PARK MISLED THE HOUSE OVERSIGHT COMMITTEE ABOUT HIS KNOWLEDGE AND ROLE IN HEALTHCARE.ORG

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | UPDATED NOV. 24, 2017 | PDF

FIG. 1—TODD Y. PARK, U.S. CHIEF TECHNOLOGY OFFICER (CTO). Mr. Park testified on Nov. 13, 2013 before the House Oversight Committee. Park gave vague answers and pretended not to know who made the decision to take the HealthCare.gov website lives on Oct. 1, 2013. COMMITTEE CHAIRMAN DARRELL ISSA (CA-49TH) presented documents showing that the website had failed basic security tests, so an outside contractor recommended a delay.

AFI investigators have dug into Park's background and discovered massive conflicts of interest and direct relationships with the Facebook Club. These relationships certainly prevented him from doing his job impartially. Instead of diligently overseeing the development of HealthCare.org, Park seems to have preferred being cheerleader-in-chief for government data giveaway events like "Datapalooza." When asked by REP. TREY GOWDY (SC-4TH) where he'd been prior to Oct. 1, Park misled the Committee into thinking he'd had no prior responsibility for the the website, when in fact, he had been the chief technology officer at HHS since Apr. 4, 2009. PAY-to-PLAY NEW WORLD ORDER

This timeline shows how insiders sell access & manipulate politicians, police, intelligence, judges and media to keep their secrets

Clintons, Obamas, Summers were paid in cash for outlandish speaking fees and Foundation donations. Sycophant judges, politicians, academics, bureaucrats and media were fed tips to mutual funds tied to insider stocks like Facebook. Risk of public exposure, blackmail, pedophilia, "snuff parties" (ritual child sexual abuse and murder) and Satanism have ensured silence among pay-to-play beneficiaries. The U.S. Patent Office is their toy box from which to steal new ideas.

(NOV. 15, 2013)—To hear **TODD PARK** tell it, he didn't know who decided to take HealthCare.gov live after it failed critical security and volume tests. But, Park is only the chief technology officer of the United States.

As a matter of fact, **HENRY CHAO** didn't know either, and he's only the deputy director and deputy chief information officer of the Centers for Medicare and Medicaid (CMS).

On Nov. 14, **PRESIDENT OBAMA** said he didn't even know there was a problem. He's only the President, and this is only his signature legislation.

Incompetence? We don't think so.

ON NOV. 13, two of America's top healthcare technologists, **TODD Y. PARK** and **HENRY CHAO**, testified before the House Oversight Committee about the allegedly botched HealthCare.org roll out.

We now think that the botched Obamacare rollout was a false flag to provide an excuse for large Clinton Foundation donors IBM, Booz Allen Hamilton and Andersen Consulting to be hired with taxpayer funds to come in and copy all of America's healthcare information into offshore "dark profile" databases run by the rogue C.I.A. under the fog of these "mistakes."

security test before allowing it to go live. Chao, like Todd Park, claimed not to know who made the decision to go live. [REP. JIM JORDAN \(OH-4TH\)](#) stated that he believed the decision was political, not technical, and that it came from White House advisers [NANCY-ANN M. DEPARLE](#) and [JEANNE LAMBREW](#).

DeParle and Lambrew are believed to be the same White House operatives who ordered the IRS to target the Tea Party, but have so far refused to testify. Also surprising was the revelation that neither Chao nor Park insisted that the launch be stopped, since no end-to-end system testing had been done. Even rookie project managers know better. These omissions are beyond incompetence and point to willfulness.

Video: C-Span.

Park and Chao danced around even the most basic questions. How long will it take to fix? How much will it cost? Who's in charge? Do you need help?

Instead, they dished up non-committal technobabble like "software development is an iterative process" and "security testing is never done," and perhaps the best one was "Microsoft is still fixing Windows XP."

REP. GOWDY: "WHERE IN THE HECK WERE YOU FOR THE FIRST 184 WEEKS?" [CLICK HERE FOR REP. GOWDY C-SPAN SEGMENT](#)

Park is the new leader of President Obama's "tech surge." His first administration appointment was back in 2009 when he was appointed as chief technology officer at the Health and Human Services (HHS) Department on [Aug. 4, 2009](#).^[01] Three days later, Aneesh Chopra was appointed as the first U.S. CTO on Aug. 7, 2009. This means that Park oversaw the complete design and development of HealthCare.gov before being appointed chief technology officer at the White House on [Mar. 9, 2012](#).^[02]

Representative Trey Gowdy (South Carolina-4th) asked Park why he was only just now being consulted to perform the tech equivalent of triage. Rep. TODD Y. PARK MISLED CONGRESS

Todd Park responded, "That wasn't part of my role." This answer is misdirection on numerous fronts, but we'll focus on two.

First, Todd Y. Park is the CTO of the United States. It is his job to oversee America's technology infrastructure, and most assuredly his boss' signature healthcare legislation.

Second, before coming to the White House, Todd Y. Park was CTO of the Health & Human Services Department since [Aug. 4, 2009](#).^[01] Therefore, Park was in charge of the planning and development of all HHS technology, including HealthCare.org.

UPDATE MAR. 25, 2014

FIVE CRITICAL AFI POSTS ON JUDICIAL COMPROMISE

Fully updated Mar. 25, 2014 in the wake of the Scribd censorship:

1. **HOW PATENT JUDGES GROW RICH ON THE BACKS OF AMERICAN INVENTORS**  Patent Office filings are shuffled out the USPTO backdoor to crony lawyers, banks and deep-pocket clients.
2. **WAS CHIEF JUSTICE ROBERTS BLACKMAILED** into supporting Obamacare by his ethical compromises in *Leader v. Facebook*?
3. **JUSTICE ROBERTS MENTORED** Facebook Gibson Dunn LLP attorneys. 
4. **JUSTICE ROBERTS HOLDS** substantial Facebook financial interests.

business partners with new business opportunities. In videos of these events, Park appears more like a cheerleader than a sober minded person concerned about securing America's healthcare.

TODD Y. PARK'S INCESTUOUS ASSOCIATIONS

Given Park's untruthful and misleading House Oversight Committee testimony, AFI investigators began digging into Park's background. In summary, a nest of interlocking conflicts of interest emerged. In short, Park has been feathering his business interests ever since he and his colleagues started working for the Obama White House.

Park has started two healthcare companies named **ATHENAHEALTH (ATHN)** and **CASTLIGHT HEALTH, INC. SEC** and other public records show that three people play prominently in Park's companies, namely **ROBERT KOCHER, MD**, **ANN HUNTRESS LAMONT**, and **DAVID A. EBERSMAN** (Facebook CFO).

PARK'S CASTLIGHT COMPANY has received [\\$160 million of venture funding](#) from Morgan Stanley, T. Rowe Price, Oak Investment Partners, Venrock, Wellcome Trust, US Venture Partners, Maverick Capital, and oddly, Cleveland Clinic.

AFI readers will recognize members of the Facebook Club in this list, namely Ebersman, Morgan Stanley, T. Rowe Price and the Cleveland Clinic. Leader Technologies was conducting a confidential clinical trial of their new invention at the Cleveland Clinic with Boston Scientific in late 2003, just a few months before Facebook went live on Feb. 4, 2004. According to new testimony, Zuckerberg and Co. secretly received a copy of Leader Technologies' actual source code via Leader's attorneys, who were tipped off by Boston Scientific and the Cleveland Clinic that it was ready. This Cleveland Clinic involvement is a telling outlier, and yet another in a long list of Leader v. Facebook "coincidences."

TODD Y. PARK WORKED FOR BOOZ ALLEN HAMILTON as a healthcare consultant prior to 1997. Booz Allen was hired by Canada-based CGI Federal to help build HealthCare.gov. CGI Federal received \$678 million in no-bid contract funds, which are described in government documents as having been acquired by "full and open competition." Michelle Obama's Princeton classmate, Toni McCall Townes-Whitley, is senior vice president of CGI Federal.

Since Park was the CTO of HHS when the decision to hire his former employer, Booz Allen, was made, this is an evident and undisclosed conflict of interest according to the [Standards of Ethics governing the Executive Branch](#). This doesn't even address the impropriety of hiring a company whose Executive VP is a former classmate of the President's wife.

PARK'S BUSINESS PARTNER, ROBERT KOCHER, MD, joined the Obama White House in 2008 as Special Assistant for Health Care Reform. Strangely, neither Park's and Kocher's financial disclosures are available from the Office of Government Ethics, where even Hillary Clinton's is available.

Nevertheless, AFI was able to obtain a copy of [Robert Kocher's 2009 disclosure](#) from the [Wall Street Journal](#) where we find the same major investing in certain Facebook-friendly funds that include Fidelity, T. Rowe Price, Vanguard, Janus, Morgan Stanley, JP Morgan, Goldman Sachs and Blackrock.

These are the [same funds](#) that are invested in by the Leader v. Facebook judges John G. Roberts, Elena Kegan, Leonard P. Stark, Alan D. Lourie, Evan J. Wallach, Randall R. Rader, Jan Horbaly (Federal Circuit Executive), Stephen C. Siu, David J. Kappos, Kimberly A. Moore, and a clutch of law firms closely associated both with Facebook and the Obama administration (Cooley, Gibson, Fenwick, Orrick, Weil, Latham, Blank, White, FCBA, DC Bar). Further, AFI investigators are now discovering this same investing pattern from numerous members of the Obama White House cabinet.

Robert Kocher, MD and Todd Y. Park helped establish the Obamacare agenda from the beginning. For example, Kocher helped moderate the [White House Forum on Health Reform](#) on Mar. 5, 2009 along with Zeke Emanuel, Peter Orszag, Nancy-Ann DeParle and Larry Summers (See Fig. 3). Todd Park also figures prominently in these gatherings. [President Obama](#) gave the opening remarks. [Click here](#) for C-SPAN video of this conference. Neither Park nor Kocher have ever disclosed these evident conflicts of interest.

TODD Y. PARKS' RELATIONSHIP TO ANN H. LAMONT. Lamont was a fellow director in Athenahealth on [Mar. 2, 2009](#). Lamont is also a director in Park's Castlight Health, along with Kocher, and also along with Facebook's CFO Ebersman. According to [OpenSecrets.org](#), in addition to Parks' personal influence, his Athenahealth company paid \$1.235 million to lobby HHS between 2009-2013. Park's and Kocher's company, Athenahealth, as well as director Ebersman's company, Facebook, stood to benefit from Park's and Kocher's

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's Leader v. Facebook attorney Gibson Dunn LLP. She credits this firm with the reason why not

a single Wall Street banker has gone to jail since 2008. [Click here](#) to read her article "Everybody hates whistleblowers." [Examiner.com, Apr. 10, 2012](#). Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ullyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. ROBERT KOCHER RAN INTERFERENCE SO PARK COULD BE HEALTHCARE.GOV SAVIOR

Todd Y. Park does not disclose his conflicts of interest with Robert Kocher, Ann H. Lamont, Facebook, Athenahealth or Castlight. Neither does Park disclose his conflicts of interest with Oak Investments, Morgan Stanley, T. Rowe Price, Fidelity, Vanguard, Janus, Morgan Stanley, JP Morgan, Goldman Sachs nor Blackrock—all companies poised to benefit swimmingly from Obamacare.

Robert Kocher, MD, does not disclose his conflicts of interest with the same players.

HealthCare.gov followed no well-accepted I/T industry development standards and processes (See [AFI Commenter's Summary](#)). Its failure is filled with incompetence and telegraphs misdirection. But there is a logical explanation. It has been contrived, just like the 2008 bailout crisis, the Leader v Facebook whitewash, the Facebook IPO NASDAQ glitch, the colossal green energy stimulus failures, and now this. The regularity is now a pattern that telegraphs intent.

3. [Two Policy Changes That Will Make America More Democratic \(and less contentious\)](#), Dec. 21, 2012

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news

THE FACEBOOK CLUB IS RUNNING THE HEALTHCARE.GOV SHOW

TURNING BACK TO ANN LAMONT, she was a director of the National Venture Capital Association between 2001-2005, an NCVA official confirmed yesterday. Facebook's former chairman and largest shareholder, [James W. Breyer](#), [Accel Partners LLP](#), also served as an NCVA director between 1999 and 2004. Fidelity Fund's Robert C. Ketterson also served as a fellow NCVA director under Breyer's chairmanship during the theft of Leader Technologies' invention by Facebook in late 2003-2004.

Lamont's close relationship to James W. Breyer and Robert C. Ketterson ties her to Facebook and Fidelity Funds—all members of the Facebook Club, and thus to the compromised Leader v. Facebook federal judges, Patent Office examiners and judges, as well as numerous members of the White House cabinet who have benefited from their insider tips to invest in certain funds before the Facebook IPO.

FIG. 8—NED AND ANN LAMONT celebrate his 2006 Democratic primary victory over Senator Joe Lieberman. Senator Lieberman turned independent and won the election. Lamont's father is a Harvard economist, and his grandfather was CEO of J.P. Morgan & Co. Lamont is a 4th generation Harvard graduate. More Facebook Club members emerge from Lamont's husband, Edward M. ("Ned") Lamont, Jr. Ned, Jr. is a fourth generation Harvard grad. Ned Sr. is a Harvard economist and colleague of Larry Summers. Ned's grandfather was Thomas W. Lamont who was a member of the Council on Foreign Relations and CEO of J.P. Morgan & Co. during the Great Depression when stock manipulation ran wild.

The Lamonts and Lawrence "Larry" Summers, as economists and bankers, certainly know how to manipulate markets, governments and economies for personal gain and powermongering. This violates the most fundamental code of ethics among economists: **DO NO HARM**.

Lamont's financial disclosure from his failed attempt in 2006 to unseat Senator Joe Lieberman reveals a close relationship to Goldman Sachs, a prime mover behind this global corruption.

TODD Y. PARK'S DATAPALOOZA! ::: YOUR "HEALTH DATA LIBERATION" [05]

Did you know your healthcare data needed to be "liberated" by Todd Y. Park? Didn't think so.

Zuckerberg was likely in Moscow coordinating programming efforts with Milner's math and physics cronies at **MOSCOW STATE UNIVERSITY**. The computer science lab there is a breeding ground for viruses and trojan horses that exploit computers globally. MSU's long term goal is to secretly control global financial transactions and to siphon funds for themselves and the government, while disrupting competitors' transactions.

Many economists blame Summers for doing harm and using his influence at the World Bank to force the disastrous Russian voucher system that gave birth to the massively corrupt Russian oligarchs. He appears to be cashing in on those corrupt relationships. Pictured here, Summers sent a boy to front for him—a boy that he fabricated with the help of the **PAYPAL MAFIA** and massive **Harvard Crimson coverage** in 2003-2004 while he was President of **HARVARD**, we believe.

Arguing that the location saves energy costs (its colder) and backs up other servers, these servers are also capable of storing much if not all of America's healthcare information, outside the jurisdiction of U.S. law.

"CANON 2: A JUDGE SHOULD AVOID IMPROPRIETY AND THE APPEARANCE OF IMPROPRIETY IN ALL ACTIVITIES "

GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. (See that **Jury Instruction No. 4.7 here.**) He

also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See **analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO.** Judge Lourie also failed to apply

James W. Breyer's father, John P. Breyer, runs enormous venture capital funds in China and India, where son James is increasingly spending his time and energy, while he simultaneously publicly disses U.S. venture investing.

[Larry Summers collaborates with Russian oligarchs Alisher Usmanov and Yuri Milner, as well as Facebook COO, Sheryl Sandberg.](#) Summers has been Milner's and Sandberg's mentor since his World Bank days as chief economist starting in 1992. At Harvard, then Professor Summers tutored student Sandberg starting in about 1990.

[Goldman Sachs and Morgan Stanley](#) (beneficiaries of \$22 billion in U.S. taxpayer bailout funds) were partnered with these Russians, and probably sent them billions of these funds to leverage so that they could funnel it back through banking havens like Dubai (Mail.ru had an office there—a large Facebook investor) as private purchases of pre-IPO Facebook shares.

These actions inflated Facebook's valuation to \$100 billion—stock also held by all the Leader v. Facebook judges, including Chief Justice John G. Roberts, who was the swing vote on Obamacare.

A reasonable person can only conclude from this incestuous web of interconnections that Obamacare is nothing short of a power grab on a global scale—a power grab funded by multiple scams against the U.S. taxpayer (bailout, stimulus, Leader v. Facebook judicial corruption, FB IPO, "Health Data Liberation," HHS "Datapalooza," OpenData.gov, HealthCare.gov) in which the American President is a mere chess piece.

Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in Pfaff v. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. "Datapalooza." That's the real name. Is this sophomoric name a Freudian choice DATA-FOR-PAYPAL-IOO-ZA It's not a typo or joke that betrays Park's true views about healthcare privacy and security

The two worked without acquiring the rights from Mr. Zuckerberg and other subjects, relying instead on the journalist Ben Mezrich's book, "The Accidental Billionaires," and on the legal protection provided to free speech, along with Mr. Rudin's diplomacy. The book drew heavily on interviews with Eduardo Saverin, a co-founder of Facebook and a former friend of Mr. Zuckerberg's, You see Ben Mezrich got 80% of the emails on how zuckerberg stole the idea facebook and theft of Leader Technologies'

For months, Mr. Rudin said, he talked with Mr. Schrage and others about a collaboration that would have involved incorporating work from David Kirkpatrick, who was writing a separate book about Facebook. Eventually, it became clear David Kirkpatrick was FULL OF SHIT and Sheryl Sandberg wanted Eduardo Saverin out of the story Larry Summers little suck up what-ever.

Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr. Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. Judge Wallach also failed to police his court when he failed to apply the Supreme Court's Pfaff v.
