the IBM Eclipse Foundation thieves of social networking and the NSA spy state machine.

HSBC TRAFFICKING

In addition to his \$25 million stock portfolio, Comey came to HSBC from Bridgewater with a

Leader v. Facebook case, Theodore Ullyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

... our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

THE CHILDREN OF ISRAEL HAD TO MAKE A CHOICE BETWEEN GOOD AND EVIL

In uncovering these dark secrets of ill-gotten gain, one is reminded of the Children of Israel's temptations surrounding the Golden Calf at Mount Sinai. Rather than uphold their faith and follow the laws of God, many chose to worship a Golden Calf.

American culture is experiencing something similar, as evidenced by the behaviors described in this blog. What will happen to our country if we cannot soon separate the wicked from the righteous?

has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The *Leader v. Facebook* patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from *Leader Technologies* that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on *Leader v. Facebook* until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

John Key accused of jihadi bride scaremongering trying to justify his spying ring for who Obama?

Prime Minister John Key has rejected accusations of scaremongering about "jihadi brides" after it was revealed that New Zealand women being monitored by spy agencies had not actually left from New Zealand and were living in Australia.

They defend their liars vigorously and will not even admit it in the face of exposing truth. In short, the average politician in power these days, the truth is when that small truth finally suits them better than the original lie.

Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the Pfaff v. (See [that Jury Instruction No. 4.7 here.](#)) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Massive leak reveals money rings of global leaders

A massive, anonymous leak of financial documents from a Panamanian law firm has revealed an extensive worldwide network of offshore "shell" companies — including ones with ties to Russian President Vladimir Putin — that allow the wealthy to hide their assets from taxes and, in some cases, to launder billions in cash, a German newspaper alleges. The documents, combed through in the past year by hundreds of journalists worldwide, show links to 72 current or former heads of state, including dictators accused of looting their own countries. The data reveal details of secret offshore companies linked to families and associates of Egypt's former president Hosni Mubarak, Libya's former leader Muammar Gaddafi and Syria's president Bashar Assad, among others. Also included: Ian Cameron, the late father of British Prime Minister David Cameron. The elder Cameron died in 2010.

After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012).

Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. See [Motion to Disclose Conflicts of Interest](#). Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr.

See [a full analysis of these events at Donna Kline Now!](#) Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite).
