DEEP STATE SHADOW GOVERNMENT IS GETTING DESPERATE

DEEP STATE MUST RENEW EXECUTIVE ORDER NO. 13708 BY SEP. 30, 2017 (**THREE DAYS EXPIRED**) TO CONTINUE FUNDING THE ROGUE NSA, IBM, C.I.A. "INTERNET OF THINGS" SPY STATE

PAY-to-PLAY NEW WORLD ORDER
This timeline shows how insiders sell access & manipulate politicians, police, intelligence, judges and media to keep their secrets

Clintons, Obamas, Summers were paid in cash for outlandish speaking fees and Foundation donations. Sycophant judges, politicians, academics, bureaucrats and media were fed tips to mutual funds tied to insider stocks like Facebook. Risk of public exposure, blackmail, pedophilia, "snuff parties" (ritual child sexual abuse and murder) and Satanism have ensured silence among pay-to-play beneficiaries. The U.S. Patent Office is their toy box from which to steal new ideas.

FIG. 1 – GLOBALIST GENERAL H.R. McMASTER & PRESIDENT DONALD TRUMP AT McMASTER'S APPOINTMENT AS NATIONAL SECURITY ADVISOR. McMaster is a disciple of George Soros and the Deep State shadow government. He despises President Trump's America First priority. The Deep State shadow government has a hard stop requirement for the President to renew Executive Order No. 13708 by Sep. 30, 2017. This executive order perpetuates a string of executive orders that have authorized the warrantless surveillance of Americans since 9/11 and the passage of the Patriot Act. These orders have sacrificed fundamental civil liberties and established the NSA / C.I.A. surveillance state.

BREAKING! OCT. 03, 2017 SOCIAL NETWORKING COMPANIES ARE NOW C.I.A./NSA ROGUE, ILLEGITIMATE SPIES TOO

GOVERNMENT SPYING ALERT: As of this update, the [National Infrastructure Assurance Council \(NIAC\)](#) at the U. S. Department of Homeland Security has failed to notify the public that their charter to operate expired on Sep. 30, 2017. Curiously, this order was not posted on the NIAC website under "[NIAC Authorities](#)" like the ones for 2013 and before are.

Technology companies across the board (e.g., IBM, Apple, Google, YouTube, Twitter, Facebook, Palantir (Peter Thiel), AT&T, Microsoft, Skype, Yahoo, Verizon, Oracle, WhatsApp, Instagram, Pinterest, Symantec, Juniper Networks, Goldman Sachs, HP, Dell, Lenovo, you name it) have lost their executive order "public-private partnership" authorization to provide spy services to the rogue C.I.A. and NSA. The main executive order authority for the "National Infrastructure Advisory Council" upon which they have relied as the excuse for their Clintonista, fascist, crony-capitalist insider deal making since 1999 expired on Sep. 30, 2017 . . . in the name of national security and counter terrorism, of course.

THE GREATER SCANDAL:

[Editorial: Despite the \$1 trillion a year that these anti-terror experts spend, the shooter(s) in the tragic Las Vegas mass murder of concert-goers were able to amass at last count 42 sophisticated weapons and munitions without being detected by our bloated spy agencies. This should tell us that "antiterrorism" has been nothing but a cruel hoax ("false flag") by the Deep State shadow government to scare citizens into giving up their civil liberties. (For example, we learned just yesterday from whistleblowers that [FEMA](#) was conducting a simulated school shooting drill just 18 miles from Sandy Hook on Dec. 14, 2012. Just coincidence?). We must realize that their real motive is, and always has been, to take down the American Republic and replace it with a New World Order globalism run by unelected banks, corporations and bureaucrats.]

The Silicon Valley monopoly that emerged in 1999 to service this global spy-profit surveillance state is officially illegitimate. Now that [Executive Order 13708](#) expired on Sep. 30, 2017, the illegal \$5+ trillion social networking industry that they created with stolen goods must be dismantled. Alternatively, for starters, it must be reformed to right the 17 years of wrongs they have committed against inventors, technologists and entrepreneurs like Leader Technologies, Michael McKibben, Lakshmi Aranachalam and Johannes Van Der Meer and Paul Ceglia, among others.

ORIGINAL POST

(SEP. 14, 2017)—[Roger Stone](#), President Trump's former campaign manager, New York Times best seller, and Infowars contributor, indicated several days ago that President Trump has serious troubles. He reinforced this same alert 24 hours later. He said that multiple White House sources have told him that President Trump may be being drugged gradually with psychotropic drugs in preparation for an imminent Deep State takeover.

Such drugging of a President would not be a new tactic for the rogue C.I.A. which is widely known to use such mind control drugs for "regime change" around the world. See [previous post](#); Google: "CIA mind control drugs".

The American Republic is under attack by rogue C.I.A. Deep State operatives who are actively working to nullify the 2016 election.

END OF SEPTEMBER 30, 2017 IS A DEEP STATE DROP DEAD DATE

September 30, 2017 is a critical date looming for the Deep State shadow government. The executive orders which have given them the dubious legal authority they have secretly awarded to themselves must be renewed. It appears they are willing to depose President Trump and/or destroy the country to get those renewals.

The facts are now well-established that the Deep State confiscated the invention of social networking from Columbus innovator Leader Technologies. Then, they reconfigured Leader's invention into a rogue global spying and profit-making apparatus that is violating our Fourth Amendment privacy rights of every American, our Fifth Amendment property rights, our Second Amendment right to bear arms, and our First Amendment rights to free speech.

Leader proved in federal court that Facebook, for example, relies on Leader's invention for 100% of its revenue. The rest of the social networking world also relies on Leader's invention for essentially 100% of their revenues as well. Such a theft of technology is unprecedented.

UPDATE MAR. 25, 2014

FIVE CRITICAL AFI POSTS ON JUDICIAL COMPROMISE

Fully updated Mar. 25, 2014 in the wake of the Scribd censorship:

1. **HOW PATENT JUDGES GROW RICH ON THE BACKS OF AMERICAN INVENTORS** 
Patent Office filings are shuffled out the USPTO backdoor to crony lawyers, banks and deep-pocket clients.
2. **WAS CHIEF JUSTICE ROBERTS BLACKMAILED** into supporting Obamacare by his ethical compromises in *Leader v. Facebook*?
3. **JUSTICE ROBERTS MENTORED** Facebook Gibson Dunn LLP attorneys. 
4. **JUSTICE ROBERTS HOLDS** substantial Facebook financial interests.
5. **JUDGE LEONARD STARK FAILED** to disclose his Facebook financial interests and his reliance on Facebook's Cooley Godward LLP attorneys for his appointment. 

BARACK OBAMA'S DARK POOLS OF CORRUPTION

This lawless spy network was created from executive orders reaching back to Bill Clinton in 1993. These orders give the President sole authority to

authorize, fund and control the C.I.A., NSA and any of the other 15 intelligence agencies through his National Security Staff (NSS).

This operation is funded by an intertwined cluster of open-ended (and therefore indecipherable) Executive Branch budgets. Presidents Clinton, Bush and Obama secretly operated a vast military-industrial infrastructure largely without Congressional or Judicial oversight.

President Dwight D. Eisenhower warned us about this "military-industrial complex" in his [Jan. 17, 1961](#) farewell address.

We believe that the Deep State's extensive activity to destroy President Trump is now focused on creating a pretext to take over the White House, or at least suspend lawmaking, by Sep. 30, 2017.

Sep. 30, 2017 is the date that Executive Order 13708 expires.

This order gives the White House near dictatorial control over the Internet. In Deep State's mind, without getting that control back, they will lose the information war, and thus their dream of a UN-controlled "new world order."

DEEP STATE'S CONTROL: THE EXECUTIVE ORDERS THAT EMPOWER THE DEEP STATE

Among these greater and lesser orders, two are seminal:

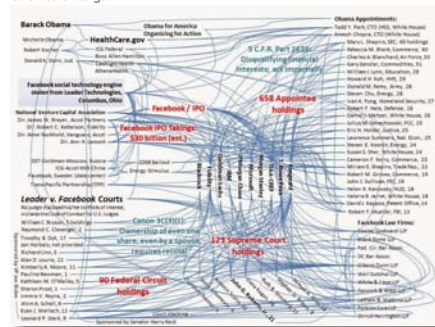

- [Executive Order 13130. \(Jul. 14, 1999\)](#). National Infrastructure Assurance Council. Bill Clinton. Federal Register, Vol. 64, No. 137, Jul. 14, 1999. GPO.
- [Executive Order 13228/31. \(Oct. 08/16, 2001\)](#). Establishing the Office of Homeland Security and the Homeland Security Council. George Bush. Federal Register, Weekly Compilation of Presidential Documents Vol. 37, Iss. 41, October 15, 2001. GPO.

These two orders form a [continuity of orders](#) ([EO 13130 Jul. 14, 1999](#), [EO13228/31 Oct. 08/16, 2001](#), [EO13286 Feb. 28, 2003](#), [EO 13385 Sep. 29, 2005](#), [EO13446 Sep, 28, 2007](#), [EO13511 Sep. 29, 2009](#), [EO 13585 Sep. 2011](#), [EO1352 Sep. 30, 2013.](#)) Not included is [EO 13708 Sep. 30, 2015](#) (expired Sep. 30, 2017) that extend NIAC operations from 1999 to the present day, and their current authority was extended and is governed by EO 13708 (Sep. 30, 2015).

FIG. 2—Miller Act Notice of Leader Technologies and inventor Michael McKibben filed at the White House on Jul. 23, 2017. They demand full compensation for the federal government's wholesale theft of their social networking inventions thru a broad, "free" distribution to its military-industrial spying and profit-making insiders using the freshly-minted [IBM Eclipse Foundation](#), formed with a \$40 million IBM "donation" just four (4) weeks after The Patriot Act was signed into law.

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Sickle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

- a technology upon which the President and U.S. government now rely;
- a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

[Executive Order 13708](#) terminates on Sep. 30, 2017, unless it is renewed by the President (or his replacement).

NIAC forms the basis for the dubious “public-private” partnerships which secretly bind the commercial and intelligence technology worlds. It is the embodiment of the military-industrial complex that President Dwight D. Eisenhower warned us about.

In short, the NIAC benefits of universal government spying:

- Spy access to all user data via [universal encryption backdoor key](#) to all hardware, software and firmware. See also [Zetter, K. \(Sep. 24, 2013\)](#). How a Crypto “Backdoor” Pitted the Tech World Against the NSA. Wired; [AFI \(Nov. 25, 2015\)](#). Dell and Lenovo (IBM) ship computers with spy state backdoors; [AFI \(Nov. 06, 2015\)](#). Complicit encryption geeks enable the American spy state.
- Blackmail data to control politicians, the media and public opinion. See [Theodore L. Gunderson. \(May 12, 2005\)](#). VIDEO & TRANSCRIPT, FBI Senior Special Agent In Charge (ret.) (Dallas, Los Angeles, Memphis) presentation on Illuminati, Satanism, Pedophilia, CIA, FBI, Intelligence Deep State shadow government collusion (“people in our government ... a rogue outfit” . . . “who orchestrate terrorist acts in order to get Congress to pass Bills like the Patriot Act, and that many of those votes are procured through blackmail through sex and drugs”).
- Commercial Off The Shelf (COTS) commercial technology platforms to spy on America’s and the world’s population. See [Drain the Swamp Poster](#).
- Pay-to-play insider financial information as bribes. See [Timeline](#).

NIAC commercial “public” partner benefits received (the benefits of this crony capitalism):

- Government contracts
- Regulatory favoritism
- Banking favoritism
- Financing favoritism
- Unfettered access to user data for profit-making
- Judicial protection
- Pay-to-plan financial information as bribes

For example, on Feb. 09, 2016 Barack Obama signed [Executive Order 13718](#) in which he actually used the commercial name for this NIAC takeover of the Internet, “The Internet of Things.” See [previous post](#).

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's Leader v. Facebook attorney Gibson Dunn LLP. She credits this firm with the reason why not

a single Wall Street banker has gone to jail since 2008. [Click here](#) to read her article "Everybody hates whistleblowers." [Examiner.com, Apr. 10, 2012](#). Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ulyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. SEC. 623. SENSE OF CONGRESS ON WIKILEAKS.

It is the sense of Congress that WikiLeaks and the senior leadership of WikiLeaks resemble a non-state hostile intelligence service often abetted by state actors and should be treated as such a service by the United States.

ANALYSIS: The First Amendment guarantees freedom of the press from state censorship. The purpose of the free press is specifically to hold the powerful accountable, under the assumption without fear of exposure, that power will corrupt the elected steward of that power and become tyrannical if not checked.

A free press is vital. It's purpose is to shine a light on abuses of power. This Section 623 is grossly unconstitutional since it seeks to limit the right of free citizens to use their liberty to shine a light on the abuses of power within their government, just as WikiLeaks is doing. Thankfully.

Shame on the drafters of this Act (Sen. Burr, Richard [R-NC] Sponsor) for such a flagrant abuse of power in even bringing such draft wording forward.

I've read this proposed act with the assumption that our rogue Deep State CIA is up to no good. Sure enough, I found it in a whole section on the CIA Sec. 401 where they are protecting themselves from all accountability, and Sec. 402 on American elections!!!! ---- the perview of each State.

Very clever, you a__holes, but we're on to your attorney games now....

SEC. 402: INFORMATION SHARING WITH STATE ELECTION OFFICIALS.

C.I.A. is attempting to takeover the election activities of each State by giving two "top secret level" security clearances to State officials who are NOT the Secretary of State. The Secretaries of State in each State is the top official responsible for State election integrity.

By effectively giving CIA intelligence insider status to two State employees in each State, the CIA will MUZZLE those State employees with their blanket secrecy agreement and thus PREVENT those State employees from even reporting CIA misconduct in vote fraud. Even if they watch the CIA change the vote totals on election night, the CIA secrecy agreement will prevent them from reporting it.

Therefore, Sec. 202 INFORMATION SHARING WITH STATE ELECTION OFFICIALS cannot be allowed to become law.

Spread the word. This language is deadly to our Republic and free and fair elections.

FBI insiders say fired FBI Director James Comey and Andrew McCabe, deputy FBI director, used Bureau funds to underwrite the controversial dossier on President Donald Trump during the 2016 presidential election, sources confirm.

And the deal to dig dirt on a presidential candidate was put together with the help of Sen. John McCain, sources said.

These new revelations in fact might be the worst kept secrets in Washington, D.C. but now rank-and-file FBI agents want the Bureau to come clean on its relationship with the author of the problematic Trump dossier, former British spy Christopher Steele.

True Pundit first received intelligence from FBI sources in March that the Bureau had struck a financial deal with Steele in 2016.

Federal law enforcement agents have since divulged to True Pundit:

3. [Two Policy Changes That Will Make America More Democratic \(and less contentious\), Dec. 21, 2012](#)

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news

more.

- Sen. John McCain was involved in brokering the introduction of Steele or Steele's preliminary research to FBI bosses.
- The FBI routinely pays third-party private Intel firms to gather evidence used to secure federal search warrants and arrest warrants, as well as FISA court warrants.
- The FBI does not vet the privately commissioned investigators, like Fusion GPS, who work "off the books" for the Bureau.
- The FBI pays such contractors from a budget that is not part of its public expenditures. The transactions are confidential, therefore, Freedom of Information Requests (FOIA) on such transactions are easily and legally denied.
- Steele and the firm Fusion GPS may have performed additional privately-commissioned intelligence work for the FBI.

The Steele dossier on Trump has since proven to be chalk-full (chalk, not "chok" used intentionally here) of wild and unproven intelligence.

CODE OF CONDUCT FOR U.S. JUDGES

Email comment by GH/DL/JM/GN:

Jennifer Harper. (Sep. 13, 2017). A NEW WARNING ABOUT THE 'DEEP STATE.' The Washington Times.

Let us recall "shadow government" and "Deep State" – two terms that riveted political observers and journalists earlier this year. Remember? Both terms – along with variants such as "shadow White House" and "shadow presidency" – were bandied about in the media with relish. Dramatic coverage suggested that former members of the Obama administration or entrenched federal employees were still in place, ready to wield power from within the bureaucracy. A potential hazard to the Trump administration lurked, amplified by "fake" news, skewed polls and negative press narratives.

Even before President Trump took the presidential oath on Jan. 20, veteran political commentator Bill Moyers suggested newly defeated Hillary Clinton give her own inaugural address, advising Democrats to "prepare by joining together as a movement and creating the constituency of what will be, in effect, a shadow government." On Inauguration Day itself, GQ magazine advised, "Barack Obama is preparing for his third term."

Some continue to fret about a shadow presence. Still attuned to the Deep State and the existence of a shadow government, Judicial Watch recently issued a 64-page report on the phenomenon, which includes Freedom of Information Act requests, case studies and other research.

"We face a crisis of the Deep State – 'Alt-government,' I sometimes call it. The actions of the Deep State constitute a direct challenge to our republican form of government. Working primarily through the intelligence and law-enforcement agencies, the Deep State is actively engaged in subversive measures designed to delegitimize Donald Trump," Tom Fitton, president of the watchdog group, noted in a statement.

"This shadow government is not monolithic. But, it does not have to be. Its operatives share a common mindset and worldview. They travel in the same social circles. And, they walk the same corridors of power," the study said.

Brooke Singman, Catherine Herridge. (Sep. 14, 2017). 'PAY-TO-PLAY' AT CLINTON STATE DEPARTMENT EXPOSED IN NEW EMAILS, WATCHDOG SAYS. Fox News.

Catherine Herridge reports after new batch of emails released due to a FOIA request by Judicial Watch

Newly disclosed emails expose fresh examples of "pay to play" at the Clinton State Department, a conservative watchdog group said Thursday.

The emails, from Clinton aide Huma Abedin's account, were among 1,600 documents turned over by the State Department in connection with Judicial Watch's Freedom of Information Act lawsuit.

Judicial Watch said the documents reveal Clinton Foundation friends requesting and receiving favors from the State Department.

"The emails show 'what happened' was that Hillary Clinton and Huma Abedin obviously violated laws about the handling of classified information and turned the State Department into a pay for play tool for the corrupt Clinton Foundation," Judicial Watch President Tom Fitton said, in a swipe at Clinton's newly released campaign memoir "What Happened." "The clear and mounting evidence of pay for play and mishandling of classified information warrant a serious criminal investigation by an independent Trump Justice Department."

GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add

the on-sale bar claim after the close of all fact discovery and blocked Leader

from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. (See that

[Jury Instruction No. 4.7 here.](#)) He

also contradicted his own instruction to Leader to

answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Nick Givas. (Sep. 14, 2017). TREY GOWDY WANTS JAMES COMEY BACK BEFORE CONGRESS FOR QUESTIONING. The Daily Caller.

GOP Rep. Trey Gowdy said Thursday that there is "sufficient factual basis" to investigate why former FBI Director James Comey decided not to charge Hillary Clinton before interviewing key witnesses.

"There is sufficient factual basis to bring him in and ask him, 'When did you make up your mind that you weren't going to charge Secretary Clinton?' I can tell you because I've seen with my own eyes he made up his mind before he interviewed her," Gowdy told Fox News. "How far back, whether it was two weeks or two months, quite frankly is immaterial to me. He did it before he interviewed the last witness."

One of the first rules of an investigation is to hold off on a final conclusion until reviewing all evidence that witnesses present, something that Comey did not do, according to Gowdy.

"If there's anything that's axiomatic in investigations it's that you don't make up your mind until you interview the last witness. It is beyond dispute that he made up his mind not to charge Secretary Clinton before he interviewed her. There's no question about that. What my friends in the Senate have uncovered is he may well have made up his mind before he interviewed the last dozen witnesses," Gowdy said.

Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. SECRET SERVICE ON HIGH ALERT FOLLOWING THREATS TO POISON PRESIDENT DONALD TRUMP, JUST LIKE ROGER STONE AND INFOWARS WARNED DAYS AGO WHEN EVERYONE SAID THEY WERE CRAZY.

Liberty Belle. (Sep. 15, 2017). BREAKING: SECRET SERVICE ON ***HIGH*** ALERT AFTER DISTURBING PLAN TO POISON TRUMP GETS OUT. Freedom Daily.

The left has been foaming at the mouth ever since Donald Trump was elected as president. Instead of these liberals pulling up their underoos and moving on with their lives, they are constantly throwing temper tantrums. However, with most temper tantrums they usually don't end up with death threats and the Secret Service needing to step in.

Yeah, well this is 2017 and the left has gone completely off the deep end.

Here are a few prime examples of how the left has lost their minds. When Donald Trump was elected, Madonna shared with her rabid fans that she thought about blowing up the White House. Then her twisted sister, Ashley Judd screeched that she was a proud "nasty woman" referring to the time Donald Trump called Hillary Clinton a nasty woman in the debate.

Oh, but wait there's more.

Then there was the time that Kathy Griffin decided to pose with a severed head of Donald Trump and have the audacity to call it art. Oh, and what about the time that rapper Snoop Dogg made a video that depicted the shooting of President Trump. Each and every time that these entitled celebrities get away with this sort of behavior only lets this behavior to continue. Now, former Food Network personality and current host of CNN's Parts Unknown Anthony Bourdain has decided to weigh in with his nasty wish that has Secret Service on high alert.

Just recently, the paparazzi stopped celeb chef Anthony Bourdain outside of an airport and asked him what he would cook for Donald Trump. Instead of the chef just declining to answer or making something up he had to show utter contempt for 45.

Breitbart News reports:

The former Food Network personality and current host of CNN's Parts Unknown was caught outside LAX airport by a photographer for celebrity gossip website TMZ. Bourdain was asked whether or not he would go to North Korea to do a food show.

Bourdain said that everyone in North Korea is starving, so there is no reason to go there. He also called the diminutive dictator of the oppressed nation a series of obscene names, saying Kim Jong-un is a "chubby, evil little f***."

But then the TMZ stringer asked what Bourdain would serve if he was asked to cater a dinner for President Trump.

Bourdain answered simply, "Hemlock," appearing to admit he would poison the president if given the chance.

Disclose Conflicts of Interest. Judge

Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr.

Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. See a full analysis of these events at Donna Kline Now! Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's Pfaff v. Wells Electronics, Inc. test for on-sale bar evidence, which included even the Federal Circuit's own Group One v. Hallmark Cards, Inc. test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie helped write that opinion. Group One test omission analysis.

Clerk of Court Jan Horbaly, U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court's ruling was challenged by an amicus curiae brief revealing clear mistakes of law and new evidence. See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in Leader v. Facebook. Mr. Horbaly failed to disclose his conflicts of interest and close associations with numerous Facebook attorneys and law firms, as well as his close association with one of Facebook's largest shareholders, Microsoft, who is a Director of The Federal Circuit Bar Association where Mr. Horbaly is an ex officio officer. Additionally, the DC Bar revealed in a written statement that Clerk Horbaly is not licensed to practice law in the District of Columbia. [Editorial: What does that make the Federal Circuit with its location within in a stone's

throw of the White House? A self-governing state?]

Judge Randall R. Rader, U.S. Court of Appeals for the Federal Circuit, chief judge responsible for the (mis)conduct of his judges and Clerk of Court in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. Chandler. See analysis of Judge Rader's undisclosed conflicts of interest in Leader v. Facebook. Judge Rader also did not stop his judges from creating new arguments and evidence for Facebook in the secrecy of chambers—after they had debunked all of Facebook's evidence on appeal, which is a clear breach of constitutional due process.

HERE'S ANOTHER GLIMPSE INTO THE DEPRAVED "LEADERS" WHOM WE HAVE LET RUN AMERICA. FOOL ME ONCE, SHAME ON YOU. FOOL ME TWICE, SHAME ON ME.

The Wikileaks classified email dumps have exposed Hillary Clinton for what she really is - a member of the infamous Rothschild family's inner sanctum, with occultist beliefs.

Lending further credibility to the idea that Presidents are not elected but are selected by a global shadow government, the Wikileaks email dumps expose Hillary Clinton's close relationship with the infamous Rothschild banking family and hints for a potential Rockefeller-State partnership.

The fact the mainstream media have been exposed colluding with the Clinton campaign cannot come as a surprise, considering she is the Rothschild's selected candidate.

Lynn Forester de Rothschild wrote an email on April 18, 2010, in which she tells Hillary she would "love to catch up" – and "I remain your loyal adoring pal." Clinton responds "let's make that happen," and signs her response, "Much love, H."

On September 23, 2010, Clinton emailed Lynn Forester de Rothschild saying, "I was trying to reach you to tell you and Teddy that I asked Tony Blair to go to Israel as part of our full court press on keeping the Middle East negotiations going ..."

Rothschild responds, thanking Clinton for "personally reaching out to us," and adds, "You are the best, and we remain your biggest fans."

A January 9, 2012, email discusses a meeting set to take place at Jacob Rothschild's "historic estate, Waddesdon."

Hillary Clinton is so deeply entrenched in the elite New World Order establishment that she even bows down to Moloch, the same occultist god they perform human sacrifice rituals for at the annual Bohemian Grove meetings.

In an email from August 29 2008, a senior government staffer writes to Hillary Clinton, "With fingers crossed, the old rabbit's foot out of the box in the attic, I will be sacrificing a chicken in the backyard to Moloch . . ."

Thanks to the Wikileaks Hillary Clinton Email Archive (containing 30,022 emails, free to search), we now have more concrete proof that Hillary Clinton and other globalist elites have occult ties. Nobody randomly uses Moloch in a conversation. Most people don't even know what Moloch is.

Zero Hedge. (Sep. 16, 2017). HIGH-RANKING CIA AGENT BLOWS WHISTLE ON DEEP STATE, SHADOW GOVT - NSA and CIA at the top of the shadow government apparatus. Infowars.

A CIA whistleblower, Kevin Shipp, has emerged from the wolves den to expose the deep state and the shadow government which he calls two entirely separate entities.

"The shadow government controls the deep state and manipulates our elected government behind the scenes," Shipp warned in a recent talk at a Geoengineeringwatch.org conference.

Shipp had a series of slides explaining how the deep state and shadow government functions as well as the horrific crimes they are committing against U.S. citizens.

Some of the revelations the former CIA anti-terrorism counter intelligence officer revealed included that "Google Earth was set up through the National Geospatial Intelligence Agency and InQtel." Indeed he is correct, the CIA and NGA owned the company Google acquired, Keyhole Inc., paying an undisclosed sum for the company to turn its tech into what we now know as Google Earth. Another curious investor in Keyhole Inc. was none other than the venture capital firm In-Q-Tel run by the CIA according to a press release at the time.

Shipp also disclosed that the agency known as the Joint Special Ops Command (JSOC) is the "president's secret army" which he can use for secret assassinations, overturning governments and things the American people don't know about.

In the shocking, explosive presentation, Shipp went on to express that there are "over 10,000 secret sites in the U.S." that formed after 9/11. There are "1,291 secret government agencies, 1,931 large private corporations and over 4,800,000 Americans that he knows of who have a secrecy clearance, and 854,000 who have Top Secret clearance, explaining they signed their lives away bound by an agreement.

He also detailed how Congress is owned by the Military Industrial Complex through the Congressional Armed Services Committee (48 senior members of Congress) giving those members money in return for a vote on the spending bill for the military and intelligence budget.

He even touched on what he called the "secret intelligence industrial complex," which he called the center of the shadow government including the CIA, NSA, NRO, and NGA.

paid to stay home. A retired educator sought data about student performance in Louisiana. And college journalists in Kentucky requested documents about the investigations of employees accused of sexual misconduct.

Instead, they got something else: sued by the agencies they had asked for public records.

Government bodies are increasingly turning the tables on citizens who seek public records that might be embarrassing or legally sensitive. Instead of granting or denying their requests, a growing number of school districts, municipalities and state agencies have filed lawsuits against people making the requests — taxpayers, government watchdogs and journalists who must then pursue the records in court at their own expense.

The lawsuits generally ask judges to rule that the records being sought do not have to be divulged. They name the requesters as defendants but do not seek damage awards. Still, the recent trend has alarmed freedom-of-information advocates, who say it's becoming a new way for governments to hide information, delay disclosure and intimidate critics.

As you read this thread in which I'm requesting information (that I own) from the FBI, keep in mind that Freedom of Information (FOI) law requires the government to turn over the requested information within about 30 days. Years later:

My FBI file.

Specifically, this includes—but isn't limited to—material regarding my required FBI background checks to obtain a White House "hard" press pass, which I obtained as a CBS News reporter starting in 1995 in order to have access to the White House and travel with presidents and first ladies. (1)

Graham W. Bishai, Lucas Ward. (Sep. 18, 2017). OUTCRAY AFTER CHELSEA MANNING DROPPED FROM IOP FELLOWSHIP. Harvard Crimon.

Controversy enveloped the Kennedy School of Government this weekend as critics on campus and around the country castigated the school for rescinding Chelsea Manning's appointment as a visiting fellow this fall.

Last week, after the Institute of Politics announced that Manning—a former Army soldier who went to prison for leaking classified military documents to WikiLeaks—was a visiting fellow this fall, conservatives and national security officials quickly denounced her selection as misguided and unpatriotic. CIA Director Mike Pompeo did not show up to a scheduled speaking appearance at the IOP Thursday in protest of Manning's selection, and Michael J. Morell, a former deputy director of the CIA, resigned from his fellowship at the school because of the appointment.

Facing criticism on-campus and nationwide, Dean of the Kennedy School Douglas W. Elmendorf rescinded Manning's invitation in a statement issued in the early hours of Friday, calling her selection a "mistake."

Now the school faces a fresh wave of controversy as commentators lambast Harvard's decision to disinvite Manning, a transgender activist whose prison sentence former President Barack Obama commuted in 2017.

Icelandic Prime Minister Bjarni Benediktsson speaks to the news media in Reykjavik. (Halldor Kolbeins/AFP via Getty Images)

In 2004, Hjalti Sigurjon Hauksson was imprisoned for raping his stepdaughter nearly every day for 12 years, starting when she was just 5. Thirteen years later, his crime has helped bring down Iceland's government.

The story involves Prime Minister Bjarni Benediktsson and his father, Benedikt Sveinsson.

Here's what happened: Several months ago, Sveinsson drafted a letter of recommendation for Hauksson, arguing that he should have his "honor restored." In Iceland, convicts can have certain civil rights restored by submitting letters of recommendation extolling good character. Hauksson and another convicted pedophile, Robert Downey (formerly named Robert Arni Hreidarsson), received full pardons over the summer.

Those decisions "rattled Icelandic society," according to Iceland Magazine. As a reporter explains: "Public and media have spent much of summer discussing the two cases and the horrifying world of violence and abuse they revealed."

[Iceland ousted one leader named in the Panama Papers, but ended up with another on the list]

Yet another Hillary Clinton and Barack Obama donor has been picked to work on special counsel Robert Mueller's team of Russia investigators.

The latest hire is Kyle Freeny, a Justice Department attorney working in the agency's international money laundering unit.

According to Politico, Freeny on Friday attended the grand jury testimony of Jason Maloni, the spokesman for former Trump campaign chairman Paul Manafort. Politico notes that Freeny is the 17th attorney identified as a member of Mueller's investigative team.

Mueller, a former FBI director, is conducting an expansive probe into possible campaign collusion involving the Trump team, as well as possible financial misdealings on the part of former Trump associates, such as Manafort. (RELATED: Mueller Hires Yet Another Democratic Donor)

LOOKS LIKE RUSSIA COPIES THE NSA. THEY NOW COLLECT AND STORE EVERYTHING THAT HAPPENS ON THEIR TELEPHONE AND INTERNET NETWORKS. WE CITIZENS OF THE WORLD HAVE BEEN SCREWED.

Julian Assange. (Sep. 19, 2017). SPY FILES RUSSIA. WikiLeaks.

This publication continues WikiLeaks' Spy Files series with releases about surveillance contractors in Russia.

The presentation was written just a few months after Edward Snowden disclosed the NSA mass surveillance program and its cooperation with private U.S. IT-corporations such as Google and Facebook. Drawing specifically on the NSA Prism program, the presentation offers law enforcement, intelligence and other interested parties, to join an alliance in order to establish equivalent data-mining operations in Russia.

In 2014, the system was expanded to include social media platforms, and the Ministry of Communications ordered companies to install new equipment with Deep Packet Inspection (DPI) capability. In 2016, SORM-3 added additional classified regulations that apply to all Internet Service providers in Russia. The European Court for Human Rights deemed Russia's SORM legislation in breach of the European Convention on Human Rights in 2015 (Zakharov v. Russia).

While the surveillance of communication traffic is a global phenomena, the legal and technological framework of its operation is different for each country. Russia's laws - especially the new Yarovaya Law - make literally no distinction between Lawful Interception and mass surveillance by state intelligence authorities (SIAs) without court orders. Russian communication providers are required by Russian law to install the so-called SORM (Система Оперативно-Розыскных Мероприятий) components for surveillance provided by the FSB at their own expense. The SORM infrastructure is developed and deployed in Russia with close cooperation between the FSB, the Interior Ministry of Russia and Russian surveillance contractors.

Jordan Carney. (Sep. 18, 2017). GRASSLEY: 'GOOD CHANCE' SENATE PANEL WILL CONSIDER BILLS TO PROTECT MUELLER. The Hill.

Sen. Chuck Grassley (R-Iowa) signaled on Monday that his committee could take up two bills aimed at protecting Robert Mueller, the special counsel for the investigation into potential ties between President Trump's campaign and Russia.

"We're looking into it, and there's a good chance we'll have a hearing," Grassley, chairman of the Judiciary Committee, told reporters.

He added that no decision has been made on scheduling a hearing.

Lawmakers have introduced two bills that would put checks on the Trump administration's ability to fire Mueller.

One, from GOP Sen. Lindsey Graham (S.C.) and Democratic Sen. Cory Booker (N.J.), would require a judge to approve a Justice Department request to fire Mueller or any other special counsel.

Another, from GOP Sen. Thom Tillis (N.C.) and Democratic Sen. Chris Coons (Del.), would let Mueller or any special counsel challenge their firing in court.

Tillis told CNN last week that the Judiciary Committee would hold a hearing in the next two weeks.

Just two months into her term as secretary of state, Hillary Clinton's foundation invited Russian leader Vladimir Putin, along with several other prominent heads of state, to the Clinton Global Initiative's 2009 annual gathering, emails obtained by the watchdog group Judicial Watch reveal.

The March 13, 2009, email from the Clinton Foundation showed that Putin and about 200 other leaders (including others just as controversial) were invited to attend a gathering that occurred at about the same time that the newly appointed secretary of state was attempting a "reset" with Moscow.

to Assistant Secretary of State Andrew Shapiro and then forwarded to top Clinton aide Jake Sullivan, also highlights the potential massive conflict of interest between a non-profit foundation and the federal government.

This may come as a shock to casual observers of global politics, as Clinton represented herself as a fierce anti-Putin hawk on the 2016 election campaign trail. Clinton routinely reprimanded now-President Donald Trump for not condemning Putin. She called Trump's stance on Russia "unseemly" and "beyond one's imagination."

Even after losing the election, Clinton has continued on the warpath against President Trump's stance on Russia.

"He doesn't just like Putin, he wants to be like Putin," Clinton said of Trump on MSNBC's Rachel Maddow show Thursday night.

But as secretary of state, Clinton took pains to engage with the Kremlin. Just one week prior to sending out the invites, Hillary flew to Geneva and presented the Russian foreign minister with an actual "reset button" to symbolize a new beginning in U.S.-Russia relations.

Lucas Nolan. (Sep. 16, 2017). REPORT: FORMER WASSERMAN SCHULTZ IT STAFFER ALLEGEDLY UPLOADED TERABITS OF INFORMATION TO DROPBOX. Breitbart.

[EDITOR: DROPBOX IS OWNED BY THE C.I.A. THROUGH GOLDMAN SACHS AND ACCEL PARTNERS LLP (JAMES W. BREYER) WHO IS MOVING THE BULK OF HIS VENTURE CAPITAL OPERATION TO CHINA IN CLOSE COLLUSION WITH C.I.A. IN-Q-TEL.]

A new report claims that former Debbie Wasserman Schultz IT staffer Imran Awan allegedly uploaded terabits of information from DNC servers to a private Dropbox account.

Circa reports that Imran Awan, the former IT staffer for Debbie Wasserman Schultz (D-FL) and other Congressional Democrats arrested for possible bank fraud and theft of government property, is now being investigated over possibly selling sensitive information to foreign governments. Circa alleges Awan transferred massive amounts of information, including government documents and emails, to his own private Dropbox account, allowing him to access the information even after he was blocked from DNC networks.

A senior House official told Circa that Awan was uploading "terabits of information to Dropbox so he was possibly able to access the information even after he was banned from the network." The House official claimed that they believe a full congressional investigation should be performed on the transfer of the data. "I think this may lead to information as to who really accessed the DNC server," said the official. "Everybody talks about Russia - but look at the access (Awan) had and potentially those emails could have been sold."

The report also claims Awan allegedly transferred files on House Democrats to a secret server attached to the House Democratic Caucus. At the time, the organization was chaired by Rep. Xavier Becerra, who left Congress in January when he was sworn in as Attorney General of California.

"There is no reason to accommodate all the members' data on one server and one that was apparently hidden," a senior House official told Circa. "Why didn't Xavier Becerra know this because it happened on his watch? Each member had their own server to protect against this and Awan intentionally tried to hide what he had done from investigators."

Circa alleges police informed Becerra that the server was the subject of an investigation but received a falsified image of the server which they reportedly consider to be interference in a criminal investigation.

Ex-president speaks to Carlyle, Cantor, Northern Trust

'If someone is willing to pay him to give a speech, God bless'

Hillary Clinton says she made a mistake when she gave speeches on Wall Street after leaving government. Taking money from banks, she writes in her new memoir, created the impression she was in their pocket.

Her old boss doesn't seem to share her concern.

Last month, just before her book "What Happened" was published, Barack Obama spoke in New York to clients of Northern Trust Corp. for about \$400,000, a person familiar with his appearance said. Last week, he reminisced about the White House for Carlyle Group LP, one of the world's biggest private equity firms, according to two people who were there. Next week, he'll give a keynote speech at investment bank Cantor Fitzgerald LP's health-care conference.

Justin Caruso. (Sep. 19, 2017). TUCKER ON FIRE OVER TRUMP WIRETAP: 'WE LIVE IN A COUNTRY WITH DEEPLY CORRUPT INSTITUTIONS'. Daily Caller / Infowars.

Tucker Carlson unloaded on U.S. intelligence and the mainstream media Tuesday on Fox News, alleging that American institutions are "deeply corrupt."

Carlson mocked critics in a sarcastic voice saying, "Wiretapping? Come on. That's tin foil hat stuff, it's nuts!"

The Daily Caller co-founder continued, "Now, in another time with more trustworthy institutions that would have been the end of the story. But we live in a country with deeply corrupt institutions..."

Carlson recapped recent reports, stating, "According to a now report from CNN, Paul Manafort who for a time last year was Trump's campaign chairman was wiretapped by the federal government both before and after the election."

"Manafort, it ought to be noted, had an apartment inside Trump Tower during that time so it's virtually certain that surveillance of him would have included other members of the Trump campaign staff, maybe Trump himself," he said.

American Mirror. (Sep. 20, 2017). MAXINE WATERS PUSHES TRUMP IMPEACHMENT - DURING A EULOGY - Unhinged Democrat congresswoman goes on anti-Trump tirade at funeral. Infowars.

Donald Trump is living rent-free in the head of Maxine Waters. The California congresswoman went on a stem winder of a eulogy during comedian Dick Gregory's funeral on Saturday, quickly turning it political and attacking the president of the United States, instead of remembering her friend.

"I'm cleaning out the White House," Waters declared. "We're going to sanitize the White House. We're not going to take what is happening in this country."

"When I get through with Donald Trump, he's going to wish he had been impeached!" Waters yelled, pointing at the crowd.

A workshop held at Ohio State University on Tuesday taught white student attendees about their "privilege," how to not act racist, and that it's impossible for white people to be victims of racism and only white people can be racist.

The event, titled "Interrupting Racism: Tips & Tools for White People," was one of the many programs the public university's multicultural center will host as part of its "Ally Week of Action," currently underway.

The center's workshop aimed to teach white students how to "develop a personal plan of action to interrupt racism," according to the university's website. It added that all were welcome to the "Interrupting Racism" workshop, however its content had a "focus on skill building amongst white identified people."

News that the Obama administration wiretapped Trump campaign chairman Paul Manafort in 2016 and again in 2017 at times when he was in regular contact with then-candidate Donald Trump is worrying, says former Arkansas Gov. Mike Huckabee.

Besides the fact the evidence now lends credence to Trump's much-ridiculed statement that the Obama administration had wiretapped him, Huckabee says the circumstances should be alarming to every American.

"Why did they engage in that wiretap?" Huckabee asked during Fox News' "Outnumbered" program. "This is frightening.

"If your government can just decide that it's going to tap into your phones because you played a political role that somebody in the government didn't want you to play, I'm sorry, that scares the bejeebies out of me," Huckabee continued.

Matt Novak. (Jun. 29, 2017). PETER THIEL DESCRIBED AS 'GREAT AMBASSADOR' FOR NEW ZEALAND DESPITE SECRET CITIZENSHIP. Gizmodo.

Peter Thiel, the billionaire tech mogul and high profile Trump supporter, was granted New Zealand citizenship in 2011, a fact that only came to light back in January. But the politician in charge of granting citizenship at the time has now defended the unusual move, calling Thiel a "great ambassador" for the country.

The New Zealand Herald reports today that Thiel spent just 12 days in New Zealand before being granted citizenship, which is raising eyebrows in the island nation. New Zealand law typically requires a person to live in the country for the majority of at least five years before they can apply for citizenship. Thiel obtained citizenship in a ceremony performed in Santa Monica, California after being granted a special exemption.

Nathan Guy, the Minister of Internal Affairs in 2011 who made the exemption, said Thiel has made "great investments" to New Zealand and has been "a great ambassador," despite the fact that his citizenship was a secret until very recently.

"This story got legs because of his connection to the Trump regime," Guy was quoted as saying in the New Zealand Herald. Thiel was a member of Trump's transition team and has been a major force in bringing Silicon Valley into the White House. Most recently, he attended a meeting on June 19th at the White House where other tech industry titans like Jeff Bezos and Tim Cook were present.

Jason Howerton. (Sep. 21, 2017). OBAMA'S FORMER SPY CHIEF NOW ADMITS IT'S 'POSSIBLE' TRUMP'S VOICE WAS PICKED UP IN WIRETAP. IJR. Obama's Former Spy

Earlier this year, former Director of National Intelligence James Clapper flat-out denied the existence of a FISA court order for a wiretap against the Trump campaign.

"But I will say that, for the part of the national security apparatus that I oversaw as DNI, there was no such wiretap activity mounted against the president-elect at the time, or as a candidate, or against his campaign," he said at the time.

Since then, news reports have claimed that former Trump campaign chairman Paul Manafort was wiretapped under a secret court order before and after the election.

Appearing on CNN Thursday, Clapper maintained he was not aware of a FISA warrant against Paul Manafort. He did, however, make an interesting admission.

"Is it possible the president was picked up in a conversation with Paul Manafort?" CNN's Don Lemon asked.

"It's certainly conceivable," Clapper responded.

"Is it likely?" Lemon pressed.

"I can't say," the former spy chief responded. "I wouldn't want to go there. I will say it's possible."

Chandler who was the mentor of Barrack Obama and Eric Holder. David J. Kappos, IBM's attorney was also a student of Chandler. Chandler represented Leader Technologies, Inc. who already had filed his source code patent through James Chandler but Chandler made it available to IBM who disseminated it to Apple, Google and other companies through the IBM Eclipse Foundation. This theft is one of the largest patent thefts in history. You can read about it in detail at the following urls.

Gary Rivlin, Michael Hudson. (Sep. 17, 2017). GOVERNMENT BY GOLDMAN - GARY COHN IS GIVING GOLDMAN SACHS EVERYTHING IT EVER WANTED FROM THE TRUMP ADMINISTRATION. The Intercept.

STEVE BANNON was in the room the day Donald Trump first fell for Gary Cohn. So were Reince Priebus, Jared Kushner, and Trump's pick for secretary of Treasury, Steve Mnuchin. It was the end of November, three weeks after Trump's improbable victory, and Cohn, then still the president of Goldman Sachs, was at Trump Tower presumably at the invitation of Kushner, with whom he was friendly. Cohn was there to offer his views about jobs and the economy. But, like the man he was there to meet, he was at heart a salesman.

On the campaign trail, Trump had spoken often about the importance of investing in infrastructure. Yet the president-elect had apparently failed to appreciate that the government would need to come up with hundreds of billions of dollars to fund his plans. Cohn, brash and bold, wired to attack any moneymaking opportunity, pitched a fix that would put Wall Street firms at the center: Private-industry partners could help infrastructure get fixed, saving the federal government from going deeper into debt. The way the moment was captured by the New York Times, among other publications, Trump was dumbfounded. "Is this true?" he asked. Was a trillion-dollar infrastructure plan likely to increase the deficit by a trillion dollars? Confronted by nodding heads, an unhappy president-elect said, "Why did I have to wait to have this guy tell me?"

Mainstream political polls that were wrong about the 2016 presidential race still use a methodology favoring Democrats, women and younger voters to calculate President Donald Trump's approval ratings, a new analysis contends.

The analysis, posted by Bombthrowers, charges the top polls oversample an average of 29 percent more Democrats than Republicans – chopping about 8 points off the president's approval ratings, from 46 percent to 38 percent.

For example, Bombthrowers's analyst James Simpson charged that a recent Economist survey on Trump's approval rating used 58 percent more Democrats than Republicans.

"In every poll, Democrat respondents outnumbered Republicans by significant amounts," Simpson wrote.

Alicia Powe. (Sep. 23, 2017). WASHINGTON WATCHDOG OUT TO UNCOVER DRAFT HILLARY INDICTMENT - Wants Whitewater paperwork released from National Archives. WND.

WASHINGTON - Hillary Clinton's legal fights over her use of a private email server while secretary of state are far from over, with multiple court cases still in progress.

But now she has another battle on her hands, as Washington watchdog Judicial Watch is working to make public the details of Whitewater, the decades-old scandal in which she emerged relatively unscathed at the time.

Judicial Watch lawyers appeared before a federal appeals court in Washington Friday arguing for the release of draft indictments of Hillary Clinton from the 1990s Whitewater scandal. A ruling is expected later.

The watchdog group has been demanding the National Archives release documents the archives maintains "should be kept secret [to preserve] grand jury secrecy and Clinton's personal privacy."

Judicial Watch filed a FOIA request for the documents in March 2015.

Then in October that year the group sued the National Archives and Records Administration for release of the 238 pages of related records.

U.S. District Court Judge Reggie Walton [EDITOR: Walton has been a rubber stamp FISA judge who is a crony of James P. Chandler and Eric H. Holder] ruled that the documents must be withheld in light of Clinton's "substantial privacy interest," which he claimed outweighed any public interest in disclosure.

But Judicial Watch appealed, contending an abundance of information about Whitewater has already been made public and that "there is no secrecy or privacy left to protect."

A federal judge in Minnesota with a long history of Democratic Party activism has issued a ruling that effectively concludes the LGBT agenda trumps the First Amendment's religious-rights protections.

Judge John Tunheim, appointed by former President Bill Clinton

John Tunheim, appointed by then-President Bill Clinton in 1995, ordered Wednesday that Christian videographers Carl and Angel Larsen, through their company, Telescope Media Group, must use their filmmaking talents to promote same-sex marriages if they produce

films that celebrate marriage as the union of one man and one woman.

Their lawyers announced immediately they will appeal the decision by Tunheim, who charged in his opinion that the Larsens' faith-based objection to creating videos promoting same-sex relationships is "akin to a 'White Applicants Only' sign."

The ruling came in a case the Larsens brought against state officials over their enforcement of the Human Rights Act, which bars discrimination in the workplace on the basis of "sexual orientation."

John R. Tunheim has been heavily involved in the New World Order. His history shows he "helped" countries of Eastern Europe, including Kosovo (decimated by Bill Clinton), in setting up their election systems.

John R. Tunheim is also heavily involved with the World Bank, RAND Corporation, USAID JPMorgan Chase and Checchi Consulting. All four are major supporters of the New World Order agenda.

He is heavily invested in American Funds whose directors, officers and trustees read like a Who's Who of the New World Order, including:

Louise Bryson - J. Paul Getty Trust
 Mary Dolan - Lost Angeles Herald Examiner
 Pablo Guajardo - Kimberly-Clark
 William King - American Public Media
 John Mazziotta - UCLA Health System
 WYPR Baltimore/Washington - Public radio

[WND Editor's note: The information from this story is provided by Bibles for Mideast, an underground ministry focusing on Bible distribution, evangelism and house-church planting in the Middle East, South Asia and parts of Africa.]

A Muslim who says he beat and killed Christians because of their faith and says he was

miraculously healed from bullet wounds he received in one of those attacks has not only converted but become the pastor of a home church in an undisclosed Islamic country, according to Bibles for the Mideast.

Zakkir, a pseudonym, and his father lived to uphold the many religious rules governing their solidly Muslim country, one of the strictest in the Middle East. They followed Islamic ritual practices fanatically, and if they witnessed anything or anyone "out of order," had no reservations about resorting to violence.

Zakkir's father served in an often-merciless Islamic religious force known as Muttawa, while his son headed up an outlaw gang of angry young militants. All were fully committed to punishing anyone daring to defy the stern laws and practices of Islam.

Under the guise of 'automation' they are making it possible for thousands of records to be instantly changed by 'scanning'. This is a total cluster fuck of criminality. This needs to be stopped in 'court' immediately.

Just last week, the U.S. Senate took a big step toward advancing legislation that would partially strip away the internet industry's bedrock legal protection, a 1996 law that shields companies from liability for the activities of their users.

At the same time, Democratic senators are writing legislation that would create new disclosure rules for online political ads after Facebook this month revealed that suspected Russian trolls purchased more than \$100,000 worth of divisive ads on its platform during the 2016 election cycle. The U.S. Federal Election Commission is considering bringing in Facebook and other tech firms for a public hearing.

A FDA-registered food safety laboratory tested iconic American food for residues of the weed killer glyphosate (aka Monsanto's Roundup) and found ALARMING amounts.

Just to give you an idea of how outrageous these amounts are, independent research shows that probable harm to human health begins at really low levels of exposure - at only 0.1 ppb of glyphosate. Many foods were found to have over 1,000 times this amount! Well above what regulators throughout the world consider “safe”.

Charlie Spiering. (Sep. 22, 2017). DONALD TRUMP: 'FAKE NEWS MEDIA' TRIED TO SWING ELECTION TO 'CROOKED HILLARY.' Breitbart.

President Donald Trump responded to failed former presidential candidate Hillary Clinton’s accusations against Facebook for allowing Russia to buy ads in the 2016 presidential election.

“The Russia hoax continues, now it’s ads on Facebook,” Trump wrote. “What about the totally biased and dishonest Media coverage in favor of Crooked Hillary?”

Donald J. Trump ✓ @realDonaldTrump:

The greatest influence over our election was the Fake News Media “screaming” for Crooked Hillary Clinton. Next, she was a bad candidate!

The president was responding to the news that Mark Zuckerberg turned over information about Facebook ads purchased by Russia, as they tried to influence the election.

But Trump reminded Clinton that she had plenty of actors trying to swing the election to her favor.

WARNING: NWO (NEW WORLD ORDER) GLOBALIST MICHAEL BLOOMBERG IS ALL IN WITH CENSORSHIP. Resist. Don't you feel so much better now that these billionaires want to protect you from messages they don't approve of?

Nate Church. (Sep. 21, 2017). MICHAEL BLOOMBERG: FACEBOOK MAY NEED TO 'READ EVERY MESSAGE' TO STOP FAKE NEWS. Breitbart.

At the first Bloomberg Global Business Forum in New York, former New York City Mayor Michael Bloomberg asserted that social media platforms "have to be more aggressive" in fighting "fake news."

Bloomberg believes that if stopping the spread of "fake news" means that Facebook has to "read every message," that it is "[Facebook's] problem, [not] society's problem." He said that the proliferation of fake news is "not all their fault," but, "They have a responsibility. And if they say, 'Well, there's no ways to do it other than maybe we're going to have a human being read every message,' I'm sorry. You're going to have to do that.

Bloomberg compared it to other systems of regulation, which he said makes banks "responsible under the law, to make sure that you don't launder money," and telephone companies "responsible to know where calls come from." The former mayor said that he "assumes what [he reads] in the newspapers is true," saying that supposed Russian interference in American politics is "as bad as attacking our country with weapons" and is "killing democracy."

John Nolte. (Sep. 19, 2017). NOLTE: MSM ALWAYS KNEW TRUMP CAMP WAS WIRETAPPED - THEY JUST LIED ABOUT IT. Breitbart.

President Trump's total vindication over his wiretap claim reminds me of one of the most important things I have discovered over the past couple of years: If the national media loses its ever-loving mind and launches a campaign to brand Trump a liar, that can mean only one thing — that Trump is not only telling the truth, he is telling a Big Truth, an inconvenient truth, a truth the MSM does not want the American people to hear.

Almost exactly two years ago this sick pattern developed over then-candidate Trump's assertion that he had seen "thousands" of American Muslims celebrate the September 11

terror attacks. For weeks after, every media outlet in America trashed Trump as a racist and liar. What we eventually learned, though, is that Trump was 100% correct; that at the time, local media reported on "swarms" of American Muslims celebrating 9/11, and that for more than a decade our media had bent over backwards to cover this disturbing truth up.

Which brings me to Trump's March 4 tweet-storm claiming the Obama administration wiretapped his campaign.

The shameless and dangerous serial-liars over at CNN, the same leftwing CNN that openly calls for riots in black neighborhoods, that pointed what looked like a sniper scope at President Trump's office window, that openly jokes about Trump's plane crashing, that knew the "Golden Showers" dossier was a pile of fake news when they stopped the world to tell us about it, that openly compares Trump to Hitler, that lies and lies and lies and lies and lies and OMG lies, does not want to see Trump's former press secretary Sean Spicer "normalized."

The thing to keep in mind is that CNN's rampage against Spicer has nothing to do with "normalizing" anyone. What this really is about is a blacklisting crusade. CNN is sending a message to "polite society" to not hire Spicer because he's a liar," because he "lied" to the media and to the American people... Something CNN does pretty much does every hour of every day.

Tom McKay. (Sep. 23, 2017). ADOBE'S PRODUCT SECURITY TEAM ACCIDENTALLY POSTED ITS PRIVATE PGP KEY TO ITS BLOG. Gizmodo.

The past few weeks have been a nightmare for data breaches, so good news: Here's another easily preventable security problem. Adobe's Product Security Incident Response Team accidentally posted the private PGP encryption key—necessary to decrypt encoded messages transmitted to them using their public PGP key—associated with their psirt@adobe.com email account this week, Ars Technica reported.

The mistake was first noticed on Friday afternoon by security researcher Juho Nurminen, who posted it to Twitter with the caption "Oh shit Adobe."

PGP, which stands for Pretty Good Privacy, is a method for sending encrypted messages with close to government-grade security. PGP users receive two keys: a public PGP key tied to an email address or username, which encrypts incoming messages, and a private key which should be known only to the recipient used to decrypt said messages.

The same liberal hype machine that slams Ivanka Trump at every turn just loves to hold Chelsea Clinton up on a pedestal.

But last week, she was knocked right off it.

Chelsea was CAUGHT dead to rights not only feeding the left-wing hype machine, but spreading a deliberately false story concocted just to panic liberals. She wanted to make conservatives look bad and further divide the nation.

"Absolutely appalling," Clinton breathlessly wrote on Twitter. "Michigan House passed bill allowing EMTs to refuse treatment to gay people."

She linked to a story about the bill, which CBS Detroit legal analyst Charlie Langton claimed would mean "a Christian doctor who does not believe in a gay lifestyle, would not have to treat a gay patient."

Just one problem: It's the very definition of FAKE NEWS!

Hillary Clinton is at it again. In her cool new book "What Happened?" she comes up with any number of people and institutions to blame for her stunning defeat. She seems to blame everyone but herself.

At the same time she recycles the lies of John Podesta claiming falsely that I knew about Podesta's email being hacked in advance, that I knew the content of the WikiLeaks October disclosures and that my brief and now totally public exchange with somebody calling themselves Guccifer 2.0 is anything but innocuous, benign and meaningless.

I have a feeling these questions will come up when I testify before the House Intelligence Committee next Tuesday. Let's take a look at Hillary Clinton's latest lies:

Despite once saying that it was "crazy" to believe Russians influenced the 2016 election, Facebook knew about a possible operation as early as June, 2016, the Washington Post reports. It only started taking it seriously after President Obama met privately with CEO Mark Zuckerberg ahead of Trump's inauguration. He warned that if the social network didn't take action to mitigate fake news and political agitprop, it would get worse during the next election. Obama's aides are said to regret not doing more to handle the problem.

WASHINGTON, D.C. - The IRS Form 990 tax filings reported by the Barack Obama Foundation in 2014 and 2015 shows Obama has hired as the foundation's accountant a small CPA firm in Chicago that has been reprimanded by the Public Company Accounting Oversight Board in Washington, D.C., for having filed a audit considered deficient according to industry accepted accounting standards.

According to the Barack Obama Foundation's 2014 and 2015 IRS Form 990s and to its website, the Chicago CPA firm, Washington, Pittman & McKeever, LLC, was the audit firm preparing both tax filings.
Reckless Endangerment?

Charles Ortel, a Wall Street analyst who has been studying presidential foundations since February 2015 cautions that "the public record that is known so far suggests that politically connected partisans serving as Barack Obama Foundation trustees may be emulating the long and dangerous record of Clinton Foundation trustees, also politically connected and partisan, who flout state, federal, and foreign charity and solicitation laws with wanton disregard for their solemn legal duties."

"One key obligation", Ortel added, "is to select an accounting firm that is qualified and prepared to render opinions and provide services that result in issuance of independently audited financial statements prepared fully in compliance with Generally Accepted Accounting Standards in the United States, on a consistent basis, year to year."

Prissy Holly. (Sep. 27, 2017). BREAKING: INTEL OFFICER REVEALS HOW OBAMA WILL BE 'FIRST PRESIDENT IN HISTORY' TO BE HIT WITH A FELONY INDICTMENT. Freedom Daily.

After getting away with whatever the hell he wanted over the past 8 years, it looks like Obama's cockiness might just be his undoing. In the last days of his presidency we are now learning that he wiretapped and spied on Trump throughout the presidential election, as a way to get "dirt" and ruin his election chances against Hillary. As 'Obamagate' blows wide open, the realization of just how screwed Obama could be in the coming weeks would be completely devastating, as former intelligence officer Lt. Col Tony Shaffer has just revealed.

As liberals push back on the narrative that Obama wiretapped Trump's phones, the evidence against Obama continues to pile up. And if it can be proven that Obama's wiretapping was illegal, the end result would be the unprecedented indictment of the former president on FELONY CHARGES.

In a recent interview with Trending Today USA, Lt. Col Tony Shaffer called 'Obamagate' an "order of magnitude" even bigger than the Watergate scandal because the incident included "using nation-state resources for purposes of political gain."

ILLEGAL SPY STATE AUTHORITIES EXPIRE IN 4 DAYS

Executive Order 13708 expires on Sep. 30, 20 17

DUBIOUS PRESIDENTIAL ORDERS CREATED THE ILLEGAL C.I.A. / NSA / FBI SURVEILLANCE STATE EXPIRE ON SEP. 30, 2017

Presidents Clinton, Bush & Obama created "The IBM Internet of Things" to spy on all of us & destroy the Constitution

The Russian canard is a smokescreen for this evident treason

Executive Order 13708 expires on Sep. 30, 2017. The order is the latest in a continuity of orders that reaches back to Bill Clinton on Jul. 14, 1999 who signed an executive order titled the "National Infrastructure Assurance Council (NIAC)."

This order gave cover for the Deep State shadow government to gather "not more than 30 members appointed by the President" from the public and private sectors to ostensibly oversee "critical infrastructure protection." This became the umbrella for the devolution of the U.S. Constitution by globalist corporatists pushing their permanent control in a "New World Order."

In reality, NIAC, whose name changed under George Bush in late 2001 from "Assurance" to "Advisory," has become the chief globalist controller for the military-industrial complex takeover of the Internet, and the global spying-eugenics-blackmail grid. The membership is predictable: NASDAQ, Daimler-Chrysler, ITAA, Harvard, Yale, Stanford, Georgetown, UPenn, SANS Institute, Univ. of Texas, James P. Chandler, Bill Gates, Microsoft, RSA, AETNA, SEC, IBM, ***Cisco***.

The Russian canard hides real Globalist treason

This is the same Cisco (with Google and Intel) who on Jun. 27, 2010 gave \$1 billion at to the Vladimir Putin's Skolkovo Foundation near Moscow, Russia. Magically, two days later on Jun. 29, 2010, Bill Clinton was paid \$500,000 for a single speech to Renaissance Capital, Moscow. Renaissance was the chief financial analyst for Clinton Foundation crony Frank Giustra who promoted a "buy" rating for Hillary Clinton's Uranium One sale of 20% of the U.S. uranium reserves to Vladimir Putin. Giustra made over \$3.1 billion in that deal and became a major \$152 million Clinton Foundation donor (Clinton Giustra Enterprise Partnership, Clinton Giustra Sustainable Growth Initiative.)

Cisco paid Bill & Hillary Clinton \$980,000 for speeches. Cisco's underwriters Goldman Sachs paid them \$1,115,000 and Citigroup, founded in 1999 after Clinton and Summers abolished Glass-Steagall, paid them \$700,000.
