MICHAEL MCKIBBEN, THE REAL INVENTOR OF SOCIAL NETWORKING, ENDORSES DONALD TRUMP

MCKIBBEN SAYS DONALD TRUMP IS A PROBLEM SOLVER AND HILLARY CLINTON LACKS A MORAL COMPASS

FIG. 2—MICHAEL T. MCKIBBEN, FOUNDER & CHAIRMAN, LEADER TECHNOLOGIES, INC.

(SEP. 13, 2016)—Columbus innovator Michael McKibben today endorsed Donald Trump for President.

In 1997, McKibben founded Leader Technologies ("Leader") in Columbus, Ohio when the commercial Internet had fewer than 10 million users. He had just rebuilt AT&T's email system before starting Leader.

He says the AT&T experience gave him a bird's eye view of the emerging Internet and the weaknesses of existing IBM, Microsoft and Xerox approaches to large-scale collaboration. He says in the late 1990's Leader "cracked the code" on how to handle millions of simultaneous Internet users. All told, they risked \$20 million in investments and

The rigged system that Donald Trump speaks about failed to protect McKibben's patent—stolen by Clinton, Bush, Obama intelligence insiders to control the Internet and global information flow. McKibben hopes a Trump Presidency will restore law and order to a U.S. patent system currently hijacked by Hillary's and Obama's corrupt globalist cronies.

WHY HE ENDORSES DONALD TRUMP

About Donald Trump, McKibben said, "Beneath the braggadocio I see a good man. Just look at his children. Despite their wealthy upbringing, they seem to be hard working and level-headed. That is good parenting. Trump also surrounds himself with men and women of character. Those are the traits of a leader who knows how to hire well, then delegate and manage—precisely the characteristics of a good President."

Regarding Trump's penchant for hyperbole, McKibben said, "He's a gregarious personality. In the end, given a choice between PC hot air and results, I'll take results. That said, it appears he is learning a better balance. After all, he did knock down 17 PC Republicans in the primaries. That is both humorous and very impressive."

"Very few people seem to have read Mr. Trump's most recent book or his online position papers. They are detailed and hit the mark. Hopefully voters will see through the superficial radio and TV spin. I do not recall an election in my lifetime where the mainstream media has chosen sides so blatantly. This bias is destroying the public trust in a Free Press no matter who prevails. Press privileges are granted to hold the powerful accountable."

McKibben graduated from The Ohio State University in civil engineering. His late father was a well-respected civil engineer whose structures include sports arenas, convention centers, roads, bridges, power plants, office buildings and even roller coasters.

AMERICA NEEDS MORE PROBLEM SOLVERS LIKE DONALD TRUMP

McKibben said, "My problem-solving heritage cringes at our litigious business culture. For the longest time, I expected lawyers to fix things. I finally realized that the rewards for attorneys are all wrong, in court and in Washington. Attorneys are incentivized to make more billable hours by keeping things stirred up."

"Long before Donald Trump, I concluded that Washington needs more engineers and business people fixing things, and fewer attorneys pretending to fix them."

"While Donald Trump is a businessman and not an engineer, he employs hundreds of engineers, is familiar with completing projects on time and in budget, and is himself a proven problem solver who knows how to create jobs. Half of his Trump executives are women and his business conduct proves the accusations of racism, xenophobia, bigotry and misogyny are unfounded. If I thought they were true, I would not support him."

"Hillary Clinton on the other hand is a typical attorney who mistakes talking for results. Despite her numerous public positions, she has few positive contributions to show for her lifetime of effort."

"Donald Trump understands this difference and Hillary does not, I believe."

DONALD TRUMP PROMISES TO RESTORE THE RULE OF LAW

Leader: 145,000 man-hours • over \$10 million • 20 people • solid engineering • hackers not welcome • affirms privacy, security, property • no foreign influence • respects U.S. Constitution

Facebook: "one to two weeks" • beer money • all by myself • 28 hidden hard drives • stole Harvard photos • hacks email • PayPal Mafia handlers • scofs at privacy • corrupts markets, judges, politicians • & gov't agencies

"Obama, Hillary and friends stole our invention and are exploiting it to pursue their 'new world order.' The courts failed to protect us. In secret, crony judges chose to protect their friends and line their pockets rather than preserve, protect and defend the Constitution."

"I would not wish on anybody our experiences with property confiscation by a federal government that can use its powers to crush anyone at will."

"I have four daughters and two sons," McKibben said. "Hillary's future for them is one of big government and globalist oligarchies who leach off the ideas of others."

"Donald Trump, on the other hand, promises to help restore the Rule of Law which levels the playing field for inventors and entrepreneurs to be able to reap the rewards of their labors. That is the future I want for my shareholders and for my children and grandchildren. Without new ideas and new blood, corporate welfare runs out of ideas and falters. This is why the Founders wrote intellectual property protection into the Constitution."

"Hillary and Obama have a history of making wild promises to women and minorities and then not delivering. Einstein's truism would say insanity is choosing these same people and expecting a different result. By contrast, Trump has made his career creating new wealth."

ATTORNEYS HAVE RIGGED THE SYSTEM

"Barack Obama is a Harvard Law attorney who has hired a majority of attorneys in his cabinet and agencies. I believe that Washington is overrun by attorneys schooled in making problems, not fixing them. Worse, these attorneys have now rigged the system and lined their pockets."

"America's Founders warned about a breakdown in the separation of powers like this."

"America needs a courageous leader to wrestle down this attorney-created monster and restore true separation of powers to our Republic."

"I believe Donald Trump, with a good team around him and with the support of We The People, can accomplish this task."

"This is why I endorse Donald Trump for President."

MICHAEL MCKIBBEN: THE TRUE INVENTOR OF SOCIAL NETWORKING

McKibben's invention is the foundation engine of social networking. He holds the patent and proved in federal court that Facebook infringes his patent on 11 of 11 claims.

"We have been ripped off by the Clintons, Obama and their corrupt community of globalist judges, lawyers, bankers and technology companies," said McKibben. "Thanks to courageous whistleblowers we can now prove it. Accurate, independent information sources were made public by Julian Assange, WikiLeaks, Edward Snowden, Tom Fitton, Judicial Watch, David Bossie, Citizens United, Hervé Falciani, SwissLeaks, DCLeaks and The Panama Papers, among others."

"By contrast, Mark Zuckerberg claims he created Facebook in 'one to two weeks' while drinking, chasing girls and studying for Harvard midterms. Curiously, when he was asked to produce his code for Leader's review during the trial, he said he 'lost' it—all of it, just like Lois Lerner 'lost' all of her IRS emails."

"After our appeal, Zuckerberg magically 'found' his files located on 28 'lost' computers—they were being hidden by his attorney the entire time. Nevertheless, our corrupt courts continue to block review of that evidence. We believe we now know why."

"It will prove Facebook is a fraud, the contract with Paul Ceglia is valid, The Social Network movie was a lie, and that Zuckerberg was simply implementing the code provided to him by The IBM Eclipse Foundation—innovations stolen from us and others. IBM wanted to fabricate a Bill Gates 2.0 Harvard story and Zuckerberg was a willing tool, we believe."

UPDATE MAR. 25, 2014

FIVE CRITICAL AFI POSTS ON JUDICIAL COMPROMISE

Fully updated Mar. 25, 2014 in the wake of the Scribd censorship:

1. **HOW PATENT JUDGES GROW RICH ON THE BACKS OF AMERICAN INVENTORS**

Patent Office filings are shuffled out the USPTO backdoor to crony lawyers, banks and deep-pocket clients.

2. **WAS CHIEF JUSTICE ROBERTS BLACKMAILED** into supporting Obamacare by his ethical compromises in *Leader v. Facebook*?

3. **JUSTICE ROBERTS MENTORED** Facebook Gibson Dunn LLP attorneys.

4. **JUSTICE ROBERTS HOLDS** substantial Facebook financial interests.

5. **JUDGE LEONARD STARK FAILED** to disclose his Facebook financial interests and his reliance on Facebook's Cooley Godward LLP attorneys for his appointment.

BARACK OBAMA'S DARK POOLS OF CORRUPTION

When McKibben sought attorneys in Washington, D.C. for patent protection, his problems began. "The bottom line is the federal government confiscated our invention and freely distributed it to its corporate intelligence suppliers. But our shareholders have not received one dime of compensation."

"Judicial Watch recently uncovered secret Hillary contracts with Facebook starting in 2009 —these contracts were entered into during our Leader v. Facebook patent infringement lawsuit. Besides obstructing justice, Hillary's contracts paid Facebook to write election rigging software. She even published a four-part Facebook 'field guide.'"

McKibben said, "Hindsight shows that Hillary tampered with Facebook witnesses in our case and that a fair trial was impossible. In fact, she is caught on a State Department video promoting Facebook at an Alliance of Youth Movements Summit in Mexico City, Mexico in 2009 while Zuckerberg lied about 'losing' his 2003-2004 Harvard files and emails."

"Citizens United, Judicial Watch and WikiLeaks also recovered correspondence between Hillary and Facebook's Sheryl Sandberg. The State Department had stonewalled release of these documents. This collusion proves that Hillary has no moral compass. She cheated us as the rightful inventor and patent holder of social networking for her own agenda."

"For these reasons, I will not vote for Hillary Clinton, and I endorse Donald Trump for President."

This is an example of the incredible corruption of Hillary Clinton and, sadly, the corruption of the judicial system. Trump will make every effort to clean house - together with the organizations listed in the post above. We are at a turning point and Donald is the person to make the needed change.

You are correct in that the people who are corrupt are like vampires. They cannot create anything themselves so they have to prey upon the creative intelligence of others. My years of problem solving at [redacted] is testimony to this statement. Our corporations have become rampant with vampires and too few creative problem solvers.

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

Email comment by TEX:

I am not big on endorsements , per se. However, Mr McKibben's support of Donald Trump made me think about the underlying nature of our candidates and their running mates. Being a simple guy , I tried to analyze the pasts of these people rather than what they want us to believe they are. We are all a compilation of our actions , our perceptions, and our personal experiences. Here's my opinion and endorsement.

Hillary is driven by power . She has survived her broken marriage, her past legal and moral woes , her current decline in health and her challenges of faith by dreaming of history and power. She could care less about governing as long as she is elected as the first woman president of this great country. She could give a flip about stabilizing our fiscal distortions or creating actual jobs . Despite what she says, women are not her thing, they are Slick Willy's. She has proven that she will say anything, and do anything, without the slightest remorse, to get this job. She believes that she is owed this by the people that serve her. Hillary is Saul Alinsky meets George Soros with female parts. She is clearly a serial liar and master deceiver.

Tim Kaine is a loon. He claims to be an ardent Catholic but supports gay marriage and abortion on call. He is also an avowed socialist . He received his indoctrination to how the world should work from radical Jesuit priests in Honduras that fought for socialism and liberal Catholic thought. It was called Liberation Catholicism. Kaine's current local Bishop recently reprimanded this not so Catholic fraud and is refusing to give him Holy Communion. He is Karl Marx meets Che Guevara with a soft smile and a tie. If he becomes President due to something untoward happening to Hillary, America will see the most misguided socialist President ever and he will harmonic us into the dustbin of history.

Mike Pence is a solid American citizen. He grew up in Indiana , has been involved in elected government at both the state and federal levels. He has experience with small business, is an active Christian, a strong believer in family and responsibility, and has a son serving in the US military. It's impossible to find dirt on this guy. He represents those he serves, he's honest, and transparent. Indiana is better because of his hands on leadership. He would be a solid fill in for any presidential vacancy.

Trump.....wow. What can be said ? He's rich, he's successful, he's smart, and he is abruptly outspoken to every class of citizen. He can offend people that are not offendable. He has proven that he wins. Has he made some business mistakes? Absolutely. Does he tiptoe around political agendas? Not for a second. He is built to fix and rebuild things. Bingo !!! He is better known as " Mr. Clean up on aisle three". Trump is FA Hayek meets Don Rickles with a splash Bill O'Reilly. The con artists , corrupt bureaucrats, and blood sucking foreign leaders had best straighten up.

TEX endorses Trump. !!!!!!!!! Have a great "make America great again "day.

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ulylot, who appears to have helped lead the Leader v. LEAKS: DNC calls own ambassador donors "clowns"

Whitney Webb. (Sep. 15, 2016). BREAKING: New DNC Leaks Blow Hillary's Health and Obama's Corruption Wide Open. Anonymous/TrueActivist.

The new leaks show that Obama operated a "pay to play" scheme for ambassadorships and other positions and also imply that Hillary has a life-threatening condition called sinus thrombosis, helped create ISIS, and was responsible for the death of Americans in Benghazi.

A few weeks ago, Julian Assange of Wikileaks told the world that he had incriminating information that could further damage Hillary Clinton's chances at the presidency. The DNC leaks, realized by hacker Guccifer 2.0, have already brought tremendous embarrassment and added scrutiny to the DNC, which has since struggled to recuperate popular legitimacy. The DNC, in an effort to divert attention from its criminal actions, has sought to refocus public attention on Russia.

Ultimately, the leaks reveal a "pay to play" scheme so widespread that it is essentially a black market for the buying and selling of political influence and US assets. The scheme was so out of control that the DNC went so far as to call their own donors "clowns." Another email from Organizing for America, formerly Obama for America, references the

Brian Beutler. (Sep. 16, 2016). It's Not Too Late for the Media to Fix Its Election Coverage - A final plea for sanity in how we report on Donald Trump and Hillary Clinton.

In defending their recent coverage of this year's presidential race, reporters and representatives of major media organizations have frequently suggested—in various ways, implicitly, and explicitly—that their liberal critics are motivated by crude partisanship rather than any neutral or high-minded concerns.

The most irony-rich example came earlier this week from New York Times reporter Trip

3. [Two Policy Changes That Will Make America More Democratic \(and less contentious\), Dec. 21, 2012](#)

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney “dark arts,” destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious

the case of Chris Christie and the fact that top George Soros hedge fund executives are funding his re-election campaign. The Washington Times reports:

New Jersey Gov. Chris Christie is cashing checks from all sorts of unlikely places, from George Soros’ hedge fund executives to professors at the University of California at Berkeley, a Newark Star-Ledger review of state and federal records found.

Five executives at Soros Fund Management – including the liberal billionaire’s protege and chief investment officer, Scott Bessent – have donated a combined \$19,000 to the governor’s re-election campaign, The Star-Ledger reports.

polls show Mr. Christie, a Republican, gaining popularity among Democrats and independents as experts and donors speculate on a potential run for the White House in 2016.

Few things will scare a true conservative more than the thought of Chris Christie being the 2016 Republican nominee for the White House but it could happen. Politico reports:

New Jersey Gov. Chris Christie is the most popular potential 2016 presidential hopeful, a new poll finds.

Fifty-two percent of Americans have a favorable opinion of Christie, according to a Gallup poll released Friday. The poll compares favorability ratings of Christie, Sen. Marco Rubio (R-Fla.), Rep. Paul Ryan (R-Wis.), Sen. Ted Cruz (R-Texas) and Sen. Rand Paul (R-Ky.), all of whom are seen as possible contenders for the 2016 presidential race.

Republicans and Democrats are, however, divided over which Republican officeholder they prefer. Christie remains the most popular among Democrats with 54 percent viewing him favorably. Just 17 percent of Democrats have a favorable opinion of Ryan. Among Republicans though, Ryan becomes the most popular with 69 percent favorability compared with Christie’s 53 percent.

It seems that the more liberal a conservative candidate is today, the more chance he or she has of progressing in the Republican party. What is wrong with this picture America?

Can the Republican party be saved? I doubt it. I suppose it depends on your view of what saving the party means. If it means a total sell out to make this into a party of “pseudo-socialism” versus the hard left’s full-blown socialism then the party can and probably will succeed.

But the question remains... Where does that leave conservative Americans who still believe in freedom and Constitutional values? WHEN YOU HAVE ZUCKERBERG GIVING MILLIONS TO CHRIS CHRISTIE KNOWING ZUCKERBERG STOLE THE IDEA FACEBOOK AND YOU HAVE GEORGE SOROS GIVING MILLIONS TO ZUCKERBERG KNOWING THAT FACEBOOK WAS STOLEN BEFORE FACEBOOK STARTED. The leak reveals that Soros was the puppet master behind Hillary Clinton’s decisions as Secretary of State.

One of the emails, dated January 24, 2011, reads:

Dear Hillary,

A serious situation has arisen in Albania which needs urgent attention at senior levels of the US government. You may know that an opposition demonstration in Tirana on Friday resulted in the deaths of three people and the destruction of property. There are serious concerns about further unrest connected to a counter-demonstration to be organized by the governing party on Wednesday and a follow-up event by the opposition two days later to memorialize the

CODE OF CONDUCT FOR U.S. JUDGES

“CANON 2: A JUDGE SHOULD AVOID IMPROPRIETY AND THE APPEARANCE OF IMPROPRIETY IN ALL ACTIVITIES”

GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in Leader Techs, Inc. v. Facebook, Inc., 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add

the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader’s prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the Pfaff v. Wells Electronics, Inc. test for on-sale bar, even after instructing the jury to use it. (See that Jury Instruction No. 4.7 here.) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present

victims. The prospect of tens of thousands of people entering the streets in an already inflamed political environment bodes ill for the return of public order and the country's fragile democratic process.

I believe two things need to be done urgently:

1. Bring the full weight of the international community to bear on Prime Minister Berisha and opposition leader Edi Rama to forestall further public demonstrations and to tone down public pronouncements.
2. Appoint a senior European official as a mediator.

While I am concerned about the rhetoric being used by both sides, I am particularly worried about the actions of the Prime Minister. There is videotape of National Guard members firing on demonstrators from the roof of the Prime Ministry. The Prosecutor (appointed by the Democratic Party) has issued arrest warrants for the individuals in question. The Prime Minister had previously accused the opposition of intentionally murdering these activists as a provocation. After the tape came out deputies from his party accused the Prosecutor of planning a coup d'etat in collaboration with the opposition, a charge Mr. Berisha repeated today. No arrests have been made as of this writing.

The demonstration resulted from opposition protests over the conduct of parliamentary elections in 2009. The political environment has deteriorated ever since and is now approaching levels of 1997, when similar issues caused the country to slide into anarchy and violence. There are signs that Edi Rama's control of his own people is slipping, which may lead to further violence.

The US and the EU must work in complete harmony over this, but given Albania's European aspirations the EU must take the lead. That is why I suggest appointing a mediator such as Carl Bildt, Martti Ahtisaari or Miroslav Lajcak, all of whom have strong connections to the Balkans.

My foundation in Tirana is monitoring the situation closely and can provide independent analysis of the crisis.

Thank you,

George Soros

Email comment by TEX:

Our world is changing quickly and not all is good. Ponder, if you will, what is happening around our country and around the world.

- free money from world wide central banks is about to end. Despite stated intentions to create new opportunities for middle and lower class citizens, the opposite happened. Middle class shrunk in the developed world. America has 94 million people out of the workforce? Why ? Free money and our penchant for equality created bad unintended consequences. The super rich are compounding their wealth. The poor see no future. No hope. Our solution seems that if we don't like something, we tax it and regulate it into submission . When we do, we wipe out the poor and middle class. Markets are about to hemorrhage money because our "progressive" economy is stagnant . Companies can not outrun the government-imposed taxes and regulations. The rich will panic and hoard their new found wealth. They know our debt is not sustainable.

- immigration that allows millions of non assimilating newcomers to swarm our cities is an invasion, not immigration. They are colonizing us. Our leaders have been duped. Our traditions and societies are going to disappear. This failure to assimilate will not turn out well.

The first to riot will be France and Germany. Then hang on, it will grow in our country as well. This will not be understood by all but it is coming.

- lawbreakers are being coddled and law enforcers are castigated. Our current administration tells us that due to prior national policies , thugs have no other options except to be thugs. It seems that the police must be nicer to these guys that shoot at them. When a society denigrates its legal enforcers, anarchy is nearby. Humans without rules encourages chaos. Vigilante groups are already forming all around the world.

- the new future will be determined by how we deal with chaos. We are about to have huge opportunities to use our capacities to solve problems with leadership and new technologies . We have had chaos before in America. We always respond. Innovations like Google, Facebook, and Amazon will be challenged with new ideas from a new slate of creative thinkers. Innovation has been bottled up. Trump will turn it lose.

- the 1960's feminist movement and sexual revolution has led to two income families, lack of traditional parenting, a "pick your sex today" mentality, a massive expansion of inner city gangs due to no parenting, extensive drug dependency, and other slow growing societal cancers has been questioned. Was it worth it? Are women , children, or men better off? NO.

I , for one, am ready to try something new. The history of the human world (5,000 years) has been influenced by maybe 50 different powerful people. They were obviously out of step with status quo. Some were good, some were bad. The outcome was always "change". There was action and then reaction. Revolution , then counter revolution. Wars and then peace. We are no different. Do we see an out of step game changer ? I do.

I hope the so called millennials get it. They are about to see massive chaos. Safe spaces will not insulate them . More of the same is not a possibility . We can not elect the people that caused this mess to be the ones to fix it. Get out and vote.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012).

Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. [See Motion to Disclose Conflicts of Interest](#). Judge Wallach continued

in silence even after Clerk of Court Horbaly failed to provide him with Dr.

Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. [See a full analysis of these events at Donna Kline Now!](#) Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's *Pfaff v. Wells Electronics, Inc.* test for on-sale bar evidence, which included even the Federal Circuit's own *Group One v. Hallmark Cards, Inc.* test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie helped write that opinion. [Group One test omission analysis](#).

Sharyl Attkisson. (Sep. 17, 2016). Selective Editing Syndrome and the News. Full Measure.

A fuss was raised this week when The CBS Evening News edited out a few words in an interview with President Clinton. Clinton was answering a question from Charlie Rose about whether Hillary Clinton's health concerns are serious. The controversy is summed up in an article in The Hill:

. . . CBS News responded with a statement saying the edit was purely a matter of time: that the three seconds saved by editing the clip were crucial in a half hour broadcast: . . .

In broadcast news, edits for the sake of time are made all the time. And it's true that sometimes even a few seconds matter. This instance is a question of motive and judgement. It would be unethical for an edit to be made if it misrepresents the interview or changes important context. Had it been my story, I would have considered the President's equivocation between "frequently" and "rarely" to be significant for viewers to hear so they could make up their own mind about what they think. After all, the two words are antonyms and, in context, may add to the uncertainty surrounding Hillary's health in the minds of some. Others might conclude the President misspoke and corrected himself. But it should be left up to viewers to judge.

Full web article:

Donald Trump is a racist, bigot, sexist, xenophobe, anti-Semitic and Islamophobe -- did I miss anything? The left and the media launch these hideous kinds of attacks at Trump everyday; yet, nothing could be further from the truth about the real estate mogul. As an entertainment journalist, I've had the opportunity to cover Trump for over a decade, and in all my years covering him I've never heard anything negative about the man until he announced he was running for president.

Keep in mind, I got paid a lot of money to dig up dirt on celebrities like Trump for a living so a scandalous story on the famous billionaire could've potentially sold a lot of magazines and would've been a "huge" feather in my cap. Instead, I found that he doesn't drink alcohol or do drugs, he's a hardworking businessman and totally devoted to his beloved wife and children. On top of that, he's one of the most generous celebrities in the world with a heart filled with more gold than his \$100 million New York penthouse.

In 2004, the first season of "The Apprentice" aired and at that time I worked as an entertainment columnist for the "RedEye Edition of the Chicago Tribune" and as a freelancer for "Us Weekly". I had a gut feeling that Chicago contestant, Bill Rancic, was going to win the reality show. So I contacted him and covered the hit show the entire season. I managed to score an invite to New York for the show's grand finale and after-party. This is where I first met Trump and got to ask him a few questions.

That year, Rancic did win "The Apprentice". I attended "The Apprentice" finale the next two years in a row. Between that and the frequent visits Trump and his family made to Chicago during the construction of their Trump International Hotel & Tower, I got a chance to meet most of his family too and I've had nothing but positive experiences with them.

Since the media has failed so miserably at reporting the truth about Trump, I decided to put together some of the acts of kindness he's committed over three decades which has gone virtually unnoticed or fallen on deaf ears.

In 1986, Trump [<http://www.thepoliticalinsider.com/a-66-year-old-widows-farm-faced-foreclosure-then-trump-saved-the-day/>] prevented the foreclosure of Annabell Hill's family farm after her husband committed suicide. Trump personally phoned down to the auction to stop the sale of her home and offered the widow money. Trump decided to take action after he saw Hill's pleas for help in news reports.

In 1988, a commercial airline refused to fly Andrew Ten, a sick Orthodox Jewish child with a rare illness, across the country to get medical care because he had to travel with an elaborate life-support system. His grief stricken parents contacted Trump for help and he didn't hesitate to send his own plane [<http://www.thepoliticalinsider.com/airline-couldnt-help-sick-child-so-donald-trump-came-to-the-rescue/>] to take the child from Los Angeles to New York so he could get his treatment.

In 1991, 200 Marines who served in Operation Desert Storm spent time at Camp Lejeune in North Carolina before they were scheduled to return home to their families. However, the Marines were told that a mistake had been made and an aircraft would not be able

START OF PART 2

In 1995, a motorist stopped to help Trump after the limo he was traveling in got a flat tire. Trump asked the Good Samaritan how he could repay him for his help. All the man asked for was a bouquet of flowers for his wife. A few weeks later Trump sent [<http://www.hannity.com/articles/election-493995/a-couple-stopped-to-help-donald-14289119/>] the flowers with a note that read: "We've paid off your mortgage."

In 1996, Trump filed a lawsuit [<http://www.wsj.com/articles/SB862335923489989500>] against the city of Palm Beach, Florida accusing the town of discriminating against his Mar-a-Lago resort club because it allowed Jews and blacks. Abraham Foxman, who was the Anti-Defamation League Director at the time, said Trump "put the light on Palm Beach - not on the beauty and the glitter, but on its seamier side of discrimination." Foxman also noted that Trump's charge had a trickle-down effect because other clubs followed his lead and began admitting Jews and blacks.

In 2000, Maury Povich featured a little girl named Megan who struggled with Brittle Bone Disease on his show and Trump happened to be watching. Trump said the little girl's story and positive attitude touched his heart. So he contacted Maury [https://www.youtube.com/watch?v=6bY_QmA9Vu4] and gifted the little girl and her family with a very generous check.

In 2008, after Jennifer Hudson's family members were tragically murdered in Chicago, Trump put the Oscar-winning actress and her family up [<https://www.accesshollywood.com/articles/donald-trump-puts-jennifer-hudson-family-up-for-free-in-chicago-hotel-66176/>] at his Windy City hotel for free. In addition to that, Trump's security took extra measures to ensure Hudson and her family members were safe during such a difficult time.

In 2013, New York bus driver Darnell Barton spotted a woman close to the edge of a bridge staring at traffic below as he drove by. He stopped the bus, got out and put his arm around the woman and saved her life by convincing her to not jump. When Trump heard about this story, he sent the hero bus driver [<http://www.buffalonews.com/city-region/buffalo/bus-driver-prevents-woman-from-jumping-off-overpass-teaching-student-riders-a-lesson-in-compassion-20131029>] a check simply because he believed his good deed deserved to be rewarded.

In 2014, Trump gave \$25,000 [<http://www.thepoliticalinsider.com/donald-trump-quietly-helped-marine-whom-obama-ignored/>] to Sgt. Andrew Tahmooressi after he spent seven months in a Mexican jail for accidentally crossing the US-Mexico border. President Barack Obama couldn't even be bothered to make one phone call to assist with the United States Marine's release; however, Trump opened his pocketbook to help this serviceman get back on his feet.

In 2016, Melissa Consin Young attended a Trump rally and tearfully thanked Trump for changing her life. She said [<http://www.dailymail.co.uk/news/article-3514893/Donald-Trump-shares-emotional-moment-dying-ex-Miss-Wisconsin-rally-GOP-runner-wrote-hospice-home-care.html>] she proudly stood on stage with Trump as Miss Wisconsin USA in 2005. However, years later she found herself struggling with an incurable illness and during her darkest days she explained that she received a handwritten letter from Trump telling her she's the "bravest woman, I know." She said the opportunities that she got from Trump and his organizations ultimately provided her Mexican-American son with a full-ride to college.

Lynne Patton, a black female executive for the Trump Organization, released a statement [http://www.breitbart.com/2016-presidential-race/2016/05/06/black-female-trump-executive-slams-critics-in-viral-video-the-trump-family-i-know/] in 2016 defending her boss against accusations that he's a racist and a bigot. She tearfully revealed how she's struggled with substance abuse and addiction for years. Instead of kicking her to the curb, she said the Trump Organization and his entire family loyally stood by her through "immensely difficult times."

Trump's kindness knows no bounds and his generosity has and continues to touch the lives of people from every sex, race and religion. When Trump sees someone in need, he wants to help. Two decades ago, Oprah asked Trump in a TV interview [http://fusion.net/story/174515/donald-trump-president-oprah-interview/] if he'd run for president. He said: "If it got so bad, I would never want to rule it out totally, because I really am tired of seeing what's happening with this country." That day has come. Trump sees that America is in need and he wants to help - how unthinkable!

Are these the actions of a racist, bigot, sexist, xenophobe, anti-Semitic and Islamophobe, misogynist?

Jesus said that one can know a person from the fruits of his deeds.

Today, ownership of the news media has been concentrated in the hands of just six incredibly powerful media corporations

Mr. Paul asked about Mrs. Clinton's recent ill health in one breath and then in the next declared that, if he had been president, he would have fired her for Benghazi. Calling the killings the "worst tragedy" since Sept. 11 was insulting to the nearly 8,000 soldiers killed in Iraq and Afghanistan or the many hundreds of Americans killed in senseless gun violence each year. We know politicians are short on perspective, but some is required

Either Edward Snowden is lying or his former boss is. That's one way to read contradictory statements from the two men about whether Snowden actually knew that much about one of the most controversial surveillance programs that he exposed to the world three years ago.

It's a program that gives the National Security Agency access to data from the world's biggest technology companies, including Facebook and Google, and it features prominently in the new Oliver Stone biopic "Snowden," which premieres Friday and portrays its namesake as a genius hacker who saw first-hand how the NSA abused its formidable powers. That movie has renewed a long-simmering battle between Snowden and his critics. And it's revealing new information about the biggest leak from the U.S.

Mary Wilder. (Sep. 15, 2016). Hillary avoided ER to hide information about her health from being leaked. NewsTarget.

One of the most talked about issues concerning the 2016 presidential election has become Hillary Clinton's seemingly poor health, which has appeared to grow increasingly terrible over the past few weeks. While many alternative media outlets have been reporting on her apparent sickness for years now, visual evidence is finally being brought to light thanks to increased press coverage on the presidential hopeful.

As a result, the Clinton campaign has been going out of their way to assure voters that Hillary is in perfectly good health . Of course, they've also claimed that she had an allergic reaction, pneumonia and was overheated all at once, but they continue to assure the easily manipulated voters on the Regressive Left that Hillary Clinton will live forever.

Cindy emailed a clarification, pointing out that spouses secretly running the country when the President was ill has precedent.

First Lady Edith Wilson ran the country after Pres. had a stroke.

https://en.wikipedia.org/wiki/Edith_Wilson

President Wilson suffered a severe stroke in October 1919. Edith Wilson began to screen all matters of state and decided which were important enough to bring to the bedridden president. In doing so, she de facto ran the executive branch of the government for the remainder of the president's second term, until March 1921.[1][2] She was the first First Lady to assume presidential functions.

For the record. George Soros, while he picked a common Greek Christian name, is Jewish and was born in Hungary. During World War II he collaborated with the Nazis in the confiscation of Jewish properties in what Jews call "blood money." Soros told Steve Kroft on 60 Minutes that he feels no guilt from this betrayal of his fellow Hungarian Jews. He is now a self-professed atheist and a heavy promoter of all causes Islamic as way of breaking down the Judeo-Christian moral base underpinning Western society and laws. He exploits the market data from his Open Society Foundations to manipulate currency markets.

Is our entire government just a bunch of two-bit mobsters?

Newsmax Wire. (Sep. 20, 2016). NY Times: Bomb Suspect's Father Warned FBI 2 Years Ago Son Was Terrorist. Newsmax / New York Times.

Authorities were warned two years ago that Ahmad Khan Rahami – the suspect in Saturday's bombings in New York City and New Jersey – was a terrorist, The New York Times reported Tuesday.

Two senior law enforcement officials told the newspaper that in 2014, Rahami's father told police that his son was a terrorist. The accusation prompted "a review by federal agents" that was dropped when the father later recanted.

PUT BIPARTISAN NETWORK MONITORS AT EACH STATE TABULATORS TO WATCH FOR MAN-IN-THE-MIDDLE DIVERSIONS !!!!!

Andy Sullivan. (Sep. 20, 2016). Despite flaws, paperless voting machines remain widespread in the U.S. Reuters.

One in four registered voters in the United States live in areas that will use electronic voting machines that do not produce a paper backup in the November presidential election despite concerns that they are vulnerable to tampering and malfunctions, according to a Reuters analysis.

The lack of a paper trail makes it impossible to independently verify that the aging touch-screen systems are accurate, security experts say, in a year when suspected Russian hackers have penetrated political groups and state voting systems and Republican presidential candidate Donald Trump has said the election may be "rigged."

Election officials insist the machines are reliable, but security experts say they are riddled with bugs and security holes that can result in votes being recorded incorrectly.

John Hayward, (Sep. 20, 2016). Hillary Clinton Rewarded 194 Donors With Seats on State Dept. Advisory Boards. Washington Examiner / Breitbart.

The Washington Examiner reports that 194 of Hillary Clinton's donors were named to advisory boards while she was Secretary of State between 2009 and 2012.

These were all people who donated to "either to her family's foundation, her political campaigns, or both, or were affiliated with groups that had," according to the Examiner's review of federal records. Fully 40 percent of the State Department advisory appointments during Clinton's time as Secretary of State went to her donors.

The most recent leak of Former Secretary of State Colin Powell's emails revealed his often-entertaining opinions about fellow politicians, including his musings that Clinton isn't a good candidate because of her advanced age, greed, and a husband "still dicking bimbos."

One of the most significant portions of the leaks involve clear attempts at pay-to-play politics within the party. High-ranking DNC officials were working with the White House to get high-paying donors placed in political positions. The leak revealed a price sheet of sorts which revealed how much you had to give to be made an ambassador for a cushy state like France or Germany.

DNC is now fear-mongering so extremely that Interim DNC Chair Donna Brazile said that even reading the leaks might get the reader hacked by Russia as well (complete and total B.S.), it's hard not to root for more and more released information. Bill Clinton pardoned his buddy Marc Rich among 450 people pardoned on his last day in office on Jan. 20, 2001. Curiously, Bill Clinton APPOINTED James P. Chandler, III -- Leader Technologies' patent attorney - to the National Infrastructure Assurance Council (NIAC) on Jan. 18, 2001 along with Bill Gates.

<http://www.fbcoverup.com/docs/cyberhijack/cyber-hijack-findings.html#chandler-niac>

Clearly, these criminals were setting up a private White House spy agency that Clinton, Bush and Obama have all been in on ... and taking orders from their spymasters James P. Chandler and George Soros.

WikiLeaks. (Sep. 20, 2016). Pardon me? Before the Clinton Foundation there was the Clinton Library. Twitter.

Marc Rich--This is the pardon that a New York Times editorial called, "a shocking abuse of presidential power." Rich was on the FBI's most wanted list for illegal commodities trading with countries like North Korea, Iran, Cuba and the Soviet Union. He fled to Switzerland in 1983 to avoid conviction in America.

Leading up to the pardon, Marc's wife Denise Rich donated \$450,000 to the Clinton Library and forked over \$1 million to Democratic campaigns. Rich died in 2013, and critics say the Clinton's are still benefiting from the pardon.

Rich's friends, lawyers and business partners have donated millions to the Clintons since the pardon was granted.

[The IBM Eclipse Foundation was started in 2001, judges decided in conference to allow themselves to hold Clinton crony mutual funds, the Clinton Library is one of 45 aliases for the Clinton Foundation. Clearly, the criminal enterprise grew legs in 2001, Doug Band started the Clinton Global Initiative. All this in 2001 the moment Clinton left office. Evidently, George Bush was playing along.]

A "non-techie" Twitter sleuth with 3,000 followers has just caused Hillary Clinton's campaign a new headache: According to screenshots she published Sunday - which are now reportedly under review in the House Oversight Committee - the IT specialist who deleted Clinton's emails may first have turned to Reddit for advice on the technology.

The Reddit posts in question come from a user named stonetear, and were made in July and December 2014. @GOPPollAnalyst, the woman who

Godward Kronish LLP to arrange Obama's green energy funding; arranged \$1.6 billion for failed BrightSource and \$535 million for failed Solyndra)

119. Michael F. McGowan (Stroz Friedberg; Facebook forensic expert who lied about his knowledge of the contents of the 28 Zuckerberg hard drives and Harvard Email accounts)
120. Bryan J. Rose (Stroz Friedberg; Facebook forensic expert who lied about his knowledge of the contents of the 28 Zuckerberg hard drives and Harvard Email accounts)
121. Dr. Saul Greenberg (Facebook's expert witness from the University of Calgary; disingenuously waived his hands and **said he would be "wild guessing" about the purpose of a Java "sessionstate" import statement** (even Java newbies know it is used for tracking a user while in a web session); in short, Dr. Greeberg lied to the jury, thus discrediting his testimony)
122. Toni Townes-Whitley (CGI Federal; Michelle Obama's 1985 Princeton classmate; CGI "donated" \$47 million to the Obama campaign; CGI won the no-bid contract to build the www.healthcare.gov Obamacare website; CGI shut off the security features on Obama's reelection donation sites to increase donations)
123. CGI Federal (US division of a Canadian company; Donated \$47 million to Obama's reelection, then received the no-bid contract to build the ill-fated Obamacare website; Michelle Obama's Princeton classmate, Toni Townes-Whitley, is a Senior Vice President of CGI; the website is replete with social features and links to Facebook)
124. Kathleen Sebelius (Obama's Secretary of Health & Human Services since 2009 responsible for \$678 million Obamacare implementation; made the decision to hire CGI Federal on a no-bid contract despite the evident conflict of interest with Michelle Obama and \$47 million in Obama campaign donations by CGI; the website is replete with social features and links to Facebook)
125. Todd Y. Park (White House Chief Technology Officer (CTO); former CTO for Health & Human Services; chief architect of HealthCare.gov; founder, director, CEO, Athenahealth, Inc.; founder, director, CEO, Castlight Health, Inc.)
126. Frank M. Sands, Sr. / Frank M. Sands, Jr. (Founder and CEO, respectively, of Sands Capital Management LLC; failed to file S.E.C. Form SC 13G acquisition reports for Athenahealth, Inc., Baidu, Inc. (ADR) and Facebook stock during 2012; masked the association of Todd Y. Park with Athenahealth, Inc. and Baidu, Inc., and the association of both of those companies with the Facebook IPO fraud)
127. Robin "Handsome Reward" Yangong Li (CEO, Baidu, Inc. (ADR); appointed Jan. 2004, the same month that Mark Zuckerberg obtained Leader Technologies' social networking source code to start Facebook; Robin Y. Li is very likely associated with John P. and James W. Breyer through their Chinese

unearthed the posts, claims stonetear is Paul Combetta, a computer specialist with Platte River Networks who worked with Clinton's staff during her time as secretary of state. The email address stonetear@gmail.com was used to register a Facebook profile for a "Paul Hamilton," which is mostly blank and has only 40 friends. One of them is, however, a woman whose maiden name appears to have been Combetta until a 2015 wedding.

- The timing of two of Stonetear's Reddit posts coincides with events in the Clinton email saga. One post, dated July 24, 2014, came one day after the House Select Committee on Benghazi and the State Department reached an agreement on producing records. The second, which is dated Dec, 10, 2014, and describes a 60-day email retention policy, came the same month that a longtime Clinton aide requested that their email retention policy be shortened to 60 days.

@GOPPollAnalyst did not immediately respond to The Washington Post's request for comment, but it would appear that she's not quite done yet. The (yet-anonymous!) woman, who has said she's studying law "with concentrations in eDiscovery/eLitigation," has spent the past 36 hours tweeting constantly with conservative power-users and media outlets.

She credits the story's virality to the Twitter parody account @RepStevenSmith, who retweeted her findings shortly before they were picked up by Reddit.

"The power of Twitter," she posted Tuesday morning. "Thank you everyone. ... Great job to Twitter and Reddit users for blowing this up."

In the spirit of the upcoming Presidential Debate (and a nice bottle of wine) , the twins, Mavis and Flavia, decided to have their own debate last night. After a best two out of three arm and leg wrestling battle, Mavis earned the right to be Trump. It was only fitting because when Mavis was young she made marvelous towers out of Tinker Toys. Flavia would knock them down and then lie about it. Flavia began wearing pant suits at age three.

The debate started with Trump calling Hillary fat , smelly and a liar. Our moderator, Homer (our office geek) , tried to break up the fight and was taken to the emergency room for stitches . He's ok. After a moment or two of relative calm, Trump called Hillary a crock and a crook. Hillary responded with Trump was a fraud, never had built anything, and had an ugly wife. Finally our small audience laughed. It was becoming civil.

They went back and forth until Homer came back from the ER. Here's a summary of the remaining key points.

- on terrorism.

Hillary. We must ban pressure cookers.

Trump. If they kill us, we will kill them back.

- on immigration.

Hillary. We are all immigrants

Trump. You are stupid.

- on tax returns.

Hillary. I released mine.

Trump. I released mine to the US government (the IRS). When they finish up, you can see them.

- on jobs.

Hillary. What? (cough)

Trump. We'll have so many jobs that you will beg me to stop. Here's a cough drop.

- on guns

Hillary. White people with guns are the cause of crime and riots.

Trump. You are stupid.

Old TEX caught all of this on my video recorder. It went viral but our biased friends at Facebook, Twitter, and Google took it down. Imagine that !!!

Let's get ready to rumble. Have a deplorable day, TEX

@Fahrenheit's Wife Works For Clinton-Funded NGO Run By Mexican President. GotNews.

Washington Post reporter David Farenthold recently broke a story about alleged misdealings by the Trump Foundation charity.

Farenthold claims to have found evidence Donald Trump may have violated "laws against 'self-dealing.'" The Donald Trump campaign has categorically denied the claims.

At no point in the story did the Washington Post disclose that their reporter David Farenthold's wife works for a non-profit funded by the Clinton Foundation, with a Mexican president on the board of directors.

HOPEFULLY GEORGE SOROS' FALL ILLUSTRATES FOR THE NEXT GENS WHAT HAPPENS WHEN YOU TRY AND BUILD AN EMPIRE ON STOLEN PROPERTY, GRAFT, GREED, POWER-MONGERING AND CORRUPTION . . . IN SOROS' CASE IN THE NAME OF "LIBERALISM."

Polish MP Demands 'Pest' Soros Is Stripped Of Country's Highest Honour

by PRZEMEK SKWIRCZYNSKI Sep. 21, 2016 BREITBART LONDON

The recent deterioration of George Soros's public image has been astonishing. Following coverage of his subversive operations across the world - including his efforts to destabilise Poland - now even the establishment media have picked up on his destructive activities, with Bloomberg recently covering his plan to marginalise Israel. Similarly, the list of Soros's safe havens has also been shrinking dramatically.

Until recently, out of all the EU countries, only his native Hungary had the courage to suggest his carefully crafted image of 'global philanthropist' may be a smoke screen. The country's Prime Minister Viktor Orban pointed out that Soros is acting to destabilise Europe by supporting illegal migrants from the Middle East. Now his hold over Eastern Europe seems to be waning even further with Polish politicians also picking up on his suspicious activity.

Email comment by TEX:

Under President Jimmie " the wimp " Carter, the US stopped payment of funds owed to the Iranian government of the Shah of Iran when Islamists violently took over and held Americans hostage. Iran has since been an avowed enemy of the West and is the most active financiers of world terrorism. They have and will continue to kill Americans with their financial support.

All of a sudden, Obama and Hillary decided to make a one sided, ambiguous nuclear deal with Iran that shook the Middle East. We guaranteed that within 15 years they would have a big bomb ! Since the second week of this agreement, Iran has consistently violated the " red line" terms. We have yet to require observance of terms. To celebrate this wonderful deal and to get a few hostages back, Obama unilaterally decided to send the "Shah cash " plus interest back to Islamic Iran. We saw pictures of an unmarked private aircraft delivering millions of dollars in a mix of foreign currencies . Coincidentally, this is just what terrorism funding requires. Barack Hussein claims that we had to to send cash because the current banking restrictions did not allow wire transfers. Today it was reported that as much as a billion dollars was wire transferred prior to the cash transaction. He had no Congressional authority to do either transfer . This is treason. Hillary was an originator and was complicit in this entire process.

Now Hillary says that she, and only she, has the experience to deal with terrorists. " I sat in the situation room (except the night of Benghazi) " , she stated. Here's a fact . ISIS did not exist before Barack Hussein and Hillary took over. It was a JV , they said. Now she blames Trump for their expansion. He was building things and creating jobs. When did he poke the jihadists into a tithy ? What did he do to allow them to expand into 28 countries? Trump says her supposed "experience" and very poor decisions caused this

HOW TO FILE A FRAUD COMPLAINT AGAINST A UNIVERSITY

The following universities were announced as participants in Ohio State Provost Joseph A. Steinmetz's corrupt MOOC education initiative named "University Innovation Alliance" (UIA). We have identified the instructions and online forms you need to file a complaint with the participants. MOOC stands for "Massive Open Online Course."

You should complain about:

(1) the intellectual property theft of social networking source code from Leader Technologies, Columbus, Ohio that is the software engine running the UIA;

(2) the corruption at Ohio State University and OSU's collusion with Battelle Memorial Institute which helped steal the software being used by UIA; and

(3) the mistreatment of OSU Marching Band Director Jon Waters regarding fabricated Title IX charges that were used to pave the way for Steinmetz to announce UIA.

Universities pride themselves on protection of intellectual property.

Therefore, these universities cannot participate in this abuse of inventor copyrights, patents and trade secrets by The Ohio State Trustees and Administration. If these universities participate knowingly with Ohio State in its theft of intellectual property, then they are aiding and abetting the theft of intellectual property on a

mess. I agree.

CNN has become a Hillary Super PAC. Their reporters suggest that the key issue now is the "birther" issue. Trump is a racist, they say. No, Trump believes in a nation of laws. Barack Hussein's timeline was not well documented. There were questions. Both his father and step father were foreign Muslims. His mother and grand parents were avowed Communists. This deserved questions. And now with terrorism and Arab world conflagration, even more questions must be answered. Why should Obama/ Hillary want more Muslim unknowns in our communities? Why aren't they sending them to Hollywood or the Hamptons?

One last statement. The Obama elitist cabal has been in charge for eight long years. All areas of there terrible leadership have decayed. Nothing is better. Hillary helped cause it with her misguided beliefs. She can not fix it.....only a deplorable can. She belongs in jail, not the White House.

Have a deplorable day, TEX

MARK ZUCKERBERG TRIED TO STEAL THIS TECHNOLOGY, PETER BECK SAID ZUCKERBERG IS JUST LIAR AND A THIEF

Auckland-based Rocket Lab has unveiled what it says is the world's first battery powered rocket engine.

The engine on its Electron rocket will do away with expensive and complex gas generators and instead use small high-performance electric motors and lithium polymer batteries to drive its turbo pumps. The engine will also incorporate parts made by 3D printers to cut costs and speed up the manufacturing process.

The carbon-composite Electron would launch satellites for about \$6.6 million. To get satellites into space with other companies can cost more than \$100 million, Beck said.

The company also says its engine will be the first to use 3D printed parts for all its primary components including its engine chamber, injector, pumps and main propellant valves.

Arasmus, your comment makes no sense.

Facebook proved in federal court that Leader's patent is invalid. That verdict was upheld by the Federal Circuit and then the Supreme Court denied cert. So that verdict is now final and there is no legal avenue for Leader to change it. Additionally, the USPTO invalidated the patent, so Leader cannot assert it against any other party.

The same is true for that Van der Meer patent. The claimed inventor is deceased and his estate sold that patent to a holding firm. The court ruled that the firm waited to bring a claim, so any suit it barred by a legal doctrine known as laches.

I have no idea who this Dr. aranchulan is but a quick search shows she never sued Facebook. Her filings that I found however sure do show the work of a patent troll! In any event, any suit by her would now be barred by the statute of limitations.

So the bottom line here is that any party taking money from Facebook has no reason to be concerned. I am frankly kind of shocked at your comment. Mark Zuckerberg is donating billions of dollars toward an incredibly worthy cause. I don't see how you could take issue with that.

Staff. (Sep. 23, 2016). Top Clinton aide headed to PRISON? The Horn News / AP.

Democratic presidential candidate Hillary Clinton's email woes aren't done yet.

Clinton's previously tight-lipped former email chief Brian Pagliano, who set-up her controversial email server and refused to answer previous questions in public, may soon be facing a large fine – or even prison time – for ignoring a Congressional subpoena.

Could this threat of punishment finally motivate the email guru to spill the beans in public? Supporters of Republican presidential candidate Donald Trump certainly hope so.

A House committee voted on Thursday to hold Pagliano in contempt of Congress for his refusal to appear before them. The House Oversight and Government Reform Committee approved the contempt resolution on a 19-15 party-line vote. The resolution states that Bryan Pagliano, the computer specialist tasked with establishing Clinton's server while she was secretary of state, did not comply with two subpoenas ordering him to appear before the panel.

The committee chairman, Utah Rep. Jason Chaffetz, said the contempt resolution was forced by Pagliano's refusal to comply with the subpoenas.

The FBI said in a summary of its report released to Congress earlier this month that in December 2014 "a top Clinton aide" told Denver-based Platte River Networks to destroy an archive of e-mails from her private server, but the company failed to do so.

Then, after The New York Times reported in early March 2015 details of then-Secretary Clinton's use of a private server, the House committee investigating the deadly attacks on the American embassy in Benghazi, Libya, ordered that her e-mails be preserved, and subpoenaed those related to the attack. Three weeks later, the story goes, the engineer responsible for deleting Clinton's archive suddenly remembered the failed duty, and acted on it by deleting the e-mails with a program (wonderfully named BleachBit) that apparently rendered most of them unreadable.

Around the time of Paul Combetta's sudden recollection, Platte River officials joined a conference call with Hillary Clinton attorneys Cheryl Mills and David Kendall, according to the FBI report.

Email comment by GH/JM:

Martin Walsh. (Sep. 08, 2016). FBI Director Comey sat on board that donated \$81m to Hillary (spread this).

In July, everyone sadly remembers when FBI Director James Comey held his press conference indicating that he would be recommending no charges be brought against Hillary for using an illegal, secret, unsecured, private email server that was undoubtedly hacked by various foreign governments and hackers.

This month, on the eve of Labor Day weekend, the FBI tried to covertly release their official documents on their investigation into Clinton's e-mails as if they were hoping people wouldn't notice. Well, we did; and we are even angrier at the "system" now than we were before. As a reminder, Comey stated in July that "we [the FBI] can't establish... that she acted with the necessary criminal intent." The documents released from the FBI paint a much different picture.

FBI documents revealed that Hillary Clinton used not one, but three, private servers while Secretary of State and all were kept in her basement. The FBI determined that ZERO of her e-mails used encryption, and they stated that Clinton's server was successfully hacked in January of 2013. Comey also revealed that Hillary lost quite a bit of property containing some of our nations top secrets.

This is from an official document received from HSBC's site indicating that James Comey -

yes, THAT James Comey - resigned from HSBC's board of directors in 2013. Odd, so is it possible that Comey recommended no chargers against Hillary Clinton after the banks he was a board director on gave \$81 MILLION to Hillary's Foundation? Coincidence? Think again.

FBI Director Comey fabricated his "intent" defense for Hillary. Here's proof of her intent to obstruct justice and hide her criminal activity. People better get this proof off the web before it is scraped down by the dark forces.

IBW. (Sep. 23, 2016). Hillary Emailgate: How One Twitter User Proved The "Intent" That The FBI Missed After Months "Investigating". InvestmentWatch.

Earlier this week, a twitter user named "Katica" seemingly proved the "intent" of the Hillary campaign to destroy and/or tamper with federal records by revealing the Reddit thread of Paul Combetta (aka the "Oh Shit" guy; aka "stonetear"). But what's most crazy about this story is that "Katica" was able to discover the greatest "bombshell" of the entire Hillary email scandal with just a couple of internet searches while the FBI, with unlimited access to government records, spent months "investigating" this case and missed it all. The only question now is whether the FBI "missed" this evidence because of gross incompetence orbecause of other motivating factors?

Now, courtesy of an opinion piece posted on The Daily Caller, we know exactly how "Katica" pieced her "bombshell" discovery together...the folks at the FBI may want to take some notes.

Per the twitter discussion below with @RepStevenSmith, "Katica" discovered Combetta's Reddit thread on September 16th. But while she suspected that Paul Combetta and the Reddit user known as "stonetear" were, in fact, the same person, she had to prove it... [She did...]

THIRD BATCH OF FBI INTERVIEWS PROVE THAT HILLARY AND STAFF RELEASED HER EMAILS INTO THE PUBLIC THEMSELVES VIA GOOGLE UPLOADS

The FBI redacted the name of the person who was working with Hillary's aide MONICA R. HANLEY. The link to page 21 of the FBI release is included below:

"(U/FOUO) In February 2014 [REDACTED] worked with MONICA HANLEY to import an archive of HILLARY CLINTON's email from an Apple MacBook to the PRN-maintained [Platte River Networks] server hosted for the CLINTON EXECUTIVE SERVICES CORPORATION (CESC). This server hosted CLINTON's email account. HANLEY told [REDACTED] the MacBook contained old email that only existed on the laptop and HANLEY did not want to lose it. The email was stored in Mac Mail within folders labeled by year as 2009 Inbox, 2009 Sent Items, 2010 Inbox, 2010 Sent Items, etc [REDACTED] tried to effect the transfer of the archived email through a remote session using ScreenConnect, but the WiFi connection was intermittent and the MacBook repeatedly turned itself off. Therefore, HANLEY shipped the MacBook to [REDACTED] was unaware of a USB flash drive containing an identical set of the email files.

(U/FOUO) [REDACTED] tried various tools and Googled for solutions to effectively transfer the email files. After researching options, [REDACTED] transferred all of the email content to the "dummy" gmail account [REDACTED]@gmail.com [REDACTED] connected to the administrative server to the gmail account and used it as a bridge to move the email into a mailbox named themselves on the Exchange server. . .
