JFK: DISMANTLE THE ROGUE C.I.A.

MANY NSA AND C.I.A. WHISTLEBLOWERS CONFIRM JFK'S WARNING

WILL WE CHOOSE ACCOUNTABILITY TO GOD OR ENSLAVEMENT TO BULLIES?

I will splinter the CIA into a
thousand pieces and scatter it into
the winds.

— John F. Kennedy —

AZ QUOTES

FIG. 1: PRESIDENT JOHN F. KENNEDY SAW THE EVIL NATURE OF THE C.I.A. IN THE 1960'S. TODAY, LITTLE HAS CHANGED—THE C.I.A. CONTINUES UNCHECKED.

The whistleblowers cited below confirm that the C.I.A., in likely collusion with the Chicago mob and Vice President Lyndon B. Johnson, assassinated President Kennedy and covered it up. Of course, an age-old disinformation tactic labels such information as "conspiracy theory." The tactic is repeated to this day because it works to discredit truth tellers. However, the fact is, President Kennedy was killed soon after making his statement to dismantle the C.I.A. Coincidence? In President Kennedy's day, the official Deep State media narrative was controlled by the TV networks ABC, CBS and NBC. Today by contrast, cable news, as well as the alternative media, can now provide more truthful alternatives to the sycophant mainstream. As a result, America today has a **unique historical opportunity to stop the global tyranny of this rogue C.I.A.** before it completely takes over global communications infrastructure and snuffs out competitors.

This timeline shows how insiders sell access & manipulate politicians, police, intelligence, judges and media to keep their secrets

Clintons, Obamas, Summers were paid in cash for outlandish speaking fees and Foundation donations. Sycophant judges, politicians, academics, bureaucrats and media were fed tips to mutual funds tied to insider stocks like Facebook. Risk of public exposure, blackmail, pedophilia, "snuff parties" (ritual child sexual abuse and murder) and Satanism have ensured silence among pay-to-play beneficiaries. The U.S. Patent Office is their toy box.

(MAY 09, 2017)—Have Americans become cowards?

Is America's Judeo-Christian spiritual heritage vanquished?

Are we so addicted to TV binge watching that we will sacrifice our Republic in exchange for perpetual titillation?

Why do we so readily ignore the destructive jihadi foundations of Islam? Why are we so accepting of the unholy alliance between the radical left and jihadi Islamists? Are these seemingly unlikely allies playing our traditional Judeo-Christian culture like a fiddle? (Yes.)

How many C.I.A. / FBI / NSA whistleblowers do we need before the American people will **wake up and take action**? Edward Snowden is just one of our patriots. This article highlights others below.

COURAGE

The video testimonies of the following NSA and C.I.A. senior whistleblower agents are available below:

1. FBI: [Ted L. Gunderson](#)
2. NSA: [William Binney](#)
3. CIA: [Kevin Shipp](#)
4. CIA: [Robert David Steele](#)
5. CIA: [Susan Lindauer](#)

Perhaps former decorated C.I.A. Agent Kevin Shiff said it best:

"The United States Constitution is the supreme law of the land. It supersedes every other law in the US criminal justice system and the judicial branch. That's worth remembering. When the US government violates the Constitution, they are committing multiple felonies based on the foundation of our government."

Regarding the C.I.A. secrecy and fraud: "The Founding Fathers wrote document after document after document saying the Constitution was created to protect the people from the tyranny of government because government will go evil every time. That's its nature."

"The Bill of Rights was not written to govern the people. It was written to protect the people from the tyranny of government."

... That's our government. They want us to be scared of them with this big mean face, but they're a bunch of little tiny bureaucrats pulling levers trying to make you afraid of them ... the only thing that is going to change this is courage."

PROOF: ROBERT MUELLER CANNOT BE

BENJAMIN FRANKLIN: A REPUBLIC, IF YOU CAN KEEP IT."

In an unprecedented departure from history, America's Founders placed all political power in the hands of "We the People. "

America's Founders implemented a radical departure from the rule of men. In the American Republic, all government activity derives its power from The People.

However, even Benjamin Franklin expressed some doubt about the will of We the People to maintain and nurture the responsibility that comes with power. When asked by a politically active Philadelphian, Mrs. Powel [this is the correct spelling], "What kind of government have you given us?" Mr. Franklin replied, "A Republic, if you can keep it."

As Shipp emphasized, the U.S. Constitution was written to protect the People from the tyranny of government, not to protect government from the power of The People.

When The People fear the government, tyranny rules.

When the government fears the people, freedom rules.

FREEDOM IS NOT POLITICAL

However, the current state of affairs in America should raise the alarm for all freedom-loving people of every race, creed, color and political leaning left to right.

The pace of whistleblowing about an **uncontrolled global spy state** has increased exponentially. Do we really need more evidence than we already have?

Indeed President Kennedy warned about the dangers of our current surveillance state and collusion with the mainstream media "fake news" on **Apr. 27, 1961** in his address to the American Newspaper Publishers Association:

The very word "secrecy" is repugnant in a free and open society; and we are as a people inherently and historically opposed to secret societies, to secret oaths and to secret proceedings. We decided long ago that the dangers of excessive and unwarranted concealment of pertinent facts far outweighed the dangers which are cited to justify it.

This post reviews some of the more prominent contemporary whistleblowers:

STOP FACEBOOK PROPERTY THEFT

W L L HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Sledge and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

LEADER TECHNOLOGIES
Inventor Protection Act
(Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

- a technology upon which the President and U.S. government now rely;
- a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

Rescind. Investigate. Sanction. Certify.

Contact your representatives. Ask them to pass it.
Real American inventors need your support.

HOPELESSLY BRAINWASHED, OR READY TO FIGHT FOR OUR RIGHTS?

Will humanity turn over its will to this global technocratic tyranny?

Is humanity already so brainwashed by the mainstream media and education propaganda machines that this tyranny is an inevitability?

Time will tell.

The Bible in [The Book of Genesis 1:27](#) says human beings are made in the image and after the likeness of God:

"And God created man in His own image, in the image of God He created him; male and female He created them."

RESPECT

Since the stamp of the Almighty is imprinted on the heart of every human being, that person is deserving of respect for that image of God stamped on his or her soul, no matter who they are. This is a theological essence of both Judaism and Christianity.

BY CONTRAST, TO A TECHNOCRAT YOU ARE A WASTE OF AIR, SOIL AND WATER

Technocratic tyrants are on record as believing the exact opposite to the Judeo-Christian view of humankind.

They reject God. They praise Lucifer. They believe human beings are mere lumps of flesh. These self-described "elites" use pedophilia, including child sodomy and sacrifice to feed their lusts. They intentionally contaminate vaccines and infuse the atmosphere with harmful aerosols in jet streams (now admitted by C.I.A. Director Brennan) as experiments in weather warfare for depopulation. The virtues of character are turned upside down as mechanisms of deception and control.

These tyrannies are not new; they have been with us since the dawn of time.

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and

sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics

What is different today is the ability of these people to control information flow digitally. This control of the Internet is quickly devolving humans into a jellyfish existence.

Have we become too tolerant of intolerance?

The future of our Republic is in your hands. Will you act to stop it? Or, will you excuse this misconduct and just hope it goes away so you don't have to deal with it?

"POST-CONSTITUTIONAL GOVERNMENT . . . IN A TYRANNICAL FORM"

These whistleblowers have all said the same thing: a rogue C.I.A. runs America. Kevin Shipp believes "It is almost too late to stop what is a post-constitutional government. The People are no longer ruling our country. The government in a tyrannical form is now ruling the people by subversion, force and fear."

Will you muster the courage to resist, or will you just let it happen? What kind of world will you leave for your family and friends? Do you want "He/she did nothing while America was destroyed" on your tombstone?

"LET YOUR LIGHT SHINE"

For those Christians who believe they should withdraw from this fight and pray in a closet, we remind you of Christ's words in the [Gospel of Matthew 5:15-16](#):

"Neither do people light a lamp and put it under a bowl. Instead they put it on its stand, and it gives light to everyone in the house. In the same way, let your light shine before others, that they may see your good deeds and glorify your Father in heaven."

Prayer takes many forms. We posit that it is a combination of praying on your knees, speaking out with your voice, and taking action with your feet. Indeed, St. James wrote: "Faith without works is dead." [James 2:14-26](#).

Choose wisely. The future of the American Republic hangs in the balance.

* * *

property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The *Leader v. Facebook* patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from *Leader Technologies* that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on *Leader v. Facebook* until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. ([See that Jury Instruction No. 4.7 here.](#)) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. [See analysis of Judge Lourie's T. After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

President Donald Trump said Thursday he'd planned to fire FBI Director James Comey, regardless of a recommendation memo coming from Deputy Attorney General Rod Rosenstein, and that the decision had been made.

"There's no good time to do it, by the way," Trump told NBC News' Lester Holt in an excerpt from an interview that will air in full Thursday evening.

"Look, he's a showboat, he's a grandstander. The FBI has been in turmoil. You know that, I know that. Everybody knows that. [The FBI] has been in turmoil, you know that, I know that, everybody knows that. You take a look at the FBI, a year ago, it was in virtual turmoil, less than a year ago. It hasn't recovered from that."

ABC has canceled Tim Allen's Last Man Standing sitcom despite good ratings, leaving some to wonder whether the show was canned because of Allen's conservative politics.

Allen made headlines back in March when he appeared on Jimmy Kimmel Live! to remark on how conservatives have to keep quiet about any kind of pro-Trump leanings.

"I'm not kidding. You gotta be real careful around here. You get beat up if you don't believe what everybody believes," said Allen.

In Part Two, I point out that these former senior Obama administration huma-abedin-anthony-weiner-marriageofficials have much more to worry about than the so-called "Pizzagate" allegations involving trafficking. The corruption that is revealed in the following paragraphs is complete, proveable and worthy of long prison sentences. What's interesting is that just a month ago, Trump was reportedly furious with Comey for botching the case of Foster's exhumed body (ordered by Trey Gowdy) where it shows two shot to the back of the head of Foster.

Why is Vince Foster so important. Well, some say he was going to blow the lid on WACO, and since WACO led to the OK City Murray building bombing, which destroyed the evidence from WACO, it's a pretty big deal.

Staff. (May 10, 2017). 10 MAJOR FBI SCANDALS ON COMEY'S WATCH - The FBI interviewed almost every terrorist who successfully struck America. G. Rabien.

News just broke that President Trump is dismissing the director of the FBI, James Comey.

Comey will inevitably be remembered for the controversial role he played in the 2016 presidential election, where his agency conducted surveillance of the Trump campaign as well as investigated the Clinton camp for mishandling classified materials, giving both sides arguments for how the FBI ultimately swayed the vote.

But even before the 2016 campaign, the FBI endured a number of humiliations under Comey's tenure. Most damning were revelations that the FBI was generally aware of almost every terrorist who successfully struck America over the last eight years.

Here are 10 of Comey's biggest embarrassments at the FBI:

1. Before he bombed the Boston Marathon, the FBI interviewed Tamerlan Tsarnaev but let him go. Russia sent the Obama Administration a second warning, but the FBI opted against investigating him again.
2. Shortly after the NSA scandal exploded in 2013, the FBI was exposed conducting its own data mining on innocent Americans; the agency, Bloomberg reported, retains that material for decades (even if no wrongdoing is found).
3. The FBI had possession of emails sent by Nidal Hasan saying he wanted to kill his fellow soldiers to protect the Taliban -- but didn't intervene, leading many critics to argue the tragedy that resulted in the death of 31 Americans at Fort Hood could have been prevented.
4. During the Obama Administration, the FBI claimed that two private jets were being used primarily for counterterrorism, when in fact they were mostly being used for Eric Holder and Robert Mueller's business and personal travel.
5. When the FBI demanded Apple create a "backdoor" that would allow law enforcement agencies to unlock the cell phones of various suspects, the company refused, sparking a battle between the feds and America's biggest tech company. What makes this incident indicative of Comey's questionable management of the agency is that a) The FBI jumped the gun, as they were indeed ultimately able to crack the San Bernardino terrorist's phone, and b) Almost every other major national security figure sided with Apple (from former CIA Director General Petraeus to former CIA Director James Woolsey to former director of the NSA, General Michael Hayden), warning that such a "crack" would inevitably wind up in the wrong hands.
6. In 2015, the FBI conducted a controversial raid on a Texas political meeting, finger printing, photographing, and seizing phones from attendees (some in the group believe in restoring Texas as an independent constitutional republic).
7. During its investigation into Hillary Clinton's mishandling of classified material, the FBI made an unusual deal in which Clinton aides were both given immunity and allowed to destroy their laptops.
8. The father of the radical Islamist who detonated a backpack bomb in New York City in 2016 alerted the FBI to his son's radicalization. The FBI, however, cleared Ahmad Khan Rahami after a brief interview.
9. The FBI also investigated the terrorist who killed 49 people and wounded 53 more at the Pulse Nightclub in Orlando, Fla. Despite a more than 10-month investigation of Omar Mateen -- during which Mateen admitting lying to agents -- the FBI opted against pressing further and closed its case.
10. CBS recently reported that when two terrorists sought to kill Americans attending the "Draw Muhammad" event in Garland, Texas, the FBI not only had an understanding an attack was coming, but actually had an undercover agent traveling with the Islamists, Elton Simpson and Nadir Soofi. The FBI has refused to comment on why the agent on the scene did not intervene during the attack.

Sharyl Attkisson. (May 11, 2017). 12 TIMES DEMS, REPUBS SAID NO EVIDENCE OF TRUMP-RUSSIA COLLUSION; 10 TIMES PEOPLE CLAIMED THERE WAS. Full Measure.

To date, scandalous accusations of treason against Trump haven't borne out

Incendiary claims unsupported by public evidence after 10 months of probes

The following is a news analysis

Ten months after questions were first raised, there's no evidence that Donald Trump "colluded" with Russia, according to prominent Democrats and Republicans who have reviewed information or received briefings.

It's too early to call it a closed case, because various investigations into Russian influence in the 2016 campaign and links to Trump associates continue. That reportedly includes probes by the FBI, Republican-led congressional committees, and the military. The FBI has largely stayed mum on its work. But yesterday, President Trump claimed James Comey, as FBI Director, personally told him he was not under investigation.

It's significant that no evidence of wrongdoing by Trump has publicly surfaced long after multiple players in politics and media began insisting there was collusion. Among the allegations of treasonous behavior was a "dossier" peddled to the media and published in January. It made lurid claims about Trump ties to Russia, involving bribery and prostitution. But it turns out the dossier wasn't an intelligence report; it was campaign opposition research compiled by Trump political opponents.

This week, Former Defense Intelligence Agency chief James Clapper told Congress that the sourcing trail of the dossier was so poor, that the entire file was excluded from in an intelligence community assessment in January.

Yet despite the persistent dearth of evidence, there's been no widespread backtracking by those who have made claims against President Trump to date.

THE EVIL WITHIN

None of that "God-stuff" for me is a frequent refrain of people who visit websites like the one you are on now as you read the following article. For the more secular among us, you cannot deny that the evil of many of our leaders is on display for all to see, or who have the courage to see. One would have to be afflicted with the worst case of cognitive dissonance to not see what is happening and is unfolding right before our eyes.

The globalist-serving minions in Congress are desperately trying to remove President Trump over some mythical treason allegations connected to treason. Why? Because they see inevitable coming. Soon, those who with horribly depraved life-styles, one that involves victimizing children, will soon be held accountable.

Before the secular types dismiss the following as random, religious ramblings, you might want to consider that the Bible foretold exactly what is happening right now. Here are a couple of examples.

Romans 12:19

19 Dearly beloved, avenge not yourselves, but rather give place unto wrath: for it is written, Vengeance is mine; I will repay, saith the Lord.

Some people simply call it Karma, or, just good ole' fashion revenge, but I take great comfort and delight that evil does not get a pass from the Lord. And the older I get, the more I see the Lord's scale of justice being carried out in His time. Steve Quayle once told me that Donald Trump is God's special prosecutor and that in the end days, all the sins of the leaders will be revealed.

Julian Assange. (May 12, 2017). AfterMidnight. WikiLeaks.

Today, May 12th 2017, WikiLeaks publishes "AfterMidnight" and "Assassin", two CIA malware frameworks for the Microsoft Windows platform.

"AfterMidnight" allows operators to dynamically load and execute malware payloads on a target machine. The main controller disguises as a self-persisting Windows Service DLL and provides secure execution of "Gremlins" via a HTTPS based Listening Post (LP) system called "Octopus". Once installed on a target machine AM will call back to a configured LP on a configurable schedule, checking to see if there is a new plan for it to execute. If there is, it downloads and stores all needed components before loading all new gremlins in memory. "Gremlins" are small AM payloads that are meant to run hidden on the target and either subvert the functionality of targeted software, survey the target (including data exfiltration) or provide internal services for other gremlins. The special payload "AlphaGremlin" even has a custom script language which allows operators to schedule custom tasks to be executed on the target machine.

"Assassin" is a similar kind of malware; it is an automated implant that provides a simple collection platform on remote computers running the Microsoft Windows operating system. Once the tool is installed on the target, the implant is run within a Windows service process. "Assassin" (just like "AfterMidnight") will then periodically beacon to its configured listening post(s) to request tasking and deliver results. Communication occurs over one or more transport protocols as configured before or during deployment. The "Assassin" C2 (Command and Control) and LP (Listening Post) subsystems are referred to collectively as "The Gibson" and allow operators to perform specific tasks on an infected target..

For anyone familiar with the McCarthy era, it is mind-boggling to hear the Democrats (who have supported Russia since the 1917 Revolution) engaging in "red-baiting" against President Trump.

In 1968, the Kremlin decided that the Republican presidential candidate that year, Richard Nixon, was "profoundly anti-Soviet" and must be prevented from becoming president.

A massive international ransomware campaign apparently using hacking tools stolen from the NSA struck computers across the world Friday, shuttering British hospitals and hobbling a Spanish telecom.

As many as 74 countries in all were hit by the attack.

The ransomware, named "WanaCrypt0r 2.0," appears to use the stolen NSA Windows hacking tool "Eternal Blue." Ransomware makes computers or files unusable until a victim pays a ransom.

One antivirus company alone reported capturing tens of thousands of instances of the apparently enormous ransomware attack.

"We have observed a massive peak in WanaCrypt0r 2.0 attacks today, with more than 36,000 detections, so far," Avast Threat Lab Team Lead Jakub Kroustek said in a statement.

It has flowed basically into criminal enterprises that are combinations of government, NGO, banking, and criminal cartels that are working in lockstep to 'fleece' the American Republic of its wealth. This is a profound and succinct explanation that there are two distinct governments in America---the one we see as the charade, and the 'real on in power', which is totally criminal.

Once again, a headline-hungry Sen. John McCain, R-Ariz., is making waves by opposing the president, the leader of his party. But this time, the battle didn't go the way the media's favorite Republican was hoping.

President Trump's top-level team is finally complete, as Robert Lighthizer, Trump's nominee for the Cabinet-level position of United States Trade Representative, was finally confirmed by the Senate. Lighthizer won a resounding 82-14 vote, with many Democrats crossing the aisle to support Trump's nominee.

But Lighthizer faced strong opposition from some Republicans, notably from Sens. McCain of Arizona, Ben Sasse of Nebraska and Cory Gardner of Colorado. McCain and Sasse slammed Lighthizer in a joint letter for supposedly failing "to reassure us that you understand the North American Free Trade Agreement's [NAFTA's] positive economic benefits to our respective states and the nation as a whole."

The senators also blasted Lighthizer's "vocal advocacy for protectionist shifts in our trade policies."

As reported earlier — A massive amount of data on 47 hard drives from a government whistle blower was turned over to the Freedom Watch group recently. The information proves Obama and company spied on everyone.

Freedom Watch notifies congress of a "Deep State" intelligence community whistle blower, Dennis Montgomery, with hundreds of millions of documents showing CIA and FBI

and Intelligence Committees were spying on, and conducting surveillance on, American citizens for political purposes.

Mr. Montgomery is trying to use a legal "whistle-blower" process and not follow the same approach as Edward Snowden.

In a new report coming from Big League Politics by way of whistleblower Dennis Montgomery, it was revealed that Comey acquired this evidence of government surveillance of Donald Trump before he became President.

Michael Sainato. (May 10, 2017). HAITIANS TO PROTEST HILLARY CLINTON'S SPEECH AT NEW YORK CITY COLLEGE- She exploited the country in her handling of its 2010 earthquake crisis. Observer.

On June 8, Hillary Clinton is scheduled to serve as the Class of 2017 commencement speaker at Medgar Evers College in Brooklyn, New York, where she will also be awarded an honorary degree. The announcement has incited protests from several members of the Haitian community who plan to protest the speech and are pushing the college's president, Rudy Crew, to rescind the invitation.

"Every time the Clintons get in a bind, they run to the black community to whitewash their tarnished image," said Komokoda, the Haitian group protesting the speech, in a statement. "After Bill Clinton was impeached for lying under oath in the Monica Lewinsky affair, he brought in Jesse Jackson and a host of black preachers to lead prayers with him at the White House. To divert attention from her 'deleted emails' debacle, Hillary had Bill DeBlasio's wife, Chirlane McCray, bring her to Brownsville, one of the most impoverished neighborhoods in Brooklyn, for a photo op with little black children. When newspaper editorials and cartoons were blasting her for her unending lies and demanding investigations and prosecutions, former New York City mayor David Dinkins brought her out for a keynote speech at his Dinkins Leadership & Public Policy Forum at Columbia University. Today, for her resurrection from a shameful defeat by the last person most reasonable people felt could ever be president of the United States, the dirty work falls to Rudy Crew."

of millions of dollars, authorities said Thursday.

U.S. Attorney James B. Comey said his office's investigation into other pardons that Mr. Clinton issued just before leaving office will continue.

Comey's decision to end the investigation of clemency for the men from the Rockland County Hasidic community of New Square takes the spotlight off Sen. Hillary Rodham Clinton, who received overwhelming support from the insular community in her 2000 bid for the Senate.

During the election, she won 1,400 of New Square's 1,412 votes. Two months later, over the objections of prosecutors, President Clinton commuted the sentences of four men from the village who had been convicted of stealing from federal anti-poverty programs.

The 1999 convictions that underlie the probe stemmed from the misappropriation of tens of millions of dollars in federal aid intended for housing, education and business. Federal prosecutors said the four men used the money to enrich their community and themselves.

Hillary for Prison. (May 09, 2017). BOMBHELL: FBI Admits Obama Was RIGGING U.S. Election For Hillary. Tea Party.

(Angry Patriot) - The Democrats were so convinced that they would win the election; they were so convinced that they failed to cover the evidence of their crimes.

Hillary Clinton should have been charged for mishandling classified information, but Obama covered for her. FBI Director James Comey admitted that Obama's Justice Department, through Attorney General Loretta Lynch, rigged the election for Hillary Clinton by providing her with political cover. (via New York Times)

A leaked email from a top Democrat operative — which has not yet been made public — expressed confidence that the email scandal investigation would not result in charges.

Loretta Lynch acted on behalf of Obama to give the former president plausible deniability. This is a huge scandal, patriots.

It is unknown who wrote the email confirming that the Obama administration was aiding Clinton. Many suspect it was campaign manager John Podesta, or even Barack Obama himself. We need to investigate this incident further.

James Comey was aware that Loretta Lynch was providing cover for Clinton early into the investigation. After the FBI began their questioning Lynch lied to the public and denied an investigation was taking place.

President Trump on Saturday urged graduates of Liberty University to "never give up" and find the courage to challenge the establishment and critics, much like he has done in Washington.

"In my short time in Washington, I've seen firsthand how the system is broken," he said. "A small group of failed voices, who think they know everything ... want to tell everybody else how to live," Trump said in his commencement speech at the Christian school, in Lynchburg, Va.

"But you aren't going to let other people tell you what to believe, especially when you know that you're right. ... We don't need a lecture from Washington on how to lead our lives."

Britain's National Cyber Security Center and others were hailing the cybersecurity researcher, a 22-year-old identified online only as MalwareTech, who — unintentionally at first — discovered a "kill switch" that halted the unprecedented outbreak.

HOW TO FILE A FRAUD COMPLAINT AGAINST A UNIVERSITY

The following universities were announced as participants in Ohio State Provost Joseph A. Steinmetz's corrupt MOOC education initiative named "University Innovation Alliance" (UIA). We have identified the instructions and online forms you need to file a complaint with the participants. MOOC stands for "Massive Open Online Course."

You should complain about:

- (1) the intellectual property theft of social networking source code from Leader Technologies, Columbus, Ohio that is the software engine running the UIA;
- (2) the corruption at Ohio State University and OSU's collusion with Battelle Memorial Institute which helped steal the software being used by UIA; and
- (3) the mistreatment of OSU Marching Band Director Jon Waters regarding fabricated Title IX charges that were used to pave the way for Steinmetz to announce UIA.

Universities pride themselves on protection of intellectual property.

Therefore, these universities cannot participate in this abuse of inventor copyrights, patents and trade secrets by The Ohio State Trustees and Administration. If these universities participate knowingly with

THE DEFINITION OF SEDITION:

Editor. (May 13, 2017). Keith Olbermann Pleads with Foreign Spy Agencies to Take Down Trump. Liberty Headlines.

(PJ Media) ... On Twitter, GQ's Keith Olbermann posted his "passionate appeal" to foreign spies to help him overthrow our duly elected president.

Keith Olbermann Pleads with Foreign Spy Agencies to Take Down Trump

Keith Olbermann (Photo: Screen capture)

"I appeal to the intelligence agencies and the governments of what is left of the free world," Olby began dramatically.

To them as entities, entireties as bureaucracies making official decisions, and to the individuals who make decisions of conscience. To GCHQ and MI6 in the UK, to the BND in Germany, the DGSE in France, the ASIS in Australia, and even of the GRU in Russia, where they must already be profoundly aware that they have not merely helped put an amoral cynic in power here, but an uncontrollable one, whose madness is genuine and whose usefulness—even to them—is at an end.

To all of them, and to the world's journalists, I make this plea: We the citizens of the United States of America are the victims of a coup. We need your leaks, your information, your intelligence, your recordings, your videos, your conscience. The civilian government and the military of the United States are no longer in the hands of the people, nor in the control of any responsible individuals on whom you can rely....

It goes on and on, but you get the picture. He's nuts.

MERRICK GARLAND IS A DEEP STATE FRAUD

Garland's 1995 sponsors helped build the Deep Spy State for Clinton, Bush and Obama after 9/11

GOP SEN. MCCONNELL & LEE PROPOSE MERRICK GARLAND—A DEEP STATE MOLE—AS FBI DIRECTOR

This GOP endorsement signals collusion among anti-Trump forces within the Democratic party and Neocon wing of the GOP

Obama's failed U.S. Supreme Court justice nominee, DC Circuit Court Chief Judge Merrick B. Garland

(May 15, 2017)—On May 14, 2017, Senate Majority Leader Mitch McConnell's (R-NV) former chief of staff, Josh Holmes, floated the idea for his boss that he believes Sen. McConnell would support the nomination of federal judge Merrick Garland as FBI director. He said "I think the Senate majority leader thinks that's a fantastic idea" on Fox News Sunday, according to Breitbart News.

Likewise, Senator Mike Lee (R-UT) tweeted on May 11, 2017: "Instead of a special prosecutor, @realDonaldTrump should nominate Merrick Garland to replace James Comey." Lee's spokesman Conn Carroll even cited Garland's experience as federal prosecutor over the Oklahoma City bombing.

According to FBI superstar and whistleblower Ted L. Gunderson, Oklahoma was a Clinton C.I.A. Deep State inside job. See also TIMELINE (give time for the timeline to load and go directly to the bookmark for May 12, 2005).

One needs only to review the letters of recommendation that Garland received during his 1995 Senate judicial confirmation hearing to see the fingerprints of the Deep State all over this man. This McConnell-Lee endorsement casts a shadow over the GOP neocons and their passive aggressive attitude to President Donald Trump.

Genius? Garland's Net Worth has skyrocketed as a judge!

Readers should note that Merrick Garland's net worth was \$3.5 million in 1995 and increased to up to \$19 million in 2012. It magically grew an average of \$823,000 per year over 17 years while he sat on the DC Circuit bench and ran cover for the Deep State's legal agenda. Pure genius?

2. Jay B. Stephens, became Assistant Attorney General one (1) week after 9/11; general counsel, now senior vice president at Raytheon that supplied cruise missiles for 9/11 Pentagon attack and Raytheon's RIOT software for the NSA's illegal warrantless surveillance program.

3. Dan K. Webb, Deep State lawyer for E&Y, GE, Microsoft, Verizon, Cisco, Pfizer and Deloitte & Touche—all IBM Eclipse Foundation members.

4. Robert S. Bennett, Skadden Arps LLP, represented Bill Clinton in the Monica Lewinsky scandal; Skadden Arps notoriously represents JPMorgan and Hillary Clinton; the judge in Leader v. Facebook, Leonard P. Stark, came from Skadden Arps before placed on the bench at the last minute to preside at the trial and invoke a nonsensical 1898 criminal law to protect Facebook.

5. George J. Terwilliger, III, oversaw implementation of The Patriot Act as Assistant Attorney General; partner at McGuire Woods LLP.

6. Joe D. Whitely, first general counsel of the Department of Homeland Security and the National Infrastructure Assurance Council (NIAC) formed under Clinton to manage the Deep State "social networking" technology platform.

7. Donald B. Ayer, Harvard and Stanford lawyer who performs various Deep State duties as a partner for Jones Day LLP.

8. Leonard P. Stark, another Skadden Arps LLP attorney moved into the Leader v. Facebook patent infringement case by Obama a month before trial who protected Facebook while failing to disclose his substantial financial holdings in Facebook interests.

9. Evan J. Wallach, nominated with Garland in 1995 by Sen. Harry Reid. Wallach was assigned to the Leader v. Facebook appeal despite having no knowledge of patent law and failing to disclose his substantial Facebook interests—the theft of Columbus-innovator Leader Technologies' social networking invention by the Deep State.

10. Eric H. Holder, Jr. was Deputy Assistant Attorney General when Mueller, Stephens, Terwilliger and Whitley were installed following 9/11 and The Patriot Act.

11. James P. Chandler, III, Leader Technologies' patent counsel who secretly directed Deep State efforts for the Clinton, Bush and Obama White Houses in coordination with his clients IBM, Microsoft and Xerox, among many members of the IBM Eclipse Foundation.

The overwhelming conclusion from the hidden Senate evidence is that Merrick Garland has been groomed by the Deep State since 1995 to be either a Supreme Court justice, or FBI Director. The fact that Senators McConnell and Lee are putting him forward is likely more evidence of the blackmail by the rogue C.I.A. that is forcing them to turn against their President.

As former senior C.I.A. Agent Robert David Steele recommends, politicians and bureaucrats who are being blackmailed by the rogue C.I.A. should be given amnesty if they will reveal the identities of their blackmailers. Only then can Washington, D.C. have regular order.

Full analysis.

Carter. Report: Comey's Brother Works for the Law Firm That Handles Clinton Foundation's Taxes. The Gateway Pundit.

Ousted FBI Director James Comey's ties to the Clinton Foundation and the conflicts of interest that lie there are too close to not raise red flags.

James Comey worked several years in the public and private sector.

Comey served as general counsel at Lockheed Martin until 2010 when he departed with over \$6 million to show for it. That same year Lockheed Martin became a member of the Clinton Global Initiative and "won 17 contracts from the U.S. State Department, which was led by then-Secretary of State Hillary Clinton," Big League Politics reports.

Comey just so happened to have joined the board of the British bank HSBC Holdings in 2013, which just so happens to be a Clinton Foundation partner.

Noting all of this, one of the most important conflicts of interest is Comey's brother Peter Comey's role at the Washington law firm DLA Piper, where he serves as "Senior Director of Real Estate Operations for the Americas".

Todd Shepherd. (Apr. 14, 2017). Judicial Watch wants ethics probe widened to Democrats. Washington Examiner.

The conservative watchdog group Judicial Watch is asking the Office of Congressional Ethics to investigate whether two Democrats on the House Intelligence Committee may have violated standards by disclosing classified information.

In the letter that requests the investigation of ranking committee member Rep. Adam Schiff and Rep. Jackie Speier, both of California, Judicial Watch cites other complaints to the OCE which were successful in garnering an investigation of House Intelligence Committee Chairman Devin Nunes, R-Calif. Nunes stepped aside from leading the committee's Russia investigation after the OCE began their investigation.

"If the standard for filing a complaint or opening an ethics investigation is that a member has commented publicly on matters that touch on classified information, but the member does not reveal the source of his or her information, then the complaints against Chairman Nunes are incomplete insofar as they target only Nunes," Judicial Watch wrote. "At least two other members of the House Intelligence Committee have made comments about classified material that raise more directly the very same concerns raised against Chairman Nunes because they appear to confirm classified information contained in leaked intelligence community intercepts."

The letter then points to remarks made by Rep. Schiff in March, and remarks made by Rep. Speier in April, which Judicial Watch is arguing could be equivalent to the standard being applied to Nunes. Judicial Watch says both made remarks that indirectly confirmed the leaked transcript between Mike Flynn and Russian Ambassador Sergey Kislyak.

Vermont Sen. Bernie Sanders made waves last year, running toe-to-toe with former Secretary of State Hillary Clinton for the Democratic presidential nomination.

Following President Donald Trump's victory, the two Democratic families are no longer in a race for the White House — but instead, it could be a sprint to see who ends up in jail first!

According to reports, Jane Sanders — Bernie's wife — is under FBI investigation for bank fraud while president of Burlington College between 2004 to 2011.

The Host Committee for the Democratic National Convention in Philadelphia has paid out nearly a million dollars to staff members, and local institutions, from leftover money it raised to stage the event.

But, dozens of people who worked in the field elsewhere in the country for Democrats feel shortchanged and are now part of a class action federal lawsuit.

The bonuses ranged from \$500 for interns to more than \$300,000 for the executive director.

"I think everyone's reaction is the same. It's obscene," says Justin Swidler, a Cherry Hill-based attorney.

Swidler is pursuing a lawsuit on behalf of 40-to-50 "field organizers" all over the country, whom he says were denied overtime compensation.

"One of the arguments that the Democrats are making is that they just don't have the money to pay overtime to their workers," said Swidler.

Richard Salbato. (Mar. 14, 2010). DID SOROS CAUSE THE 2008 CRASH? Unity Publishing.

Did Soros cause the great crash of the market and economy in 2008? The answer to that is easy and it is "No!" but there is a real strong reason for asking that question. Soros made his billions over the years by manipulating the dollar market, and actually caused the crash of an Eastern European nation. He made hundreds of billions by shorting the Pound in England and then driving it down, almost crashing England at the time. As I will show Soros made hundreds of millions betting against the Greek economy and helped it crash.

Now when it comes to America, it is interesting that Soros and his minions were the people who advised and then financed an unknown to run for President. Just before the crash McCain was leading Obama by 10% of the vote, which was huge considering Republicans were not liked. After the crash there was no chance of McCain winning. Now let us look at the facts.

Roy Pierson. (May 16, 2017). FACEBOOK: THE OVERVALUED, PRIVACY-DESTROYING, LIFE-SUCKING MENACE. The Daily Caller.

Clearly, Facebook is doing major damage to our society. Increasingly. It strips value from people's lives in several ways. Everyone knows about the privacy violations, time suck, depression, lying, and anxiety it causes. But now it's permanently destroying people's lives; broadcasting (and causing) murder, rape, and torture. Yet, the financial press gushes over it. A can't miss, free money, a "screaming buy." The non-financial press mostly gushes as well. It is taken seriously - a seriously innovative company, now worth over \$430 billion.

Facebook talks about virtual reality, artificial intelligence, reading "friend's" minds so they don't have to bother speaking, but it is ultimately a website and an unprecedentedly invasive advertising company. The rest is hype. It has certainly made a lot of money for investors and founders though, because the stock keeps rising, buttressed by nonstop lavish praise heaped by the financial press. Facebook claims to have approximately two billion individual monthly active users subject to the ads they present - conveniently, this figure is self-reported and unaudited. Their self-reported user numbers keep rising at a rate that beats estimates every quarter. How convenient. They continuously defy the law of large numbers. These user figures, however, can be easily debunked (half the world's population does not have internet access, users must be over age 13, Facebook is banned in countries like China and Iran, unpopular in places like Russia, not to mention the many, many people in the U.S., Canada and Western Europe who simply choose not to use it. According to Facebook's self-reported two billion figure and the number of people with Facebook available to them, they are implying that approximately 90% of that population has an active Facebook account; a ludicrous number; a survey I conducted indicates the number is closer to 60%). Yes, Facebook is lying about how many people use it. They have a track record of lying (see timeline below). There are hundreds of millions of duplicate, fake, and non-human accounts that they count as active human users. Not to mention all the dead people on Facebook, estimated to outnumber live ones in about 30 years.

Stephen Dietrich. (May 16, 2017). DNC STAFFER'S MURDER LINKED TO CLINTS, WIKILEAKS. THE HORN NEWS.

Who killed DNC staffer Seth Rich?

According to the former D.C. homicide detective hired by Rich's family to investigate the murder, the answer is sinister.

The killing may be connected to Rich's involvement with WikiLeaks and last summer's DNC email leaks, which seriously damaged former Secretary of State Hillary Clinton's presidential campaign.

Political experts say the revealing emails helped sabotage Hillary Clinton's chance at the White House.

Multiple sources say Rich was behind these thousands of leaked DNC emails, which helped expose that top Democratic party officials were conspiring to stop Clinton's rival, Vermont Sen. Bernie Sanders, from winning the party nomination.

The family's private detective believes Rich may have been murdered for his role in these leaks.

Sponsored: Is Obama undermining Trump? (proof inside)

On July 10th, 2016, grainy security video reportedly shows two men walk up behind Rich just feet from his Washington, D.C. home and shoot him twice in the back.

On July 22nd, WikiLeaks founder Julian Assange released thousands of emails containing evidence that Hillary Clinton and DNC insiders had sabotaged Sanders' chance at the Democratic party's presidential nomination.

Police in Washington, D.C. have called Rich's death a botched robbery attempt - but critics have long questioned the theory.

Indeed, the killers reportedly did not take Rich's wallet, watch, necklace, keys, or cell phone after shooting him.

As local station Fox 5 put it bluntly: "There is no evidence to suggest that" Rich's slaying was a robbery gone wrong.

Former D.C. homicide detective Rod Wheeler, whose private detective firm is investigating the killing, says that either the Democratic National Committee or the Clinton family are stalling the investigation.

what's really interesting since I've been looking into this case, I've uncovered quite a few things, but not necessarily related to Seth's death, but related to an underground - a possible - underground corruption, organized crime corruption group that may be operating in the District," Wheeler said.

"Cause I've started looking at other homicides and deaths, that were called "accidental deaths," but could have been homicides. So this case, Allison, may actually open up a can of worms as far as what's been going on here in DC."

On Monday, Wheeler came forward claiming the late DNC staffer may, as speculated, actually have had contact with the anti-secrecy group Wikileaks.

Kyle Feldscher. (May 16, 2017). MURDERED DNC STAFFER SETH RICH HAD SENT 44,000 INTERNAL EMAILS TO WIKILEAKS: REPORT. Washington Examiner.

The Democratic National Committee staffer shot and killed in Washington, D.C., last summer leaked more than 44,000 emails to WikiLeaks before his death, according to a report.

The Fox News report implies that Seth Rich may have been the one who leaked information about the DNC to WikiLeaks that showed, among other things, that the DNC favored Hillary Clinton over Bernie Sanders in the presidential primary. While it's not clear, the report does note that WikiLeaks posted that information just 12 days after Rich was killed.

However, U.S. intelligence officials believe Russia hacked into the DNC and allowed that information to be sent to WikiLeaks.

Before Lois Lerner Targeted The Tea Party, She Helped The Clinton Foundation by Mark Tapscott.

Six years before she became the central figure in the IRS's illegal targeting of Tea Party tax-exemption applicants, Lois Lerner cleared the way for the Clinton Foundation's transformation from building a presidential library to being a \$2 billion global political influence peddling machine, according to documents obtained by The Daily Caller News Foundation's Investigative Group.

She helped accomplish this feat through a 2007 letter on two legal issues of such magnitude that it's unlikely the Clinton nonprofit could have become what it is in 2017, 20 years after its creation.

The first issue concerned an otherwise innocuous sounding merger of two nonprofits, while the second issue centered around an unprecedented expansion of the foundation's activities far beyond its tax-exempt mission.

"You recently furnished us information that the Clinton Foundation HIV-AIDS Initiative, Inc. merged with The William J. Clinton Foundation on Dec. 31, 2005," Lerner wrote in an April 5, 2007, letter to the former president's non-profit. "Based on the information submitted, we have determined that the merger does not affect your tax exempt status."

Sharyl Attkisson. (May 16, 2017). EIGHT FACTS ON THE "RUSSIAN HACKS". Full Measure.

There's no standing allegation by U.S. officials that the Russians (or anyone else) "hacked" into our elections system or altered vote counts.

So what are the allegations and facts as we know them?

The FBI and DHS released a brief joint report Thursday describing "Russian Malicious Cyber Activity." It doesn't include forensic proof of Russian government involvement in hacking efforts, but the administration is rushing a detailed, classified report to be delivered, at President Obama's request, prior to President Trump taking office January 20.

The joint report can be summarized this way:

The U.S. believes two hacking groups tied to the Russian government are involved.

The U.S. has nicknamed the hacking groups "APT28" or "Fancy Bear," and "APT29" or "Cozy Bear." APT stands for "Advanced Persistent Threat."

The U.S. believes the GRU, Russia's military service, is behind APT28.

The U.S. believes the FSB, Russia's counterintelligence agency headquartered in the building of the former KGB, is behind APT29.

The U.S. believes the groups accessed "a political party" by sending emails that tricked users into clicking links that planted malware or directed them to Russian servers.

The U.S. believes APT29 entered into "the party's systems" in summer 2015, and APT28 in spring 2016.

The U.S. believes APT28 provided the stolen emails to WikiLeaks, which WikiLeaks denies.

Most of the 13-page joint report provides advice on how to secure computer networks.

Disclosures on Tuesday that FBI Director James Comey wrote a memo in February saying President Donald Trump asked him to end the probe of Michael Flynn raised questions about why Comey did not come forward sooner.

"If James Comey was so fastidious about updating the Congress every time there was a major break in the investigations that he had confirmed the FBI was involved with, it seems curious why this memo would only be surfacing now after he's been fired," Fox News correspondent James Rosen told Bret Baier.

"Why wasn't he apprising anyone of this, what he had his supporters obviously see as an apparent obstruction of justice by the president.

It's being presented as Trump trying to interfere in an investigation, something Barack Obama actually did with the acquiescence of James Comey to clear Hillary Clinton! Obama actually did what Trump is being alleged to have done. You know this phrase, "I hope you can see your way to letting this go..."? Do you know who often uses a phrase like that? Psychiatrists, to people, patients who are obsessive-compulsives. "I hope you can let this go." I hope you're gonna be able to... 'Cause whatever...

I mean, they're trying to say that Trump was trying to shut down the investigation. How did that work? I think every investigation under the sun is still going on, isn't it? With no evidence! Trump's really horrible. If his idea was to shut down investigation of Flynn or of the Russia collusion, they're both still ongoing, and there's nothing that has stopped them. And even the FBI's second in command says that no effort has been made to stop the investigation. That's the whole premise that the media is relying on with the Comey memo. Yeah.

Kit Daniels. (May 17, 2017). GOWDY HINTS AT CLINTON WRONGDOING: IT'S WORSE THAN YOU THINK - Former FBI contender explains why Comey didn't prosecute Clinton. Infowars.

Rep. Trey Gowdy (R-S.C.), who took himself off the short list of possible replacements for former FBI Director James Comey, said history "will be nicer" to Comey once classified details surrounding the investigation of Hillary Clinton goes public.

Gowdy's statement also indirectly confirms an Infowars report from July 7 in which an anonymous FBI source said the reason why Comey didn't prosecute Clinton over Emailgate was because it would pit the FBI against the "rest of Washington D.C." due to so many high-level politicians implicated by Clinton's crimes.
