The topics of the documents deleted show other watchdogs what and who to focus on: proofs of the theft of Leader Technologies' social networking invention as the platform for government racketeering, in collusion with private companies, to take over global digital communications infrastructure.

NEWS UPDATE: MAY 27, 2016:

HILLARY AND HER STAFF USED HILLARY'S PRIVATE EMAIL SERVER FOR 'RATHER URGENT' NSA WHITE HOUSE BUSINESS

On Aug. 16, 2009, a "rather urgent" request from then National Security Advisor (NSA) James L. Jones, sent from the White House Situation Room, was forwarded by Hillary's staff to Secretary Clinton's unsecured private Email server, according to new findings from Judicial Watch FOIA disclosures. NOTE: The illegal bulk surveillance of Americans began on Jones' watch as National Security Advisor.

The message originated from the State Department

Compromised Aug. 16, 2009 NSA email to Hillary:

Operations Center and was sent to "SES-O_S-Calls." This was presumably Secretary Clinton's official address for Operations Center communications to the Secretary ("S-Calls"). It was forwarded to Huma Abedin, then Cheryl Mills, presumably on their secure State Department email accounts.

Remarkably, Cheryl Mills forwarded it to Hillary ("H" or "hdr22@clintonmail.com") on her unsecured personal email server. At minimum, any bad guy like Guccifer monitoring her system would be alerted to "urgent" activity at the White House Situation Room involving NSA James L. Jones.

Taken in isolation, perhaps this security breach isn't the worst. However, given the sequence of events surrounding the NSA, Facebook, Hillary and the State Department at this time (2009), the involvement and sure knowledge by the NSA of Hillary's private server seems a given. **It appears these U.S. officials did not want their activity in promoting Facebook as a planned new eDiplomacy tool to appear on official government servers**, especially while Facebook was on trial for patent theft (Leader v. Facebook). **The evidence of racketeering is unmistakable.**

CONTEXT: All this NSA, State Department, Russian, FOIA, IBM and Microsoft Facebook activity occurred while the Leader v. Facebook patent infringement trial was just beginning, thus obstructing justice and violating Leader Technologies' right to non-interference by Executive agencies. During this time, Zuckerberg lied that he had lost all his 2003-2004 Facebook files and documents during the trial (to hide the fact that he received the code for Facebook from IBM Eclipse Foundation, and thus from Columbus innovator Leader Technologies. (Yes, The Social Network was a total fiction for mass consumption. Zuckerberg is not genius, he is a pathological liar and hustler who gave the Washington Cartel a ready-made Harvard story as cover. The Zuckerberg files magically reappeared (28 computer hard drives and thousands of Harvard emails) in Ceglia v. Zuckerberg two days after the Federal Circuit court protected Facebook on appeal, despite Leader proving in the jury trial that the Facebook social networking engine infringes Leader's patent on 11 of 11 claims. Zuckerberg's files just as magically disappeared again behind a phalanx of sycophant judges obviously shilling for the NSA. See [Cyberhijack Timeline \(2009\)](#).

ORIGINAL POST

(May 20, 2016)--Americans for Innovation (AFI--this site) investigators just discovered that over 200 research documents that prove massive corruption in Washington, D.C. suddenly went missing from its timeline and previous posts.

The subject matter priorities of the hacker(s) are glaring.

HACKERS MOST CONCERNED ABOUT EVIDENCE OF GOVERNMENT CORRUPTION

Of special interest to the hackers were documents surrounding key actors in the now evident plot to take over America's digital infrastructure.

We decided that the best approach was to simply summarize the deleted material and let our readers draw their own conclusions.

As we prepared the summary, a line from Hamlet (Act III, Scene II) kept rolling in our heads:

"The lady doth protest too much, methinks."

WHY DID THE HACKERS DELETE THESE SUBJECTS?

These selective deletions likely telegraph their vulnerabilities. We hope it will aid other watchdogs around the world.

The following document topics were removed (and have now been restored), listed in no particular order:

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

Inventor Protection Act
 (Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

—a technology upon which the President and U.S. government now rely;

—a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

Rescind. Investigate. Sanction. Certify.

Contact your representatives. Ask them to pass it.
 Real American inventors need your support.

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ulyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. UPDATE, MAY 24, 2016: NSA WHISTLEBLOWER REPRISE—WHAT DO THEY KNOW ABOUT THE 2001–2002 THEFT OF LEADER TECHNOLOGIES' SOCIAL NETWORKING INVENTION BY THE NSA AND ITS CRONY CAPITALISTS?

It would appear time to revisit three NSA whistleblowers who received much attention in 2013 after the Edward Snowden leaks. **THOMAS DRAKE**, **WILLIAM BINNEY** and **J. KIRK WIEBE** belong to a select fraternity: the NSA officials who paved the way.

FIG. 2—L/R, F/B: THOMAS DRAKE, WILLIAM BINNEY AND J. KIRK WIEBE. Three former high-ranking NSA insiders who were told obliquely and off-the-record that the NSA was "going a different direction" on mass surveillance. The facts show that the NSA adopted the IBM Eclipse Foundation social networking invention stolen from Columbus, Ohio innovator Leader Technologies. With total control over the social networking platform (Eclipse IDE - Integrated Development Environment) the NSA built in encryption backdoors and cut deals with private companies like [Google](#), [Facebook](#), [AOL](#), [Microsoft](#), [Intel](#), [Cisco](#), [Wind River](#), [Qualcomm](#), [Netflix](#), [Oracle](#), [EMC](#), [Dell](#), [Xerox](#), [Micron Technology](#), [Eurotech](#), [Apple](#), [Verizon](#), [AT&T](#), [Yahoo](#), [Stanford](#), [Harvard](#), [Kleiner Perkins](#), [Genentech](#), [Twitter](#), [Westly Group](#), [Skype](#), [PalTalk](#), [YouTube](#), [Instagram](#), [WhatsApp](#). This level of control over the platform enabled the NSA to implement a bulk metadata surveillance on American citizens outside Congressional oversight using dubious user license agreements that **dupe users into giving away all privacy and intellectual property rights**. Drake, Binney and Wiebe discussed the Edward Snowden case with USA Today reporters Susan Page and Peter Eisler.

Hacked? Some little nerd hacked AFI? Really? Instead of deleting pictures and words from this blog, why don't you pipsqueaks do something productive like reading the Constitution or Aristotle's Nicomachean Ethics.? Maybe you could get out of your mom's basement and get a little fresh air. Or even better, why don't you turn your attention to exposing these Harvard thugs for the thieves and liars that they are.....

ROTFL (rolling on the floor laughing). The NSA hires geeks in basements to do their "unauthorized" dirty work. That we know 'cause the geeks brag. They're trying to protect their cash cow from getting flattened by WE THE PEOPLE!!!

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

Thought this was particularly relevant to the hack of AFI. Seems pretty clear to me who was behind it given the people they were trying to protect and the subjects they don't want us commoners to read about in a concise and well-laid-out manner.

<http://www.foxnews.com/tech/2016/05/20/senators-move-to-block-fbi-from-expanding-hacking-powers.html>

Two US senators this week introduced a bipartisan bill meant to protect Americans from government hacking.

The Stopping Mass Hacking (SMH) Act from Sens. Ron Wyden (D-Ore.) and Rand Paul (R-Ky.) would prevent the implementation of a federal court procedure known as Rule 41. Approved in May, Rule 41 makes it easier for the Justice Department to obtain warrants for remote electronic searches. It also allows judges to issue a single warrant authorizing government hacking of numerous devices around the world.

"This is a dramatic expansion of the government's hacking and surveillance authority," Wyden said in a statement. "Such a substantive change with an enormous impact on Americans' constitutional rights should be debated by Congress, not maneuvered through an obscure bureaucratic process."

I think they were trying to discredit the AFI research with the broken links. It makes the site appear sloppy to new readers. NOTICE TO READERS: The AFI researchers are meticulous and systematic. HUFFINGTON POST HYPOCRISY

The Huffington Post and Fairfax Media are crowing over their recent expose they named "World's Biggest Bribe Scandal" involving Monaco-based Unaoil.

<http://www.theage.com.au/interactive/2016/the-bribe-factory/day-3/why-we-must-act.html>

Remarkably, they write: "The Unaoil scandal, revealed this week by Fairfax Media and The Huffington Post, sparked joint investigations by the FBI, Department of Justice, Australian Federal Police and UK authorities."

So how does HuffPo have such pull with all these federal agencies who are asleep at the wheel on the IRS, Benghazi, AP, Tea Party targeting, Fast and Furious, Hillary's private email server, yada, yada, yada? This Unaoil scandal is PEANUTS compared to the endemic corruption of the theft of Leader Technologies' social networking invention, and the bribery and graft used to cover it up.

HuffPo quotes an FBI agent: "Corruption leads to failed states, which leads to terrorism which leads to [threats to] national security." America is now leading the way, sadly. Perhaps our problem with terrorism is traced right back to our own corruption doorstep.

The pot should not call the kettle black. America is setting an all-time corruption standard, then we turn around through sycophants at the HuffPo and elsewhere and lecture others?! This Unaoil scandal seems fabricated to make it look like our agencies are doing something for us. Sorry boys and girls, lie to me once, shame on you. Lie to me twice, shame on me. I don't buy it. It is too perfect. Also, you've roamed the world for this story while ignoring a much bigger one in your back yard.

Don't get me wrong, I am glad HuffPo is exposing this Unaoil corruption, but it is obscene for them to crow over this set of articles, yet having consistently IGNORED the theft of social networking elephant in the room.

Could it be because HuffPo and Fairfax Media are feeding at the same social media trough with all their fellow mainstream media suck ups? One look at their social feeds and the answer is obvious. They drank the Kool-Aid of social media corruption long ago.

Think about it.

GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in Leader Techs, Inc. v. Facebook, Inc., 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the Pfaff v. Wells Electronics, Inc. test for on-sale bar, even after instructing the jury to use it. ([See that Jury Instruction No. 4.7 here.](#)) He also contradicted his own instruction to Leader to answer

Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). So what is it for? CRONY CAPITALISM, pure and simple. The tech firms, advertisers and banks who get these data exploit it for profit. They also use it to manipulate public opinion and election outcomes. THE NSA merely uses the excuse of safety and security as the smokescreen to feed their buddies in the "BIG DATA" private sector. It is one big scam on the American populace. They make people think they need the NSA protection, when in fact, the data is so voluminous, the NSA can't find the terrorist needles in the data haystack.

Obama defended the NSA surveillance programs during a visit to Berlin, saying: "We know of at least 50 threats that have been averted because of this information not just in the United States, but, in some cases, threats here in Germany. So lives have been saved."

Rep. Mike Rogers (R-Mich.), chairman of the House Permanent Select Committee on Intelligence, said on the House floor in July [2014] that "54 times [the NSA programs] stopped and thwarted terrorist attacks both here and in Europe - saving real lives."

However, turns out, these were all lies.

Here's a PDF of the USA Today article about the other NSA whistleblowers. Someone should get them the AFI blog and ask them to fill in the blanks on the activities and people at the Justice Department in 2001.

Builders follow blue prints. Obama is a disciple of Saul Alinsky, the author of Rules for Radicals. Alinsky wrote this book so that organizers against the American way of life have a blueprint to follow. Obama quotes him often in his own book and Hillary did her thesis on Alinsky. Google it. They love his ideas.

There are eight levels of control that must be obtained before the elitists are able to create a socialist / communist State.

1. Healthcare: "Control Healthcare and you control the People" Everybody gets sick and old. Everybody wants to be healthy for free.

Almost DONE !!

2. Poverty: Increase the Poverty level as high as possible." Poor people are easier to control and will not fight back if the government is providing everything for them to live. Envy is the tool of the socialist.

DONE!!!

3. Debt: Increase the National Debt to an unsustainable level." That way you are able to increase Taxes, and this will produce more Poverty. The capitalist system must be shown to be ineffective . Personal debt (student loans for example) must be staggering. Hopelessness creates reliance.

DONE!!!

4. Gun Control: Remove the ability to self defend against criminals and the government. That way you are able to create a Police State - total local control. They want you to believe that they are your protectors.

ALMOST THERE!!!

5. Welfare: Take control of every aspect of their lives (Food, environment, medicine, Livestock, Housing, and income).

DONE!!!

Hillary Clinton's private State Department emails prove that the State Department was contracting with Facebook at the highest level for a "template" to swing votes for the upcoming 2010 midterm elections. Interference in US elections is a violation of the Hatch Act.

Hillary Clinton may have suspended her political career temporarily when she became secretary of state. But the Clinton fundraising machine was in full swing and raising millions of dollars for the State Department under her watch, an analysis by The Daily Beast has found.

The State Department's independent watchdog has issued a highly critical analysis of Hillary Clinton's email practices while running the department, concluding that Clinton failed to seek legal approval for her use of a private server and that agency staff members would not have given their blessing if it had been sought because of "security risks."

The report by the inspector general's office concludes that Clinton, the Democratic front-runner for president, handled email in a way that was "not an appropriate method" for preserving public records and that her practices failed to comply with department policy. The review found that Clinton, who has said her system was secure, also never provided security details to agency officials responsible for safeguarding sensitive government information.

Obama- " As president of the US, I want to personally apologize to the Japanese people for having all of our boats in Pearl Harbor on that day back when America was trying to colonize the world....its such a coincidence that it was Pearl Harbor day. If our boats and sailors had not been there, your suicide bombers could have landed safely. And I want to apologize also for the SNL skits when Jim Belushi made fun of your Samurais Warriors and for the movie Karate Kid. I want to apologize to you also for the rude way that the Jews have stolen your word JAP to describe their women. And as for those big bombs we dropped to end the war and save American lives, that was rich white men that did that. Everyone of color , females, transgenders, NBC , labor unions, were opposed to it. Please blame the white rich guys . Now I realize that we spent a bazillion dollars rebuilding your country , and I realize that our income earners paid for it, but the white people were against it."

And in Vietnam Nam the next week.

Obama-" Good morning Vietnam Nam ! Standing here today reminds me of the great things some of our great Americans did to stop our soldiers from raping your women and hurting everyone over here.....Jane Fonda stood right over there and showed you what I personally stand for. I hate America ! I didn't choose to be a community organizer because I think our country is wonderful, if you know what I mean. And John Kerry, he laid down in the bottom of his PT boat over on that river over there, inflicted himself with a superficial wound, cried like a scared baby, got his phony Purple Heart, and went home to protest his fellow soldiers. That's what I'm talking about !!! Surely, Vietnam , as a non democratic communist country, you will see that our country wants you to join our new international coalition of Iran, Cuba, Venezuela, and Somalia , to lead the world in finally wiping out the scourge of white man freedom and Christianity. I feel good about the debt , the hatred, the divisiveness, the envy that we have created. The old hag is teetering. The One World Order is at hand."

TEX tells you one thing for certain. Obama is not on our side. He knows Hillary has to win. They will do whatever it takes to win. Her only hope is to be the president when all of the Clinton transgressions are disclosed . Her options are prison or presidency. You figure out how far they might go and what Hillary has to promise Obama to stay out of prison.

Obama , Hillary, Kerry, Soros, NBC, NYT, Eliz Warren, Eric Holder, et al, have one agenda. It's not Make America Great Again.

Have a great day, TEX

ON HILLARY'S PERSONAL EMAIL SERVER: WHOEVER SET UP THEIR HOME NETWORK LIKE THAT WAS A SECURITY IDIOT

Ronald Guilmette, a private security researcher in California who prompted me to look up this information, said printing things to an Internet-based printer set up this way might have made the printer data vulnerable to eavesdropping.

"Whoever set up their home network like that was a security idiot, and it's a dumb thing to do," Guilmette said. "Not just because any idiot on the Internet can just waste all your toner. Some of these printers have simple vulnerabilities that leave them easy to be hacked into

Krebs, B. (May 26, 2016). Did the Clinton Email Server Have an Internet-Based Printer?. InfosecBuddy.

<http://www.infosecbuddy.com/news/did-the-clinton-email-server-have-an-internet-based-printer/>

The Associated Press today points to a remarkable footnote in a recent State Department inspector general report on the Hillary Clinton email scandal: The mail was managed from the vanity domain "clintonemail.com." But here's a potentially more explosive finding: A review of the historic domain registration records for that domain indicates that whoever built the private email server for the Clintons also had the not-so-bright idea of connecting it to an Internet-based printer.

According to historic Internet address maps stored by San Mateo, Calif. based Farsight Security, among the handful of Internet addresses historically assigned to the domain "clintonemail.com" was the numeric address 24.187.234.188. The subdomain attached to that Internet address was....wait for it.... "printer.clintonemail.com".

MY COMMENT: If this is true, Hillary Clinton must be sent to the farthest edge of America and thrown off the cliff.

<http://dailycaller.com/2016/05/26/hillary-struggles-to-explain-mysterious-email-chain-cited-in-scathing-ig-report-video/>

Hillary Clinton struggled on Thursday to explain a mysterious email exchange – which was revealed in a damning State Department inspector general – that she appears to have never provided to the agency.

The exchange occurred in Nov. 2010 between Clinton and her top aide, Huma Abedin. Abedin informed Clinton that some within the State Department were not receiving her emails, which were sent from a personal email address. Clinton suggested she might be open to the idea but added that “I don’t want any risk of the personal being accessible.”

“Can you explain what that sentence meant?” MSNBC’s Chuck Todd asked Clinton during an interview on Thursday.

Here’s an easy test of Facebook’s attitude toward journalism: whether Peter Thiel remains on its board of directors.

For now, Mark Zuckerberg and his company are staying silent. If Zuckerberg does ultimately allow Thiel to stay on the board, you’ll know how the CEO—who holds absolute control over the world’s most-powerful media company—feels about the free press. He wants to exploit it, but doesn’t honor it.

Thiel is the billionaire co-founder of PayPal—and an early, fabulously enriched investor in Facebook. He’s Zuckerberg’s friend and mentor, by all accounts.

Virginia Gov. Terry McAuliffe invited the Chinese businessman whose donations to him have been named as a focus of Justice Department investigators to a 2013 fundraiser at Hillary Clinton's personal Washington, D.C., residence.

Wang Wenliang, a Chinese national with U.S. permanent residency, briefly shook Clinton's hand at the Sept. 30 event, a representative for Wang told TIME. An American company controlled by Wang made a \$60,000 contribution to McAuliffe's campaign three weeks before the fundraiser. Less than a month later, a separate Wang company pledged \$500,000 to the Clinton Foundation, the first of several donations that eventually totaled \$2 million.

The fund, called Eaglevale Partners, was founded by Chelsea Clinton's husband, Marc Mezvinsky, and two of his partners. Blankfein not only personally invested in the fund, but allowed his association with it to be used in the fund's marketing.

This article confirms what this site has been warning for years about "dark profiles" with all your personal data, stored and tracked across the Internet. When are We The People going to put their foot down and stop this massive abuse of privacy and property... in the name of better serving you?

<http://www.foxnews.com/tech/2016/05/27/facebook-will-now-track-even-if-youre-not-facebook-user.html>

Companies like Facebook and Google are happy to offer you their services for free, but free always has a cost on the internet. Advertising pays the bills, and these big companies separate themselves from the pack by serving up ads that are better targeted than other networks. How do they target so well? By tracking you as you make your way across the web and building a profile that helps determine which ads you're most likely to click.

Some people don't want to be tracked by Facebook, so they don't register an account with the site. But thanks to some major changes rolling out now, on one will be able to hide from Facebook tracking.

More from BGR: The iPhone 7 might actually be in trouble

Facebook announced on Thursday evening that it is changing the way its advertising works across the web. Facebook doesn't just serve ads on facebook.com and in its mobile apps, the company also has a network of third-party websites and apps that it partners with to display ads. It's called the Audience Network, and there has always been one big difference between the way Facebook's off-site ads work as compared to Google: They were only shown to Facebook users.

Now, that will no longer be the case.

As The Wall Street Journal noted on Friday morning, Facebook's off-site ads will now be shown to people who are not registered Facebook users.

People around the world should demand immediate IMPOUNDMENT of Mossack's client files. As attorneys, they are probably returning their client files to their secret customers before the lawsuits start flying. Once there is a threat of a lawsuit, files must be impounded. Prior to that, they have plausible argument that they are being lawful in returning the files... unless they are under some sort of seal order.

Can we talk? What could possibly go wrong with our current trajectory in America?

- a lifelong Socialist lunatic is creating a millennial following similar to B movie cults. This goof ball is real close to becoming our national leader....if Hillary is indicted, he is their guy. His adoring wife recently was the president of a small college in Vermont and bankrupt the entire school and devastated the Burlington community. The press is all over it.....oh wait, no they're not. My bad. They are focusing on Trump's foray into gouging naive folks that wanted a miracle solution for education . I do not defend what Trump did or didn't do, but let's be fair. How is this different from Ivy League schools?

- the leading Democrat (Hillary) is wrapping up the nomination despite losing almost every primary state vote because the entrenched thieves known as super delegates are more powerful than American voters. Simply put, Hillary is the worst candidate for president since Pee Wee Herman, but she will win her party's nomination anyway.

- Trump is winning the GOP candidacy because he opposes both the Dems and the GOP. I believe Trump could have won no matter what party he represented . He is winning with actual votes. Voters are thinking what this man is saying. How novel ? What could go wrong with that ?

The next president will have problems that no president has ever faced simply because we have never had an eight year period of devastation like the damage done by Obama and his hate America subordinates. We have more unemployed, more poor , less middle class, and richer rich than at any time in our 250 year history. We owe in national debt more than 15% of the total wealth in the entire world. More than one half of our debt was created by Obamaand while creating this debt he has devastated our military capabilities, our local police, our borders, our American pride, and our future as a country. He truly hates our country. All of this under a socialist , Democratic regime....the press blames the GOP. What could go wrong with that ?

We are fast approaching a real day of reckoning. This will be a clash of civilizations like the world has never seen. We can deny it or prepare to fight it. It isn't going away. Our enemy is having six kids to our one. They have more young men ready to fight than we do. We are encouraging them to build big weapons (Iran) and teach kids to die for their cause. Our kids on the other hand are fighting for free stuff, and safe spaces. Mommy and Daddy are not going to expose their precious kids to the real world. They march for gun free zones, generic bathrooms, more marijuana, and no hateful speech. Every child gets a trophy.....no one wins or loses. Our president, like it or not, has given the benefit of the doubt, in every case, to Muslims . What could go wrong with that ?

We do not have an income inequality problem.....we have a problem with the character of our population. We have become fat, lazy, and absolutely ignorant. We are cry babies. Who really wants to work hard to add value to a productive society ? We have 95 million Americans that do NOT work. What can go wrong with that? Elizabeth Warren (a liar who advanced because she claimed to be a suffering Cherokee/Delaware Indian and isn't) screams about Trump loving Americans being hammered in the last housing collapse , made her fortune as a pariah bankruptcy lawyer.....what a hypocritical witch. Where is the press on that? And what about the Clintons making a \$150 million by talking to crowds of bankers that got rich because the politicians set rules to guarantee their success? What could go wrong with that?

We have little time to turn this around and prepare for the battle for our freedom and liberty. Let's elect a brash, unafraid man that is capable of saving our great country.

Have a great day, TEX =

HOW TO FILE A FRAUD COMPLAINT AGAINST A UNIVERSITY

The following universities were announced as participants in Ohio State Provost Joseph A. Steinmetz's corrupt MOOC education initiative named "University Innovation Alliance" (UIA). We have identified the instructions and online forms you need to file a complaint with the participants. MOOC stands for "Massive Open Online Course."

You should complain about:

(1) the intellectual property theft of social networking source code from Leader Technologies, Columbus, Ohio that is the software engine running the UIA;

(2) the corruption at Ohio State University and OSU's collusion with Battelle Memorial Institute which helped steal the software being used by UIA; and

(3) the mistreatment of OSU Marching Band Director Jon Waters regarding fabricated Title IX charges that were used to pave the way for Steinmetz to announce UIA.

Universities pride themselves on protection of intellectual property.

Therefore, these universities cannot participate in this abuse of inventor copyrights, patents and trade secrets by The Ohio State Trustees and Administration. If these universities participate knowingly with Ohio State in its theft of intellectual property, then they are aiding and abetting the theft of intellectual property on a "massive" scale... Massive Open Online Course (MOOC) also known as The Eclipse Foundation.

AFI has been warning about the privacy risks of DROPBOX for several years. It is funded by the criminals at Goldman Sachs and Accel Partners LLP (James W. Breyer, Facebook director and largest outside shareholder).

<http://www.engadget.com/2016/05/29/dropbox-infinite-kernel/>

On the surface, Dropbox's Project Infinite sounds great. The feature will give you access to everything in your account without having to store them on your computer. It's bound to save space, especially if you're using an SSD with a smaller capacity. As Motherboard reported, though, a lot of people aren't happy that for the feature to work, Dropbox will need to have deeper access to your system. When the company announced the project, its post said: "With Dropbox Infinite, we're going deeper: into the kernel -- the core of the operating system."

Since the kernel is the most important part of an OS, Infinite's critics believe that it's a security risk to have Dropbox sitting in it.

While the State Department's own internal probe found former Secretary Hillary Clinton violated federal recordkeeping laws, it's not the first time she and her top aides shielded her e-mail from public disclosure while serving in a government position.

As first lady, Hillary was embroiled in another scheme to bury sensitive White House e-mails, known internally as "Project X."

The zebra doesn't change His & Her stripes. In 1995, Bill Clinton's CIA director was prosecuted for keeping classified information on his unsecured home computer. The only thing that kept him out of jail was a pardon by Bill Clinton on Jan 19, 2001 on his final day in office... the same day he appointed James P. Chandler, III to the National Infrastructure Assurance Council (NIAC), aka the "Private White House Intelligence Agency.

Former Attorney General Eric Holder has to be one of the most corrupt men on the planet. It was on his watch that the NSA began its illegal bulk data collection on American citizens. His decisions CREATED the situation that forced Edward Snowden to risk life and limb to expose it.

Former U.S. Attorney General Eric Holder says Edward Snowden performed a "public service" by triggering a debate over surveillance techniques, but still must pay a penalty for illegally leaking a trove of classified intelligence documents.

"We can certainly argue about the way in which Snowden did what he did, but I think that he actually performed a public service by raising the debate that we engaged in and by the changes that we made," Holder told David Axelrod on "The Axe Files," a podcast produced by CNN and the University of Chicago Institute of Politics.

Holder is a two-faced, immoral coward.

Facebook could be listening in on people's conversations all of the time, an expert has claimed.

The app might be using people's phones to gather data on what they are talking about, it has been claimed.

Facebook says that its app does listen to what's happening around it, but only as a way of seeing what people are listening to or watching and suggesting that they post about it.

<http://dailycaller.com/2016/06/01/state-dept-official-took-deliberate-steps-to-delete-video-from-iran-press-briefing/>

An official within the State Department ordered the editing of a damning portion of video from a Dec. 2013 daily press briefing discussing negotiations between the Obama administration and Iran, an agency spokesman acknowledged on Wednesday.

State Department spokesman John Kirby told reporters that a public affairs official placed a phone call on Dec. 3, 2013, the same day as the daily press briefing, ordering the removal of video showing Fox News reporter James Rosen asking then-State Department spokeswoman Jen Psaki whether anyone inside the Obama administration has misled the American public about the Iran negotiations.

At a press briefing in 2012, Rosen had asked Psaki's predecessor, Victoria Nuland, whether nuclear negotiations with Iran were being held. Nuland said they were not. Psaki provided a cryptic answer in response to Rosen's question.
