THE DAY THE C.I.A / NSA TURNED AGAINST OUR PRIVACY RIGHTS - TRUMP IS RIGHT

NEW AFI RESEARCH SHOWS WHY REORGANIZATION OF THE C.I.A. IS A LIBERTY IMPERATIVE

BILL & HILLARY CLINTON AND JOHN PODESTA ORGANIZED A C.I.A. DIGITAL TAKEOVER BY THE DEEP STATE MILITARY-INDUSTRIAL COMPLEX IN 1999

THE C.I.A. AND THE CLINTONS BLACKMAIL FOR A LIVING, AND ARE NOW ATTEMPTING TO UNDERMINE PRESIDENT-ELECT DONALD TRUMP
FIG. 1: NEW RESEARCH ON THE C.I.A. SHOWS WHY DONALD TRUMP MUST REORGANIZE IT BEFORE IT COMPLETELY DESTROYS THE U.S. CONSTITUTION.

Few citizens know that the C.I.A. runs a large private investment company in Washington, D.C. and Silicon Valley named In-Q-Tel ("IQT") started on Sep. 29, 1999 by President Bill Clinton. Presidents George W. Bush and Barak Obama have perpetuated and grown the company. Bottom line, C.I.A. liars gave birth to the liars of Silicon Valley—techies, lawyers and Wall Street. Main Street was screwed.

It is not OK for the C.I.A., a government body, to use taxpayer funds to invest and have controlling interest in private companies—that is called nationalization. It’s OK for the C.I.A. to buy technology, but not invest in and thus control companies that have obviously gained uncompetitive advantage in Silicon Valley. Further, it is not OK for the C.I.A. to use the profits from these investments to operate as a rogue agency without Congressional oversight.

This Clinton-Bush-Obama spying scam is just outrageous. How many elected officials, bureaucrats and judges are compromised by bribes, coercion, blackmail, insider trading, money laundering, offshore bank accounts, drug smuggling, pedophilia, rigged contracts, threats and cronyism?

In-Q-Tel secretly created the social networking industry. That’s right, the C.I.A. essentially created Google, Facebook, Yahoo, YouTube, Twitter, Instagram and others as a universal spying tool to gather dirt ("information") on every citizen of the planet. We believe the C.I.A. has emerged from the shadows after Donald Trump’s election because they are just about to lose control of their social media spy platform, as well as the technology relied upon by their co-conspirators Facebook, Google, AT&T, Verizon, AOL, What’s App, Twitter, YouTube, Instagram, etc.

Just imagine how unscrupulous globalist New World Order actors like George Soros, John Podesta and the Clintons have used this C.I.A. / NSA dirt to coerce and blackmail politicians, bureaucrats and judges into submission since 1999. Their plan to control global information flow after Bill Clinton took power in 1993 was being delayed because legacy IBM, Xerox and Microsoft "groupware" technologies were not able to handle the millions of simultaneous Internet transactions. In 2000, their serendipitous discovery, theft and exploitation of the social networking invention of Columbus Innovator Leader Technologies was pure evil genius. Lock them up.
BREAKING NEWS! JAN. 11, 2017

Independent media kingpin Matt Drudge thinks the C.I.A. / NSA may be using its “own dirt” to blackmail (this suspicion is consistent with AFI research discussed above and below and in this blog (see Blog Archive on right)...).

ORIGINAL POST

(JAN. 06, 2016)—On Sep. 29, 1999, Bill Clinton and his White House shadow government allowed the C.I.A. to form a private company named In-Q-Tel. However, there is one BIG problem: the C.I.A. / NSA are forbidden from operating inside the United States. It appears that our nation’s leaders turned a blind eye to our Constitutional privacy rights en masse.

In-Q-Tel immediately began investing in Silicon Valley hardware and software companies. They now effectively own and certainly control much of Silicon Valley, directly and indirectly. They reap hundreds of

UPDATE MAR. 25, 2014
FIVE CRITICAL AFI POSTS ON JUDICIAL COMPROMISE

Fuly updated Mar. 25, 2014 in the wake of the Scribd censorship:

1. HOW PATENT JUDGES GROW RICH ON THE BACKS OF AMERICAN INVENTORS
Patent Office filings are shuffled out the USPTO backdoor to crony lawyers, banks and deep-pocket clients.

billions of dollars a year from these investments. They manage massive offshore accounts. Those funds are used to fund a global technocracy of cronies led by globalist don George Soros.

The current narrative that the Russians hacked the U.S. elections was allegedly leaked by an unidentified C.I.A. operative—who produced no evidence. WikiLeaks’ Julian Assange has said repeatedly that his John Podesta emails did not come from Russia or any other state actor. Other sources say they came from inside the U.S. intelligence community in order to inform the American electorate about the extent of the corruption. Even the FBI would not confirm the shadowy C.I.A. allegations, yet the MSM continues to repeat the accusations ad naseum.

There are at least three reasons why Americans cannot rely on the truthfulness of the C.I.A.

First, the C.I.A. broke the law in 1999 by investing in private U.S. technology companies. This means that Silicon Valley is essentially a nest of spies aligned with their globalist taskmasters. These spies grossly abuse the digital privacy rights of every American.

Secondly, the C.I.A. are hired liars who assassinate people for a living. They are not to be believed.

Thirdly, NSA Director Eric Clapper lied to Congress on Mar. 12, 2013 when he said that the NSA was not spying on Americans. See video below “NSA Clapper’s Big Lie.”

On Sep. 29, 1999, the Central Intelligence Agency (C.I.A.) formed In-Q-Tel and hired its first CEO, Gilman Louie. See the book: 

**In-Q-Tel: A New Partnership Between the CIA and the Private Sector:**

**THE BIG LIE:** The origins of the concept that has become In-Q-Tel are traceable to Dr. Ruth David, a former CIA Deputy Director for Science and Technology [she was appointed by President Obama as a member of the National Science Board and National Science Foundation in 2012]. She and her Deputy, Joan Isham, were the first senior Agency officials to understand that the information revolution required the CIA to forge new partnerships with the private sector and design a proposal for
radical change. The timing of the proposal was fortuitous. The Director of Central Intelligence (DCI), George Tenet, had just launched his Strategic Direction initiative that included technology as one of its areas for review. The study made a direct link between the Agency’s future technology investments and improving its information gathering and analysis capabilities.”

PRESIDENT DWIGHT D. EISENHOWER’S WARNING ABOUT THE RISE OF THIS MILITARY–INDUSTRIAL COMPLEX

No one appears to have challenged the constitutionality of the C.I.A. owning a private American company on U.S. soil. Despite President Eisenhower’s dire warning about the amassing of unchecked power, the entire military-industrial complex lined up behind C.I.A. In-Q-Tel and supported a fundamental breach of U.S. law that fobids the C.I.A. from operating inside the United States.

FIG. 2—ON JAN. 17, 1961, PRESIDENT DWIGHT D. EISENHOWER WARNED THE WORLD ABOUT THE DANGERS FOR TYRANNY ARISING FROM A MILITARY–INDUSTRIAL COMPLEX. As this investigation uncovers, that day came on Sep. 29, 1999 when the C.I.A. began investing in hardware and software companies, thus essentially nationalizing, largely in secret, America’s emerging digital infrastructure. This gave the C.I.A. an unprecedented and unaccountable ability to spy on everyone without a warrant. Raw *.mp4 video file.

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's Leader v. Facebook attorney Gibson Dunn LLP. She credits this firm with the reason why not a single Wall Street banker has gone to jail since 2008. Click here to read her article "Everybody hates whistleblowers.” Examiner.com, Apr. 10, 2012. Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ullyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner that instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness, . . . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney “dark arts,” destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury’s admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan

Horbaly, and his close friends at The Federal Circuit Bar Association, (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored shocking new evidence that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook’s appeal attorney, Thomas G. Hunot of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

As part of the plan, Islamists have arrived recently at the Monterey International Airport

The FBI has come forward and admitted the DNC wouldn’t let them properly investigate, according to officials.

Among the thousand cuts Donald Trump delivered to Hillary Clinton en route to her political death was the accusation that she was cozy with the repressive Sultan of Brunei. A 2012 email released Thursday by the U.S. State Department seems to back him up.

In the message, Clinton aide Huma Abedin told the then-presidential candidate that Sultan Hassanal Bolkiah, worth a reported $20 billion, wanted to see her and husband Bill for an intimate ‘family style dinner.’

President-elect Donald Trump is making it clear to President Barack Obama’s political cronies: on Inauguration Day, you won’t be working for me.

Trump is serious about draining the swamp. Within a week after the Nov. 8 election, Obama’s many overseas political appointees received notice from the transition team that their terminations would be effective Jan. 20.

former patent law professor. After debunking all of Facebook’s evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012), Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. See Motion to Disclose Conflicts of Interest. Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr. Lakshmi Arunachalam’s motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach’s behalf. See a full analysis of these events at Donna Kline Now! Judge Wallach also failed to police his court’s violation of Leader’s Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge’s chambers after he had just invalidated Facebook’s sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Paul Bremmer. (Jan. 07, 2017). "TOM DELAY CALLS FOR REVOLUTION FOR THE CONSTITUTION" - Former House majority leader shares hopes for Trump administration. WND.

Donald Trump's inauguration is only two weeks away, and countless Americans are looking forward to the changes they hope the new president will bring. Former House Majority Leader Tom DeLay, R-Texas, has one wish for the forthcoming Trump presidency, but it's a whopper.

“What I want to see from the Trump administration is a focus on God and the Constitution,” DeLay told WND. “It’s pretty simple. The implementation is very difficult, but what I want to see is a bold understanding that faith is the core of this country and the Constitution is the core of our government.”

The former majority leader calls for a revolution that will transform the very core of America in his brand new book “Revival! Revolution! Rebirth!” He assures Americans he does not want a violent revolution but a spiritual one, similar to the First Great Awakening of the 1730s and 1740s.

“The United States of America is in critical need of a rebirth,” DeLay writes in the book’s prologue. “This renewal can come only in the same way of the nation’s original birth: Spiritual revival must lead to revolution that will once again produce a constitutional republic exceptional in its freedom, opportunity, peace, and security. Just as the First Great Awakening preceded and helped lead to the Declaration of Independence and the Constitution, so this is the process that must occur now.” [Emphasis in original]

A self-taught computer hacker convicted of compromising the emails of one of Hillary Clinton’s closest advisers said the White House’s allegations of a Russian-led cyber campaign aimed at the recent U.S. presidential race are overblown.

Marcel Lehel Lazar, a Romanian national better known by the alias “Guccifer,” doubts the Obama administration’s claims with respect to Russia’s widely believed meddling in the 2016 U.S. presidential election, Fox News reported Wednesday.

The so-called open-government group Wikileaks, founded by Julian Assange, sent out a tweet late Saturday night announcing plans to hold a press conference on Monday to address claims made in a report released by the U.S. Intelligence Community late Friday.

Among the many findings in the 25-page, declassified report released by the Office of the Director of National Intelligence, one particular finding seems to have received the most attention from Wikileaks.

Here’s the DNI report:

[EDITOR: HERE'S A REPORT ON THE ASSANGE PRESS CONFERENCE HELD EARLIER THIS MORNING:]

on Monday, Wikileaks held a press conference addressing a U.S. report on Russian hacking related to the Presidential election. The report, written by the Office of the Director of National Intelligence (ODNI), was declassified on Friday. It says that “Russian President Vladimir Putin ordered an influence campaign in 2016 aimed at the US presidential election,” and that the Russian campaign sought to hurt Hillary Clinton’s chances in the election while boosting Donald Trump’s. The report specifically alleged that the Russian government worked with Wikileaks to spread information that they collected in hacking operations.

At the press conference, Wikileaks founder Julian Assange addressed this accusation. First, he mocked the nature of the report itself “This is a press release,” Assange said. “It is clearly designed for political effect, and U.S. intelligence services have been politicized by the Obama administration.” He also criticized how Americans conflated the hacks of Democratic officials’ emails and Wikileaks’ publishing them with the notion that the actual U.S. election was hacked, which is very different. Assange said that as a result, many Americans went to the polls believing that actual voting machines were hacked.

They even ignored one report from their own journalists that confirmed Donald Trump’s assertion that jihadists were dancing on the roof after 9/11.
