SPEAKER: KEVIN SHIPP
TOPIC: Former C.I.A. officer, Anti-terrorism Specialist Exposes Criminal US Government Conspiracy
HOST: Dane Wigington, GeoEngineeringWatch.org

BIOGRAPHY: Kevin Shipp was one of the most widely experienced officers in the C.I.A., occupying positions as an Agent on the Protective Detail of the Director and Deputy Director of the C.I.A., a manager of ongoing operations, an internal Security Officer, a Counterintelligence investigator.
tasked to ferret moles out of the C.I.A., a Counter Terrorism Center
officer, a protective operations team leader and a polygraph
examiner.

On August 27, 2013, Shipp published “From the Company of
Shadows”. Ascent Publications (2013). He provides a virtual
encyclopedia of internal and external US intelligence and
C.I.A. operations; included for the first time in a single
volume revealed to the public. He details several operations he
was involved in, giving the reader an insider’s view of what a
C.I.A. officer actually does. He describes the important
functions of the C.I.A., its successes and removes the veil
covering C.I.A. abuses done under the guise of secrecy. This is
an account every American should read.

[OPENING REMARKS]

[RESUME]

I always like to start out by saying I'm a recovering
C.I.A. officer, for all of you here this morning. I do go to
weekly meetings: Agency Anonymous. So I'm getting there.

I was a decorated C.I.A. Officer. Part of that is in the
book which we fought to get out. Initially, they told me I could
never say I worked there. We fought them and we beat them on
that one, and we got some things in the book, eventually.

I went on deadly assignments for my Agency and my country.
I love my country. I was very dedicated to the Agency.

Some of those assignments they told us we may not come back
from. No problem. That's what we did.
But the higher I got up in the Agency, the more I began to see illegal, unconstitutional, sometimes criminal activity that the Agency, and some other sectors of the shadow government, I call it, were doing things that were illegal and unconstitutional.

And, I always have to say this: the United States Constitution is the supreme law of the land. It supersedes every other law in the US criminal justice system and the judicial branch.

That's worth remembering. When the US government violates the Constitution, they are committing multiple felonies based on the foundation of our government. We must always remember that.
[FEDERAL AGENTS PLEDGE TO THE CONSTITUTION FIRST]

So, as a federal agent I had to swear an oath to the Constitution, to defend the Constitution and our country against enemies foreign and domestic.

The problem was there were some that were domestic. And, there were some that happened to be in our own government. So, I had to make a decision. Was I going to uphold my oath to the Constitution, or was I going to shrink back? And, for me there, it was an easy choice. I chose to stand for the Constitution and that's why I'm here this evening.

[APPLAUSE]

[WHILE YOU WORKED, THE C.I.A. PLAYED]

We have to. If, it's because we have been so busy with our lives, just trying to survive, that they've been able to get away with doing what they've done.

[WAKE UP CALL]

This is a wake-up call. This is an alert. This whole conference, and the one that's subsequently going to come after this, is a wake-up call.

[POST CONSTITUTIONAL GOVERNMENT]

It is almost too late to stop what is now a post-constitutional government.

The People are no longer ruling in our country.

The government in a tyrannical form is now ruling the people by subversion, force and fear.
Sadly that's what we have today.
The reason I am here, is, the question is always asked, where are the whistleblowers?
If there is a covert geo engineering program, why aren't people coming out and blowing the whistle on it if it's so dangerous?

[NSA SPIES STORE DATA ON YOU, NOT TERRORISTS]

The NSA surveillance program, if it wasn't for Edward Snowden, who both the Democratic and Republican Party have come out publicly and said they want him assassinated, if it wasn't for Edward Snowden would we know about the NSA spying program that is collecting 1.5 billion pieces of information on you and me, and our telephones, and our Internet, Internet communications, our emails?
That's what they were doing, not on terrorists, on us. And, they were storing it in the Utah Data Center which is still there, forever.

So, if there's something you do later on that they're not real happy with, they've got your emails, your texts, your cell phone conversations, and everything is still stored in the database. And, all that stuff, by the way, is still there on you, not on terrorists. Every single American citizen.

So this is what we have here.
We have a government that is functioning outside the Constitution. This is the size of the secret government.
I call it the shadow government. There are some people who call it the Deep State. Take your pick, same thing.

We've got the C.I.A. functions covert programs. They're probably the most out of control because their Charter is so loose.

The IRS has covert programs.

FBI.

Department of Defense.

Department of Homeland Security.

Department of State.

Department of Justice.

The NSA.

And, I have added the National Weather Service and NOAA because as Dane [Wigington] I think told you, the National Weather Service and NOAA are now binding their employees with secrecy agreements so they cannot talk without penalty of prison about some of these climate programs that they're doing.

That's called a red flag.

That's what we're facing.

Here is the first whistleblower, John F. Kennedy

"The very word secrecy is repugnant in a free and open society." One of the greatest speeches ever given in terms of the Constitution.

"And there is a very grave danger that an announced need for increased security will be seized upon by those anxious to
expand its meaning to the very limits of official censorship and concealment.”

That was a prophetic message by John F. Kennedy, April 27, 1961.

We all know what happened to him in 1963 don't we?

[JFK PLANNED TO DISMANTLE THE C.I.A.]

They had identified, John F. Kennedy and Robert, had identified Mafia connections within the C.I.A.. There was an assassination program.

They engaged in the Bay of Pigs without his knowledge. He had come out publicly and said he was going to break the C.I.A. into a thousand pieces and dismantle it. And then, in 1963 we saw what happened.

[9/11]

9/11, we don't have time to go into that. I just want to say this. I teach criminal investigations at a university.

9/11 was immediately labeled a terrorist event, and there was a reason for that.

When you label it a terrorist event it stops any sort of criminal investigation right in his tracks.

If they would have done a criminal investigation of 9/11 it would have uncovered things that would have painted a whole different picture about why those buildings came down.

I would encourage you to go to Architects and Engineers for Truth [http://www.ae911truth.org/] have done an outstanding video about Tower Seven.

Tower Seven was not hit by a plane and it came down under controlled detonation. Now I'm a former C.I.A. analyst, and I'm
saying that based on a whole lot of research that was not done 
by a plane.

And, just finally, when the towers came down hundreds of 
tons of metal, steel, marble and concrete turned to dust before 
it hit the ground, so much so that there was almost no seismic 
activity when the buildings hit the ground.

It was all dust. You can see steel girders as they come 
down, if you, any of you, have seen that, literally vaporize and 
turn to dust as they fall down.

That is not natural. All we're going to say there. I 
recommend you look into a criminal investigation of 9/11 and get 
past the terrorist narrative, which has been a favorite one for 
decades.

[POWERPOINT SLIDE TITLED “WHERE ARE THE WHISTLEBLOWERS?”]

[WHERE ARE THE WHISTLEBLOWERS?]

Where are the whistleblowers? I come from the belly of the 
beast. I was an interviewer, interrogator. I was a 
counterintelligence agent. I was a polygraph examiner. I was an 
internal investigator, and on and on and on. So I know this 
system, and I know it well, and then I experienced it 
personally.

Why don't people come out in these secret programs that 
they know are illegal and unconstitutional?

Why don't they come out and blow the whistle and tell 
people what's going on?

Well, this is why.
[C.I.A. SECRECY AGREEMENT: MUZZLES WHISTLEBLOWERS]

The US government, every secret operational program that it has, forces the employee, or coerces the employee, the person, into signing what is called a secrecy agreement, non-disclosure agreement.

Now, back in the original days, the secrecy agreement was created to protect legitimate sources and methods. Military technology and things like that. That was okay, that was fine.

The secrecy agreement protected us when we went out in the field, because if they found out who we were we wouldn't just be killed, we would have been tortured.

So, it protected our identities.

It protects the identities of troops in the field doing movements out during wartime. That's how it started. But, it's been taken and it's been turned into a monster where the secrecy agreement is now being used as the ultimate tool of intimidation.

Every employee that gets a job and obtains knowledge of these covert programs, the Air Force Geo Engineering Program, in my opinion, has to sign this agreement.

[SECRECY AGREEMENT: THREATS AND INTIMIDATION]

What the agreement says is if you disclose anything that you know about this program, you can be terminated, or you can force criminal penalties, in other words, you can be put in prison.

A good friend, we hope will be speaking at our next event, was put in prison by the C.I.A. for two years. He exposed the torture program which was a lot more than waterboarding folks.
As a matter of fact, they got almost nothing out of waterboarding. People died. It was, it was bad.

[C.I.A. HERO WHISTLEBLOWER ON TORTURE: JOHN KIRIAKOU]

Anyway, he came out publicly, talked about the torture program, made mistake, one wrong word, and was convicted - John Kiriakou - and they put him in prison for two years. Modern day hero. Just got out. Serviced two years for coming out and trying to alert people about what was going on.

I was talking to somebody in the back. I have to watch every single word I say because they are just waiting for one thing. And so, it's a constant screen. You don't want to give them any ammunition to put in their in their gun.

So, there are binding power penalties and threats for the secrecy agreement. That stops ninety-nine percent of the people right there. Oh man, I'm not going there. I'll just look the other way. Uh uh, I don't want to go to jail. I don't want to lose my job. I don't want my life destroyed.

[CONGRESS CANNOT CONTROL THE C.I.A. SHADOW GOVERNMENT]

Now, there is a massive, mammoth complex secret mechanism in the US government. It’s called the intelligence community. It is so powerful that not even the Congress or the Senate can control it.

Matter of fact, it controls them. It does whatever it wants. They have these Senate investigations, and they'll come and they say, sorry Senator, we can't tell you what we're doing because you don't have the Agency clearance. And that's where it's shut down.
Benghazi is an example. The NSA surveillance program is an example. Where did those go? Nowhere.

I sit on the Citizens’ Commission on Benghazi and that's a whole, another story, maybe the next conference.

[ORIGIN OF THE C.I.A. SECRECY AGREEMENT (1948)]

Anyway, began in 1948, I talk about this in the book. Real quickly, an Air Force B-2 bomber had four RCA civilian engineers on board. The plane went down in a horrible accident. A couple of the pilots parachute out, parachuted out. All four engineers were killed in a horrible crash.

The widows of the engineers demanded to know from the Air Force why the plane crashed and why their husbands died.

The Air Force came back and said, well we can't tell you that because it's secret. Turns out it was gross negligence on behalf of the pilot. Drove the plane into the ground. Hit the wrong flaps. Hit the thruster instead of the opposite and literally drove that bomber right into the farm. I've been to the site. I have pictures of it in the book.

So, the families pushed it and said, no, no, it wasn't classified. You can't do that. We're suing you for the death of our husbands. So, the United States government, the Executive Branch, created what's called the State's Secrets privilege.

[STATE SECRETS PRIVILEGE – EXCUSE TO HIDE ANYTHING]

The State Secrets Privilege was literally, the wording was derived, from the monarchy of the King of England which gave the King of England absolute power to shut down any case they deemed was unacceptable, to shut it down.
The State Secrets Privilege was used to shut down these four widows’ case. It was shut down. It was sealed in federal court so that no one, including Congress the Senate and their attorneys, would ever see it. That's where this all began, in 1948.

And it's gotten far worse from there.

[SECRECY AGREEMENT: LEGAL SLAVERY; WAIVES BASIC RIGHTS]

People who sign this binding secrecy agreement, which I have signed several of and several compartments as well, they don't, they are not told, and they do not know, that when they sign that agreement they are giving up all of their constitutional rights.

They have no right to trial.
They have no right to a jury trial.
They have no right to sue the government if they are exposed to toxins and made sick, or their family or anyone else.
They have lost all their rights to due process. They're not told that.

I found that out the hard way when I tried to sue the government and they came back and said, Sorry Pal, you don't have any rights. So, I took a different course which I’ll tell you about here in a moment.

So, that's how they shut them up to. There is within the federal, each federal agency, now remember, since 1948 this procedure has been perfected.

[SCIENCE TO DESTROY WHISTLEBLOWERS]

It is a science to destroy a whistleblower from the very beginning. They come to a supervisor. They may even have the
courage to call their Congressman or Senator about this illegal operation.

[BUREAUCRATIC PUNISHMENTS]

And the first thing that happens is they start getting promotions denied, even though their top performers. Their promotions are denied. They're given embarrassing assignments where they put in the corner of a building somewhere, so that everybody knows that they're being penalized for this. If they continue to blow the whistle and push it even farther, they'll do things like this. I have seen this personally.

They'll raise the interest rates on the credit union loans so that their cars other loans are unaffordable.

If they try to pull out their retirement funds to provide for their family, and especially in the case where they've been driven out of the organization, the organization will block their retirement funds so that the family will be destroyed financially.

Now that is a felony, for a federal agency to deny the retirement funds of an employee is a felony.

I've seen them do that. It was an interesting, interesting case. They will do that.

Now, another thing that they will do, just so you all know this, I want the public to know this too.

[FALSIFIED PSYCHOLOGICAL TESTS AS WEAPONS]

What they'll do is they'll say okay, we can see that you're very stressed out by all this and we want to help you. So, we're going to refer you to the office of medical services so you can
undergo some psychological counseling to help you sleep at night and make you better and get rid of your anxiety. So, we're going to set up an appointment for you to meet with a psychologist.

Now where do you suppose that goes? The interview is over. The document is falsified. The employee is paranoid, obsessive-compulsive and disgruntled. That goes in the file, so if it ever does get to the Congress or Senate or court, they pull it out and say, well look, he or she went under an evaluation and they're basically unstable, end of story. Shut the case down. Part of an intentional process.

[INSPECTORS GENERAL ARE OFTEN SHADOW GOVERNMENT SOLDIERS]

It is a campaign, I, Inspector General's, you guys, you know that every federal agency has an IG, an inspector general, right? They're created, supposedly, to oversee that agency and keep it out of criminal activity, right?

Well, wrong. A lot of Inspector General's, I have to give some kudos to the State IG because they helped me expose one particular operation.

My agency's IG, I submitted a 15-page complex documented report documenting my family was exposed to toxins, my wife was bleeding out of her gums, she was bruising all over her body, she lost a short term memory, she was on morphine because of severe headaches because of the toxins they didn't want people to know about that she was being exposed to. That's what they didn't want people to know.

So, I submitted this document to the IG. Look, I did secret tests. I ran samples out to certain reputable universities. I secretly flew my son out for medical valuation with a well-known immunologist. I got it all back, put her all together, went into
their desk, laid it on there and said, tell me there's no toxins on this base.

So, they got the IG involved. We go into the big meeting with the IG, and I said bring out my investigation, my report. Well we don't know where it is. Now I've been told by other officers that the roof was being raised off headquarters because of this case. Reporters were calling from all over the place trying to get information. They, headquarters was freaking out. They knew darn well what this case is.

So, I pressed them, I had my two courageous attorneys there, Clint Blackman and George Hardy, and I always say that, God bless you guys, I love you. Man, they had they had courage and I hope someday they get the credit for that.

[PUNISHMENT: THE BUREAUCRATIC BRUSH OFF]

But, we got the IG finally to pull out my investigative report that had all this evidence in it. What did we get? We got a one-page document written in someone else's handwriting that said that there was no problem at all and their investigation had revealed nothing.

So, are IGs always objective and honest, if they have interest in that organization? I can tell you right now, no. Should be, but they're not.

[CULTURE OF FEAR]

Within, because of all of this, within these federal agencies, the NSA, the C.I.A., the DIA, any agency that in especially the covert agencies that engage in in nefarious operational programs, there is a culture of fear.
You guys out there that still work there know what I'm talking about.

[PARANOIA PALACE]

Everyone, I used to call it the Paranoia Palace. Everybody inside there is afraid of saying anything, because they know about this system. They will destroy you. They'll destroy your career. They'll destroy your finances. They'll destroy your family. They'll take you all the way down as far as they can, even from the outside.

You remember Gary Webb, who exposed the C.I.A. drug-running operation down in Central America? Anybody know about that out there?

Gary Webb eventually was driven to suicide. Remember that? Did anybody see the movie. Yeah, yeah, see the movie? They destroyed his career, his reputation, his life, his family, and then he was found dead of a gunshot wound in a hotel room. The perfect crime. Drive him to suicide, and there's no culpability, and your problem is gone.

Frank Olson, jumped out of the C.I.A. LSD program. Jumped out of the, think it was sixth story window of a hotel room. Committed suicide because he had found out that the C.I.A. was drugging people with LSD without their knowledge. What a coincidence, Frank commits suicide.

John F. Kennedy, again, how far will they go? Will they go that far? I think I think we all know the answer to that, and in the constitutional government that's alarming at the very least.
Now, they tell us, well, 2012, the Congress and Senate came out with, we're going to take care of this whistleblowers being at risk in their lives being destroyed, their careers being destroyed.

[SECRECY AGREEMENT SIGNERS ARE EXEMPTED FROM PROTECTION BY THE WHISLEBLOWER PROTECTION ACT (2012)]

So, we're going to pass the 2012 Whistleblower Protection Act allowing any whistleblower that sees any illegal activity on the part of the government, we're going to protect them so they can come out and report it.

Sounds good, doesn't it? Sounds like a good thing.

What they don't tell you is if you read down through the Act, anybody that has signed a secrecy agreement, is involved in any covert government program, or handles anything classified, is not covered by The Whistleblower Protection Act.

They have no protection. They are 100% at risk. And, there are some that have come out thinking they were protected by this and they were not, and they were penalized. That's the whole idea.

This, I talked about the State Secrets Privilege. These cases are sealed and no one can see them forever, once they're sealed in court.

And, this was kind of the most disconcerting for me. There are certain major newspapers, which if I mentioned their name you would know them. These are national papers that are communicating and directly connected in this case to the C.I.A. and in some cases to the NSA.
[MAINSTREAM MEDIA COLLUDES WITH DEEP STATE]

So, if a whistleblower decides, I'm freedom of the press man, you know, I'm going to the press and I'm going to report to the press this illegal stuff that I've seen.

So they call up XYZ national newspaper, and if you do a check you'll find out who that is, I want to tell you my story I want to tell you what I've seen.

In this case, the reporter got right on the phone, contacted the C.I.A., and told them what this person had just reported for the story. That has been done several times with this paper. They communicate with the C.I.A. regularly regarding what they're going to publish and what they're not going to publish. Chilling.

["SHADOW GOVERNMENT" POWERPOINT]

I call this massive structure the shadow government. Another fella calls it the Deep State. Take your pick, but I want to show you how massive this secret government is.

Now this is since 9/11. I can tell you a lot of this was pre-existing 9/11.

Most people think that the NSA surveillance program was a result of 9/11. Isn't that what you've been told?

The NSA surveillance program existed before 9/11 happened. That's what they're not telling you.

[READING 1ST "SHADOW GOVERNMENT" POWERPOINT BULLET POINT]

“1,271 government organizations involved in secrecy within the United States.

[READING 2ND "SHADOW GOVERNMENT" POWERPOINT BULLET POINT]

“1931 private companies,” large private companies, involved in secrecy in the United States, bound by the secrecy agreement
“10,000 intelligence locations across the United States”
did you get that? 10,000 secret locations, not overseas, not in China, not in Indonesia, not in the, inside the United States.

Now the C.I.A. legally is only supposed to have a foreign charter. Anybody know that? It was forbidden from having any operations within the United States. That was its restraint. That restraint is now gone. 10,000 locations.

“4.8 million Americans (and that's all that's just the ones we know of) Hold government security clearances” and are bound by and threatened by the secrecy agreement to stay silent. Now the figure is a lot bigger than that, but that's a lot of people, and their families, and everybody that they're connected to. Do you think they're going to speak up if it means total destruction? Probably not.

“854,000 people hold top secret security clearances” which have severe penalties, and there's compartments above that, some of which I had, that have even stricter penalties. But, that is the number of people that have top-secret security clearances, where they've got the keys to the kingdom, essentially.

Each one of these agencies’ employees, the secrecy agreement is a binding tool. Now it used to be to protect legitimate classified information. It has morphed into a threatening tool to silence dissent.

Of course, the C.I.A., the NSA, the FDA, [sic] the FBI, the Department of State, Department of Justice, Department of Defense, Department of State, and now we know that NOAA and the
National Weather Service are binding their employees with secrecy agreements.

Why is the weather so secret? Got to ask that, don't you? Maybe Dane [Wigington]'s right? Why do they have to bind people like that? I am a huge proponent of the truth, and I am really, really against secrecy in a constitutional government, unless it's absolutely necessary.

Why would the National Weather Service make up a weather program secret and make people sign a non-disclosure form? Got to ask that question.

The Military-Industrial Complex - tens of thousands of government contractors. The government comes, for example, most people don't know this.

The C.I.A. has a technical firm it's created called In-Q-Tel. In-Q-Tel offered, I think a $5 million contract to Google. Now, what they do is they come to these companies and they say, hey we got, will give you, a contact for $5 million, $20 million dollars, and most companies are thirsty, and they're out trying to get contracts to survive.
So, they'll say, oh but you will take the, hey, we’ll take the contract.

[GOOGLE COLLUSION IS PROTECTED BY THE SECRECY AGREEMENT]

Google took the contract, $5 million contract. They are now joined with the C.I.A. In-Q-Tel. What are they doing? They're doing research on trends on the Internet and Facebook. They're monitoring the Internet is what they're doing. Let me just, let me just break that down for you.

Now do you think any of the Google executives can talk about the program?

Do you think maybe they made them sign an agreement before they got the $5 million? Ah yeah.

Why don't you hear anything about that? Why doesn't Google say anything about that? Well that's why.

[C.I.A CONTRACTORS ARE GAGGED]

Employees at every level, if you've got big time Beltway Bandit government contractor X, that gets a covert Agency contract, they are bound to sign the secrecy agreement, and every employee at every level on that contract has to sign the agreement.

Secretaries, the logistics people, of course the CEOs, people that run the copy machines, all bound by the secrecy agreement, thousands and thousands of people.

You see the number of people that are that are bound by the government out there, are you kind of getting that picture? It's a lot, and that's just the ones that we know.

[“SHADOW GOVERNMENT” POWERPOINT]
Here's a good quote: “The top secret world of government created in response to the terrorist attacks of September 11, 2001 has become so large, so unwieldy, and so secretive that no one knows how much money it costs, how many people it employs, how many programs exist within it, or exactly how many agencies do the same work”

[“SHADOW GOVERNMENT” POWERPOINT BULLET ONE]
And then, I italicize the next one: “Not even Congress knows the size and the extent” of this intelligence secret apparatus. That's why I call it the shadow government.

They don't even know how big it is. They don't even know a lot of things that the C.I.A. especially, and others, are even engaged in overseas. Syria is a prime example this is.

[“SHADOW GOVERNMENT” POWERPOINT BULLET TWO]
This is “A separate secret government that operates” and this is the part that really gets to me it “Operates outside the Constitution”

We are now in a post constitutional government. It’s over as far as the Constitution goes.

That's why I'm here. Some of us want to bring that back. The only way to do it is to stand up against this. There's risk involved, but we have to do it. Because, if we don't, we're going down.

[APPLAUSE]

[“SHADOW GOVERNMENT” POWERPOINT BULLET TEXT]
“Have we created a monster?”

My gosh, if you knew the size and extent, its, yes we have.

It's shocking.

Now, Dane [Wigington] played this and I want to emphasize this because this is more than a smoking gun.
[BEWARE A C.I.A. DIRECTOR DISCLOSING INFORMATION ABOUT STRATOSPHERIC AEROSOL INJECTION OR S.A.I.]

When the director of the C.I.A. comes out, anybody know anything about the Council on Foreign Relations? Uh-huh, so you know who he's talking to don't you? All right, little global action going on here, all right.

But when the director of the C.I.A. comes out and makes a speech, every word is refined, winnowed down, and everything he says means something, everything.

Listen to what he says:

[C.I.A. DIRECTOR JOHN O. BRENNAN PHOTO POWERPOINT]

“Another example is the array of technologies often refer to collectively as geoengineering [kudos to Dane [Wigington], they're coming out and they're saying it]—that potentially could help reverse the warming effects of global climate change. One that has gained my personal attention [geoengineering has gained the personal attention of the director of the C.I.A., that means something] is stratospheric aerosol injection or S.A.I.”

Now let me tell you base to my humble and meek experience, when the C.I.A. comes out and admits something like this, they've been doing it for at least 20 years.

That's the first thing.

The second thing is it's about to be exposed, or he wouldn't be saying this.

This is beyond a smoking gun, and now, some people will say you just got that off a conspiracy Internet website. I mean come on.

Well, you know where I got this from? CIA.gov, the C.I.A.'s own website. They're putting it out there on their website in writing. Now why would they do that unless it's the two things I just talked about?
They've been doing it for a while.
And, the cats about to come out of the bag.

[VACCINATIONS, CDC COVER-UP AND EXPLOSION OF AUTISM]

The Vax people are going to do such a much better job in this, but I just want to mention it because I hate cover-ups. Because I lived one, personally, and that's what's happening with the vaccine-autism connection in the big way.

It [is] covering up the truth at the expense of young children and their health, and the families that are ruined because of this.

So you want to know the connection between autism and vaccines? You know who the first people to ask are? The parents, the ones who saw their child's behavior before the vaccine, and what happened after the vaccine.

One of the doctors on Vax said that that real medicine is an art where you listen to the patient and you watch. That is the absolute, that was a wonderful statement. Only a parent knows what their child was like before that vaccine and what their child was like after the vaccine, and if the doctor was honest and not connected to Big Pharma and money he would listen to that parent.

And, if the CDC really was open to a true investigation, they would conduct studies to find out how this is happening number one, and number two how they can possibly treat these children wouldn't they?

Why are they not?

Billions of dollars, let's just start with that, nature of government, that also.
There are independent doctors, I know one myself, a big fan of his, has a whole page on autism, brilliantly written. So there are doctors out there that are talking about this stuff. I want to give kudos too to the courageous lawyers that are standing up for this stuff. You guys, and ladies, are in here. Hats off to you, man. That's raw courage. That's the kind of courage we need. I'm telling you if there's attorneys watching this, your country is at stake, your freedom is at stake, this is the final hour.

We are coming down to the perfect storm.

[HAVE COURAGE TO SUPPORT THE CONSTITUTION OVER PERSONAL COMFORT]

Put your reputation down and come out and stand with these people and have the guts and the courage to support your Constitution.

Because if you don't, we've got maybe half a decade at most before this comes down.

So thank you, thank you to the attorneys for that. That is true courage.

The Vax people, we'll talk about this, the CDC insider that is going to talk about some of these things. There are some people still out there that have courage. That's what we need today, is that kind of courage.

The age of cowardice in the United States, and being caught up in your pension, and being caught up in and how much you make, in your next promotion, and your granite countertops, and all of that, those days are gone.

We're about, we're on the precipice of big danger environmentally and economically.
The dollar will collapse. It will collapse eventually. The IMF just recognized the Chinese Yuan as a reserve currency. The Chinese have been buying gold to back that up. We owe them $1.5 trillion. They can't call that debt because we can't pay it. What they can do is make the Yuan the reserve currency. When that happens, and the United States economy collapses, and the dollar is no longer of any value.

[“AN EXPOSE’” POWERPOINT]

Okay, so what do you do?

I saw this happen to me personally. My wife, and especially my oldest son, were almost terminal. They covered it up, they told me I could never say I worked for the C.I.A. They told them they could never tell anybody about their case because of the State Secrets Privilege. What do you do in a case like that?

[POWERPOINT, “FROM THE COMPANY OF SHADOWS” BOOKCOVER]

Well, there's only one thing to do. You write an exposé. So, I wrote From The Company Of Shadows, not for self-glorification, trust me, there was no good in that. It was one heck of a battle.

When the book was written, I'll show you an expert, excerpt rather, this is one of the excerpts from the book, one of the pages of many, there is nothing classified in this excerpt at all, nothing. It's talking about Blackout began receiving threatening letters accusing them of security violations and commanding them not to exchange correspondence with our family.
And on it, just a system that they use of intimidation is what it's talking about, and they blacked it out. Now, based on an executive order issued by President Ronald Reagan for the C.I.A. to black information out because of negligence, or because it’s embarrassing, is illegal.

It’s criminal to do that, violation of the Constitution, supreme law of the land, well they did.

So, here's another excerpt from the book. Now this talks about what they do to the families. They take away their names, they give them fake names, like the Doe family.

There's fake names here that are blacked out. They're not even their real names. They’re fake names, but they black them out. They said I want you to know that they use fake names to cover the identities of innocent mothers and children who have been exposed to serious toxins in a secret government program.

This picture that I put in the book has a lot of meaning. I'll explain that to you in a moment.

Down at the bottom, blacks out the entities in case facts are hidden in secret. That's not even their name behind that blackout. It's a general term. They didn't want anybody to know that they do this to civilians. Real important.

So what did I do?

I call this in Chapter 25, the tyranny of secrecy.

We have a tyrannical government that is now functioning with a huge abuse of secrecy and silencing anybody that will stand against it by classifying everything.
This photograph here, when I wrote the book, and they black these things out, I had to decision to make. What am I going do about this? I swore an oath to the Constitution. Who's going to win government intimidation or the Constitution?

Well, it's a painful choice, but it's kind of an easy one.

So I built a code into the book. I referred to as a shadow code, and there are things in it like this. This is the, this shadow, is the actual shadow of the young man that almost died from this toxic exposure.

They didn't know whose shadow that was, they do now.

Down here it says my family was devastated by our government’s abuse of blackout. They don't want you to know how they tried to silence me. They blacked it out.

Although it's out there in the public in other places. There's whole, there's studies this thick written on that thing.

So I built a code into the book. It's a numerical code and weaves through there and if you follow the numerical sequence it opens up what these blackouts actually say, and what they use to try to silence our family. Okay?

I learned one thing:

If you play by their rules they will destroy you.

[FREEDOM IS ONLY IN THE TRUTH]

If you realize that freedom is only in the truth, and you come out full bore, and just lay it out there, that's probably why I'm still alive today.

You go out on the Internet you see things like, I'm surprised this guy's not a dumpster.

Well, I'm still alive because I came out.

I have this thing called the Constitution and Freedom of Speech. I came out full bore and made this stuff public.
If you fear them, they have you.
That's how they do it. They manipulate the American people through intimidation and fear.
Do not fear.
If you don't fear the government you're truly free.
So, as I wrap this up, this is a time for courage. As I mentioned, the age of cowardice in the United States, or being too busy trying to survive, those days are gone.
The environment is collapsing.
Our economy is on the verge of collapse.
The federal government has programs in place that when the economy does collapse, to take care of civil unrest in a very extreme fashion. Some of you know about that.
It's very serious time.
It's a time for courage.
It's a time for truth.
Secret activity, especially illegal secret activity, is like scorpions and cockroaches. You turn the light on and they can't handle it man, they scramble for the nearest bookshelf [or what right?].
So it is with government.

[CONSTITUTION CREATED TO PROTECT THE PEOPLE FROM THE TYRANNY OF GOVERNMENT]

The Founding Fathers wrote document after document after document saying the Constitution was created to protect the people from the tyranny of government because government will go evil every time. That's its nature.
The Bill of Rights was not written to govern the people it was written to protect the people from the tyranny of government. That's the whole reason it was written.
Courageous people like Dane [Wigington], GeoEngineeringWatch, does that look like a normal sky to you? God bless Dane for what he's doing. You know he is doing this out of character. Really, raw courage and character at personal sacrifice. And, I have to tell you, Dane [Wigington] is the one that got me to come back in from the wilderness from off the grid. Because I had seen this go up to such high levels, and I know some of the penetrations in the media, I had just had it. So, I went off and built my little off the grid farm, and put up our solar panels. And, I think Dane worked me over for a couple of months, and finally I said you know this guy's, this guy's really a man of integrity. I'll do it, and that's why I'm here, honestly. It's because, it's because of Dane. So, I thank you Dane, I appreciate that.
I have to sit, my wife and I have to sit on our beautiful off the grid farm, get up in the morning and we have to see this [CON TRAILS] sky over Vidalia, Georgia. What used to be a beautiful blue sky.

We have to sit there and watch this, on a Monday. 94 degrees centigrade [sic]. Nine o'clock in the morning. Tuesday morning, it's not there. All those trails are gone. There's an ongoing joke I have with my wife Eileen to sue, and I'll say, man it looks like they canceled all the traffic, air traffic over Georgia. There's no condensation anywhere.

You see what a joke that is? One day the laws of physics are one way and the next day all the laws of physics change.

One day there's trails, the next day they canceled all the flights over Georgia. You know, I mean, come on, how ridiculous can it get? But, it ruins our skyline.

I left, went off the grid, out on the wilderness to get away from government tyranny, and all the ugliness I've seen, and now I have to sit on my front porch and see them do it again in the sky.

We have got to bring the truth about autism. There are kids suffering. It is now, by all scientists read, it is an epidemic, exponential epidemic.

This is so serious. We've got to stop accepting the intimidation, the career destruction, the attacks on reputation, and I've got to give the Vax people, I love people to have the guts in the courage to take the heat that the establishment is throwing at them and keep going anyway.

[APPLAUSE]

Call me what you want, Pal. I'm going to keep going, and nothing is going to stop me. And that's what they're doing. And, you don't know how refreshing it is for me to see that, having kind of been alone for several years in this.
Alright, we’ve got to stop government's tyrannical overreach of our entire lives. They've been following, bugging and eavesdropping on every single thing that we do for way too long. They've been scaring us and intimidating us into not rocking the boat for way too long.

I like to put it this way. You got a neighbor who comes to you and says a two guys from the Lions Club knocked on my door. They're asking questions about you.

Okay, no big deal.

What if that neighbor comes to you and says, hey man two guys from the C.I.A. knocked on my door and they're asking questions about you, how are you going to feel? What are you gonna feel?

Fear. That's their weapon.

[STAND UP: CALL THEIR BLUFF]

Another analogy I like to use is, these agencies, the C.I.A. and others, are like The Wizard of Oz. Remember that movie? The big I'm Big Powerful Oz, lightning bolts shooting out. You will not mess with me or you will be destroyed. Then the dog pulls the curtain away and there's this little kind of guy in there working the levers. That's our government. They want us to be scared of them with this big mean face, but they're a bunch of little tiny bureaucrats pulling levers trying to make you afraid of them, and that's how they do it.

What do we have? What we need to bring back is this:
We The People are supposed to run our government not the other way around. They are supposed to work for us, not us for them.

And the only thing that's going to change this is courage. People like many of you out there, they're standing up and saying enough is enough, not any more, not my country you don't, not my Constitution you don't.

I want to leave you with one final thought. Please remember this, because this is what it all comes down to.

I learned this personally. As long as I feared them covering up this case, not only were they winning, they were breaking into my house, they were drugging my dog, they were painting chemicals on the ceiling.

But once I decided I'm not going to be afraid of you anymore. I'm coming out full bore, and I'm coming out against you full bore all the way. That's when things started to work on our side.

That's when we started to win. And that's how we got the book out.

When I made that decision, I will not fear you, the last thing I told them was this, and then I'll put this quote up.
Last thing I said to them, I said the same courage that
made me a good C.I.A. officer here with you is the same courage
that is enabling me to stand up against you now.
And that's the last thing I told them before I walked out
the door, and they know it.
So, I want you to remember this as I close:
When people fear their government there is tyranny, when
the government fears to people, when they fear you, there is
liberty.
And that's what it's all about.
Thank you very much.
