Background

Summary

International Financial and Operations Executive

Experience

CEO

The Corsair Group

March 2011 – Present (3 years 3 months)

The Corsair Group is a merchant bank focused on Latin America and trade. The Company invests its capital as a principal and also acts as a partner with its clients. The role of a merchant bank has historically been to facilitate trade and finance. The Corsair Group has the funds and experience necessary to successfully evaluate, negotiate and close.

We work in a variety of industries but focus on businesses with tangible assets. Of particular interest are the areas of gold, metals and other mining materials, as well as farmland and timber.

Chief Executive Officer

PanAm Terra

October 2010 – Present (3 years 8 months)

PanAm Terra is a real estate land company formed to acquire cash flowing farmland in Latin America with an initial focus on Argentina, Uruguay and Brazil.

Through its farm management efforts, PanAm realizes profits from the long term trends of rising food commodity prices and the growing value of fertile farmland where abundant soil, water, and access to shipping allows for greater economics than more developed countries such as the USA and Europe.

Managing Partner

DC Funds

September 2005 – Present (8 years 9 months)

DCI Master LDC managed by DC Funds is a private investment fund based in New York. We are focused on producing superior returns for our investors by taking long term debt and/or equity positions in well managed, fundamentally strong companies.

Partner

DC Associates

September 2005 – Present (8 years 9 months)

Started as COO / CFO for this \$30M private equity fund. Then promoted to Director and Managing Partner of Fund. Manage/implement/execute investments from origination to exit. Investments in reverse mergers and both private and public companies.

Was CEO, President and Director of Duncan Technology Group, a public investment holding company taken public through a reverse merger. Was also a Director of Duncan Media Group and a Director of RightSide Holdings, an online financial newsletter company.

Chief Executive Officer

Secure Fortress

May 2006 – April 2009 (3 years)

CEO of Secure Fortress, an established, successful, high-growth secure communications company engaged in the provision of services for the protection of vital information systems for a broad array of clients including the US Department of Defense, US Department of Justice, elite federal agencies and high-profile private institutions. Based in London, the Company's proprietary, next-generation solution is on the front lines of shielding vital government and corporate interests from cyber-terrorism and cyber-crime, two of the fastest-growing threats to the 21st century's internet-based communications infrastructure. Secure Fortress has both Commercial and Governmental divisions with the commercial group leveraging the patented solutions developed for its governmental clients.

MANAGING DIRECTOR

Carlisle Partners

November 2004 – September 2005 (11 months)

Managing Director of this Delaware LLC focusing on media, travel, tourism and real estate investments, and that leverages its partners' experience to maximize value. Partners include the Omnicom Group (NYSE: OMC, www.omicomgroup.com), a \$16 billion strategic holding company that manages a portfolio of global market leaders operating in the disciplines of advertising, marketing services, specialty communications, interactive/digital media and media buying services. Partners also include major hotel and restaurant developers whose properties are such landmarks as the Rainbow Room and the Windows on the World in New York, and the Nassau Inn in Princeton. Strong knowledge of media acquisitions and values successfully leveraged to develop unique projects with various foreign government institutions.

VP Corporate Development

Terremark

April 2004 – October 2004 (7 months)

Appointed VP of Corporate Development for a project to launch TWW's European operations based out of Madrid, Spain. TWW is a leading operator of integrated Tier-1 Network Access Points (NAPs) and best-in-class network services, and the owner and operator of the fifth Tier-1 Network Access Point (NAP) in the world. Successfully directed the facility construction works, installation of telecommunications technology, hired and trained the local management team, defined the marketing strategy, product portfolio and pricing, negotiated with regional carriers, helped in the negotiation and buyout of local shareholders, converting TWW into the controlling shareholder.

verizon
terremark

CEO

Etelix

October 2001 – April 2004 (2 years 7 months)

Full P&L and strategic definition responsibility for this fully licensed Venezuelan Telecommunications company with mixed investment (Venezuelan and North American). Etilix specialized in National and International Long-Distance telecommunications services, including Internet services, and used a network-marketing model.

MANAGING DIRECTOR

PUNTOCOM HOLDINGS / ALTERBRAIN (Miami)

October 2000 – October 2001 (1 year 1 month)

Full P&L responsibility for the US office of this CEMEX-backed e-conglomerate.

Helped launch an e-payments solution company in Latin America in partnership with Visa International.

Full P&L responsibility for launching the US presence of the Holding company's largest portfolio

company, Alterbrain. Alterbrain was a rollup of seven regional firms into one of Latin America's largest full-service web consulting and development firms until its merger with Neoris.

Successfully initiated a Latin American technology development outsourcing model for the US market.

PARTNER

SOUTH BEACH VENTURE PARTNERS (Miami)

September 1999 – February 2001 (1 year 6 months)

Partner in this venture capital firm and technology business accelerator. Responsible for driving companies forward with responsibility for business development, finance (Angel, bridge and VC) and setting strategic direction.

Structured, negotiated and closed a wide array of business development agreements (formal strategic alliances with public internet companies, OEM relationships, co-marketing, technology, etc.) with industry leading companies.

Acted as DIRECTOR of M&A and STRATEGIC PARTNERSHIPS at client company VISUALCOM.

Involved with all aspects of building and operating this Internet business solutions consulting company focused on Latin America with a headcount of over 50 personnel and offices in Miami, Mexico, and Brazil. Duties covered both internal and external aspects of running a company, including setting up procedures and methodologies, hiring and developing quality personnel, capital raising, legal affairs, and acting as a client partner for consulting projects. Additionally responsible for all mergers and acquisitions, and for defining and developing all alliances and partnerships.

Managing Director

Alterbrain

2000 – 2001 (1 year)

SENIOR CONSULTANT

CAMBRIDGE TECHNOLOGY PARTNERS (Now NOVELL)

March 1996 – September 1997 (1 year 7 months)

Member of start-up team of Latin American business unit.

Team Leader on a sales and marketing software project at G.E. Medical Systems in Paris, France; all deliverables successfully completed on time.

Process leader for two marketing and finance projects for Hewlett Packard in Mexico; due to the success of these two projects, the company benefited from further engagements with Hewlett Packard.

Hired by a US government military agency to develop the business case and cost benefit analysis as part of their presentation to the Pentagon. Work successfully resulted in further funding.

INTERNATIONAL MARKETING MANAGER

SENSORMATIC ELECTRONICS (Now TYCO)

June 1995 – February 1996 (9 months)

Established Internet presence, performed trademark applications and initiated a new product naming process.

Developed global reporting standards, initiated global account management and coordinated the launching of new products for the international market.

OPERATIONS/PRODUCTION OFFICER

UNITED STATES ARMY (Europe)

June 1991 – June 1995 (4 years 1 month)

Successfully planned and reorganized all topographic production operations for Europe, Africa and South West Asia.

Oversaw the development of a battlefield visualization database which integrated numerous technologies and was selected to become the standard for the US Army worldwide.

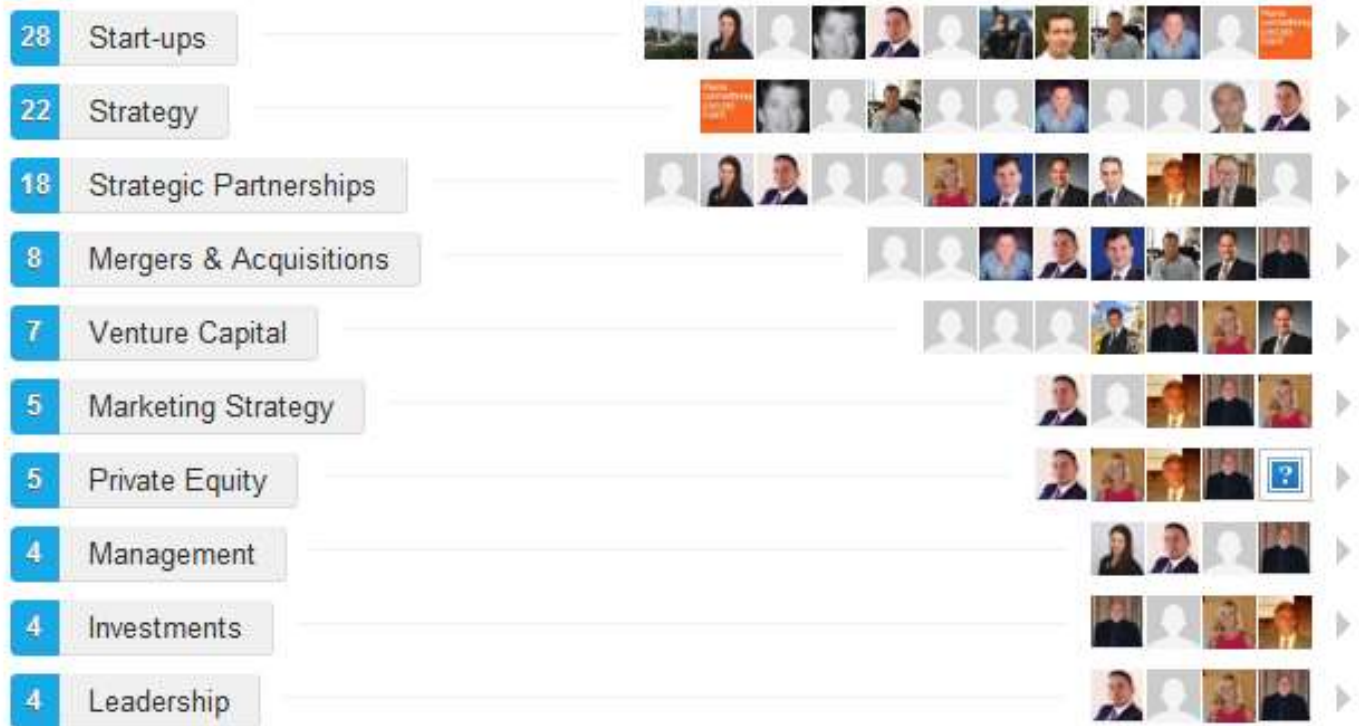

Mediated all site negotiations and established diplomatic relations between French and American officials at the Pointe du Hoc site in Normandy for the 50th Anniversary celebrations and the US Presidential visit.

Supervised and coordinated personnel support for over 200 soldiers.

Expertise

ActiveSuite

ActiveSuite™ Transportation

ActiveSuite is software that enables shippers and logistics service providers to have full visibility and control over their extended supply chain. It provides the business tools and active event discovery technology to help prevent business disruptions by enforcing the execution of logistics plans while sharing information on shipment progress in real time.

ActiveSuite™ DSD XSales

Developed by Neoris using the SAP NetWeaver technology platform, ActiveSuite DSD XSales is a fully process and data compliant application.

Company Way

Company Way is an integral approach to the alignment of processes, governance and information technology with business objectives. It is a framework to standardize common practices and processes, develop new practices to satisfy business needs, establish mechanisms to share knowledge and use best practices, reduce total cost of ownership, and develop an organizational culture that focuses on collaboration, coordination and teamwork.

SAP solutions

Neoris sells SAP solutions including:

Mainstream solutions

- Enterprise resource planning (ERP 6.0)
- Customer relationship management (CRM)
- Supplier relationship management (SRM)
- NetWeaver
- Supply chain management (SCM APO)

LME solutions

- Warehouse management (WMS) and extended warehouse management (EWM)
- Transportation management (TMS)
- Direct store delivery (DSD)
- Supply network collaboration (SNC)

- Manufacturing integration and intelligence (MII)

Sustainable service-oriented architecture (S2OA)

Sustainable service-oriented architecture (S2OA) is an integral approach that aligns processes, governance and information technology. It enables companies to consider how technology will continue to address their needs in the future. Sustainability is only possible when the whole lifecycle of services is considered (in the long term) and the proper governance is established^[3]

Awards and recognitions
