(APR. 21, 2017)—President Bill Clinton labeled the tragic conflicts in Rwanda (1994) and Kosovo (1998) as genocidal rage. What are the odds of one U.S. president encountering not one but two "genocides" in very small countries within four years? What changed to trigger

This timeline shows how insiders sell access & manipulate politicians, police, intelligence, judges and media to keep their secrets

Clintons, Obamas, Summers were paid in cash for outlandish speaking fees and Foundation donations. Sycophant judges, politicians, academics, bureaucrats and media were fed tips to mutual funds tied to insider stocks like Facebook. Risk of public exposure, blackmail, pedophilia, "snuff parties" (ritual child sexual abuse and murder) and Satanism have ensured silence among pay-to-play beneficiaries. such sudden furor? Who paid for it? Who organized it? What was the end game?

With the benefit of hindsight, a rogue C.I.A. aligned with globalist corporations appears to have been the secret power fomenting these acts of violence. It appears that in classical spy misdirection, the over one million victims of Rwanda and Kosovo were made out to be the causes. This false narrative was supported by a complicit mainstream media.

On May 12, 2005, FBI Special Agent In Charge Ted L. Gunderson said "people in our government . . . a rogue outfit" inside the C.I.A. is behind all the acts of terror since Bill and Hillary Clinton came to power in 1993. (Editors' Note: Many links in this post, like this one, are bookmarks in a detailed TIMELINE and bibliography. Once clicked, please be patient for it to load and go automatically to the timeline entry)

Gunderson, a former station chief in Memphis, Dallas and Los Angeles and candidate for FBI Director in 1979, called them a "covert military criminal enterprise, government enterprise, primarily by US military intelligence, that is operating full throttle and everybody [in the FBI and Justice Department] refuses to investigate it."

CLINTON'S RACKETEERING FOR DEEP STATE GLOBALISM

In the two days before George Bush became President, Bill Clinton made some telling moves that can only be understood now.

Clinton pardoned his former C.I.A. spy chief John M. Deutch for mishandling classified information and likely much more. Deutch was C.I.A. director when it appears the scheme to form a Deep State shadow government global Internet-based surveillance system was hatched.

Notably, Deutch's daughter-in-law, Marne L. Levine, worked for Larry Summers as Treasury Secretary (1993-2001), Harvard (2002-2004), National Economic Council (2008), and now at Instagram (2014-current) where she is chief operating officer. Summers had popped up as Instagram's sole director just before Instagram sold to Facebook for \$1 billion. Summers' former student, Gmail founder and chief of staff at the Treasury Department, Sheryl K. Sandberg, brokered the Instagram deal as Facebook chief operating officer. The collusion is evident. Summers and Sandberg were colleagues with Russian oligarchs Yuri Milner and Alisher Usmanov. Milner and Usmanov were also Goldman Sachs partners in Moscow.

These seemingly unconnected events now show, in hindsight, that the C.I.A., Google, Facebook and those with whom they collude have

been part of a globalist takeover plan for decades. It certainly proves they planned long ago to control the Internet, email and social networking.

For the record, along with C.I.A. Deutch, Clinton also pardoned his fugitive financier buddy **Marc Rich** who was living in Switzerland to escape extradition to the US. for tax evasion.

Then, in a weird twist, Clinton appointed Microsoft's CEO Bill Gates and his national security spy attorney, James P. Chandler, to the **National Infrastructure Assurance/Advisory Council (NIAC)**. Why would the outgoing President take such a proactive step when the next president could easily cancel the order?

THE THEFT OF THE SOCIAL NETWORKING INVENTION

At the time of his NIAC appointment, **James P. Chandler** was also the patent attorney for Columbus OH innovator Michael McKibben and Leader Technologies. Leader had engaged him in early 2000 to protect and patent their new invention: social networking. Chandler became a Leader director as well.

In the mid 1990's, McKibben had rebuilt AT&T's email system, AT&T Access Plus 3.0, in time for the launch of Windows 95 by Bill Gates. (Secretly, Gates & AT&T had temporarily fallen out on how Microsoft was going to control Internet email and browser protocols, opening the door for McKibben's team.)

McKibben then founded Leader Technologies to innovate an entirely new approach for Internet collaboration. McKibben had seen that legacy "groupware" software platforms offered by IBM, AT&T and Microsoft (i.e., Microsoft Exchange, Lotus Notes, Novel Groupwise and IBM Websphere) would fundamentally fail to scale to the transaction volume needed by the emerging Internet. In fact, McKibben and his team successfully revived and dramatically enhanced the AT&T Email system after the AT&T Lotus/IBM Network Notes and cc:Mail offerings failed to work as advertised. AT&T sales promotion (Nov. 28, 1995): "We've enhanced it so much it's out of this world."

Unknown to Leader, Chandler was already colluding with IBM, AT&T, Microsoft, the Clintons, C.I.A., NSA, FBI, Eric Holder, David Kappos, the Bushes, Larry Summers, Robert Mueller and John Podesta, among many, and stole Leader's invention to fix the technology shortcomings of their shadow government—in the name of "national security" of course. Leader's investors had risked over \$10 million dollars and Leader's engineers had created over 750,000 lines of source code. This invention, stripped of its personal security and privacy programs, is the engine that drives the rogue CIA-controlled "social" Internet today in a diabolical public-private racketeering scheme of global proportions.

BARACK OBAMA'S DARK POOLS OF CORRUPTION

Click to enlarge

CLICK HERE FOR WASHINGTON'S ETHICAL DISEASE DISCOVERIES RE. FACEBOOK "DARK POOLS"

During this time, Mark Zuckerberg was a junior in high school. Zuckerberg's now well-recognized pathological lying would fit the profile needed by the C.I.A. MKUltra mind control program. Zuckerberg's **all-too-perfect Harvard narrative** was quickly promoted by Fortune magazine's **David Kirkpatrick** in The Facebook Effect, and **Hollywood** in The Social Network. The Zuckerberg phoenix-like Harvard dorm story emerged: (1) after Clintonista C.I.A. agent **Larry Summers** was appointed president of Harvard, (2) C.I.A. agent **Marne L. Levine** became his chief of staff, (3) Summers and Levine fended off four other competing Harvard facebookes (Ceglia, Winklevosses, Greenspan, Harvard admin) until Leader Technologies' invention was debugged (**Oct. 28, 2003**), and (4) the warrantless surveillance of Americans was initiated by **Project Stellar Wind**. In addition, certain unsolved New York "**Craigslist killer**" abductions and the disappearance of Jessica Taylor on Long Island keep coming into view given the shadow government's preference for using sex, drugs, pedophilia and murder to blackmail and control targets. What is known from sworn testimony is that Zuckerberg favored Craigslist for arranging dates and advertising his programming services back then. Craigslist is how he first met Paul Ceglia and others. See **FBI Special Agent In Charge Ted L. Gunderson**.

Clearly, Congress, the Justice Department or local law enforcement in Long Island needs to impound **Zuckerberg's 28 stonewalled computer devices from Harvard (2003-2004)** before they are destroyed by his attorneys, McManis Faulkner LLP and Gibson Dunn LLP, who have had custody of them and have lied to and misled multiple federal courts about this important evidence. Is the rogue C.I.A. protecting Zuckerberg, their Facebook skill?

1st Clue: **Both Presidents Bush and Obama extended and enhanced the NIAC's powers with more than 23 additional executive orders.** This became a technology platform that is parallel to the NSA's, but used without regard to the Constitution. This duplicity is confirmed by **William Binney**, the NSA's chief architect, pushed out on Oct. 31, 2001.

2nd Clue: **This occurred just eight months before 9/11 and the Patriot Act.** Remember, FBI Special Agent In Charge Ted L. Gunderson said 9/11 was a rogue C.I.A. false flag pretext designed to push the country into approving the Patriot Act that **Gunderson said** "takes away many of our constitutional rights and civil liberties."

Indeed, Clinton had formed NIAC by **Executive Order 13130** on July 14, 1999. Nine weeks later on Sep. 29, 1999, Clinton ordered the C.I.A. to form a private venture capital company called **In-Q-Tel**. Two weeks later, on Nov. 12, 1999, Clinton and Summers abolished **Glass-Steagall** banking controls that ushered in the era of "too big to fail" banks, like Citigroup. Citibank then torched mortgage lending controls, thus making the 2008 crash inevitable. More collusion is evident.

STOP FACEBOOK PROPERTY THEFT

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOV ET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

George Orwell wrote in 1984 that one knows one is in a totalitarian state when telling the truth becomes an act of courage.

The list of [founding trustees for C.I.A. In-Q-Tel](#) is telling. They are all prominent in the military-industrial complex that [President Dwight D. Eisenhower](#) warned about in his Jan. 17, 1961 farewell address:

Telecredit, Inc., Lockheed, Xerox, Columbia University, Goldman Sachs, Marsh & McLennan Capital, Inc., Technovations, Inc., Global Technology Partners, U.S. Defense Dept., Lucent, Yurie Systems, AT&T, Teligent, Inc., Lockheed Missile & Space Systems, C.I.A. Added to these companies are [NIAC](#) "advisors" including Lockheed Martin, BellSouth, Symantec, Microsoft, Cisco, Mellon Financial, IBM (ISS), and Pfizer.

These companies all benefitted from the rogue C.I.A.'s installation of strongman Paul Kagame in Rwanda. In exchange for his Central African dictatorship, Kagame has guaranteed them mining access to petroleum, uranium and rare earth minerals used to manufacture products for the computer, mobile phone, TV, defense and high tech industries, as well as bribery and money laundering, including gold, diamonds, coltan, niobium, cobalt and copper in Central Africa.

All of these military-industrial complex companies were beneficiaries of the so-called "Rwanda Genocide" in 1994.

RWANDA

[On May 17, 2001](#), former NSA analyst and Africa specialist, Wayne Madsen, told a Congressional Hearing that the tragic slaughter of one million Rwandans in 1994 was not based on Hutu versus Tutsi tribal hatred run amok.

The genocide narrative had been widely reported by globalists, including Presidents Clinton, Bush, Obama, many in Congress, [Wikipedia](#) and the Hollywood film Hotel Rwanda.

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's Leader v. Facebook attorney Gibson

Rather, Madsen says the Rwandan massacre was a globalist and rogue C.I.A. "false flag" pretext to: (1) depopulate Rwanda and (2) consolidate control of uranium and petroleum as well as rare earth mineral mining of gold, diamonds, coltan, niobium, cobalt and copper in Central Africa.

Madsen and other investigators provide substantial evidence that the Rwandan genocide narrative fails even the most cursory analysis. For example, Wikipedia reinforces the mainstream narrative that 70-80% of all Tutsi Rwandans, representing 800,000 people, were murdered by supposed machete-wielding Hutu killers.

That would put the Tutsi population at 1.1 million. However, only 596,000 Tutsis lived in Rwanda according to the [Center for Research on Globalization](#). Therefore, the globalist narrative is off by almost half. According to eyewitnesses, some mass graves labeled as Tutsi contained just as many Hutu victims.

Tragically, the mass murders in Rwanda were a pretext for the globalist rogue C.I.A. to put Tutsi strongman Paul Kagame into power at any cost to human life.

Fig. 3—Rwandan Paul Kagame (right). At the time of the October 1990 invasion of Rwanda, Paul Kagame was being trained by the globalist rogue C.I.A. at the Pentagon's General Staff and Command College at Fort Leavenworth, in Kansas (USA). Kagame returned and led the four year war that resulted in the deaths of perhaps several hundred thousand Hutu people between October 1990 and April 1994 alone. From [Keith Harmon Snow](#). (Apr. 05, 2012). Pentagon Produces Satellite Photos Of 1994 Rwanda Genocide, p. 4. Conscious Being Alliance.

The rogue C.I.A.'s high technology partners manufacture products and services vital to building a global C.I.A. spy surveillance system that parallels the NSA, but is not subject to the U.S. Constitution. These companies include Sony, Microsoft, Dell, Ericsson, Hewlett-Packard, IBM, Nokia, Intel, Lucent, Lockheed Martin, Boeing and Motorola.

Dunn LLP. She credits this firm with the reason why all Street banker has gone to [Click here](#) to read her article [Exposes whistleblowers.](#)

[Examiner.com](#), Apr. 10, 2012. Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ulyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. The Clintons' Rwandan racketeering pattern is evident:

1. Target the resource that you want to control
2. Recruit beneficiaries to this scheme as accomplices
3. Infiltrate both the resource holder and his enemies
4. Concoct a bad acts pretext to seize control of the resource (sex, drugs, genocide, intolerance, hate, Islamophobia, sexism, homophobia, racism, fake news, The Russians!, whatever works)
5. Record your accomplices performing the bad acts to guarantee they don't expose you later
6. Plant the bad acts evidence
7. Pre-write the media narrative
8. Send your mainstream media accomplices the narrative
9. Proliferate your fake narrative among your mainstream media accomplices
10. Accuse your resource target of your fabricated pretext bad acts
11. Press the pretext in the media until you become the holder of the resource
12. Or, abandon your pretext if you are exposed or achieve your objective. (e.g., The Russians! pretext was dropped overnight when President Trump bombed Syria)

KOSOVO

Stopping genocide was the pretext in Rwanda, we believe.

That worked so well for Clinton that he repeated the playbook in [Kosovo](#).

For the general public at the time, we were told that seething ethnic Serbian-Albanian hatred led to "ethnic cleansing!" and "genocide!" in Kosovo. Who could question that story? Most Americans don't even know where Kosovo is.

Like the rampaging Hutu-Tutsi Rwanda hatred narrative, Serbs and Albanians were characterized as equally seething in Kosovo.

Really? The narrative quickly falls apart upon further investigation.

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics,

Only hindsight answers this question: Why Kosovo? Why destabilize Serbia whose Orthodox Christian majority has co-existed with Ottoman Muslims for over 400 years?

Kosovo is a primary migration path for Middle Eastern refugees moving into Europe. Prior to the C.I.A. / NATO intervention in Kosovo, the Balkan borders were guarded by the Serbian government in Bucharest where the predominant religion is Serbian Orthodox Christianity.

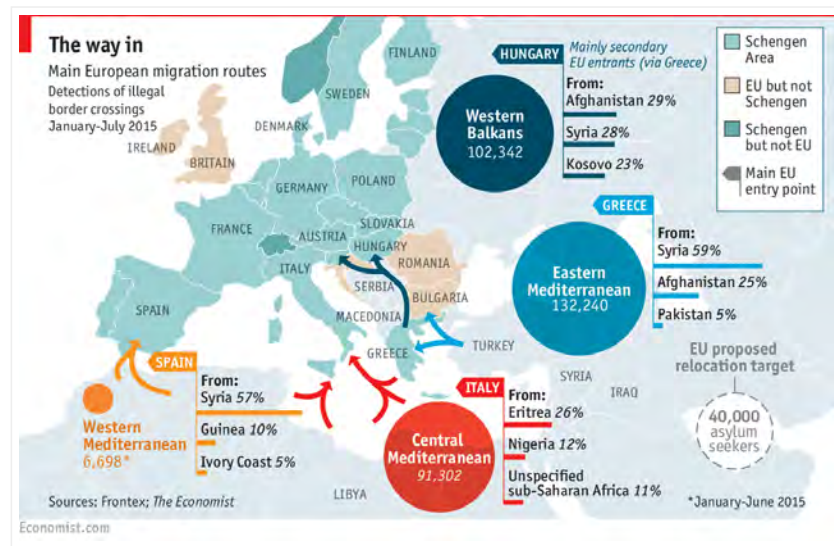

Fig. 5—The way in. Main European migration routes. Detections of illegal border crossings. Jan.-Jul. 2015. The Economist. Graphic: The Economist.

Serbian Orthodox Christian Church believers reach back to 1st century Apostolic times. Several bishops from the area now called Serbia participated in the [First Council of Nicaea \(325\)](#) where the Nicene Creed was drafted and the Canon of our modern Bible was first compiled. In the history of the Second Millenium, the Serbian Church has thrived despite 400 years of Ottoman Muslim domination (ca. 1459-1879) and 39 years under the Nazis, then Communists (ca. 1941-1980).

Given the choice, Serbian Christians were certain to resist being overrun by the forced migration of Islamists from the Middle East created by ISIS—now proved to be a creation of Hillary Clinton and Barack Obama. Who can fault them for thinking that 400 years of Muslim Ottoman domination was enough? But of course, few in the West knew this history of Ottoman Islamic subjugation of an anciently historic Christian region.

Evidently, the globalists decided that Serbian Orthodox Christians in Kosovo needed to be demonized and Kosovo’s ethnic Albanian Muslim minority given the territory. The Islamist KLA (Kosovo Liberation Army) fighters, including mercenaries from Syria, Yemen, Afghanistan and Saudi Arabia, destroyed 155 Serbian Orthodox Christian churches and monasteries during the conflict, some dating to the 12th century.

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney “dark arts,” destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury’s admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook’s appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

These are more inconvenient facts proving that the allegations of supposed Serbian genocide were faked.

The amount of human energy, emotion and scholarship that has been consumed to disprove the Clintons' "genocide!" lie is tragic. That time and human creativity could have been so much better spent uplifting humankind rather than having to defend against these devils. Give a devil power and what do you get? Clinton & Co.

As observed earlier, the Clintons learned from Rwanda that genocide sells to an American public that is more concerned about Tom Brady's deflated football and endless titillation from 256-max character text messages.

In seminal testimony to Congress on Feb. 02, 1999, [C.I.A. Director George J. Tenet](#) fanned the flames of this narrative when he claimed that the Serbian Army (Christians) had massacred 45 "innocent civilians" in Račak, Kosovo (Muslims).

President Clinton and the mainstream media immediately seized on this story, labeled it genocidal rage, and Račak became the pretext for NATO intervention.

CODE OF CONDUCT FOR U.S. JUDGES

"CANON 2: A JUDGE SHOULD AVOID IMPROPRIETY AND THE APPEARANCE OF IMPROPRIETY IN ALL ACTIVITIES"

GALLERY OF JUDICIAL MISCONDUCT

In truth, the French newspaper Le Figaro journalist Christophe Chatelet was in Račak the day of a battle between Serb and KLA forces, just hours after the Serbian forces withdrew.

Chatelet saw nothing notable to an experienced journalist. He saw one dead and four wounded—the casualties of a gun battle between two armies. The next day he returned with colleague Renaud Girards to an international media circus with 45 civilian bodies staged in the streets and farmhouses. He saw perhaps a dozen or more bodies thrown into a ditch that weren't there the day before. And, he did not see the commensurate spent bullet shell casings that one would expect at the scene of a mass murder of civilians at close range (Clinton's speech: "sprayed with bullets"). Nevertheless, newly-minted talk of Serbian Army genocide was repeated in unison by the KLA fighters who had returned after the battle. Clearly, Račak was chosen as Clinton's pretext for NATO/U.N. intervention.

President Clinton jumped on the fabricated genocide narrative and painted a horrifying picture of Serbian (Christian) atrocities against the KLA (Islamists), saying:

"We've seen innocent people taken from their homes, forced to kneel in the dirt and sprayed with bullets; Kosovar men dragged from their families, fathers and sons together, lined up and shot in cold blood. This is not war in the traditional sense. It is an attack by tanks and artillery on a largely defenseless people whose leaders have already agreed to peace." Clinton declared, "Ending this tragedy is a moral imperative."

The New York Times chimed in, saying:

"Some of the dead were found with their eyes gouged out or heads smashed in, and one man lay decapitated in the courtyard of his compound. The victims included one young woman and a 12-year-old boy. Many were older men, including one who was 70." It added that "many had been shot at close range" and that villagers said that "the Serbian forces had rounded up the men, driven them up the hill and shot them." Amb. William Walker, head of the Kosovo Verification Mission, had called this an "unspeakable atrocity" and "a crime against humanity."

Notice the Extreme Emotion Baiting by President Clinton and The New York Times—"forced to kneel in the dirt" "sprayed with bullets" "dragged from their families" "lined up and shot in cold blood" "defenseless" "eyes gouged out" "heads smashed in" "decapitated" "13-year old" "older men, one 70" "shot at close range" "rounded up" "unspeakable atrocity" "crime against humanity"

These are mass media emotion triggers developed and tested by the C.I.A.'s MKUltra mass mind-control program. These smear techniques were used successfully by Hillary Clinton against Donald Trump. Fortunately, not used well enough. Perhaps America's lethargic public is finally waking up?

When Le Figaro's [Christophe Chatelet](#) was asked how he could explain how his report the previous evening of one dead could have ballooned to 45 bodies strewn all over the village and talk of genocide. He said, "I can't solve that mystery."

Despite the Le Figaro journalists confirming that Račak was a hoax, members of Congress quickly fell in line behind the Islamist KLA (Kosovo Liberation Army). They even compared the KLA to America's 1776 colonist "freedom fighters." No one seemed to care that many

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. (See [that Jury Instruction No. 4.7 here.](#))

He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See [analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO.](#)

Judge Lourie also failed to apply his own law-test in *Group One v. Hallmark Cards* to the evidence. After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and

“GENOCIDE!” A PRETEXT THAT HAS WORKED ... NO MORE

The “genocide” narrative has worked. Rwanda and Central Africa are today controlled by a C.I.A.-installed strongman. Central Africa’s rare earth minerals and blood diamonds flow freely to America’s rogue C.I.A. and its high technology military-industrial complex. Rwandans mourn their dead souls.

An Islamist-controlled Kosovo has allowed the free flow of Syrian immigrants into Western Europe. Kosovars mourn their dead souls.

Clearly, accusations of genocide are easily sold as pretexts to a sleeping, undiscerning public. What was not fake was the tragic murder of over a millions of Rwandans and Kosovars. Did the parents of these globalists not teach them that mortality and judgment for our deeds before God comes to us all?

Bill Clinton oversaw two “genocides” in small countries during his eight years in office. Both pretexts saw minorities aligned with the globalist rogue C.I.A. come to power.

In true Saul Alinsky form (accuse your opponent with what you are doing), the victims in Rwanda and Kosovo were called the butchers.

What is different now?

- The Clintons are out of power
- George Soros no longer runs the U.S. State Department
- The Clinton Foundation is exposed
- The Deep State shadow government has been exposed
- A rogue C.I.A. is exposed
- The British have voted to leave the European Union
- Donald Trump is President
- Populism over globalism is exploding worldwide

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Moore failed to follow the long-held precedent for testing on-sale bar evidence in *Pfaff v. Wells*

Electronics, Inc.—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook’s evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. [See Motion to Disclose Conflicts of Interest.](#) Judge

Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr.

Bill Clinton, George Bush and Barack Obama enabled a C.I.A.-run shadow government to be established that controls our technology led by IBM, Microsoft, Google, AT&T, Cisco, Yahoo, Oracle, EMC, Dell, Lenovo, Symantec, Juniper and Facebook, among others.

This rogue C.I.A. technocracy is running the Internet and must be dismantled.

"THE INTERNET OF THINGS" SILICON CHIPS HAVE ROGUE C.I.A. BACKDOOR KEYS BURNED ON THEM

WikiLeaks, Shadow Brokers and others have shown us that the current Internet is fundamentally compromised down to the electronic chip level and must be scrapped.

No amount of adjustment can fix a silicon chip with a backdoor encryption key burned onto the circuitry. That chip must be thrown away.

This is the devilish level to which the rogue C.I.A. has stooped to accomplish its technocratic takeover. They appear hell bent on robbing our property, privacy and well-being to control us forever.

We need a digital Manhattan Project to fix the Internet. Now.

Leader v. Facebook Legal Research Links

NOTICE: Opinion

On Mar. 08, 2017, Symantec, the cyber security company, issued a deceptively worded press release on its official blog claiming that none of its products were compromised by the release of WikiLeaks Vault 7.

In now familiar meaningless double talk, Symantec claimed "to date we see no evidence" and "we are carefully reviewing the documents" to see where they might better serve customers.

Like its other rogue C.I.A. collaborators IBM, Microsoft and Cisco, Symantec failed to disclose that it has been embedding a universal NSA / C.I.A. backdoor encryption key into ALL of its "security" products.

National Institute of Standards and Technology (NIST) DRBG Validation List | PDF version proves that Symantec has been embedding the NSA/C.I.A.'s backdoor encryption key into its products since at least

Apr. 20, 2011. We even have the names of the Symantec engineers who are embedding the C.I.A./NSA backdoor keys are:

John Bordwine (john_bordwine@symantec.com), Rose Quijano (Rose_Quijano-Nguyen@symantec.com), Bill Zhao (Bill_Zhao@symantec.com), David Finkelstein (fips140@pgp.com), and Vincent Moscaritolo (fips140@pgp.com).

Fig. 3— Hillary Clinton

Symantec's former CEO John W. Thompson was employed by proven rogue C.I.A. collaborators IBM (1971-1999), Symantec (1999-2009) and became chairman of Microsoft (2014-present).

On Dec. 29, 2009, Hillary Clinton listed John W. Thompson among her globalist inner circle with Cisco, Yahoo, Ebay, Microsoft, Ford Foundation, FCC, Apple, Twitter, Google, Carlos Slim (The New York Times), and Harvard. The circle of rogue C.I.A. actors who hijacked America's Constitutional right to privacy is now tightening.

NEW! APR. 11 2017: —MICROSOFT'S C.I.A. RACKETEERING

In response to WikiLeaks Vault 7 Grasshopper release of Microsoft malware payloads, Microsoft used a user group named "MS Power User" to plant misleading information about its collusion with the C.I.A. This information was quoted widely by the mainstream media. WikiLeaks Vault 7 shows that a rogue C.I.A. has rendered the entire Microsoft Windows family of products unreliable for many years.

Oddly, rather than just interview Microsoft spokespersons, the release quoted controversial far off New Zealander Kim Dotcom, and a far off BBC quote of an unnamed Microsoft official instead! It implied that WikiLeaks documents themselves "appear to confirm" that "Microsoft was not cooperating directly with the 3 letter agency." This is a false and deceptive statement,

Fig. 4— Bill Gates
Microsoft, Clinton Foundation, NIAC, rogue C.I.A. Agent, The IBM Eclipse Foundation

perhaps criminally so. The release then admitted major zero-day security holes identified by WikiLeaks.

Security Week Computer Security Analyst

[J. Oquendo, Jun. 20, 2012:](#)

"CIA, NSA and Microsoft created a completely separate operating system somewhere in the Beltway. Microsoft decided to give the agencies the specific code to make the rogue changes ... So many people are blurring the lines with technology and politics it is scary."

With nonsensical misdirection, the release cited WikiLeaks—who they are trying to debunk—to support the idea that Microsoft is not cooperating with the C.I.A.! However, in this misdirection, they essentially admitted at least indirect cooperation. Such "indirect cooperation" with the C.I.A. is racketeering with third parties. This racketeering allows the C.I.A.-run Deep State shadow government to communicate and spy on everyone with impunity.

The racketeering admission notwithstanding, we also know from the National Institute of Standards and Technology (NIST) DRBG Validation List ([DRBG Validation List. PDF version](#)) that Microsoft products are registered 194 times as containing a universal NSA/C.I.A. encryption backdoor key which unlocks EVERYTHING on Windows anyway. We also know that on [Jan. 18, 2001](#), Microsoft's Bill Gates and Leader Technologies' patent attorney James P. Chandler, were appointed by President Bill Clinton to the National Infrastructure Assurance Council (NIAC)—[NEW, Apr. 4, 2017](#): two days before Clinton left office, clearly showing that Bush & Co. carried on Clinton's rogue C.I.A. plans at the White House, with James P. Chandler's direction (advisor to Microsoft and IBM, among their many military-industrial complex cronies of both the political "left" and "right"). Clearly, greed and powermongering make strange bedfellows. NIAC provides the digital systems to the rogue C.I.A. Deep State shadow government. See [Stellar Wind timeline entry](#).

ORIGINAL POST

(APR. 04, 2017)— This weekend my brother and I toured the Mound Science & Energy Museum in our hometown of Miamisburg, Ohio. Growing up, we had no idea that this huge Department of Energy site with 16-foot thick below-ground blast walls was one of a very few DOE facilities for the research, development, and production of nuclear weapons components. The Lab also produced nuclear power sources for deep space and lunar missions, including the [Voyager 1](#) Interstellar Mission.

We also had no idea that our Miamisburg school mates were the children of over 300 of the world's top chemists and physicists who were moved secretly to Miamisburg, Ohio after World War II. Our father was an Army veteran on one of the first troop ships to occupy the Japanese Imperial Naval Academy. He was a civil engineer with Maxon Construction Company, the engineering firm that built the Miamisburg facility. He had witnessed firsthand the blistering devastation of Hiroshima and Nagasaki and wrote home describing it.

The Mound DOE Lab was a critical part of the "[Manhattan Project](#)," which was America's all-out effort to develop a nuclear weapon before the Germans, Japanese, Italians or Russians.

For the longest time I reserved judgment on Mr. Assange. The spy business is a game of shadows. Everyone lies for a living. Therefore, whatever we read in the media is all too often disinformation. The citizens of the old Soviet Union used to joke about the reliability of their official news sources: “We are experts at reading between the lines.”

It appears we have reached that point in America. In fact, our situation is much worse.

The difference between the old Soviet media and American mainstream media today is profound. At least in the Soviet Union, nobody believed the Communist Party newspaper PRAVDA. But in America today, well-known C.I.A.-financed mind control virtue signaling via the mainstream media (CNN, NBC, MSNBC, CBS, ABC, CNBC, The New York Times, The Washington Post, even some at Fox) is being used successfully on many fronts including elections, values, finance, education, race, climate, healthcare, gun control and culture. Indeed, these outlets prove that the average unsuspecting American is gullible and easily manipulated, even when their previously trusted news sources are working against their interests.

America’s founders envisioned a Free Press that would hold the powerful accountable. However, when those media organizations are themselves funded by the very governments, spy agencies, big banks and corporations that they are supposed to watch, then they fall silent. Worse, they produce fake news to further deceive us and support their overseers.

Jesus Christ was asked how to discern false prophets—how to tell the difference between a sheep and a ravenous wolf dressed like a sheep. He said:

“You will know them by their fruits. Grapes are not gathered from thorn bushes nor figs from thistles, are they?” Matthew 7:16.

Using Christ’s guidance, I’d say Julian Assange is a patriot. (1) He has revealed to us that the Clinton, Bush and Obama governments have been leading a global organized crime syndicate of Deep State bureaucrats and corporate cronies. (2) He carefully avoids harming

individual intelligence agents in the field. (3) He curates his information thoroughly. And, (4) to my knowledge, has never published anything but facts.

Therefore, as a journalist, Julian Assange is producing wonderful fruit. He is doing his job! The fact that the C.I.A. lost control of the Vault 7 data is certainly not Julian Assange's doing.

Regardless of one's opinion of Julian Assange and WikiLeaks, Vault 7 is out there and must now be addressed. One cannot now pretend that Vault 7 is not published.

It reveals several glaring truths:

- The Clinton, Bush and Obama governments have been spying on us without a warrant, which was declared illegal by the Second Circuit Court of Appeals in 2015. Despite that ruling, the unscrupulous lawyers of the Deep State shadow government ignored it and kept the program going "under different authorities."
- Our government is allied with a group of un-elected crony capitalists who are exploiting our private information to further consolidate their wealth, power and eugenicide within world populations. What God loves, they hate.

DIGITAL C.I.A. ROGUES HAVE EXPOSED CORPORATE DIRECTORS TO MASSIVE LIABILITY RISKS NEVER BEFORE SEEN

1. Corporate directors have a fiduciary duty to protect the assets of their company.

Director Duties of the [Business Judgment Rule](#): good faith, loyalty, and due care.

2. Corporate directors must certify to their shareholders that reasonable measures have been taken to maximize the value of the company assets, especially against hostile takeovers. The rogue C.I.A.'s theft of corporate data is, in effect, a hostile takeover of the company assets.

Revlon Rule: The legal requirement that a company's board of directors make a reasonable effort to obtain the highest value for a company when a hostile takeover is imminent. [Revlon, Inc. v MacAndrews & Forbes Holdings, Inc.](#)

3. Corporate directors are legally liable, both civilly and criminally, if they make fraudulent certifications to shareholders and customers.

WikiLeaks Vault 7 has revealed that a rogue group within the C.I.A. has hijacked the hardware, software and firmware of the Internet, and thus, ALL of the data that flows through it.

Vault 7, and related releases, proves unequivocally that many of the technology companies that we trusted (1) are not only compromised by this rogue C.I.A., but (2) they are a part of it. Worse, many of these companies were actually started by the rogue C.I.A. through its "public-private" venture capital arm [In-Q-Tel](#) formed by President Bill Clinton and Larry Summers on Sep. 29, 1999.

The evidence now shows that the companies colluding with Deep State shadow government bureaucrats include In-Q-Tel, National Venture Capital Association (NVCA), IBM, Microsoft, Oracle, SAP, Facebook, Google, Instagram, What's App, Groupon, Zynga, AT&T, Verizon, Qualcomm, EMC, Dell, LinkedIn, Intel, AMD, Micron Technology, Cisco, Xerox, Boeing, VK, Gmail, Mail.ru, Lenovo, Goldman Sachs, Morgan Stanley, JPMorgan Chase, Greylock, Kleiner Perkins, Gibson Dunn, Cooley Godward, Orrick Herrington, Perkins

Setting aside the evident collusion, this article focuses on the director liability implicit in the WikiLeaks Vault 7 revelations.

Vault 7 shows that the C.I.A. can effortlessly bypass firewalls, security and encryption and seize anyone's data from any kind of computing device whether that data is stored or being uploaded or downloaded.

This compromise applies to databases, web servers, mainframes, files, documents, presentations, tweets, instant messages, texts, social posts, photos, medical records, love letters, arrest records, property records, pharmacy purchases, banking information, tax information, location, purchases, financial transactions, laptops, mobile phones, servers, routers, switches, cell towers, satellites, TVs, radios, toasters, refrigerators, automobiles, trucks, navigation devices . . . anything digital. In short, any device that is connected to the internet, or not, is able to be hijacked at will.

RESULT: DIRECTOR LIABILITY HAS JUST SKYROCKETED OFF THE CHARTS

Vault 7 shows us that the C.I.A. has used its various custom malware tools to gain access to all your corporate data assets. The fact that the C.I.A. lost control of its malware means one must assume that those tools are also in the hands of predators, terrorists and competitors.

By teaming up secretly with "Big Data" technology vendors, this rogue C.I.A. group and the vendors share our data to oppress us into compliance through ignorance.

We are ignorant no longer.

Therefore, corporate directors cannot stick their heads in the sand and pretend that they do not know about this total breach of trust by the providers of our digital networks.

In conclusion, corporate directors can no longer certify that their corporate digital assets are secure from thieves, competitors and predators.

LIABILITY NOTICE, Apr. 03, 2017: Subsequent to WikiLeaks Vault 7, corporate directors have a duty to notify their shareholders and customers that all their company's data, including all customer data, has been compromised by a rogue C.I.A. and its complicit commercial technology suppliers.

Congress needs to stop sitting on this destruction of our Republic and get these scoundrels locked up.
