Subject: Upcoming Leader Meeting in Tucson with Professor James P. Chandler

Dear Still Waters Members and individual investors,

I am writing to you at the request of Michael T. McKibben, Chairman and Founder of Leader Technologies. This coming Tuesday, September 6th, 2003, there will be an investor update at the Doubletree Inn on Alvernon. Starting time - 6:30pm.

Michael will be here to share the latest developments including specifics on the Livermore Lab agreement which is scheduled to close on Monday, September 5th, 2003.

Additionally, Professor James P. Chandler will be joining the Tucson group for the first time. You may recall that Professor Chandler is the President of the National Property Law Institute and an Emeritus Professor of Law at George Washington University. He authored The Economic Espionage Act of 1996 and co-authored the Uniform Trade Secrets Act. He has been a chief intellectual property advisor to 225 jurisdictions internationally, as well as numerous Fortune 500 companies. It should be a very interesting discussion!

There is also an opportunity on the table to purchase a limited number of shares at the incredible value of .094 cents per share. This will allow interested parties to cost average their current shares, and indeed, even strengthen their position.

I do not know what Chris's thoughts on this opportunity are, but felt I had a fiduciary responsibility to get the information to you.

If you would be so kind as to RSVP at your earliest convenience, I would really appreciate it. That will allow for Michael to plan accordingly for an accurate number.

My phone number is 977-5168.

Sincerely,
Amy Stevenson
