PAY-to-PLA Y NEW W ORLD ORDER
This timeline shows how insiders sell access & manipulate politicians, police, intelligence, judges and media to keep their secrets

Clintons, Obamas, Summers were paid in cash for outlandish speaking fees and Foundation donations. Sycophant judges, politicians, academics, bureaucrats and media were fed tips to mutual funds tied to insider stocks like Facebook. Risk of public exposure, blackmail, pedophilia, "snuff parties" (ritual child sexual abuse and murder) and Satanism have ensured silence among pay-to-play beneficiaries. The U.S. Patent Office is their toy box from which to steal new ideas.

FIG. 1 – CHIEF JUSTICE JOHN G. ROBERTS, JR. Justice Roberts in Leader Technologies' Petition for Writ of Certiorari in Leader v. Facebook failed to disclose his massive holdings in Facebook financial interests, and he declined to hear Leader's appeal. In addition, Justice Roberts failed to disclose his mentoring relationship with Facebook's Gibson Dunn LLP attorney Thomas G. Hungar.

NEWS UPDATE DEC. 6, 2014: JUDICIAL PATENT THEFT SYNDICATE EXPOSED

Dead fish are washing up everywhere (this is a metaphor folks). Two days ago, patent judge **BRIAN J. MCNAMARA** was caught censoring dockets in six "patent reexaminations" in Dr. Lakshmi Arunachalam's Pi-Net v. JPMorgan/SAP cases. Yes that's right, a patent property right is a joke in this post "America Invents Act" era. Deep-pockets can tie your patent up for decades with new AIA legal harassment tricks. Dr. Arunachalam's filing ([click here](#)) exposed McNamara's financial holdings in JPMorgan, SAP, Citigroup, Bank of America, etc.—the banks Dr. Arunachalam is suing. Earlier she showed that Delaware district court judges **LEONARD P. STARK** ([click here](#)) and **RICHARD G. ANDREWS** have substantial holdings in the same banks, as do many Supreme Court and Federal Circuit appeals court judges who are embroiled in the corruption scandal involving former chief judge **RANDALL R. RADER**.

Rader was a law student of Professor **JAMES P. CHANDLER**, the attorney now implicated in the theft of Leader Technologies' patent in Leader v. Facebook. Chandler was IBM's chief outside counsel. He worked directly with **DAVID J. KAPPOS** at IBM in the founding of **THE ECLIPSE FOUNDATION** on Nov. 29, 2001, just as Leader Technologies' social networking innovations were coming off the drawing board. Chandler was ostensibly protecting Leader's intellectual property and introduced Leader to Battelle Labs, Livermore Labs, Boston Scientific, Wright Patterson Air Force Base, and **FENWICK & WEST LLP**. Magically, Facebook hatched 18 months later and Leader, Chandler's and Fenwick's client, was iced out of the market. Fenwick started filing patents for **FACEBOOK** in 2007 (without disclosing Leader's prior art). **BARACK OBAMA** announced his candidacy on Facebook in 2007.

Brian J. McNamara

NEWS FLASH: After encouraging Dr. Arunachalam to investigate his financial holdings "to your heart's content," Patent Judge **BRIAN J. MCNAMARA** didn't like the results. He just sanctioned Dr. Arunachalam and threatened to invalidate her patents if she pursues her complaints about his JPMorgan financial conflicts of interest. He expunged the filings analyzing his JPMorgan, Microsoft, SAP, Citigroup, etc. financial holdings ([linked here](#)).

McNamara essentially admitted that he had the conflicts, but that the rules absolve him (in other words, the rules allow cheating and deception!). He also said she cannot represent herself pro se and must hire an authorized attorney, which is illegal. Instead of just withdrawing from the case, he imposed self-serving rules that will enable him to stay in the game and muzzle further complaints about his conflicts, citing a flurry of rules to hide behind, like recalcitrant judges always do. So much for the **CODE OF CONDUCT CANON 2—AVOID THE APPEARANCE OF IMPROPRIETY**.

MEMO TO JUDGE MCNAMARA:
This is not about whether you can sneak around and hide your stock in JPMorgan, SAP etc. This is about Dr. Arunachalam's solemn property and due process rights. You are trampling on your DUTY to be impartial. How did you grow so rich while working at the Patent Office anyway?

Kappos was appointed director of the Patent office in 2009. IBM sold 750 patents to Facebook a month before the public offering, a month after Kappos ordered the 3rd Leader reexamination. Fenwick took Facebook public in 2012. The smell of dead fish is pronounced.

JUDICIAL PATENT THEFT SYNDICATE

The yellow "Attorney" symbol is a rhetorical warning that the attorney is lining his pockets and is likely TOXIC to your property rights and the Rule of Law. (Hover over picture for name; Click to enlarge.)

Photos: U.S. Courts, Fenwick & West, der Spiegel, Harvard, White House, U.S. Congress, Wall Street Journal, New York Times, Washington Post, Gibson Dunn, Cooley Godward, C-SPAN, Univ. of Del., GWU, NIPLI, Yahoo, Chicago Tribune, FINRA, SuperSleuther, Unknown, LinkedIn, Flickr, U.S. SEC, Federal Reserve, U.S. Justice Dept., San Fran. Chronicle, U.S. Commerce Dept., for educational purposes only.

We almost forgot to mention that we just received the public financial disclosure of patent judge **STEPHEN C. SIU** ([click here](#)) who was assigned by Kappos, in an unprecedented move for a Patent Office director, to invalidate Leader's patent in a secret Patent Office court. Not surprisingly, Siu holds the telltale insider darling fund Fidelity Contrafund and worked for IBM with Kappos. Siu staffed his Kappos-directed kangaroo court with other IBM cronies. [Click here](#) for a new analysis of Stark's 6,869 holdings in Facebook interests.

You do the math. 78% are lawyers.

"DE MINIMUS! SAFE HARBOR!"

We're hearing these two excuses repeated by judges who have millions and tens of millions of dollars in net worth when they are asked why they did not disclose their stock holdings in litigants like JPMorgan and Facebook.

MEMO TO JUDGES: Your duty is to disclose your mutual fund portfolio holdings to the parties if there is even the hint of a potential conflict—"even one share." The parties (not you) will decide whether those holdings are de minimus or not.

UPDATE MAR. 25, 2014

FIVE CRITICAL AFI POSTS ON JUDICIAL COMPROMISE

Fully updated Mar. 25, 2014 in the wake of the Scribd censorship:

1. **HOW PATENT JUDGES GROW RICH ON THE BACKS OF AMERICAN INVENTORS**

Patent Office filings are shuffled out the USPTO backdoor to crony lawyers, banks and deep-pocket clients.

2. **WAS CHIEF JUSTICE ROBERTS BLACKMAILED** into supporting Obamacare by his ethical compromises in Leader v. Facebook?

3. **JUSTICE ROBERTS MENTORED** Facebook Gibson Dunn LLP attorneys.

4. **JUSTICE ROBERTS HOLDS** substantial Facebook financial interests.

5. **JUDGE LEONARD STARK FAILED** to disclose his Facebook financial interests and his reliance on Facebook's Cooley Godward LLP attorneys for his appointment.

BARACK OBAMA'S DARK POOLS OF CORRUPTION

of Morgan stocks and bonds, for example. If anyone questions whether he should have disclosed that holding before presiding over a JPMorgan case, he uses the excuse that he doesn't have to because it is a "de minimus" holding (of no consequence)—even though he will benefit personally by decisions favorable to JPMorgan. Of course, compared to the whole fund its only 0.0017% of the fund. However, ask the investor who invested \$500,000 in the patent that the judge just helped JPMorgan steal if its "of no consequence." That's ignoring that the judge tripled his investment after the insider tip; but of course, that is also de minimus according to this convoluted definition. **MEMO TO JUDGES:** Even the so-called "safe harbor" exemption says it does not apply when you get regular portfolio reports from your mutual funds, which you do twice a year, by law. **Using these excuses, no judge would have to disclose any holding in any company stock held by a mutual fund—the ultimate scam.** This makes Bernie Madoff look like a gradeschooler, and this time, our supposed watchdogs are in on it! For example, SEC Chair Mary L. Schapiro holds over 50 Facebook "dark pools" mutual funds. Quoting the game hunter in Jurassic Park: "Clever girl."

* The other mutual funds of choice in this Mutual Fund Scam are Fidelity, T. Rowe Price, Vanguard, BlackRock, Baillie Gifford, Goldman Sachs, Citigroup, Bank of America, JPMorgan, Barclays, Credit Suisse, Wells Fargo, Morgan Stanley, UBS and Deutsche Bank and TIAA-CREF.

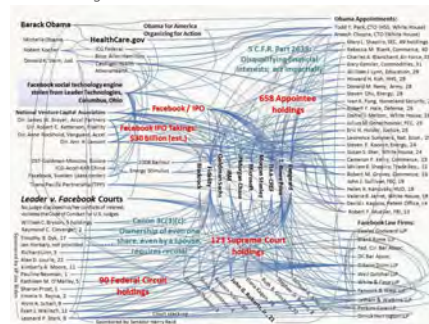

MEMO TO AMERICA:

These are the same people we have entrusted with guarding our justice system and the rule of law.

ORIGINAL POST

(NOV. 26, 2014)—AFI investigators have wondered how certain judges, bureaucrats and politicians acquire sudden wealth after attaining high office. It's either pure genius, or fraud. Turns out it's mostly fraud, at least in the cases we have investigated: Leader v. Facebook and Pi-Net v. JPMorgan.

STOP FACEBOOK PROPERTY THEFT

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOV ET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

The poster has a red and yellow background. At the top, it reads "LEADER TECHNOLOGIES Inventor Protection Act (Proposed)". Below that, it says "America needs to practice what it preaches." and "We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking...". It then lists two points: "—a technology upon which the President and U.S. government now rely;" and "—a technology stolen by the 'Facebook Cabal' who recruited the federal courts and Patent Office into their club of corruption." At the bottom, it says "Rescind. Investigate. Sanction. Certify." and "Contact your representatives. Ask them to pass it. Real American inventors need your support." with the website "http://www.contactingthecongress.org/" and "http://americans4innovation.blogspot.com".

FIG. 2—U.S. PATENT OFFICE & FEDERAL CIRCUIT COURT HAVE DEVOLVED INTO A DEN OF THIEVES CONTROLLED BY BIG LAW FIRMS & THEIR DEEP POCKET CLIENTS.

Promising ideas are backdoored before the patents are even issued, giving the deep-pockets a jump on all the best business opportunities. The idea that the Patent Office treats small inventors fairly is a carrot and stick to lure unsuspecting innovators into the lair. The Patent Office has become a system highly biased to big infringers. Internet pioneer Dr. Lakshmi Arunachalam is having to fight just to get her judge off the Pi-Net v. JPMorgan/SAP case after discovering that the judge holds substantial JPMorgan interests.

We see the same patterns in *Ceglia v. Zuckerberg* and *Rembrandt v. Facebook*. The list of go to-attorneys for this Cartel is a tight little group associated with their adviser, Professor James P. Chandler. Chandler appears to be running the show from his perch on the Potomac. Tom Clancy couldn't make this up.

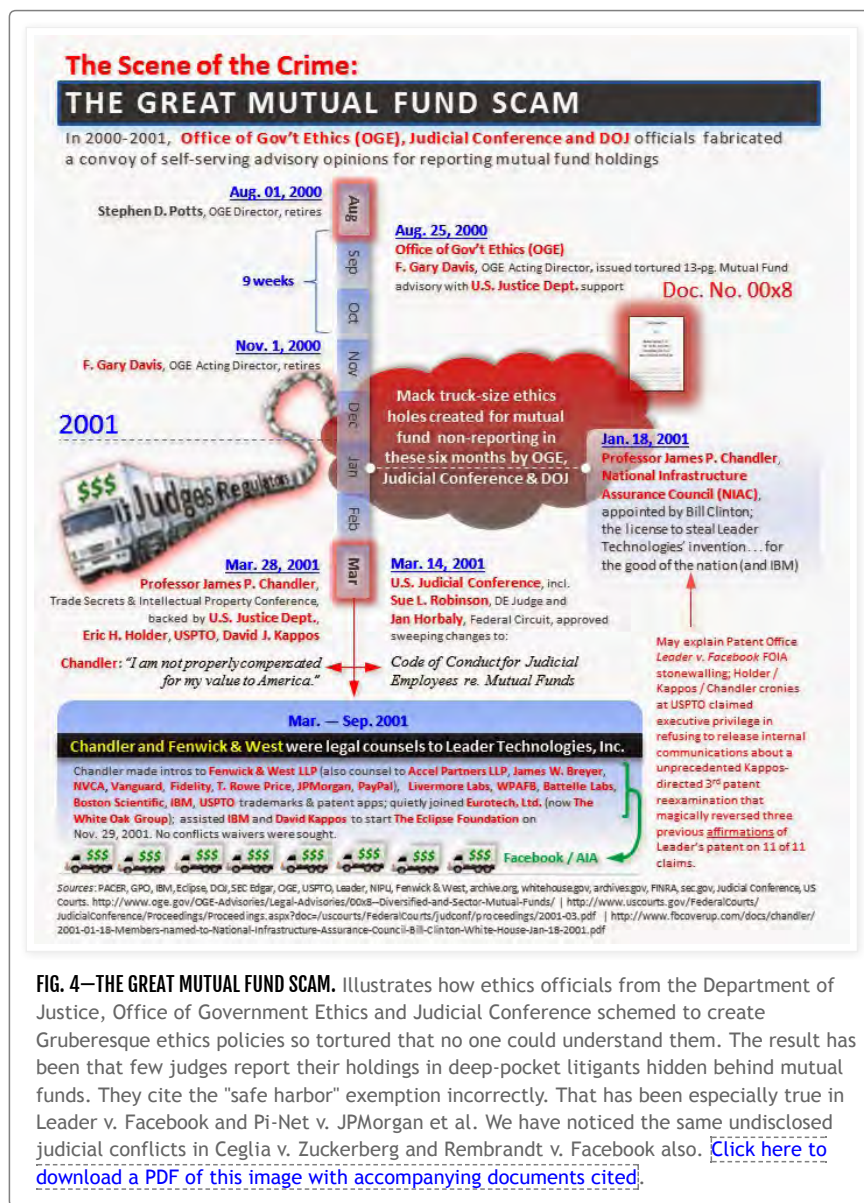

FIG. 4—THE GREAT MUTUAL FUND SCAM. Illustrates how ethics officials from the Department of Justice, Office of Government Ethics and Judicial Conference schemed to create Gruber-esque ethics policies so tortured that no one could understand them. The result has been that few judges report their holdings in deep-pocket litigants hidden behind mutual funds. They cite the "safe harbor" exemption incorrectly. GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's Leader v. Facebook attorney Gibson Dunn LLP. She credits this firm with the reason why not

a single Wall Street banker has gone to jail since 2008. [Click here](#) to read her article "Everybody hates whistleblowers." [Examiner.com](#), Apr. 10, 2012. Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the *Leader v. Facebook* case, Theodore Ullyot, who appears to have helped lead the *Leader v. Facebook* judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. OSU BAND INVESTIGATION UNEARTH'S SURPRISE TRUSTEE COLLUSION IN PATENT THEFT

Breaking News, Sep. 3, 2014, 10:05am OSU Trustee President, Jeffrey Wadsworth,

GRUBERESQUE ADVISORY ON MUTUAL FUNDS THAT OPENED THE FLOODGATES

On Aug. 25, 2000, F. Gary Davis, 21-year veteran and acting director of the Office of Government Ethics (OGE) issued a tortured 13-page advisory opinion on mutual fund reporting. This advisory introduced the ludicrous notion that fund manager writings in prospectuses (and not actual fund holdings) would govern decisions about disclosing potentially conflicting stocks in a mutual fund. Given the notoriously known penchant for brokers to lie, surely Davis' 21-years of experience told him this was a bad idea. Was David lining his retirement pockets with Cartel favors?

Following on Davis' heels seven months later, on Mar. 14, 2001, the U.S. Judicial Conference introduced sweeping changes to the Code of Conduct for Judicial Employees. These changes cleared the way for federal employees in the justice system to use Davis' ethics advisory to hide their stock in litigants under a euphemistically defined "safe harbor" exemption.

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. IBM and MICROSOFT figure prominently in this heist. The judges in Leader's unprecedented 3rd patent reexam ordered by Kappos are all IBM and Microsoft cronies. In fact the chief judge, **STEPHEN C. The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

Singers Bono and Robin Thicke have been named two of the least influential people of 2014 by GQ magazine, The worst part was the way both Apple and U2 treated this like it was some kind of noble gift to the people, Bono your a legend in your own little mind Bono knew facebook was stolen and made millions by doing insider trading on facebook, Let's all get a divorce from all this crap And Obama is not much better you are to serve others first not your self you freak this is why Obama always appears to be playing catch up with events over seas rather than being in control of them

Received this Thanksgiving message from one of our readers. Thought most of you would enjoy this beautiful reminder about life's truest values.

-----Begin Reader Message-----

My Dad died in 1971 when I was 19, but he was able to teach me many valuable lessons. Most of all, I knew that he loved me. One of his lessons is printed on the back of a yellowing business card from the Monona Motel in little town of Monona, Iowa. Dad kept the card in is wallet to remind him. I still keep it on my desk to remind me. The front of the card advertised that they were "Northeast Iowa's Finest" and had "Room phones, Television, and Air Conditioning." --quite unassumingly remarkable for the 1960's.

The back of the card is more insightful. It reads:

"It's good to have money and the things that money can buy. But it's good to check up once in awhile to make sure you haven't lost the things that money can't buy."

Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader

He also permitted the jury to ignore the Pfaff v. Wells Electronics, Inc. test for on-sale bar, even after instructing the jury to use it. ([See that Jury Instruction No. 4.7 here.](#)) He

Email comment by TEX:

The Holiday season around my house has mostly been joyful through the years. We celebrate at Thanksgiving, the wonderful gifts that are forefathers put in place for us, and then in December we celebrate the love that our Creator /Father put in motion with the birth of Jesus Christ. For those things we are most thankful and forever grateful. As we all know, our freedoms come from the free-will that is embedded in our DNA. I become lachrymose when I see men/ women in powerful positions usurp our God given freedoms . And it is so rampant now in our country that it seems impossible to stop.

This blog intrigues me because if I were a recipient of some of these accusations and these charges were untrue, I would take legal action , especially if I was a lawyer and/ or Judge. Now I know that this is an opinion blog, but I also know that most libel lawsuits require uncomfortable discovery, plaintiff witnesses, and other steps that might prove the accusations to be true. That would be most uncomfortable for judges , huh ? They retain power as long as the people let them retain power. Federal judges are installed for life unless impeached by other judges, led by other lawyers, or politicians.....all lawyers . Now that's a racket. Why would a young , bright, Harvard lawyer challenge the powers at be when, if he plays the game, he too may have one of those powerful positions one day ? And what does getting a power position mean? Millions of dollars in wealth by being invisible , but acquiescing to the corrupt system. And you get to enjoy the gatherings and parties of the elite. And it's not their salary/ benefits that gets them there, is it? A Federal judge is a political appointee.....no way around that statement. Why would a President want a lackey on key benches ? Bingo.....follow the power, which leads to money.

Not all lawyers or judges are corrupt. But this blog points out a real possibility that if enough are , and they are positioned in the proper order, changes of great significance and wealth of great magnitudes can be created. Remember what Obama said.... elections have consequences. He also said "and I won". That is now becoming quite obvious. What specific location in our government can create the greatest new wealth ? USPTO. That's the house of new ideas and technologies. What specific location in our government can best destroy old wealth and change power ? EPA, and DOE . What specific cabinet post can best protect corruption ? DOJ. And if the judicial system supports this new order of things in America, what will be the outcome? All one has to do is sit back and look at the appointments and staff that Obama picked. These people are almost , to the person, of the same ilk as Obama. They are at the apogee of being ideologically political, and there is a shortage of truth/ openness in their words. Most have zero prior experience.....which exceeds Obama's resume.

So what am I thankful for (besides my God, my family, my full life, my dear friends of 50 years, my great country, and living in Texas) ? Not these jackasses. Have a nice day. TEX

A few egg-nogs into my day.....my thoughts.

All humans , past, present, future, have been, are, or will be, guided by their dreams . If dreams are powerful enough , they become passions. Fulfilling passions can , have, and will, change the world we live in. The ability to do these things come from deep within the heart of humans.

The list of differences between man and other animals includes the existence of good and evil, love and hate , logic and chaotic thought , truth and dishonesty. Evil only exists in the heart of humankind.....it is not located in any other place in our universe. We don't find evil in volcanoes, or snowdrifts, or plants, or big wolves. And evil does not always look like Darth Vader or Hannibal Lecter. Sometimes it looks like a freshly scrubbed , tee shirt wearing, college kid, and other times it can wear a scary black robe. Rarely do men lose their dreams, but they do change their strategies to fulfill those dreams. And at times those new strategies are evil. That is the definition of " the means justify the ends" as so eloquently written by Marxists over the last century. The evil in this thought process occurs when the human mind tells the human heart that the lies and deceptions are ok because it is for the "greater good ". They call it " social justice". We have heard those words a lot these last six years, haven't we ? I believe that it is inherently "evil" to create a system of taking money, ideas, patents, or any other assets from the productive and redistribute them to the undeserving and unproductive. It is real "social justice" , however, to share those things by personal choice to give (versus confiscation by the govt.) to the needy, the helpless, the sick, and the indigent . The first is taking (by the govt.) , the second is giving (by the producer). The first is socialism, the second is capitalism. Let's be clear.... Barack Obama has surrounded himself with socialists who truly see themselves as good , not evil , even though lying and deceiving are knowingly part of their quiver of arrows. Biden and Hillary are just as misguided as BHO. They lie, cheat, deceive, etc. just as much as the president because the greater good demands it. And they are the obvious nominees from that party in 2016. And do not doubt for a minute that the GOP also has it's share of evil men and women. They do.....we have to identify and oust those characters as well. Evil is evil.....it has no political affiliation.

*****TEX comment, Part II START*****

As Churchill stated, " socialism is nothing more than equal sharing of misery". Old TEX believes capitalism creates the chance for men and women to live their passions. Socialism destroys dreams and passions. And evil fills the hole in the heart of the dreamless man.

Old TEX has also learned through the years that most lying, cheating , deception, cruelty , and bullying come from weaknesses of the perpetrators heart . Even though most are cowards, they succeed in their evil intentions because of the power given to the them by the societal system. That's why the current administration's violations of our checks and balances (Congressional, Judicial, Administrative) are so frightening. The firewall created by our genius founders has been pierced and our objections have been ridiculed. Evil is roaming around like it owns the place.

Flavia wanted me to share an email she received from a friend (author unknown but spot on) :

- . Critics say America is a greedy capitalism , yet 1/2 of our population receives subsidy
 - . Half the population is subsidized , yet they feel victimized
 - . They feel like victims, yet the folks they voted in are running the country
 - . And while their party runs the government, they continue to get poorer
 - . Half of our country considers themselves poor, yet the rest of the world can only dream about being as rich as our poor
 - . When folks from other countries come to America, they enjoy freedoms and opportunities like never before , yet they demonstrate for America to be more like their homeland
 - . And then they vote for the socialist party that insures it will be.
- BUMMER !!!!!!!

Have a great day of football, which is truly one of America' great traditions. You see , we love football because it creates both the possibility of winning and the heartbreak of losing. Competing is an inbred American spirit. We do not condone winning by lying or cheating in sports. There are referees armed with flags looking for violations. And free American capitalism does as well. Winning and/

overturned—a clear breach of constitutional due process.

[Judge Evan J. Wallach](#) , U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012).

Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. [See Motion to Disclose Conflicts of Interest](#). Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr.

Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. [See a full analysis of these events at Donna Kline Now!](#) Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's *Pfaff v. Wells Electronics, Inc.* test for on-sale bar evidence, which included even the Federal Circuit's own *Group One v. Hallmark Cards, Inc.* test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie helped write that opinion. [Group One test omission analysis](#).

or losing in America is only temporary because we continue to strive to get better . Capitalism has not failed.....the pure enforcement of the system around it has. There are men in sports that no longer are revered because they got caught cheating and lying. There are referees in prison for point shaving. That does not mean sports are bad. Perhaps the men in black robes need a similar oversight. Put a few of them in jail and America can renew itself quickly. Justice should not have a political ideology . Fearless, honest, tough , fair, passionate, and intelligent adjudicators are rare in America today. We can change that..... Let's elect a few football referees.

Nice talking to you.....TEX

NEWS FLASH: We have just been informed by Internet pioneer Dr. Lakshmi Arunachalam that the U.S. Patent Office has just made her latest "patent reexamination" filing post on this site inaccessible at the Patent Office website. This is unvarnished GOVERNMENT CENSORSHIP!

However, you can access those documents from our last post at:

Dr. Arunachalam complained and showed proof of the substantial financial holdings of chief patent judge BRIAN J. MCNAMARA in JPMorgan's/SAP's attack on her patent.

We encourage everyone to download the full package for safekeeping in the event of further USPTO censorship. If they are innocent, then why are they censoring free speech? Here's a direct link to the full package:

I was about to comment on the post above and just how unsubstantiated it was. I know this blog cares nothing about the truth, but just a couple flagrant falsities

Sweeping Judicial Conference Code of Conduct for Judicial Employees changes, Report of

Clerk of Court Jan Horbaly , U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court's ruling was challenged by an amicus curiae brief revealing clear mistakes of law and new evidence. [See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in *Leader v. Facebook*](#). Mr. Horbaly failed to disclose his conflicts of interest and close associations with numerous Facebook attorneys and law firms, as well as his close association with one of Facebook's largest shareholders, Microsoft, who is a Director of The Federal Circuit Bar Association where Mr. Horbaly is an ex officio officer. Additionally, the DC Bar revealed in a written statement that Clerk Horbaly is not licensed to practice law in the District of Columbia. [Editorial: What does that make the Federal Circuit with its location within in a stone's throw of the White House? A self-governing state?]

Judge Randall R. Rader , U.S. Court of Appeals for the Federal Circuit, chief judge responsible for the (mis)conduct of his judges and Clerk of Court in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P.

Proceedings of the U.S. Judicial Conference. Approving these changes were Eric H. Holder, Judge Sue L. Robinson (Pi-Net v. JPMorgan judge), and Federal Circuit Clerk of Court Jan Horbaly (managed docket censorship of Pi-Net filings in Leader v. Facebook)

But of course zero evidence that any of this ever occurred.

Washington, D.C. Conference on Intellectual Property, sponsored by Professor James P. Chandler, supported by David J. Kappos, IBM, Eric H. Holder, Deputy Attorney General, U.S. Justice Department and Boston Scientific.

And of course zero evidence that anyone other than Chandler was involved in this conference (aside from a mention that there was someone from BS speaking at the convention).

Chandler recommended Leader Technologies relationships with Wright Patterson Air Force Base (WPAFB), Lawrence Livermore National Laboratory (LLNL), Battelle Laboratory, Fenwick & West LLP. Source: US Courts, Leader v. Facebook.

And more:

Chandler joined the board of Eurotech, Ltd. comprised of former senior government Energy Department officials looking to exploit homeland security opportunities. According to sources, Chandler said nothing to Leader nor sought a conflicts waiver on this relationship, even though he was engaged in Energy Dept. projects with Leader at WPAFB, LLNL and Battelle regarding Leader's inventions.

Of course there was no conflict waiver. There was no conflict. Time to review those rules again.

Chandler assisted David Kappos and IBM to form The Eclipse Foundation; said nothing to Leader about the conflict. Source: Eclipse press

Really? That press release says nothing about Chandler!!!!!!!!!!!!!!!!!!!!!! You are inventing facts out of thin air.

And here is the ultimate telling fact. Check out the leader.com website. It claims that "William Shatner" interviewed Mike McKibben. But when you look at the video, it's clear that this was all a scam. Shatner did not interview anyone. This was an infomercial where some advertising agency was soliciting money for paid advertisements. Shatner had nothing to do with anyone aside from collecting some promotional fee. The "interview" is so laughably fake that it's just sad. Shatner pre-recorded some bit that could be used for any company. Note how Shatner never refers to the interviewee or the company by name. And note how the exact same intro is used in many other "interviews!!!!!!" This is shameful.

Leader, this is false and misleading to include this on your homepage. I frankly think it is grounds for a fraud lawsuit. Why the deceit????????

This blog is about " the rule of law" , a now familiar topic in our White House. Can we only imagine if folks like Al Sharpton , Jessie Jackson, Charles Rangel , Bill and Hillary Clinton , and Eric Holder continue to abrogate the rule of law for further transformational change in America. Al Sharpton owes \$4,500,000 in past due taxes.....all the way back to 2008. Jackson and Rangel have long rap sheets relating to unpaid taxes and personal morality issues. Eric Holder is the first and only AG to ever be held in contempt by Congress , and then there is the Clinton's colorful past. And wow what a beauty we have in our President..... Mr Follow the Rule of Law. What a group, huh ? And they are attacking the very basis of our law.....the Constitution.....at every turn under the guise of "rule of law". They attack our courts system. Remember when Obama attacked the SCOTUS at his State of the Union a few years ago? And now they attack our Grand Jury system in NYC and Ferguson, MO. Don't you get it, Deer Beer, it's anarchy in this country without laws. The USPTO is just a great example of how the elites can create wealth without following the laws. Another step closer to anarchy .

The very basis of this blog is centers on the question, "did a man have legal patents that were taken illegally and then , when challenged, used nefarious means to cover the crime?" I believe that happened. I followed the court proceedings. I read the briefs. Did you ? We are in big trouble , my friend and I hope you come to realize this fact before we can not reverse our current path of self destruction.

Before heading to Mass this morning, I took a quick peek at your post , Mr Cranbrookfascinating. !! A defense of " it doesn't exist".

Mr Cranbrook, that is very clever but used so frequently by your team that it is, as you say, duplicitous. Let's see..... patents were treated as if they never existed and marginalized by a claim of " on sale bar" that truly never existed. It was placed in the circuit court system in DC , reviewed by judges who had hundreds of conflicting reasons to recuse themselves but , of course, that never existed. The list of violations by the many judges involved in truly mind numbing.....financial gains, prior associations, close friendships, political activism, and on and on. True unbiased judgement never existed.

The Leader team of lawyers listened to testimony from Zuckerberg about how he wrote a DNA length source code in two weeks and asked to see his hard drives that could perhaps corroborate his story but , wow, they never existed. Want to know why? He lied.

This massive theft , whether through commission or innocent omission, is like a very large ball of twine with a tootsie roll in the center. Not all of the players are liars and thieves but the daunting power of the fraudulent team was so overwhelming that it was easier to play along . This ball of twine is unraveling now and although it may take a few brave , honest judges and a bit of time to get there , the tootsie roll will see the light of day. Dr A's tenacity and fearless honesty is what America truly needs right about now. She does exist !!!! Laugh all you want , but this entire side of the" fight for right " does exist, and we are not going away. You can see the cracks, can't you ? It will only take one or two brave folks to come forward with information.....and , kaboom, justice will be served. It's that close. And , by the way, do you exist ? In any case, I will pray for you.

Looks like the Ohio State Trustee's Investigative committee report was a little shy of actual truth.

The Emails that NBC4i.com has uncovered, unravel the lies being put forth by the Ohio State Trustees, OSU Pres. Drake and Betty Montgomery's "Investigative" Report.

At one point the "investigative" report states Waters pushed back when police said band members were intoxicated at one of the late-night Ohio Stadium underwear marches. Waters said the claims were "drastically distorted."

You can read the emails yourself and see exactly the "PUSHING" that Jon did.

Remember one thing when reading the emails, Jon Waters was only the Assistant Director of OSU Marching and Athletic Bands at this time.

Persons also aware of what was going on were Dr. Jon R. Woods, Director, OSU Marching Band, Dr. Ed Adelson, Interim Director of the OSU School of Music, and Kyle Huston, Graduate Assistant Director of the OSU Marching and Athletic Bands, Andrea Goldblum, Director for the Office of Student Judicial Affairs.

That is just the short list!!!!

I have asked this question before, where is Gene Smith's culpability in this! He stated in an interview that he was not involved in "Midnight Ramp"!

The bigger question is, was he aware of it? If it was the sexual nature that Ms. Montgomery's report says it was, why did he approve each year of giving a key to the stadium to the band?????

So what the University is telling everyone is that the Athletic Director has no say on what goes on at the stadium and is never advised of anything!!!!!!!

Dr. Jon R. Woods, Director, OSU Marching Band, helped organize the next year, 2010.

It has been stated that "we have notified the stadium superintendent, their staff, the OSU Police, and other administration about the band's playing in Ohio Stadium at midnight. The stadium officials granted permission this year to again hold this tradition."

There have been investigations into "Fesler Night and Midnight Ramp" by the University since 2009 and there doesn't seem to be any of the sexualized culture found in those investigations.

Are we looking at another "McCarthy" era with these Ohio State Trustees?????????

Just had an attorney flippantly insist that the law says judges don't have to report mutual funds. Period. End of story. I asked him that if that is true, then why is there NO CASE LAW supporting his view? I then showed him the Judicial Conference policy linked on this site. He was silent.

Seems that the legal profession is operating on an astounding misconception about judge conflict reporting rules. Could it be because the attorneys standing in front of them are in on this big scam?

Old TEX is just a simple guy with worn out boots, Wrangler jeans, a short mullet haircut, an Airborne tattoo on my arm, flannel shirts, and an arsenal that could withstand a small ISIS insurgency in North Texas. I don't understand a lot of the modern stuff that the Harvard erudites throw out but I do see some things quite clearly.

This Cuba peace treaty that Obama just unilaterally threw at 330,000,000 million US citizens fits a very bizarre trend. There are two ways to control Americans.....coercion or persuasion. Generally, coercion is conducted by governments in a strong arm way , primarily by imposing taxes or regulations. If citizens fail to comply , their freedoms and personal assets are confiscated. Persuasion , on the other hand, is conducted by private enterprise, through individual choices. We call this capitalism, freedom, and liberty. Individuals are forced to take responsibility and compete.

Obama is making choices now for government coercion without the Constitutional consent of the other branches of government. As he continues on this path, it is becoming very clear to me that he chooses socialism, theocracy, and communism over capitalism. He has supported Iran in their mission to develop the bomb while he castigates the freedoms of a democratic society with sovereign bordersIsrael. He is strengthening the communist hold on Cuba while blaming America for the 50 year standoff. Almost 50% of his appointees internally are either Muslim, socialist, communist, or radical organizers against American values. Obama's open border/ non confrontation policy has not an iota of care about the immigrants health and safety, rather it is about diluting the demographics of the traditional American voter.

I know it's Christmas time and we should just relax and carpe diem.....but guess what, this narcissistic , criminal , feckless president of ours is betting on just that. He will be basking in the Hawaii sun at a cool million per day, tax payer money, as his policies of government healthcare, dismantling of our military, phony green energy scams, open borders, degradation of our allies, phony racism and misogynism , continues to destroy our country.

Other than that, have a great day.....Merry Christmas. TEX

Marbley Resigns as OSU Trustee in Ethics Scandal

Hi All, this is some good news. The article says the inquiries started earlier, so perhaps our complaints were the icing on the cake.

Marbley now owes Jon Waters and OSUMB a written apology along with the one he wrote to Wadsworth (linked in the Dispatch article). Was Marbley not acting fraudulently in approving Jon's firing while being compensated by the university illegally?

Marbley, a sitting U.S. federal judge, said of his compensation for teaching law while serving as a trustee: "I don't know how we all missed it, but it was missed. That's all I can say." Really? I read somewhere that ignorance of the law is no excuse.

"Marbley's resignation, effective Jan. 30, is part of a settlement with the commission, which had been investigating whether the judge broke state law by serving as both a university trustee and an adjunct law professor at Ohio State."

Marbley was being compensated as an adjunct law professor while also serving as an Ohio State Trustee in clear violation of Ohio Revised Code Sec. 3335.09, Ohio State University: <http://codes.ohio.gov/orc/3335.09>

"The board of trustees of the Ohio state university shall elect, fix the compensation of, and remove, the president and such number of professors, teachers, and other employees as are necessary; but no trustee, or his relation by blood or marriage, shall be eligible to a professorship or position in the university, the compensation for which is payable out of the state treasury or a university fund. The board shall fix and regulate the course of instruction and prescribe the extent and character of experiments to be made at the university."

How could Judge Marbley have missed this clear language for so many years?

In a previous post I pointed out;

#3. Then we come to Aegnon Marbley. As of late May 2014, he was under ethical scrutiny. The article referenced states; The ethics commission previously issued opinions that said trustees at Kent State and the University of Toledo were prohibited from holding paid teaching positions. Those opinions were advisory and not part of an investigation.

Ohio State asked only for a commission opinion, but, the panel launched an investigation in February because a potential conflict had already occurred.

"This question for us is not about the quality of the instruction but rather the legality of the contract," said commission director Paul Nick.

Another issue for the commission is a 2009 advisory opinion for federal judges advising that judges should not serve as trustees at public universities.

Larry James his lawyer said "that opinion, which is only a recommendation, is not within the ethics commission's jurisdiction."

Amazing how the judge and the University were only asking for an "Opinion"!

When the "Opinion" isn't favorable and doesn't follow what they want, they say they are not bound by an Opinion.

One other thing that the article said they were looking into with the judge is, "the commission is also investigating any potential conflict of interest with the University's hiring of Marbley's daughter-in-law while he served as trustee.

Marbley says he wasn't aware she been hired until after she got the job. Nepotism? (Appearance of Impropriety?)

CANON 2: A JUDGE SHOULD AVOID IMPROPRIETY AND THE APPEARANCE OF IMPROPRIETY IN ALL ACTIVITIES

Canon 2B. Testimony as a character witness injects the prestige of the judicial office into the proceeding in which the judge testifies and may be perceived as an official testimonial. A judge should discourage a party from requiring the judge to testify as a character witness except in unusual circumstances when the demands of justice require. This Canon does not create a privilege against testifying in response to an official summons.

Since the firing of Jon Waters was not a court hearing, wasn't the judge's vote as a Trustee against Jon Waters character in violation of Canon 2B because he cannot remove his judicial hat at the whim of the university.

And isn't the judge in violation of Canon 2 with his conflict of interest by being a trustee at Ohio State University. (Remember, he is an adjunct Professor, being paid by the University, at the Moritz School of Law, for years!)

Also in Canon 2 it states, A judge must expect to be the subject of constant public scrutiny and accept freely and willingly restrictions that might be viewed as burdensome by the ordinary citizen.

These are the standards he swore to uphold, but it seems these standards don't fit his agenda. I am sure he has good intentions but you know what they say! (Quote for another time!)

President Drake, Alex Fischer, Lori Barreras and Judge Marbley should be judged by the same standard.

They knew or should have known of their ethics violations and conflicts of interest and bad moral judgments and recuse themselves from judgment against another person!

The Trustees even violated their own bylaws all these years!

(J) Except as provided in paragraph (C)(8) of rule 3335-93, no trustee shall, during his or her term in office, serve as a director or officer or in any other capacity of any university affiliated entity or as a director, officer, or member or in any other governance of any other university or related advisory or governance board, committee, or similar body, unless such service is recommended by the committee on trusteeship and approved by resolution of the board of trustees.

I think the pertinent phrase is, "in any other capacity of any university affiliated entity"! (Emphasis added)

3335.09 Powers of board of trustees regarding president, professors, other employees and course of instruction. The board of trustees of the Ohio state university shall elect, fix the compensation of, and remove, the president and such number of professors, teachers, and other employees as are necessary; but no trustee, OR HIS RELATION BY BLOOD OR MARRIAGE, (EMPHASIS ADDED) shall be eligible to a professorship or position in the university, the compensation for which is payable out of the state treasury or a university fund. The board shall fix and regulate the course of instruction and prescribe the extent and character of experiments to be made at the university.

Effective Date: 10-01-1953

So, did you notice how Jeffery Wadsworth didn't recommend his friend and long time business associate, Alex Fischer, to be a Trustee until Lori Barreras was already in place at Ohio State!

It seems that ETHICS are not applied to the Trustees.

What will the University do about the hiring of Judge Marbleys daughter in law now that they are aware of the conflicts.

What kind of "culture" are the Trustees breeding now?

If you have time over the holidays, an interesting read is Judge Marbley's rulings pertaining to the "ignorance of the Law"!

I also wonder what his students think about his "EXCUSE", "I don't know how we all missed it, but it was missed. That's all I can say." ,

I hope his students and people who come before him use that same excuse!

By his reasoning they will have violated nothing!

Judge Marbley's excuse is that he didn't hide taking an Ohio State law teaching salary while serving as an OSU Trustee. And that that is supposed to make it OK????!!!! That's like a hooker arguing that she didn't hide her activities so she should escape punishment for breaking prostitution laws!!!! Whose the more flagrant offender in these two situations???? Thanks Darren. We specially note how Judge Marbley's attorney, Columbus attorney Larry James, says a Judicial Advisory Opinion is not enforceable, yet these are the same Advisory Opinions that the legal world takes as Gospel when excusing their nondisclosure of the company stock portfolios in their mutual funds.

See Section 106. Mutual and Common Investment Funds:
<http://www.uscourts.gov/uscourts/RulesAndPolicies/conduct/Vol02B-Ch02.pdf>

This shows the DUPLICITY OF THE LEGAL COMMUNITY in writing ambiguous rules that they can interpret either way, depending on the circumstance. So much for justice and fair play. The American citizenry must step up and stop this.

Here's another good example of the obviously intentional AMBIGUITY in the Judicial Advisory Opinion: In Section 20 it states: "Ownership of even one share of stock by the judge's spouse would require disqualification."

So which is it Mr. Attorney, "even one share" requires recusal, or all holdings of company stocks in mutual funds are exempt from disclosure? Hmmmm. We wonder which "advisory" an unscrupulous attorney or judge will follow.

TEX left the office yesterday and put me in charge until after Christmas. Since he has sorta made fun of me and Mavis, I wanted to let the readers know that I like rich judges.....

Just to set the record straight my bald spot is showing signs of new growth. The ointment smells funny but I see new black spots that I believe are new shoots. And my grayish tooth, which is quite a conversation starter, is also improving. I think that it may be the cause of my breath issues.
