PAY-to-PLAY NEW WORLD ORDER
This timeline shows how insiders sell access & manipulate politicians, police, intelligence, judges and media to keep their secrets

Clintons, Obamas, Summers were paid in cash for outlandish speaking fees and Foundation donations. Sycophant judges, politicians, academics, bureaucrats and media were fed tips to mutual funds tied to insider stocks like Facebook. Risk of public exposure, blackmail, pedophilia, "snuff parties" (ritual child sexual abuse and murder) and Satanism have ensured silence among pay-to-play beneficiaries. The U.S. Patent Office is their toy box.

FIG. 1: Barack Obama is the fourth modern day Deep State globalist President who has worked to destroy America's Republic in favor of a U.N. controlled "one world government" run by unelected multinational corporations and international bankers. Hillary Clinton was his designated heir. He lied to the American people in too many ways to count at this point. He is a complete radical Islamic fraud. He even lied to us about being a Christian. Americans have been suckered by this Harvey smooth-mouth. He is now making plans in his new offices set up near the White House to destroy the new administration of Donald Trump, and the Republic itself. Unfortunately, we must expect more made-for-TV protests and "false flag" crises (Wizard of Oz: "Pay no attention to that man behind the curtain") fabricated by these globalists before these frauds are routed.

BREAKING NEWS MAR. 28, 2017: "STELLAR WIND" SURVEILLANCE SWEEPS UP DONALD TRUMP TOO, ALWAYS HAS... ON FACEBOOK, TWITTER, GOOGLE, EMAIL, PHONES, ETC. **TRAITOR TO THE U.S. CONSTITUTION**

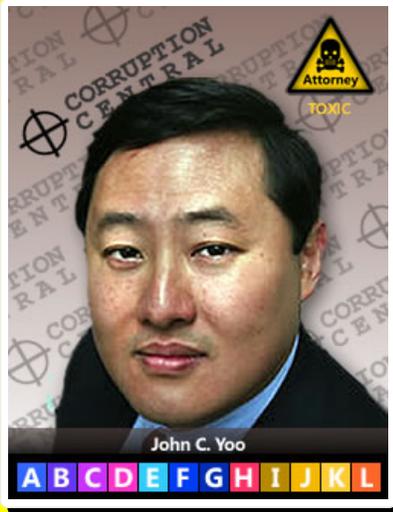

Project "Stellar Wind" was first authorized on Oct. 4, 2001 by President George Bush and conducts **mass surveillance on every American without a warrant**—including Donald Trump. The single attorney who gave the authorization was **John C. Yoo, a Harvard classmate of Barack Obama**. Both George Bush and Barack Obama have reauthorized the program many times. As recently as **Jan. 12, 2017**, with just days left in his presidency, Obama signed Executive Order 12333 to make it even easier for the intelligence agencies to share unfiltered, raw streams of information about innocent people.

Therefore, the argument that Obama did not order the wiretapping a.k.a. surveillance of Donald Trump is more fake news deception. He ORDERED it on everybody, including Donald Trump, his family, friends and colleagues. The parsing of words that he may not have said "Donald Trump", his chief political enemy, specifically, is ridiculous given the **FACTS of the Stellar Wind, surveillance program, or whatever it is called now, run out of the White House.**

Read the Office of Inspector General's (OIG) Jul. 10, 2009 assessment of the "Stellar Wind" illegal surveillance program:

- [Vol. 1 \(82 pgs, 19.3 MB\)](#)
- [Vol. 2 \(240 pgs., 38.5 MB\)](#)
- [Vol. 3 \(424 pgs, 118 MB\)](#)

The document provided by a FOIA release employed all the usual unscrupulous lawyer tricks. The heavily redacted documents were unsearchable. Key pages were heavily skewed (as seen below on perhaps the most damning disclosure in the 674 page document) to escape optical readers. All those impediments have been fixed in the download links above. The documents are now searchable. The arrogance of the Deep State is evident in the quotes below from the Inspector General's scathing report on the **absence of normal checks and balances for a subject as serious as our fundamental privacy protections in the Bill of Rights.**

JOHN C. YOO, Bush Deputy Assistant Attorney General, the **ONLY** legal official in the Justice Department who knew about the illegal mass surveillance of Americans for the first 1.5 years of the Stellar Wind program (not even his boss Jay S. Bybee knew)... that he had unilaterally approved. **Yoo's "novel" opinion was declared "legally and factually flawed," by the Inspector General (OIG. Vol. 3, p. 420).** **The IBM Eclipse Foundation** was formed at the same time to hijack digital networks, thus ushering in radical Islamic jihad and thus eclipsing the Constitution.

Inspector General's assessment of project Stellar Wind:
 Yoo: "the government's national security interest outweighed the individual's privacy interest"

"Only a single Department attorney [John C. Yoo] analyzed the legal basis for the program during the first year and a half of operation ... the Department determined [in mid-2003] that this attorney's initial legal analysis was **legally and factually flawed.**" (OIG, Jul. 10, 2009).

international borders and that those responsible for the States fell within the "border crossing exception." Yoo further opined that electronic surveillance in "direct support of military operations" did not trigger constitutional protection against illegal searches and seizures, in part because the Fourth Amendment is primarily aimed at curbing law enforcement abuses. Finally, Yoo wrote that the electronic surveillance described in the Presidential Authorizations was "reasonable" under the Fourth Amendment and therefore did not require a warrant, i.e., in this situation the government's national security interest outweighed the individual's privacy interest.

ORIGINAL POST

(MAR. 26, 2017)—You cannot make this stuff up. Readers are encouraged to follow these facts where they lead, then act to preserve our Republic from this Deep State takeover attempt.

Facebook's Mark Zuckerberg is growing increasingly bold in his arrogance. He forces native Hawaiians off their land. He builds high fences around his Silicon Valley compound while decrying a border wall. He implements Chinese-style censorship while declaring Facebook to be transparent. This arrogance appears to emerge from a belief that his crimes will never be punished and that he is above the law.

The House Intelligence Committee should investigate Zuckerberg and analyze his 28 stonewalled computers, now.

Yesterday, we asked Michael McKibben, the true inventor of social networking and founder of Columbus-based innovator Leader Technologies, Inc. to review documents from [WikiLeaks Vault 7: DEEP MATTER](#).

Specifically, we asked him about a leaked C.I.A. document named "[Triton 1.3 User Guide](#)." According to the guide, "Triton is an automated implant" designed to hijack target Mac computers for data extraction. In more familiar terms, Triton is very sophisticated malware used by the C.I.A. to completely takeover Apple computers.

The Triton 1.3 User Guide describes how the C.I.A. infects Apple Macs (other related user guides target iPhones) via “Listening Posts” in the Internet to which “Beacon” programs installed on smart phones and computers send data and receive instructions for further intrusion of an “infected target” device.

McKibben said “just substitute the words ‘social platform’ for ‘Listening Post’ and ‘app’ for their ‘beacon’ and it is easy to understand that the Triton 1.3 manual describes illegal surveillance using social apps in the Internet.”

Also identified in the document is [DROPBOX](#) as the “cloud” data repository for stolen user data.

C.I.A.'S OWN DOCUMENT ADMITS ILLEGALITY OF TRITON 1.3

“The manual even admits that the C.I.A. knows what they are doing is illegal.”

“They use the word ‘Exfiltration’ in one of their headers. Exfiltration means unauthorized access to a computer and data theft, generally by cyber criminals,” McKibben continued.

He confirmed that Leader’s invention is described in the Triton 1.3 document.

McKibben said “earlier we obtained whistleblower evidence that proves C.I.A. agents had orchestrated the theft of our social networking invention in 2001—at the founding of the IBM Eclipse Foundation on Nov. 29, 2001 with a \$40 million IBM donation to promote “open source.” See [TIMELINE for People you trusted are now hijacking the Internet.](#)

McKibben added, “almost anyone in technology knows that using the words ‘IBM’ and ‘open source’ in the same sentence is a joke. IBM

STOP FACEBOOK PROPERTY THEFT

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOV ET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

owns more patents than any other company on the planet. They are anything but open source where everything is free. So what was Eclipse giving away if not IBM's secrets? Leader's stolen invention, obviously. Hindsight is 20-20.

Clearly, IBM formed the Eclipse Foundation to distribute our social networking invention to the technology world so long as those companies gave the IBM Eclipse C.I.A. handlers a backdoor key for mass surveillance. Most assuredly, these C.I.A. rogues held out the promise of future government contracts in exchange for these technology companies turning a blind eye to their abuse of the Bill of Rights."

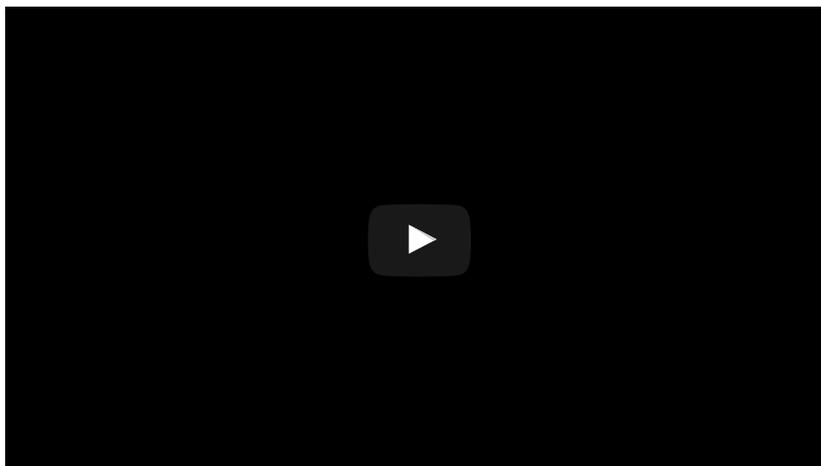

"Another 'coincidence' is the fact that our patent attorney in 2001, James P. Chandler, was also IBM's chief outside intellectual property counsel. IBM's inside counsel at the time, David J. Kappos, was appointed Patent Office director in 2009 by Obama," said McKibben.

IBM Eclipse Foundation started giving away Leader's social networking invention in 2001, just as the NSA fired William Binney, the architect of the NSA's lawful surveillance system.

IBM ECLIPSE GAVE AWAY LEADER'S INVENTION IN 2001, WHILE NSA FIRED BINNEY

NSA whistleblower William Binney points to 2001 as the time when the NSA went rogue. McKibben continued "it seems obvious that the rogue C.I.A. group who stole my social networking invention wanted to replace William Binney's earlier platform architecture with ours." Binney 'retired' in Oct. 2001, just one month before the IBM Eclipse Foundation started with IBM, Chandler, Kappos driving the bus."

McKibben said that it was well known at the time that Chandler was also consulting closely with then Assistant Attorney General Eric Holder.

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's Leader v. Facebook attorney Gibson

McKibben said investigators have been hard at work in the days since the U.S. Supreme Court refused to consider the Leader v. Facebook appeal in Jan. 2013, thus protecting Facebook.

“Being red-blooded Americans who inherently respected our courts and judges, we were stunned that our highest judges would just ignore the law and precedent in favor of Facebook’s crimes that we had just PROVED with mountains of evidence and expert testimony. The lower federal court jury actually RULED that Facebook was GUILTY of infringing all eleven patent claims. What we witnessed was patent theft by the judiciary!”

“We were suckered by Bill Clinton's chief intelligence and national security attorney, James P. Chandler, who pretended to be our attorney while he was sucking us dry.”

Leader v. Facebook corruption investigation encountered shadowy figures darting out of rooms for years. Whistleblowers helped put names and faces to these intelligence agents and their globalist minions. Photo: Spies.

By way of metaphor, McKibben said about their research to figure out where this corruption led, “for the longest time we would open the door on a subject area in our investigation, like Zuckerberg’s 2003-2004 computers and Harvard emails, and catch glimpses of shadowy figures darting out of the room. This has happened maybe 500 times now.”

Each time, the researchers would note the occurrence on a jigsaw puzzle piece, lay it on the table and move on.

Dunn LLP. She credits this firm with the reason why all Street banker has gone to... [Click here](#) to read her article [exposes whistleblowers.](#) Examiner.com, Apr. 10, 2012. Here's an excerpt:

“Skillful manipulation of the firm’s extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage.”

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ulyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. Leader v. Facebook judicial corruption investigation was akin to piecing together a large jigsaw puzzle.

McKibben said that when they added the new research to evidence they already had, some pieces started fitting together. Patterns emerged. Our suspicions began to grow as we continued to focus on hard evidence.

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics,

uncontrolled immigration, The Internet of Things (IoT), new world order, encryption backdoor keys, new communism, mind control, eugenics, wiretapping, warrantless surveillance, deceptive licensing, media manipulation, election rigging, Glass-Steagall, Mena, net neutrality, election rigging, fake news, ICANN, TPP, TiSA, FISA Court and corruption.

values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

ZUCKERBERG'S 28 COMPUTER HARD DRIVES WILL SHOW COLLUSION WITH THE ROGUE C.I.A.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

During the Leader v. Facebook trial—all through 2009 (while Hillary Clinton was ceding State Department control to George Soros)—Zuckerberg and Facebook stonewalled providing Leader's attorneys access to Zuckerberg's 2003-2004 computer devices and emails.

CURRENT EDITORIAL FOCUS

Judicial Watch recently uncovered secret contracts related to that same time. Then Secretary of State [Clinton contracted with Facebook](#) to write election manipulation software—which is obstruction of justice.

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

On the eve of Facebook being ordered to produce Zuckerberg's 2003-2004 computers in late 2009, Facebook suddenly changed attorneys to Cooley Godward LLP (Obama's energy stimulus promoter). Then, the year-long stonewalling excuses magically transformed into "we cannot find them." Judge Leonard P. Stark who presided over the Leader v. Facebook trial let them get away with it.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

Nonetheless, Leader proved patent infringement at the federal trial on 11 of 11 claims in July 2010. However, Judge Leonard P. Stark then fabricated facts and ruled for Facebook anyway. Stark's technicality is laughable if it were not so sad. He pulled out a Civil War era criminal decision to justify his actions—a law that had never in history been applied to a civil patent case. His best argument was that it was "not impermissible" for him to use the 120-year old case for the first time in his unprecedented way—a way that defied well-settled patent precedent.

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

Leader appealed to the Federal Circuit Court of Appeals in Washington, D.C. that hears all patent appeals. Hindsight shows that the Federal Circuit unfortunately has many globalist actors. They continued to protect Facebook even though all three judges had Facebook financial interests and cozy relationships with Facebook's lawyers. Facebook's Gibson Dunn LLP appeal attorney, Thomas G. Hungar, had even REPRESENTED those same judges in an ethics complaint that year (2010).

ZUCKERBERG'S MAGICAL RESURRECTION OF HIS 28 "LOST" COMPUTERS

AFI has been supporting Donna and is now picking up the main Leader v. Facebook coverage (she will continue coverage as well).

Anonymous Posts Are Welcomed! Blogger has more

Two days after the Federal Circuit ruling against Leader, 28 Zuckerberg computer devices and Harvard emails magically surfaced in another case against Facebook—Ceglia v. Zuckerberg.

Overnight the Facebook story on Zuckerberg’s hard drives flipped 180 degrees from being “lost” to having 28 of them! Why Facebook thought they were safe from Ceglia’s claims in disclosing the 28 computer devices is baffling. Ceglia is a victim of the C.I.A./Facebook treachery, just like Leader. It is clear that Zuckerberg signed two contracts with Ceglia to stall him from introducing a college “facebook” at Harvard until Zuckerberg / IBM / C.I.A. were ready to launch with Leader’s invention, which they did on Feb. 4, 2004.

FACEBOOK’S CROOKED ATTORNEY: GIBSON & DUNN LLP

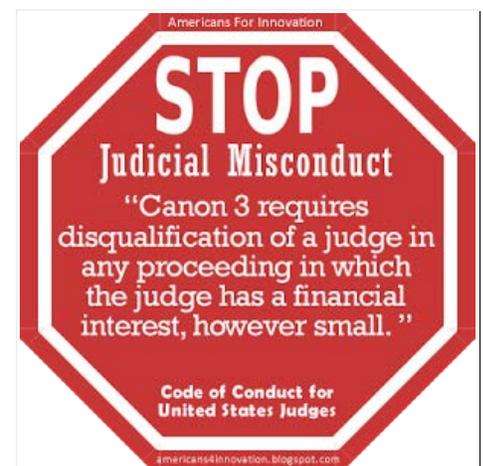

More telling, Zuckerberg’s 28 computers and Harvard emails were in the custody of Gibson Dunn LLP, Facebook’s appeal attorney, the entire time. They were never lost as Facebook claimed at the Leader v. Facebook district court trial. This is still more proof of fraud and obstruction of justice.

CODE OF CONDUCT FOR U.S. JUDGES

“CANON 2: A JUDGE SHOULD AVOID IMPROPRIETY AND THE APPEARANCE OF IMPROPRIETY IN ALL ACTIVITIES”

GALLERY OF JUDICIAL MISCONDUCT

Mark Zuckerberg / Facebook's attorney Gibson Dunn LLP made fraudulent statements to federal courts multiple times in Leader v. Facebook about the existence of 28 computer devices and Harvard emails held in custody by Gibson Dunn, as eventually disclosed in Ceglia v. Zuckerberg in 2012. Photo: Unknown.

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in Leader Techs, Inc. v. Facebook, Inc., 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader

from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the Pfaff v. Wells Electronics, Inc. test for on-sale bar, even after instructing the jury to use it. (See [that Jury Instruction No. 4.7](#)

here.) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

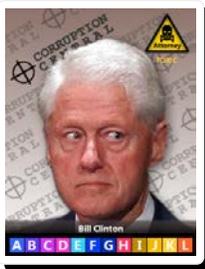

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See [analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO](#).

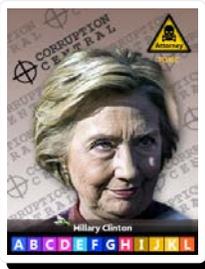

Judge Lourie also failed to apply his own law-test in Group One v. Hallmark Cards to the evidence. After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and

CLINTON, PODESTA, SUMMERS, SANDBERG: THE REAL RUSSIAN COLLUSION

William J. Clinton

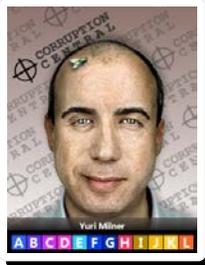

Hillary R. Clinton

The facts show that three Clinton and Obama confidantes, Larry Summers, John Podesta and Sheryl K. Sandberg have been intimately involved with certain Russian oligarchs since the early 1990's—before Vladimir Putin became President. These

people then played pivotal roles in the emergence of free Email and free social networking in Russia and America. Since the election of Donald Trump, these same people are now moving their illegitimate companies toward Orwellian levels of free speech censorship.

Prominent among these relationships are two Russian oligarchs, Yuri Milner and Alisher Usmanov. Both Milner and Usmanov were multiple billion dollar winners in the Facebook initial public offering in May 2012. While one may expect corruption from these Russian oligarchs as their way of life, Summers, Podesta and Sandberg are supposed to follow U.S. laws. See [Hillary's Secret Offshore Empire](#).

Alisher Usmanov

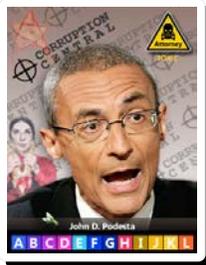

SUMMERS' "BIG BANGERY" AND "GLOBALBALONEY" HARVARD "ADVICE" TO A COLLAPSING SOVIET ECONOMY (UNDER ANATOLY CHUBAIS (RUSNANO, PRE-PUTIN))

Sheryl K. Sandberg

Larry H. Summers

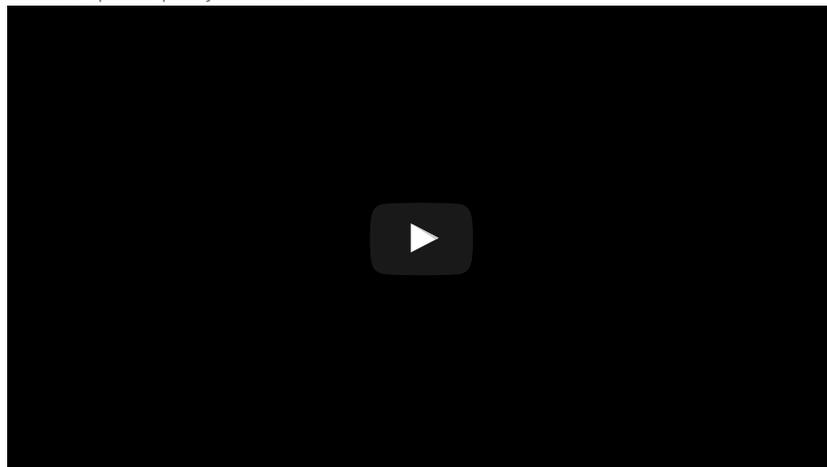

John D. Podesta

Economist David Ellerman wrote sarcastically about Summers' "ersatz policy" for

World Bank privatization of the former Soviet economy in the early 1990s. Hindsight shows that Summers lined his pockets handsomely while his reckless recommendations for the Soviet economy failed miserably and gave rise to the current system of corrupt Russian oligarchs.

Summers hired Milner along with his former student, Sheryl K. Sandberg, to work for him at the World Bank, after he left Harvard in 1991.

Sandberg followed Summers to the Treasury Department as his chief of staff after Bill Clinton's election in 1993. Curiously, in late 1992—**just six weeks before Bill Clinton's election**—**George Soros almost crashed the British Pound** and pocketed \$1 billion into his hedge fund and his new Open Society Foundations. See also **George Soros: The epic global meddler**.

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. [See disclosure of substantial holdings in Facebook and Facebook-related stocks](#). Judge

Moore failed to follow the long-held precedent for testing on-sale bar evidence in *Pfaff v. Wells*

Electronics, Inc.—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012).

Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. [See Motion to Disclose Conflicts of Interest](#). Judge

Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr.

MILNER'S BANK MENATEP ACQUIRED \$14.8 BILLION FOR THE GLOBALIST AGENDA

Milner moved back to Russia, then popped up in the late 1990s' enmeshed in two banking scandals—about the time then Treasury Secretary Summers obliterated Glass-Steagall banking controls. Milner was implicated in the diversion of \$4.8 billion in IMF funds and \$10 billion in Russian mob money laundering by the Russian Bank Menatep. See [Congressional Briefing](#).

TAKEOVER OF EMAIL AND SOCIAL NETWORKS IN RUSSIA & AMERICA—GMAIL, MAIL.RU, FACEBOOK, VK

By 2004, Sandberg was assigned to start Google Gmail, then became COO of Facebook in 2008. Milner was assigned to start Mail.ru, the Russian equivalent of Gmail, then later VKontakte (VK), the Russian equivalent of Facebook. The coincidences are legion among this clutch of globalists. **Clearly, control of email and social networking was key to their strategy.**

It is now evident that a rogue C.I.A. group, begun under Bush Sr. (1989-1993), then got organized under Clinton (1993-2001), shifted to the new social networking mass surveillance under Bush (2001-2009), then exploited the platform to amass great wealth and control under Obama (2009-2017).

Clearly, the Milner-USmanov-Summers-Clinton-Sandberg Russian connections have been corrupting world digital networks for a very long time. The WikiLeaks documents prove they have been spying on everyone for decades. Therefore, this "Russians did it" accusation against Donald Trump and his supporters is absolute nonsense.

These Clinton-esque associations with Russia occurred even before Vladimir Putin came to power as President of Russia.

ZUCKERBERG'S 28 HARD DRIVES WILL REVEAL THE BEGINNINGS OF DEEP STATE'S MASS SURVEILLANCE

What will Zuckerberg's 28 hard drives and Harvard emails reveal?

1. Real Russian Connections: They will prove the real Russian connections that formed the basis of the Deep State shadow government's mass surveillance network currently being criminally

Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. [See a full analysis of these events at Donna Kline Now!](#) Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's Pfaff v. Wells Electronics, Inc. test for on-sale bar evidence, which included even the Federal Circuit's own Group One v. Hallmark Cards, Inc. test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie helped write that opinion. [Group One test omission analysis.](#)

Clerk of Court Jan Horbaly, U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court's ruling was challenged by an amicus curiae brief revealing clear mistakes of law and new evidence. [See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in Leader v. Facebook.](#) Mr. Horbaly failed to disclose his conflicts of interest and close associations with numerous Facebook attorneys and law firms, as well as his close association with one of Facebook's largest shareholders, Microsoft, who is a Director of The Federal Circuit Bar Association where Mr. Horbaly is an ex officio officer. Additionally, the DC Bar revealed in a written statement that Clerk Horbaly is not licensed to practice law in the District of Columbia. [Editorial: What does that make the Federal Circuit with its location within in a stone's throw of the White House? A self-governing state?]

used against Donald Trump and his supporters, including Roger Stone, General Michael Flynn, Paul Manafort, Sen. Rand Paul and others.

2. Facebook's rogue C.I.A. handlers: The identity of his C.I.A. handlers will be revealed

Prediction: This will include the "PayPal Mafia" who were in bed with the Deep State, including James W. Breyer (Accel Partners), Reid Hoffman (LinkedIn), Peter Thiel (NSA/Palantir), Gilman Louie (C.I.A.), Joe Lonsdale (Palantir), Matt Choler (Instagram), Battelle Memorial Institute/John Kasich/IBM/Ohio State University (M.O.O.C.), National Venture Capital Association (NVCA), In-Q-Tel (C.I.A.), IBM, and The Eclipse Foundation.

3. Deep State Controls over Mass Surveillance: How the Deep State implemented their controls using Facebook, Google and others.

4. Reveal stolen software used by the Deep State: It will reveal that The IBM Eclipse Foundation software code base was stolen from Columbus innovator Leader Technologies and others, including Dr. Lakshmi Arunachalam, former director of network architecture for Sun Microsystems.

5. How the Binney NSA system was dismantled: Evidence of the conversion of the NSA systems away from the LEGAL designs of NSA whistleblower William Binney and toward the ILLEGAL designs of the rogue C.I.A. / IBM Eclipse Foundation and social networking.

6. Mainstream Media Collusion: The collusion of the mainstream media and Hollywood in promoting the fabricated story of Facebook's supposed origins at Harvard.

7. Law Firm Collusion: The collusion of the law firms who perpetuate this criminality.

PREDICTION:

A full forensic evaluation of Zuckerberg's 28 stonewalled Facebook hard drives and Harvard emails will likely blow the lid off of the Deep State shadow government's hijack of the digital world. It will also reveal the nature of their uncontrolled spying and their collusion with Russian actors, including those before Vladimir Putin took power.

It will help prove that the current "The Russians Did It" accusation is yet another Alinsky-esque tactic against one's opponent, to take the focus off the fact that one is doing exactly that oneself.

Congress needs to stop sitting on this destruction of our Republic and get these scoundrels locked up.

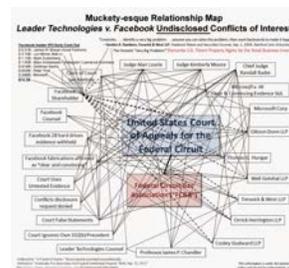

Judge Randall R. Rader, U.S. Court of Appeals for the Federal Circuit, chief judge responsible for the (mis)conduct of his judges and Clerk of Court in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. Chandler. [See analysis of Judge Rader's undisclosed conflicts of interest in Leader v. Facebook.](#) Judge Rader also did not stop his judges from creating new arguments and evidence for Facebook in the secrecy of chambers—after they had debunked all of Facebook's evidence on appeal, which is a clear breach of constitutional due process.

Borders Are Digital Tool

While the citizens are concerned about the physical borders and the 'flood' of illegal immigrants, there is another border that is just as insecure as the physical one, that being the 'Internet', 'microwave', and 'satellite' borders of our digital world.

I've attached a video that shows a map of the 'Physical Internet' in the USA. It is also notable that these 'networks' are connected to undersea trunk lines, and these connect the 'global community' at the theoretical speed of light.

In the movie, each 'blue square' is a 'node' which serves as a 'hub' to which other communication lines such as 'copper', 'microwave', 'cell towers', and 'satellite COM' (like at Brewster). Each of these hubs become 'rings' that create secondary, and trinary, routes for our digital communication packets.

The overseas cable connections are linked in multiple places, thus connecting Asia, Europe, Canada, and Mexico to the USA. Sadly, these 'border hubs' are now wide open for foreign intrusion for the cost of connectivity, which is cheap, especially if you are an NGO in another country with an 'agenda'.

I find it totally unacceptable, that the USA is not a "domain", call it 'domain.USA', which provides a modicum of security which is the actual function of a 'domain'. What is even more disturbing, is that under our current policies, more tax dollars are spent 'spying on our own citizens' than are spent 'protecting the same citizens' from foreign intrusion.

There is but one conclusion that can be made from this situation, and that is that the USA has been overthrown by 'foreign' entities who have leveraged the "Internet of Things (IoT)" into the greatest spy network ever conceived. It delivers more power to the spy masters, the government, and the 'elites' who control the situation more than ever dreamed by Hitler, Stalin, or Mao.

This is being performed in spite of the sacred 4th Amendment protections that are

people and their organizations to corrupt American justice and commerce cannot be tolerated. Vigilance. We will expose them. See [Congressional Briefings](#) (currently being updated after Scribd censored the documents on Fri. Mar. 7, 2014).

Email comment from JM, continued:

Internet policies, regulations, and legislative actions:

1. First step is to recognize that this is too large of an issue for one individual. However one individual can start the awareness process, but ultimately it takes a team to make change.
2. Recognition of the unconstitutional nature of 'domestic surveillance.' If 'We The People' don't care about their rights, or do not have an awareness of them, the erosion will continue with an end game of 'serfdom' with no right to privacy or respect for human dignity or private property. This road to hell always leads to the same action...death to anyone who opposes tyranny, normally millions.
3. Begin the process of educating the masses about 4th Amendment rights.
 - a. What is the purpose of the 4th Amendment?
 - b. What were the conditions of man before these rights were deemed from God?
4. Begin the process of discovery of the violations in legislative bills, both past and present? Bring this to the attention of all elected officials in your local government chain. Educate the servants, and hold them accountable.
5. With these actions begin the slow boil of the congressional elected to repeal the Patriot Act, which is the foundational opus of evil that inculcated the slide into digital tyranny.
6. Finally defund the infrastructure of internal spying, and build a digital wall on every node that allows foreign access to 'domain.USA'.

The shadow government is considering using its “continuity of government” (COG) mechanism already in place to overthrow the entire Trump administration.

The COG procedures, which were first drafted during the Cold War to ensure the government’s survival during a nuclear war, mesh well with the establishment narrative that the 2016 presidential election was “stolen” by “Russian hackers.”

“...If the election had been stolen, Pence’s place as president would be no more legitimate than that of Trump,” wrote Norm Ornstein of the neo-conservative American Enterprise Institute for Public Policy Research. “After Pence – Paul Ryan, the speaker, followed by Orrin Hatch, the president pro tem, followed by Secretary of State Rex Tillerson.”

Chinese government firms have expressed interest in developing land around the Panama Canal, furthering the government’s desire to acquire control of strategic waterways around the world.

The Panama Canal Authority, which has managed the canal since the United States ceded ownership to the Panamanian government in 1999, will officially open approximately 1,200 hectares of land around the waterway to development into a logistics park by the end of this year, according to Chief Executive Jorge Quijano.

“We have been talking to people here in China,” he said ahead of a meeting with the canal’s advisory board in Shanghai.

The Panama Canal Authority is expected to parcel out the land and grant concession agreements of up to 40 years.

Mar. 27, 2017. Leader of Women’s March stripped of U.S. citizenship, deported. The HORN News.

The organizers and speakers in charge of the Women’s March in Washington, D.C. in January was a who’s who of liberal whack-jobs.

For example, one of the key note speakers, Donna Hylton, once kidnapped, tortured and murdered a gay man (no, really).

Another, Linda Sarsour, was exposed for having deep ties to Islamic terror organizations.

Trump supporters cried foul and said these speakers and organizers weren’t patriotic Americans, but instead were looking to cause trouble.

Turns out, they were right. Friday, one of the organizers of these leftist causes was stripped of her U.S. citizenship and, following a plea hearing on Apr. 25th, will be deported from the country for lying to immigration officials about her role in a radical Islamic terror group.

Prosecutors said Rasmae Yousef Odeh – who was also the mastermind behind the failed “Day without Women” protest – had lied and covered up her past terror conviction twice when she applied for U.S. citizenship.

John Podesta, former Secretary of State Hillary Clinton's 2016 national campaign chairman, may have violated federal law by failing to disclose the receipt of 75,000 shares of stock from a Kremlin-financed company when he joined the Obama White House in 2014, according to the Daily Caller News Foundation's Investigative Group.

Joule Unlimited Technologies – financed in part by a Russian firm – originally awarded Podesta 100,000 shares of stock options when in 2010 he joined that board along with its Dutch-based entities: Joule Global Holdings, BV and the Stichting Joule Global Foundation.

When Podesta announced his departure from the Joule board in January 2014 to become President Obama's special counsellor, the company officially issued him 75,000 common shares of stock.

The Schedule B section of the federal government's form 278 which – requires financial disclosures for government officials – required Podesta to “report any purchase, sale or exchange by you, your spouse, or dependent children...of any property, stocks, bonds, commodity futures and other securities when the amount of the transaction exceeded \$1,000.”

As such, Hillary's activities with her campaign manager and longtime advisor, John Podesta, have likely risked national security. It is becoming evident that Hillary needed her private email servers to hide her Russian collusion, among other things.

Jeremy Hodges. (Mar. 27, 2017). Dr. Death' Ended Barclays Trader's Job 2 Days Before Bonus. Bloomberg.

A former Barclays Plc trader on trial for manipulating a key interest-rate benchmark said a human resources manager known as "Dr. Death" delivered the final blow to his career, months after he was first interviewed by the bank's lawyers.

Ryan Reich told jurors in London Monday that he was suspended by the HR official, nicknamed "Dr. Death" because of his reputation for firing people, two days before bonuses were paid out in February 2010. The meeting took place four months after Barclays executive Harry Harrison had first called him into a meeting with lawyers about labor-rigging, which Reich said had "freaked" him out.

Reich and colleague Stylianos Contogoulas, 45, who were on the New York and London swaps trading desks at Barclays, are charged with conspiring to manipulate the U.S. dollar London interbank offered rate from 2005 to 2007. The rate is tied to a variety of financial products, including loans and mortgages.

Ron Paul. (Mar. 27, 2017). DID THE GOVERNMENT SPY ON TRUMP? OF COURSE. IT SPIES ON ALL OF US!

President Trump should use Obama admin's surveillance as a teaching moment

There was high drama last week when Rep. Devin Nunes announced at the White House that he had seen evidence that the communications of the Donald Trump campaign people, and perhaps even Trump himself, had been "incidentally collected" by the US government.

If true, this means that someone authorized the monitoring of Trump campaign communications using Section 702 of the FISA Act. Could it have been then-President Obama? We don't know. Could it have been other political enemies looking for something to harm the Trump campaign or presidency? It is possible.

There is much we do not yet know about what happened and there is probably quite a bit we will never know. But we do know several very important things about the government spying on Americans.

"This decision is not surprising in an age where pro-homosexual propaganda is foisted upon every movie and even awarded and celebrated. It is a subtle yet clearly deliberate attempt to normalize homosexual behavior, starting with our children.

WASHINGTON, D.C. - Behind the scenes Google has been pushing for key administration positions for Republican-lite figures Google has reason to believe will work to block any anti-trust action against the tech giant, despite Google's continued censorship of conservative news, including blocking Infowars.com stories.

Infowars.com has previously reported that Google guru Eric Schmidt, a Democratic Party operative who wanted to become Hillary Clinton's chief outside advisor in the 2016 presidential campaign, has been running a charm offensive with the Trump family, aimed at making sure the Trump administration does not begin an anti-trust investigation aimed at breaking up the company.

The FCC is directed by five commissioners appointed by the president and confirmed by the U.S. Senate for five-year terms, with the restriction that only three commissioners may be members of the same political party.

On Jan. 23, President Trump elevated Ajit Pai, a staunch opponent of net neutrality rules, to be FCC chairman.

MICHAEL MOORE IS GOING TOTALLY MENTAL

Daniel Nussbaum. (Mar. 28, 2017). Michael Moore: Trump Caused ‘Extinction of Human Life on Earth’. Brietbart.

Michael Moore sounded a dire warning on his social media accounts Tuesday, exclaiming that March 28, 2017 would be remembered as the day President Donald Trump caused the beginning of the planet-wide extinction of humanity.

In a post to his Facebook page, the 62-year-old documentary filmmaker and liberal activist accused Trump of declaring “war on the planet” after the president signed an executive order Tuesday rolling back several key Obama-era regulations concerning energy production.

“Historians in the near future (because that may be the only future we have) will mark today, March 28, 2017, as the day the extinction of human life on earth began,” Moore wrote on his Facebook page.

“This is a defining moment in the history of mankind. By signing these executive orders today, Trump is declaring an act of war on the planet and its inhabitants,” he continued. “The one silver lining here is that Trump can’t kill the planet; the planet wants to live and has a long history of wiping out any real or perceived threats.”

Remember 9th Circuit Judge Michelle Y. Friedland that ruled against President Trump's immigration executive order? The Judiciary Committee finally released a copy of his financial disclosure.

Friedland, Michelle T. (Jan. 16, 2014). Financial Disclosure (Jan. 01, 2012 to Jul. 18, 2013 submitted Aug. 01, 2013). Senate Judiciary Committee Confirmation Hearing. 113th Congress, 2nd Session. Provided by the Senate Judiciary Committee Mar. 30, 2017.

This report PROVES that Friedland is a globalist minion. Here's a quick summary of her holdings in KNOWN Deep State globalists out to destroy America:

1. Worked at globalist law firm Munger, Tolles & Olson LLP in San Francisco.
2. She was a director of a Silicon Valley political recruiting organization named "Silicon Valley Campaign for Legal Services."
3. Her husband worked for Cisco surrogate Tarana Wireless, Unc.
4. Friedland has the following holdings:

VANGUARD, 31 holdings
 FIDELITY, 2
 T.ROWE PRICE, 1
 NORTHROP GRUMMAN, 1
 BANK OF AMERICA, 1
 CISCO, 1
 JOHNSON & JOHNSON, 1
 TEXAS INSTRUMENTS, 1
 3M, 1
 VERIZON, 1
 WAL-MART, 1

Bottom line is that considering:

- (1) VANGUARD was a large Clinton Foundation contributor who also sponsored Bill Clinton speechEs,
- (2) Friedland's evidently biased financial holdings, and
- (3) Friedland's husband's relationship to globalist CISCO. . .

Friedland is clearly all in with the globalist forces and had no business hearing President Trump's appeal.

READERS SHOULD KNOW THAT PERKINS COIE (PODESTA'S LAWYER) IS THE CLINTON'S AND FACEBOOK'S FAVORITE MOB LAWYER. TOTALLY CORRUPT. DAILY CALLER SHOULD IGNORE THIS THEATER FROM PROVEN BULLIES.

John Podesta slapped the Daily Caller with a cease-and-desist letter on Wednesday after the conservative news outlet published a story about the former Clinton campaign chairman and Obama counselor.

The letter sent to publisher Neil Patel by Podesta's counsel, Marc Elias, singles out a March 26 article titled, "EXCLUSIVE: John Podesta May Have Violated Federal Law By Not Disclosing 75,000 Stock Shares." In it, reporter Richard Pollock wrote that Podesta "may have violated federal law by failing to disclose the receipt of 75,000 shares of stock from a Kremlin-financed company when he joined the Obama White House in 2014."

Elias said the article is "as you know, entirely false." He said that Podesta did nothing wrong, despite numerous assertions in the article indicating otherwise.

The letter demands the Daily Caller "immediately cease publication of these false and libelous claims." It also demands that a correction to the story be published, clarifying that Podesta met his financial obligations.

Digital security and its discontents—from Hillary Clinton's emails to ransomware to Tor hacks—is in many ways one of the chief concerns of the contemporary FBI. So it makes sense that the bureau's director, James Comey, would dip his toe into the digital torrent with a Twitter account. It also makes sense, given Comey's high profile, that he would want that Twitter account to be a secret from the world, lest his follows and faves be scrubbed for clues about what the feds are up to. What is somewhat surprising, however, is that it only took me about four hours of sleuthing to find Comey's account, which is not protected.

Jamie White. (Mar. 30, 2017). STATE DEPARTMENT STAFFER CAUGHT SPYING FOR CHINA - Staffer served under Clinton, Bush and Obama. Infowars.

A State Department employee with top secret clearance took payments to spy for China for the last five years, according to Justice Department officials.

The staffer, Candace Claiborne, is being charged with "obstructing an official proceeding and making false statements to the FBI, both felony offenses, for allegedly concealing numerous contacts that she had over a period of years with foreign intelligence agents," said a Justice Department memo.

Claiborne is accused of repeatedly contacting two Chinese intelligence agents, who provided her with gifts and money, including "cash wired to Claiborne's USAA account, an Apple iPhone and laptop, Chinese New Year's gifts, meals, international travel and vacations, tuition at a Chinese fashion school, a fully furnished apartment, and a monthly stipend," the press release said.

STOP THE PRESS, TRUMP ORDERS ARRESTS

The Arrests have begun.

Yesterday Candice Claiborne - the The Big "H" s State Department Appointee in charge of South Western Russia (Chechnya, Dagestan and Georgia) was charged in Federal Court with failing to report contacts with Chinese Agents who then provided her with gifts in exchange for Diplomatic and Financial Information.

A you recall - under her tenure there were large shipments of weapons to this South Western Russian States which caused certain Terrorist Groups to go into these states and kill allot of Civilians.

In addition - the 400 Tons of Military Equipment Ambassador Christopher Stevens sold to the Muhujadeen Al Kaleek in Libya, taking the Commission for these sales and causing the BIG H to kill this US Ambassador, were directly linked to the deaths of US Special Forces, Russian civilians and countless deaths in Syria and Libya

Ben Shapiro. (Mar. 30, 2017). Former Obama Official: Intelligence Community Raced To Pump Out Classified Info About Trump Team. Daily Wire.

While the media fulminates over supposed connections between the Trump Team and the Russian government, the only scandal of which we have real evidence - members of the Obama intelligence community leaking classified information about American citizens - continues apace.

And the media don't seem to care.

Evelyn Farkas, deputy assistant secretary of defense under President Obama said on March 2 on MSNBC that she was telling members of the intelligence community as well as Democrats in Congress to gather as much information as possible on the Trump transition team.

Sean Brown. (Mar. 29, 2017). BREAKING: WEINER'S CHILD PORN VICTIM BREAKS SILENCE TO REVEAL SICK TREATMENT FROM FBI DIR. COMEY. PolitiCulture.

The victim of disgraced Congressman Anthony Weiner penned a scathing letter to FBI Director James Comey in regards to the horrible treatment she received from the bureau as they investigated Weiner.

The girl who was 15 at the time of the abuse, is outraged that the FBI leaked her name and information to the media after grilling her for seven hours over the alleged sexting

between her and Weiner. True Pundit published the letter in its entirety, and to the objective observer it would appear as if the FBI was working to protect Weiner rather than protecting his young victim.

The full text of the letter is below, and it's hard to fathom how such a young girl could be treated in such a horrible manner by our top law enforcement agency:

Dr. James Dobson, who started Focus on the Family and now delivers his Christian and pro-family advice through the newer Family Talk radio, is endorsing again the move for parents to withdraw their children from public schools.

At least partly because he's "shocked" at the values, or lack thereof, exhibited by millennials.

Those are the voters who are about ages 18-34.

Trained as a teacher and psychologist, early in his career he was largely oblivious of the idea of homeschooling, he explained on a recent series of broadcasts featuring guest E. Ray Moore, of the Exodus Mandate, which works to encourage Christian parents to homeschool their own children, or put them in church-run Christian schools.

Malia Zimmerman. (Mar. 31, 2017). Hillary Clinton aides had access to State Dept. after she left, says key lawmaker. Fox News.

When Hillary Clinton resigned as Secretary of State in 2013, she negotiated continuing access to classified and top-secret documents for herself and six staffers under the designation "research assistants," according to a powerful senator who notes that Clinton was later deemed "extremely careless" with such information.

The staff apparently retained access even after Clinton announced her run for president in April 2015, according to Sen. Chuck Grassley, R-Iowa. The access was ostensibly granted to facilitate work on Clinton's memoir, but Grassley said he was only able to verify it after the Obama administration left the White House.

"It is so unimaginatively offensive that Hillary Clinton or her staff would have any access to classified or top secret information."

- Chris Farrell, Judicial Watch

PUTIN-CHUBAIS-SUMMERS-RUSNANO

Anatoly Chubais, Chairman, Rosnano, POCHAHO

Vladimir Putin created Rusnano (Russian Nanotechnology Corporation) to fund emerging technologies, especially his interest in nano technologies. In the old Soviet days, such entities were first and foremost spying opportunities. Little appears to have changed. As such, Hillary's activities with her campaign manager and longtime advisor, John Podesta, have likely risked national security. It is becoming evident that Hillary needed her private email servers to hide her Russian collusion, among other things.
