Hey John,

Matt McKenna suggested we chat more specifically about the unwinding of CGI and CHAI from the foundation so that I can understand some of the technicalities a little better. Is there a good time to try you this week?

thank you,

Nick
Tor is an encrypted anonymising network that makes it harder to intercept internet communications, or see where communications are coming from or going to. (https://www.torproject.org/)

Tails is a live operating system, that you can start on almost any computer from a DVD, USB stick, or SD card. It aims at preserving your privacy and anonymity. (https://tails.boum.org/)

The Courage Foundation is an international organisation that supports those who risk life or liberty to make significant contributions to the historical record. (https://www.couragefound.org/)

Bitcoin uses peer-to-peer technology to operate with no central authority or banks; managing transactions and the issuing of bitcoins is carried out collectively by the network. (https://www.bitcoin.org/)
