JUDGE LEONARD STARK FAILED TO DISCLOSE CONFLICTS IN LEADER V. FACEBOOK

JUDICIAL DISCLOSURE PROVES THE LEADER V. FACEBOOK JUDGE WAS IRREPARABLY COMPROMISED

Judge Leonard P. Stark is invested in eight Fidelity Funds. Facebook's Director James W. Breyer and Fidelity's Managing Partner, Robert Ketterson, have been close collaborators for a decade.

[INVESTIGATION | AMERICANS FOR INNOVATION | JUN. 12, 2013, UPDATED MAR. 23, 2014, POST-SCRIBD CENSORSHIP | PDF](#)

(Jun. 13, 2013)— Delaware District Court Judge Leonard P. Stark's 2010 financial disclosure exhibits a similar investing pattern to four other judges. All five judges have one thing in common: the Leader v. Facebook case.[01] No other appeals judges show such lockstep investing associated with Facebook.

Judge Leonard P. Stark

These judges focused their investments on T. Rowe Price and Fidelity funds. Stark invested in eight (8) different Fidelity Funds, most of which are invested in stocks related to Facebook and Friends (aka "The Facebook Cabal"). Two of the funds are Fidelity Investments Fidelity Asset Manager ___% Funds that are funds which combine other Fidelity funds. Therefore, it is reasonable to assume that Facebook and Friends are included in those as well.

Among those investments are Facebook, Mail.ru with close ties to the Kremlin (now Facebook's second largest shareholder), four Facebook's underwriters and numerous companies with heavy investments from Accel Partners, Facebook's director and second largest shareholder.

JUDGE STARK MARCHES TO JAMES W. BREYER'S TUNE

Tellingly, Fidelity Ventures, the venture capital arm of Fidelity Investments, has partnered with many of Facebook principals, including James W. Breyer, Accel Partners LLP, Goldman Sachs, Digital Sky Technologies (Yuri Milner, Alisher Asmanov), Morgan Stanley Ventures and Andreessen Horowitz (Marc Andreessen).
In 2004, Breyer was elected Chairman of the National Venture Capital Association.[02] His board included Fidelity Ventures'

James W. Breyer Accel Partners LLP, Facebook Director, Facebook's 2nd largest shareholder, Fidelity partner

Robert Ketterson. Ketterson is now Managing Partner at Fidelity Equity Partners and a Group Managing Director at Fidelity Ventures Telecommunications & Technology.[03] This means that Breyer's venture capital colleague and partner now establishes tech investing policy and strategy for Fidelity. Given the substantial Facebook-related holdings that are unique to Fidelity and T. Rowe Price, Breyer's assistance and influence on Fidelity's portfolio is apparent. What better way to create deniability for any target judge than place the desired stock inside an innocuous looking mutual fund? Visions of the Wizard of Oz.

The direct ties between Fidelity and Facebook and Friends tainted the Leader v. Facebook proceedings. Put another way, for a judge to hold investments in Fidelity introduces profound bias into the proceedings—since the judge benefits financially from his decisions that are favorable to Facebook. At the very least these associations required disclosure so that Leader

Technologies could assess the risks of Stark's continued adjudication of the case. Instead, he was stone cold silent.

Since 2005, Accel Partners and Fidelity Ventures have co-invested in the first five rounds of Prosper, Inc., a crowd source financing website. In the subsequent two rounds, Accel continued to invest, but Fidelity did not. Source: Sharespost.com.[04].

CLOSELY-ALIGN INTERESTS REQUIRE DISCLOSURE

Fidelity Venture co-invested in Groupon with numerous Facebook principals, including James W. Breyer, Accel Partners LLP, Goldman Sachs, Digital Sky Technologies (Yuri Milner, Alisher Asmanov), Morgan Stanley Ventures and Andreessen Horowitz (Marc Andreessen).[05] That's two Facebook directors, Facebook's two largest shareholders and two Facebook underwriters. These interests are so closely aligned as to be inseparable with respect to conflicts of interest.

Judges have a robust set of ethics rules that include the Code of Conduct for United States Judges,[06] 28 U.S.C. § 455[07] and the Ethics Reform Act of 1989,[08] not to mention Judicial Conferences[09] devoted to the topic. The governing principal is propriety, and the avoidance of the appearance of impropriety. Judges mentoring Facebook attorneys. Facebook attorneys advising The White House to protect "likes." Judges investing in Facebook and their friends. Courts timing decision to accommodate Facebook's pre-IPO media needs. Facebook attorneys representing the judges themselves. The improprieties in this matter are jaw dropping.

Judge Stark failed the "reasonable minds" test that he swore an oath to uphold

"The revised code, which takes effect July 1 [2009], defines for the first time the term 'appearance of impropriety,' which judges are commanded to avoid as much as actual impropriety. The definition: 'An appearance of impropriety occurs when reasonable minds, with knowledge of all the relevant circumstances disclosed by a reasonable inquiry, would conclude that the judge's honesty, integrity, impartiality, temperament, or fitness to serve as a judge is impaired.'"

Judicial Conference, Mar 17, 2009 (Chief Justice John G. Roberts presiding)[09]

BARACK OBAMA'S DARK POOLS OF CORRUPTION

Click to enlarge

CLICK HERE FOR WASHINGTON'S ETHICAL DISEASE DISCOVERIES RE. FACEBOOK "DARK POOLS"

STOP FACEBOOK PROPERTY THEFT

W LL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

FIVE LEADER V. FACEBOOK JUDGES REALLY "LIKE" FIDELITY AND T. ROWE PRICE

The pattern of investing among the five Leader v. Facebook judges (Stark, Roberts, Lourie, Moore and Wallach) plainly shows knowledge of certain events and interests that motivated them to invest in Fidelity and T. Rowe Price Funds. The commonality here is Facebook's Director and second largest investor, James W. Breyer and Accel Partners.

T. Rowe Price owns more than 5% of Facebook's stock, so any investment in a T. Rowe Price Fund is a surrogate investment in Facebook. Such holdings raise enough red flags to make them at least disclosable by a judicial employee.

These judges appear to follow their rules of ethics selectively. For example, Justice Roberts followed the rules in Microsoft v. i4i. He recused himself because many of his funds hold Microsoft stock.[10] Remarkably, he then ignored those same rules in Leader v. Facebook—even though it was notoriously known that Microsoft is one of Facebook's largest shareholders, and would benefit greatly from decisions favorable to Facebook.[11] It was also notoriously known that both Fidelity[12] and T. Rowe Price[13] made large investments in Facebook prior to the IPO. The odds that all five of these judges invested independently in these same funds that are directly linked to Facebook, a litigant before them in Leader v. Facebook, are infinitesimally small.

This judicial bias telegraphs the message to small innovators that the U.S. Supreme Court will protect the constitutional rights of large corporations, but will ignore those rights unless you can place them into plum personal investments. Wink, wink.

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

—a technology upon which the President and U.S. government now rely;
 —a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

Rescind. Investigate. Sanction. Certify.

Contact your representatives. Ask them to pass it.
 Real American inventors need your support.

If one is in a generous mood, one might forgive Stark for a slip here, or there, in checking his funds for holdings that conflict with the litigants arguing in front of him. However, this is very evidently not a simple oversight. This is very intentional investing to enrich himself. Judge Stark’s portfolio stood to benefit handsomely from decisions favorable to Facebook. These holdings demanded disclosure. U.S. judges are supposed to lead by example, not sneak around in the ethical shadows, hoping no one will notice. No wonder these large, unscrupulous law firms exist. These judges are teamed up with them.

A TOXIC ETHICAL BREW

Add these holdings to Stark’s intentional ignoring of well-settled on-sale bar law, and one has the recipe for a toxic brew. By sacrificing the Constitution to get his appointment, Judge Stark sold his soul, as did his brothers and sisters at the Federal Circuit and Supreme Court.

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ullyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored shocking new evidence that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

CODE OF CONDUCT FOR U.S. JUDGES

"CANON 2: A JUDGE SHOULD AVOID IMPROPRIETY AND THE APPEARANCE OF IMPROPRIETY IN ALL ACTIVITIES"

GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S.

District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader

from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. (Read Leader's May 20, 2010 motion [here](#).) He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. (See that Jury

Instruction No. 4.7

[here](#).) He also contradicted his own instruction to Leader to answer

Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. [See his Sep. 14, 2009 Order](#). Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See analysis of Judge Lourie's *T. Rowe Price* holdings re. the Facebook IPO.

Judge Lourie also failed to apply his own law-test in *Group One v. Hallmark Cards* to

the evidence. After debunking all

of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. See disclosure of substantial holdings in Facebook and Facebook-related stocks. Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in *Pfaff v. Wells*

Electronics, Inc.—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. See *Motion to Disclose Conflicts of Interest*.

Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr. Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. See a full analysis of these events at [Donna Kline Now! Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence \(using disbelieved testimony as ostensible evidence of an opposite\). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's Pfaff v. Wells Electronics, Inc. test for on-sale bar evidence, which included even the Federal Circuit's own Group One v. Hallmark Cards, Inc. test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie helped write that opinion. \[Group One test omission analysis.\]\(#\)](#)

Clerk of Court Jan Horbaly, U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court's ruling was challenged by an amicus curiae brief revealing clear mistakes of law and new evidence. See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in *Leader v. Facebook*. Mr. Horbaly failed to disclose his conflicts of interest and close associations with numerous Facebook attorneys and law firms, as well as his close association with one of Facebook's largest shareholders,

Microsoft, who is a Director of The Federal Circuit Bar Association where Mr. Horbaly is an ex officio officer. Additionally, the DC Bar revealed in a written statement that Clerk Horbaly is not licensed to practice law in the District of Columbia. [Editorial: What does that make the Federal Circuit with its location within in a stone's throw of the White House? A self-governing state?]

Judge Randall R. Rader, U.S. Court of Appeals for the Federal Circuit, chief judge responsible for the (mis)conduct of his judges and Clerk of Court in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. Chandler. [See analysis of Judge Rader's undisclosed conflicts of interest in Leader v. Facebook.](#) Judge Rader also did not stop his judges from creating new arguments and evidence for Facebook in the secrecy of chambers—after they had debunked all of Facebook's evidence on appeal, which is a clear breach of constitutional due process.
