Funds that do not qualify under the "safe harbor" mutual fund exemption from disclosure rule include:

- (1) most IRAs;
- (2) funds that issue regular reports where the judge knows or should know the stocks in his portfolio;
- (3) funds with notoriously public activity (e.g., <u>T. Rowe</u> <u>Price</u> and <u>Fidelity</u> pre-IPO Facebook investing);
- (4) undisclosed purchases of "dark" instruments which conceal activity subject to transparency laws;
- (5) law firm 401(k) retirement accounts;
- (6) funds where stocks are held in the judge's (or spouse) name —"even one share"; and
- (7) funds where there is an appearance of impropriety.

TECHNOLOGY

T. Rowe Price Invests in Facebook

By MARY PILON

Updated April 16, 2011 12:01 a.m. ET

Mutual-fund company T. Rowe Price Group Inc. has invested in Facebook Inc., according to recently released filings, underscoring traditional investment vehicles' growing interest in hot technology companies.

T. Rowe invested a total of \$190.5 million in the social-networking giant, paying \$25 a share for stock it distributed across nearly 20 funds, according to the filings. It isn't immediately clear what value that puts on Facebook.

The Baltimore-based mutual-fund company also disclosed an investment of \$71.8 million in Zynga Inc. and a total stake of about \$35.4 million in Angie's List.

T. Rowe has been more aggressive than most of its mutual-fund peers in building exposure to young technology companies. The investments carry extra risk, because the shares aren't yet publicly traded and can be illiquid. Meanwhile, a rush of interest in the companies has pumped up the companies' valuations, even as they disclose little or no financial data.

T. Row e Price has invested millions in Facebook, underscoring traditional investment vehicles' growing interest in hot technology companies. Mary Pllon joins digits to discuss.

The investments, however, are a drop in the bucket for T. Rowe, which is trying to manage that risk by keeping the investments to a small percentage of each fund's holdings. None of the funds has even a full percent of its holdings tied up in Facebook, for example. T. Rowe had \$482 billion in assets under management as of the end of 2010.

Investors have been scrambling for a stake in Facebook, which is just seven years old and doesn't publicly report its financial results. In January, Facebook was valued at \$50 billion in a deal that raised \$1.5 billion from investors such as Goldman Sachs Group Inc. and Russian investment firm

Digital Sky Technologies, as well as some of Goldman's non-U.S. clients.T. Rowe has long taken aim at new companies. Its New Horizons Fund, which doesn't currently have a stake in Facebook but has invested in companies like Twitter Inc. and Angie's List, is the third-oldest fund at the firm. Born in 1960, the fund is known for making longer-term investments in companies at their early stages, including early investments in Starbucks Corp. and Wal-Mart Stores Inc. Other T. Rowe funds were early investors in Google Inc. The fund has had a return of 34.67% in the 2010 calendar year, according to Morningstar Inc.

Recent trades on markets that allow investors to buy and sell shares in private companies have put a market value of around \$75 billion on the company.

The Facebook investment complements other tech holdings at the firm, including a 2009 stake in Twitter and an investment in Groupon Inc. made late last year. In 2007, T. Rowe made an initial investment in Ning and in 2010 invested in YouKu.com.

Among the T. Rowe funds now invested in Facebook are the Science & Technology Fund, New America Growth Fund, Media & Telecommunications Fund, as well as broader funds including the Balanced Fund, Global Stock Fund and the Blue Chip Growth Fund. T. Rowe's funds now have a total investment of \$86.8 million in Groupon, \$66.6 million in Twitter and \$114.7 million in YouKu.com, according to the filings.

T. Rowe declined to comment on how the Facebook shares were purchased. A Facebook spokesman declined to comment.

Geoffrey Fowler contributed to this article.

Corrections & Amplifications

An earlier version of this online article incorrectly said T. Rowe Price invested \$55.4 million in Facebook and \$22 million in Angie's List. The firm invested \$190.5 million and \$35.4 million, respectively, in the two companies.

Who Else Has a Big Bet on Facebook

ByTelis Demos

We <u>reported this morning about the concentration</u> of Facebook stock in the portfolio of one group of investors, several mutual funds operated by Morgan Stanley Asset Management. But that is not where the concentration of Facebook stock ends.

AFP/Getty Images

According to fresh data from Ipreo, which has tallied up the public filings by all investors, a relatively large chunk of Facebook stock just three months after its \$16 billion IPO in May is held by the company's 10 largest institutional investors (that excludes insiders, like CEO Mark Zuckerberg, and the early VC investors, like Accel Partners).

The top 10 "accounts," in banker-speak, represent about 50% of Facebook's institutional ownership, according to lpreo, the capital markets data firm. That tops the 42% concentration for the top 10 institutions for all second quarter tech IPOs three months after they went public. Across more comparable \$1 billion-plus IPOs since 2010, the concentration is even lighter: The top 10 institutional accounts held 32% of those companies' shares.

This data, keep in mind, does not tell us who bought the IPO. That's a closely guarded secret held by the lead underwriters. These figures are based on public disclosures as of June 30. They are at best a proxy for how the IPO was actually distributed.

So who are the biggest betters — by total number of shares, not necessarily by weighting within the fund – on Facebook? Morgan Stanley Asset Management is only the fifth largest holder by that measure, according to lpreo. Above them are Goldman Sachs Asset Management, Baillie Gifford & Company, Fidelity Investments, and T. Rowe Price Group Inc. Rounding out the top 10 are BlackRock Inc., Sands Capital Management LLC, Jennison Associates LLC, The Vanguard Group Inc. and Capital Research Global Advisors Inc.

Some of those investors were big pre-IPO holders. Goldman Sachs famously marketed a fund with pre-IPO Facebook stock to international investors, which accounts for a big chunk of its holdings. T. Rowe Price and Fidelity also bought in before the IPO. The point here is that they all may still be sitting on Facebook stock gains, depending on when exactly they got into the stock.

Others, however, appear to have gotten in primarily via the IPO, or after it began trading. That includes Baillie Gifford, an Edinburgh-based fund management giant that manages assets of £76.0 billion (\$120 billion). They are a sub-advisor to some large fund management families, like Vanguard, but also manage money on behalf of giant pension funds such as the California Public Employees' Retirement System (CALPERS), the New York City Police Pension Fund and the Korea National Pension Service, according to their website. The firm did not return requests for an interview.

Some of the big investors are also there just because they have to be. BlackRock and Vanguard operate many index funds that may have bought Facebook stock solely because it likely will be a member someday of indexes such as the S&P 500 and Nasdaq 100, and is already in indexes such as the Russell 1000.

What speaks loudly are the absences of firms that are typically very big holders of recently IPO'd companies. Citadel Advisors, which bought 17 other second-quarter IPOs according to Ipreo, owned just 167,164 Facebook shares at the end of June. Wellington Management Company LLP and Lord Abbett & Company LLC, which bought 11 second quarter IPOs, both held fewer than 1m shares. For context, Baillie Gifford reported holding 19 million shares.

Morgan Stanley Funds in Big Facebook Bet

By Aaron Lucchetti and Telis Demos Updated Aug. 24, 2012 11:57 a.m. ET

U.S. mutual funds run by Morgan Stanley, MS -0.12% the lead underwriter in Facebook Inc. FB \$16 billion initial public offering, have disproportionately high investments in the social-media company, leaving fund shareholders exposed to the stock's big drop since its May 18 IPO.

New data show that eight of the top nine U.S. mutual funds with Facebook shares as a percentage of total assets are run by Morgan Stanley's asset-management arm, according to fund tracker Morningstar Inc.

Morgan Stanley had a crucial role in lining up orders for Facebook as the social-media company prepared to go public. It helped advise Facebook executives to increase the size and price of the IPO, despite warnings the company was making about its profit outlook. The New York securities firm, which declined to comment, took in \$200 million in underwriting fees and trading profits,

according to regulatory filings and people involved in the deal.

The Morgan Stanley funds that have Facebook shares got many of them before the IPO at prices well below the \$38 offering price.

That means that fund shareholders may still have paper gains on their Facebook purchases, depending on when the fund bought their original stake. It also means the funds have been unable to sell any of their pre-IPO holdings.

The company's mutual funds have made large bets on other big-name technology companies in recent years, including bets on Apple Inc., AAPL +1.48% Amazon.com Inc.AMZN -1.06% and LinkedIn Corp. LNKD +0.14% whose values have all surged this year.

Still, the Morgan Stanley funds' large stakes raise questions about whether the firm's role as lead underwriter influenced decisions.

A large investment bank that simultaneously buys and sells shares in any company "is in this conflicted position," said Frank Partnoy, a law professor at the University of San Diego who worked for Morgan Stanley in the 1990s. "This time it didn't work out."

The funds span the \$1.6 billion Focus Growth fund to the \$2.5 million Institutional Global Advantage fund.

Morgan Stanley's funds don't appear to have violated Securities and Exchange Commission rules limiting investments in offerings underwritten by an affiliate. SEC rules allow bank-affiliated mutual funds to participate in offerings in which the bank's investment bankers are advising the company, as long as the fund managers don't buy more than 25% of the deal and they buy the shares from a different bank.

The concentration of Morgan Stanley's funds stands out when compared with funds operated by other large institutional holders of Facebook stock.

Morgan Stanley Focus Growth Portfolio had 5.7% of its assets in Facebook shares as of July 31, according to Morgan Stanley's website, while Morgan Stanley Institutional Opportunity Portfolio had 5.5% and Morgan Stanley Institutional Growth Portfolio had 4.8%. Others among the eight Morgan Stanley mutual funds range between 3.6% and 4.6%. Those proportions ranged between 5% and 7.8% on June 30, according to the most recent Morningstar data that included other fund families.

"It's surprising that so many Morgan Stanley affiliated funds out of the thousands of mutual funds show up as having

extremely big weights," said Jay Ritter, a professor of finance at the University Florida.

Morgan Stanley isn't the largest institutional holder of Facebook.

Larger holders by dollar value include Fidelity Investments, <u>T. Rowe Price Group</u>Inc. TROW -0.79% and Goldman Sachs Asset Management, a unit of underwriter <u>Goldman Sachs Group</u> Inc. GS -0.24% Goldman also owned Facebook shares before its IPO

Goldman's most concentrated mutual fund position in Facebook was the Technology Tollkeeper fund, with Facebook making up 2.85% of its portfolio as of the end of June.

No mutual funds operated by Fidelity or T. Rowe Price, two other large institutional holders, publicly reported holding more than 1% of their portfolios in Facebook through June.

Many of the Morgan Stanley funds are sold to institutions only, and require a \$5 million minimum investment.

Morgan Stanley Multicap Growth Fund—one fund open to retail investors, including Morgan Stanley Smith Barney brokers—had a stake in Facebook as early as November 2010, when Facebook shares were valued at about \$13. They closed Thursday at \$19.44, down 49% since the IPO.

In June, a commentary on Morgan Stanley's fund website noted that Facebook and other technology stocks were "the leading detractor in the portfolio this quarter," attributing the decline in Facebook shares "to post-IPO volatility."

Under SEC rules, mutual fund managers also are bound by fiduciary duties to look out for their investors' interests over their own.

- Deal Journal: Who Else Has a Big Bet on Facebook?
- Nasdag's Facebook Plan Under Fire

There's no sign that fund managers at Morgan Stanley bought Facebook shares because of the firm's underwriting relationship with Facebook, or to help curry favor with Facebook executives who chose Morgan Stanley for a key underwriting assignment in the spring IPO.

Mr. Ritter cited "psychological factors" as a possible explanation for the large investments, driven by the fact that many of the funds owned a big chunk of Facebook shares before the company sold shares to the public.

"There's a tendency to fall in love with what you've got rather than stepping back," said Mr. Ritter. Many Morgan Stanley funds added to their pre-public stakes during the month of the IPO—a sign, he said, that "they were drinking the Kool-Aid and became true believers."

Morgan Stanley has streamlined its mutual fund business under Gregory Fleming, who runs both the firm's asset management and wealth management units. Morgan Stanley's asset management at the end of June managed \$311 billion and produced \$456 million in revenues.

Morgan Stanley funds with the strongest liking for Facebook are overseen by Dennis Lynch, the firm's head of growth investing. A Morgan Stanley spokesman declined to comment on behalf of Mr. Lynch.

Fidelity Invests \$74 Million in Facebook & \$82 Million in Zynga

<u>Gregory Gomer</u> Jun 2nd 2011 at 2:31 pm <u>Facebook</u>, <u>Zynga</u>, <u>Fidelity</u>

According to the <u>Boston Globe this morning</u>, Fidelity Investments made a few large investments in social media during the first quarter of this year. It is reported that William Danoff, the manager of Fidelity's Contrafund - it's biggest and very popular fund - has invested \$74 million in Facebook Class B common shares and \$82 million in Zynga

+1

convertible preferred stock. Danoff has managed the \$80 billion Fidelity Contrafund since September 1990.

In the <u>article</u>, "Vincent Loporchio, a spokesman for Fidelity, said more than 30 of its funds held Facebook shares as of April 30. No fund had more than 0.15 percent of its assets invested in Facebook, said Loporchio, who declined to comment further."

This is certainly no surprise as large funds have been dying to get their hands on the red hot shares of these social media companies, but it does mark a scary trend.

These secondary markets are not regulated at all by the SEC, and most funds have avoided these privately traded stocks for years. These markets can be extremely volatile and guess what is going to the be first to crash, once this said "bubble" we are in either pops or deflates?

I certainly like this move, historically these markets have proven to be extremely valuable leading up to the company's IPO's but again can be very risky. The fund also has a \$5.3 billion stake in Apple Inc. and \$3.8 billion in Google Inc.

Having that said, being a Fidelity alum I have money in the Contrafund and dig the investment.

Fidelity's Danoff Bets on Facebook, Zynga

By Miles Weiss - Jun 1, 2011

William Danoff, the manager of Fidelity Investment's largest stock fund, established a toehold in the social-networking industry during the first quarter by acquiring shares of <u>Facebook</u> Inc. and Zynga Inc.

Danoff's Fidelity Contrafund invested \$74 million in Facebook Class B common shares and \$82 million in Zynga convertible preferred stock, according to a quarterly report the fund filed yesterday with the U.S. Securities and Exchange Commission. Danoff, 50, has managed the \$80 billion Fidelity Contrafund since September 1990.

Fidelity and rivals T. Rowe Price Group Inc. and Capital Group Cos. are snapping up stakes in social-networking companies before they go public, after the mutual-fund industry avoided privately traded stocks for years. Boston-based Fidelity and Baltimore's T. Rowe Price may recognize an opportunity as a growing percentage of clients access their fund holdings through Facebook, said <u>Geoff Bobroff</u>, a fund consultant in <u>East Greenwich</u>, <u>Rhode Island</u>.

"We are seeing more of these fund companies embrace and adopt social media as something they are providing to their shareholders," Bobroff said today in an interview. "It's somewhat logical they would think there is value."

<u>Vincent Loporchio</u>, a spokesman for <u>Fidelity</u>, <u>said more than 30 of its funds held Facebook shares as of April 30</u>. No fund had more than 0.15 percent of its assets invested in Facebook, according to Loporchio, who declined to comment further.

T. Rowe, American

T. Rowe Price reported in April that 19 of its mutual funds invested at least \$191 million during the first quarter in Facebook, the <u>Palo Alto</u>, California-based owner of the world's most popular social-networking website. American Funds Growth Fund of America, a \$168 billion stock fund overseen by Los Angeles-based Capital Group, invested \$66.5 million on Feb. 18 in Zynga, the largest maker of games on Facebook, according to an April 29 filing.

Fidelity Contrafund (FCNTX) averaged annual gains of 7 percent over the past 10 years to beat 99

percent of its large-capitalization growth stock peers, according to Chicago-based research firm Morningstar Inc.

Danoff's fund aims to invest in stocks whose value hasn't been fully recognized by the public. At the end of last year, it had about 33 percent of net assets in information technology shares, including a \$5.3 billion stake in Apple Inc. (AAPL) and \$3.8 billion in Google Inc.

The fund acquired 2.97 million Facebook shares during the first quarter for about \$25 each, the same price T. Rowe Price reported paying, according to yesterday's filing. Facebook in January said it had raised \$1.5 billion from investors led by <u>Goldman Sachs Group Inc. (GS)</u>, placing a \$50 billion valuation on the closely held business at the time.

Convertible Preferred Shares

Fidelity Contrafund also bought its Zynga convertible preferred stock on Feb. 18, according to yesterday's filing. Zynga held talks in February with T. Rowe Price and Fidelity about selling shares at a price that implied the company's market value was close to \$10 billion, two people familiar with the situation said at the time.

Facebook and Zynga last year laid the groundwork for initial public offerings by imposing fees on employees who sell their shares. Zynga may file for an IPO by the end of June, a person familiar with the plans said last week.

Mutual Funds and Taxes

Distributions from mutual funds occur for several different reasons and are subject to differing tax rates. Many mutual funds bundle most of their payouts into single, net distributions at the end of each year.

Whenever a mutual fund company passes earnings and other payouts to shareholders, it's known as a distribution. The major distribution for most funds comes at the end of each year, when net amounts are calculated—capital gains and other earnings minus the expenses of running the funds.

It's up to you to report mutual fund transactions on your tax return, as well as pay the appropriate taxes on each type of fund income.

Distributions and your taxes

If you hold shares in a taxable account, you are required to pay taxes on mutual fund distributions, whether the distributions are paid out in cash or reinvested in additional shares. The funds report distributions to shareholders on IRS Form 1099-DIV after the end of each calendar year.

For any time during the year you bought or sold shares in a mutual fund, you must report the transaction on your tax return and pay tax on any gains and dividends. Additionally, as an owner of the shares in the fund, you must report and potentially pay taxes on transactions conducted by the fund, that is, whenever the fund sells securities.

If you move between mutual funds at the same company, it may not feel like you received your money back and then reinvested it; however, the transactions are treated like any other sales and purchases, and so you must report them and pay taxes on any gains.

For federal tax purposes, ordinary income is generally taxed at higher rates than qualified dividends and long-term capital gains. The chart below illustrates how each type of mutual fund income is taxed.

Mutual funds in retirement and college savings accounts

Certain accounts, such as individual retirement and college savings accounts, are tax-advantaged. If you have mutual funds in these types of accounts, you pay taxes only when earnings or pre-tax contributions are withdrawn. This information will usually be reported on Form 1099-R.

Type of distribution	Definition	Federal income tax treatment
Long-term capital gains	Net gains from the sale of shares held for more than one year; may include some distributions received from investments held by the fund	Subject to the capital gains rates, usually lower than the ordinary income tax rates
Short-term capital gains	Net gains from the sale of shares held for one year or less	May be treated as ordinary dividends, thus taxable at ordinary income tax rates
Qualified dividends	Dividends from common stock of domestic corporations and qualifying foreign corporations	Normally taxed as long-term capital gains (subject to certain holding period and hedging restrictions)
Ordinary or non-qualified dividends	Investment income earned by the fund from interest and non-qualified dividends minus expenses; often used as a blanket term that includes all taxable income except long-term capital gains.	Taxable at ordinary income tax rates
Tax-exempt interest	Some or all interest on certain bonds, usually state or local municipal bonds, designated as tax-exempt	Not taxable for federal tax purposes; may be subject to state and/or local taxes, depending on your resident state and the type of bonds purchased
Taxable interest	Interest on fixed-income securities	Taxable at ordinary income tax rates
Federal interest	Interest on federal debt instruments	Taxable at ordinary federal income tax rates, but exempt from state income tax
Required distributions	Non-investment income required to be distributed by the fund (such as foreign currency gains that are taxed as ordinary income when distributed)	Taxed as ordinary income
Return of capital	A portion of your invested principal returned to you	Not taxable

When there is no distribution

If a mutual fund does not have any capital gains, dividends, or other payouts, no distribution may occur. There may also be a non-taxable distribution. Shareholders will not be required to pay taxes if the fund

"My funds are doing great—I must owe a lot in taxes."

Microsoft. The Federal Circuit Bar Association, "Leaders Circle" Webpage, Accessed Sep. 30, 2012 < http://www.scribd.com/doc/108466240/The-Federal-Circuit-Bar-Association-Leaders-Circle-Webpage-Accessed-Sep-30-2012.

g. Facebook

No. 7,139,761 on 11 of 11 claims. The verdict was split with a ruling of on-sale bar. However, Facebook presented no hard evidence and failed to perform any of the well-settled tests, e.g. *Pfaff Electronics* and *Group One v. Hallmark Cards*. The Federal Circuit affirmed the lower court after rejecting the lower court's arguments for on-sale bar and fabricating new evidence on argument for Facebook in the secrecy of chambers, without a hearing. Chief Justice **John G. Roberts** refused to take Leader Technologies' Petition for Writ of Certiorari.

Tellingly, the judges in this case hold this Fidelity Contrafund stock, namely Chief Justice John G. Roberts, Federal Circuit Judge **Kimberly A. Moore** and Federal Circuit Judge **Evan J. Wallach**.

It is notoriously known that during the pendency of the *Leader v. Facebook* trial, President Obama's political organization via **Obama for America** and **Organizing for America** exploited over 47 million "likes" on Facebook, an infringed technology, to raise money and influence voters in the 2008 and 2012 elections.

Petition for Writ of Certiorari *Leader Technologies, Inc., v. Facebook, Inc.* No. 12-617, Nov. 16, 2012 http://www.scribd.com/doc/113545399/Petition-for-Writ-of-Certiorari-Leader-Technologies-Inc-v-Facebook-Inc-No-12-617-U-S-Supreme-Court-Nov-16-212-clickable-citations>.

Fidelity h.

Fund manager **Robert C. Ketterson** is a business and investing partner with **Facebook's** largest shareholder and former chairman, **James W. Breyer**, **Accel Partners LLC**. Breyer and Ketterson served for years as director of the **National Venture Capital Association** which also included **Vangaurd's Anne Rockhold** (now CFO of Accel Partners LLP) and **Ann H. Lamont**, director of U.S. CTO **Todd Y.** Park's companies athenahealth and Castlight Health which are embroiled in current **Obamacare** and **HealthCare.gov** scandals. Lamont serves as a director of athenahealth and Castlight Health with Robert Kocher, Obamacare architect and member of the **National Economic Council** with **Lawrence "Larry" Summers**, former director of the Council where he oversaw the bailout of Facebook underwriters and large shareholders, **Goldman Sachs** and **Morgan Stanley** under the direction of JPMorgan Chase and Jamie Dimon.

i. Goldman Sachs

Facebook's underwriter and large investor, notoriously known. Goldman also received a \$13+ billion 2008 stimulus grant which was overseen by Facebook collaborator Lawrence "Larry" Summers, who had just recently received hundreds of thousands in speaking stipends from Goldman earlier that year, among other perks. Goldman is also notoriously known to be a Moscow, Russia business partner with Russian oligarchs **Alisher Usmanov** and **Yuri Milner**. Yuri Milner is a World Bank protégé of Summers and was teamed with Facebook COO **Shervi K. Sandberg.**

Opportunists-Undermining-U-S-Sovereignty-and-Corruptin>.

IBM

IBM sold **Facebook** 750 patents during the pendency of Leader v. Facebook. The former Director of the U.S. Patent Office, **David J. Kappos**, systematically failed to disclose his bias toward Facebook's and IBM's interests regarding all matters related to Facebook's intellectual property claims; neither has **USPTO** staff. Additionally, Facebook's patent counsel in these IBM transactions is **Fenwick & West LLP** who has substantial conflicts of interest since the firm formerly represented **Leader Technologies, Inc.** in 2002-2003—the company whose social networking technology is being infringed by Facebook.

Prior to leaving his post as Director of the Patent Office, David J. Kappos ordered an unprecedented third reexamination of Leader Technologies' U.S. Patent No. 7,139,761 using arguments identical to those that Facebook lost on at trial and in two previous reexaminations. Magically, the Examiner accepted ALL of Facebook's arguments the fourth time around and is attempting to invalidate the entire patent, even claims that were not asserted at trial.

In addition, former IBMer David J. Kappos established a Patent Office Facebook page for over 10,000 employees during the pendency of the Leader v. Facebook case.

k. JPMorgan Chase

Notoriously known to be directing the investing activities of Morgan Stanley, T. Rowe Price, Goldman Sachs regarding all things Facebook via Chairman Jamie Dimon. Castlight Health and athenahealth Director Ann H. Lamont is married to Edward "Ned" Lamont, grandson of the founder of JPMorgan, Thomas W. Lamont. Castlight Health and athenahealth are embroiled in the Obamacare and HealthCare.gov scandal. U.S. CTO Todd Y. Park is founder of both athenahealth and Castlight Health. Park's brother, David Y. Park, is the current chief operating officer at athenahealth. Todd Y. Park has advised the Obama administration that they are clear to make the claim that HealthCare.gov technology is open source, despite the evident Leader v. Facebook frauds, among others. The Lamont's hold substantial amounts of Goldman Sachs, JPMorgan and Morgan Stanley holdings which benefited remarkably from Facebook transactions.

Ann Huntress Lamont (a.k.a. Ann H. Lamont) and Edward M. ("Ned") investments in Facebook Club Funds, invested by 2006, prepared Nov. 26, 2013 https://docs.google.com/file/d/082SfG2nEsMfqckwwdGg2Yy10NWs/edit>.

l.	LinkedIn Corp.	Facebook director Reid Hoffman is the founder and CEO of LinkedIn. It now notoriously known that Hoffman provided business coaching and early financing to Mark Zuckerberg while he was still a student at Harvard in 2003. LinkedIn software mimics Facebook's functionality, perhaps this is no coincidence.
m.	Morgan Stanley	Facebook's underwriter and large investor, notoriously known. Morgan Stanley also received a \$13+ billion 2008 stimulus grant which was overseen by Facebook collaborator Lawrence "Larry" Summers , who had just recently received hundreds of thousands in speaking stipends from Morgan Stanley compatriots at Goldman Sachs earlier that year, among other perks. Summers counts Facebook COO Sheryl K. Sandberg as his protégé and former employee at the World Bank and U.S. Treasury .
n.	State Street Corporation	Fellow recipient with Goldman Sachs and Morgan Stanley of approximately \$33 billion (collectively) in 2008 stimulus funds overseen by Facebook collaborator Lawrence "Larry" Summers , who had just recently received hundreds of thousands in speaking stipends from Goldman earlier that year, among other perks.
0.	T. Rowe Price	Purchased a 5.2% stake in Facebook's private, pre-IPO "dark pools" stock, as notoriously disclosed in the Facebook S-1 Registration. Also heavily invested in U.S. CTO Todd Y. Park's companies athenahealth and Castlight Health , two companies closely associated with Ohamacare and the current administration.
p.	Tesla Motors, Inc.	Michael G. Rhodes, Cooley Godward LLP, Facebook's litigator in Leader Technologies, Inc. v. Facebook, Inc., cv-08-862-JJF-LPS (D. Del. 2008), was appointed Chief Counsel to Tesla Motors, five months before the trial. Tesla Motors received \$465 million in energy stimulus funds at the recommendation of McBee Strategic LLC and Michael Sheehy, former National Security Adviser for House Speaker Nancy Pelosi. Zusha Elinson. "Michael Rhodes (Cooley Godward LLP, Tesla Motors)." The
