PAY-to-PLAY NEW WORLD ORDER
This timeline shows how insiders sell access & manipulate politicians, police, intelligence, judges and media to keep their secrets

Clintons, Obamas, Summers were paid in cash for outlandish speaking fees and Foundation donations. Sycophant judges, politicians, academics, bureaucrats and media were fed tips to mutual funds tied to insider stocks like Facebook. Risk of public exposure, blackmail, pedophilia, "snuff parties" (ritual child sexual abuse and murder) and Satanism have ensured silence among pay-to-play beneficiaries. The U.S. Patent Office is their toy box.

FIG. 1 – THE IBM "INTERNET OF THINGS." IBM began supplying Adolf Hitler computers starting in about 1934. Even then, they were promoting the concept of universal spying, using the sales byline "See everything with Hollerith (IBM) punchcards." The Nazi scientists who had refined Hitler's mass mind control systems were hired by the newly-created C.I.A. to continue their research after the war. Most people have looked up to IBM as an ethical company, and now we find that IBM's central role today in the warrantless mass surveillance shows that they are carrying forward their immoral WWII practices. It is evident that IBM seeks today to install the same kind of fascist socialist crony capitalism that became so efficient at population control of "unacceptables" in Europe during WWII—for which they were paid handsomely after the war. Their brazen theft in 2000 of Leader Technologies's social networking invention—without regard for

Request for Congressional Intervention

Leader's constitutional rights—is yet more evidence of their intention to keep an iron grip on the dataflow of the Internet for use in rogue C.I.A. -inspired mass mind control.

Graphic AFI

(AUG. 24, 2017)—America’s founder John Adams said that property and privacy were “inviolable precepts” if we are to be a free people.

America’s Founders believed that a free people could not tolerate a government that confiscated personal property and rummaged through personal effects capriciously.

A rogue C.I.A. -controlled federal bureaucracy is currently engaged in AGITPROP (Agitation Propaganda) using invasion of privacy by warrantless surveillance and confiscation of property through regulatory abuse.

AGITPROP uses state-controlled news, arts and entertainment to demonize a target before taking him or her out (e.g., assassination, “car accident,” “suicide,” “plane crash,” coercion, blackmail, regime change, firing, resignation). By the time that happens, the public has become so dumbed down and fatigued by the lies and misinformation that they don’t protect the victim.

AGITPROP works. It has numerous successes like the Bolsheviks, Kristallnacht, Gulf of Tonkin, Vietnam Antiwar protests, Watergate, Iraq, Libya, Lewinsky, Kosovo, Rwanda, Arab Spring, World Trade Center, 9/11, Oklahoma City, Ruby Ridge, Waco and Afghanistan.

Given the lack of an uprising in the general American public to protect their privacy and property from the rogue C.I.A.’s warrantless surveillance and property confiscations through regulatory abuse, we can only conclude that, we are actually no longer a free people as we were in our parents’ generation.

The question is: Will we wake up before it is too late?

JAMES P. CHANDLER & IBM —WOLVES IN SHEEP’S CLOTHING

Michael McKibben and Leader Technologies—the true inventors of social networking—discovered that their former patent attorney, James P. Chandler, III, and his client IBM are wolves in sheep’s clothing.

McKibben said, “Chandler was recommended to us by Maj. Gen. James E. Freeze (US Army ret.), the former #3 at the NSA. Freeze was our first outside company director in 2000. After meeting Chandler in Washington, D.C., just a few blocks from the White House, we engaged Chandler as our patent lawyer and second outside director. We naturally expected him to

“What was so important about our invention that Chandler sacrificed his integrity and honor to steal it? Now we know. Chandler’s world of rogue C.I.A. spies wanted our social networking platform to spy on the planet, while making lots of money for themselves and their friends.”

CHANDLER & IBM USE SOCIAL NETWORKING TO SPY ON EVERYONE

“To our horror, we have discovered that Chandler not only stole and distributed our invention through IBM, but they now use it to violate the privacy and property rights of EVERY American,” McKibben explained.

See previous post [AFI. \(Jul. 24, 2017\)](#). Leader Technologies files trillion dollar bond lien on the U.S. government. Americans for Innovation. See also [Miller Act Notice](#).

Chandler and IBM created several organizations to carry out their subversion under Clinton, Bush Jr. and Obama, including:

1. [National Infrastructure Advisory Council \(NIAC\)](#) (with a permanent IBM/Cisco/C.I.A. agent—[Thomas E. Noonan](#)),
2. [National Security Staff \(NSS\)](#), and
3. [IBM Eclipse Foundation](#)

According to former secretary of defense Robert M. Gates in [Duty \(2014\)](#), the NSS at the White House mushroomed from 50 people under Clinton to 350 under Obama. **And yet, even the FBI says not a single terrorist has been caught as a result of all this spying.** However, the WikiLeaks Podesta revelations reveal that the Deep State has made extensive use of these spy databases for blackmail and for covering up widespread Satanism, child sex trafficking and pedophilia among these elitists.

BARACK OBAMA'S DARK POOLS OF CORRUPTION

McKibben continued, “For example, take your personal family photos. Behind the scenes, the social sites run facial recognition programs on everyone in all your photos. Then, they store that “linking relationship” information in your “Dark Profiles.” In other words, even those who are not on Facebook are being secretly catalogued—adults and children alike—just like the Nazis catalogued Jews and other undesirable citizens in Germany on IBM computers.”

According to Edwin Black, author of IBM and the Holocaust: The Strategic Alliance between Nazi Germany and America’s Most Powerful Corporation, we now know the numerical categories of each of Hitler’s “unacceptables.”

W L L HUMANK ND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOV ET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

Remarkably, IBM was paid for these lease contracts after the war. [Editors: Is anyone else besides us thinking hush money?]

IBM AND ROGUE C.I.A. USE SOCIAL MEDIA TO CATALOG CITIZENS IN WAYS MANY TIMES MORE EFFECTIVE THAN THE NAZIS

Once your personal data is collected, spies then use a Raytheon program named RIOT to find more linking relationships across all social platforms, Facebook, Google, YouTube, WhatsApp, Instagram, Yahoo, Hotmail, MSN, Outlook 360, LinkedIn, Gmail, Yahoo Mail, Facebook Mail, Facebook Messenger, AOL, etc. All of that information is stored in your Dark Profile.

"Why are we so blindly revealing all our friends and work connections through Facebook, Google, LinkedIn, Instagram, What's App, etc.? These people are stealing your privacy. Your privacy is much more valuable to you as a citizen in our Republic than your car or belongings."

Thomas J. Watson, (middle) head of IBM and president of the International Chamber of Commerce, and members of the ICC's board meet with Adolph Hitler in 1937.

FIG. 5—IBM EXECUTIVES LIE: Remarkably, IBM executives claim they did not know that the Nazis were using their computers to organize mass extermination. This claim is disingenuous since IBM was the SOLE supplier of the punch cards used throughout the Third Reich. IBM even supplied maintenance staff to each LEASED computer all throughout the war—even at the Auschwitz, Buchenwald and Dacau extermination camps. These death camps had their own **IBM punch card codes: Auschwitz 001, Buchenwald 002 and Dacau 003.** Although IBM founder Thomas J. Watson returned Hitler's Merit Cross of the German Eagle medal in 1940, that was a mere public relations ploy. IBM continued to service their equipment throughout the war. See video, Fig. 2.

“What are they using this information for? Are they using it for our welfare? The answer is obviously not.”

“One principle is certain: The collection and use of this information destroys our Constitutional rights to privacy and property. When our government reaches into our homes, businesses and thoughts and steals whatever it wants, we are not free.”

“Jesus Christ said you will know what's in a person's heart by observing his or her actions. Therefore, we can see from the greedy, selfish and power mongering actions of these people that their hearts are empty of love for their fellow human beings. Instead, they lie, cheat and steal without remorse. They see us as little more than consuming animals who pollute their air with too much carbon dioxide,” said McKibben.

"AGITPROP" DEMONIZES OPPONENTS BEFORE TAKING THEM DOWN

At the end of WWII, the newly-formed C.I.A. co-opted some 1,600 Nazi scientists, brought them to the U.S. and allowed them to continue their research. Some of them had worked on a Soviet mass mind control technique called **AGITPROP** (Agitation Propaganda).

AGITPROP stages events with messages reinforced by films, literature, plays, pamphlets and other art forms to demonize opponents and condition the general population for an eventual crackdown on those opponents.

Kristallnacht (Night of Broken Glass) on Nov. 9-10, 1938 in Germany is a prime example. 7,000 Jewish businesses were confiscated (including the business and home of the family of an AFI editor), and 1,000 synagogues were burned. The German populace was largely silent. Hitler then ratcheted up this persecution that eventually led to 6,000,000 Jews killed in the "Final Solution" extermination camps. "Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ulyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. C.I.A. HIRED OVER 330 NAZI PARTY MIND CONTROL EXPERTS

The [Bluebird Report to Congress \(1999\)](#) revealed that:

“Between 1945 and 1955, 765 scientists, engineers, and technicians were brought to the United States under Overcast, Paperclip, and similar programs. It has been estimated that at least half, and perhaps as many as 80 percent, of the imported specialists were former Nazi Party members.”

The rationale for bringing these scientists to the U.S. was to prevent them from working for the Soviets, Chinese or North Koreans. Some of these people had conducted murderous experiments on human subjects in concentration camps and were prosecuted as war criminals at the Nuremberg Trials. For example, Arthur Rudolph persecuted slave labor in the underground V-2 Nordhausen Concentration Camp in Germany, where thousands of prisoners died.

The CIA started in 1947 and exploited these scientists under various mind control programs including CHATTER, PAPERCLIP, OVERCASE, BLUEBIRD, ARTICHOKE, MKULTRA, MKNAOMI, MKDELTA, MKOFTEN MKCHICKWIT, MKSEARCH and Operation Midnight Climax (yes, even targeting San Francisco brothels!).

BEWARE THE C.I.A. SPYMASTER PROMOTING A BUSINESS OPPORTUNITY

McKibben said, “Even after we met Chandler, we never gave him a full copy of our programming source code, which is the Holy Grail of any program. We had protected it so well that one former U.S. intelligence asset called us a ‘hard target,’ meaning our security was virtually impenetrable.”

“After dragging his feet for several years after promising to bring us business prospects, Chandler suddenly one day brought us what appeared to be a ready-made business opportunity through his friends at Lawrence Livermore National Laboratory (LLNL).”

“They wanted us to test our new social networking technology with LLNL’s perimeter security cameras. The system passed with flying colors and was certified for use with Defense-grade encryption. Shockingly for us, after that our business prospect base just dried up, almost overnight.”

“Hindsight says we should have been wary of Chandler’s LLNL introduction. **It was a Deep State set up.** Chandler produced a [72-page LLNL license agreement](#). Tellingly, he wrote himself into the agreement so that he would hold a copy of the source code in a custody agreement for 'legal safekeeping.'

3. [Two Policy Changes That Will Make America More Democratic \(and less contentious\)](#), Dec. 21, 2012

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney “dark arts,” destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

PROPERTY, PRIVACY, CONTRACT ABUSES

McKibben says, “Our property was stolen. That property is being used to invade the privacy of billions of human beings on the planet.”

“Our patent contracts have not been honored. How much worse can the federal government’s conduct get? When King George sent soldiers into the homes of Boston arbitrarily and without notice, he provoked an uprising we now call the American Revolution.”

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury’s admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

"A patent is a contract between an inventor and the American people."

CODE OF CONDUCT FOR U.S. JUDGES

FIG. 7—JAMES P. CHANDLER, III, BILL CLINTON'S SPY MASTER, IBM'S CHIEF OUTSIDE COUNSEL, first learned about Leader / McKibben's social networking designs in early 2000. By this meeting on Jun. 8, 2000 he was studying every detail. **This photo of a design storyboarding session captures the scene of the crime.** Chandler is pictured here seated in the white shirt against the wall on the right side of this photo with his legal assistant Kelley E. Clements to the viewer's right. Co-inventor Michael McKibben and Jeffrey Lamb are picture standing in the back left of the photo. Photo: Leader Technologies, Inc.

"In fact, patents are the only property rights actually written into the U.S. Constitution. Article I, Section 8, Clause 8 ('[The Congress shall have power] To promote the progress of science and useful arts, by securing for limited times to authors and inventors the exclusive right to their respective writings and discoveries.')

"Clearly the Deep State ignores patent property rights, when it suits them. As a result, the legal sophistry that we have encountered is off the charts corrupt."

"My shareholders and I have been denied all three of these fundamental Constitutional rights: property, privacy, contract."

McKibben said, "In our case, the federal government marched in with jack boots and just confiscated our social networking invention 'for the greater good.' Those were the very words of my patent attorney, James P. Chandler's to me once. **AND THEN, THEY USED THE INVENTION AGAINST US ALL.**"

IF YOU DID THE WORK, WOULDN'T YOU EXPECT PAYMENT ???!!!

Ask yourself, if you had spent five years, \$10 million and invested 145,000 man-hours into building something, wouldn't you expect to be paid by anyone who used what you built?

Exactly. Well, so do social networking inventor Michael McKibben and his stockholders in Leader Technologies.

"CANON 2: A JUDGE SHOULD AVOID IMPROPRIETY AND THE APPEARANCE OF IMPROPRIETY IN ALL ACTIVITIES"

GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader

from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. (See that

Jury Instruction No. 4.7 here.) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO. Judge Lourie also failed to apply

Worse, the federal government is using Leader's invention as a global spy machine to engage in "Collect it All" warrantless surveillance on everyone.

This theft is wrong on so many levels.

We call upon all real Americans to speak up for Leader's property rights, as well as the privacy rights of every American—it's that important, for all of us.

Hopefully, the age of CIA-IBM-Deep State mind control is coming to an end.

Taking care of real inventors like Michael McKibben and Leader Technologies is a good first step.

his own law-test in Group One v. Hallmark Cards to the evidence. After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. See disclosure of substantial holdings in Facebook and Facebook-related stocks.

Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in Pfaff v. Wells Electronics, Inc.—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. TEX ILLUSTRATES THE IDIOTCY OF AGITPROP:

Email comment by TEX:

Please do NOT use the \$1, \$20, \$50 or \$100 bills any more as they depict slave owners on them. Gather all of these hideous symbols of racism and trash them. Throw them out.

While we are at it, please eliminate July and August from your calendars they were named after the two Roman "Caesar" emperors that used slaves. Oops, the Egyptians use slaves to build the pyramids. Tear those down!!!! And after the Scottish invasion of Ireland, the Scots enslaved the Irish. No more Scotch whiskey or hop scotch or those cute kilts for me. And , by the way, we must quit using the word "slave", it is not a nice word. It comes from the root word "slav". The Slavs (South, Central and Eastern Europe) were captured and enslaved by the Muslims of Spain during the ninth century AD. Whoops, that messes up the jihadi narrative.

Twenty million Africans were enslaved from the mid 1200's to the mid 1800's, the majority of whom were captured and sold by other blacks. It's not justifiable but it was accepted at the time. It's a dark part of human history, but history nonetheless. Can't we just admit that it was a terrible practice and just move on. Should we ban baseball because they didn't allow black players in the league until Jackie Robinson put on the uniform? Same with football. And the NY Philharmonic. And school teaching, and IVY League schools. Should we ban school buses because early on black kids couldn't ride with whites? And that "Black History Month" should be removed from our calendar as well. It's a hurtful reminder of how bad we are in this country. History can no longer tolerated.

And by the way, the Democrats were always the party of slavery. And they still are. Every heard of Senator Byrd? He was a Democratic Senator and the grand poopah of the KKK at the same time. As the loving liberals expand the scope of entitlements, they steal the individual dignity of earning one's way. Welfare is slavery. Taxes are sharecropping. By supporting abortion, liberals encourage death of minorities. By supporting the attack on our police officers, the Democrats encourage destruction of our inner city life. Crime , especially gang warfare, has taken over Chicagio and Baltimore. Our nation's capitol has one of the highest crime rates per capita in the whole world. All three of this cities have been controlled by Democrats for years. Maybe it's because George Washington and Lord Baltimore had a few slaves. Surely we are going to eliminate that wooden-toothed George Washington from our history books. By the way, at the end of his life he freed every one of them and gave them a monetary stipend to help them begin their free life in America.

And let's not forget that it's the Democrats that want no borders and they want our country to be managed in a One World Order. Why? Because America is bad, really bad. Thus, Americans are bad, really bad. And folks in other societies can do a better job of offering freedom, peace, and prosperity for all. After all, 250 years ago we had slaves. Well so did every country, every race, every tribe, and every religion throughout history.

Where will this end? George Soros is loving every minute of it. Evil has grabbed this great nation by the neck and is choking our ability to survive. The agenda proposed by President Trump has the makings of significant solutions. I am mad as hell that he continues to take the bait. His mouth could be his downfall. He still has a chance but he had best move from the bully pulpit to the persuasion pulpit and do it soon. Even his strongest supporters are questioning his approach to management. History is watching.

Have a great day, TEX
