HILLARY AND RNC FACTION RIGGED OHIO VOTE AGAINST KERRY AND SANDERS. WILL DONALD TRUMP BE NEXT?

CITIZEN WATCHDOGS SHOULD STEP IN TO ELIMINATE THIS VOTE FRAUD

FIG. 1—On Sep. 26, 2009, Hillary and the State Department contracted with Facebook for a “template for winning elections.” Never mind that it is illegal for federal officials to tamper with U.S. elections. Never mind that Columbus innovator Leader Technologies had filed suit against Facebook for infringing their social networking patent, thus rendering Hillary's activity obstruction of justice, and making the Hillary's collaboration with Facebook RICO racketeering—organized crime.

FACEBOOK: WHATEVER HILLARY WANTS, HILLARY GETS

Clearly Facebook in their treachery owes Hillary and will give her whatever she wants. One sure outcome will be use of Hillary's template for winning elections that she paid for in 2009, which certainly includes an army of Facebook hackers to fix the election results in swing states—if they are not stopped.

We The People must ensure that Corrupt Hillary does not get what she wants.

(JUL. 22, 2016)—This week Ohio Gov. John Kasich and Texas Senator Ted

Cruz stubbornly refused to make good on their promises to endorse the Republican nominee, who is now officially Donald J. Trump. Their excuses are lame.

These men are breaking their signed contracts with America. Since they did not notify their supporters of their intention not to honor their pledges, they have defrauded those who voted for them.

Breach of contract, hypocrisy and boldface lying aside, Kasich and Cruz appear to be positioning for a Trump defeat in November, and positioning themselves for candidacies in four years.

Their belligerence begs the question: Do they know something we do not know?

At least for Kasich, the answer is probably yes.

OHIO'S POLITICAL PARTIES ARE NOTORIOUS ELECTION FIXERS

Finding: Ohio Republicans have rigged the electronic voting machines and vote counting processes in the state. They can swing an election any way they want. Have the Establishment insiders made secret promises to Kasich, Cruz and Clinton?

WHISTLEBLOWER MICHAEL CONNELL GAVE HIS LIFE TO PROVE OHIO'S ELECTIONS ARE RIGGED

How do we know? A whistleblower engineer from the 2004 Bush-Kerry presidential contest—Michael Connell—mysteriously lost his life six weeks after his [deposition](#) to prove it (not made public by a Clinton-appointed judge until 2011)—before he could do more damage in the lawsuit. Connell was the former information technology guru for the Bush family and Karl Rove.

[Now that we have learned about you Michael, we pray that your memory will be eternal and that your death will not have been in vain. Pray for us. Crooked lawyers and judges have kept your courage and bravery a secret for far too long.]

Tellingly, the transcript of Connell's Nov. 3, 2008 "smoking gun" deposition was not released by the Clinton-appointed judge, Algernon L. Marbley, until **three years later** on Jul. 15, 2011—**seven years** after Ohio's citizens were defrauded in the 2004 presidential election. The Ohio Secretary of State in charge of the election was Kenneth Blackwell who also co-chaired the Ohio Republican Party.

J. Kenneth Blackwell

Algernon L. Marbley

Marbley was fired in disgrace from the Ohio State Board of Trustees last year after it was discovered he had failed to disclose his longstanding breach of State ethics rules that prohibit a trustee from being employed by the university where he or she is a trustee. Marbley was an adjunct law professor at Ohio State. His excuse was not credible. Before being fired, Marbley had participated in the unconscionable firing of the university's beloved marching band director, Jon Waters, on attorney-fabricated pretense. Hindsight says Waters' success on the field with his Apple i-Pad-based animated formations was disturbing the university's collusion with IBM and The Eclipse Foundation discussed in this post.

- HILLARY AND RNC FACTION RIGGED OHIO

Perhaps this explains why John Kerry is so cynical and uncaring as U.S. Secretary of State. **The RNC-DNC "Establishment" screwed him out of the presidency in favor of Bush because Bush was cooperating in crafting the secret White House spy intelligence agency started under Clinton.**

Bill Clinton had appointed Judge Marbley to the Ohio district court on Oct. 27, 1997. Marbley had been recommended by James P. Chandler, III—Clinton's chief national security lawyer, serial advisor to the Clintons, Bushes and Obamas, and author of numerous executive orders driving the current lawless private White House intelligence agency.

Chandler also represented Columbus innovator Leader Technologies, at least that is until he managed to funnel the source code for Leader's social networking invention to another of his clients—IBM and The Eclipse Foundation.

Chandler's legal mind appears to favor foundations: The IBM Eclipse Foundation. The Clinton Foundation . . .

SECRET WEAPON: ELECTRONIC VOTING FRAUD

John Kasich appears to be cock sure that Donald Trump will lose Ohio. As a Republican, why would he want Trump to lose to Hillary, a Democrat? Perhaps these differences are not what they seem.

"It's not who votes that counts, it's who counts the votes."

Joseph Stalin

Joseph Stalin was the brutal dictator of the Soviet Union from the mid-1920's until his death in 1953. He murdered over 40 million of his own citizens to maintain his grip on power.

George Soros
Hillary & Kasich funder

What are the common relationships between Kasich and Hillary? One is George Soros funds them both.

Another Hillary-Kasich relationship is the IBM Eclipse Foundation.

In 2013 Kasich paid IBM \$267 million to 'modernize' Ohio's computers. (With this crowd, 'modernize' is a euphemism for build backdoors.) A close Kasich advisor is Mark Kvamme from IBM Eclipse Foundation members LinkedIn and

Kleiner Perkins (see Obama's Feb. 17, 2011 private meeting in Silicon Valley that includes John Doer, Kleiner Perkins). See also Fig. 3 in previous post.

LinkedIn's founder and long time Kvamme collaborator is Facebook director Reid Hoffman who famously advocates for "the death of personal privacy." Yet another Facebook director is Peter Thiel who just gave a speech about his gay-ness to the RNC convention. Suspiciously, Thiel appears to be Facebook's token Trump supporter. Thiel is likely a Hillary trojan horse.

UPDATE MAR. 25, 2014

FIVE CRITICAL AFI POSTS ON JUDICIAL COMPROMISE

Fully updated Mar. 25, 2014 in the wake of the Scribd censorship:

Patent Office filings are shuffled out the USPTO backdoor to crony lawyers, banks and deep-pocket clients.

2. **WAS CHIEF JUSTICE ROBERTS BLACKMAILED** into supporting Obamacare by his ethical compromises in *Leader v. Facebook*?

3. **JUSTICE ROBERTS MENTORED** Facebook Gibson Dunn LLP attorneys.

4. **JUSTICE ROBERTS HOLDS** substantial Facebook financial interests.

It seems unlikely that Thiel told Donald Trump's staff about his massive conflicts of interest or his theft of Leader Technologies' social networking invention before allowing him to speak about his gay-ness at the Republican convention in Cleveland this week.

Facebook is the key to answering the question as to how Kasich, Clinton & Co. probably plan to fix Ohio for Hillary. Keep reading.

BACKROOM

MANEUVERING AMONG THE DNC-RNC ESTABLISHMENT TO FORCE THEIR WAY BACK INTO THE GAME

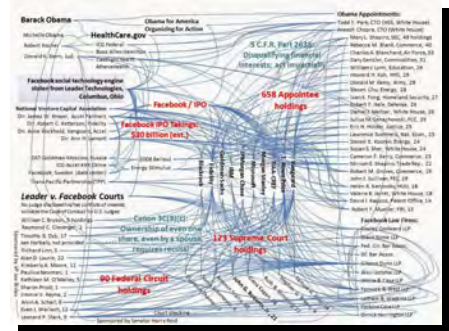

The evident explanation for John Kasich's belligerent refusal to keep his promise to support Donald Trump is that backroom deals among the RNC and DNC Establishments have likely concocted a scheme to put their handpicked candidates back in the driver's seat **once they get rid of Donald Trump this fall by causing his defeat in swing states.**

AFI researchers believe they have just uncovered the secret weapon that makes these people so cock sure of victory in Ohio:

ELECTRONIC VOTING FRAUD IN SWING PRECINCTS

With secret vote rigging they can guarantee that Hillary will win—not only in Ohio, but in any state that uses it.

In fact, the system only needs to be used in **swing precincts in the battleground states.** Change those vote totals and you ensure your candidate victory despite what The People have voted. The generally acknowledged 11 battleground states are **COLORADO, FLORIDA, IOWA, MICHIGAN, NEVADA, NEW HAMPSHIRE, NORTH CAROLINA, OHIO, PENNSYLVANIA, VIRGINIA** and **WISCONSIN.**

STOP FACEBOOK PROPERTY THEFT

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

LEADER TECHNOLOGIES Inventor Protection Act (Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

—a technology upon which the President and U.S. government now rely;
—a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

Rescind. Investigate. Sanction. Certify.

Contact your representatives. Ask them to pass it.

Real American inventors need your support.

A partial record of these contracts was uncovered by the persistent watchdog Judicial Watch in their FOIA requests. John Kerry’s State Department had stonewalled public knowledge of these contracts.

Never mind that Hillary obstructed justice by entering these contracts while Columbus, Ohio innovator Leader Technologies was suing Facebook for patent infringement of their social networking invention. Leader later proved before a jury that the engine running Facebook is their invention on 11 of 11 claims.

Also, never mind that tampering with U.S. elections by federal officials is **illegal as hell**. Excuse the French, but Americans need to get angry enough to stop this nonsense.

2004 OHIO PRESIDENTIAL VOTE COUNT WAS FRAUDULENT—HOW?

Swing state Ohio saw proven election rigging by Establishment Republicans in 2004.

Tellingly, software engineer, Michael Connell, the whistleblower who exposed the scheme, died mysterious in a small plane crash just six weeks after his deposition.

In the 2004 Kerry-Bush presidential contest, votes were “shifted” from Kerry to Bush by sending election-night data to a computer hosting site in Tennessee.

The vote totals were then “shifted” (a euphemism for doctored) and sent back to the Ohio Secretary of State Kenneth Blackwell who overwrote the real totals with the “shifted” ones.

THE FIXERS

The intermediary between Ohio and Tennessee was a [Dr. Alan Dillman](#).

Dillman was then an associate professor of management information systems for [Cedarville University](#) in Springfield, Ohio. He was hired by the Secretary of State as an election consultant and was given full access to the raw voting results as they came in from Ohio’s 88 counties.

THE "MAN IN THE MIDDLE"

Dillman's real task was to be the "man in the middle."

Dillman passed the vote data sent to him from the Secretary of State's central vote repository to the secret Tennessee server.

The handlers in Tennessee then "shifted" or adjusted the vote totals so look credible, yet slowly move them to desired end result—a George W. Bush victory.

Once this Dillman man-in-the-middle process started, the Secretary of State's central repository was a sham, was never accurate, and only reflected the shifted numbers from Tennessee.

Tellingly, Dillman has written his ten years working at Cedarville University completely out of his current [LinkedIn resume](#).

HILLARY & DNC STOLE VOTES FROM BERNIE SANDERS IN 11 STATE PRIMARIES

The same election watchdogs who proved the Ohio 2004 presidential election fraud have also proven that [Hillary stole the Democratic primary from Bernie Sanders](#). < See this link.

QUESTION: WHAT CAN I DO?

Answer: Mess up their conspirators' nests. Take citizen control of your voting processes. Don't trust the career bureaucrats; assume they're in somebody's pocket.

Get organized! Now!

Don't take "no" or "it's a problem" for an answer.

Readers are encouraged to demand that your state implement verifiable soup-to-nuts counting and auditing **on the night of the election**. Free and fair elections is a bedrock Constitutional right! This fraud must be **caught while it is happening**. See Fig. 2 above for monitoring and auditing priorities.

As the Ohio 2004 fraud proves, filing an election fraud lawsuit is an exercise in futility. The damage is already done. On election night, be vigilant to ensure your vote totals are accurate. Don't be rushed. Get it right. Ensure that the count is not "shifted" like Ohio's in 2004 and Bernie's in 2016.

Remember, vote counting is largely the domain of lawyers and techies.

Add honest broker accountants to the auditors. Make sure your election monitors know both the law, accounting and technology. Do not allow the wool to be pulled over your eyes with techno speak either legally or technically. Use common sense. Assume that if a process can

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's Leader v. Facebook attorney Gibson Dunn LLP. She credits this

firm with the reason why not a single Wall Street banker has gone to jail since 2008. [Click here](#) to read her article "Everybody hates whistleblowers." *Examiner.com*, Apr. 10, 2012. Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ulyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless.
