**Part II: Gifts, Reimbursements, and Travel Expenses**

For you, your spouse and dependent children, report the source, a brief description, and the value of: (1) gifts (such as tangible items, transportation, lodging, food, or entertainment) received from one source totaling more than \$260; and (2) travel-related cash reimbursements received from one source totaling more than \$260. For conflicts analysis, it is helpful to indicate a basis for receipt, such as personal friend, agency approval under 5 U.S.C. § 4111 or other statutory authority, etc. For travel-related gifts and reimbursements, include travel itinerary, dates, and the nature of expenses provided. Exclude anything given to you by

the U.S. Government; given to your agency in connection with official travel; received from relatives; received by your spouse or dependent child totally independent of their relationship to you; or provided as personal hospitality at the donor's residence. Also, for purposes of aggregating gifts to determine the total value from one source, exclude items worth \$104 or less. See instructions for other exclusions.

## Relationship to Facebook (Conflict of Interest):

a.	Fidelity	<p>Annual Report, 1-31-2013: "...the Fund, as a shareholder in the underlying Fidelity Central Funds, will indirectly bear its pro-rata share of the fees and expenses incurred by the underlying Fidelity Central Funds."</p> <p>Therefore, this fund benefits from the movement of Facebook stock held by Fidelity Central Funds that purchased pre-IPO Facebook private insider stock and distributed those shares to over 30 Fidelity Funds. When one fund benefits, all benefit, including FLPSX.</p> <p>"Fidelity's Danoff Bets on Facebook, Zynga" by Miles Weiss, <i>Bloomberg</i>, Jun. 1, 2011 &lt;<a href="http://www.bloomberg.com/news/2011-06-01/fidelity-s-danoff-bets-on-facebook-zynga.html">http://www.bloomberg.com/news/2011-06-01/fidelity-s-danoff-bets-on-facebook-zynga.html</a>&gt;.</p>
b.	Microsoft	<p>Microsoft is one of <b>Facebook's</b> largest shareholders. This fact is notoriously known. In addition, Microsoft is a director in the "Leaders Circle" of the <b>Federal Circuit Bar Association (FCBA)</b>, which made an appearance in the <i>Leader v. Facebook</i> appeal. Microsoft's counsel in the <i>Microsoft v. i4i</i> case in 2011 was Facebook's appeals attorney in <i>Leader v. Facebook</i>—<b>Thomas G. Hungar, Gibson Dunn LLP</b>. Chief Justice <b>John G. Roberts, Jr.</b> recused himself from that matter due to his relationship to Hungar and Microsoft. In fact, Thomas G. Hungar, Gibson Dunn LLP, was "counsel of record" for Microsoft. Also representing Microsoft in i4i was <b>Weil Gotshal LLP</b>, who also made an appearance for the FCBA in <i>Leader v. Facebook</i>. Despite Justice Roberts' recusal in Microsoft v. i4i, he failed to recuse himself in this matter where his conflicts were markedly more obvious, including his holdings in such Facebook "dark pool" funds as <b>Fidelity Contrafund K</b> which held stock in Facebook and numerous notoriously known Facebook cartel members, including <b>athenahealth, Microsoft, Goldman Sachs, Dropbox, IBM, JPMorgan, LinkedIn, Morgan Stanley, State Street Corp, Tesla Motors, Baidu</b> (China), and <b>Mail.ru</b> (Russia).</p>

d.	<b>Xerox Corp.</b>	<p><b>Facebook's</b> expert witness, <b>Dr. Saul Greenberg</b>, is closely associated and was formerly employed by Xerox Corp. and asserted a number of Xerox patents as alleged prior art at the <i>Leader v. Facebook</i> trial. Despite losing his arguments at trial, and in two patent reexaminations, Facebook continues to press these Xerox patents. Facebook somehow got <b>Patent Office Director, David J. Kappos</b>, to order an unprecedented third patent reexam of Leader's U.S. Patent No. 7,139,761. The patent examiner, <b>Deandra Hughes</b> has dramatically reversed her longstanding opinions on these Xerox assertions. As troubling, Kappos assigned judge <b>Stephen C. Siu</b> as chief patent judge in this matter, despite the fact that no one disclosed that Judge Siu was formerly employed by Microsoft.</p> <p>David J. **g. Facebook**

On July 27, 2010, found guilty of infringing **Leader Technologies, Inc. U.S. Patent No. 7,139,761** on 11 of 11 claims. The verdict was split with a ruling of on-sale bar. However, Facebook presented no hard evidence and failed to perform any of the well-settled tests, e.g. *Pfaff Electronics* and *Group One v. Hallmark Cards*. The Federal Circuit affirmed the lower court after rejecting the lower court's arguments for on-sale bar and fabricating new evidence on argument for Facebook in the secrecy of chambers, without a hearing. Chief Justice **John G. Roberts** refused to take Leader Technologies' Petition for Writ of Certiorari.

Tellingly, the judges in this case hold this Fidelity Contrafund stock, namely Chief Justice John G. Roberts, Federal Circuit Judge **Kimberly A. Moore** and Federal Circuit Judge **Evan J. Wallach**.

It is notoriously known that during the pendency of the *Leader v. Facebook* trial, President Obama's political organization via **Obama for America** and **Organizing for America** exploited over 47 million "likes" on Facebook, an infringed technology, to raise money and influence voters in the 2008 and 2012 elections.

j.	IBM	<p>IBM sold <b>Facebook</b> 750 patents during the pendency of <i>Leader v. Facebook</i>. The former Director of the U.S. Patent Office, <b>David J. Additionally, Facebook’s patent counsel in these IBM transactions is <b>Fenwick &amp; West LLP</b> who has substantial conflicts of interest since the firm formerly represented <b>Leader Technologies, Inc.</b> in 2002-2003—the company whose social networking technology is being infringed by Facebook.</p> <p>Prior to leaving his post as Director of the Patent Office, David J. By TELIS DEMOS [CONNECT](#)

We [reported this morning about the concentration](#) of Facebook stock in the portfolio of one group of investors, several mutual funds operated by Morgan Stanley Asset Management. But that is not where the concentration of Facebook stock ends.

According to fresh data from Ipreo, which has tallied up the public filings by all investors, a relatively large chunk of Facebook stock just three months after its \$16 billion IPO in May is held by the company's 10 largest institutional investors (that excludes insiders, like CEO Mark Zuckerberg, and the early VC investors, like Accel Partners).

AFP/Getty Images

The top 10 "accounts," in banker-speak, represent about 50% of Facebook's institutional ownership, according to Ipreo, the capital markets data firm. That tops the 42% concentration for the top 10 institutions for all second quarter tech IPOs three months after they went public. Across more comparable \$1 billion-plus IPOs since 2010, the concentration is even lighter: The top 10 institutional accounts held 32% of those companies' shares.

This data, keep in mind, does not tell us who bought the IPO. That's a closely guarded secret held by the lead underwriters. These figures are based on public disclosures as of June 30. They are at best a proxy for how the IPO was actually distributed.

So who are the biggest betterers — by total number of shares, not necessarily by weighting within the fund — on Facebook? Morgan Stanley Asset Management is only the fifth largest holder by that measure, according to Ipreo. Above them are Goldman Sachs Asset Management, Baillie Gifford & Company, Fidelity Investments, and T. Rowe Price Group Inc. Rounding out the top 10 are BlackRock Inc., Sands Capital

Management LLC, Jennison Associates LLC, The Vanguard Group Inc. and Capital Research Global Advisors Inc.

Some of those investors were big pre-IPO holders. Goldman Sachs famously marketed a fund with pre-IPO Facebook stock to international investors, which accounts for a big chunk of its holdings. T. Rowe Price and Fidelity also bought in before the IPO. The point here is that they all may still be sitting on Facebook stock gains, depending on when exactly they got into the stock.

Others, however, appear to have gotten in primarily via the IPO, or after it began trading. That includes Baillie Gifford, an Edinburgh-based fund management giant that manages assets of £76.0 billion (\$120 billion). They are a sub-advisor to some large fund management families, like Vanguard, but also manage money on behalf of giant pension funds such as the California Public Employees' Retirement System (CALPERS), the New York City Police Pension Fund and the Korea National Pension Service, according to their website. The firm did not return requests for an interview.

Some of the big investors are also there just because they have to be. BlackRock and Vanguard operate many index funds that may have bought Facebook stock solely because it likely will be a member someday of indexes such as the S&P 500 and Nasdaq 100, and is already in indexes such as the Russell 1000.

What speaks loudly are the absences of firms that are typically very big holders of recently IPO'd companies. Citadel Advisors, which bought 17 other second-quarter IPOs according to Ipreo, owned just 167,164 Facebook shares at the end of June. Wellington Management Company LLP and Lord Abbett & Company LLC, which bought 11 second quarter IPOs, both held fewer than 1m shares. For context, Baillie Gifford reported holding 19 million shares.

## T. Rowe Price Discloses \$190 Million Stake in Facebook

By *EVELYN M. RUSLI*

T. Rowe Price has made several recent investments in social media companies, including Facebook and Zynga, according to recent filings.

The value of its Facebook investments, made through various funds, totals \$190.5 million (as of the end of March), according to calculations made by DealBook from data on T. Rowe's [Web site](#). T. Rowe Price confirmed the value to DealBook.

Although the firm did not disclose exactly how much it paid for its shares, the current value is close to the initial investment since the stakes were purchased in March. T. Rowe Price's funds also had investments in Zynga worth \$71.8 million and in Groupon worth \$86.8 million.

Although the holdings represent a small fraction of T. Rowe's investments — the firm has some \$482 billion in assets under management — T. Rowe has become increasingly aggressive in the social media and larger technology sectors. In 2009, T. Rowe participated in a \$100 million round for Twitter, with Insight Venture Partners, Benchmark Capital and [Morgan Stanley](#). Since then, the firm has courted several fast-growing social-centric start-ups.

According to data on its site, T. Rowe's investments in social Internet companies are worth more than half a billion dollars, spread across more than a dozen funds. Still, no individual holdings represents more than 1 percent of any fund.

The firm's investment in Ning is worth about \$10 million, its stake in Angie's List is valued at \$35 million, its stake in [YouKu.com](#) is valued at \$114 million, and the 2009 investment in Twitter is now worth nearly \$67 million, according to data on its site.

# Morgan Stanley Funds in Big Facebook Bet

By Aaron Lucchetti and Telis Demos

U.S. mutual funds run by [Morgan Stanley](#), [MS -0.12%](#) the lead underwriter in Facebook Inc. FB \$16 billion initial public offering, have disproportionately high investments in the social-media company, leaving fund shareholders exposed to the stock's big drop since its May 18 IPO.

[Morgan Stanley Bets Big on Facebook](#) by [WSJ Live](#)

New data show that eight of the top nine U.S. mutual funds with Facebook shares as a percentage of total assets are run by Morgan Stanley's asset-management arm, according to fund tracker Morningstar Inc.

Morgan Stanley had a crucial role in lining up orders for Facebook as the social-media company prepared to go public. It helped advise Facebook executives to increase the size and price of the IPO, despite warnings the company was making about its profit outlook. The New York securities firm, which declined to comment, took in \$200 million in underwriting fees and trading profits,

according to regulatory filings and people involved in the deal.

The Morgan Stanley funds that have Facebook shares got many of them before the IPO at prices well below the \$38 offering price.

That means that fund shareholders may still have paper gains on their Facebook purchases, depending on when the fund bought their original stake. It also means the funds have been unable to sell any of their pre-IPO holdings.

The company's mutual funds have made large bets on other big-name technology companies in recent years, including bets on [Apple Inc.](#), AAPL +1.48% [Amazon.com Inc.](#) AMZN -1.06% and [LinkedIn Corp.](#) LNKD +0.14% whose values have all surged this year.

Still, the Morgan Stanley funds' large stakes raise questions about whether the firm's role as lead underwriter influenced decisions.

A large investment bank that simultaneously buys and sells shares in any company "is in this conflicted position," said Frank Partnoy, a law professor at the University of San Diego who worked for Morgan Stanley in the 1990s. "This time it didn't work out."

The funds span the \$1.6 billion Focus Growth fund to the \$2.5 million Institutional Global Advantage fund.

Morgan Stanley's funds don't appear to have violated Securities and Exchange Commission rules limiting investments in offerings underwritten by an affiliate. SEC rules allow bank-affiliated mutual funds to participate in offerings in which the bank's investment bankers are advising the company, as long as the fund managers don't buy more than 25% of the deal and they buy the shares from a different bank.

The concentration of Morgan Stanley's funds stands out when compared with funds operated by other large institutional holders of Facebook stock.

Morgan Stanley Focus Growth Portfolio had 5.7% of its assets in Facebook shares as of July 31, according to Morgan Stanley's website, while Morgan Stanley Institutional Opportunity Portfolio had 5.5% and Morgan Stanley Institutional Growth Portfolio had 4.8%. Others among the eight Morgan Stanley mutual funds range between 3.6% and 4.6%. Those proportions ranged between 5% and 7.8% on June 30, according to the most recent Morningstar data that included other fund families.

"It's surprising that so many Morgan Stanley affiliated funds out of the thousands of mutual funds show up as having

extremely big weights," said Jay Ritter, a professor of finance at the University Florida.

Morgan Stanley isn't the largest institutional holder of Facebook.

Larger holders by dollar value include Fidelity Investments, [T. Rowe Price Group](#) Inc. TROW -0.79% and Goldman Sachs Asset Management, a unit of underwriter [Goldman Sachs Group](#) Inc. GS -0.24% Goldman also owned Facebook shares before its IPO

Goldman's most concentrated mutual fund position in Facebook was the Technology Tollkeeper fund, with Facebook making up 2.85% of its portfolio as of the end of June.

No mutual funds operated by Fidelity or T. Rowe Price, two other large institutional holders, publicly reported holding more than 1% of their portfolios in Facebook through June.

Many of the Morgan Stanley funds are sold to institutions only, and require a \$5 million minimum investment.

Morgan Stanley Multicap Growth Fund—one fund open to retail investors, including Morgan Stanley Smith Barney brokers—had a stake in Facebook as early as November 2010, when Facebook shares were valued at about \$13. They closed Thursday at \$19.44, down 49% since the IPO.

In June, a commentary on Morgan Stanley's fund website noted that Facebook and other technology stocks were "the leading detractor in the portfolio this quarter," attributing the decline in Facebook shares "to post-IPO volatility."

Under SEC rules, mutual fund managers also are bound by fiduciary duties to look out for their investors' interests over their own.

There's no sign that fund managers at Morgan Stanley bought Facebook shares because of the firm's underwriting relationship with Facebook, or to help curry favor with Facebook executives who chose Morgan Stanley for a key underwriting assignment in the spring IPO.

Mr. Ritter cited "psychological factors" as a possible explanation for the large investments, driven by the fact that many of the funds owned a big chunk of Facebook shares before the company sold shares to the public.

"There's a tendency to fall in love with what you've got rather than stepping back," said Mr. Ritter. Many Morgan Stanley funds added to their pre-public stakes during the month of the IPO—a sign, he said, that "they were drinking the Kool-Aid and became true believers."

Morgan Stanley has streamlined its mutual fund business under Gregory Fleming, who runs both the firm's asset management and wealth management units. Morgan Stanley's asset management at the end of June managed \$311 billion and produced \$456 million in revenues.

Morgan Stanley funds with the strongest liking for Facebook are overseen by Dennis Lynch, the firm's head of growth investing. A Morgan Stanley spokesman declined to comment on behalf of Mr. Lynch.

## Fidelity Invests \$74 Million in Facebook & \$82 Million in Zynga

[Gregory Gomer](#) Jun 2nd 2011 at 2:31 pm

[Facebook](#), [Zynga](#), [Fidelity](#)

+1

According to the [Boston Globe this morning](#), Fidelity Investments made a few large investments in social media during the first quarter of this year. It is reported that William Danoff, the manager of Fidelity's Contrafund - it's biggest and very popular fund - has invested \$74 million in Facebook Class B common shares and \$82 million in Zynga

convertible preferred stock. Danoff has managed the \$80 billion Fidelity Contrafund since September 1990.

In the [article](#), "Vincent Loporchio, a spokesman for Fidelity, said more than 30 of its funds held Facebook shares as of April 30. No fund had more than 0.15 percent of its assets invested in Facebook, said Loporchio, who declined to comment further."

This is certainly no surprise as large funds have been dying to get their hands on the red hot shares of these social media companies, but it does mark a scary trend.

These secondary markets are not regulated at all by the SEC, and most funds have avoided these privately traded stocks for years. These markets can be extremely volatile and guess what is going to be first to crash, once this said "bubble" we are in either pops or deflates?

I certainly like this move, historically these markets have proven to be extremely valuable leading up to the company's IPO's but again can be very risky. The fund also has a \$5.3 billion stake in Apple Inc. and \$3.8 billion in Google Inc.

Having that said, being a Fidelity alum I have money in the Contrafund and dig the investment.

## Fidelity's Danoff Bets on Facebook, Zynga

By Miles Weiss - Jun 1, 2011

William Danoff, the manager of Fidelity Investment's largest stock fund, established a toehold in the social-networking industry during the first quarter by acquiring shares of [Facebook](#) Inc. and Zynga Inc.

Danoff's Fidelity Contrafund invested \$74 million in Facebook Class B common shares and \$82 million in Zynga convertible preferred stock, according to a quarterly report the fund filed yesterday with the U.S. Securities and Exchange Commission. Danoff, 50, has managed the \$80 billion Fidelity Contrafund since September 1990.

Fidelity and rivals T. Rowe Price Group Inc. and Capital Group Cos. are snapping up stakes in social-networking companies before they go public, after the mutual-fund industry avoided privately traded stocks for years. Boston-based Fidelity and Baltimore's T. Rowe Price may recognize an opportunity as a growing percentage of clients access their fund holdings through Facebook, said [Geoff Bobroff](#), a fund consultant in [East Greenwich](#), [Rhode Island](#).

"We are seeing more of these fund companies embrace and adopt social media as something they are providing to their shareholders," Bobroff said today in an interview. "It's somewhat logical they would think there is value."

[Vincent Loporchio](#), a spokesman for Fidelity, said more than 30 of its funds held Facebook shares as of April 30. No fund had more than 0.15 percent of its assets invested in Facebook, according to Loporchio, who declined to comment further.

T. Rowe, American

T. Rowe Price reported in April that 19 of its mutual funds invested at least \$191 million during the first quarter in Facebook, the [Palo Alto](#), California-based owner of the world's most popular social-networking website. American Funds Growth Fund of America, a \$168 billion stock fund overseen by Los Angeles-based Capital Group, invested \$66.5 million on Feb. 18 in Zynga, the largest maker of games on Facebook, according to an April 29 filing.

[Fidelity Contrafund \(FCNTX\)](#) averaged annual gains of 7 percent over the past 10 years to beat 99

percent of its large-capitalization growth stock peers, according to Chicago-based research firm Morningstar Inc.

Danoff's fund aims to invest in stocks whose value hasn't been fully recognized by the public. At the end of last year, it had about 33 percent of net assets in information technology shares, including a \$5.3 billion stake in [Apple Inc. \(AAPL\)](#) and \$3.8 billion in Google Inc.

The fund acquired 2.97 million Facebook shares during the first quarter for about \$25 each, the same price T. Rowe Price reported paying, according to yesterday's filing. Facebook in January said it had raised \$1.5 billion from investors led by [Goldman Sachs Group Inc. \(GS\)](#), placing a \$50 billion valuation on the closely held business at the time.

### Convertible Preferred Shares

Fidelity Contrafund also bought its Zynga convertible preferred stock on Feb. 18, according to yesterday's filing. Zynga held talks in February with T. Rowe Price and Fidelity about selling shares at a price that implied the company's market value was close to \$10 billion, two people familiar with the situation said at the time.

Facebook and Zynga last year laid the groundwork for initial public offerings by imposing fees on employees who sell their shares. Zynga may file for an IPO by the end of June, a person familiar with the plans said last week.
