FACEBOOK UNDERWRITERS & PRINCIPALS TIED TO SHELTERED HSBC CASH FUNDING DICTATORS, ARMS, DRUGS, SECURITIES FRAUD, BRIBERY AND ORGANIZED CRIME

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | FEB. 17, 2015, UPDATED FEB. 20 | PDF

BREAKING NEWS (FEB. 18, 2015)—Yesterday, despite his substantial financial holdings in Facebook interests (see [previous post](#)), Judge **VERNON S. BRODERICK** nevertheless ordered Facebook's attorney, **GIBSON DUNN LLP**, to comply with a subpoena from Paul Ceglia to Zuckerberg and Facebook to produce all contracts and electronic communications from 2003-2004 from anywhere, including Mark Zuckerberg's 28 hard drives and emails for evidence of his truthfulness. Will this become another Lois Lerner "Golly Beaver, we just can't find what you are asking for" moment, or justice for Mr. Ceglia? Shouldn't Leader Technologies and the family of the late inventor Johannes Van Der Meer be given equal access to those "lost" Zuckerberg hard drives as well? *Stay tuned for details of the hearing as they become available.*

(FEB. 17, 2015)—The recently leaked bank account records from the HSBC Swiss private banking whistleblower,

Hervé Falciani, reveal that Facebook's largest shareholders and IPO underwriters are prime movers in a "murky" world of money laundering. According to the leak, this laundering involves drug and arms trafficking, securities fraud, bribery, organized crime and government corruption. [Full ICIJ Story](#) (PDF version).

The HSBC leaks show that **"IDG TECHNOLOGY VENTURE INVESTMENT III, L.P."**

("IDG") incorporated in Delaware, USA on Mar. 2, 2005—two months before IDG founder,

A week later, on Jun. 1, 2005, Russian **JURI MILNER** started **DIGITAL SKY TECHNOLOGIES (DST)** aka **MAIL.RU** funded by oligarch **ALISHER USMANOV**—now called “Russia’s richest man.” Milner and Facebook chief operating officer, **SHERYL K. Milner (directly and through DST and Mail.ru) is now Facebook’s largest outside investor.

The HSBC leaks provided a break in our investigation when they revealed that IDG formed “**WININCHINA, INC.**” in the Cayman Islands on Dec. 12, 2006. HSBC and SEC records identify three Breyer associates running IDG: **PATRICK J. MCGOVERN**, **HUGO SHONG** and **XIN XU**. WininChina was formed just a month after the U.S. Patent Office awarded the patent for social networking, U.S. Pat. No. 7,139,761, to Columbus, Ohio innovator Leader Technologies.

STOP FACEBOOK PROPERTY THEFT

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

LEADER TECHNOLOGIES Inventor Protection Act (Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

- a technology upon which the President and U.S. government now rely;
- a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

Rescind. Investigate.
Sanction. Certify.

Contact your representatives. Ask them to pass it.
Real American inventors need your support.

BREAKING NEWS, FEB. 14, 2015: AFI investigators have just released the results of a year-long investigation, recently bolstered by the latest HSBC Swiss Bank leaks that proved long-suspected direct links between that banking scandal and the Facebook Cartel, especially Facebook's largest shareholder, James W. FACEBOOK CARTEL'S "ASTROTURF" PROPAGANDA EXPOSED BY FORMER CBS INVESTIGATIVE REPORTER SHERYL ATTKISSON
Emmy-winning investigative reporter Sharyl Attkisson sheds light on "astroturf" propaganda (faking grassroots feedback) by deep pockets intent on bending or breaking the truth. "Astroturf seeks to manipulate you into changing your opinion by making it seem as if you're an outlier—when you're not. GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's *Leader v. Facebook* attorney Gibson Dunn LLP. She credits this

firm with the reason why not a single Wall Street banker has gone to jail since 2008. [Click here](#) to read her article "Everybody hates whistleblowers." *Examiner.com*, Apr. 10, 2012. Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the *Leader v. Facebook* case, Theodore Ulyot, who appears to have helped lead the *Leader v. Facebook* judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. SMALL VICTORY FOR IMPARTIALITY, OR C.Y.A. FOR FACEBOOK, IBM, ECLIPSE & NSA?

(JAN. 24, 2015 UPDATE)—On Jan. 8, 2015, Judge **ANDREW L. CARTER, JR.** recused himself without explanation in [U.S. \(ZUCKERBERG, FACEBOOK, ECLIPSE\) V. CEGLIA](#). We claim this as a small victory for American justice, but let's not celebrate very long. Carter's replacement is Judge **VERNON S. BRODERICK**. On July 29, 2014, we published our investigation into the financial holdings of [Judge Andrew L. Carter, Jr.](#) in the [USA v. Ceglia](#) criminal trial. **ERIC H. HOLDER, JR.'S** Justice Department unconscionably sued Ceglia for wire fraud after Ceglia's [blistering deposition](#) of Facebook experts, **BRYAN J. ROSE** and **MICHAEL F. MCGOWEN**. Holder was very evidently attempting to bury Ceglia in more litigation to prevent further exposure of [The Eclipse Foundation](#).

Rose and McGowen revealed for the first time that the "missing" Mark Zuckerberg Harvard evidence was never "lost," but was in the hands of Facebook's [Leader v. Facebook](#) appeals attorney, **GIBSON DUNN LLP** the whole time. Facebook's trial lawyers in [Leader v. Facebook](#), **COOLEY GODWARD LLP**, told the court that Zuckerberg's 2003-2004 computer files and documents were "lost." The Rose and McGowen testimony verified that Cooley Godward and Gibson Dunn lied.

Magically, Facebook resurrected those 28 Zuckerberg hard drives and emails for the Ceglia case just two days after the Federal Circuit court of appeals (the patent appeals court) in Washington denied [Leader Technologies' appeal](#). What were they so intent on hiding from Leader? When the judges were told about this new evidence, they ignored it. They also failed to disclose their substantial in Facebook, Facebook underwriters and stakeholders. Neither did they disclose their close relationships to Facebook's attorneys Gibson Dunn LLP, Cooley Godward LLP and Weil Gotshal LLP.

ZUCKERBERG CITES *BUSINESS INSIDER* SECURITIES FRAUDSTER HENRY BLODGET AS A FACT SOURCE FOR HIS HARVARD HISTORY

More evidence of Eric Holder's brutishness came on Oct. 20, 2014 when Facebook and Zuckerberg sued ALL of Ceglia's attorneys for persecuting them with frivolous claims (age-old scoundrel tactic: accuse your victims of what you are doing). Most telling in Zuckerberg's complaint is his reliance on alleged evidence of his 2003-2004 activity by HENRY BLODGET, co-founder of *Business Insider*. Blodget became a journalist after he was permanently banned from the securities business and fined \$4 million for securities fraud.

We believe Zuckerberg and Facebook hired Blodget and DAVID KIRKPATRICK (*The Facebook Effect*) as their early hired media liars whom the NBC, CBS, ABC, MSNBC, CNN, NYT, WSJ mainstream media quoted as fact sources in subsequent years. See "Obama's Wall Street handlers gag the mainstream media." See also previous post on mainstream media investments by the Facebook "dark pools" cartel. In his new complaint, Zuckerberg kept repeating that it was well known that he didn't conceive of Facebook until Dec. 2003, citing Blodget as his primary evidence. Is America really this brain dead that we'll let this guy get away with such brazen deceptions?

Replacement judge VERNON S. BRODERICK is likely even more dirty. Stay tuned. Like Carter, Broderick is another recent Obama appointment who was magically elevated to the Second Circuit appeals panel to hear the *ACLU v. Clapper (NSA)* complaint about the NSA's wiretapping of American citizens. While employed at WEIL GOTSHAL LLP (remember RANDALL R. RADER'S resignation over his BFF [best friends forever] relationship to Weil's EDWARD R. REINES scandal at FEDERAL CIRCUIT COURT?), Broderick previously represented a number of General Electric Cayman Islands investment funds with relationships directly implicated in "Kremlin Gate"—the \$4.8 billion IMF money laundering scheme using clearing house companies controlled by Broderick's client, JURI MILNER, one of Facebook largest Russian investors, is also tied to the bank at the center of Kremlin Gate, BANK MENATEP

FIG. D—JUDGE VERNON S. BRODERICK replaced Judge Andrew L. Carter on Jan 8, 2015 in *U.S. v. Ceglia*. Among other conflicts, Broderick failed to disclose his numerous financial holdings in Facebook interests, including IBM, Morgan Stanley (Facebook's co-underwriter), Eclipse and NSA. 3. Two Policy Changes That Will Make America More Democratic (and less contentious), Dec. 21, 2012

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

... our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney dark arts, destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The *Leader v. Facebook* patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from *Leader*

ORIGINAL POST

We admit that this sounds like a Tom Clancy plot. But, we assure you the threats are real and upon us. We include plenty of proof below and in the AFI archives (see sidebar).

(JAN. 16, 2015)—On Jan. 14, 2015, President Barack Obama announced his "Net Neutrality" initiative. Sounds very democratic, doesn't it? To the contrary, beware of this wolf in sheep's clothing.

Obama's spin describes a "free and open internet" without tolls or fees. That's the pitch for the unthinking "low information voters" who accept his words uncritically anyway.

Buried in the details is a federalization of the Internet. We at AFI predicted that this would be his next move. He has many Silicon Valley IOUs to cover before leaving office. Six years of this president have taught us that he smothers his actual agenda in flowery opposites.

PROVEN OBAMA LIES AND MISDIRECTION

Facts are pesky things. They keep floating back to the surface.

Is it just us, or does he look like a guy who is being muscled by Silicon Valley and Wall Street handlers? (Similar to the way Chief John J. Roberts, Jr. looked after redefining Obamacare as a tax). His body language says: "Help Me, I'm drowning in my lawlessness and lies!"

Note: On Dec. 30, 2014, *The Daily Telegraph* disclosed that a shadowy group that actually named itself "The Cartel" was implicated in insider currency trading, including JPMORGAN, BARCLAYS, UBS, CITIGROUP and BRITISH PETROLEUM. These banks are ALL FACEBOOK underwriters, and ALL members of The Eclipse Foundation with IBM.

IBM AND THE ECLIPSE FOUNDATION PLOTTED TO TAKE OVER THE INTERNET A DECADE AGO—FOUNDED ON LEADER TECHNOLOGIES’ SOCIAL NETWORKING INVENTION

A newly compiled timeline pulls back the covers on IBM's scheme, cooked up by a predominance of Harvardians, to wrest control of Leader Technologies’ invention in 2001. The technology was placed in the hands of the people and companies that President Obama is now promoting in his 2015 “net neutrality” push. This group worked to smother Leader’s patent property rights in a blizzard of legal sophistry.

Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook’s appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on *Leader v. Facebook* until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

CODE OF CONDUCT FOR U.S. JUDGES

"CANON 2: A JUDGE SHOULD AVOID IMPROPRIETY AND THE APPEARANCE OF IMPROPRIETY IN ALL ACTIVITIES"

GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision *without any evidence other than speculation*, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. ([Read Leader's May 20, 2010 motion here.](#)) He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. ([See that Jury Instruction No. 4.7 here.](#)) He also contradicted his own instruction to Leader to answer

What is now apparent is that Leader's lawyers fed Leader's invention to IBM just as it was coming off the drawing board.

The secret beneficiary was a newly-formed "The Eclipse Foundation" whose pump was primed with \$40 million IBM dollars on Nov. 29, 2001. In so doing, they hid behind the foundation "membership" for cover and pretended Leader's invention was "open source" (free to all).

One has to admire the fiendish Eclipse legal mind(s) that wrote this excuse for losing track of the original creators of the social networking technology on Dec. 8, 2004:

"But not unexpectedly the Foundation has been **unable to locate** each and

every contributor . . . will require us to . . . **re-implement functionality.**"
Eclipse Board Meeting Minutes, Dec. 08, 2004.

This was written just 24 months after they wrote that the original contributor was a "single company [Leader Technologies]." Eclipse Board Meeting Minutes, Dec. 4, 2002. No wonder Mark Zuckerberg consistently breaks the law in concealing his 28 Harvard computer hard drives behind his Gibson Dunn LLP lawyer's coat tails. Here's the trail of this criminality:

THE 7-STEP LAWYER SHUFFLE FROM PROPRIETARY TO "OPEN SOURCE"

(1) LEADER TECHNOLOGIES' invention of social networking (*proprietary, patented*) >>> (2) JAMES P. CHANDLER >>> (3) FENWICK & WEST LLP >>> (4) DAVID J. KAPPOS >>> (5) IBM >>> (6) THE ECLIPSE FOUNDATION >>> (7) the WHOLE TECH WORLD IN 2004 ("*re-implemented*" *magically as open source*).

If these people truly lost track of the authorship of social networking, then Chandler, Fenwick & West LLP and the other geniuses at The Eclipse Foundation have incompetently breached one of the most fundamental tenants of patent and copyright law—**authorship attribution**. This is yet another example of this **fraud**. In patent and copyright terms it is called "**inequitable conduct**." Note: Fenwick failed to disclose Leader's invention in prior art in hundreds of Facebook patents they began filing by 2007—yet more lawlessness from the Patent Office.

Clearly, "the dog ate it" tactic was afoot to steal Leader Technologies' invention by an over-lawyered group of IBM, Harvard and Eclipse sycophants who have *obscured their identities* for more than a decade. But, even these chickens are coming home to the roost now.

FIG. 3—THE MANTRA OF OBAMA'S CARTEL: IN CONFUSION THERE IS PROFIT.

These actors appear to be getting anxious to get their digital pipes and controls laid while Obama still controls the three-letter regulatory agencies (FCC, FEC, SEC, HHS, DOC, FTC, etc.)

It behooves all Americans to stop this "eclipse" of the U.S. Constitution. Perhaps "The Eclipse Foundation" name was Freudian, in more ways than one.

CONGRESSIONAL SPENDING RIDERS NEED TO COMPENSATE FOR PATENT PROPERTY AND CIVIL RIGHTS CONFISCATED BY THE OBAMA GOVERNMENT

We need to ask Congress to start attaching riders to spending bills to compensate true American inventors whose inventions have been confiscated by this cartel.

Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. See his Sep. 14, 2009 Order. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO.

Judge Lourie also failed to apply his own law-test in *Group One v.*

Hallmark Cards to the evidence. After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. See disclosure of substantial holdings in Facebook and Facebook-related stocks. Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in *Pfaff v. Wells Electronics, Inc.*—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the

We also need to ask Congress to figure out how to put these people in jail for their crimes and abuses of the U.S. Constitution.

ON SIMPLICITY: AFI readers ask regularly for Cliff's Notes of our posts. We made an editorial decision some time ago to err on the side of giving you the full facts, rather than try and summarize them prematurely. Here's the problem: This corruption is perpetrated by devious minds who hide their misconduct in misdirection and sophistry (e.g., you and I say "He lied" while they say "He ran afoul of the situation with misperceived facts."). You'll read this in spades in the tortured 13-page Office of Government Ethics (OGE) advisory linked below. While these guys get paid \$800 an hour, the rest of us must do real work. So, it stands to reason that our findings will be complex. That said, now that the pegs are starting to drop into their respective holes, perhaps we will be able to start summarizing soon. OBAMA TAPPED STEPHEN C. SIU TO DISRUPT LEADER TECHNOLOGIES' SOCIAL NETWORKING PATENT TO AMASS MONEY, VOTES & POWER

JAN. 6, 2015 UPDATE: ATTKISSON SUES U.S. GOV'T

Former CBS investigative reporter **SHARYL ATTKISSON** has [sued the Justice Department](#) for using "highly sophisticated methods" to hack her computers to learn the identities of her confidential sources for newsgathering and articles critical of the Obama Administration in *Fast & Furious* and *Benghazi*. She cites Department of Justice documents confirming involvement by Eric Holder and the FBI in a secret inter-agency network that "will help strengthen partnerships between department and agencies across the U.S.

government." We believe this network is founded on the theft of Leader Technologies' inventions led by IBM, former IBM counsel and Patent Office Director David J. Kappos, Eric H. Holder and Professor James P. Chandler, Leader's former patent attorney and a long-time senior cyber-security adviser to BM, NSA, Harry Reid and the Department of Justice. See this and [previous post](#) re. "The Internet of Things."

secretory of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. See [Motion to Disclose Conflicts of Interest](#). Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr.

Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. See [a full analysis of these events at Donna Kline Now!](#) Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's *Pfaff v. Wells Electronics, Inc.* test for on-sale bar evidence, which included even the Federal Circuit's own *Group One v. Hallmark Cards, Inc.* test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie helped write that opinion. [Group One test omission analysis](#).

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | DEC. 24, 2014, UPDATE JAN. 6, 2015 | PDF

(DEC. 24, 2014)—President Obama and Attorney General Eric Holder seem to

L/R: U.S. HACKER-IN-CHIEF, KOREAN UNDERSTUDY

have taken the alleged hack of Sony by North Korea a little too personally.

Apparently, only Obama's government is allowed to steal intellectual property. Ironically, Obama's brouhaha over a satirical comedy ignores his exploitation of Columbus-based Leader Technologies' social networking invention for a decade.

MEN WHO LIVE IN GLASS HOUSES SHOULD NOT THROW STONES

The Sony hack is child's play. **OBAMA** and **HOLDER** have orchestrated one of the greatest intellectual property thefts of all time—the theft of Leader Technologies' social networking invention. Aided by **IBM'S DAVID J. KAPPOS** (later **PATENT OFFICE** director), Leader's attorneys Washington, D.C.-based **JAMES P. CHANDLER**, and Silicon Valley's **FENWICK & WEST LLP** (later Facebook's attorney), Holder helped create **THE ECLIPSE FOUNDATION** on Nov. 29, 2001. Their mission was to capitalize on Leader's breakthrough innovations for themselves and their grand plans.

GLOBAL CONTROL OF "THE INTERNET OF THINGS"

Their agenda is voracious and global: banking, finance, education, politics, economics, healthcare, tax, regulation, environment, law, security, legislation, energy, social, entertainment. They want it all, and they were not going to let Leader's intellectual property rights stand in the way of their vision for "THE INTERNET OF THINGS" (a [global agenda](#) pressed by IBM, Intel, Microsoft, Cisco, and Wind River).

Eclipse set out to eviscerate Leader's intellectual property rights in legal sophistry

In their Grand Poobah benevolence, these people decided that Leader's invention should be "open source" (freely available to all) and not owned by Leader. Never mind that Leader had invested over \$10 million and 145,000 man-hours to invent it, had been awarded multiple patents, and had proven in federal court that Facebook was guilty on 11 of 11 counts of using the invention illegally. According to sources, Chandler, a professor emeritus of law at George Washington University, once told a Leader official "sometimes the rights of a few must be sacrificed for the rights of the many." Textbook socialism.

Here are just a few ways President Obama's government has exploited Leader's invention. Obama's government has relied heavily on Leader's invention for its existence.

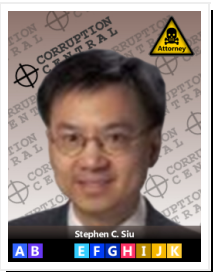

HACKER-IN-CHIEF BARACK OBAMA'S INTELLECTUAL PROPERTY SINS DWARF KIM JONG UN'S

1. Candidate Barack Obama announced his candidacy on Facebook—Leader's invention, on Feb. 10, 2007.
2. Obama relies on Leader's invention for Organizing For America (OFA), formerly Obama For America, for daily propaganda and donations.
3. Obama and Holder hired Facebook's Cooley Godward LLP attorney, Donald K. Stern, to recommend White House judge selections that included the *Leader v. Facebook* judge, Leonard P. Stark, then they allowed Cooley Godward LLP to defend Facebook

FIG. 1—BARACK OBAMA & KIM JONG UN make competing claims about North Korea's alleged hack of Sony Entertainment. Irrespective of how silly it appears for a U.S. President to spend time defending actor Seth Rogen's satirical comedy, the more serious question is "Who is the greater intellectual property thief?" Obama or Un?

HACKER-IN-CHIEF'S SECOND LIEUTENANT

STEPHEN C. SIU, Patent Judge in *Leader v. Facebook* who holds up to \$2.1 million in Facebook and Friends.

In our estimation, President **BARACK OBAMA** is the hands down winner with ample proof of his theft of and reliance on the social networking invention of Columbus, Ohio innovator Leader Technologies, Inc. One of the Hacker-in-Chief's accomplices is the patent hacker-judge **STEPHEN C. SIU**, as this post shows. So much for this American judge's pledge to avoid even the appearance of impropriety."

Obama's first lieutenant was Patent Office Director and former IBM chief intellectual property counsel, **DAVID J. KAPPOS**,

Photos Imgur.com; LinkedIn

Clerk of Court Jan Horbaly, U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court's ruling was challenged by an *amicus curiae* brief revealing clear mistakes of law and new evidence. [See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in *Leader v. Facebook*](#). Mr. Horbaly failed to disclose his conflicts of interest and close associations with numerous Facebook attorneys and law firms, as well as his close association with one of Facebook's largest shareholders,

Microsoft, who is a Director of The Federal Circuit Bar Association where Mr. Horbaly is an ex officio officer. Additionally, the DC Bar revealed in a written statement that Clerk Horbaly is not licensed to practice law in the District of Columbia. [Editorial: What does that make the Federal Circuit with its location within in a stone's throw of the White House? A self-governing state?]

Judge Randall R. Rader, U.S. Court of Appeals for the Federal Circuit, chief judge responsible for the (mis)conduct of his judges and Clerk of Court in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. Chandler. [See analysis of Judge Rader's undisclosed conflicts of](#)

in the trial. Corruption personified.

4. Obama's 2008 and 2012 election victories are credited to the demographic data gleaned from Facebook—Leader's invention.
5. Obama appointee, David J. Kappos, former IBM chief intellectual property counsel and The Eclipse Foundation founder, started the Patent Office Facebook page on May 14, 2010, two months before the *Leader v. Facebook* trial in a clearly prejudicial defiance of propriety.
6. Obama has incorporated Leader's invention throughout HealthCare.gov, most specifically through the activities of Todd Y. Park's two "social" medical companies, Castlight Health and athenahealth—Yes, Park implemented his own company's technology in Obamacare—more textbook corruption.
7. Obama's government has pressed for release of government "big data" to Facebook cronies; this helps populate "The Internet of Things" global data base on every citizen. "Dark Profiles" are being created on every U.S. citizen in the unregulated hands of private entities.
8. The NSA, IRS, FEC, HHS and SEC have been feeding these dark profiles.
9. Obama's agencies have pressed Congress and C-SPAN to exploit Leader's technology and feed these dark profiles.
10. We're just getting started with this list . . .

ONLY CRICKETS ARE CHIRPING IN ERIC HOLDER'S LAW ENFORCEMENT BACKYARD

What has Eric H. Holder done to protect Leader's property rights? <<< [Click here to hear Eric Holder's crickets](#)>>>. Instead, he has failed across the board to prosecute profligate judges, attorneys, regulators, politicians and bureaucrats who are supporting this agenda.

Sound: FreeSFX.co.uk

Tellingly, neither has Holder prosecuted a single Wall Street executive for the so-called 2008 banking meltdown. The similarities of inaction are apparent. Perhaps the 2008 "crisis" was an elaborate fabrication to create an excuse to implement "social" technology broadly—before the world could figure out this agenda?

ANATOMY OF HACKER–JUDGE STEPHEN C. SIU

Here's an example of how Obama, Holder and Chandler executed their agenda with minions inside the Patent Office. Kappos assigned patent judge Stephen C. Siu to handle the unprecedented third reexamination of Leader Technologies' patent. (Kappos' invocation of this special director power designed only for the most extreme of hardship situations had never been seen before in living memory.)

STEPHEN C. SIU, Patent Judge in *Leader v. Facebook*

Photo: LinkedIn.

Here's the timeline of Judge Siu's entry into the *Leader v. Facebook* case:

2012	
Mar. 22	IBM sold 750 patents to FACEBOOK
Apr. 17	DAVID J. KAPPOS ordered the 3rd <i>Leader</i> reexam; assigned STEPHEN C. SIU and IBM, MICROSOFT, XEROX cronies
May 19	Facebook public offering; Kappos' and Siu's investments benefited substantially
2013	
Apr. 29	Patent Judge Stephen C. Siu magically affirms IBM, Xerox and Microsoft prior art that Facebook had lost on <i>resoundingly</i> at trial and in two previous reexams. A total reversal in favor of Facebook, IBM and The Eclipse Foundation.

Conflicts: None. Zero. Zip. Zilch. Nada. Kappos and Siu worked for IBM; Judge Siu worked for Microsoft; Disclosures? staffers had issued 212 patents to BM, Microsoft and Xerox; Kappos and Siu held Facebook, IBM, Microsoft and Xerox stock; Kappos ran a Patent Office Facebook page and posted regularly. Siu failed to disclose his IBM and Microsoft relationships when citing their failed prior art in the 3rd reexam. Siu failed to disclose his legal team's plethora of relationships with IBM, Microsoft, Xerox and Facebook.

Table 1: Timeline of Patent Office conflict of interest in *Leader v. Facebook*.

Judge Siu is a former Microsoft employee as well. Siu's three-judge panel and attorneys had collectively issued 212 patents to **IBM, Microsoft and Xerox**. Staff attorney William J. Stoffel lists IBM and major Facebook investors Vanguard and Fidelity as conflicts. Therefore, these people should never have touched this matter, and yet they not only touched it, they eviscerated it.

During the proceedings, Siu cited Facebook arguments about Microsoft and Xerox that Leader had already refuted soundly three times, once at trial and twice in previous reexams. Then magically, Siu's Patent Trial and Appeals Board (PTAB) *reversed* 10 years of decisions validating Leader's innovations. Siu ignored the Code of Conduct that requires judges to flee even the appearance of impropriety. The conflicting Facebook-IBM-Microsoft-Xerox associations among Kappos, Siu, Stoffel make the reexamination a transparent fraud. See p. 33 [Request for Congressional Intervention](#).

In lockstep, these officials cite a euphemistically named "safe harbor" exemption buried on page 202 of a 241-page Judicial Conference "advisory opinion." However, that same opinion says "even one share" of stock held by a spouse demands disclosure. It also says that the exemption does not apply if you get regular portfolio reports, which all mutual funds are required by law to provide twice a year. Neither does the exemption apply if the judge buys and sells stocks out of the fund, which Siu does.

Bottom line, the "safe harbor" excuse is a ruse for hiding holdings in crony companies. It's "the dog ate it" excuse that no one appears to have questioned until AFI started alerting Americans to this grossly unethical practice.

JUDGE SIU STUFFED HIS POCKETS WITH FACEBOOK STOCK AND RELATED INTERESTS

Siu's relationships with IBM, Microsoft, Vanguard and Fidelity notwithstanding, Siu also invested up to \$2.1 million in 28 mutual funds that hold 644 holdings totaling a whopping \$140 billion (with a B) stocks and bonds in Facebook and companies with direct Facebook interests, most notably Facebook's underwriters.

Six of Siu's funds hold \$4 billion in Facebook stock directly, including Facebook's largest mutual fund investor, Fidelity Contrafund (Ticker Symbol FCNTX). Contrafund is reserved for the Facebook Cartel elite, including Chief Justice John G. Roberts, Jr., Eric H. Holder and three of the four *Leader v. Facebook* judges.

Methodology: We studied public SEC filings to catalog the portfolio holdings inside these funds. Once you determine the ticker symbol for the fund, like Fidelity Contrafund's is FCNTX, the annual FORM N-CSR reports for the fund can be easily obtained at www.sec.gov. A single holding was counted as one, no matter whether it reflected a \$1 billion Facebook investment or a \$10 million JPMorgan bond. If two different funds held the same underlying nested fund that contained Citigroup stock, for example, that Citigroup interest was counted twice, since each holding is a separate conflict of interest. SEC filings are judicially recognizable, meaning they can be used as evidence in court without further verification.

CERTAIN AMERICAN JUDGES SUFFER FROM SUDDEN-ONSET-WEALTH SYNDROME

Judge Siu's financial conflicts show the same pattern of investing that we have uncovered in about 50 judges, politicians and bureaucrats dubbed "The Facebook Cartel." The sudden-onset wealth acumen acquired by these individuals is truly magical.

WHAT'S THE END GAME?

We are often asked where we think these people are headed with the now evident collusion. We believe these people have convinced themselves that the world will be better off if they surreptitiously take control of the global digital infrastructure.

THE END JUSTIFIES THE MEANS

This Cartel has decided that Leader's patents, Dr. Arunachalam's patents, Paul Ceglia's civil rights, Johannes Van Der Meer's patent, your health data, your IRS financial data, your banking data, your choice of physician, your privacy, etc. are required, even if they must lie, cheat, steal, wage war, betray, propagandize, and fabricate diversions to get them. Ironically, a very high percentage of these people are Harvard graduates who have formed a quite unholy alliance with Wall Street and Silicon Valley.

BEFORE OBAMA LEAVES OFFICE ...

President Obama's priorities over the next two years will reinforce this agenda, we predict. His priority to lower Pacific trade barriers, deregulate Internet domain naming, immigration, executive orders, stonewalling, vote subgroup pandering are not random or incompetent. They make perfect sense in light of the

THE CARTEL WANTS IT ALL.

Cartel's agenda to seize control of America's digital infrastructure, in perpetuity.

Nothing else matters in this agenda. Not America. Not the Constitution. Not property and privacy rights. Not human decency.

If this Cartel is permitted to take over the digital pipes of our lives, they will control our conversation, finances and votes through titillation, coercion, advertising, propaganda, censorship and message manipulation.

Is the American citizen (We the People) "too stupid" to stop this takeover?

We don't think so.

Merry Christmas to all.

Let's restore our sacred America rights in the New Year before these profligates do even more damage. The long lesson of history is that citizens either defend their rights, or they lose them.

FIG. 7—Only the end game that matters to the Facebook Cartel is control of America's entire digital infrastructure by the time Barack Obama leaves office. Why do you think he is working so feverishly to stack the courts with cronies? Then, if you try and protect your Constitutional rights, his cronies will continue to underpin the Cartel's agenda. With crooked judges, lawyers and law, the world is their oyster.

ON SIMPLICITY: AFI readers ask regularly for Cliff's Notes of our posts. We made an editorial decision some time ago to err on the side of giving you the full facts, rather than try and summarize them prematurely. Here's the problem: This corruption is perpetrated by devious minds who hide their misconduct in misdirection and sophistry (e.g., you and I say "He lied" while they say "He ran afoul of the situation with misperceived facts."). You'll read this in spades in the tortured 13-page Office of Government Ethics (OGE) advisory linked below. While these guys get paid \$800 an hour, the rest of us must do real work. So, it stands to reason that our findings will be complex. That said, now that the pegs are starting to drop into their respective holes, perhaps we will be able to start summarizing soon. We invite those who have knowledge of these events to anonymously email us at: amer4innov@gmail.com (Thank you to those who have already!)

HOW TO FILE A FRAUD COMPLAINT AGAINST A UNIVERSITY

The following universities were announced as participants in Ohio State Provost Joseph A. Steinmetz's corrupt MOOC education initiative named "University Innovation Alliance" (UIA). We have identified the instructions and online forms you need to file a complaint with the participants. MOOC stands for "Massive Open Online Course."

You should complain about:

- (1) the intellectual property theft of social networking source code from Leader Technologies, Columbus, Ohio that is the software engine running the UIA;
- (2) the corruption at Ohio State University and OSU's collusion with Battelle Memorial Institute which helped steal the software being used by UIA; and
- (3) the mistreatment of OSU Marching Band Director Jon Waters regarding fabricated Title IX charges that were used to pave the way for Steinmetz to announce UIA.

Universities pride themselves on protection of intellectual property.

Therefore, these universities cannot participate in this abuse of inventor copyrights, patents and trade secrets by The Ohio State Trustees and Administration. If these universities participate knowingly with Ohio State in its theft of intellectual property, then they are aiding and abetting the theft of intellectual property on a "massive" scale... Massive Open Online Course (MOOC) also known as The Eclipse Foundation.
