ORIGINAL POST

(AUG. 01, 2016)—There, we have said it. We believe that Hillary Clinton will go down in history as a key figure in a \$1 trillion crime. Now we will prove it. The "smoking gun" evidence from her private email server was uncovered by corruption watchdog Judicial Watch.

Before his passing late last year, an internationally recognized Democrat luminary and historian called for a special prosecutor in the Leader v. Facebook patent infringement corruption case.

A special prosecutor was his suggestion because the normal judicial processes had broken down. He had been thoroughly briefed, according to multiple AFI contributing writers.

[Authors: Out of respect for the family's privacy, we will not publish his name. May he rest in peace (and pray for us).]

HILLARY'S LITANY OF LIES

Hillary Clinton's litany of lies in her presidential nomination acceptance speech further reinforces the need for a special prosecutor.

Washington, D.C. cries out for new blood to restore equal protection under the law. The current Democratic Administration has consistently thwarted Leader Technologies' efforts to find justice and a payday for their longsuffering investors who played it straight, took the risk and now deserve their entrepreneurial reward.

Leader Technologies' fight for justice is every American's fight for the Rule of Law and fair play. If Americans do not step up and DEMAND justice in Leader v. Facebook, then the U.S. Constitution is a pointless piece of paper.

Remarkably, Hillary Clinton **condemned her own corrupt actions as Secretary of State** when she said:

HILLARY: "I believe that our economy isn't working the way it should because our democracy isn't working the way it should."

Hillary and Bill's scandals are CAUSING our democracy/republic to sputter.

The list of the Clinton's undemocratic actions is now a litany: Whitewater, Benghazi, Travelgate, Vince Foster, Marc Rich, Frank Giustra, UrAsia, Uranium One, The Clinton Foundation, The Clinton Global Initiative, theft of social networking invention, the body count and State Department influence pedaling.

According to Hillary these are all misunderstandings created by a "vast right wing conspiracy." (Clue to interpreting Hillary: Saul Alinsky, her mentor, in Rules for Radicals: If your scheme is exposed, **deny, deny, deny.**)

PROOF: HILLARY'S \$1 TRILLION CRIME

The secret contracts Hillary wrote with Facebook are completely on her. These contracts were concealed from the House Oversight Committee and stonewalled from Judicial Watch Freedom of Information Act (FOIA) requests. It took an order by district court Judge Sullivan to pry them loose. **These Facebook contracts prove Hillary's criminal activity.** She cannot blame others since only a small group of her senior State Department staffers even knew she had done it.

LIE #1: HILLARY CALLED AMERICA A "DEMOCRACY"

America is not a democracy. America is a [republic](#). This difference is crucial to a proper understanding of American governance. It is not mere semantics.

Hillary's misleading words telegraph the progressive agenda to destroy the Constitution and remake America in their image. **Hillary's oligarchy of globalists want power, permanently.** Such is the long history of pure democracy where the more powerful majority abuses the disenfranchised minority.

Instead, America's founders chose a [republican democracy](#) where the rights of the majority prevail without infringing the rights of minorities.

RULE OF LAW ~~RULE OF MEN~~

Our fallible, flawed group of founders reached beyond their individual weaknesses and prejudices to conceive a brilliant form of governance that transcends time and human shortcomings. It is called the Rule of Law over the Rule of Men.

In a republican democracy equal justice is the right of every citizen whether in the majority or minority. This principle is the backbone of the U.S. Constitution.

This gift of the founders to the world is encapsulated in Benjamin Franklin's answer to his Philadelphia friend and keen political observer, Mrs. Powel (yes, one "L"). She lived at Powel House (now 244 South 3rd Street) near Independence Hall.

Mrs. Powel, a woman with no right to vote, is credited with almost single handedly convincing George Washington to run for a second term. She persuaded General Washington that he must run to prove that the republican ideal was not merely an idealistic fluke. Imagine that, one woman changed the political course of humankind.

The day the Declaration of Independence was signed, Mrs. Powel asked Mr. Franklin what form of government the framers had given us. Monarchy? Democracy? Franklin replied:

"A republic, if you can keep it."

Founder Thomas Jefferson reinforced Franklin's "if you can keep it" caveat when he wrote:

"Eternal vigilance is the price of liberty."

These men and women knew there was no room for complacency among the citizenry in a republican democracy. [The authors believe the current rise of populism among Trump and Sanders supporters emerges from this font of wisdom. The citizens have awakened.]

Benjamin Franklin (1787)

"A republic, if you can keep it."

Hillary and the globalist clearly want to destroy the American republican priority for the Rule of Law. They want to "disaggregate" it (from A New World Order (2004) by Hillary political adviser and George Soros in-law Anne-Marie Slaughter) into a two-tiered system,

BARACK OBAMA'S DARK POOLS OF CORRUPTION

one for the so-called Progressives and a different one for the Great Unwashed. Then, their permanent majority would make the rules in their image, permanently.

Frighteningly, this was essentially the state of the American British Colony courts in 1776 who were overridden regularly by King George.

With a globalist ascension in Hillary Clinton, the 240-year flame of The Great American Experiment will be extinguished, we believe.

LIE #2: HILLARY SAID SHE IS A CHAMPION OF SMALL BUSINESS, ENTREPRENEURS AND INNOVATION

In her acceptance speech Hillary said she was a champion of small business. However, in Hillary's world of doublespeak "innovation" is a euphemism for intellectual property theft for the benefit of her ruling globalist oligarchs.

Indeed, the U.S. Patent Office has become Hillary's globalist toy box of free goodies where real inventors are exploited to enrich her friends.

WARNING TO INVENTORS: We suggest that you stop submitting your innovations to the U.S. Patent Office right now. Your innovations are being stolen by the Patent Office personnel and fed to their globalist handlers. The patent judges and examiners are all in on it, as are the judges in the only patent appeals court, called the Federal Circuit Court. **The patent system is rigged and real inventors are left holding the bag every time.**

Let's face it, when it comes to true innovation, globalists are lazy. They reason: "Why do the hard work of inventing when we can simply steal it? If sued, they buy off everyone in the litigation path: agencies, commissioners, chairs, judges, jurists, witnesses, experts, attorneys, law firms, clerks, examiners. Such is the massive globalist Ponzi scheme being unearthed. **No wonder even Republican corporate types are flocking to Hillary. The true source of their product ideas is being exposed as a fraud.**

Adolf Hitler allowed this very model prior to World War II with German companies who were left alone as long as they did his bidding. The Soviets essentially did the same thing by nationalizing industry and declaring State ownership of all property.

JUDICIAL WATCH CAUGHT HILLARY'S HAND IN THE COOKIE JAR

Thankfully, corruption watchdog Judicial Watch caught Hillary's hand in the proverbial cookie jar. They unearthed unequivocal proof from Hillary's private email servers that she obstructed justice in the Leader v. Facebook patent infringement case and benefited from the stolen property.

The Facebook contracts on Hillary's private email server had been stonewalled by the State Department. They detail a staggering scheme to rig U.S. elections. Those contracts are detailed below.

In short, Hillary helped the theft of Leader Technologies' invention of social networking in 2009. Then she exploited it for her "eDiplomacy" strategy as Secretary of State. She promoted Facebook in her speeches. She even organized a [private dinner on Mar. 22, 2012 with Facebook COO Sheryl L. Sandberg](#) just months before the Facebook initial public offering. Her emails discuss how she [field tested](#) uses of Facebook and then issued [State Department Facebook field guides](#) (likely published much earlier than the versions in Hillary's private email)

STOP FACEBOOK PROPERTY THEFT

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Sickle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

LEADER TECHNOLOGIES Inventor Protection Act (Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

- a technology upon which the President and U.S. government now rely;
- a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

Rescind. Investigate. Sanction. Certify.

Contact your representatives. Ask them to pass it.

Real American inventors need your support.

Columbus innovator Leader Technologies and its founder Michael McKibben alleged and proved on 11 of 11 claims that the engine running Facebook is Leader's patented invention. [U.S. Patent No. 7,130,761 McKibben et al.](#)

The court ruled that Facebook was guilty of all 11 infringement claims. Subsequently, a corrupt federal court system circled the wagons around Facebook all the way to the U.S. Supreme Court in utter defiance of U.S. law. [On Sep. 26, 2009](#), while discovery was proceeding in Leader v. Facebook, Hillary and the State Department contracted with Facebook for "a template for winning elections using advance Facebook marketing."

In 2009 Hillary Clinton and the State Department confiscated McKibben's invention for her personal "eDiplomacy" policy use. During this same time, McKibben and Leader were battling Facebook in Delaware federal district court for patent infringement. Leader proved on 11 of 11 claims that the engine running Facebook is their invention. Hillary's Judicial Watch emails prove she obstructed justice in the case and engaged in election rigging

It is illegal for a government agency or official to interfere in an active lawsuit according to [18 U.S. Code § 1505](#)—Obstruction of proceedings before departments, agencies, and committees. "Proceedings" is a broad term for essentially any official government activity in courts, agencies, grand juries and Congress.

These contracts were part of a trove of documents from Hillary's private email servers. They prove unequivocally that Hillary obstructed justice in Leader v. Facebook. If for no other reason, because Facebook personnel were potential witnesses. By tampering with

Facebook witnesses, Hillary prejudiced Leader Technologies' rights to a fair and impartial tribunal and noninterference by public officials and agencies.

Facebook's project manager on Hillary's contracts was Dmitry Shevelenko. Hillary entered at least five contracts for "a template for winning elections using advanced Facebook marketing" before the 2010 midterm elections. All during this period, the Leader v. Facebook lawsuit moved from trial into appeal.

The Facebook contact was Dmitry Shevelenko, who says in his LinkedIn page was for the purpose of building "a template for winning elections using advance Facebook marketing."

Evidence of collusion among Hillary Clinton, State Department, Facebook and Dmitry Shevelenko. Two State Department contracts with Facebook in 2009-2010 have just emerged in the latest trove of Hillary Clinton emails. The first **\$120,000 contract on Sep. 26, 2009** was for State Department "communications services." According to GSA records, the next three contracts paid \$250,000 for "Peace Corp advertising services." Then, a **\$265,000 contract on Sep. 30, 2010** was issued for more State Department "communications services." [Dmitry Shevelenko's LinkedIn Profile](#) reveals his true agenda for these contracts: November 2010 election manipulation.

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's Leader v. Facebook attorney Gibson Dunn LLP. She credits this firm with the reason why

not a single Wall Street banker has gone to jail since 2008. [Click here](#) to read her article "Everybody hates whistleblowers." [Examiner.com, Apr. 10, 2012.](#) Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ulyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. WHEN GOOGLE MET WIKILEAKS PROVIDES MORE EVIDENCE

In an extract titled "[Google is not what it seems](#)" from Julian Assange's book When Google Met WikiLeaks (2014, O/R Books), he reveals more damning evidence of Hillary's obstruction of justice in Leader v. Facebook.

On Oct. 16, 2009, Hillary's State Department funded the second in three conferences in Mexico City named the Youth Movement Summit. In Hillary's big-screen remote presentation to the attendees, she promoted Facebook, YouTube (Google) and Twitter (three spy-state creatures of the secret White House intelligence agency formed by Bill Clinton in 1995 by executive order) to support her eDiplomacy, 21st century statecraft strategy contrived by her political advisers Anne-Marie Slaughter and Sidney Blumenthal to promote the globalist agenda of The Clinton Foundation (TCF) / [Clinton Global Initiative \(CGI\)](#).

In short, Hillary videotaped her personal Leader v. Facebook obstruction of justice as Secretary of State, which is an egregious violation of [18 U.S. Code 1505](#) - obstruction of proceedings.

OBSTRUCTION OF JUSTICE BY HILLARY IN *LEADER V. FACEBOOK* DEMANDS A SPECIAL PROSECUTOR

Despite *Leader* proving that Facebook infringes its patent on 11 of 11 claims, the **federal courts circled the wagons around Hillary's darling Facebook and illegally confiscated Leader's property**. Notably, all of the judges held substantial Facebook financial interests in an evident collusion to enrich and influence senior judiciary in the run up to Facebook's initial public offering.

Barack Obama exploited Facebook. Hillary and the State Department exploited it. The Patent Office exploited it.

When government systems breakdown or cannot be impartial, special prosecutors are called for.

Hillary's obstruction of justice and confiscation of private property in *Leader v. Facebook* requires a special prosecutor.

DAMAGES TO LEADER COULD TOP \$1 TRILLION

Hillary participated in the confiscation of *Leader Technologies'* social networking patent. The IBM Eclipse Foundation became the distribution medium for providing *Leader's* invention to the entire "social" technology world who put their morals, ethics and American property law on the shelf and have exploited it as well.

The value of the social networking easily reaches the \$1 trillion number. If all of that value is founded upon *Leader's* invention, which it appears to be, then Hillary is liable for the Greatest Financial Crime in the History of the World.

3. Two Policy Changes That Will Make America More Democratic (and less contentious), Dec. 21, 2012

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The *Leader v. Facebook* patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored **shocking new evidence** that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from *Leader Technologies* that could prove actual theft (and therefore claims even more serious

Andrew Mark Miller. (Aug. 01, 2016). Troubling Information Surfaces About Khizr Khan's Ties To Clinton Foundation, Saudi Arabia. Young Conservatives.

<http://www.youngcons.com/clinton-corruption-troubling-information-surfaces-about-khizr-khans-ties-to-hillary-clinton-saudi-arabia/>

We are all familiar with the newest controversy surrounding Donald Trump that involves the Khan family.

Basically, the DNC made the shameful decision to parade Muslim parents of an American soldier killed in Iraq at their convention to shake their fist at Donald Trump.

This was one of the many times that Democrats exploited grief and tragedy at the convention for political points that had nothing to do with Trump's actual policies.

Basically, they made the argument that if you support Trump you don't support these grieving parents.

But until now, it looked like the Khans were just Gold Star parents who the big bad Donald Trump attacked. It turns out, however, in addition to being Gold Star parents, the Khans are financially and legally tied deeply to the industry of Muslim migration-and to the government of Saudi Arabia and to the Clintons themselves.

Khan, according to Intelius as also reported by Walid Shoebat, used to work at the law firm Hogan Lovells, LLP, a major D.C. law firm that has been on retainer as the law firm representing the government of Saudi Arabia in the United States for years. Citing federal government disclosure forms, the Washington Free Beacon reported the connection between Saudi Arabia and Hogan Lovells a couple weeks ago.

"Hogan Lovells LLP, another U.S. firm hired by the Saudis, is registered to work for the Royal Embassy of Saudi Arabia through 2016, disclosures show," Joe Schoffstall of the Free Beacon reported.

The government of Saudi Arabia, of course, has donated heavily to the Clinton Foundation.

Khizr Khan, the Muslim Gold Star father that Democrats and their allies media wide have been using to hammer GOP presidential nominee Donald J. Trump, has deleted his law firm's website from the Internet.

This development is significant, as his website proved—as Breitbart News and others have reported—that he financially benefits from unfettered pay-to-play Muslim migration into America.

CODE OF CONDUCT FOR U.S. JUDGES

"CANON 2: A JUDGE SHOULD AVOID IMPROPRIETY AND THE APPEARANCE OF IMPROPRIETY IN ALL ACTIVITIES"

GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in Leader Techs, Inc. v. Facebook, Inc., 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the Pfaff v. Wells Electronics, Inc. test for on-sale bar, even after instructing the jury to use it. (See that Jury Instruction No. 4.7 here.) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present

More Ruh Roh for the DNC.... however, my bet is that they knew full well what they were doing. They allowed Kahn to USE his dead son (God rest his soul) to shield Kahn from criticism so he could spew his Sharia hate. I feel sorry for the men who are so blinded by their hidden agendas.

<http://www.breitbart.com/big-government/2016/08/03/diana-west-dnc-put-sharia-supremacist-convention-center-stage/>

Author and historian Diana West challenges the Democratic National Committee's (DNC) highlight of Khizr Khan at their national convention: "Don't you people vet your speakers?"

My subject today, though, is the Constitution-waving Khizr Khan (above), who caused such an uproar at the DNC as the father of a fallen US officer in Iraq, Capt. Humayun Khan, killed in action in 2004, that he now wishes to exit the limelight and has even scrubbed his own website, the one listing his immigration legal services in the (strictly legit!) sale of visas to foreign millionaires.

The question I have is: Don't you people vet your speakers? Do you even realize now that by inviting Khizr Khan to speak you that put a sharia supremacist on centerstage at the 2016 Democratic National Committee Convention to endorse a candidate for president of the United States? Hello? Is that the message you want to send America – that the Democratic Party is also the Sharia Party?

<http://www.newsmax.com/Headline/trump-general-election-could/2016/08/01/id/741631/>

Republican presidential nominee Donald Trump suggested Monday that he fears that the general election "is going to be rigged."

Trump, speaking in Ohio, said he felt the Democrats had fixed their primary system so Hillary Clinton could defeat Bernie Sanders. He claimed that the Republican nomination would have been stolen from him had he not won by significant margins.

Trump then asserted that November's general election may not be on the up-and-up.

"I'm afraid the election is going to be rigged, I have to be honest," the Republican nominee told a town hall crowd in Columbus. He said he hears "more and more" that the election may not be contested fairly.

At least 15 U.S. companies led by Goldman Sachs Group Inc. and Alphabet Inc. [Google] have pledged money to help the Obama administration resettle refugees fleeing the Syrian civil war and other international conflicts.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012).

Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. See *Motion to Disclose Conflicts of Interest*. Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr.

Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. [See a full analysis of these events at Donna Kline Now!](#) Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's *Pfaff v. Wells Electronics, Inc.* test for on-sale bar evidence, which included even the Federal Circuit's own *Group One v. Hallmark Cards, Inc.* test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie helped write that opinion. [Group One test omission analysis.](#)

The White House is leaning on companies to commit money and other assistance to resettlement programs ahead of a Sept. 20 summit President Barack Obama will host at the United Nations. The flaw, which allows a malicious website to extract user passwords, is made worse if a user is logged in with a Microsoft account.

A previously disclosed flaw in Windows can allow an attacker to steal usernames and passwords of any signed-in user -- simply by tricking a user into visiting a malicious website.

But now a new proof-of-exploit shows just how easy it is to steal someone's credentials.

The flaw is widely known, and it's said to be almost 20 years old. It was allegedly found in 1997 by Aaron Spangler and was most recently resurfaced by researchers in 2015 at Black Hat, an annual security and hacking conference in Las Vegas.

The flaw wasn't considered a major issue until Windows 8 began allowing users to sign into their Microsoft accounts -- which links their Xbox, Hotmail and Outlook, Office, and Skype accounts, among others.

What appeared to be innocent and heartbreaking rhetoric has been exposed to be 100% politically and financially driven. Follow the money.

Grieving dad, Khizr Khan, is a lawyer that has deep ties to Saudi Arabia , Muslim migration , Sharia Law , and the Clintons. He is a Sharia Law expert/advocate and has historically supported the social concepts of enslaving women , killing Jews, and killing gays. He was educated and supported by the Saudis . Saudi Arabia has given \$25 million to the Clinton Foundation . Mr Khan has donated money to the Clinton campaign and the lobbyist of his law firm is a bundler for her campaign. This firm also represents the Clintons on their shady taxes and email scandal defense. Ironically this law firm has previously employed Loretta Lynch.

I understand the sadness that this man feels for the loss of his son. Does he feel sadness for the loss of the 9/11 victims? The Ft Hood victims? The Orlando or San Bernadino victims? Does he realize that all of the perpetrators were Muslims? Does he realize that Muslims, not Trump, killed his son ? Does he realize that the concept of Sharia Law has set the world on fire ?

I am sick of this American tip-toeing around the truth. Trump is brash but brash is needed to stop this politically correct path leading to our demise. We are facing down a Clinton machine that lies, cheats, and is as crooked as any political family in our history. She can not be our president.

This was reported recently.....

This pretty much summarizes how Obama and most liberals view the US military. Harold was a bright child. He grew up in America. He went to school and had a bright future ahead of him.

Harold was full of life but was cut short in a violent moment. While few people had ever heard of Harold before his death, many did afterward. And in death, something very shocking happened. What was so shocking, especially when it is compared to the death of someone else recently in the news? Harold was Harold Greene, Major General, United States Army. On Aug. 5, 2014, Major General Greene was killed by a Taliban terrorist. He was returned to America with full military honors. It has been a tradition that the president attends the funeral of general and flag officers killed in the line of duty.

Richard Nixon attended the funeral of a major general killed in Vietnam and George W. Bush attended the funeral of Lieutenant General Timothy Maude, who was killed in the 9/11 attack. While Major General Greene was buried, Barack Obama was golfing. The vice president wasn't there either. Neither was the secretary of defense. Flags were not even lowered to half staff. <https://www.washingtonpost.com/.../obamas-silence..>

Four days after Harold Greene gave his life for America, Michael Brown was killed in Ferguson, Missouri. Brown was at best a thug. In the minutes before his death, he committed a robbery at a local convenience store. According to other reports, Brown struck Officer Darren Wilson and shattered his orbital bone before Officer Wilson shot him to death fearing for his life.

Obama sent a three-person delegation to Brown's funeral! Obama would not attend the funeral of the highest ranking military officer killed in the line of duty since 9/11, yet he sent a delegation to the funeral of a thug.

When Margaret Thatcher, one of America's staunchest allies and Ronald Reagan's partner in bringing down Soviet communism, died, Obama sent only a small low-level delegation to her funeral.

The snub was not missed by the British.

When Chris Kyle, the most lethal American sniper in history was murdered, there was no expression of sympathy from the White House. But when Whitney Houston died from drug overdose, Obama ordered all flags be flown at half mast.

There was no White House delegation at the funeral of an American hero. American heroes die and Obama goes to the golf course. A thug dies and gets a White House delegation.

No wonder most "REAL" Americans hold Obama in such contempt, especially members of our Military.

Email comment by TEX: [Were you off on holiday with Mavis and Flavia?]

Let's get one thing straight before Obama retires. Obama is a Muslim.

Here's a few facts :

- "the most beautiful sound in the world is the Muslim morning call to prayer". BHO (Barack Hussein Obama)

- BHO calls Spain "Andulusia", an Arab term. The Iberian peninsula is a major target for Islamic re-entrenchment.

- BHO was indoctrinated in a Muslim school in Indonesia.

- Both Obama's father and his step father were Muslim's. His mother was obviously sympathetic to Islamists because she married two of them.

- BHO despises Israel. Obama hates Winston Churchill, a man who opposed the spread of Muhaemedism in the Christian world. He actually sent a bust of Churchill that was in the foyer of the White House back to England on his first official day as President.

- BHO bows to Muslim leaders and shows contempt for non Muslim world leaders. He gave a path to the bomb and huge amounts of cash to Iran despite their funding of terrorism against US interests.

- BHO removes his wedding ring for Ramadan (last seven years), a Muslim requirement.

- BHO says he is Christian but does not go to church and apparently does not believe in the notion that Jesus WAS and IS the son of God. Muslims believe that lying to infidels is not, in fact, lying at all. Obama's pastor, Jeremiah Wright, was formerly a Muslim and hated America.

- BHO has stated in several speeches that Sharia law is a great tradition, and he has stated that our Constitution is a tired and outdated document.

Just wanted to put this on record..... and, by the way, these folks are killing us, removing our heads, and streaming across our borders. Mosques are going up all across America. The Democrats are excited about these new voters. I hope they realize that all of the Jews, LGBT's , movie producers, etc., are on their screen for future attacks. Please note that it's only Muslim's, going back fifty years, that are slaughtering innocent people around the world.

Have a great day, TEX.

PS. Hillary wants an Obama third term. Vote accordingly. But wait, if the voting is rigged, even your vote doesn't matter. We'd better get busy as citizens taking over our rigged election system.

LOL. This beautifully simple, elegant solution puts the ca-bosh on the globalist's current dominance over our digital systems. This would mean the Facebook election winning template that Hillary paid for could not defraud the vote counts. We love it.

August 5, 2016—In another week, Missouri verification boards across the state will begin meeting to certify the August 2, 2016 election results.

However, troubling facts are emerging, like every Republican incumbent won. This is essentially statistically impossible in the current anti-incumbency fervor. In one race, one of the candidate's reported total went down overnight by more than 600 votes. This cannot happen in a system that by federal statute is limited to no more than 1 error in 500,000 votes. So, who is fixing our elections and what do we do about it?

In addition, it was just discovered yesterday that a "man-in-the-middle" information technology vendor to the state, NTT DATA INC. (listed at NIT DATA INC in the purchasing database) is a huge Japanese globalist firm owned by Nippon Telephone and Telegraph - Japan's AT&T. Nowhere in state disclosures do we find a conflicts of interest disclosure much less concern that we are risking our sovereign elections and data to globalist foreign interests.

On Tuesday morning, it was just revealed that Shawn Lucas , the lead attorney who was working to expose the Democratic National Committee fraud case in Florida was unexpectedly found dead in his home.

The Fence Test ..

You can't get any more accurate than this!

This is straightforward country thinking.
by Jeff Foxworthy

Which side of the fence?

If you ever wondered which side of the fence you sit on, this is a great test!

If a Republican doesn't like guns, he doesn't buy one.

If a Democrat doesn't like guns, he wants all guns outlawed.

If a Republican is a vegetarian, he doesn't eat meat.

If a Democrat is a vegetarian, he wants all meat products banned for everyone.

If a Republican is homosexual, he quietly leads his life.

If a Democrat is homosexual, he demands legislated respect.

If a Republican is down-and-out, he thinks about how to better his situation.

If a Democrat is down-and-out he wonders who is going to take care of him.

If a Republican doesn't like a talk show host, he switches channels.

A Democrat demands that those they don't like be shut down.

If a Republican is a non-believer, he doesn't go to church.

A Democrat non-believer wants any mention of God and religion silenced.

If a Republican decides he needs health care, he goes about shopping for it, or may choose a job that provides it.

If a Democrat decides he needs health care, he demands that the rest of us pay for his.

If a Republican reads this, he'll forward it so his friends can have a good laugh.

A Democrat will delete it because he's "offended."

Nobel prize-winning economist steps down saying Panama government refused to guarantee report would be made public

The committee set up to investigate the lack of transparency in Panama's financial system itself lacks transparency, Nobel prize-winning economist Joseph Stiglitz has said after resigning from the Panama Papers commission.

The leak in April of more than 11.5m documents from the Panamanian law firm Mossack Fonseca detailed financial information from offshore accounts and potential tax evasion by the rich and powerful.

Stiglitz and Swiss anti-corruption expert Mark Pieth joined a seven-member commission to investigate Panama's notoriously opaque financial system, but both quit the group on Friday, saying Panama refused to guarantee the committee's report would be made public.

Our office has been so quiet these last few months because the twins, Flavia and Mavis, took some time off to "prepare for Rio". Never really gave it much thought but was sure that it would be quite entertaining. The girls are actually very athletic. You may recall that Flavia threw a refrigerator about 15 yards during her first divorce, and Mavis ate seven large watermelons in one sitting. Of course "the sitting" was actually in a water melon field in South Texas after knocking down a few Shiner beers the night before. They never cease to amaze.

Last night, while watching the Olympics to see if Bob Costa would talk about gun control, transgender bathrooms, or climate change, I saw the twins. They were in the competition swimming compound doing their thing. They had actually illegally crossed the border of East Timor last February, and tried out for the ET synchronized diving team. Since there was not a pool big enough to train, they dove off the back of the police station into an old mattress. Flavia overcame several strange injuries during their training. Their unique dive last night set the judges into a tizzy.....how do they score a piggy back leap, Mavis on the back of Flavia, with a double twist cannon ball? The fun part was that the girls wore wet diving suits and face masks to avoid as much of the fleshing eating bacteria and Zika mosquitos as possible. They splash more water out of the pool than all other divers combined. It was beautiful to watch.

Now I realize that this little quip has nothing to do with patents, politics, or voter fraud, but it does show why Americans can truly make an impact if they want to illegally cross into other countries and share our American ingenuity.

The July Wikileaks release of nearly 20,000 Democratic National Committee (DNC) emails validated the concerns of Bernie Sanders supporters that the DNC helped rig the primary election for Clinton. These emails provided a glimpse into how the DNC and the mainstream media work together in providing public relations support for the Democratic establishment.

Rather than informing voters to enrich democracy, the mainstream media has developed a feedback loop between support for particular candidates and the political agenda they intend to support. The freedom of the press is necessary for a democracy to function. This freedom was subverted by the DNC at the consent of the mainstream media outlets. Instead of remaining autonomous, they allowed themselves to be manipulated by the DNC to back Clinton's coronation as the Democratic presidential nominee.

I am new to this blog, but have been reading it for years. Felt I had to speak up about this voter fraud thing. Looks like the globalists are going to steal the 2016 election unless we citizens figuratively place armed guards around our voting processes. The electronic voting is obviously the globalist's paradise. A friend of mine sent me this email about a Missouri grandmother with spunk.

Integrity of electronic voting systems & vendors called into question

MISSOURI GRANDMOTHER CALLS STATE POWERS TO ACCOUNT IN ELECTION COMPLAINT

August 08, 2016 – A Missouri grandmother, Janet Farrar, today filed an election complaint with Missouri's Election Integrity division.

Ms. Farrar wrote that she:

“. . . cares deeply about whether or not our Missouri elections are free and fair. If they are not, then I will not have left a sound Republic to my grandbabies.”

The complaint follows on the heels of a weekend that saw Gmail “disable” the email account of a Missouri political activist who first revealed the possibility of systemic vote fraud in Missouri. Then, this morning, as PDF versions of those censored emails were being distributed, Gmail users began seeing malicious software warnings appear, discouraging people from opening the message. Here they are for download and redistribution: [Message One](#) | [Message Two](#).

Welcome to the new world of public-private censorship where private digital vendors, like Google (who now “advises” the Department of Defense) work closely with the government and together censor unwelcomed content with a raft of euphemistic security notices “to improve the user experience.”

Ahhhh, the helpful and reassuring voices of the New State-sponsored Censorship.

THE CLINTON FOUNDATION, \$1 TRILLION CRIME, HILLARY CLINTON

Ian Hanchett. (Aug. 08, 2016). MSNBC's Brzezinski: Clinton Set Up Server for 'Self-Serving Reason,' May Have Been to 'Widen the Footprint' of Foundation. Breitbart/MSNBC.

<http://www.breitbart.com/video/2016/08/08/msnbc-brzezinski-clinton-set-up-server-for-self-serving-reason-may-have-been-to-widen-the-footprint-of-foundation/>

On Monday's broadcast of MSNBC's "Morning Joe," co-host Mika Brzezinski argued that Democratic presidential nominee former Secretary of State set up her private email server for a "self-serving reason" "And it was done, whether it's to widen the footprint of the foundation while she was secretary of state, or, whatever, paranoia, but, they set up a server, because they didn't want it in the State Department."

Brzezinski said, during a discussion of Clinton's answers about her email, "I think there's a bigger problem. ... What really worried me is that there's a bigger picture here, that they are, I don't want to say covering up, because it sounds like completely illegal, I think there was just a self-serving reason to set up the own – the private server, that was completely inappropriate. And it was done, whether it's to widen the footprint of the foundation while she was secretary of state, or, whatever, paranoia, but, they set up a server, because they didn't want it in the State Department. Can we go back to the beginning here and not talk about the five emails that weren't marked or were marked, and whether or not she knew they were marked. It was wrong. All of it."

Within two weeks of its release last month, Pokemon Go, the augmented reality gaming sensation, surpassed, by one estimate, Twitter, Facebook, and Netflix in its day-to-day popularity on Android phones. Over on Apple devices, the game was downloaded more times in its first week than any app that came before it.

The suddenly vast scale of Pokemon Go adoption is matched by the game's aggressive use of personal information. Unlike, say, Twitter, Facebook, or Netflix, the app requires uninterrupted use of your location and camera – a “trove of sensitive user data,” as one privacy watchdog put it in a concerned letter to federal regulators.

All the more alarming, then, that Pokemon Go is run by a man whose team literally drove one of the greatest privacy debacles of the internet era, in which Google vehicles, in the course of photographing neighborhoods for the Street View feature of the company's online maps, secretly copied digital traffic from home networks, scooping up passwords, email messages, medical records, financial information, and audio and video files.

You should complain about:

(1) the intellectual property theft of social networking source code from Leader Technologies, Columbus, Ohio that is the software engine running the UIA;

(2) the corruption at Ohio State University and OSU's collusion with Battelle Memorial Institute which helped steal the software being used by UIA; and

Universities pride themselves on protection of intellectual property.

Therefore, these universities cannot participate in this abuse of inventor copyrights, patents and trade secrets by The Ohio State Trustees and Administration. If these universities participate knowingly with Ohio State in its theft of intellectual property, then they are aiding and abetting the theft of intellectual property on a

Email comment by Newsmax:

Todd Beamon. (Aug. 09, 2016). Report: Secret Letters Show FBI Fears About Classified Data on Hillary's Server. Newsmax.

The inspector general for the intelligence community determined last year that classified data in emails on Hillary Clinton private server might have been "compromised" and shared with "a foreign power or an agent of a foreign power," according to two secret letters the FBI sent to the State Department.

The FBI letters revealed for the first time that the agency's investigation into Clinton's private email use resulted from a "Section 811" referral from the inspector general, Vice News reports.

The website obtained the letters under a Freedom of Information Act (FOIA) request.

Under the Intelligence Authorization Act of 1995, Section 811 "is the statutory authority that governs the coordination of counterespionage investigations between executive branch departments or agencies and the FBI," according to the report.

BREAKING NEWS! AFI WARNINGS ABOUT ELECTION RIGGING GOING MAINSTREAM.

GO PAPER BALLOTS! NOW!

Mireya Villarreal. (Aug. 10, 2016). Hacker demonstrates how voting machines can be compromised. CBS News.

<http://www.cbsnews.com/news/rigged-presidential-elections-hackers-demonstrate-voting-threat-old-machines/>

Concerns are growing over the possibility of a rigged presidential election. Experts believe a cyberattack this year could be a reality, especially following last month's hack of Democratic National Committee emails.

The ranking member of the Senate Homeland Security Committee sent a letter Monday to the Department of Homeland Security, saying in part: "Election security is critical, and a cyberattack by foreign actors on our elections systems could compromise the integrity of our voting process."

Roughly 70 percent of states in the U.S. use some form of electronic voting. Hackers told CBS News that problems with electronic voting machines have been around for years. The machines and the software are old and antiquated. But now with millions heading to the polls in three months, security experts are sounding the alarm, reports CBS News correspondent Mireya Villarreal.

A fresh batch of previously unreleased State Department emails are raising new questions about the relationship between the Clinton Foundation and the State Department during the years Hillary Clinton served as secretary of state.

The conservative group Judicial Watch released 296 pages of email conversations from Clinton's private email server that it says show that "Clinton's top aides' favors for and interactions with the Clinton Foundation seem in violation of the ethics agreements that Hillary Clinton agreed to in order to be appointed and confirmed as Secretary of State."

The group says 44 of those pages had not been previously turned over to the State Department.

Allegations that the Clinton Foundation, a global charitable organization created by former President Bill Clinton, worked to compensate donors by providing access at the State Department has cast a shadow over the current Democratic presidential nominee for years.

One example that Judicial Watch pointed to was an April 2009 discussion in

Wayne Allyn Root. (Aug. 10, 2016). Is NBC News owned by Hillary Clinton? Breitbart.

<http://www.breitbart.com/big-journalism/2016/08/10/nbc-news-owned-hillary-clinton/>

Bizarre. That's the only word to describe how "in the bag" NBC News is for Hillary Clinton. You'd almost think she owns them. You'd almost think she's blackmailing or bribing them. She must have photos of the head of the NBC News division and anchorman Lester Holt in bed with someone very shocking. It's that bad. It's so bad that NBC News now stands for NO BAD CLINTON NEWS.

NBC must be getting something out of their arrangement, to ignore every piece of negative news and scandal about Hillary, but take every sentence by Donald Trump out of context and turn it into a major headline.
