Note: I want to especially call your attention to the fact that under a recent decision of the Federal Labor Relations Authority the contents of Performance Standards are not negotiable. However, the method of establishing performance standards as well as matters related to impact and implementation are negotiable. Agencies should give immediate attention to the required negotiations so that agreements can be reached on the way in which standards will be developed and applied. This should be accomplished quickly so that agencies will have sufficient time to develop the actual standards before the statutory October 1, 1981 deadline.
