THIS AFI SITE HACKED!

HACKERS DELETE OVER 200 DOCUMENTS THAT PROVE RACKETEERING IN WASHINGTON, D.C.

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | MAY 20, 2016, UPDATED JUN. 07, 2016 | PDF

FIG. 1—HACKERS REMOVED AFI WATCHDOG RESEARCH. The topics of the documents deleted show other watchdogs what and who to focus on: proofs of the theft of Leader Technologies' social networking invention as the platform for government racketeering, in collusion with private companies, to take over global digital communications infrastructure.

NEWS UPDATE: MAY 27, 2016:

HILLARY AND HER STAFF USED HILLARY’S PRIVATE EMAIL SERVER FOR ‘RATHER URGENT’ NSA WHITE HOUSE BUSINESS

On Aug. 16, 2009, a ‘rather urgent’ request from then National Security Advisor (NSA) James L. Jones, sent from the White House Situation Room, was forwarded by Hillary’s staff to Secretary Clinton’s unsecured private Email server, according to new findings from Judicial Watch FOIA disclosures. NOTE: The illegal bulk surveillance of Americans began on Jones’ watch as National Security Advisor.

The message originated from the State Department.

Compromised Aug. 16, 2009 NSA email to Hillary:

NSA Jones: ‘rather urgent’ message from the White House Situation Room.
Operations Center and was sent to "SES-O-S-Calls." This was presumably Secretary Clinton's official address for Operations Center communications to the Secretary ("S-Calls"). It was forwarded to Huma Abedin, then Cheryl Mills, presumably on their secure State Department email accounts.

Remarkably, Cheryl Mills forwarded it to Hillary ("H" or "hd22@clintonmail.com") on her unsecured personal email server. At minimum, any bad guy like Guccifer monitoring her system would be alerted to "urgent" activity at the White House Situation Room involving NSA James L. Jones.

Taken in isolation, perhaps this security breach isn't the worst. However, given the sequence of events surrounding the NSA, Facebook, Hillary and the State Department at this time (2009), the involvement and sure knowledge by the NSA of Hillary's private server seems a given. It appears these U.S. officials did not want their activity in promoting Facebook as a planned new eDiplomacy tool to appear on official government servers, especially while Facebook was on trial for patent theft (Leader v. Facebook). The evidence of racketeering is unmistakable.

**2009 CONSOLIDATION OF SPY STATE POWERS BY OBAMA AND HILLARY IN COLLUSION WITH NSA AND FACEBOOK**

Jan 21  Hillary appointed Secretary of State

Larry Summers appointed his Harvard chief of staff (2002-2004) Marine L. Levine (Deutch) as National Economic Council (bank bailout) chief of staff; Levine is daughter-in-law of disgraced former Clinton C.I.A. director John M. Deutch who Clinton pardoned; Levine-Deutch later worked briefly as messaging product development vice president at AOL, then became a vice president at Facebook, and now is chief operating officer at Facebook's Instagram division; Summers is a director.

Mar 18  Hillary testified she began using her private email server set up by Bryan Pagliano who had not computer security experience.

Mar 21  Hillary hired Obama technology operative Alec Ross as her tech innovation adviser; Ross had no technical training.

Apr 15  Obama ordered all FOIA requests routed thru White House; likely overseen by James P. Chandler, III, his longtime legal mentor and Leader Technologies' former patent attorney.

May 26  Russian oligarch Yuri Milner (DST Digital Sky Technologies - Moscow) invested $200 million in Facebook; Milner and Facebook COO Sheryl K. Sandberg are World Bank (1992) protégés of Larry Summers who promoted the disastrous Soviet voucher system that gave rise to modern Russian oligarchy which they exploited to pump Facebook's pre-IPO valuation underwritten by Goldman Sachs, a Milner partner in Moscow; this time Bill Clinton had been paid $995,000 (2004-2007) and Larry Summers $322,500 (2008) in speaking fees; Summers had already funneled $13 billion to Goldman Sachs in TARP bailout loans, despite Goldman holding over 6% of all of America's assets.

Jun 03  Facebook starts feeding customer data to the NSA (Source: Snowden).

Jul 09  Sidney Blumenthal wrote Facebook into Hillary's Council on Foreign Relations eDiplomacy speech.

Jun 16  Hillary approves Russian Uranium One deal despite $152 million Clinton Foundation conflict of interest; Goldman Sachs underwrote the precursor UrAsia Kazakhstan uranium deal arranged by Bill Clinton.

Hillary solicited and received Microsoft (large Facebook shareholder) and GE funds on private

Aug 07 IBM’s giving Leader source code to Facebook | David J. Kappos appointed Patent Office director during Congressional recess; Kappos illegally convene a kangaroo patent court in 2012 to invalidate Leader Technologies’ social networking patent by secret fiat using former IBM and Microsoft judges; Kappos is a protege of James P. Chandler, as is Eric H. Holder, Jr. and Barack and Michelle Obama

Aug 16 Hillary’s staff routed “urgent” NSA James L. Jones communications to Hillary’s personal email server

Sep 26 Hillary’s State Department paid Facebook $120,000 for ‘election winning’ template; over $600,000 total by Nov. 2010.

Sep 29 Obama further privatized NSA into exclusive White House control by extending Clinton and Bush Executive Order 13511 (likely drafted by James P. Chandler) made Hillary a controlling director

CONTEXT: All this NSA, State Department, Russian, FOIA, IBM and Microsoft Facebook activity occurred while the Leader v. Facebook patent infringement trial was just beginning, thus obstructing justice and violating Leader Technologies’ right to non-interference by Executive agencies. During this time, Zuckerberg lied that he had lost all his 2003-2004 Facebook files and documents during the trial (to hide the fact that he received the code for Facebook from IBM Eclipse Foundation, and thus from Columbus innovator Leader Technologies. Yes, The Social Network was a total fiction for mass consumption. Zuckerberg is not genius, he is a pathological liar and hustler who gave the Washington Cartel a ready-made Harvard story as cover. The Zuckerberg files magically reappeared (28 computer hard drives and thousands of Harvard emails) in Ceglia v. Zuckerberg two days after the Federal Circuit court protected Facebook on appeal, despite Leader proving in the jury trial that the Facebook social networking engine infringes Leader’s patent on 11 of 11 claims. Zuckerberg’s files just as magically disappeared again behind a phalanx of sycophant judges obviously shilling for the NSA. See Cyberhijack Timeline (2009).

Table 2 : Timeline of 2009 State Department events showing collusion between Hillary Clinton and Facebook mostly hidden in State Department stonewalling.

For example, universities (Texas, Ohio State, Harvard, Georgetown, George Washington, Yale, Duke, Stanford), banks (UBS, Citigroup, JPMorgan, Bank of America, Wells Fargo, Barclays), U.S. Department of Justice, Microsoft and IBM.

40. IBM ECLIPSE FOUNDATION (CARTEL) 2009 MEMBERSHIP—removed Sep. 09, 2008 boast by the IBM Eclipse Foundation of their 191 members; replete with entity logos. The Eclipse Foundation was formed on Nov. 29, 2001 to receive Leader Technologies invention of social networking stolen by James P. Chandler, then intellectual property attorney to both Leader and IBM. These 191 companies were all the beneficiaries of the stolen social networking source code.

It would appear that the actors in this Cartel yearn for a “new world
order”—as long as they control it. By deleting the AFI documents, they condemn themselves to being found out.

Now that watchdogs know some of their worries . . . sick ‘em.

It’s all about corrupt attorneys.

* * *

It would appear time to revisit three NSA whistleblowers who received much attention in 2013 after the Edward Snowden leaks. THOMAS DRAKE, WILLIAM BINNEY and J. KIRK WIEBE belong to a select fraternity: the NSA officials who paved the way.
unconstitutional, illegal activity that they were doing and openly admit that and devise certain ways that would be constitutionally and legally acceptable to achieve the ends they were really after. And that just failed totally because no one in Congress or — we couldn’t get anybody in the courts, and certainly the Department of Justice and inspector general’s office didn’t pay any attention to it. And all of the efforts we made just produced no change whatsoever. All it did was continue to get worse and expand."

USA TODAY:

"So Snowden did the right thing?"

BINNEY:

"Yes, I think he did."

Hacked? Some little nerd hacked AFI? Really? Instead of deleting pictures and words from this blog, why don’t you pipsqueaks do something productive like reading the Constitution or Aristotle’s Nicomachean Ethics? Maybe you could get out of your mom’s basement and get a little fresh air. Or even better, why don’t you turn your attention to exposing these Harvard thugs for the thieves and liars that they are......

Have a great day, TEX =

ROFL (rolling on the floor laughing). The NSA hires geeks in basements to do their “unauthorized” dirty work. That we know ‘cause the geeks brag. They’re trying to protect their cash cow from getting flattened by WE THE PEOPLE!!!
Thought this was particularly relevant to the hack of AFI. Seems pretty clear to me who was behind it given the people they were trying to protect and the subjects they don’t want us commoners to read about in a concise and well-laid-out manner.

http://www.foxnews.com/tech/2016/05/20/senators‐move‐to‐block‐fbi‐from‐expanding‐hacking‐powers.html

Two US senators this week introduced a bipartisan bill meant to protect Americans from government hacking.

The Stopping Mass Hacking (SMH) Act from Sens. Ron Wyden (D-Ore.) and Rand Paul (R-Ky.) would prevent the implementation of a federal court procedure known as Rule 41. Approved in May, Rule 41 makes it easier for the Justice Department to obtain warrants for remote electronic searches. It also allows judges to issue a single warrant authorizing government hacking of numerous devices around the world.

“This is a dramatic expansion of the government’s hacking and surveillance authority,” Wyden said in a statement. “Such a substantive change with an enormous impact on Americans’ constitutional rights should be debated by Congress, not maneuvered through an obscure bureaucratic process.”

I think they were trying to discredit the AFI research with the broken links. It makes the site appear sloppy to new readers. NOTICE TO READERS: The AFI researchers are meticulous and systematic. They rarely post a broken link. So, if you encounter one, let them know because it may very well have been caused by these hackers who don’t want us to know the truth about their slave masters.

This reminds me of a song called ‘WHO LET THE DOGS OUT’! AFI researchers are meticulous and systematic!

The zebra does not change its stripes. Facebook is a propaganda organ for the NSA/totalitarian Obama government and is boldly censoring dissent because it fears no one, especially not its lawless Justice Department.

http://heatst.com/tech/facebook‐censors‐conservative‐lauren‐southern‐for‐mentioning‐censorship/

We wish this wasn’t true - but it looks like Mark Zuckerberg’s message hasn’t got through to Facebook’s employees. Conservative activist and Donald Trump supporter Lauren Southern was just kicked off the site for a totally inoffensive post noting its censorship of another conservative.

And what’s more, Lauren videotaped the whole thing.

Read this article about Lyin’ Zuck from March 5, 2010. This was just four days before Facebook had their butts handed to them by Judge Farnan in Leader v. Facebook, and eight days before Obama nominated Leonard P. Stark to replace Farnan. All coincidence, of course.

HUFFINGTON POST HYPOCRISY

The Huffington Post and Fairfax Media are crowing over their recent expose they named “World’s Biggest Bribe Scandal” involving Monaco-based Unaoil.

Remarkably, they write: “The Unaoil scandal, revealed this week by Fairfax Media and The Huffington Post, sparked joint investigations by the FBI, Department of Justice, Australian Federal Police and UK authorities.”

So how does HuffPo have such pull with all these federal agencies who are asleep at the wheel on the IRIS, Benghaz, AP, Tea Party targeting, Fast and Furious, Hillary's private email server, yada, yada, yada? This Unaoil scandal is PEANUTS compared to the endemic corruption of the theft of Leader Technologies’ social networking invention, and the bribery and graft used to cover it up.

HuffPo quotes an FBI agent: “Corruption leads to failed states, which leads to terrorism which leads to [threats to] national security." America is now leading the way, sadly. Perhaps our problem with terrorism is traced right back to our own corruption doorstep.

The pot should not call the kettle black. America is setting an all-time corruption standard, then we turn around through sycophants at the HuffPo and elsewhere and lecture others?! This Unaoil scandal seems fabricated to make it look like our agencies are doing something for us. Sorry boys and girls, lie to me once, shame on you. Lie to me twice, shame on me. I don’t buy it. It is too perfect. Also, you’ve roam the world for this story while ignoring a much bigger one in your back yard.

Don’t get me wrong, I am glad HuffPo is exposing this Unaoil corruption, but it is obscene for them to crow over this set of articles, yet having consistently IGNORED the theft of social networking elephant in the room.

Could it be because HuffPo and Fairfax Media are feeding at the same social media trough with all their fellow mainstream media suck ups? One look at their social feeds and the answer is obvious. They drank the Kool-Aid of social media corruption long ago.

Think about it.

HERES ANOTHER NSA BOMBSHELL from The Guardian, just published yesterday. Our NSA “protectors” are real scumbags.

We should go back and catalog each and every member of Congress who railed against Edward Snowden because they will no doubt be a part of the secret intelligence cabal that is RUINING our Republic.

How the Pentagon punished NSA whistleblowers

Long before Edward Snowden went public, John Crane was a top Pentagon official fighting to protect NSA whistleblowers.

Instead their lives were ruined - and so was his Snowden calls for whistleblower shield after claims by Pentagon source

Exclusive: Pentagon source goes on record against whistleblower program

REMEMBER THE “NO DISCERNIBLE IMPACT” RESEARCH: The NSA bulk data program has been proven to be a waste of tens of billions of taxpayer funds and not useful in catching terrorists.

Reply
So what is it for? CRONY CAPITALISM, pure and simple. The tech firms, advertisers and banks who get these data exploit it for profit. They also use it to manipulate public opinion and election outcomes. The NSA merely uses the excuse of safety and security as the smokescreen to feed their buddies in the "BIG DATA" private sector. It is one big scam on the American populace. They make people think they need the NSA protection, in fact, the data is so voluminous, the NSA can't find the terrorist needles in the data haystack.

Obama defended the NSA surveillance programs during a visit to Berlin, saying: “We know of at least 50 threats that have been averted because of this information not just in the United States, but, in some cases, threats here in Germany. So lives have been saved.”

Rep. Mike Rogers (R-Mich.), chairman of the House Permanent Select Committee on Intelligence, said on the House floor in July [2014] that “54 times [the NSA programs] stopped and thwarted terrorist attacks both here and in Europe - saving real lives.”

However, turns out, these were all lies.

READ the NEW AMERICA analysis: “Surveillance of American phone metadata has had no discernible impact on preventing acts of terrorism and only the most marginal of impacts on preventing terrorist-related activity.”

Authors: Bailey Cahall, Peter Bergen, David Sterman and Emily Schneider. (Jan. 13, 2014). Do NSA's Bulk Surveillance Programs Stop Terrorists? New America.

Hear is PBS FRONTLINE coverage of people mentioned in the Guardian expose:

FRONTLINE (PBS). United States of Secrets | Whistleblower (4 min. 8 secs.)

P. Pratt May 23, 2016 at 2:35 PM

Watching this PBS video fired brain cells that prove the "other" alternative approach from the AFI timeline:

James P. Chandler, III's stenographer notes from August 30, 2002. Keep in mind, at this point Chandler is a member of the "National Infrastructure Assurance Council (NIAC) appointed by Clinton which morphed under Bush into the National Infrastructure Advisory Council... the White House's private intelligence agency. No wonder the NSA insiders were shocked!!!!

http://www.fbcoverup.com/docs/cyberhijack/cyber-hijack-findings.html#chandler-throws-his-client-leader-technologies-under-the-bus

They didn't need the NSAs bloated internal research and development projects, they had Leader Technologies' social networking invention!!!!

Clerk of Court Jan Horbaly, U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court's ruling was challenged by an amicus curiae brief revealing clear mistakes of law and new evidence. See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in Leader v. Facebook, Mr. Horbaly failed to disclose his conflicts of interest and close associations with numerous Facebook attorneys and law firms, as well as his close association with one of Facebook's largest shareholders, Microsoft, who is a Director of The Federal Circuit Bar Association where Mr. Horbaly is an ex officio officer. Additionally, the DC Bar

Hillary Clinton stopped referring to herself as the potential “youngest woman president” during campaign stump speeches after polling showed that it was not helping with voters and donors.

HORNELL -- A local law firm earned a victory in New York Appeals Court Tuesday as the court dismissed Facebook's attempts to have its case against those who represented Wellsville native Paul Ceglia reheard.

Paul Argentieri & Associates in Hornell was among several firms and lawyers named in the suit, originally filed by Facebook in federal court on October 2014.

The headlines read,

Judge Randall R. Rader, U.S. Court of Appeals for the Federal Circuit, chief judge responsible for the (mis)conduct of his judges and Clerk of Court in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. Chandler. See analysis of Judge Rader's undisclosed conflicts of interest in Leader v. Facebook.

Judge Rader also did not stop his judges from creating new arguments and evidence for Facebook in the secrecy of chambers—after they had debunked all of Facebook's evidence on appeal, which is a clear breach of constitutional due process.

‘Furious Federal Judge Orders Justice Department Lawyers to Undergo Ethics Training’

Wonder if Obama will say that the lawyers referred to in this article should be pardoned for “Cruel and Unusual” punishment.

How dare the District Judge think that these lawyers should have any “Ethics” at all.

Remember they work for the “ Department of Jokers!”

FACEBOOK IS BOLDFACED LYING ABOUT CONSERVATIVE TARGETING

Facebook now claims that it is rogue employees who were targeting conservatives. If anyone believes that they are just stupid.

This site already exposed that in 2009 Hillary Clinton started paying Facebook out of State Department funds for contracts to building an ‘election winning template’ which made censorship programs to push forward desired messages and suppress undesirable ones.

Facebook’s censorship is Cartel policy. The lying “narratives” they are currently floating after the mainstream suck ups visited Lyin’ Zuck are heinous. Spread the word folks.

Here are just two of the over a dozen contracts Hillary wrote to Facebook before the 2010 midterm election. This was corruption at the highest levels of government as well as Facebook:

The Romanian hacker who claimed he easily breached Hillary Clinton’s personal email server is finalizing a plea deal with the FBI and U.S. attorney, Fox News has learned.

Marcel Lehel Lazar, the 44-year-old hacker also known as “Guccifer,” first gave indications he wanted to cooperate with the U.S. government in mid-April, during an interview with Fox News. Lazar, in a subsequent discussion, said he was working on a plea deal - he then suspended media contact earlier this month.

Builders follow blue prints. Obama is a disciple of Saul Alinsky, the author of Rules for Radicals. Alinsky wrote this book so that organizers against the American way of life have a blueprint to follow. Obama quotes him often in his own book and Hillary did her thesis on Alinsky. Google it. They love his ideas.

There are eight levels of control that must be obtained before the elitists are able to create a socialist / communist State.

1. Healthcare: "Control Healthcare and you control the People" Everybody gets sick and old. Everybody wants to be healthy for free.

Almost DONE !!

2. Poverty: Increase the Poverty level as high as possible." Poor people are easier to control and will not fight back if the government is providing everything for them to live. Envy is the tool of the socialist.

DONE!!!

3. Debt: Increase the National Debt to an unsustainable level." That way you are able to increase Taxes, and this will produce more Poverty. The capitalist system must be shown to be ineffective . Personal debt (student loans for example) must be staggering. Hopelessness creates reliance.

DONE!!!

4. Gun Control: Remove the ability to self defend against criminals and the government. That way you are able to create a Police State - total local control. They want you to believe that they are your protectors.

ALMOST THERE!!!

5. Welfare: Take control of every aspect of their lives (Food, environment, medicine, Livestock, Housing, and income).

Hillary Clinton's private State Department emails prove that the State Department was contracting with Facebook at the highest level for a "template" to swing votes for the upcoming 2010 midterm elections. Interference in US elections is a violation of the Hatch Act.

Clinton's super-donors poured millions into the State Department. Why was the government so reluctant to release the names of these high-rollers and socialites?

Hillary Clinton may have suspended her political career temporarily when she became secretary of state. But the Clinton fundraising machine was in full swing and raising millions of dollars for the State Department under her watch, an analysis by The Daily Beast has found.

Obama: "As president of the US, I want to personally apologize to the Japanese people for having all of our boats in Pearl Harbor on that day back when America was trying to colonize the world....its such a coincidence that it was Pearl Harbor day. If our boats and sailors had not been there, your suicide bombers could have landed safely. And I want to apologize also for the SNL skits when Jim Belushi made fun of your Samurai Warriors and for the movie Karate Kid. I want to apologize to you also for the rude way that the Jews have stolen your word JAP to describe their women. And as for those big bombs we dropped to end the war and save American lives, that was rich white men that did that. Everyone of color, females, transgenders, NBC, labor unions, were opposed to it. Please blame the white rich guys . Now I realize that we spent a bazillion dollars rebuilding your country, and I realize that our income earners paid for it, but the white people were against it."

And in Vietnam Nam the next week,
Obama: “Good morning Vietnam Nam ! Standing here today reminds me of the great things some of our great Americans did to stop our soldiers from raping your women and hurting everyone over here.....Jane Fonda stood right over there and showed you what I personally stand for. I hate America ! I didn't choose to be a community organizer because I think our country is wonderful, if you know what I mean. And John Kerry, he laid down in the bottom of his PT boat over on that river over there, inflicted himself with a superficial wound, cried like a scared baby, got his phony Purple Heart, and went home to protest his fellow soldiers. That's what I'm talking about !!! Surely, Vietnam , as a non democratic communist country, you will see that our country wants you to join our new international coalition of Iran, Cuba, Venezuela, and Somalia , to lead the world in finally wiping out the scourge of white man freedom and Christianity. I feel good about the debt , the hatred, the divisiveness, the envy that we have created. The old hag is teetering. The One World Order is at hand."

ON HILLARY’S PERSONAL EMAIL SERVER: WHOEVER SET UP THEIR HOME NETWORK LIKE THAT WAS A SECURITY IDIOT

Ronald Guilmette, a private security researcher in California who prompted me to look up this information, said printing things to an Internet-based printer set up this way might have made the printer data vulnerable to eavesdropping.

“Whoever set up their home network like that was a security idiot, and it’s a dumb thing to do,” Guilmette said. “Not just because any idiot on the internet can just waste all your toner. Some of these printers have simple vulnerabilities that leave them easy to be hacked into

Krebs, B. (May 26, 2016). Did the Clinton Email Server Have an Internet-Based Printer? InfosecBuddy.

The Associated Press today points to a remarkable footnote in a recent State Department inspector general report on the Hillary Clinton email scandal: The mail was managed from the vanity domain “clintonemail.com.” But here's a potentially more explosive finding: A review of the historic domain registration records for that domain indicates that whoever built the private email server for the Clintons also had the not-so-bright idea of connecting it to an Internet-based printer.

According to historic Internet address maps stored by San Mateo, Calif. based Farsight Security, among the handful of Internet addresses historically assigned to the domain “clintonemail.com” was the numeric address 24.187.234.188. The subdomain attached to that Internet address was....wait for it.... “printer.clintonemail.com”.

MY COMMENT: If this is true, Hillary Clinton must be sent to the farthest edge of America and thrown off the cliff.

Here's an easy test of Facebook's attitude toward journalism: whether Peter Thiel remains on its board of directors.

For now, Mark Zuckerberg and his company are staying silent. If Zuckerberg does ultimately allow Thiel to stay on the board, you'll know how the CEO—who holds absolute control over the world's most-powerful media company—feels about the free press. He wants to exploit it, but doesn't honor it.

Thiel is the billionaire co-founder of PayPal—and an early, fabulously enriched investor in Facebook. He's Zuckerberg's friend and mentor, by all accounts.

"More pieces to Hillary's corruption puzzle."

http://time.com/4346575/terry-mcauliffe-hillary-clinton-china-investigation/

Virginia Gov. Terry McAuliffe invited the Chinese businessman whose donations to him have been named as a focus of Justice Department investigators to a 2013 fundraiser at Hillary Clinton's personal Washington, D.C., residence.

Wang Wenliang, a Chinese national with U.S. permanent residency, briefly shook Clinton's hand at the Sept. 30 event, a representative for Wang told TIME. An American company controlled by Wang made a $60,000 contribution to McAuliffe's campaign three weeks before the fundraiser. Less than a month later, a separate Wang company pledged $500,000 to the Clinton Foundation, the first of several donations that eventually totaled $2 million.

The Goldman Sachs chickens need to be put down. Bernie Sanders is right on that.

WHEN HILLARY CLINTON’S son-in-law sought funding for his new hedge fund in 2011, he found financial backing from one of the biggest names on Wall Street: Goldman Sachs chief executive Lloyd Blankfein.

The fund, called EagleVale Partners, was founded by Chelsea Clinton’s husband, Marc Mezvinsky, and two of his partners. Blankfein not only personally invested in the fund, but allowed his association with it to be used in the fund’s marketing.

Companies like Facebook and Google are happy to offer you their services for free, but free always has a cost on the internet. Advertising pays the bills, and these big companies separate themselves from the pack by serving up ads that are better targeted than other networks. How do they target so well? By tracking you as you make your way across the web and building a profile that helps determine which ads you're most likely to click.

Some people don't want to be tracked by Facebook, so they don't register an account with the site. But thanks to some major changes rolling out now, on one will be able to hide from Facebook tracking.

Facebook announced on Thursday evening that it is changing the way its advertising works across the web. Facebook doesn't just serve ads on facebook.com and in its mobile apps, the company also has a network of third-party websites and apps that it partners with to display ads. It's called the Audience Network, and there has always been one big difference between the way Facebook's off-site ads work as compared to Google: They were only shown to Facebook users.

Now, that will no longer be the case.

HOW TO FILE A FRAUD COMPLAINT AGAINST A UNIVERSITY

The following universities were announced as participants in Ohio State Provost Joseph A. Steinmetz’s corrupt MOOC education initiative named “University Innovation Alliance” (UIA). We have identified the instructions and online forms you need to file a complaint with the participants. MOOC stands for “Massive Open Online Course.”

You should complain about:

(1) the intellectual property theft of social networking source code from Leader Technologies, Columbus, Ohio that is the software engine running the UIA;

(2) the corruption at Ohio State University and OSU’s collusion with Battelle Memorial Institute which helped steal the software being used by UIA; and

(3) the mistreatment of OSU Marching Band Director Jon Waters regarding fabricated Title IX charges that were used to pave the way for Steinmetz to announce UIA.

Universities pride themselves on protection of intellectual property.

Therefore, these universities cannot participate in this abuse of inventor copyrights, patents and trade secrets by The Ohio State Trustees and Administration. If these universities participate knowingly with Ohio State in its theft of intellectual property, then they are aiding and abetting the theft of intellectual property on a “massive” scale… Massive Open Online Course (MOOC) also known as The Eclipse Foundation.

AFI has been warning about the privacy risks of DROPBOX for several years. It is funded by the criminals at Goldman Sachs and Accel Partners LLP (James W. Breyer, Facebook director and largest outside shareholder).

Putting your files in drop box is like dumping your personal files on the doorstep of the public school and hoping no one will snoop.

http://www.engadget.com/2016/05/29/dropbox-infinite-kernel/

On the surface, Dropbox's Project Infinite sounds great. The feature will give you access to everything in your account without having to store them on your computer. It's bound to save space, especially if you're using an SSD with a smaller capacity. As Motherboard reported, though, a lot of people aren't happy that for the feature to work, Dropbox will need to have deeper access to your system. When the company announced the project, its post said: "With Dropbox Infinite, we're going deeper: into the kernel -- the core of the operating system."

Since the kernel is the most important part of an OS, Infinite's critics believe that it's a security risk to have Dropbox sitting in it.

As first lady, Hillary was embroiled in another scheme to bury sensitive White House e-mails, known internally as “Project X.”

The zebra doesn't change His & Her stripes. In 1995, Bill Clinton's CIA director was prosecuted for keeping classified information on his unsecured home computer. The only thing that kept him out of jail was a pardon by Bill Clinton on Jan 19, 2001 on his final day in office... the same day he appointed James P. Former Attorney General Eric Holder has to be one of the most corrupt men on the planet. It was on his watch that the NSA began its illegal bulk data collection on American citizens. His decisions CREATED the situation that forced Edward Snowden to risk life and limb to expose it.

Holder is a coward and liar. Now he is trying to save his own skin by changing sides, sort of. He is pure scum.

http://www.cnn.com/2016/05/30/politics/axe-files-axelrod-eric-holder/index.html

Former U.S. Attorney General Eric Holder says Edward Snowden performed a "public service" by triggering a debate over surveillance techniques, but still must pay a penalty for illegally leaking a trove of classified intelligence documents.

"We can certainly argue about the way in which Snowden did what he did, but I think that he actually performed a public service by raising the debate that we engaged in and by the changes that we made," Holder told David Axelrod on "The Axe Files," a podcast produced by CNN and the University of Chicago Institute of Politics.

Holder is a two-faced, immoral coward.

Peter Sunde says Europe must take action to stop the giant social network.

Facebook has grown so dominant that it is one of the world’s largest nations, and co-founder and CEO Mark Zuckerberg is effectively the dictator of that country, according to Peter Sunde, the co-founder of the Pirate Bay file-sharing site.

Sunde made his remarks during an interview with CNBC at a conference in Amsterdam organized by The Next Web. “Facebook is the biggest nation in the world and we have a dictator, if you look at it from a democracy standpoint,” Sunde said. "Mark Zuckerberg is a dictator. I did not elect him. He sets the rules.”

Facebook could be listening in on people’s conversations all of the time, an expert has claimed.
The app might be using people's phones to gather data on what they are talking about, it has been claimed.

Facebook says that its app does listen to what's happening around it, but only as a way of seeing what people are listening to or watching and suggesting that they post about it.

The feature has been available for a couple of years, but recent warnings from Kelli Burns, mass communication professor at the University of South Florida, have drawn attention to it.

When their boss Hillary is lying through her teeth and manipulating evidence, the underlings do the same. This State Department fish rotted from the head down.

An official within the State Department ordered the editing of a damning portion of video from a Dec. 2013 daily press briefing discussing negotiations between the Obama administration and Iran, an agency spokesman acknowledged on Wednesday.

State Department spokesman John Kirby told reporters that a public affairs official placed a phone call on Dec. 3, 2013, the same day as the daily press briefing, ordering the removal of video showing Fox News reporter James Rosen asking then-State Department spokeswoman Jen Psaki whether anyone inside the Obama administration has misled the American public about the Iran negotiations.

At a press briefing in 2012, Rosen had asked Psaki's predecessor, Victoria Nuland, whether nuclear negotiations with Iran were being held. Nuland said they were not. Psaki provided a cryptic answer in response to Rosen's question.
