The following 1990–2018 timeline and supporting facts provide unmistakable evidence of dereliction of duty, fraud, public corruption, the appearance of impropriety, racketeering, monopoly and anti-trust by senior United States government officials, Harvard, Yale and Stanford academics and alumni, judges, law firms and their commercial accomplices. American patent law itself has been hijacked by these individuals and their organizations.

The American economic engine is being dismantled by deep-pocket intellectual property thieves. They have made the U.S. Patent Office their private toy box.

Constitutional quiz: What are the only property rights that the Founders considered important enough to actually write into the Constitution?

**Answer:** patents and copyrights. (U.S. Constitution, Article I, Section 8, Clause 8.) President George Washington himself signed the first patent, U.S. Patent No. X0000001, on July 31, 1790.

The Founders knew the importance of innovation and invention and created the patent system to protect the young republic’s inventors. They believed patents would grow the economy with new ideas that create new jobs and wealth. **But without patent protection, inventors and their investors have no incentive to risk their time and treasure to do the hard work of inventing.**

**Leader Technologies** of Columbus, Ohio, **risked 145,000 man-hours** over five years with an investment of over **$10 million** to invent the platform that enables social networking. **Leader legally filed** for patents that they believed would protect their invention.

But a pattern of public-private corruption—as shown in the following timeline—allowed the well-financed vendor of social networking to steal Leader’s invention, reproduce the design, and then use their ill-gotten gains to perpetuate their crime. They excused their theft by falsely asserting that the technology system was "open source" (i.e., "free") software.

What inventor wants to spend years perfecting and patenting an invention that may then be stolen with impunity? What investor will trust his investment to a government that will not protect the entrepreneurial risk?

**First American patent, July 31, 1790**

The Social Networking Invention, U.S. Patent No. 7,139,761

**Leader Technologies** of Columbus, Ohio, **risked 145,000 man-hours** over five years with an investment of over **$10 million** to invent the platform that enables social networking. **Leader legally filed** for patents that they believed would protect their invention.

What inventor wants to spend years perfecting and patenting an invention that may then be stolen with impunity? What investor will trust his investment to a government that will not protect the entrepreneurial risk?

**The American public must protect the inventors from the deep-pocket predators who have stolen this invention and use their ill-gotten gain to buy off judges, public officials and the mainstream media. No inventor is safe if they are allowed to succeed.**
When inventors are not rewarded for their inventions, society suffers. China, once known for inventions like paper and fireworks, is now notorious for industrial espionage and intellectual property theft and for copying rather than innovating.

**Do we want to risk becoming another China?**

To foster the inventive spirit that made America the world’s innovator, we must protect and reward our inventors, and address the corruption that has allowed companies like Leader Technologies, the true inventors of social networking, to be fleeced by the system that was supposed to protect them.

The summary above is not exhaustive, but merely representative of the massive fraud and racketeering that has occurred and continues to occur.
This is the story and timeline of the theft of the invention called "social networking." The thieves are a group we call the "Cartel." and "Deep State." Their motives are ancient. They yearn for money and power. Their goal is a "New World Order." Theft of Columbus, Ohio innovator Leader Technologies' invention enabled them to unify their communications, monitor and control "the masses," and fulfill their rapacious grab for your assets and your liberty.

The U.S. court-proven facts are that Columbus, Ohio innovator, Michael McKibben, and the company he founded, Leader Technologies, invented social networking in the late 1990's. Prior to that, McKibben had re-built AT&T's email system in record time for release with Microsoft's much ballyhooed Windows 95.

In 6, Leader was awarded its first patent. However, once the Deep State learned about Leader’s invention from an unscrupulous patent attorney and adviser to IBM and the NSA, they wanted it so badly they broke many laws to get it. The invention enabled them to create "The Internet of Things" or "The Internet of Everything" where they could permanently control the digital economy in all its aspects: communications, banking, law, energy, finance, elections, defense, technology, communications, media, healthcare, education, entertainment, politics, guns, food, environment and news.

This sounds like Hollywood fiction, but as you will read in these pages, it is all too real.

The roots of the modern day "One World Order" agenda go back to the 1700’s and philosopher Emmanuel Kant’s essay. In the 20th century, President Woodrow Wilson’s failed effort to form The League of Nations eventually became The United Nations. The disciples of this soulless, mechanistic agenda include George Soros, Bilderberg Group, the 1910 Jekyll Island Club duck-hunt, World Economic Forum (Davos), Council on Foreign Relations, Wall Street, Silicon Valley, and a slew of politicians, judges and bureaucrats. They benefit personally through investment gains and insider information.
George Soros

Proponents of A New World Order are betting against America

On Jan. 05, 2011, new world order godfather and post-WWII Hungarian immigrant to America, George Soros (György Schwartz), stated that the "new world order" will be a healthy, if painful [violent] adjustment." He continued, "China will be the 'engine driving it forward and the U.S. will be actually a drag that is being pulled along through a gradual decline in the dollar.'" [294]
The digital part of this remaking of education is well down the path. Most secondary schools use Google Docs almost exclusively for their document sharing. In universities, M.O.O.C. curricula are rapidly replacing individualized instruction in favor of the allegedly more "rich" (cleansed and censored) content of "Big Data" and "The Cloud."

Universities are being connected using The Ohio State University's IBM / Microsoft / Oracle / SAP / Eclipse data center as an international M.O.O.C. network hub that Presidential candidate John Kasich approved. The supply of Deep State shiny things to lure educators, parents and students into this morally dark world appears unstoppable as the "users" mainline on the digital drugs.

This Leader v. Facebook timeline (below) reveals Deep State names, places and illegal acts

Hillary Clinton’s political adviser, Anne-Marie Slaughter (2009-2013) implemented her book—A New World Order (Princeton Press 2004)—when she worked for Hillary at the State Department. She started promoting Facebook at the State Department in 2009, even though Facebook did not have the intellectual property rights. Of note, Slaughter has Hungarian immigrant connections by marriage with Soros, Intel’s Andy Grove and IDG-Accel Partners (China)’s John P. Breyer. Accel is Facebook’s 2nd largest shareholder.

Lying is a Saul D. Alinsky tactic (and also permitted in the Koran when Muslims are dealing with Westerners, Christians and Jews—Qur’an 3:28)

To gain control of the world’s information (and thus its money and power), the Deep State employs the political organizing tactics of Saul D. Alinsky. Hillary Clinton is an expert. She wrote her undergraduate thesis on Alinsky and corresponded with him.[299] Barack Obama employs Alinsky’s bible—12 Rules for Radicals (Random House 1971).

Tellingly, Alinsky dedicated 12 Rules to Lucifer, who he calls the original radical. Lucifer is one of the names for Satan, the Devil, the Evil One and The Dragon (The Book of Revelations 12: 2; 20:2).

The Obamas and Clintons employ Alinsky’s habitual lying technique: Keep the enemy confused and on its heels working to keep up with your lies. Lies also often become truths if repeated incessantly. For example, the lies about Zuckerberg and Facebook in The Social Network movie are accepted as the truth by many.

In the movie and in sworn testimony, Zuckerberg claimed to have invented Facebook in a few weeks, while preparing for finals at Harvard, and drinking. Contrast that with the 145,000 person-hours and over $10 million spent by Leader Technologies. Zuckerberg's assertion is totally illogical, yet it persists.
Obama’s and Hillary’s lies are legion. Their whoppers include: (1) Obama’s oft-repeated promise "If you like your doctor, you can keep your doctor," (2) Obama’s claim to be a Christian to fool voters, (3) Hillary’s fabrication that a video caused the attack on the U. S. Embassy in Benghazi, and (4) Hillary’s ever-changing private email stories which are being investigated by the FBI, with new evidence proving she exposed the highest classifications of intelligence.

They have also brazenly ignored and violated laws. They encourage others to violate U.S. laws themselves, and not respect traditional authority—our borders, the U.S. Constitution and the people responsible for carrying out our laws, such as our police and military personnel. The Justice Department’s U.S. Attorneys have become little more than mobsters themselves—A fish rots from the head down.

**The Deep State’s corrupt tactics in Leader v. Facebook were purposely confusing in order to discourage the public from learning the truth**

The following timeline is complex. That is an Alinsky tactic: Put so many layers of lies on the onion that most people won’t take the time to peel them away.

*Americans for Innovation* has been peeling away the layers of this *Leader v. Facebook* judicial corruption onion for years. [*The Deep State’s onion core is now exposed.*](http://www.fbcoverup.com/docs/cyberhijack/cyber-hijack-findings.html) Names, places, dates, crimes and motives have been uncovered thanks to the dedicated work of many.

Soros’ New World Order wants to force its will on America and the planet. In their morality, you would be reduced to merely a consuming animal—"a useful idiot" (Alinsky). In their world, faith, hope and love are the antiquated values of weak people. They also have little need for any constitution, law or regulation that stands in their way.

*Alinsky used the phrase "a useful idiot" is sometimes attributed to Vladimir Lenin, although this is in question.*

**Lure users, young and old, into "The Cloud," then ambush them**

Theft of Leader Technologies’ invention of social networking was critical to the Deep State’s plan. With control of the digital essences of our lives ("The Internet of Things" aka "The Cloud"), the Deep State could achieve their new world order more quickly.

**Which side are you on?**
The moral, philosophical and cultural battle lines are drawn. If we choose the globalist Cartel, the "nanny state" of entitlements will eventually overtake us like it collapsed the Soviet Union. On the other hand, if we choose the timeless values of the U.S. Constitution, we must protect and restore Leader Technologies' property rights. Then, we empower real, ethical innovators to rebuild our digital networks in a way that takes us to higher ground.

In our increasingly global economy, the U.S. has a major advantage—our inventiveness and entrepreneurial spirit. But we are allowing our advantage to evaporate. If someone had backed up a truck to the "back door" of the U.S. and stolen trillions of dollars worth of property, we would be Caroteloutraged and more protective in the future. This is exactly what has happened over the past few years—yet there is no defensive uproar. We cannot allow this thievery to continue.

This restoration of Leader Technologies’ (and others) property rights will expose the decades of corruption that has resulted in this digital takeover. Whether these criminals go to jail, are pardoned or ignored, **one thing is for sure-- they must be defunded and disempowered**: 

Is "the New World Order" too big to fail?

Some ask if social networks are now "too big to fail." The last time Americans thought that was when our too-big-to-fail banks were bailed out in 2008. The taxpayer was stuck with the bill while the bankers continued to pay themselves bonuses. Not a single banker was jailed, fired or even fined. Is this the New World Order we have to look forward to? The answer is yes, unless WE THE PEOPLE put a stop to this profligacy.

These social networks can and will be reconfigured to provide the positive benefits without the abuses of security and privacy. However, they will not be run by the current crop of "public-private" criminals, who must be run out of town, this current President and his cabinet among them.

Read on.

**Big Picture:** A Deep State of judges, regulators, politicians and corporations have secretly signed on to "A New World Order" where government is "disaggregated" into self-defined networks. From that point on, their pledges of loyalty to the U.S. Constitution became optional.

A New World Order is coming. Were you invited to the networking party? (Didn't think so.)
In the dramatic up tick in White House polemics about Islam, it becomes important to note that unlike Christianity and Judaism where lying is a sin, Muslims are permitted to lie to Westerners, Jews and Christians. Qur’an 3:28.

Barack Obama's hollow claims of Christian faith, and his embrace of Islam in the White House, would certainly explain why his administration lies without shame to achieve its Slaughter-esque disaggregation goals.

This disaggregation governance philosophy was introduced by Anne-Marie Slaughter to the U.S. State Department on Apr. 12, 2004. She was then a Princeton international law professor and had just published her book, A New World Order (Princeton University Press 2004). In 2009, she served as a chief political advisor to Secretary of State Hillary Clinton (2009-2013).[276]

In evident excitement about the coming presidency of Barack Obama, Princeton re-published the book (never mind that the 2008 election was still two months away). Slaughter's ideas have provided a suitably academic rationale for the institutionalization of crony capitalism and the establishment of a permanent power class for those deemed worthy of an invitation to the networking party ("The Cartel" or "Deep State").

NEW WORLD ORDER, OR JUST ANOTHER JUSTIFICATION FOR CORRUPTION AND CRONY CAPITALISM?
"The state is not disappearing, it's disaggregating, meaning it is simply operating through all its different branches, through regulatory agencies, through judges, through legislators, and they are all networking with one another."

The Deep State needed a global technology platform, so they stole Columbus, Ohio innovator Leader Technologies' invention of social networking. Leader's invention overcame inherent "scalability" problems the Deep State was having with legacy IBM, Microsoft and Xerox client-server platforms.

IBM pumped in a $40 million "donation" to The Eclipse Foundation. Leader's patent attorney, James P. Chandler, III (who was also counsel to IBM), secretly fed Leader's invention to Eclipse. Then a Who's Who of companies like SAP, Borland, Cisco, Intel, Oracle, Wind River, Nokia, HP and Microsoft signed up to get Leader's invention at a breathtaking rate.

Leader's invention enabled Eclipse members to unify their "disaggregation" networking efforts around the planet. In his hubris, Harvard Law professor James P. Chandler described his theft of his client's invention for the Deep State as "in the greater good."

A WORLD OF INTERDEPENDENT, SELF-REGULATING INTERNATIONAL NETWORKS WHERE THE U.S. CONSTITUTION IS IN THE WAY

Tellingly, Slaughter never mentions the U.S. Constitution as a guiding principle in her speech introducing A New World Order to the State Department on Apr. 12, 2004. Neither does she mention Leader Technologies on whom she and her cronies rely to pull off their heist.[285]
"Courts should not make policy or invent rights not stipulated or implied by statutes or the Constitution's text. But courts have no nobler function than that of actively defending property, contracts and other bulwarks of freedom against depredations by government, including by popularly elected, and popular, officials." —George F. Will[001]

"The banking powers are more despotic than a monarchy, more insolent than autocracy, more selfish than bureaucracy."—Abraham Lincoln (1863)

"Those who would give up essential liberty to purchase a little temporary safety, deserve neither liberty nor safety."—Benjamin Franklin (1789)

1. Investigators for Americans for Innovation were invited by the International Consortium of Investigative Journalists ("ICIJ") to provide details about Leader Technologies, Inc.'s ("Leader") patent infringement dispute with Mark Zuckerberg and Facebook, Inc. (collectively "Facebook" and/or "Zuckerberg"). This document was prepared in response.

2. Leader is a software development company founded in 1997 by engineer-entrepreneur Michael T. McKibben ("McKibben"). McKibben had previously led the redevelopment of the AT&T Access Plus 3.0's Microsoft Exchange-compatible Windows email system introduced concurrently with Windows 95 in close collaboration with AT&T Bell Labs.

3. From inception in 1997 to the present, Leader has developed computer software that has resulted in multiple patents, including U.S. Pat. No. 7,139,761, Dynamic Association of Electronically Stored Information with Iterative Workflow Changes, Nov. 21, 2006—the "secret sauce" technological innovation that is popularly called "social networking."[002]

4. Leader sued Facebook on Nov. 19, 2008 for willful patent infringement, damages and injunction ("Leader v. Facebook"). A jury trial was held from Jul. 19-28, 2010 resulting in a split verdict.[003] Leader proved that Facebook infringes Leader's patent on 11 of 11 claims and that there was no prior art. Facebook prevailed on an "on-sale bar" claim—a claim not asserted until Jun. 24, 2010, three weeks before trial.[004] Leader appealed the on-sale bar verdict to the U.S. Court of Appeals for the Federal Circuit on May 04, 2011.[005] then, when the appeals court failed to apply its own well-settled Pfaff and Group One legal tests, Leader petitioned the U.S. Supreme Court on Nov. 16, 2012, but was denied a hearing on Jan. 7, 2013.[006]
5. **Bookmark: #fidelity-contrafund-danoff-facebook**

Both the Federal Circuit appeal and the U.S. Supreme Court petition were ruled in Facebook’s favor, despite the courts:

(a) **Knowledge** of egregious denial of due process to Leader.[007]

(b) **Multiple notices of the emergence of 28 previously concealed Zuckerberg computer hard drives and Harvard emails**: Facebook’s attorney Gibson Dunn LLP[008] (who concealed them) was representing Facebook in the case;[009]

(c) **Substantial financial conflicts of interest** by the judges and government officials[010] involved in this case, e.g., holdings in Fidelity[011] Contrafund,[840] Vanguard[013] and T. Rowe Price[014]—who are among the largest and notorious pre-IPO mutual fund investors in Facebook, and

(d) **Substantial relationship conflicts of interest** among the judges with Gibson Dunn LLP, various other Facebook attorneys, including Cooley Godward LLP,[015] Facebook investors, Leader potential witnesses, the Patent Office and other U.S. government officials and advisers.[016]

**Ninety-nine (99) Harvard, Stanford and Yale "disaggregator" sycophants redefining the U.S. Constitution as A New World Order of crony capitalism (fascism) that they control in secret.**

How many Harvard, Stanford and Yale graduates does it take to corrupt global technology, commerce and government? At least four years of investigations conclude: Sixty-seven (67) from Harvard, fifteen (15) from Stanford and seventeen (17) from Yale.

6. **On Sep. 18, 1947**, under the provisions of the National Security Act of 1947 (61 Stat. 495), approved July 26, 1947, effective on September 18, 1947, the National Security Council (NSC) and the Central Intelligence Agency (CIA) were created. The 1947 Act charged the CIA with coordinating the nation's intelligence activities and correlating, evaluating, and disseminating intelligence which affected national security. In addition, the Agency was to perform other duties and functions related to intelligence as the NSC might direct. The Act defined the Director of Central Intelligence's (DCI) authority as head of the Intelligence Community, head of the CIA, and principal intelligence adviser to the President, and made him responsible for protecting intelligence sources and methods. The act also prohibited the CIA from engaging in law enforcement activity and restricted its internal security functions. The CIA carried out its responsibilities subject to various directives and controls by the President and the NSC.[829]

7. **On Oct. 24, 1947**, President Harry S. Truman issued a memorandum on communications intelligence (COMINT) that authorized the creation of the National Security Agency (NSA). The memorandum instructed the Special Committee to issue a directive to the Secretary of Defense which defines the COMINT mission of NSA as being to "provide an effective, unified organization and control of the communications intelligence activities of the United States conducted against foreign governments" (and not against American citizens).[830]

In 1961, the Atlantic Council was formed as a think tank for globalist priorities. George Soros heavily subsidizes the activities of this so-called think tank.

Hillary Clinton and the head of CrowdStrike, Dimitri Alperovitch, were both ranking members of the Atlantic Council. Alperovitch is Co-Founder and CTO of CrowdStrike, the computer security company implicated in the deceptions surrounding the alleged hack of DNC servers accused on Russians, but appears to have been a CrowdStrike inside job and false flag designed to frame Donald Trump for alleged Russian interference in the 2016 election. Hillary was awarded the Atlantic Council's Distinguished International Leadership Award in 2013. Bill Clinton received the award in 2010. In 1999, George Bush received the award. Also in 1999, IBM CEO Samuel J. Palmisano received the Award. Palmisano led Barack Obama's Internet of Things fascist public-private conspiracy pursuant to Executive Order 13718 in 2016. Evelyn N. Farkas, who accidentally disclosed the fact that the Obama administration had been spying on members of Trump's campaign, as well as some of his friends, is also a member of the Atlantic Council. She also had worked under the Clinton campaign since around 2015, and was former Deputy Assistant Secretary of Defense for Russia / Ukraine / Eurasia. Evelyn N. Farkas is a nonresident senior fellow at the Atlantic Council. Farkas is also a member of the Council on Foreign Relations.

The Senior Executive Service (SES) was created as Title IV in the Civil Rights Reform Act of 1978 under President Jimmy Carter.

The Act reformed the civil service of the federal government, partly in response to the Watergate scandal. It abolished the U.S. Civil Service Commission and distributed its functions primarily among four new agencies: the Office of Personnel Management (OPM), the Merit Systems Protection Board (MSPB), the Federal Labor Relations Authority (FLRA) and the Senior Executive Service (SES).

On Sep. 19, 1979, President Carter called SES "the keystone of the Civil Service Reform Act."

Tellingly, Wikipedia describes it as an also-ran program. Also-ran or keystone? It cannot be both. President Carter's statement stands in stark contrast to the program's TOTAL lack of transparency and the public's total lack of awareness of its existence. Keystone for what? Hindsight provides the answer: racketeering, theft, obstruction of justice, conspiracy, fraud, treason and sedition.

President Carter assigned Kristine Marcy (nee McConnell) to organize the SES. Marcy was and is a notorious lesbian activist close to Hillary Clinton and Janet Reno, among others.

**Search Note:** The versions of these documents at the Federal Register and GoogleDocs/GoogleDrive contain search blocks that prevent all the names in these documents from appearing on searches and being indexed by web search crawlers. We are unpacking these files and removing those booby traps. So, just because a name does not appear the first time you search, do not assume it is not there. It may have been intentionally rendered unsearchable. We are receiving many reports from whistleblowers that these official SES lists are not comprehensive and are only the "tip of the iceberg" of total SES federal employees. Reading between the lines of their disclosure rules, SES has dozens of ways of making people's names and salaries secret, and as they say in every document, they cannot be hired or fired by the President (that statement is usually the last paragraph of APPENDIX NO. 2).

**EXPERT CONCLUSION:** Everyone in the Plum Book is SES, whether directly designated or secretly associated by convoluted policies.

* This Federal Register file is severely tampered with to prevent search crawlers from indexing it, and even from normal cut and paste and file conversion actions. Essentially, it had to be retyped in order to strip out the embedded malware in the fonts themselves. This tampering hints at possible collusion with Microsoft and possibly Adobe to recognize hidden HEX characters inside certain fonts that automatically junks up the text record, thus preventing normal portability of the data to other programs. This one file took approx. 14 experienced man-hours to render it to full searchability. The effort to "hide this file in plain site" was evident to the engineers.

16. **SES federal takeover of San Francisco (Silicon Valley). Why? To make the area rogue C.I.A.-friendly**

**On Nov. 07, 1979**, then San Francisco Mayor Dianne G.B. Feinstein attempted to start a Senior Executive Service (SES) within the City of San Francisco. Touch & Ross LLP (now Delloitte & Touche) was hired to prepare the selling job for the implementation of SES. Touche & Ross LLP were paid by the federal Office of Personnel Management (OPM) formed just months earlier by the Civil Rights Reform Act of 1978. This effort was clearly one of the first attempts by Kristin Marcy, the newly-appointed director of the SES in Washington D.C. to push this federal program down to not only the state level, but also in major cities—in complete violation of the Hatch Act.

According to the Hatch Act, federal employees are prohibited from using federal funds to attempt to influence local and state elections. However, Feinstein, Touch & Ross and OPM appear to have been in a conspiracy to to influence the San Francisco city government to implement a clone of the federal SES program at the municipal level—*even down to writing and designing the ballots* that were then published and mailed to the public before election day.[1025] [1026]

* Judge Joseph J. Farnan was the first trial lawyer who devastated Facebook at the Markman Hearing of Leader v. Facebook. He was replaced just one month before trial by Obama nominee Leonard P. Stark just one month before trial, after which Stark allowed Facebook to completely change its claims and barred Leader from additional discovery in an evident abuse of due process.

1990-1999
28. **In 1990**, Lawrence "Larry" Summers, a professor of economics at Harvard, tutored a favorite student, Sheryl K. Sandberg, while fellow professor of law, James P. Chandler, III, looked on. In their hubris, they have used their inside knowledge of America's legal and economic weaknesses to try and create a permanent ruling class among their cronies.

Overview

A "public-private" plan to privatize the management of American security and intelligence appears to have hatched from this Chandler-Freeze association in the early 1990's.

On Jun. 07, 1993—five months into Bill Clinton's first term as President in 1993—Clinton advisors James P. Chandler and John D. Podesta hosted an encryption conference in Washington, D.C. The clear objective of that conference was to create a rationale to give Clinton's Deep State intelligence people a universal backdoor key to all digital communications.

During 1993-1994, Bill & Hillary Clinton's political enemies were being killed of like flies, as revealed by their long term Arkansas political "fixer," Larry Nichols, producer of The Clinton Chronicles (1994).

Tellingly, on Apr. 17, 1995, Bill Clinton signed Executive Order No. 12958[271] Classified National Security (first published on Jan. 01, 1995). This order appears to be the legal genesis for an illegal Deep C.I.A. Spy State run out of the White House used to gather dirt on individuals across the planet. Chandler very evidently wrote this executive order and provided the continuity for this illegal agency through the Clinton, Bush and Obama presidencies.

During this time, Chandler and Freeze privately formed and repeatedly flipped a company named Eurotech, Ltd. that supplies software and hardware to the spy state. A decade later, they both served as directors for Columbus innovator, Leader Technologies, until that is, Chandler took custody of a copy of Leader's source code on June 05, 2002 and that code then magically appeared in the "open source" programming code of the IBM Eclipse Foundation just 11 weeks later.

Leader Technologies invention was social networking (which these spy state aficionados clearly wanted for their schemes). It solved a "scalability" problem that Microsoft's, IBM's and Xerox's older client-server architectures were choking on.

Leader's innovations were sent immediately to Chandler's long-time crony client and technology supplier to the secret Deep State—IBM, where the future Patent Office director David J. Kappos was waiting for it. As just stated, eleven weeks later, Leader's innovations first appeared in IBM's Eclipse Foundation release 2.0.1 with illegal IBM copyright claims. Eighteen months later, with Larry Summers now its president, Facebook emerged at Harvard. Facebook was just the first of numerous NSA data gathering fronts to emerge from IBM Eclipse, a ring leader in this scheme.
It would be macabre if their choice of "The Eclipse Foundation" name alluded to the damage done by their in-your-face eclipse of the U.S. Constitution.

Big Brother is watching you.

The Nazis were a major purchaser of IBM computers starting before WWII. They used them to catalog Jews, Poles, gypsies, homosexuals and anyone else they wished to murder in their "Final Solution." Of course, the Nazis did not consider eliminating these "undesireables" to be murder since they reclassified them as subhuman. By contrast, Nazis considered Russians as pigs to be brutally disciplined.

Nazi labor minister Dr. Robert Ley, former Head of the German Labor Front, on the treatment of Russian slave workers (Essen, Germany, October 1942):

"The key item on the agenda was the question of how to treat the Russians." ... Robert Ley, as usual, was drunk. And when Ley got drunk he was prone to speak his mind... With so much at stake, there was no room for compassion or civility. No degree of coercion was too much, and Ley expected the mine managers to back up their foremen in meting out the necessary discipline. As Ley put it: 'When a Russian pig has to be beaten, it would be the ordinary German worker who would have to do it.' (Adam Tooze, The Wages of Destruction: The Making and Breaking of the Nazi Economy (Allen Lane 2006). p. 529.) (emphasis added)

Behind this national security smokescreen (it's for the greater good), these men concocted a legal sophistry that lured American citizens into agreeing to give away their sacred Constitutional rights to privacy in exchange for "free" online services.

With these "end user license agreements" in hand, the NSA was given the legal clearance to spy on Americans. Much, if not most, of this legal vision is the brainchild of James P. Chandler, who now operates a fifth column within the Obama Administration, probably even vetting all FOIA requests for the White House.

Chandler is the author of the Economic Espionage Act of 1996 under Bill Clinton. One of Bill Clinton's last acts as president was to appoint Chandler to the National Infrastructure Assurance Council ("NIAC") just two days before he left office on Jan. 20, 2001.[024] Chandler directed ongoing traffic for this spy state agenda, starting under Clinton, through Bush, and now under Obama.

To facilitate the "Big Data" collection, these three presidential administrations cleared the regulatory path ways for Wall Street and Silicon Valley to form companies to give the illusion of choice—but don't be fooled, they are all NSA "old boy" creations.
Indeed, Washington, D.C. insiders report that a central actor in this corruption, Clinton security adviser James P. Chandler, has famously declared that the "prime" defense contractors (Boeing, Lockheed, Northrop Grumman, General Dynamics and Raytheon) are merely revolving door agencies of the federal government. Chandler has merely extended his philosophy of an insider's game to the control of the Internet, exhibited by the NSA's abuse of privacy.

The legislative, executive, judicial and Free Press institutions of our Republic stopped working as designed

The quid pro quo for American intelligence under the Executive branch was that these private companies would feed funds and data to the NSA and government insiders without Congressional approval (the Legislative branch). Blackmail, extortion, intimidation and coercion by insiders is inescapable. It is just what bad people do.

The quid pro quo for the cooperation of the Judicial branch was new wealth from specially organized Wall Street mutual funds and waiver of judicial ethics rules that would look the other way when these mutual funds were disclosed. What judge or judicial employee will resist the tipsters subsequently?

The quid pro quo for the Free Press was income from advertising and voter manipulation. In exchange, the "lame stream media" stopped holding the powerful accountable because the Silicon Valley purveyors of "Big Data" and their bankers fed them advertising. They have become data junkies. Sadly, the press began using the unverified "narratives" of the spy state conspirators as their primary sources, thus reinforcing the lies. The Social Network is a perfect example of a lying "narrative" about Mark Zuckerberg and Facebook that the public believed because the mainstream media never questioned its veracity.

Constitutional checks and balances have degenerated into competing oligarchies and secret alliances

In short, this "public-private partnership" scheme pressed by Hillary Clinton adviser, Anne-Marie Slaughter ("A New World Order"), has destroyed Constitutional checks and balances. In its place are unaccountable spy state oligarchies based on ill-conceived and self-serving "international networks."

The State Department's website is a good example of the ubiquity of the NSA spy state user data gathering juggernaut:

31. **In Jun. 1990 to 1999**, Sir Geoffrey E. Pattie was appointed Chairman of Marconi Electronic Systems Ltd. [1330]
Rogue C.I.A. shadow government planned to secure diamonds and rare earth minerals needed for manufacturing in computers, TVs, mobile phones, space and defense in Central Africa by installing Paul Kagame as a strongman, no matter the human cost

On Oct. 01, 1990, at the time of the October 1990 invasion of Rwanda, Paul Kagame was being trained by a rogue globalist C.I.A. at the Pentagon's General Staff and Command College at Fort Leavenworth, in Kansas (USA). Kagame returned and led the four year war that resulted in the deaths of perhaps several hundred thousand Hutu people between October 1990 and April 1994 alone. See [Rwanda Jul. 18, 1994 timeline entry](http://www.consciousbeingalliance.com/2012/04/pentagon-reveals-satellite-photos-of-1994-rwanda-genocide/print.html) below.[658] [670]

George H.W. Bush, **C.I.A. Director (1976-77)** announced "A New World Order"

**On Jan. 16, 1991**, in his Oval Office address to the nation announcing the first Persian Gulf War, President George H.W. Bush telegraphed the Deep State shadow government agenda to use a destabilized Middle East to usher in a globalist "New World Order" that would be run by un-elected bureaucrats, bankers and multi-national corporations. This agenda has emerged out of such globalist organizations as the Trilateral Commission, Bilderberg Group, Bohemian Grove, European Union, rogue C.I.A., rogue NSA, Yale Skull & Bones, Council on Foreign Relations (CFR) and the World Economic Forum (Davos). In short, the self-anointed "elites" want to destroy the Grand American Experiment in a Republic where all power emerges from the People, the Governed, and not from oligarchs, monarchs, bureaucrats, lawyers and dictators.[616]

"This is an historic moment. We have in this past year made great progress in ending the long era of conflict and cold war. We have before us the opportunity to forge for ourselves and for future generations a new world order — a world where the rule of law, not the law of the jungle, governs the conduct of nations. When we are successful — and we will be — we have a real chance at this new world order, an order in which a credible United Nations can use its peacekeeping role to fulfill the promise and vision of the U.N.'s founders."

**Between 1991-1993**, Lawrence ("Larry") H. Summers was chief economist for the World Bank.

35. **In 1991**, Sheryl K. Sandberg became a research assistant to Lawrence "Larry" Summers at the World Bank after Summers had been her senior thesis advisor. [401]
Larry Summers' reckless "Big Bangery" and "Globaloney" Harvard economic theories laid the foundation for this New World Order corruption, which is age-old fraud and greed dressed up in the latest elitist hubris.

36. **Between 1991-1993** "wunderkind professors of economics" including Larry Summers were unleashed as "ersatz policy 'experts'" by the World Bank to implement their "flawed" plan for privatization of banking in the Soviet Union ("Big Bangery" and "globaloney" to justify the monopolistic world-wide role of the World Bank."). This reckless voucher system resulted in the emergence of the current system of corrupt Russian oligarchies controlled by the Kremlin; oligarchies that Summers, Sandberg and Milner now exploit.[268]

Tellingly, in all of Barack Obama's sanctions to punish Russia for the Crimean annexation, he has never sanctioned Yuri Milner or his mentor in all things oligarchical, Alisher Usmanov—the richest man in Russia. Pre-IPO Facebook investments by Milner and Usmanov supported the NSA's agenda to inflate the value of Facebook.

Milner's and Usmanov's Moscow partners included Goldman Sachs (Lloyd Blankfein, CEO) and Morgan Stanley. Obama announced his candidacy on Facebook in 2007. Obama owed Summers and these Russian oligarchs who, along with Goldman Sachs and Morgan Stanley et al, financed his rise to the American Presidency.

37. **On Aug. 10, 1991** Dan Casolaro, a journalist investigating Bill and Hillary Clinton's involvement in ADFA (Arkansas Development Finance Authority) and their Mena, Arkansas $100 million drug smuggling and money laundering operation, allegedly committed suicide.[528]

**On Mar. 20, 1991** Sheryl K. Sandberg published her Harvard senior thesis titled "Economic Factors & Intimate Violence" blaming domestic violence on "traditional attitudes" and "Western society" and "patriarchy." Lawrence H. Summers was her adviser. Her thesis was stillborn given her erroneous conclusion that 95% of domestic violence is against women, when the actual number was and is roughly 50-50.[401] Sandberg's current gender agenda has evidently been cultivated since Harvard and supported by Summers.

**From Aug. 21 - 31, 1992**, Ruby Ridge was the site of a deadly confrontation and an eleven-day siege near Naples, Idaho, beginning on August 21, 1992, between Randy Weaver, members of his immediate family and a family friend Kevin Harris, and agents of the United States Marshals Service (USMS) and the Hostage Rescue Team of the Federal Bureau of Investigation (FBI HRT).

According to Ted L. Gunderson, FBI Special Agent In Charge (ret.), this event was staged by the government and was a wholly unwarranted response to a loyal American, Randy Weaver, who lived remotely with his wife, Vicki, and daughter, simply refusing to appear for a court hearing after a summons had been issued.[639] See Ted L. Gunderson's timeline entry for May 12, 2005.
On Sep. 17, 1992, hedge fund manager George Soros famously bet against the UK pound. Hedge funds were not yet well known.

In a nutshell, Soros believed that the British Pound was overvalued and was headed for a devaluation. So, he borrowed over ten billion Pounds in a ‘Go for the jugular’ move. He then immediately converted the Pounds into German Marks. When the markets learned about Soros’ actions, other traders followed suit. This run on the Pound triggered a devaluation. Soros then used his Marks to buy back the now devalued Pounds and pocketed $1.4 billion profit. All in one day.

Soros would go on to repeat this money market manipulation across the world for decades. These funds were used to finance Bill & Hillary Clinton, The Clinton Foundation, The Clinton Global Initiative, Barack Obama, his takeover of the U.S. Democratic Party and his Open Society Foundations globalist "new world order" political agenda. [437]

See also December 20, 1998 (below) George Soros being interviewed by Steve Kroft of CBS 60 Minutes about this UK pound and other admitted market corruption.

On Nov. 03, 1992, William ("Bill") J. Clinton elected 42nd U.S. President.

On Oct. 13, 1978, The Senior Executive Service (SES) was created as Title IV in the Civil Rights Reform Act of 1978 under President Jimmy Carter.

**On Feb. 26, 1993** The 1993 World Trade Center bombing was alleged to be a terrorist attack on the World Trade Center. A truck bomb detonated below the North Tower of the World Trade Center in New York City. The 1,336 pounds (606 kg) urea nitrate–hydrogen gas enhanced device (supplied by an FBI Informant, see below) was intended, according to the official propaganda narrative, to send the North Tower (Tower 1) crashing into the South Tower (Tower 2), bringing both towers down and killing tens of thousands of people. It failed to do so, but killed six people and injured over a thousand.

According to Ted L. Gunderson, FBI Special Agent In Charge (ret.), the FBI had infiltrated the terrorist cell through FBI Informant Emad Salem. Salem was tasked with building the bomb. Salem recorded the meetings with his FBI handlers who supplied the bomb, much to his surprise. In other words, this bombing was planned and carried out by the FBI who allowed the terrorists to proceed. Gunderson believes the microphone recording is the only defense that Salem had against being framed and sent to prison.[639] See Ted L. Gunderson's timeline entry for May 12, 2005.
On Feb. 28, 1993, C. LeBleu, T. McKeaham, R. Williams, S. Willis, bodyguards for Bill and Hillary Clinton, were all killed by gunfire in the illegal Waco, Texas raid on the David Koresh Branch Davidian compound. Attorney General Janet Reno ordered the evidently illegal attack[528]

According to Ted L. Gunderson, FBI Special Agent In Charge (ret.), these men were all shot in the head in evident assassinations, not at the hands of the Branch Davidians, who took the wrap and some are serving life prison sentences after being framed.[639] See Ted L. Gunderson's timeline entry for May 12, 2005.

On May 19, 1993, W. Barkley, B. Hassey, S. Reynolds, T. Sabel, bodyguards for Bill and Hillary Clinton, were killed in a helicopter crash.[528]

On May 19, 1993, John A. Wilson, Washington, D.C. councilman died mysteriously as he was preparing to expose the Clintons.[528]
Ground Zero of Obama's ICANN give away TREASON (Oct. 01, 2016) & NSA warrantless surveillance

NSA is "Wrongdoing Masquerading as Patriotism."
—James Bamford, NSA whistleblower, attendee [519]

On Jun. 07, 1993, Clinton, Bush, Obama consiglieri James P. Chandler III and Chief of Staff John D. Podesta, via the Carnegie Endowment for International Peace, sponsored the "Third CPSR Cryptography and Privacy Conference" to gather intelligence with the objective:

"to require that telecommunications manufacturers and service providers redesign their systems to facilitate wiretapping." [519]

http://www.fbcoverup.com/docs/cyberhijack/cyber-hijack-findings.html
Attendees: Names highlighted below are some of the attendees who enjoy present day Obama Administration relationships that were required to have been disclosed before any decisions related to ICANN were made on Oct. 01, 2016 where attended Stephen D. Crocker is the chairman.

Summary: These attendees fanned out in all directions. They have massively enriched themselves and their military-industrial co-conspirators. The *quid pro quo* for their enrichment was to give a universal backdoor key to the NSA. Bill & Hillary Clinton, George Bush and Barack Obama each facilitated this organized crime.

Conspiracy of Silence: Pedophilia blackmail binds the Deep State shadow government's evil power

On May 03, 1994 TV Guide listed the Yorkshire TV documentary Conspiracy of Silence was scheduled to air on the Discovery Channel. This documentary exposed a network of religious leaders and Washington politicians who flew children to Washington D.C. for sex orgies. Many children suffered the indignity of wearing nothing but their underwear and a number displayed on a piece of cardboard hanging from their necks when being auctioned off to foreigners in Las Vegas, Nevada and Toronto, Canada

See Ted L. Gunderson, FBI Special Agent In Charge (ret.), discussing Conspiracy of Silence in the May 12, 2015 timeline entry.

At the last minute before airing, unknown Congressmen threatened the TV Cable industry with restrictive legislation if this documentary was aired. Almost immediately, the rights to the documentary were purchased by unknown persons who had ordered all copies destroyed.

A copy of this videotape was furnished anonymously to former Nebraska state senator and attorney John De Camp who made it available to retired FBI Agent Ted L. Gunderson. While the video quality is not top grade, this tape is a blockbuster in what is revealed by the participants involved.[642] Click here for Ted Gunderson's Biography PDF.[644]

FASCISM WAS IMPLEMENTED
BY THE CLINTON WHITE HOUSE

Bill Clinton made fascist crony capitalism his policy, led by the White House with the C.I.A., NSA, State, Justice and Defense Departments

On Jul. 01, 1994, President Bill Clinton wrote “A National Security Strategy of Engagement and Enlargement.” Clinton actually authorized the C.I.A. and NSA to use their super-secret and illegal Echelon Program (started in 1947) to assist American private companies with whom he and Hillary were aligned in pay-to-play schemes.[951] [952] [953]

Clinton made fascism policy. He and Hillary set in motion the destruction of the core institutions of the American Republic.

Oh how innocent sounding, but oh how destructive ...

PDF p. 12: “Countering terrorism effectively requires close day-to-day coordination among Executive Branch agencies. The Departments of State, Justice and Defense, the FBI and CIA continue to cooperate closely...”

PDF p. 19: “Partnership with Business and Labor: Our economic strategy views the private sector as the engine of economic growth. It sees government’s role as a partner to the private sector – acting as an advocate of U.S. business interests; leveling the playing field...”

James P. Chandler, III, Harvard/GWU Law, Clintons', Bush's, Obama's intelligence, intellectual property, espionage & national security advisor/rogue C.I.A. consiglieri
Who's "playing field" was being leveled?
The American Republic's & humanity's.
NOTICE: This timeline entry on Rwanda is longer than our normal entries due to an evident and concerted effort by MSM to push a false narrative on the public about who was really behind the merciless slaughter of 1 million innocent civilians. That narrative is evidently a false flag pretext created by a rogue C.I.A. on behalf of its globalist mining and eugenics interests. This entry attempts to straighten a very crooked record that shockingly winds back to Arkansas and the Clintons.

Rwandan "Genocide:
Central African rare earth minerals & diamond sources for The Clinton Foundation, George Soros & their computer technology globalist collaborators

By Jul. 18, 1994. Paul Kagame took power in Rwanda after an alleged "Rwandan Genocide." This massacre of almost 1 million Rwandans now appears to have been a C.I.A.-fabricated eugenics program that also served as a false flag pretext. This pretext provided the cover to seize control of rare earth minerals in the resource-rich neighboring Congo. Those minerals are critical for the manufacturing of computers, military surveillance devices, aerospace, defense, nuclear, satellites, mobile technology and TVs by the rogue C.I.A. Deep State shadow government "Big Data" spy operation globally.

Kagame had been head of military intelligence in the Ugandan Armed Forces after being trained by the C.I.A. at the U.S. Army Command and Staff College (CGSC) in Leavenworth, Kansas. Tellingly, the official "Rwandan genocide" mainstream media and Congressional narrative MAKES NO MENTION of Kagame's extensive C.I.A. training, much less any U.S. complicity.[660]

Also missing from the official MSM narrative is the sworn testimony before Congress (May 2001) and in France (2002) by NSA military intelligence analyst Wayne Madsen who testified: "A French military intelligence officer said he detected some 100 armed U.S. troops in the eastern Zaire conflict zone," Madsen's statement began: "Moreover, the DGSE [French secret service] reported the Americans had knowledge of the extermination of Hutu refugees by Tutsis in both Rwanda and eastern Zaire and were doing nothing about it. More ominously, there was reason to believe that some U.S. forces, either Special Forces or mercenaries, may have actually participated in the extermination of Hutu refugees." (pp. 9-10).[658]

The official UN-sanctioned and amazingly unquestioned "Hutu genocide rampage" narrative is not credible just on the numbers, as proven by Global Research and common sense.

Rwandans martyred by Bill & Hillary Clinton & the Globalists

Skulls and bones of some of those killed in Rwanda’s 100-day Globalist New World Order Atrocities are seen at a memorial shrine at a Catholic church in Ntarama, Rwanda, April 4, 2014. Lord have mercy.
The beneficiaries from the death and martyrdom of 1 million Rwandans were globalist technology companies who were securing their access to rare earth minerals needed in the manufacture of electronic devices. These minerals are plentiful in the mines of Central Africa. These natural resources should bring great wealth to the Central African economies, but do not because they are extracted under contracts with corrupt, globalist-backed New World Order dictators and strongmen. These companies are members of:

1. C.I.A.’s In-Q-Tel private venture capital company,  
2. National Infrastructure Assurance/Advisory Council (NIAC),  
3. the National Venture Capital Association (NCVA),  
4. The IBM Eclipse Foundation,  
5. Obama’s Technology CEO’s Council, and  
6. Obama Silicon Valley outpost of the U.S. Digital Service funded with $1.5 billion in funds from Google’s Eric E. Schmidt ... among others. Graphic AFI.

President Bill Clinton did nothing to stop this 100-day so-called "Rwandan Genocide" that brought to power The Clinton Foundation protégé, Paul Kagame—a C.I.A.-trained member of the minority (8.4%) Tutsi tribe. The beneficiaries were global technology players in electronic capacitors essential to aerospace weaponry, mobile phones, computers, TVs, disk drives and chips manufactured by Sony, Compaq, Microsoft, Dell, Ericsson, Hewlett-Packard, IBM, Nokia, Intel, Lucent, and Motorola.

The official narrative is suspect and appears to have been a C.I.A. false flag pretext. NSA analyst Wayne Madsen concurs in his book abstract for Genocide and Covert Operations in Africa, 1993-1999 (Mellen Press, 1999): "The USA was not merely an innocent bystander to the events that led to the systematic mass killing of humans. It also introduces the world of international mining and the dubious nature of the network of investors and agents of influence that support the mining industry. It considers how the unlikely confluence of African, American, Southeast Asian and even Arkansas politics had tremendous consequences for many disparate players, including the Clinton administration, the Habyarimana regime in Rwanda, Marshal Mobutu of Zaire, and the peoples of Sierra Leone, Congo, and Angola."

Hutus were 91.6% of the population. On Apr. 06, 1994, moderate Hutu President Juvénal Habyarimana's plane was shot down by two French-supplied Russian SAM-16 Gimlet missiles (captured in Iraq in Feb. 1991, Le Figaro) along with fellow Hutu passenger and Burundi President Cyprien Ntaryamira. Habyarimana's assassination is said to have ignited Hutu-Tutsi ethnic tensions in the region and a genocidal rampage against minority Tutsi. **The facts support an opposite story.**

On Apr. 07, 1994, the next day, a well-funded and well-armed C.I.A. agent and Tutsi named Paul Kagame, who commanded the Rwanda Patriotic Front (RPF) replete with Ugandan mercenaries, said he would resume the civil war if the alleged Tutsi killings did not stop. The next day, he pressed the attack. According to the official narrative, some one million Tutsis were allegedly killed by genocide-incited Hutus angered by Habyarimana's plane crash—in less than three months! This narrative breaks down
when one does the math . . . and also realizes that two million Hutus simultaneously fled to Zaire.

**U.N. / U.S. / C.I.A. genocide narrative hides globalist rare earth mineral mining & depopulation agendas**

According to the officially-accepted U.S., U.N. and RPF (Kagame, Tutsi) narrative, 1,074,017 Tutsis were killed. However, the total population of Rwanda was 7,099,844. Tutsis comprised 8.4% or 596,387. Therefore, the RPF / U.N. / U.S. / Tutsi claim is twice the total number of Tutsis available to kill! A former RPF officer, Abdul Ruzibiza, testified that the RPF counted Hutu corpses as Tutsi corpses![657]

Extensive testimony in the Beatrice Munyenyezi trial provides clear evidence that an elite 100-man U.S. force directed Kagame's RPF forces with the aim of depopulation and plunder of rare earth mining resources in neighboring Congo. Extensive satellite imagery proves that the U.S. Department of Defense, NRO (National Reconnaissance Office), DIA (Defense Intelligence Agency) and C.I.A. were fully aware of the slaughter of Hutus and did nothing to stop it. Further, the evidence shows that Kagame killed as many of his fellow Tutsis as he did Hutus, then blamed all the Tutsi deaths on the Hutus.[658]

Why would two million Hutus flee into Zaire if they were about to annihilate Kagame's Tutsi minority as claimed? In the process, Kagame used the RPF and the genocide pretext to kill some 25-45,000 Hutus in Rwanda. Then, he pursued the two million ***Hutu*** refugees into Zaire where he killed 200,000 more, and in the process overthrew the government of Zaire.

By Jul. 04, 1994—**in just three months**—Kagami/Clinton completed the Tutsi takeover and the consolidation of globalist power over Central Africa's rare earth minerals and diamonds, sometimes referred to a "blood minerals" and "blood diamonds."

Three globalist culprits appear to predominate: The Clinton Foundation, George Soros and his Open Society Foundations, and Maurice Tempelsman. In 1992, George Soros had almost destroyed the UK Pound and netted $1 billion overnight which he used to found the Open Society Foundations.

Belgian-born Maurice Tempelsman has a long and bloody history in Africa. When Congo’s first Premier, Patrice Lumumba, pledged to return diamond wealth back to the newly independent Congo in the early 60’s, Tempelsman, who began with De Beers in the 1950’s, helped engineer the coup d’etat that consolidated the dictatorship of 29 year-old Colonel Mobutu (Zaire/Congo), and the coup against Ghana’s Kwame Nkrumah; diamonds were at stake in each.

Tempelsman has a long and dubious history with the C.I.A. In the 1960s Tempelsman hired as his business agent the CIA station chief in Kinshasa (Zaire/Congo), Larry Devlin, who helped put Mobutu in power and afterward served as his personal adviser. From March 3, 1977, Tempelsman briefly held the title of honorary consul general for the Congo/Mobutu in New York City. With such unfettered access to the Congo's rich mining resources in diamonds and rare earth minerals needed in high technology manufacturing, Tempelsman is clearly a go-to financier for the globalist New World...
Order plans.

Tempelsman is a Democratic party deep pocket, a regular supporter of the campaigns of John Kerry (D); Ed Royce (R); Tom Daschle (D); Barack Obama (D); Maxine Waters (D); John Rockefeller (D); Richard Gephardt (D); Howard Wolpe (D); Patrick (D) and Edward Kennedy (D); and the 1988 win of George H.W. Bush (R). Tempelsman also exploited ties with Anthony Lake, Clinton’s National Security adviser, who intervened at the U.S. Export-Import Bank on Tempelsman’s behalf.

According to blood diamond expert Janine Roberts, "Declassified memos and cables between former U.S. presidents and State Department officials over the last four decades directly linked Tempelsman to the destabilization of Zaire/Congo, Sierra Leone, Angola, Zimbabwe, Namibia, Rwanda and Ghana."

President George H. W. Bush served as an advisor to Tempelsman’s company, Barrick Gold Corporation. Barrick directors include: Brian Mulroney, former PM of Canada; Edward Neys, former U.S. ambassador to Canada and chairman of the private PR firm Burston-Marsteller; former U.S. Senator Howard Baker; J. Trevor Eyton, a member of the Canadian Senate; and Vernon Jordan, one of Bill Clinton’s lawyers. Barrick Gold’s mining partners have included Adastra Mining-formerly named America Mineral Fields (AMFI, AMX, other names), formerly based in, of all places, Hope, Arkansas, Bill Clinton’s hometown.

A major beneficiary of this Central African mining exploitation is Sony Corporation. Sony’s executive vice president and general counsel, Nicole Seligman, worked for Williams & Connolly LLP.\[662\]

Williams & Connolly LLP is the \textit{same law firm} that has been representing Hillary Clinton’s stonewalling of the IRS and Benghazi House Oversight Hearing. They incorporated The Clinton Foundation on Apr. 13, 1999. They were also chosen by rogue C.I.A. Deep State shadow government lawyer James P. Chandler to represent the government in the first prosecution of the Federal Trade Secrets Act in 1999. Williams & Connolly’s evident collusion begs the question “\textit{When is a law firm engaging in sedition and crimes against humanity?}”\[657\]

There is so much evidence of this collusion around mining. Bill...
Clinton formally established The Clinton Foundation (Clinton-Hunter Development Initiative (DHDII) promising $100 million over 10 years in Rwanda in Sep. 2005—the same month that he traveled to Kazakhstan with Canadian mining executive Frank Giustra and acquired exclusive uranium mining rights for Giustra's UrAsia Energy Ltd.[659]

On Jul. 28, 1994, Calvin Walraven, a police informant in Jocelyn Elders' son's cocaine distribution trial, allegedly committed suicide.[528]
**The Clinton Chronicles (1994).** "The hijacking of America." The Clinton Corruption Machine expanded to Washington, D.C. from its Arkansas roots to take over the Internet while hiding behind national security as the excuse for secrecy, money laundering, crony enrichment and stonewalling.\[528\]

THE HIGHLANDS FORUM:
"Shadow Elitist Pentagon Intelligence Cronyism"

In ca. Feb. 1995 (inception date is vague and sometimes published as in 1994), The Highlands Forum hosted by Richard P. O'Neill, Beltway political and economic consulting sycophant, held its first private gathering sponsored by the Office of the Secretary of Defense (OSD) and co-chaired by the Principal Deputy Assistant Secretary of Defense (PDASD(C31)) and the DARPA Director of Net Assessment. The meeting is said to have helped plant the idea of "network-centric warfare" in the minds of the nation's top military.

"A thousand thinkers have participated over the past 12 years, attending the sessions to which they have the most to contribute."
Brian Friel, GOVEXEC.com (undated)

"I'm an active member of the (informal) Highlands community, and it is a wonderful thing. The Forums are an opportunity to meet with high-level military officials in a meaningful way. As a civilian and a pretty skeptical one, I'm impressed with the practicality of the operating military. They are not sitting around making policy; they work on the ground to make things happen. It's definitely worth helping them to be more effective and accountable, which is the goal of Highlands."
Esther Dyson, Chairman, EDVenture Holdings

"Dick is an amazingly talented individual and tremendous 'connector' in terms of bridging between the public and private sector. Through the Highlands Forum I have had a chance to establish productive, long-term relationships with individuals in defense and intelligence communities, with influential individuals in NGOs, with fascinating authors and independent thinkers, and with other notable figures from the commercial world. Highlands' approach to catalyzing relevant conversation and high-level connection is, in my viewpoint, unique and uniquely valuable."
Ray Ozzie, Chief Software Architect, Microsoft

"The Highlands Forum is a unique operation. It examines key topics and brings together the people who really understand what's happening. Dick has a unique ability to frame the questions and bring the right people together. He does a lot of homework, he has a huge network of very smart people, and he's amazingly poised and comfortable with high egos. I have attended quite a few Highland
Forums and always find they hold my attention and teach me things I didn't know. The Highlands Forum started as an unpublicized operation within the Defense Department many years ago, and blossomed into one of the most enduring and useful forums for assembling specialists on technology of every sort. It's a real treat to attend."

Steve Crocker, CEO of Shinkuro; Obama's chair of ICANN (Internet Corporation for Assigned Names and Numbers); Crocker oversaw the ICANN transfer of management to a U.N. body, which is probable treason given Crocker's collusion with Clinton, Podesta and Chandler. See Timeline, Oct. 01, 2016 "Obama's Internet Fraud and Bretrayal.

The Federal Advisory Committee Act (FACA) also called the Open Government law restricted how the government could solicit ideas from special interests. The Highlands Forum and later The Highlands Group evidently ignored those conflict of interest safeguards and reveled in its crony capitalism. Thus, the globalist Deep State shadow government's takeover of the Internet was shrouded in garden variety greed, powermongering and illegality from inception. [807] [808] [809] [810] [811]

The New World Order
Secret White House intelligence masters, created by Clinton / Chandler to enable a globalist takeover

"This order prescribes a uniform system for classifying, safeguarding, and declassifying national security information . . . Sec. 5.4 (1) There is established an Interagency Security Classification Appeals Panel" comprised of:

1. Secretary of State
2. Secretary of Defense
3. Attorney General
4. CIA Director
5. US Archivist
6. Assistant to the President for National Security
7. Chaired by the President.

In addition, in a subsequent executive order, Barack Obama made the U.S. subservient to foreign treaties on Dec. 29, 2009 in Executive Order No. 13526[272]—treaties that later included the Trans-Pacific Partnership (TPP) (Sec. 2.3(b)(9)—documents would not be declassified if such action would "violate a statute, treaty, or international agreement.") This could allow unscrupulous characters to cause documents to be hidden forever based on variable terms in foreign treaties, e.g., Iranian nuclear deal (Joint Comprehensive Plan of Action—JCPOA), TPP (Trans-Pacific Partnership), TiSA (Trade in Services Agreement, i.e., European TPP). James P. Chandler very likely played a central role in these orders to de-industrialize the United States and make it subservient to globalist control (Read: destroy the American Republican form of government). President Dwight D. Eisenhower's warning about the rise of a corrupt military-industrial complex

On Jan. 17, 1961, President Dwight D. Eisenhower warned the world about the dangers for tyranny arising from a military-industrial complex. As the AFI investigation has uncovered, that day came on Sep. 29, 1999 when the C.I.A. began investing in hardware and software companies, thus essentially nationalizing, largely in secret, America's emerging digital infrastructure. This gave the C.I.A. an unprecedented and unaccountable ability to spy on everyone without a warrant.

Note the slippery attorney double-speak that permeates these founding security documents of the New World Order. Bill and Hillary Clinton had found a new scam that overshadowed their previous successes at drug smuggling and money laundering in Mena, Arkansas—the military-industrial national security apparatus that former President Dwight D. Eisenhower warned of.[531]

Former Secretary of State and National Security Adviser Robert M. Gates said in his book *Duty* that the White House national security staff ballooned from 50 people in 1993 to more than 350 under Obama by 2011.

Bill Clinton's Executive Order 13526 (Apr. 17, 1995) set this escalation in motion. The resulting private, unauthorized White House spy/defense agency is clearly affirmed by Secretary Gates in his book.[530]

Robert M. Gates: "The root of my unhappiness in the Obama administration was therefore not the NSS [National Security Staff] policy initiatives but rather its micromanagement—on Haitian relief, on the Libyan no-fly zone, above all on Afghanistan—and I routinely resisted it . . . NSC staff in the early 1990s,
People you trusted are now hijacking the Internet

professional staff numbered about fifty. Today the NSS numbers more than 350."

On Apr. 19, 1995, the Alfred P. Murrah Federal Building in downtown Oklahoma City, was bombed by Timothy McVeigh and Terry Nichols, just two days after Bill Clinton formed a secret White House intelligence operation via Executive Order 12958. Such events gave the insiders justification to consolidate intelligence powers around the President, outside Congressional oversight, through a string of executive orders.

According to Ted L. Gunderson, FBI Special Agent In Charge (ret.), the alleged bomber, Timothy McVeigh, was a mind control soldier of the C.I.A.’s MKUltra program. He says the bomb maker was a C.I.A. Agent named Michael Riconosciuto. He said that a fertilizer bomb, as the official narrative alleges, did not have the power to create such devastation. Gunderson also discovered that the C.I.A.’s top MKUltra mind control expert, Dr. Jolly West, paid a secret visit to McVeigh before the trial. See Ted L. Gunderson’s timeline entry for May 12, 2005.

On Apr. 19, 1995, Alan G. Whicher, Clinton’s chief of security and former bodyguard, was killed in the Oklahoma City terror bombing.

On Jul. 12, 1995, Lotus sold to IBM. Lotus was the go-to communications and collaboration platform of the C.I.A. By the late 1990's, the government began to discover that Lotus Notes could not handle the large scale collaboration requirements of the Internet. That is when IBM advisor James P. Chandler met Michael McKibben and Leader Technologies who had invented what is now called 'social networking' in 2000. Chandler and IBM stole the invention through a cut out that they created named the IBM Eclipse Foundation on Nov. 29, 2001, David J. Kappos was IBM's chief inside intellectual property counsel. James P. Chandler was IBM's chief outside intellectual property counsel to Kappos and IBM, as well as the Clinton White House, Justice Department, C.I.A., NSA, FBI, Justice Department, Congress and the Judiciary. Chandler and Kappos were coordinating their intelligence efforts with Robert S. Mueller, James B. Comey, Jay J. Rosenstein and Andrew McCabe. [832]

On Aug. 14, 1995, Bill Clinton appointed Evan J. Wallach as Judge at the U.S. Court of International Trade. Wallach had been Senator Harry Reid's chief counsel (1986-1987). James P. Chandler was key consultant to this court and the Federal Circuit Court of Appeals on intellectual property, economic espionage and trade secrets law. Wallach was appointed by Barack Obama to the Federal Circuit on Nov. 18, 2011. Wallach was then assigned to the Leader v. Facebook panel having never heard a patent case previously.
82. **In 1995**. James W. Breyer became a director of RealNetworks. Breyer was also managing partners at Accel Partners LLP. He is a 1987 graduate of Harvard Business School, one of Facebook's largest investors, and its first chairman.

83. **Illegal Chinese donations to Clinton's Presidential re-election to buy influence**

**In 1996**. Chinese-American fundraiser Johnny Chung disclosed that he illegally funneled money from Chinese officials to Bill Clinton's 1996 election bid. He secretly filmed a tell-all video as an 'insurance policy' - because he feared being murdered by the Clinton machine. He smuggled it to trusted friends and family with instructions to release it to the media in the event of his untimely death because he believed he was at risk of being assassinated. Chung is believed still be alive and living in China. The video was obtained by author and historian Doug Wead for his new book Game of Thorns, which chronicles the Clintons' long-running operation to buy political influence in Washington, D.C. [611]
Setting up Congress for the Deep State shadow government takeover of the Internet in the name of counterterrorism

On Feb. 28, 1996, George Washington Law Professor James P. Chandler was acknowledged by FBI Director Louis J. Freeh as the key educator of Congressional committees on intellectual property matters related to terrorism. On Oct. 11, 1996, Chandler's drafts of the Economic Espionage Act and Federal Trade Secrets Act of 1996 were passed by Congress, unanimously. [021]
CRY OF THE INNOCENTS: 500,000 dead Iraqi children was "worth it." (So George Soros could hedge currencies)

On May 12, 1996 Madeleine J.K. Albright, Bill Clinton's Secretary of State, told interviewer Leslie Stahl on U.S. sanctions against Iraq:[515]

STAHL: "We have heard that a half million children have died. I mean, that's more children than died in Hiroshima. And, you know, is the price worth it?"

ALBRIGHT: "I think this is a very hard choice, but the price—we think the price is worth it."

The "we" includes Bill, Hillary Clinton and George Soros, harbingers of "The New World Order."
On Oct. 11, 1996, Congress passed three seminal laws, the Economic Espionage Act (incl. The Federal Trade Secrets Act) and the False Statements Accountability Act.

The Economic Espionage Act of 1996, 18 U.S. Code § 1831
The False Statements Accountability Act of 1996, 18 U.S.C § 1001

The Economic Espionage Act ("EEA") was drafted by James P. Chandler.[274] EEA was heavily promoted by Clinton's C.I.A. Director John M. Deutch. William ("Bill") A. Fenwick of Fenwick & West LLP assisted Chandler. Chandler would bring Fenwick in to perfect the theft of Leader Technologies invention on Aug. 20, 2001.[305]
On Oct. 11, 1996

The False Statements Accountability Act ("FSAA") was sponsored by a one-term freshman Senator William J. Martini (NJ) who later became a federal judge. It included a bizarre Subsection (b) that permits judges, attorneys and parties to lie to Congress, courts and agencies without liability. This law has been affirmed several times by 9th Circuit Judge Susan P. Graber, a Clinton appointee. In \textit{U.S. v. McNeil} she wrote: "Congress . . . chose to exempt from criminal liability certain kinds of lies to the federal government . . . Statements made in judicial proceedings are excluded from liability under the statute by subsection (b)." \textit{US v. McNeil}, 362 F. 3d 570 (9th Cir. 2004) at 574.

In \textit{U.S. v. Horvath} she wrote: "criminal liability does not attach to materially false statements submitted by a party to a judge in a judicial proceeding, even if the party makes the statements knowingly and willfully." \textit{US v. Horvath}, 492 F. 3d 1075 (9th Cir. 2007) at 1081.

James P. Chandler very likely played a central role in this unconscionable new 1996 FSAA provision—passed in the fog of the EEA—that permits lying to Congress, courts and administrative proceedings. Did Congress even read this law before approving it almost unanimously? Current presidential candidate John Kasich voted for it, as did John Boehner and Nancy Pelosi.
Senior Executive Service (SES) 1996

On Nov. 04, 1996 The "Plum Book" Policy and Supporting Positions was published by the U.S. Senate Committee on Homeland Security and Governmental Affairs. It disclosed 7,303 employees of the Senior Executive Services (SES).

The Senior Executive Service (SES) was created as Title IV in the Civil Rights Reform Act of 1978 under President Jimmy Carter.

The Act reformed the civil service of the federal government, partly in response to the Watergate scandal. It abolished the U.S. Civil Service Commission and distributed its functions primarily among four new agencies: the Office of Personnel Management (OPM), the Merit Systems Protection Board (MSPB), the Federal Labor Relations Authority (FLRA) and the Senior Executive Service (SES).

On Sep. 19, 1979, President Carter called SES "the keystone of the Civil Service Reform Act."[1018] Tellingly, Wikipedia describes it as an also-ran program. Also-ran or keystone? It cannot be both. President Carter's statement stands in stark contrast to the program's TOTAL lack of transparency and the public's total lack of awareness of its existence. Keystone for what? Hindsight provides the answer: racketeering, theft, obstruction of justice, conspiracy, fraud, treason and sedition.[1008] [1029]

89. **In 1997** Mark Malloch-Brown became chairman of the United Nations Secretary-General Task Force on Reform of UN Communications.[1287]
90. **From 1997 to Jan. 27, 2007**: Mark Malloch-Brown became a tenant of George Soros on his upstate New York estate, paying over $10,000 per month. [1287]

**On Feb. 12, 1997**: Randolph A. Graves, Jr. formed Eurotech, Ltd. to organize technology transfer with the former Soviet Union. [034] Graves was a NASA director and national security collaborator with Chandler and Freeze. Other Chandler-Freeze cronies who joined Eurotech were James D. Watkins, retired Secretary of the Navy, and Don V. Hahnfeldt, retired nuclear submarine commander. On Aug. 07, 2001, Chandler joined the Eurotech board with his CRYPTO.com company in tow that he had quickly formed earlier that year. On Dec. 30, 2001, Chandler received $1 million from a Venezuelan telecommunications and Internet company for prospective CRYPTO services that sounded identical to Leader Technologies' inventions. Chandler sold CRYPTO to Eurotech which was spun in and out of Cayman Island companies under various names including Markland Technologies, Woodward LLC, James LLC, Technest, AccelPath, EOIR Technologies, Eurotech SpA and currently The White Oak Group. Another iteration named Eurotech SpA was formed in Italy to promote Eclipse's *The Internet of Things* with IBM, Microsoft, Cisco, Intel and Wind River (embedded systems: routers, chips, operating systems).
On Jun. 14, 1997  Timothy John Berners-Lee (b. 1955 - ) was awarded an Order of the British Empire (OBE) "for services to the global computer networking."

Timothy is son of British mathematician and computer scientist Conway Berners-Lee (b. 1921 - ). Conway actually developed network architectures, unlike his son Timothy, who likely just appropriated his father's work into the C.I.A. - created CERN facility in Switzerland. For son Timothy John Berners-Lee to receive an OBE at 42-yrs. old, when the world wide web was still in its infancy, is telling of an inside job by the Queen's Privy Council, the IBM Internet of Things (Feb. 12, 1997) organized by the fascist Highlands Group (ca. Feb. 1995) and the dubious FBI- Carnegie Endowment backdoor encryption conference on Jun. 07, 1993.

Hindsight reveals that Berners-Lee has been tightly associated with the globalist Deep State. For example, he was knighted on Dec. 31, 2003. He became a distinguished fellow of the British Computer Society (1996 - Lord Louis Mountbatten (Privy Counselor) was President of BCS from 1966-1967), an organization intimately connected to Sir Geoffrey E. Pattie, the Intellectual Property Institute (UK) and SERCO. In 1997, Berners-Lee was awarded the Order of the British Empire (OBE). This was when Lord Mark Malloch-Brown (Privy Counselor) was World Bank, External Affairs, United Nations Affairs. In 1998, Berners-Lee was awarded the Mountbatten Medal - a globalist activist. In 2010, he was awarded UNESCO's Niels Bohr award. Berners Lee received honorary degrees from numerous globalist universities, including Columbia (2001), Oxford (2001), Harvard (2011) and Yale (2014).

On Jun. 23, 1997  Michael T. McKibben founded Leader Technologies LLC, later Leader Technologies, Inc. in Columbus, Ohio to pursue his vision for better collaboration software for the emerging Internet. The resulting inventions have become known as "social networking."
On Oct. 23, 1997, Bill & Hillary Clinton incorporated the William J. Clinton Foundation in Arkansas, File No. 100152168. Since its inception, the foundation has operated and/or continues to operate under at least 30 "Fictitious Names" (Arkansas Secretary of State) including the names listed below.

Note: Most news biographies state that Bill Clinton formed his foundation after he left the presidency in 2001. However, the Arkansas Secretary of State public records cited here show the news reports to be uniformly in error.

The Foundation does not provide a 1997 IRS Form 990 charity financial report. The first report disclosing $3,050,000 in donations is for 1998, EIN 31-1580204. It has blanked out the names of the Contributor Names on page 16.

The Foundation name was changed to Bill, Hillary & Chelsea Clinton Foundation on Apr. 07, 2013.

Williams & Connolly LLP was paid $88,200 in legal fees in 1998. Scandalously, the firm also represented the State Department in stonewalling discovery requests for Hillary Clinton emails related to The Clinton Foundation. See Aug. 23, 2015.
During 1998, Russian Yuri Milner and Bank Menatep diverted $4.8 billion IMF funds and laundered $10 billion in Russian organized crime funds.

Milner's partner during their Facebook "pump and dump" investing phase Russian oligarch Alisher Usmanov, now dubbed "The Richest Man in Russia" and a close Putin ally.

Harvard's Larry Summers and his disastrous Russian voucher system, promoted while he was chief economist at the World Bank, must take much of the blame for rise of the uber-corrupt Russian oligarch.

Why? Because on paper the voucher system sounded reasonable: sell stock (vouchers) in the Soviet state companies to the private market. The problem was the average citizens only held Russian Rubles which were worthless. The only people in Russia holding Western currency to purchase Summers' vouchers were purchased by the only two groups in the collapsing Soviet Union with hard currency: corrupt Communist officials and Soviet organized crime.

Yuri Milner and Alisher Usmanov are Larry Summers creations. Pundits believe Summers tapped this connection as the Deep State plans to pump Facebook's pre-IPO valuation to $100 billion took shape starting in about 2006-2007. By 2008, Milner, Goldman Sachs (Lloyd Blankfein) and Morgan Stanley were maneuvering personnel into place in London and Dubai to process the more than $33 billion that bailout director Larry Summers would manage for newly-elected President Barack Obama. See 1991-1993 above.
KOSOVO HOAX WAR: Bill Clinton, George Soros, neocons, globalists, UN, EU, rogue C.I.A., NATO supported Islamist KLA over Christian Serbs to establish jihadi foothold in Europe

Mar. 5, 1998—Jul. 11, 1999. The Kosovo War was fought between the Federal Republic of Yugoslavia (largely Serbia Orthodox Christians) and the so-called Kosovo Liberation Army (KLA). The KLA was supported by Islamist foreign volunteers from Albania, Turkey, North Africa, Yemen, Saudi Arabia, Afghanistan and Egypt. The KLA was funded by Islamist organizations and drug smuggling.

There have been many reports of abuses and war crimes committed by the KLA during and after the conflict, such as massacres of civilians, prison camps, and destruction of medieval churches and monuments. However, the mainstream media focused its (now familiar) fake news blaming the Serbian Army for atrocities that were committed by the KLA.

The Medieval St. Mark’s Monastery, near Korisa, Prizren, built in 1467, looted, set on fire and totally destroyed by Islamist Kosovo Liberation Army (KLA) explosives, July 1999, one month after the rogue C.I.A. UN, NATO (KFOR) took over Kosovo. There have been no arrests. Lord have mercy.

In total, 155 Serbian Orthodox Christian churches and monasteries were destroyed. Despite the confirmed reports of KLA atrocities, Congressman Dana Rohrabacher (R-CA) was the first member of Congress to advocate arming the Islamist KLA. He compared US funding to France funding American Revolutionaries. Tellingly Rohrbacher was Chairman of the Subcommittee on Space and Aeronautics from 1997 to January 2005 that funded the National Laboratories - the heart of the U.S. military-industrial complex.

A report prepared under C.I.A. Director George J. Tenet and summarized by him in testimony to the Senate Armed Services Committee on February 2, 1999 referred to the Serb "massacre at Račak." This alleged massacre became the pretext for NATO intervention against Serbia. However, an AIM REPORT (Accuracy in Media) has exposed the alleged Račak massacre as a HOAX. It never happened. The alleged photos of the massacre were staged.

C.I.A. Director George J. Tenet told the Senate: "Moreover, funds pouring into KLA coffers from the Albanian Diaspora* have increased sharply following the massacre at..."
People you trusted are now hijacking the Internet

Račak [later proven to be a hoax in the AIM REPORT, Apr. A, 2000]. Hindsight is 20-20: The C.I.A. Director Tenet is clearly carrying the agenda of globalist forces intent on upsetting the Christian-Islamic balance of power in that tumultuous region in preparation for the immigration waves planned later by the destabilization of Syria, Iraq and Afghanistan.

*These funds are more likely coming from George Soros and his globalist (one world government) Open Society Foundations. Albania's population is under three million people—the size of Chicago. Albania is the size of Massachusetts. Albanians in "diaspora" are not wealthy on the whole. Therefore, Tenet's comments evidently rely on the ignorance of the Senators about Albania's demographics—making his assertions not credible with any thought or questioning at all.

Remarkably, the US, C.I.A., UN and NATO all joined the fight in support of the Islamist KLA against the largely Orthodox Christian Serbs in rapid succession between Jun. 9 and Sep. 24, 1998. The orchestration of this globalist collusion is evident. [666] [667] [668]
On Aug. 06, 1998. Hewlett-Packard engineer Richard C. Walker incorporated Kline & Walker, LLC in Delaware Co. No. #2930501 which appears to have had only one purpose: to be the assignee for his eventual patent: Richard C. Walker. (Nov. 15, 2005). U.S. Pat. No. 6,965,816. PFN/TRAC SYSTEM FAA UPGRADES FOR ACCOUNTABLE REMOTE AND ROBOTICS CONTROL TO STOP THE UNAUTHORIZED USE OF AIRCRAFT AND TO IMPROVE EQUIPMENT MANAGEMENT AND PUBLIC SAFETY IN TRANSPORTATION. USPTO.[916][935]

Walker has assigned this patent to Assignees and Agents Agilent Technologies, Inc., Avago Technologies, Ltd., Deutsche Bank AG New York Branch, Bank of America, N.A., Latham & Watkins LLP.[940] Latham & Watkins LLP is James W. Breyer's long time attorney. Breyer was chairman of the National Venture Capital Association (NVCA) in 2004 along with the C.I.A. In-Q-Tel and also chairman of Facebook at the same time.

Wilmer Hale LLP attorney Irah H. Donner is Walker's patent attorney on this family of patents and patent applications.

On Aug. 18, 1998. Entrust Technologies, Inc. went public having been started as a spin-off of Nortel Networks (Canada) to manage and distribute Public Key Infrastructure (PKI) certificate authorities—the encryption keys for the Internet.[1360]

In Nov. 2000, James P. Chandler, Leader Technologies’ patent attorney turned patent thief, compiled a Department of Justice guideline titled "PROSECUTING INTELLECTUAL PROPERTY CLAIMS." This guideline appears to be the playbook these swamp rats are using to try and take down President Donald J. Trump. While Chandler's name doesn't appear on the document per se, his trade secrets, economic espionage and intellectual property handiwork is notoriously known to Beltway intelligence, legal and political insiders. Search "chandler" in this timeline for a multitude of verifications.

This remarkable document places a number of Washington, D.C. lawyers together at the beginning of the Clinton Administration in the mid 1990's. These same people are currently prominent in the Trump-Russia witch hunt, along with their Deep State partners in the mainstream media, DNC and RNC with whom they collude.

Chandler's collaborators in these 2000 guidelines included Robert S. Mueller, III and Eric H. Holder, Jr. who were then U.S. Attorney and Assistant Attorney General respectively. Their boss was Clinton Attorney General Janet Reno of Waco infamey. They hired Paul Mogin of Williams & Connolly LLP to prosecute their first case under Clinton's and Chandler's freshly minted Economic Espionage Act of 1996, U.S. v. Hsu (this links to the in-depth AFI Timeline for Aug. 28, 1998; please be patient while it downloads).

Discussion of the Hsu case features prominently (27 references to it) in the Chandler-Mueller-Holder-Reno-Clinton document. Insiders say Chandler boasted inside the Beltway about Hsu since it was the first successful conviction under his new trade secrets laws.

Tellingly, four of the Clinton's former Arkansas bodyguards (C. LeBleu, T. McKeaham, R. Williams, S. Willis) were shot in the head, execution style, at Janet Reno's Waco attack. And, Williams & Connolly LLP is the law firm hired by Barack Obama's State Department who stonewalled Congress during Hillary Clinton's private email server testimony as well as Lois Lerner's IRS stonewalling about the political targeting of the Tea Party.
101. Mogin, Duval, Kendall and Williams & Connolly LLP swirl at the center of epic discovery stonewalling in 2013-2016 by representing both Hillary Clinton as well as the State Department and the IRS in refusing to turn over emails and documents subpoenaed by Congress, and requested by Judicial Watch and Citizens United in Freedom of Information Act (FOIA) requests. The IRS executive Lois Lerner who targeted conservative groups for harassment, lied to Congress numerous times, then pled the Fifth. IRS Commissioner John Koskinen, a fellow Clinton Yale graduate, is in impeachment hearings in 2016 for his role in the IRS/Lerner lies and cover-up.

A Clinton Foundation IRS Form 990 annual financial disclosure for 1998 provided the proof regarding Williams & Connolly’s duplicity on page 7.

On Dec. 11, 1998, inventor Richard C. Walker filed an international patent application WO 98/24664 titled 'Secure Communication and Control System for Monitoring, Recording, Reporting and/or Restricting Unauthorized Use of Vehicle.' This patent application began a string of patents that Walker filed on behalf the military-industrial complex [we think The Highlands Group] as the system to be used by the rogue C.I.A. to take over global communications. [875] [916] [935]

Wilmer & Hale LLP attorney Irah H. Donner represents Walker in this entire family of patents.
George Soros stated in a CBS 60 Minutes interview with Steve Kroft that when he was a 14-year-old boy in Nazi-occupied Hungary originally named György Schwartz, he had assisted in confiscating property from Jews, and that he said he had no guilt over it as a Jew. Some fellow Jews today call his gains immoral "blood money." Soros' fellow WWII-era Hungarian Jewish immigrant actors in this story include John P. Breyer (original name unknown), founder of Computer World and now director of IDG-Accel Capital Partners (China), and Andy Grove, CEO of Intel (originally Andráš Grőf). The involvement of these people is certainly not coincidental. Grove's Intel was an early member of IBM's Eclipse Foundation and participates substantial in the development of embedded technologies with spy-state backdoors.

Steve Kroft. (Dec. 20, 1998). 60 Minutes George Soros interview. CBS.

Breyer's son, James W. Breyer, is chairman of Accel Partners LLP, former chairman of Facebook, and Facebook's 2nd largest shareholder. Breyer became chairman of the National Venture Capital Association (NVCA) on May 13, 2004, just as the confiscation of Leader Technologies' invention by IBM's Eclipse Foundation was gaining steam.

Of note is the consistency of Christian names like John, James, Andrew and George among this deceptive group of actors.

People you trusted are now hijacking the Internet

Partners (China) and IDG-Accel (China) and has been secretly coaching his son James at Accel Partners LLP ever since. Pundits believe that John Breyer, along with his fellow Hungarian refugees, George Soros and Andy Grove, has been patiently steering the global technology world toward their New World Order agenda. They have evidently chosen to drive this bus from China. Hence James' exclamation that he is "Super bullish on China."

1999

105. From 1999 to current. (Lord) Mark Malloch-Brown founded and became honorary president of the London International Model United Nations (LIMUN)

106. On Mar. 09, 1999. Vice President Albert Arnold "Al" Gore, Jr. told CNN's Wolf Blitzer:

GORE: "I took the initiative in creating the Internet."

Hindsight shows that this may have been a Freudian slip since Gore was in on the planning of the Deep State shadow government's plan for a rogue element within the C.I.A. to take over the Internet. Since Clinton came to power in 1993, this global surveillance grid was not accountable to Congress and thus was outside U.S. Constitutional checks and balances.

107. Independent Counsel law lapsed

On Jun. 30, 1999. Congress allowed the 40-year Independent Counsel statutes to lapse. [997] [998] [999]

109. **Janet Reno ordered Office of Special Counsel procedure (not a law) by fiat**

**On Jul. 01, 1999**, Attorney General Janet W. Reno implemented a new Office of Special Counsel within the Justice Department as a new administrative procedure (not a law) without allowing any customary prior public notice, comment or conducting hearings.[997] [998] [999]

The following administration insiders were involved in the drafting of this procedure (not a law): [To be added].

110. **On Jul. 02, 1999**, Lawrence "Larry" H. Summers was appointed by Bill Clinton as U.S. Secretary of the Treasury.

111. **Jul. 03, 1999 - Jan. 20, 2001**, Sheryl K. Sandberg served as Larry Summers' Chief of Staff as Treasury Secretary.

112. **On Jul. 11, 1999**, the Kosovo War stopped. The peace plan was swamped with globalist bureaucrats who were gloating over their hoax war to destabilize the former Serbian Orthodox Christian majority in favor of radical Islamists KLA (Kosovo Liberation Army) fighter minority, including many mercenaries from Yemen, Syria, Saudi Arabia and Iraq, funded by George Soros and proponents of the "new world order." See Kosovo War Mar. 05, 1998 timeline entry.
On Jul. 14, 1999, Bill Clinton issued Executive Order 13130 that formed the National Infrastructure Assurance Council (NIAC). The stated goal was to coordinate "effort by both government and private sector entities to address threats to our Nation's critical infrastructure." Hindsight shows that NIAC was the beginning of a private spy agency for the Executive Branch, NSA, and cronies, banks, judges, bureaucrats, politicians, lawyers and nerds. Massive amounts of bulk personal data were collected illegally and used privately among these players for bribery, coercion, blackmail, advertising, and voter manipulation, we believe. Case in point is the consistently exorbitant speaking fees ($117 million) and Clinton Foundation donations ($152+ million) that Bill and Hillary Clinton have been able to garner between 2001 and 2016. The likely drafter of this order, James P. Chandler, III, was later appointed to serve as a member of the NIAC, on the last day of Bill Clinton's presidency, Jan. 18, 2001.

Encryption key scam began this day organized by Clinton's rogue globalists at the C.I.A., NSA, FBI, DoD—A Day That Will Live In Infamy

On Sep. 16, 1999, President Bill Clinton announced an entirely new (underhanded, criminal, Deep State shadow government, Senior Executive Services (SES)) approach to export of encryption hardware, software and firmware. Tellingly, White House press secretary Joe P. Lockhart made the announcement. Lockhart was appointed Facebook vice president of communications on Jun. 14, 2011. This press release and supporting White House briefing documents, including President Clinton's letter to Congress, were evidently written by chief Clinton outside intellectual property and national security legal advisor, James P. Chandler, III. Chandler had earlier written Clinton's Economic Espionage Act and Federal Secrets Act of 1996 which passed on Oct. 11, 1996. Within a four months of this press release, in early Jan. 2000, Chandler agreed to be social networking inventor Leader Technologies, Inc.'s patent attorney. Export was allowed after a "one-time technical review" [this is a joke as a serious technology vetting standard] that was totally devoid of teeth. America's technology borders were essentially opened to all commercial and state actors foreign and domestic.
Clinton C.I.A. institutionalized crony capitalism & the digital take over of America by a Shadow Government, on this day

On Sep. 29, 1999, the Central Intelligence Agency (C.I.A.) formed In-Q-Tel and hired its first CEO, Gilman Louie. See the book: In-Q-Tel: A New Partnership Between the CIA and the Private Sector.

THE BIG LIE: "The origins of the concept that has become In-Q-Tel are traceable to Dr. Ruth David, a former CIA Deputy Director for Science and Technology [she was appointed by President Obama as a member of the National Science Board and National Science Foundation in 2012]. She and her Deputy, Joan Isham, were the first senior Agency officials to understand that the information revolution required the CIA to forge new partnerships with the private sector and design a proposal for radical change. The timing of the proposal was fortuitous. The Director of Central Intelligence (DCI), George Tenet, had just launched his Strategic Direction initiative that included technology as one of its areas for review. The study made a direct link between the Agency’s future technology investments and improving its information gathering and analysis capabilities."[536]

No one appears to have challenged the constitutionality of the C.I.A. owning a private American company on U.S. soil. Despite President Eisenhower’s dire warning about the amassing of unchecked power, the entire military-industrial complex lined up behind

President Dwight D. Eisenhower's warning about the rise of this military-industrial complex
C.I.A. In-Q-Tel and supported a fundamental breach of U.S. law that forbids the C.I.A. from operating inside the United States.

116. **On Oct. 01, 1999** Blackrock went public as a spinoff of PNC bank. Blackrock is called the world's largest shadow bank with inseparable ties to the rogue C.I.A. through its chairman Thomas E. Donilon, and is the world's largest bank. The abolishment of Glass-Steagall just a month later enabled Blackrock to make its dubious markets in ill-fated mortgage-backed securities. In 2006, Merrill-Lynch was merged into Blackrock.

Thomas E. Donilon, chair of Blackrock, was National Security Advisor under Barack Obama where he co-chaired the Commission on Enhancing National Cybersecurity. Donilon chaired the Obama-Biden transition at the U.S. State Department in preparation for Hillary Clinton to become Secretary of State on Jan. 22, 2009. He is a member of the Council on Foreign Relations and an advisor to the Central Intelligence Agency.[950]

**On Nov. 12, 1999** Larry Summers was instrumental in the repeal of the Glass-Steagall Act— the Gramm-Leach-Bliley Act of 1999. Gramm-Leach removed the affiliation restrictions between banks and securities firms. Glass-Steagall was enacted on Sep. 4, 1929 in the aftermath of the stock market crash that resulted in the Great Depression. Stock brokers in the 1920's had been speculating wildly with the everyday banking activity of average Americans. After Gramm-Leach, Citibank became Citigroup, one of Facebook's later underwriters. Pundits believe the abolishment of the Glass-Steagall checks and balances to fraud and greed caused the 2008 banking meltdown and the "too big to fail" banks to actually fail.

The resulting $2.1 billion IPO of Agilent stock was the largest in the history of Silicon Valley at the time. HP engineer was assigned to Agilent to pursue the development of the embedded systems needed in "The Internet of Things" patent for a global surveillance system that Walker was working on [we believe for the Highlands Group] that eventually became U.S. Pat. **In early Jan. 2000**, according to Leader Technologies’ chairman, CEO and lead inventor, Michael T. McKibben, he met attorney James P. Chandler, III for the first time for an extended introductory meeting at the Taberna del Alabardero restaurant near The Chandler Law Firm Chartered's law offices on Pennsylvania Avenue near the White House. Gen. James E. Freeze (US Army, ret.), the man who had introduced Leader to Chandler, also attended the lengthy meeting. Chandler's legal assistant Kelley Clements (Keller) also attended as did Leader's then inside legal counsel who Chandler loathed on the outside, but appears to have conspired with to destabilize the company once Chandler received a custody copy of its engineering innovations on Jun. 05, 2002. Out of that meeting where McKibben introduced Leader's innovations to Chandler under preengagement attorney-client confidentiality, Chandler agreed on the spot to become a Leader director.
On Apr. 6, 2000 and May 5, 2000

Leader engaged the legal and director services of Professor James P. Chandler, The Chandler Law Firm Chartered (Washington, D.C.) ("Chandler"). The introduction to Chandler was made by Maj. Gen. James E. Freeze, former #3 at the NSA.

On Aug. 28, 2001

Leader engaged the additional legal services of Fenwick & West, LLP (William A Fenwick, Gordon K. Davidson, Palo Alto, CA) ("Fenwick") at Chandler’s recommendation, introduction and facilitation. Chandler filed multiple patents, copyrights and trademarks for Leader. Fenwick advised on securities, corporate law, funding and intellectual property.[017] Fenwick even made formal tribunal appearances as Leader’s counsel.[018]

On Jun. 08, 2000

Chandler participated in seminal Leader invention design sessions in Columbus, Ohio where he learned the essences of Leader’s social networking innovations, ostensibly to use this knowledge in Leader patent applications.[019]

For most of the Leader innovation development period between about 1998 and 2004, Leader had retained the legal counsel of Chandler and Fenwick. Leader invested approximately $10 million and 145,000 man-hours in research and development during that time.[020] Chandler and Fenwick were charged with protecting Leader’s valuable innovations.
On Jun. 20, 2000, Sir Geoffrey E. Pattie, Queen's Privy Council for intelligence, received a Silver Star Award from The ISSA Awards, International Strategic Studies Association (ISSA) at the Strategy2000 banquet in Washington D.C., June 20, 2000. Such awards ceremonies and banquets are evident excuses to gather their Deep State shadow government rogue intelligence operatives without any of the government officials in the Queen's Privy Council, Five Eyes (US, UK, Canada, New Zealand and Australia), Crown Agents, Lockheed Martin Limited, AWE Management Limited, SCL Management Limited and SERCO having to disclose their conflicts of interest in meeting together at these gatherings.[1190]

On Aug. 25, 2000, F. Gary Davis, Acting Director of the U.S. Office of Government Ethics, issued a tortured 13-page "advisory" that dramatically muddied the waters on mutual fund investing disclosure (Doc. No. ooX8).[022] Davis left government service soon thereafter.
Michael V. Hayden initiated the Trailblazer Project on or about Oct. 01, 2000. It was a National Security Agency (NSA) program intended to develop a capability to analyze data carried on communications networks like the Internet. It was intended to track entities using communication methods such as cell phones and e-mail. James P. Chandler, III was an advocate of Trailblazer for President Bill Clinton.

On or about Oct. 01, 2000, NSA director Michael Hayden initiated the Trailblazer Project. It was a National Security Agency (NSA) program intended to develop a capability to analyze data carried on communications networks like the Internet. It was intended to track entities using communication methods such as cell phones and e-mail. James P. Chandler, III was an advocate of Trailblazer for President Bill Clinton.

BETRAYED:

Meet the people who fundamentally betrayed the Constitution and conspired to spy on Americans without warrants

Numerous NSA whistleblowers including J. Kirk Wiebe, William Binney, Tom Drake, Ed Loomis, and House Permanent Select Committee on Intelligence staffer Diane Roark complained to the Department of Defense's Inspector General (IG) about waste, fraud, and abuse in the program, and the fact that a successful operating prototype existed (ThinThread), but was ignored when the Trailblazer program was launched.

The ThinThread budget was $19.5 million, whereas Hayden's Trailblazer budget was $4 billion. Hayden went for $4 billion. Binney contends Americans are less safe with the $4 billion spend because more bulk data makes catching bad guys harder, not easier, as compared to his targeted ThinThread program. His ThinThread successor, Tom Drake, was subsequently indicted in April 2010 under the Espionage Act on trumped up charges to silence his criticism of the illegal NSA programs. Clearly, these conspirators only used "national security" as the smokescreen for their greed and power-mongering.

According to William Binney, General Hayden, Vice President Dick Cheney, CIA Director George Tenet, and President Bush later used 9/11 as the excuse to start collecting all data from all American citizens through the Trailblazer program initiated under President Bill Clinton. So, Hillary Clinton presumably knew about Trailblazer as well. President George W. Bush approved the program in secret (illegally), without contract authorization, in cooperation with AT&T (Project Stellar Wind), and without approval from the FISA Court. Only two other people knew: the chair and ranking member of the House Intelligence Committee at the time Porter Goss (R-Fla.) and
Nancy Pelosi (D-Calif.). However, even before Binney whistle blew on them, they had already signed off on the illegality.

The NSA created three separate sections to accomplish the warrantless surveillance of Americans: (1) the Metadata Analysis Center (MAC), (2) the Email Analysis Center (EAC) and (3) the Content Analysis Center (CAC) groups, in their new, "rogue" (Binney) Advanced Analytics Division (AAD).[487]

QUESTIONER—JIM GILMORE (PBS FRONTLINE INTERVIEW): "So you retire. Why do you retire?"
[Binney retired/resigned on Oct. 31, 2001]

ANSWER—BINNEY: "Well, I couldn't be an accessory to the violation of the constitutional rights of everybody in the country. I couldn't be an accessory to that, or an accessory to other crimes being committed, like exposing all this data to the FBI. It was acquired without a warrant, you know. And this is the kind of data that they would use to arrest people, which they did. So I couldn't be a party to that. That's just a total violation of our justice process."

On Oct. 01, 2000 investigative journalist Alex Jones released his documentary film *Dark Secrets: Inside Bohemian Grove* (Oct. 01, 2000). Since 1873, the world's rich and powerful have held secret meetings in the ancient redwood forest of Northern California. Members of this so-called "Bohemian Club" include current and former Presidents Eisenhower, Nixon, Reagan and Clinton. The Bush Family maintains a strong involvement. Each year at Bohemian Grove, members of formerly all male "club" don red, black and silver robes and enact an occult ritual in front of a giant stone owl.

They sacrifice a human being in effigy to what they call the "Great Owl of Bohemia." For the first time in history, an outsider (Alex Jones) infiltrated Bohemian Grove and captured the ritual on video on Jul. 15, 2000, as printed on a member's program obtained by Jones titled "Cremation of Care."

This Bohemian Grove "Cremation of Care" cultic rite borrows worship elements from ancient Druidic rites of human and animal sacrifice, the Tyre-Babylonian-Canaanite Cult of Molech or Baal (associated with child sacrifice; mentioned in numerous Biblical passages) and Scottish Masonic rites.

Subsequent encounters with various Bohemian Grove attendees, including Newt Gingrich, Bill Clinton and Richard Nixon reveal power brokers who either found the proceedings "the most faggy god damn thing" (Nixon), admitted their membership and became angry at being exposed (Gergen), denied membership (lied) and mocked the questioner (Clinton), or were evasive (Gingrich; Bill Richardson, former NM governor, Clinton Energy Secretary and UN Ambassador, Obama Commerce Secretary). Nevertheless Bohemian Grove members hide many secrets from the American people.

Bill Clinton's White House counselor and current CNN political commentator David Gergen resigned from Bohemian Club on Jun. 11, 1993 before coming to the White House. It is unknown when he joined the Bohemian Club. Gergen served in both Republican and Democrat Administrations:

130. **In Dec. 2000**, Mark Malloch-Brown authored the UN Millennium Summit, Millennium Development Goals.[1287]

131. **On Dec. 27, 2000** Chandler initiated conversation between Leader and Lawrence Livermore National Laboratory ("LLNL") regarding defense, energy and homeland security applications of Leader’s inventions.[1287]

**2001**

132. **On Jan. 18, 2001** Bill Clinton appointed James P. Chandler and Bill Gates (Microsoft) to the National Infrastructure Assurance Council ("NIAC").[024] Hindsight reveals this council directed the creation via a string of self-serving executive orders of a secret White House intelligence agency for the exploitation of the privacy and property of the American public without any Congressional or normal judicial oversight. This agency appears to be the source of the blackmail and coercion dirt used to "convince" individuals and organizations around the planet to sponsor Bill and Hillary Clinton for pay-for-play speaking engagements. The perennial excuse for this activity has been "national security." But greed and lust for power and control evidently under gird the rationalizations and incessant stonewalling that has occurred subsequently.
On Jan. 19, 2001, Bill Clinton pardoned John M. Deutch, former C.I.A. Director (May 09, 1995 to Dec. 15, 1996), for storing classified materials documents on his home computer. Deutch's future daughter-in-law, Marne a.k.a. Marnie L. Levine (married venture banker Philip J. Deutch Jun. 22, 2003), has worked for Lawrence "Larry" Summers four times: (1) 1993-2001 when he was Treasury Secretary, (2) 2002-2004 when he was Harvard President, (3) 2009-2010 when he directed the 2008 bank bailout at the National Economic Council, and (4) 2014-current as chief operating officer of Instagram where Summers is a director.

On Jan. 20, 2001, outgoing President Bill Clinton pardoned Marc Rich. A New York Times editorial called the pardon, "a shocking abuse of presidential power." Rich was on the FBI's most wanted list for illegal commodities trading with countries like North Korea, Iran, Cuba and the Soviet Union. He fled to Switzerland in 1983 to avoid conviction in America. Leading up to the pardon, Rich's wife Denise Rich donated $450,000 to the The Clinton Library Foundation (part of The Clinton Foundation empire of 30 aliases - See Oct. 23, 1997) and forked over $1 million to Democratic campaigns. Rich died in 2013, and critics say the Clinton's are still benefiting from the pardon.

136. **In 2001** NSA Director Michael V. Hayden recommended expansion of the NSA's Senior Executive Service (SES) programs. For one, NSA created a 'pool' of GS-15 employees who were candidates for appointment to the DISES (Defense Intelligence Senior Executive Service (managers)) and DISL corps Defense Intelligence Senior Level (technical leaders)). Why? As explained in DIRgram-350, Director Hayden became convinced in 2001 that NSA was understaffed with senior executives, given the increased hiring at the Agency and the demands of the GWOT (Global War on Terrorism). He therefore decided to appoint more seniors, up to the maximum number allowed by the DoD. When this level was reached in October, 2004—and the Agency was not authorized to appoint any more seniors—so Hayden announced his intention to work with DoD to raise that level to allow additional seniors to be named.[1019]

137. **On Jan. 20, 2001** Sheryl K. Sandberg joined Google as VP of Global Online Sales and Operations while her Harvard shadow, Marne L. Levine became Summers' Harvard University chief of staff. Sandberg and Levine are clearly Summers' "girls." So much for Sandberg's advocacy of independent womanhood.[292]

Douglas J. Band created the Clinton Global Initiative (CGI, later renamed The Clinton Foundation) and became its chief executive officer.[463]

138. **On Feb. 05, 2001** Bill Clinton was paid a $125,000 speaking fee by Morgan Stanley in New York, subsequently a member of the IBM Eclipse Foundation and Facebook underwriter.[317]

139. **On Feb. 15, 2001** Chandler filed for a CRYPTO.COM trademark in Class 38.[025]
FBI Public Corruption Investigation of Bill Clinton, Marc Rich, anonymous Democrat donor was *improperly handled* by Eric H. Holder, Obama's Attorney General eight years later and a Chandler advisor—Too bad to jail?

On Feb. 15, 2001, the FBI requested a Public Corruption investigation into former President Bill Clinton's pardon of fugitive Marc Rich, his partner Pincus Green and a redacted donor to the Democratic Party. According to the request "none of the regular procedures were followed" as precursors to the pardons. ("DOJ rules and regulations governing the issuance of pardons requires that the pardon attorney at the DOJ receive a formal pardon application to commence a pardon investigation. That investigation would include contact with the respective U.S. Attorney's office and investigative agencies. Based upon the findings of that investigation, a recommendation is made by the pardon attorney to the White House for the President's review and consideration.") Former Deputy Attorney General Eric Holder testified that he was "the only person at DOJ notified of the pardon sought by Rich. Holder was contacted directly by Jack Quinn, Marc Rich's attorney, and former White House Counsel,"[570]

Eric H. Holder was confirmed by the Senate as Barack Obama's choice for Attorney General on Mar. 27, 2009.

David J. Kappos was appointed Patent Office Director on Aug. 07, 2009.
141. **On Feb. 19, 2001**, Bill Clinton was paid a $125,000 speaking fee by Oracle in Redwood Shores, CA, subsequently a member of the IBM Eclipse Foundation.[317]

142. **On Feb. 19, 2001**, Bill Clinton was paid a $125,000 speaking fee by Credit Suisse in New York, subsequently a member of the IBM Eclipse Foundation and Facebook underwriter. Credit Suisse has donated up to $250,000 to The Clinton Foundation[320] [317]

143. **On Mar. 01, 2001** Chandler filed trademark applications for Leader in the same class as CRYPTO.COM.[926] No conflicts of interest waiver was sought.
Mar. 14, 2001, Judicial Conference: The "safe harbor" mutual fund Washington bribery scam for judges and politicians began; permits judges to hide stock in litigants without disclosing the holdings or the conflicts of interest.

On Mar. 14, 2001, the Judicial Conference made sweeping changes to its ethics advisory,[027] opening the door for widespread abuse of mutual fund exemptions that gave judges and judicial employees an excuse to hide their investments in deep-pocketed litigants behind a so-called mutual fund "safe harbor" opinion. Chandler's influence in these changes is confirmed by Washington, D.C. sources. [028] Jan Horbaly, Clerk of Court and Executive, Federal Circuit, was a key participant in these mutual fund reporting exemption changes exploited by the Federal Circuit panels in Leader v. Facebook, where Horbaly was the Clerk, yet failed to disclose his conflicts of interest with Chandler. Horbaly resigned shortly after the Leader v. Facebook decision. Delaware district court judge Sue L. Robinson, then chief judge, also participated in this self-serving recast of the reporting rules.

This hiding of personal investments by U.S. officials likely included a plethora of offshore tax havens exposed by the HSBC leaks in 2015. Sub.

On Mar. 21, 2001, Chandler and McKibben met with Battelle Memorial Institute[029] and presented a plan to implement Leader's invention at Harvard University with IBM's prospective involvement. Those ideas were discussed almost three years before Facebook launched on Feb. 4, 2004. Subsequent events show that Battelle, Chandler, Fenwick and IBM took the ideas to Harvard on their own. The Livermore Labs executive involved with Chandler was Jeffrey Wadsworth, who then moved to Battelle, magically. Michael McKibben, confidentially presented a "Leader University Initiative" proposal to Chandler and Battelle. The idea was to reach out to IBM and Harvard as a first implementation of Leader's invention. This initiative was stolen by IBM / The Eclipse Foundation / James W. Breyer (Accel Partners LLP) and renamed "Facebook" within two years.[205]

On Mar. 28, 2001 (one week later), Chandler sponsored a trade secrets conference advised by then Assistant Attorney General, Eric H. Holder, and then IBM chief intellectual property counsel, David J. Kappos.[030]
On May 17, 2001, former NSA analyst and Africa specialist, Wayne Madsen, told a Congressional Hearing that the tragic slaughter of one million Rwandans in 1994 was not based on Hutu-Tutsi tribal hatred gone wild. That was the widely reported narrative that was reinforced by many globalists, including Presidents Clinton, Bush, Obama, many in Congress, Wikipedia and the Hollywood film Hotel Rwanda. Hindsight shows that the "Rwandan genocide" was a pretext for globalists to secure gold and rare earth mineral mines in Central Africa that were vital to the U.S. defense industry and Silicon Valley manufacturing of computers, mobile phones, TVs, surveillance devices, satellites and microelectronics. It is also evident that the murder of one million Rwandans served their eugenic depopulation priorities as well.[662]

C.I.A. whistleblower proved "9/11 was an Inside Job" using "controlled demolition" as a pretext for war with Iraq despite peace breaking out

CIA. April 15, 2001  C.I.A. whistleblower Susan Lindauer warned American senior leadership that "I first learned of the 9/11 Conspiracy from my CIA handler, Dr. Richard Fuisz, in mid-April, 2001." Lindauer Affidavit, Tr. 3:22-24.

Lindauer testified: "Throughout the summer of 2001, we were convinced the Twin Towers would be demolished, using a combination of explosives with the airplanes." Tr. 6:8-10.

"I made one fatal mistake. I requested to testify through proper channels ... I should have known better than to trust Congress. Thirty days after I phoned the Offices of John McCain and Senator Trent Lott, I woke to find the FBI pounding on my front door. At that point, I gained a new distinction as the second non-Arab American arrested on the Patriot Act, facing secret charges, secret evidence and secret grand jury testimony. I was held under indictment for five years without a Trial—and thrown in prison on Carswell Air Force Base in Texas for a year, without a hearing." Tr. 18:4-5; 17-25.

C.I.A. Whistleblower Susan Lindauer: "To Washington's greatest shame, the Patriot Act, which Congress proclaimed a key judicial weapon to break up terrorism in the United States, was first used to stop a whistle blower from telling the truth about 9/11 and Iraqi Pre-War Intelligence." Tr. 18: 26-30.

As a result of this testimony Lindauer was declared mentality unfit—a tactic thought to have passed into history after it was exposed as a commonly used way to muzzle dissent in the former Soviet Union, replete with corrupt judges willing to falsely imprison targets on fabricated KGB charges. In Lindauer's case, her C.I.A.-compliant Judge Mukasey became Bush Jr.'s Attorney General as a reward.

To silence Lindauer's testimony to the 9/11 Commission, Lindauer was only the second non-Arab to be prosecuted under The Patriot Act. She was arrested on Mar. 11, 2004 and assigned to the corrupt Southern District of New York and Judge Michael B. Mukasey. George Bush later appointed Mukasey as Attorney General on Nov. 09, 2007.
Lindauer was held without a trial or even a hearing at Carswell Air Force Base (incarcerated in 2005) and ruled to be mentally unfit to stand trial. The government tried to administer psychotropic drugs to further incapacitate her for testimony on 9/11. She was released to Judge Loretta Preska in 2007. In 2008, a blogger began publicizing her illegal incarceration. The government dropped charges on Jan. 15, 2009. She published a book on her ordeal titled *Extreme Prejudice* and is now a government corruption critic.[718] [719] [720]

149. **On Jun. 18, 2001 (six weeks later)**. Chandler participated in Leader discussions regarding technical collaboration with Wright-Patterson Air Force Base ("WPAFB") regarding defense, intelligence and homeland security applications of Lead"er’s inventions,[031]

150. **On Jul. 01, 2001 (two weeks later)**. Lawrence H. Summers was appointed president of Harvard University.[032]
Warrantless surveillance plans in search of a suitable crisis: "Stellar Wind"

In July, 2001, John C. Yoo was hired into the Office of Legal Counsel (OLC) at the Department of Justice. He immediately began drafting a prescient memorandum evaluating the legality of a hypothetical electronic surveillance program within the United States to monitor communications of potential terrorists. His memorandum, dated 17 September 2001, was addressed to Deputy White House Counsel Timothy E. Flannigan and entitled Constitutional Standards on Random Electronic Surveillance for Counter-Terrorism Purposes." (PDF, p. 23). It was the precursor to Project "Stellar Wind" order by President George W. Bush on Oct. 04, 2001 permitting warrantless surveillance of American citizens.

James P. Chandler, III, NIAC member (see Jan. 18, 2001), was the chief outside counsel to the Department of Justice and the White House on intellectual property, trade secrets and economic espionage, and certainly was a chief architect of project "Stellar Wind," as would have been Chandler's protégé Deputy Attorney General Eric Holder, Jr.

Woo unilaterally argued that the Foreign Intelligence Surveillance Act (FISA) did not supercede the President's Article II authority, calling it a "merely providing a 'safe harbor for electronic surveillance.'" (PDF, p. 48).

Remarkably, Woo was the ONLY Department of Justice representative who knew about (was "read into") the project "Stellar Wind" President's Surveillance Program (PSP) authorizing the bulk surveillance of American citizens without a warrant, initiated by President George W. Bush on Oct. 04, 2001.

Tellingly, Yoo refused to be deposed by the Inspector General about this activity in 2009. (PDF, p. 18)[635]

Inspector General wrote: "From the inception of the Stellar Wind program in October 2001, vast amounts of information about telephone and e-mail communications were collected and stored in databases at the NSA ... We found that in the early years of the Stellar Wind program, the Department of Justice lacked the necessary legal resources to carry out an adequate review of the legality of the program ... Only a single Department attorney [John C. Woo] analyzed the legal basis for the program during the first year and a half of operation ... the Department determined [in mid-2003] that this attorney's initial legal analysis was legally and factually flawed." (PDF, p. 420).[635]
On Jul. 30, 2001, Robert S. Mueller, III disclosed in his confirmation statement to the Senate Judiciary Committee that between Sep. 1988 and Apr. 1989 he was a law partner with Duval L. Patrick at the boutique Boston law firm of Hill & Barlow PC. However, both individuals have taken great pains in subsequent years to obscure their association. Both Deval and Diane Patrick are Harvard officianadoes.

Also censored from the public record are all of Patricks' records for his directorship in United Airlines from 1997 to 2001. The only record at the Securities and Exchange Commission are Patrick's signature on the 10-K annual reports for UAL Corp. Six weeks after Mueller's confirmation hearing, two of the four planes that allegedly perished on 9/11 were Patrick's United Airlines planes (Flights 93 and 175). Neither of Patrick's 8-K reports of his appointment or resignation as a director are available.

The Patrick-Mueller Hill & Barlow PC connection has come back into focus during Mueller's Special Counsel activity in the so-called Trump-Russia investigation. Mueller's many conflicts of interest raise questions of motive and lack of impartiality especially in light of statements by Barack Obama and Valerie Jarrett that Patrick is their number one choice to run against President Donald J. Trump in 2020.

On Aug. 07, 2001, Chandler filed for Leader copyrights. This baffling move appears to have been designed to kill two birds with one stone: (a) obtain a full copy of Leader's innovations, and (b) introduce Leader's source code prematurely into the public domain, thus ruining patent claims. Leader did not introduce its secret sauce, resulting in a Plan B two days later.
People you trusted are now hijacking the Internet

On Aug. 07, 2001 Eurotech, Ltd. ("Eurotech") announced appointment of Chandler to its board of directors for CRYPTO.com.[033] James LLC, a Cayman Islands company, was the controlling shareholder in QuestNet Corp, an Internet hosting and telecommunications provider that had been acquired by Eurotech.

Eurotech’s executives were all close associates of Chandler, Major General James E. Freeze (U.S. Army, ret.), Leader’s other director, as well as John M. Deutch, former C.I.A. Director (1995-1996). Chandler had pushed the Economic Espionage Act of 1996 through Congress as its principal proponent on Oct. 11, 1996.

Eurotech’s founding chairman on May 16, 1995 was Randolph A. Graves, Jr., former Director of Aerodynamics at NASA Langley. He was also a director in Markland Technologies. Sub.[034]

Eurotech’s first CEO in 1998 was Don V. Hahnfeldt, former Commodore of a Trident Nuclear Submarine Squadron.[035]

Eurotech’s second chairman was James D. Watkins, former Secretary of the Department of Energy (from Mar. 1989 to Jan. 1993). In Congressional testimony on Sep. 30, 1991, it was revealed that Watkins had commissioned "The Freeze Report" on Department of Energy security lapses authored by Leader director Freeze.[036]

On Dec. 13, 2000, Eurotech’s beneficial owners included JNC Strategic Fund, Ltd., JNC-Opportunity Fund Ltd. and Diversified Strategies Fund, L.P., three multi-leveled offshore entities with offices in the Bahamas and Cayman Islands.[037] Such entities are structured to: (a) conceal the identities of the actual investors, (b) escape liability from U.S. securities and tax law, and/or (c) profit from manipulated declines in stock value via a scheme called "death spiraling."

On Dec. 13, 2000, Eurotech issued additional stock to JNC and Diversified, and had sold shares on Aug. 28, 2000 to Woodward LLC, another Cayman Island entity owned by Navigator Management LLC, David Sims, Director.[038] Sims is a South African living in Tortola, British Virgin Islands who controls numerous tax havens.[039] These entities include each of the Eurotech progeny through to The White Oak Group that enjoys over $1 billion in current U.S. government contracts.[160]

Sims worked in concert with Stephen Hicks, a Canadian living in Ridgefield, Connecticut. Sims and Hicks have been sued a number of times for engaging in predatory financial schemes.[040]

Neither Chandler nor Freeze sought conflict of interest waivers as a result of these associations which conflicted directly with their Leader duties as directors and legal counsel.
156. **On Aug. 09, 2001** Chandler, having failed to obtain a copy of Leader's source code through his copyright filing activity two days earlier, then recommended to Leader to partner with his client, Lawrence Livermore National Laboratory (LLNL) in a research project program called a CRADA (Cooperative Research and Development Agreement). This recommendation appears to have been a ruse to cajole Leader into placing its source code in Chandler's custody. Chandler actually wrote himself into the agreement as custodian of Leader's source code whose innovations appeared in The Eclipse Foundation source code in their Aug. 29, 2002 release of Version 2.0.1. **On Aug. 20, 2001** Fenwick & West LLP was engaged as legal counsel by Leader Technologies, Inc. at the request and recommendation of Professor James P. Chandler, also Leader's counsel.

No conflicts of interest were disclosed to Leader, despite Fenwick's association with James W. Breyer, Accel Partners LLP. Bill Fenwick assisted Chandler in drafting of the Economic Espionage Act of 1996. [282]

Fenwick & West LLP did not disclose conflicts with numerous clients with whom the Leader engagement was in conflict. Client Breyer was a Wal-Mart director. The Wal-Mart Foundation and The Walton Family Foundation have donated up to $10 million to The Clinton Foundation. Client eBay paid Hillary Clinton a $315,000 speaking fee on Mar. 11, 2015. [320]

*Seven days later . . .*
On Sep. 11, 2001, the official narrative is that the September 11 attacks (also referred to as 9/11) were a series of four coordinated terrorist attacks ostensibly by the Islamic terrorist group al-Qaeda on the United States on the morning of Tuesday, September 11, 2001. The attacks killed 2,996 people, injured over 6,000 others, and caused at least $10 billion in property and infrastructure damage and $3 trillion in total costs.

Four passenger airliners operated by two major U.S. passenger air carriers (United Airlines and American Airlines)—all of which departed from airports on the northeastern United States bound for California—were ostensibly hijacked by 19 al-Qaeda terrorists. Two of the planes, American Airlines Flight 11 and United Airlines Flight 175, were crashed into the North and South towers, respectively, of the World Trade Center complex in New York City. Within an hour and 42 minutes, both 110-story towers collapsed, with debris and the resulting fires causing partial or complete collapse of all other buildings in the World Trade Center complex, including the 47-story 7 World Trade Center tower, as well as significant damage to ten other large surrounding structures. A third plane, American Airlines Flight 77, was crashed into the Pentagon (the headquarters of the United States Department of Defense) in Arlington County, Virginia, leading to a partial collapse of the building’s western side. The fourth plane, United Airlines Flight 93, initially was steered toward Washington, D.C., but crashed into a field in Stonycreek Township near Shanksville, Pennsylvania, after its passengers tried to overcome the hijackers. It was the deadliest incident for firefighters and law enforcement officers in the history of the United States, with 343 and 72 killed respectively.

Credible questions have been raised by FBI whistleblowers and forensic engineers that the official 9/11 narrative is a hoax designed to jolt the American people and Congress into passing the Patriot Act which further consolidated the control of the Deep State shadow government into C.I.A. hands. Forensic engineers believe the blast signatures on the buildings in New York and Washington, and the Pennsylvania field look more like Raytheon cruise missiles than commercial jets filled with fuel. The absence of normal debris fields (luggage, personal effects, etc.) and absence of even a single titanium jet engine from any of the sites are more indications of missiles over jets. Titanium will not melt in the much lower heat generated by these jet fuel fires, according to a retired Boeing senior manager with a former Top Secret clearance interviewed for this section who is/was familiar with jet aircraft engines from the 9/11 period.

FBI whistleblowers like former Special Agent Coleen Rowley say they were tracking some of the alleged 9/11 terrorists, but where muzzled, as if there was an intent to frame them for the atrocities.

Tellingly, a 132-page USA Patriot Act was drafted and ready to approve just six weeks
People you trusted are now hijacking the Internet

Later. The speed was explained as a rush to avoid further attacks. However, perhaps it was all planned by the Deep State, and the death of innocents was acceptable "collateral damage" by the shadow government.[558]

From **THE TOP 40 Reasons to Doubt the Official Story. 911Truth.Org:**

"(32) **Attacking the Constitution:**

a. The USA PATRIOT Act was written before 9/11, Homeland Security and the "Shadow Government" were developed long before 9/11, and plans for rounding up dissidents as a means for suppressing civil disturbance have been in the works for decades.

b. 9/11 was used as the pretext to create a new, extra-constitutional executive authority to declare anyone an "enemy combatant" (including American citizens), to detain persons indefinitely without habeas corpus, and to "render" such persons to secret prisons where torture is practiced."

A review of this timeline supports the view that 9/11 was an inside job designed to consolidate control of the global digital infrastructure into the hands of a Deep State shadow government organized by rogue elements of the C.I.A. and its globalist military-industrial technocrats identified herein.

**One month later . . .**
Project "Stellar Wind"—President Bush authorized warrentless bulk surveillance of American citizens

On Oct. 04, 2001 George W. Bush signed a President's Surveillance Program (PSP) authorizing the bulk data collection of American citizens called "Stellar Wind." This document was drafted solely by attorney John C. Yoo who was clearly being directed by his handlers James P. Chandler, III and Eric H. Holder, Jr., along with Vice President Dick Cheney.

Chandler was evidently coordinating these legalities in conjunction with his secret "public-private" technology companies [Deep State shadow government cartel] involved with the National Infrastructure Assurance Council (NIAC) renamed the National Infrastructure Advisory Council still in operation in 2017 (due for renewal on Sep. 30, 2017).

"OLC (Office of Legal Counsel, Department of Justice) Assistant Attorney General John Yoo was responsible for drafting the first series of legal memoranda supporting the [Stellar Wind] program . . . Yoo was the only OLC official "read into" the Stellar Wind program from the program's inception until he left the Department in May 2003." (PDF, p. 37).[635]

"John Yoo . . . had sole responsibility within that office and with the Department of Justice for developing the legal analysis relating to the Stellar Wind program until May 2003" in contradiction to his boss Acting Assistant Attorney General for the Office of Legal Counsel Jay Bybee's 'two Deputy rule' so that OLC opinions are reviewed by two OLC Deputy Assistant Attorneys General before going to the OLC Assistant Attorney General for approval." (PDF, p. 114).[635]

According to the Inspector General's report on Jul. 10, 2009, "Before the President authorized the PSP on 4 October 2001, Yoo had prepared a memorandum evaluating the legality of a hypothetical electronic surveillance program within the United States to monitor communications of potential terrorists. His memorandum, dated 17 September 2001, was addressed to Deputy White House Counsel Timothy E. Flannigan and entitled Constitutional Standards on Random Electronic Surveillance for Counter-Terrorism Purposes." (PDF p. 23).[633]

However, this account is contradicted by Michael V. Hayden, C.I.A. Director, who told the Inspector General that "[David S.] Addington [former Counsel to Vice President Richard B. Cheney] drafted the first Presidential Authorization of the PSP. Hayden characterized himself as the 'subject matter expert,' and he said that no other NSA personnel, including the General Counsel, participated in drafting the authorization."
Hayden also said that DoJ personnel had not been involved in his discussions with Addington concerning the Presidential authorization of the PSP." (PDF, p. 17).

Nonetheless, "From the inception of the Stellar Wind program in October 2001, vast amounts of information about telephone and e-mail communications were collected and stored in databases at the NSA . . . We found that in the early years of the Stellar Wind program, the Department of Justice lacked the necessary legal resources to carry out an adequate review of the legality of the program . . . Only a single Department attorney [John C. Woo] analyzed the legal basis for the program during his first year and a half of operation . . . the Department determined [in mid-2003] that this attorney’s initial legal analysis was legally and factually flawed." (PDF, p. 420).

Inspector General’s assessment of project Stellar Wind:

"Only a single Department attorney [John C. Woo] analyzed the legal basis for the program during the first year and a half of operation ... the Department determined [in mid-2003] that this attorney’s initial legal analysis was legally and factually flawed." (OIG, Jul. 10, 2009).

Twelve days later . . .
NIAC (Executive Order 13231): The "public-private" board that stole America's privacy and intellectual property . . . under the pretext of national security

On Oct. 16, 2001, President George W. Bush signed Executive Order 13231 titled "Critical Infrastructure Protection in the Information Age" drafted by Clinton holdover law professor James P. Chandler, III. The governing board formed from this order was named the National Infrastructure Advisory Council (NIAC). Cleverly, the same NIAC acronym was used for the earlier NIAC (National Infrastructure Assurance Council) formed by President Bill Clinton by EO NAME on Jul. 14, 1999.

Bill Clinton then appointed Chandler and Microsoft Bill Gates to the NIAC, just two days before he left office on Jan. 18, 2001.

Chandler was also legal counsel to social networking inventor and Columbus, Ohio innovator Leader Technologies. Chandler very evidently used this executive order as the pretext to confiscate Leader's important Internet collaboration invention as the basis for developing a new, global spy network, which is what this NIAC did.

Nine days later . . .

One day later . . .
On Oct. 26, 2001, a 132-page, seemingly ready-made USA PATRIOT Act was approved by an Act of Congress that was signed into law by President George W. Bush on October 26, 2001. With its ten-letter abbreviation (USA PATRIOT) expanded, the full title is "Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001." [558] [571] [572] [573]

Five days later . . .
On Oct. 31, 2001 William Edward Binney resigned from the National Security Agency (NSA) after 30 years with the agency. He is a cryptanalyst-mathematician. In 1997, Binney became the technical director of the geopolitical — military geopolitical analysis and reporting group for the world with more than 6,000 employees. His job was to analyze the data collected by the technicians and computer people.

He resigned after discovering that a secret group within the NSA was collecting metadata and content intelligence on American citizens in clear violation of the law that prohibits the NSA from spying on Americans. See also Oct. 01, 2001.

Questioner—Jim Gilmore (PBS Frontline Interview): "So you retire. Why do you retire?"
[Binney retired/resigned on Oct. 31, 2001]

Answer—Binney: Well, I couldn't be an accessory to the violation of the constitutional rights of everybody in the country. I couldn't be an accessory to that, or an accessory to other crimes being committed, like exposing all this data to the FBI. It was acquired without a warrant, you know. And this is the kind of data that they would use to arrest people, which they did. So I couldn't be a party to that. That's just a total violation of our justice process.

One week later . . .

On Nov. 07, 2001 Eclipse released Version 1.0.

Three weeks later . . .
On Nov. 29, 2001, IBM (David J. Kappos) "donated" over $40 million to form The Eclipse Consortium ("Eclipse") (renamed "The Eclipse Foundation" in early 2004) dedicated to providing "open source" platform software for building apps. App building on top of Leader’s common platform was Leader’s product development plan from the late 1990’s—a detailed plan to which both Chandler and Fenwick were privy.[042]

On Nov. 29, 2001, clients for both Chandler (i.e., IBM) and Fenwick (including Red Hat, Borland, Rational Software) were founding members of IBM’s Eclipse. Tellingly, by Dec. 4, 2002, "Eclipse 2.0 was based primarily on the contributions of a single [unnamed(Leader)] company,"[043] but by Dec. 8, 2004 the members were "unable to locate" the original contributor and thus had to "re-implent" the contributions. Mark Zuckerberg was 16-years old. This obfuscation of the theft of Leader Technologies' engineering source code is a joke.

On Dec. 18, 2001, Leader submitted a BAA Command and Control proposal at Chandler’s recommendation and direction.[044]

**On Jun. 05, 2002.** Chandler arranged Lawrence Livermore National Laboratory ("LLNL") executive Jeffrey Wadsworth[047] to sign a CRADA research agreement with Leader, writing in a term that made Chandler a party to the agreement and having him take custody of Leader source code, ostensibly for safekeeping and contract compliance. Fenwick and Major General James E. Freeze (U.S. Army, ret.) (former NSA assistant deputy director)[048] were also copied on this agreement. Chandler was particularly enthusiastic about the Department of Defense cryptography rights that this agreement gave Leader, according to Leader officials.[049]
173. **On Jul. 01, 2002**, Jeffrey Wadsworth joined Battelle Memorial Research Institute ("Battelle") in Columbus, Ohio as senior executive then president. Battelle was the beneficiary of substantial Obama energy stimulus funds form Steven Chu, U.S. Energy Secretary, who is heavily invested in Facebook financial interests like all the judges in Leader v. Facebook. Wadsworth figures prominently in 2014 in the smear of Ohio State Marching Band director, Jon Waters. The unwarranted "sexualized culture" accusations were used to distract media attention away from Ohio State in the aftermath of Waters' wildly successful Apple iPad national publicity. Apple is famously not participating in the Deep State's digital takeover. The Ohio State data center is being used by the Deep State for their international backdoor siphoning of university research data via M.O.O.C. (Massive Open Online Course), the higher education companion of Common Core, also a Deep State initiative.

174. **On Aug. 05, 2002**, LLNL validated Leader’s invention as a "Rapidly Deployable Security System," the validation provided Chandler via Leader with access to DoD encryption. See CRYPTO.com above.

175. **On Aug. 09, 2002**, Chandler made a demand for immediate payment of $30,000 and threatened to stop legal representation (after already receiving over $500,000 in legal fees, and after having taken custody of Leader's source code on Jun. 05, 2002). In this letter to Michael McKibben, CEO, Leader Technologies, Chandler cited all players in The Eclipse Foundation (IBM, Xerox, Hoffman La Roche, Bill Fenwick, Fenwick & West LLP).

Chandler's reference to "Xerox" was Freudian, according to Leader representatives, since Leader had never spoken to Xerox. Curiously, Xerox prior art figured prominently in Facebook’s trial arguments and re-exam claims which only prevailed after three previous failures and personal intervention by outgoing Patent Office director David J. Kappos, a 20+ year IBMer, then IBM chief inside intellectual property counsel, and colleague to Chandler, IBM’s chief outside intellectual property counsel. Also curiously, he described Bill Fenwick’s (Fenwick & West LLP) legal engagement to "map your progress." Fenwick is Facebook's chief outside counsel.

**Fig. 21**: IBM / Eclipse Foundation Copyright Notice, Aug. 29, 2002. IBM falsely claimed that they had all the necessary copyrights to make Leader Technologies' invention available as "open source" to the Eclipse members. IBM's chief outside counsel, Professor James P. Chandler, certainly knew this claim was false since he had filed copyrights on these ideas on Aug. 07, 2001 and filed provisional patent applications on Leader's inventions on Dec. 10, 2002, just three months later.

IBM's inside counsel in 2002, David J. Kappos, tried to make doubly sure that Leader's patent claims were killed by issuing an unprecedented third reexamination of Leader's patent before he resigned as Patent Office director in 2012. To pull that off, he assigned IBM cronies inside the Patent Office to the reexamination panel. This stunning corruption cannot be more evident in hindsight.

On Aug. 29, 2002, Bill Clinton was paid a $125,000 speaking fee by PeopleSoft in New Orleans, LA, subsequently a member of the IBM Eclipse Foundation.[317]

THE GREATEST LARCENY IN HISTORY

On Aug. 30, 2002, Professor James P. Chandler (also Leader's patent counsel at this time) met with Montgomery County, Maryland development officers to negotiate office space for his organization, NIPLI (National Intellectual Property Law Institute), the U.S. Patent Office and IBM. (Whistleblower notes of this 8/30/2002 meeting: "IBM - incorporating [Eclipse Foundation] members, Business Model, different from current business model - consider some approach to partnering with IBM".) See Fig. 5.[206]

On Sep. 05, 2002, Hewlett-Packard (HP) became a member of IBM's The Eclipse Foundation.[243]

On Aug. 29, 2002, PeopleSoft pay to play

James P. Chandler's sellout of his client, Leader Technologies, Inc. (whistleblower revelations)
On Sep. 06, 2002, Chandler met secretly with Dave Edgerley, Director of Economic Development, Montgomery County, Maryland about his self-described "coup" involving IBM and the Patent Office where he solicits the county to become involved with IBM’s new (Eclipse) business model as "an extraordinary marriage."[184]

On Sep. 12-14, 2002, The Highlands Group president Richard oversaw "The Inaugural Island Forum, 2002." The Forum was opened by the Singapore Deputy Prime Minister and Minister for Defence, Dr. Tony Tan. The theme was "Transformation - Experiences in the Military and Industry." The Forum was attended by 35 participants from France, Germany, Israel, Singapore, Sweden, the United Kingdom and the United States.[811]

On Sep. 18, 2002, General James E. Freeze (U.S. Army, ret.) resigned from the board of directors of Leader Technologies, Inc. in a disingenuous rage, according to Leader officials. Hindsight says he took Leader’s invention to the National Security Agency (NSA) where he was formerly the #3 executive.

Fig. 23—On Aug. 30, 20002, whistleblower information proved that James P. Chandler was colluding with IBM (David J. Kappos, chief intellectual property counsel) and the U.S. Patent Office were colluding in the formation of The Eclipse Foundation. Doug Duncan was Montgomery County, Maryland executive (mayor). Kappos was appointed director of the Patent Office by President Obama in a rare recess appointment on Aug. 07, 2009. Soon after, Kappos converted all of his IBM stock to Vanguard stock. IBM’s chief financial officer, Mark Loughridge, is now a director of Vanguard. Loughridge wrote the $40 million “donation” check at IBM to fund The Eclipse Foundation on Nov. 29, 2001. Chandler’s whistleblower notes experts here show he is starting to spend the Eclipse cash and recruit IBM partners without disclosing his conflicts of interest to his other client, Leader Technologies, Inc.

184. **On Sep. 18, 2002**, career IBMer Thomas E. Noonan was appointed to the National Infrastructure Assurance Council (NIAC) by George W. Bush, likely recommended by James P. Chandler, IBM's chief outside intellectual property counsel. IBM's chief inside intellectual property counsel and Chandler adviser was David J. Kappos, who was later appointed director of the U.S. Patent & Trademark Office by Barack Obama in a rare recess appointment on **Aug. 07, 2009**. Noonan has systematically failed to disclose his legion of illegal conflicting interests in his NIAC participation.[344]

**Note:** Facebook used doctored details about this meeting at the *Leader v. Facebook* trial that hindsight show were evidently coached by Chandler.
Deep State people are "wet-ware" patent for The Internet of Things

On Oct. 01, 2002, Agilent Technologies, Inc. engineer Richard C. Walker filed a patent application 10/260,525 (later U.S. Pat. No. 6,965,816) titled PFN/TRAC SYSTEM FAA UPGRADES FOR ACCOUNTABLE REMOTE AND ROBOTICS CONTROL TO STOP THE UNAUTHORIZED USE OF AIRCRAFT AND TO IMPROVE EQUIPMENT MANAGEMENT AND PUBLIC SAFETY IN TRANSPORTATION. USPTO. Walker's long-time patent attorney was Irah H. Donner, Wilmer Cutler Pickering Hale and Dorr LLP.

People are labelled "wet-ware" in this patent.[916]

FIG.–Walker, U.S. Patent No. 6,965,816, Fig. 21.
On about Oct. 21, 2002, Mitch Kappor (former IBM / Lotus Notes principal) announced "Open Source Applications Foundation" ("OSAF") with web source code from an unidentified source. In more Freudian irony, Kappor named the project "Chandler." By late 2006, OSAF had integrated "Chandler" into "The Eclipse Foundation," which uncannily, was also unable to locate the author of its original code. The real Chandler did not seek a conflicts waiver from Leader. "Foundations" were evidently his vehicle of choice for obscuring the funneling of Leader Technologies' invention to IBM et al.

On Nov. 14, 2002, former New Jersey one-term Representative, William J. Martini, was nominated for a NJ federal district court judgeship by former Goldman Sachs CEO, Jon S. Corzine.

190. **On Nov. 26, 2002**, Chandler and Eurotech, Ltd. filed a U.S. Air Force CRADA without seeking a conflicts waiver from Leader (since the subject matter was substantially similar to Leader homeland security efforts re. Battelle, WPAFB, LLNL and DARPA).[055]
On Dec. 04, 2002, Eclipse released Version 1.0.1. The development effort set as its priority to change the Leader SWING design to SWT to conform to IBM preferences. They disclosed everything except Leader’s name in the statement: “Eclipse 2.0 was based primarily on contributions of a single company [Leader Technologies, Inc.]”[056]

On Dec. 09, 2002, Hewlett-Packard (HP) teamed with Microsoft to exploit Leader Technologies' social networking XML innovations because it solved "scalability" problems. Microsoft had problems supporting the massively larger user volumes of the Internet versus Microsoft's, HP's and IBM's legacy environments. Their legacy "client-server" architectures were good enough for single companies (Lotus Notes, Microsoft Exchange, Novell Groupwise), but were not nearly responsive enough for the scale of the Internet.

Microsoft and The Bill & Melinda Gates Foundation have donated up to $25.5 million to The Clinton Foundation. Hewlett-Packard (HP) has donated up to $500,000 to The Clinton Foundation. Microsoft has paid Bill Clinton $400,000 in speaking fees. IBM has paid Bill Clinton $200,000 in speaking fees.

On Dec. 11, 2002, Chandler filed Leader’s provisional patents, including Appl. Nos. 10/732,744 (Dynamic Association of Electronically Stored Information with Iterative Workflow Changes) and 10/731,906 (Context Instantiated Application Protocol)—the essential building blocks of social networking.
195. **On Jan. 30, 2003** Chandler resigned as a Leader director; agreed to continue to advise since the patent applications were in play, according to Leader officials.

196. **On Feb. 28, 2003** George W. Bush issued Executive Order 13286 titled "Amendment of Executive Orders, and Other Actions, in Connection With the Transfer of Certain Functions to the Secretary of Homeland Security." This order was likely drafted by James P. Chandler and extended Bill Clinton's private spy state agenda into the Bush Administration.[341]

197. **On Mar. 18, 2003** Xerox announced AspectJ code contribution to Eclipse (Facebook lost a Xerox prior art argument at trial and in two reexaminations before the Patent Office reversed those decisions in a secret and unprecedented 3rd reexamination ordered by director David J. Kappos, former IBM intellectual property chief counsel).[058]

Xerox has paid Hillary Clinton $225,000 in speaking fees. IBM has paid Bill Clinton $200,000 in speaking fees.[317]
On Mar. 28, 2003 (Friday). Eclipse released Version 2.1. By May 28, 2001, the process of switching Leader’s SWING design to IBM’s SWT preference was well under way; Eclipse board admitted no clear vision and "Eclipse is perceived as dominated by IBM."

Fig. 23a—Leader Technologies' Leader2Leader web collaboration platform interface. This interface was divided into section using SWING technology (objects in frames) that IBM Eclipse planned to change to SWT (objects independently). As of this date however, only Leader's developers, board members and legal counsel had ever seen these designs. Any leak at this stage came from one of them. Hindsight shows that the lead to IBM came from Leader two directors, Maj. Gen. James E. Freeze (US Army, ret.) and James P. Chandler, III, both also consultants to the NSA. Freeze was formerly #3 at the NSA. Sources Leader Technologies; US Courts.
On Mar. 31, 2003 (Monday), The internal NSA newsletter SIDtoday first published with the announcement of "The Analyst Cockpit."[398] The "single webpage" portal description sounds uncannily similar to Leader Technologies' "Leader2Leader" invention (see figure above).

The Intercept first published these SIDtoday back issues. They describe how SIDtoday used descriptors like: portal, one sign-on, profile, news, portlets), results all together, cockpit tools, roles, workspace, mission-driven cockpit, cleanly laid out, email and calendar.[397]

Leader Technologies had already filed for trademarks including Leader Portal, Digital Leaderboard, Digital Projectboard, Leader One-Touch, Leader Tools, Leader Workspace, Leadership Scorecard, Leader Mail, Leader Calendar.

Notice: Leader Technologies filed for trademark protection on these marks. The editors of this page have not researched their current status. These marks should not be used without consulting appropriate authorities.[399]

NSA SIDtoday was merely parroting Leader Technologies' innovations which were ostensibly being protected by their intellectual property attorney, James P. Chandler, III, who was evidently feeding those ideas straight to his other client, the NSA.

At this point in time the only people who had seen this ground-breaking collaborative web invention were Leader Technologies developers and directors, including Mar. General James E. Freeze (U.S. Army, ret.) and patent counsel James P. Chandler, III. Freeze was former assistant deputy director of the NSA. Chandler was intellectual property counsel to the agency.

The platform appears to have been subsequently named "JOURNEYMAN" (with "CATAPULT" and "SLINGSHOT" application components) by May 07, 2003.

On May 19, 2003, the NSA referred to "Social Network" in their internal SIDtoday newsletter. This supports the premise that the NSA created the social networking industry as a universal means of mass surveillance. By contrast, Mark Zuckerberg was a 19-year old Harvard sophomore who had just agreed to program for Paul Ceglia for "thefacebook."[396] In reality, the facts point to Zuckerberg as a ringer for the NSA intelligence cartel in search of a Harvard origins narrative. Zuckerberg appeared ready to lie for them.

On Sep. 27, 2003. Leader entered a clinical trials agreement with Boston Scientific which ended abruptly six weeks later without explanation or payment.[060]

Oct. 28, 2003—the night of sophomore Mark Zuckerberg’s infamous hacking of the Harvard house sites. Zuckerberg wrote in his online diary that night: "let the hacking begin."[063] Zuckerberg lived in Kirkland House, just a stone’s throw from Winthrop. McKibben’s oldest son, now a surgeon, was a Harvard University student and member of the football team. He lived in Winthrop House as a junior on McKibben said "my son had a number of confidential emails from me discussing our invention in his Email Inbox."[064]
Also on Oct. 28, 2003

Leader’s software developers completed the debugging and testing of what has turned out to be a cornerstone software module in Leader’s patented invention—an innovation that Leader proved at trial that Facebook infringes and has exploited to this day. [065]

Robert C. Mueller gave Hillary Clinton access to 50,000 FBI encryption keys

On Oct. 29, 2003

ENTRUST, INC. announced that it was awarded the contract to provide Public Key Infrastructure (PKI) certificate authority (encryption keys) to the Federal Bureau of Investigation (FBI) as well as Blackberry (Research in Motion - RIM) and the U.K. Bureau of Customs and Excise.

ENTRUST also announced its partnership with Thomas E. Noonan, Internet Security Services, Inc.—appointed by NAC founder James P. Chandler, III, and member of the White House NIAC spy agency run out of the White House. Former Clinton Allied Supreme Commander Wesley K. Clark had been a director since 2002. Clark resigned this directorship in Nov. 2003 in mid term, enabling the remaining directors to fill the chair with a replacement selected by the other directors and not by the shareholders. [1366]

On Dec. 05, 2003

Jerry C. Jones was elected as director of ENTRUST INC to fill the vacancy created by Gen. Wesley C. Clark's mid-term resignation from the board of directors. Given ENTRUST's announced FBI contract, the addition of Jerry C. Jones, colleague of Bill & Hillary Clinton at the Rose Law Firm in Little Rock, Arkansas meant that then FBI Director Robert C. Mueller had an immediate duty to disclose his conflict of interest with Hillary and Bill Clinton since the Clinton's had in Jerry C. Jones, insider access to 50,000 FBI encryption keys via his "Class I" directorship in ENTRUST INC. [1365]

On Dec. 12, 2003

The Harvard Crimson carried its fourth article about Zuckerberg in six weeks, titled "College Inches Toward a Facebook." [066] This article is prima facie proof that Zuckerberg’s claims in other litigation that he developed the name "Facebook" in Dec. 2003 are false.
211. Chandler kept up the ruse of a confidential Leader legal relationship by accompanying McKibben’s family to the 2004 Harvard-Yale football game during McKibben’s son’s senior season when Harvard won the 2004 Ivy League Championship.

212. At no time did either Chandler or Fenwick & West LLP seek a conflict of interest waiver from Leader for any of their relationships that conflicted with their legal representation of Leader. It was their sworn oath to do so pursuant to the Rules of Professional Conduct Rule 1.9 (Duties to Former Clients: "a) A lawyer who has formerly represented a client in a matter shall not thereafter represent a nother person in the same or a substantially related matter in which that person's interests are materially adverse to the interests of the former client unless the former client gives informed consent, confirmed in writing.")
10/4/2018 People you trusted are now hijacking the Internet

On Dec. 31, 2003 Timothy John Berners-Lee (b. 1955 - ) was knighted by Queen Elizabeth "for services to the global development of the Internet."

Timothy is the son of British mathematician and computer scientist Conway Berners-Lee (b. 1921 - ). Conway actually developed network architectures, unlike his son Timothy, who likely just appropriated his father's work into the C.I.A.-created CERN facility in Switzerland. For son Timothy John Berners-Lee to receive an OBE at only 42-yrs. old, when the world wide web was still in its infancy, is telling of an inside job by the Queens' Privy Council, the IBM "Internet of Things" (Feb. 12, 1997) organized by the fascist Highlands Group (ca. Feb. 1995) and the dubious FBI-Carnegie Endowment backdoor encryption conference on Jun. 07, 1993.

Hindsight reveals that Berners-Lee has been tightly associated with the globalist Deep State. For example, he became a distinguished fellow of the British Computer Society (1996 - Lord Louis Mountbatten was President of BCS from 1966-1967 and was a Privy Counselor), an organization intimately connected to Sir Geoffrey E. Pattie (Privy Counselor), the Intellectual Property Institute (UK) and SERCO. On Jun. 14, 1997, Berners-Lee was awarded the Order of the British Empire (OBE). This was when Lord Mark Malloch-Brown (Privy Counselor) had moved to upstate New York and rented housing from globalist George Soros while Malloch-Brown was director of the World Bank, External Affairs, United Nations Affairs. In 1998, Berners-Lee was awarded the Mountbatten Medal - a globalist activist. In 2010, he was awarded UNESCO's Niels Bohr award. Berners Lee received honorary degrees from numerous globalist universities, including Columbia (2001), Oxford (2001), Harvard (2011) and Yale (2014).

On or before Mar. 01, 2004, mostly former PayPal principals Reid Hoffman, James W. Breyer, Ping Li, Jim Swartz, Accel Partners LLP, Matthew R. Cohler, Joseph Lonsdale (Palantir) and Peter A. Thiel (Palantir) all became big winners in the 2012 Facebook IPO.[189] These individuals coached and financed Mark Zuckerberg at Harvard.

The "PayPal (Klepto-tech) Mafia"

Fig. 24—Public records reveal that the principals in PayPal sold the company to eBay in July 2002. They began looking around for "the next big idea." Leader Technologies' social networking invention became their target with the cooperation of Larry H. Summers (then Harvard's president) and James P. Chandler, former Harvard Law School professor and Leader Technologies' patent attorney.

IBM has paid Bill Clinton $200,000 in speaking fees. HP has donated up to $1 million to The Clinton Foundation. Microsoft and The Bill and Melinda Gates Foundation have donated up to $25.5 million to The Clinton Foundation. SAP paid Bill Clinton $250,000 in speaking fees.[320] [317]

On Mar. 12, 2004. Bill Clinton was paid a $250,000 speaking fee by Citigroup in Paris, France, subsequently a member of the IBM Eclipse Foundation and Facebook underwriter. On or about Apr. 12, 2004, Anne-Marie Slaughter published "A New World Order" (Princeton University Press, 2004). In 2009, Hillary Clinton appointed Slaughter as a chief political adviser to write Hillary's speeches and help define Barack Obama's foreign policy, most notably "public-private partnerships" that "harness[ing] private incentives to public policy." Critics call this a legitimization of institutional corruption.[285]

"[In Anne-Marie Slaughter's fantasy world] the state is not disappearing, it's disaggregating, meaning it is simply operating through all its different branches, through regulatory agencies, through judges, through legislators, and they are all networking with one another." —Anne-Marie Slaughter Dept. of State speech, Apr. 12, 2004
Breyer hijacked the NVCA for his New World Order Financing agenda that included the theft of Leader Technologies' social networking invention.
Bill and Hillary Clinton have received speaking fees from these NVCA principals: JPMorgan ($200,000), Citigroup ($700,000), Goldman Sachs ($1,150,000), Barclays ($1,255,000), Price Waterhouse ($400,000), Bank of America/Merrill Lynch ($875,000), Deutsche Bank ($1,255,000), Credit Suisse ($1,245,000), IBM ($200,000), KPMG ($350,000), Deloitte & Touche ($175,000), Morgan Stanley ($125,000), UBS ($675,000), Vanguard ($400,000).[317]

The Clinton Foundation has received donations from these NVCA principals: Microsoft and Bill and Melinda Gates (up to $25.5 million), Citi Foundation and Citigroup (up to $5.25 million), The Wal-Mart Foundation and the Walton Family Foundation (James W. Breyer, director) (up to $10 million), Bank of America Foundation and Merrill Lynch Foundation (up to $1.25 million), Jon Corzine (former Goldman Sachs CEO, up to $250,000), Credit Suisse (up to $250,000), Roger McNamee (Facebook, Silver Lake Partners, Dell, EMC, T. Rowe Price) (up to $250,000), McKinsey & Co (up to $250,000), Erskine B. Bowles (Facebook director) (up to $100,000), Deutsche Bank (up to $200,000).[320]
On May 27, 2004. JPMorgan's Jamie Dimon issued a $10 billion line of credit to IBM (Mark Loughridge) while Goldman Sachs arranged debt financing for Lenovo, Beijing, China. This meant that Facebook's underwriters engaged in double-dealing on both sides of the IBM sale of the PC group to Lenovo on Dec. 8, 2004.[193]

By Jun. 01, 2004. The Harvard Crimson had mentioned the 19-year sophomore Zuckerberg and/or Facebook Fifty-one (51) times, more than any other subject, company or world leader.[070]

On Jun. 29, 2004. Markland Technologies (CRYPTO.com/Chandler) acquired EOIR Technologies. Chandler sought no waiver of conflicts from Leader even though EOIR was involved in homeland security technologies that could benefit from the results of Leader's LLNL CRADA.[071]

On Jul. 27, 2004. Barack H. Obama introduced at the Democratic National Convention; unseated Hillary Clinton; subsequently announced his presidential candidacy, collected donations, disseminated propaganda and fundamentally relied on Leader Technologies' invention throughout his campaign, as appropriated by Facebook, without disclosing his misappropriation of Leader's property.[195]
In Aug. 2004, Peter A. Thiel (former PayPal) invested $500,000 in Facebook.[196]

On Aug. 18, 2004, Google went public (an Eclipse member) using a family cast of underwriters to this scandal: JPMorgan, Goldman Sachs, Morgan Stanley, Credit Suisse, Lehman Brothers, Allen & Co., Citigroup and UBS (all Facebook underwriters).[197]

On Jan. 14, 2009, Google began feeding user data to the NSA, according to NSA whistleblower, Edward Snowden.
On Aug. 31, 2004, IBM (with Motorola and Nokia–Microsoft surrogate) proposed embedded systems Eclipse project (end result will be spying toasters and TVs). \[198\]

In Oct. 2004, NSA Director Michael V. Hayden recommended further expansion of the NSA's Senior Executive Service (SES) programs that he had previously expanded in 2001. In 2001, NSA had created a 'pool' of GS-15 employees who were candidates for appointment to the DISES (Defense Intelligence Senior Executive Service (managers)) and DISL corps Defense Intelligence Senior Level (technical leaders)). Why? As explained in DIRgram-350, Director Hayden became convinced in 2001 that NSA was understaffed with senior executives, given the increased hiring at the Agency and the demands of the GWOT (Global War on Terrorism). He therefore decided to appoint more seniors, up to the maximum number allowed by the DoD. When this level was reached in October, 2004—and the Agency was not authorized to appoint any more seniors—so Hayden announced his intention to work with DoD to raise that level to allow additional seniors to be named. \[1019\]

On Oct. 27, 2004, Tsinghua University, Beijing, China joined Eclipse. \[199\]

On Nov. 02, 2004, George W. Bush was elected 43rd President of the United States.

On Oct. 27, 2004 to 2013, Sir Geoffrey E. Pattie founded Strategic Communications Laboratories Limited (SCL), including its subsidiary Cambridge Analytica. Co-founder Nigel J. Oakes, said SCL was 'the first private company to provide psychological warfare services, or 'psyops', to the military' (The Guardian, Sep. 10, 2005). Other directors included John Michael Bottomley, Alexander James Ashburner Nix and Alexander W. Oakes. \[1330\]

On Oct. 13, 1978, The Senior Executive Service (SES) was created as Title IV in the Civil Rights Reform Act of 1978 under President Jimmy Carter.

240. **On Dec. 03, 2004**. Bill Clinton was paid a $125,000 speaking fee by Goldman Sachs in New York, a member of the IBM Eclipse Foundation and Facebook underwriter. Goldman Sachs has donated up to $100,000. Former Goldman Sachs CEO, Jon Corzine, has donated up to $250,000 to the Clinton Foundation.[320][317]

241. **On Dec. 08, 2004** Eclipse stated that they were "unable to locate" the original contributor; declared that they must "re-implement" its founding (Leader Technologies) source code. "Re-implementation" of a pre-existing idea in the software business is a euphemism for copying.[072] Remarkably, on Dec. 04, 2002 they wrote that the contributions were all coming from a "single company" (which they never identified). However, Eclipse's attorneys, notably James P. Chandler and Fenwick & West LLP knew without question that Leader Technologies' invention was the source of the intellectual property being exploited by IBM and Eclipse.

244. **The illegal DNI/Clinton Protectorate**

**On Feb. 01, 2005**, Patrick F. Kennedy headed the Transition Team that set up the newly created Office of the Director of National Intelligence (DNI). This assignment lasted through Apr. 2005. He then became Deputy Director of National Intelligence for Management from April 2005 to May 2007.[484]

James P. Chandler, III, Leader Technologies' patent attorney and outside counsel to IBM, played a pivotal role in the remaking of U.S. intelligence, starting with the Bill Clinton and Executive Order No. 12958 on Apr. 17, 1995. On Jan. 18, 2001, Chandler and Bill Gates were appointed by outgoing President Clinton to the National Infrastructure Assurance Council (NIAC). Chandler then advised the updated National Infrastructure Advisory Council (also NAIC) under George W. Bush—when Kennedy was handling the DNI transition in early 2005. This timing means that Chandler and Kennedy most assuredly collaborated, then during the Bush Administration, and through the Obama Administration while Kennedy has stonewalled at the State Department for the Clintons and The Clinton Foundation.

Kennedy has played a key role in the stonewalling of FOIA requests that are protecting Hillary Clinton in her various State Department scandals involving Benghazi, The Clinton Foundation Pay-to-Play, and her private email server.[485] [486]

246. **On Mar. 02, 2005**, Accel Partners LLP, James W. Breyer, Facebook Chairman, incorporated IDG Technology Venture Investment III, L.P. that formed WininChina, Inc. on Dec. 12, 2006. The IDG and WininChina entities were identified as secret tax havens by HSBC whistleblower Hervé Falciani in 2015. The HSBC database actually identifies at least four Breyer associates as principals in both IDG and WininChina. They are John P. Breyer (father), Patrick J. McGovern, Hugo Shong and Xin Xu.[074]
247. **On Apr. 20, 2005**, Bill Clinton was paid a $125,000 speaking fee by Goldman Sachs in Kiawah Island, Georgia, a member of the IBM Eclipse Foundation and Facebook underwriter. Goldman Sachs has donated up to $100,000 to The Clinton Foundation. Former Goldman Sachs CEO, Jon Corzine, has donated up to $250,000 to the Clinton Foundation.[320][317]

248. **On May 04, 2005**, Bill Clinton was paid a $125,000 speaking fee by Deutsche Bank in Baltimore, Maryland, a member of the IBM Eclipse Foundation and Facebook underwriter. Deutsche Bank has donated up to $200,000 to The Clinton Foundation.[320][317]
Ted L. Gunderson, FBI Special Agent In Charge (ret): Congress was compromised "through sex and drugs" into passing the Patriot Act (and other bills) by a "rogue criminal enterprise operating within the government"

On May 12, 2005: Theodore "Ted" L. Gunderson, FBI Special Agent In Charge (ret.) (1928-2011) was an FBI Superstar during his 27-year career. He said in a speech on May 12, 2005:[640]

TED GUNDERSON: Let me tell you something ladies and gentlemen, there are "people in our government ... a rogue outfit" who orchestrate terrorist acts in order to get Congress to pass Bills like the Patriot Act, and that many of those votes are procured through blackmail through sex and drugs. He says it is "a rogue outfit" ... "who orchestrate terrorists acts [like 9/11]" ... "so they can pass bills like the Patriot Act" ... "which takes away man of our constitutional rights and civil liberties" There is a "covert military criminal enterprise, government enterprise, primarily by US military intelligence, that is operating full throttle and everybody refuses to investigate it."
"Let me tell you something ladies and gentlemen, there are people in our government, a rogue outfit, whatever I'm not sure, who are actually behind these terrorist acts. The reason they're behind terrorist acts is so they can pass bills like the Patriot Act. The reason the Congressmen and Senators vote for these stupid bills, stupid by our terms, in our definition, is because many of them have been set up and framed through sex and drugs."

Ted Gunderson's credentials are above reproach. In 1979, Gunderson was a candidate for Director of the FBI (William H. Webster was chosen). Gunderson had been Special Agent In Charge of the Los Angeles Office, commanding 700 personnel and a $22.5 million budget. During Ted Gunderson's remarkable 28-year career with the FBI he served in these capacities:

- **Special Agent In Charge**: Los Angeles, Dallas, Memphis
- **Assistant Special Agent In Charge**: New Haven, Philadelphia
- **Special Agent**: Mobile, Knoxville, New York, Albuquerque
- **Awarded 1977 Outstanding Law Enforcement Officer in America by the AFL-CIO Metal Trades Council**

Ted Gunderson identified two vocal naysayers who made disparaging remarks about of his efforts to expose the Deep State shadow government—Stew Webb and Barbara Hartwell. He says they are victims of a well known C.I.A. mind control program called MKUltra. In 1987, Congress investigated MKUltra and ordered stopped, but it continues. When will Congress stop being moral pin heads?
May the Lord have mercy on and save these defenseless children. Godspeed to our patriots who are working to bring these criminals to justice. Shame on the rogue C.I.A. Deep State shadow government for this depravity.

250. **On May 26, 2005** Accel Partners LLP, James W. Breyer, announced a $13 million Facebook investment. Goldman Sachs began underwriting private transactions of Facebook insider shares. This "dark pools" practice has been declared illegal in numerous Congressional hearings, but the practice continues.[075]

Goldman Sachs has donated up to $100,000 to The Clinton Foundation. Former Goldman Sachs CEO, Jon Corzine, has donated up to $250,000 to the Clinton Foundation.\[320\] [317]

254. **On Jun. 29, 2005**. Eclipse released Version 3.1.\[076\]

255. **On Jul. 20, 2005 to 2018**. Nigel J. Oakes, co-founder CEO of Strategic Communications Laboratories (SCL Group) founded by Sir Geoffrey E. Pattie, admitted regarding the mission of the SCL Group:

"We used to be in the business of mindbending for political purposes, but now we are in the business of saving lives." *(The Guardian, Sep. 10, 2005).*

Other directors included John Michael Bottomley, Alexander Jaems Ashburner Nix, Alexander W. Oakes, Nigel John Oakes, Julian David Wheatland, Roger Michael Gabb, David Ferguson Christie and Nigel John Oakes.\[1330\]
256. **On Aug. 11, 2005** Bill Clinton was paid a $150,000 speaking fee by Deutsche Bank in New York, a member of the IBM Eclipse Foundation and Facebook underwriter. Deutsche Bank has donated up to $200,000 to The Clinton Foundation.[320][317]

257. **On Aug. 30, 2005** Leader Technologies was called upon by Louisiana Governor Kathleen Blanco to provide what turned out to be the only working life saving and disaster recovery large-scale collaboration system for the state’s emergency services, military and its federal partners in response to Hurricanes Katrina and Rita.[077]
Leader Technologies used their social networking invention to *bail out* federal and state agencies whose communications systems had failed after Hurricane Katrina landfall

**On Sep. 05, 2017 (Day 7, Labor Day).** Andy Kopplin, Chief of Staff, Governor Kathleen Blanco, State of Louisiana, moderated the Day 7 Hurricane Katrina life saving and disaster recovery response at the Louisiana Emergency Operations Center, Baton Rouge, Louisiana. As this recording of the conference call confirms, Mr. Kopplin used Leader Technologies’ social networking inventions to communicate with all their federal, state and local first responders and elected officials. On Sep. 06, 2005, Bill Clinton accompanied his Canadian friend, Frank Giustra, to a hastily arranged meeting with Kazakhstan's strongman president, Nursultan A. Nazarbayev in Almaty, Kazakhstan. The stated agenda was "philanthropic interests," but the real subject was uranium mining to which Giustra was a newcomer. Senator Hillary Clinton publicly criticized Nazarbayev for his poor human rights record, but the Clinton ground game appears to have been a different story.[328]

Goldman Sachs, who has large uranium trading interests, and from who Bill Clinton had just months earlier received $650,000 in speaking fees (Dec. 03, 2004, Apr. 20, 2005, Jun. 06, 2005, Jun. 13, 2005) has subsequently done other energy deals with Giustra, like U.S. Oil Sands Inc.
On Sep. 07, 2005, Bill Clinton's friend Frank Giustra's new company, UrAsia Energy Ltd., won lucrative agreements from Nazarbayev to buy into Kazakhstan's state-owned uranium agency, Kazatomprom, Moukhtar Dzhakishev was its chief executive (who was later arrested for making an allegedly unpatriotic deal with Clinton's friend). The monster deal stunned the mining industry since Giustra had nothing but an unknown shell company.

According to The New York Times, "Just months after the Kazakh pact was finalized, Mr. Clinton's charitable foundation received its own windfall: a $31.3 million donations from Mr. Giustra that had remained secret until he acknowledged it last month [Dec. 2007]. The gift, combined with Mr. Giustra's more recent and public pledge to give the William J. Clinton Foundation an additional $100 million, secured Mr. Giustra a place in Mr. Clinton's inner circle, an exclusive club of wealthy entrepreneurs in which friendship with the former president has its privileges." On Sep. 09, 2006, a year later, Giustra raised another $21 million for the Clinton Foundation at a Bill Clinton's birthday bash organized by Giustra in Toronto. This puts Giustra's total contribution to the Clinton Foundation at at least $152 million.

A few months later (Dec. 2005), Nazarbayev was returned to power in an election that watchdogs said was marred by an "atmosphere of intimidation" and "ballot-box stuffing." After Nazarbayev's victory with 91 percent of the vote, Bill Clinton sent congratulations and praise that contradicted U.S. policy and even Hillary Clinton's skeptical public comments. Privately, the Clintons' interests were polar opposite.

On Feb. 12, 2007, Giustra sold UrAsia to Uranium One for $3.1 billion creating a 700% return on his two-year old UrAsia holding. A year later, Uranium One's stock was in free fall and its chief executive, Moukhtar Dzhakishev, was arrested.
People you trusted are now hijacking the Internet

by Nazarbayev on charges of illegally selling the country's uranium deposits to foreign companies, including Giustra's UrAsia. Later, Russia took over Uranium One with Hillary Clinton's at least tacit approval without disclosing the many donation by Uranium One stakeholders to The Clinton Foundation. See Jun. 29, 2010 for a table of these donations. [328] [329]

261. **On Sep. 29, 2005.** Eclipse released Version 3.1.1. [078]

262. **On Oct. 25, 2005.** Wiki "creator," Ward Cunningham, joined The Eclipse Foundation. He later became "Director of Committer Community Development." From December 2003 until October 2005, Cunningham worked for Microsoft. To this day, every attempt to make a Wikipedia entry for Leader Technologies and social networking inventor, Michael McKibben, has been taken down by censors. They do not want the world to see Leader Technologies and McKibben Wikipedia entries. [233]

263. **On Oct. 26, 2005.** Mark Zuckerberg and James W. Breyer, Managing Partner of Accel Partners LLP, Chairman and largest investor in Facebook, solicited Stanford University students to develop apps for Facebook while Leader’s patent was pending. [079]
Deep State "wet-ware" patent for The Internet of Things

On Nov. 15, 2005, Agilent Technologies, Inc. engineer Richard C. Walker was awarded U.S. Pat. No. 6,965,816 titled PFN/TRAC SYSTEM FAA UPGRDES FOR ACCOUNTABLE REMOTE AND ROBOTICS CONTROL TO STOP THE UNAUTHORIZED USE OF AIRCRAFT AND TO IMPROVE EQUIPMENT MANAGEMENT AND PUBLIC SAFETY IN TRANSPORTATION. USPTO. Walker's long-time patent attorney was Irah H. Donner, Wilmer Cutler Pickering Hale and Dorr LLP, aka Wilmer Hale LLP or Hale & Dorr LLP.

People are labelled "wet-ware" in this patent.[916]

Fenwick client Giovanni Saladino became a Eurotech SpA director, as did a JPMorgan (Italy) principal, John McNeil Wilkie. Son James W. Breyer does not mention his hyper-connected John P. 227. From 2006 to current, Mark Malloch-Brown became a director of Centre for Global Development (CGD) European Advisory Group with Lawrence H. Summers, Facebook, Sheryl K. 228. From 2006 to current, Mark Malloch-Brown was appointed chairman of George Soros' Open Society Foundation (OSF). [1287]

229. In 2006, the U.S. Patent Office turned over evaluation of patents to SERCO, a large consulting company headquartered in Hook, Hampshire, England, United Kingdom. They advertise themselves as "Serco Inc., a leading provider of professional, technology, and management services to the federal government." In short, the U.S. Patent Office gave up sovereignty of America's patent system to a British company. Patents and copyrights are the only two property rights specifically protected by the Founders in the U.S. Constitution Article I Section 8. Clause 8 – Patent and Copyright Clause of the Constitution. [The Congress shall have power] “To promote the progress of science and useful arts, by securing for limited times to authors and inventors the exclusive right to their respective writings and discoveries.” This development betrayed at least the Fifth Amendment that protects personal property rights. The U.S. government is clearly giving up a key value of American economic value. [1021] [1022]

This new film delves deeply into the history of Bohemian Grove where powerful men make decisions that affect the world but are completely hidden from public scrutiny. The Order of Death details how the Grove has been the backdrop for some of the most earth shattering events in human history including the development of the Starwars program and the Manhattan Project.

The Order of Death also features never before seen footage captured by a daring former Grove employee including an astounding look inside the owl worshipped at the Cremation of Care ritual.[610]

240. Bill Clinton was thrown a gala birthday party in Toronto by Canadian Frank Giustra where $21 million was raised for The Clinton Foundation. Including this donation, Giustra had raised $152 million for The Clinton Foundation—after Clinton used his influence to help Giustra land a mammoth uranium mining contract in Kazakhstan with its strongman president, Nursultan A. Nazarbayev. The Clintons and Giustra claim the donations and uranium contract are not connected.[328]
241. **On Sep. 13, 2006**, Bill Clinton was paid a $150,000 speaking fee by Citigroup in New York, a member of the IBM Eclipse Foundation and Facebook underwriter. Rowe Price and Bailie Gifford (Vanguard surrogate) were the two largest outside investors in the Baidu ADR public offering. Facebook's underwriter, Goldman Sachs, was also Baidu's underwriter. Baidu's "Chief of Patents" is a former associate at Fenwick & West LLP, Facebook's securities and patent attorney, and Leader Technologies' former counsel.[290]

On Dec. 12, 2006, Accel Partners LLP’s James W. Breyer, Chairman, Facebook Chairman, incorporated WininChina, Inc. via IDG Technology Venture Investment III, L.P. which was exposed as a secret offshore tax evasion entity by HSBC whistleblower Hervé Falciani on Feb. 08, 2015. [087]

The C.I.A. and Mainstream Media Collusion (Bernstein: 200 journalists controlled by the C.I.A.)

In 2007, Pulitzer Prize winner Carl Bernstein republished *The CIA and the Media* that stated “The CIA's use of the American news media has been much more extensive than Agency officials have acknowledged publicly or in closed sessions with members of Congress . . . A high-level CIA official with a prodigious memory says that the New York Times provided cover for about ten CIA operatives between 1950 and 1966 . . . the New York Times provided cover for about ten CIA operatives . . . Many signed secrecy agreements . . . some signed employment contracts . . . 'The secrecy agreement was the sort of ritual that got you into the tabernacle. After that you had to play by the rules.' . . . separating the American press corps and government was often indistinguishable . . . journalists were put 'on a string' [of control] . . . at least 200 journalists signed secrecy agreements or employment contracts with the Agency in the past twenty-five years.”

Mexican telecom tycoon Carlos Slim—the world's richest man—now owns the New York Times and is the largest single donor to The Clinton Foundation.) Rogue C.I.A. agents? Most assuredly.

C.I.A. formed DROPBOX & admits that its "data exfiltration" is illegal

In 2007-2008, the C.I.A. internally published Triton 1.3 User Guide (undated), "an automated implant for Mac OS X."

More telling, the guide makes reference to "DROPBOX" used for "Exfiltration" data from the target computer.

TECHOPEDIA says "Data exfiltration is the unauthorized copying, transfer or retrieval of data from a computer or server. Data exfiltration is a malicious activity performed through various different techniques, typically by cybercriminals over the Internet or other network. Data exfiltration is also known as data extrusion, data exportation or data theft."[632]

A year later, Uranium One's stock was in free fall and its chief executive, Moukhtar Dzhakishev, was arrested on charges of illegally selling the country's uranium deposits to foreign companies, including Giustra's UrAsia. Later, Russia took over Uranium One with Hillary Clinton's at least tacit approval without disclosing the many donation by Uranium One stakeholders to The Clinton Foundation. See Jun. 29, 2010 for a table of these donations.[328] [329]

Executive Order No. 12958 was modified by Barack Obama in Executive Order No. 13526, 3(b)(9) (Classified National Security Information).[228] making declassification dependent on foreign treaties like the Trans-Pacific Partnership (TPP).

**On May 11, 2007.** Bill Clinton was paid a $170,000 speaking fee by Acxiom Corporation aka Axiom, Inc. (Little Rock, Arkansas) held in London, England UK. Acxiom appears to be one of the main data aggregators for the rogue C.I.A. Deep State shadow government "Dark Profiles" being gathered on all American citizens for the development of a Chinese "social credit score."

Acxiom is a member of the IBM Eclipse Foundation and Facebook partner. Jerry C. Jones, Hillary Clinton's 19-year law partner at the Rose Law Firm, Little Rock, Arkansas, is and has been an Acxiom director, chief legal officer, chief ethics officer, chief social and culture officer, assistant secretary. Another Acxiom director is Thomas F. McLarty, III is a director, Bill Clinton's former chief of staff. McLarty is a member of the Council on Foreign Relations (CFR) and a partner of Henry Kissinger in Kissinger McLarty Associates. [320] [317] [1394] [1396] [1397] [1398] [1399] [1400] [1401]

263. **On Jun. 25, 2007.** Eclipse released Version 3.3. [091]

264. **From Jun. 27, 2007 to Jul. 31, 2009.** Mark Malloch-Brown was appointed Minister of State for the Foreign and Commonwealth (FCO) for Africa, Asia and the United Nations by UK Prime Minister Gordon Brown. This effectively made him the keeper of the Queen's Golden Shares for a great swath of the planet, especially African rare earth mineral mining interests (needed in high technology manufacturing). [1287]

265. **On Jun. 28, 2007.** Lord Mark-Malloch Brown joined the Order of St. Michael and St. George and was thus made a knight by Queen Elizabeth, along with approximately 597 other men and women. [1287]
266. **Between Sep. 17-27, 2007.** Chandler lectured on IPR (Intellectual Property Rights) in St. Petersburg and Yekaterinburg, Russia. Topics included "Problems of managing intellectual property created within the framework of governmental contracts," "Experience of managing intellectual property created at the expense of the federal budget of the US," and "History of intellectual property protection and the distinctions between patent and copyright protection in the USA." We believe it is highly likely that Chandler met with encryption engineers, Yuri Milner, Goldman Sachs, Morgan Stanley, Mail.ru and Digital Sky Technologies (DST), the primary funders of Facebook's pre-IPO stock value pump and dump scheme starting on May 26, 2009.[287]

267. **On Sep. 21, 2007.** Eclipse released 3.3.1.[092]

268. **On Oct. 10, 2007.** Stratfor, a CIA front posing as an independent news analysis organization headquartered in Austin, Texas, compiled a mailing list of organizations targeted to receive regular "free" communications. (Beware Greeks bearing gifts.) This email was released by WikiLeaks on Feb. 27, 2012 as a part of over five million documents leaked from Stratfor. This list of over 100,000 information subscriptions, 36,000 unique persons, and over 344 people upon which Stratfor's chief operating officer, Darryl O'Connor, placed special emphasis. The following summarize the number of unique friends listed in these organizations: Media (34), University of Texas (34), IBM (32), Microsoft (26), Harvard (23), Morgan Stanley (23), Georgetown (16), Dept. of Justice (16), UBS (16), Citigroup (14), George Washington University (14), Yale (13), JPMorgan Chase (12), Ohio State University (12), Duke (10), Stanford (10), Bank of America (9), Wells Fargo (9) and Barclays (3).[215]

269. **On Oct. 21, 2007.** Wal-mart selected SAP AG as its enterprise resource planning software vendor. Wal-mart was both a Stratfor-CIA client and Eclipse member, thus tying SAP AG to lawless C.I.A. operations in the United States. James W. Breyer, Chairman of Facebook, was a Wal-Mart director. Breyer's fellow Facebook director, Peter Thiel who invested the first publicly-known $500,000 in Facebook in the summer of 2004, also supplies In-Q-Tel, aka NSA, with special spy snooping software that enables the agency to access anyone's computer or mobile phone without their knowledge.[220]

On Nov. 27, 2007, the William J. Clinton Foundation registered in Delhi, India Reg. No. 170799 with four directors, including Deepak Verma. Verma was/is a busy Clintonian. He has served and/or served in the following executive capacities for the Clintons:[476]

1. Clinton Health Access Initiative, Pres. / COO
2. Clinton HIV/AIDS Initiative, CEO
3. Clinton Climate Initiative, Senior Advisor

Verma is associated with the dozens of energy sector companies. His directorships parallels the distribution of hundreds of billions of dollars in the Obama energy "stimulus." In some companies Verma was only a director for a month to eighteen months, rarely longer—long enough to cash the Obama energy stimulus siphoned from one of the recipients? Verma exited 20 directorships in energy companies all on Dec. 07, 2011

Concurrently with Verma's 35 energy shell holdings, Mitt Romney listed another energy stimulus beneficiary, AGUA CALIENTE, as a lesor of his land in Nevada. On Aug. 05, 2011, Agua Caliente was acquired by NRG Energy from First Solar where Goldman Sachs had a 5.9% holding. In Aug. 2011, Aqua Caliente received a $967 million Obama energy stimulus.[366] [364]

It would appear that the CEO of the William J. Clinton Foundation in India, Deepak Verma, had prescient knowledge of a coming energy stimulus windfall that he would manage for the Clintons—on the other side of the planet in India, far from the reach of U.S. regulators.

Starting in early 2008
Goldman Sachs and Morgan Stanley executives Verdi Israelian, John Lindfors and Alexander Tamas joined Russian Yuri Milner, DST, Digital Sky Systems to establish offices in London and Moscow—starting well before the late 2008 Summers-managed American bank "bailout."[323] This activity telegraphs Goldman Sachs' foreknowledge of a coming windfall from tens of billions of American taxpayer dollars in what appears to have been a contrived banking "crisis" designed to feed billions of dollars into Deep State coffers. Some of these funds were sent to London and Moscow, then routed through Dubai banks and used to purchase Facebook pre-IPO "dark pools" stock sold by JPMorgan, Goldman Sachs and Morgan Stanley.[322]

On Jan. 9-11, 2008
Larry Summers was paid $180,000 for three days of speaking fees by Skagen Funds (Scandinavia) with offices in Iceland where, according to the narrative, the 2008 bank mortgage defaults began. Iceland has 323,000 people—the size of South Aurora, Colorado, ranked the 72nd largest city in the U.S. The notion that South Aurora's bank defaults could cause a global banking meltdown is laughable. 272. **On Feb. 14, 2008**, Larry Summers was paid $25,000 in speaking fees by Price Waterhouse, who paid Bill Clinton $400,000 in speaking fees in 2012.

274. **On Mar. 03, 2008**, Larry Summers was paid $45,000 in speaking fees by Citigroup. Eight months later, Summers gave $46 billion to Citigroup in the TARP bank bailout. Citigroup's unregulated profligacy began in 1999 with its Traveler's insurance merger after Summers used his influence to repeal the Glass-Steagall Act. Citigroup is a Facebook underwriter. Citi Foundation has donated up to $5.25 million to The Clinton Foundation. [Citigroup has paid Bill Clinton $700,000 in speaking fees.][319]

Wikileaked Stratfor (CIA) documents reveal a *Who's Who* of the American military-industrial complex were targeted for "consulting" and "information" services. Stratfor salespeople Jay Joe de Feo and Ronnie Oldham reported the following prospects, many of whom became Stratfor-CIA clients: [219]

On Apr. 16, 2008, Larry Summers was paid $135,000 in speaking fees by Goldman Sachs. Seven months later, Summers gave $13 billion to Goldman Sachs in the TARP bank bailout. Goldman has paid Bill Clinton $1 million in speaking fees. Goldman Sachs is a Facebook underwriter. Goldman Sachs has donated up to $100,000 to The Clinton Foundation. 285. **On Jun. 20, 2008**, the Clinton Foundation compiled a list of recipients of $543 million for an epic 1,146 projects. The recipients read like a Who's Who of future Obama Administration insiders, like Debbie Wasserman Schultz and Patrick F. Kennedy, among hundreds. The evident purpose of these fundings was to buy the coming vote on the bank bailout in Nov. 2008.

286. **On Jul. 30, 2008**, Larry Summers was paid $87,500 in speaking fees by Lehman Brothers (purchased by Barclays). Barclays has paid Bill Clinton $325,000 in speaking fees. Barclays is a Facebook underwriter. **Summers Fee Table.[319]**

She was Hillary Clinton's Director of Policy Planning at the U.S. State Department between Jan. 2009 and Feb. 2011. Larry Summers was paid $112,500 in speaking fees by State Street Corporation. One month later, Summers gave $3 billion to State Street in the TARP bank bailout. State Street Corp is a Facebook underwriter.

CNN Money Fortune published "The new valley girls" featuring Sheryl K. Sandberg (Facebook COO), Gina Bianchini (Ning CEO), Sukhinder Singh Cassidy (Google, Asian and Latin American ops) and Theresia Gouw Ranzetta (Accel Partners LLP partner).
On Oct. 14, 2008, Fenwick & West LLP applied for a Facebook 12(g) exemption from the 500-shareholder 12(g) restriction for private companies. Fenwick is Leader Technologies’ former legal counsel and did not seek a written conflicts of interest waiver before representing Facebook. This is an evident violation of the Rules of Professional Conduct Rule 1.9 (Duties to Former Clients: "a) A lawyer who has formerly represented a client in a matter shall not thereafter represent another person in the same or a substantially related matter in which that person's interests are materially adverse to the interests of the former client unless the former client gives informed consent, confirmed in writing.").[100]

On Oct. 15, 2008, SEC chief counsel, Thomas J. Kim (a former attorney for Latham & Watkins LLP, James W. Breyer, Accel Partners LLP’s attorney at the NVCA), granted an unprecedented exemption, which opened the door to tens of billions of dollars in sales of Facebook private stock by Goldman Sachs in "dark pools," ostensibly decried by the incoming Obama nominee, Mary L. Schapiro, in numerous speeches[101] and even her Senate confirmation hearing. However, Schapiro held over 50 such dark pool investments herself—more than any other key Obama cabinet appointee.[102] Fenwick did not seek a conflicts waiver from Leader.

On Oct. 19, 2008, Larry Summers was paid $135,000 in speaking fees by McKinsey & Co. McKinsey has paid Bill Clinton $150,000 in speaking fees. Summers' serial employee and Facebook chief operating officer, Sheryl K. Sandberg, was employed by McKinsey after leaving Summers' employ at the Treasury Department. McKinsey has donated up to $250,000 to The Clinton Foundation. A former McKinsey managing director and Harvard Law graduate, Peter Binas, who is now at The Schooner Foundation, has donated up to $100,000 to the Clinton Foundation.[320] Summers Fee Table.[319]
On Oct. 28, 2008, the TARP Bank "bailout" taxpayer funded give away amounts were announced. Many if not most of the members of Congress who approved this financing held substantial investments in companies underwritten by these banks, if not these banks themselves. Members of the judiciary changed their ethics rules without public hearing on Mar. 14, 2001 that allowed a "safe harbor" concept (not even an opinion, policy or advisory, just a concept that has been universally adopted without legal challenge) where they could hold stock through mutual funds without disclosure in corporations who were litigants in their courts. Members of the Deep State shadow government bureaucracy adopted the "safe harbor" concept.[759]

Harvard Law School lawyer and community organizer, candidate, Barack H. Obama, first uttered the phrase "we are five days away from fundamentally transforming the United States of America." Earlier, on May 14, 2008, fellow Harvard Law School lawyer, Michelle Obama, parroted Slaughter's New World Order propaganda: "We are going to have to change our conversation; we're going to have to change our traditions, our history; we're going to have to move into a different place as a nation."[286]

On Nov. 3, 2008, Republican tech "guru" Michael Connell, technology consultant to Karl Rove, the Bush family and John McCain gave a devastatingly revealing deposition about his knowledge of alleged 2004 Presidential election voting fraud in a racketeering lawsuit brought against Republican political consultant Karl Rove in King Lincoln Bronzeville Neighborhood Assn., et al., vs. Ohio Secretary of State, et al., 06-cv-745-ALM (S.D. OH 2006)(Filed: 07/15/11). The lawsuit alleged that a "Man-in-the-Middle" scheme was used to shift votes from John Kerry to George W. Bush on election night via Rove's SMARTech website in Chattanooga, TN.[418] [419] [420]

Direct Threats on Michael Connell's Life

Prior to his deposition, a tipster warned that "Connell is in danger." The tipster first said that Rove wanted Connell to "take the fall" regarding election rigging and that if Connell did not, he would cause Connell's wife (his business partner) to be subject to criminal accusations. Closer to the deposition, the tipster warned that Rove had upped the anti to a direct threat on Connell's life if he did not protect Rove and his vote-rigging network. The tipster was Jeff Aberbeck, CEO of SMARTech, Chattanooga, TN, the Republican Party go-to website hosting site that Connell had supported for years.[422]

On Dec. 19, 2008, six weeks later (see below), Connell, an experienced pilot, was killed in a plane crash on approach two miles from his local Akron-Canton Airport. The Piper Saratoga wreckage was cleared from the crash site at an abandoned house two miles from the airport the same night, in addition to numerous other suspicious circumstances.

On Nov. 4, 2008, Barack H. Obama elected 44th President of the United States.
301. (Summers-managed) T.A.R.P. U.S. Taxpayer-Funded Bailout Beneficiaries

On Nov. 4, 2008
Goldman Sachs, Morgan Stanley, State Street Corp, Citigroup, American Express and JPMorgan given approx. $105.7 billion in TARP "bailout" funds by their crony, Larry Summers, director of the National Economic Council where Marne L. Levine (Deutch) became his chief of staff.

These financial institutions paid off Summers and the Clintons, so they played, while their rivals like Bear Sterns, AIG, Lehman Brothers and Merrill Lynch disappeared.

302. C.I.A. Apple Mac Exploitation

On Nov. 6, 2008, the C.I.A. internally published SeaPea v2.0 - User Guide for exploiting Apple Mac OSX 10.4.X through 10.5.X.

SeaPea hijacks Apple Macintosh computers undetectably, below the operating system, so that it continues to operate even when the infected target computer is rebooted.

SeaPea even includes a stealth feature that deletes itself if it is "unable to hide" its files, directors, connections and running programs.[630]
On Nov. 10, 2008, Lawrence Summers was appointed director of the National Economic Council, and thus, overseer of the bank bailout by Barack Obama. The fox was assigned to guard the hen house. Immediately, many tens of billions of dollars in bailout funds began flowing through Goldman Sachs and Morgan Stanley. Substantial amounts were sent overseas to unknown recipients, much of it likely via JPMorgan, Goldman Sachs and Morgan Stanley European operatives working with Barclays, Credit Suisse and Deutsche Bank. Senator Chuck Grassley learned a year later that at least $6 billion went oversees to undisclosed locations.

On Nov. 12, 2008, Larry Summers was paid $45,000 in speaking fees by Merrill Lynch (purchased by Bank of America). One month later, Summers gave $46.8 billion to Bank of America in the TARP bank bailout. Bank of America is a Facebook underwriter. Merrill Lynch has donated up to $250,000 to The Clinton Foundation.[320] Summers Fee Table.[319]

On Oct. 13, 1978, The Senior Executive Service (SES) was created as Title IV in the Civil Rights Reform Act of 1978 under President Jimmy Carter.

Leader sued Facebook for patent infringement of U.S. Patent No. 7,139,761, McKibben et al, Dynamic Association of Electronically Stored Information with Iterative Workflow Changes—The patent for social networking

On Dec. 12, 2008, the Foreign Intelligence Surveillance Court (FISC, also called the FISA Court) granted almost dictatorial powers to the U.S. Attorney General to spy on Americans, signed by Judge Reggie B. Walton, a James P. Chandler, Eric H. Holder, Jr., David J. Kappos (IBM) colleague. This opinion was declared unconstitutional by the Second Circuit Court of Appeals on May 07, 2015. However, it gave Eric Holder the excuse he used to steal the privacy of American citizens during most of the Obama Administration nonetheless.

On Dec. 19, 2008, at about 17:53 EST a Piper PA32R 31-10 N9299N "impacted terrain" and burst into flames during a nighttime instrument landing in clear weather. The pilot, Michael Connell, was killed. Six weeks earlier, on Nov. 03, 2008, Connell had given devastatingly revealing deposition about his knowledge of alleged 2004 Presidential election voting fraud in a racketeering lawsuit brought against Republican political consultant Karl Rove in King Lincoln Bronzeville Neighborhood Assn., et al., vs. Ohio Secretary of State, et al., 06-cv-745-ALM (S.D. OH 2006)(Filed: 07/15/11). The lawsuit alleged that a "man-in-the-middle" scheme was used to shift votes from John Kerry to George W. Hillary Clinton's version of the 18.5 sec gap in the Nixon Tapes that brought down his presidency?

**Jan. 21, 2009 to Mar. 18, 2009** during the formative days of the organization of the State Department (and coordination of secret communications systems with fellow globalists at The Clinton Foundation, The IBM Eclipse Foundation, James P. Chandler, III, the NSA and George Soros), Hillary Clinton and her Williams & Connolly LLP attorneys failed to provide any emails from this period when the conspiracy to evade national secrets laws via private servers in her Chappaqua, NY residence basement was being investigated by the FBI.[489]

"There were no e-mails provided by Williams & Connolly to State or the FBI dated from January 21, 2009 to March 18, 2009 . . ."

(FBI) There were no e-mails provided by Williams & Connolly to State or the FBI dated from January 21, 2009 to March 18, 2009. FBI investigation identified an additional 18 days

FBI (Released Sep. 03, 2016), Hillary R. Clinton Interview Part 1 of 3. Federal Bureau of Investigation, p. 27.

However, Hillary testified to the House Oversight Committee that she did not begin using her private email server until Mar. 18, 2009. This Mar. 18, 2009 date was evidently selected as an excuse for withholding damning emails before that. Any reasonable person can see that after being so eager to get her private email system set up prior to her appointment as Secretary of State on Jan. 21, 2009, it is not plausible that she would then wait until Mar. 18, 2009 to start using it—four days before she signed her Nondisclosure Agreement. She will argue that she was not yet obligated to use State Dept. systems yet. While that might satisfy unscrupulous attorneys looking to use their insider knowledge to sneak things by an unsuspecting public, it does not satisfy American citizens who trusted her with the moral spirit of these regulations and practices as well as their letter.

Hillary Clinton signed a "Sensitive Compartmented Information Nondisclosure Agreement" (NDA) promising to be legally bound to uphold the public trust before being granted access to the nation's most sensitive secrets contained within "Special Access Programs."[408]

Hillary's NDA contains a long and specious Section 13 that makes "controlling" her husband Bill Clinton's Executive Order 12958 (Jan. 01, 1995). The author of this executive order was most likely James P. Chandler, III who was in the throes of authoring and lobbying Congress to pass the Economic Espionage Act and Federal Trade Secrets Act, that was subsequently enacted on Oct. 11, 1996, along with the False Statements Accountability Act that made lying to Congress and the courts legal. [409]

325. **On Feb. 20, 2009**. Leader filed for discovery of Zuckerberg’s Harvard information (Note: This information was never provided; eventually Facebook claimed it was lost; then it was found magically two days after the Federal Circuit denied Leader’s appeal).

326. **On Mar. 18, 2009** according to her House testimony, Hillary Clinton began using a private server for government purposes.[265]
On Mar. 21, 2009. Hillary Clinton promoted her use of Facebook as a diplomacy tool, thus clearly prejudicing Leader Technologies' patent infringement claims against Facebook in Leader v. Facebook, which was only four-months into the proceedings. State Department email (using Hillary's personal server email account hdr22@clintonmail.com): "They can keep up virtually with her [Hillary Clinton's] every move through Facebook, Twitter, Flickr and You Tube . . . the department's Facebook friends have increased by 2 1/2 time." Two weeks later, Hillary appointed Alec Ross, an Obama campaign operative. [309]

In Apr. 2009. Someone leaked the unmasked name of Congresswoman Jane Harmon to the press. According to news reports, the Bush administration NSA incidentally recorded and saved Harmon’s phone conversations with pro-Israel lobbyists who were under investigation for espionage. The story was first broken by Congressional Quarterly's Jeff Stein. [799]

On Apr. 06, 2009. 37-year old Alec Ross, former Obama campaign tech policy adviser, joined newly-appointed Secretary of State, Hillary R. Clinton, as senior adviser on innovation. According to The Washington Post, "Alec Ross arrives today at the State Department armed with a new set of diplomatic tools including Facebook, text messaging and YouTube . . . **Article 106a. ESPIONAGE**

FBI Director Robert S. Mueller, III, Secretary of State Hillary Clinton, and their staffs, are subject to the U.S. Code of Military Justice, Article 106a. ESPIONAGE. This operation is evidently associated with the treasonous Clinton Foundation selling of up to 20% of the U.S. uranium reserves to the Russian government. This transaction occurred on **Jun. 16, 2009**, just fifty days later. Director Mueller and Secretary Hillary Clinton appear to have violated Article 106a, among others.[995]

"Any person subject to this chapter who, with intent or reason to believe that it is to be used to the injury of the United States or to the advantage of a foreign nation, communicates, delivers, or transmits . . . shall be punished . . . except if the accused is found guilty of an offense that directly concerns (A) nuclear weaponry . . . (C) communications intelligence . . . (D) any other . . . major element of defense strategy . . . shall be punished by death or such other punishment as a court-martial may direct." USCMJ, Article 106a. ESPIONAGE 10(a)(1).
On May 26, 2009, Russian Yuri Milner invested $200 million in Facebook, leaving everyone in the U.S. to wonder where he came from (Clue: He was a protégé of Lawrence H. Summers and colleague of Sheryl K. Sandberg when they both worked for Summers at the World Bank in 1992). [106]
On Jun. 03, 2009 Facebook began cooperation with the National Security Agency ("NSA") to spy on American users of Facebook, as revealed by whistleblower Edward Snowden. [187]

Fig. 27a— On Jun. 06, 2013, thanks to NSA Whistleblower Edward Snowden, we learned that all the large online "social" providers were creations and certainly tools of their U.S. government spy state cronies in a program called PRISM. This strategy was hatched during the Clinton administration by his spy master advisor, Harvard law professor James P. Chandler, later Leader Technologies' patent attorney. AT&T played too.

Russian state-owned nuclear agency ROSATOM bought 17% stake in Uranium One. Hillary Clinton as Secretary of State was required to approve this transaction as a member of the Committee on Foreign Investment in the United States. One-fifth of United States electrical power is generated by nuclear plants that require uranium. She did not oppose the transaction, although neither did she disclose her many conflicts of interest in having received over $145 million in donations to the Clinton Foundation by various Uranium One stakeholders ($152 million when one accounts for close Giustra collaborators). She also did not disclose Bill Clinton's role and interests in the precursor UrAsia–Uranium One transactions in which his friend and Clinton Foundation donor, Frank Giustra, was a key beneficiary. Both the Clintons and Giustra claim the events were not connected. 

On Jun. 16, 2009

Hillary Clinton solicited funds from Microsoft and GE, two Eclipse Foundation members, for State Department projects using her personal email account HDR22@clintonemail.com. GE was already a Bill Clinton client, and Microsoft became one subsequently. Microsoft has donated up to $500,000 to The Clinton Foundation.

On Jun. 18, 2009

Barack Obama nominated David J. Kappos, IBM chief inside intellectual property counsel, to be director of the U.S. Patent Office. Kappos and Chandler are the bookends of patent troll-ism at IBM. They invented it to monetize IBM "junk patents."
On Jul. 09, 2009, Sidney Blumenthal, unofficial advisor to Secretary of State Hillary Clinton, drafted her inaugural speech to the Council on Foreign Relations in which she endorsed Facebook (while the Leader v. Facebook patent infringement case was in progress; thus prejudicing the proceedings). Hillary said: 

"We must harness the power of new technologies and new means of connecting and communicating. Twitter and Facebook will become as much a part of the diplomatic lexicon as cables and demarches [political step or initiative]"

On Jul. 31, 2009, newly-appointed U.S. Secretary of State Hillary Clinton issued a 60-page SECRET, NOFORN directive for data collection worldwide. The last section contained requests for detailed information clearly designed to carry forward her Facebook and Twitter "eDiplomacy" strategy articulated on Jul. 09, 2009 by her secret adviser, Sidney Blumenthal. This activity illustrates a pattern of racketeering among Clinton, Blumenthal, the U.S. State Department, Twitter and Facebook.

Included in Hillary's priorities was a request for "Information on hacking." This information could be used to protect Facebook and CEO Mark Zuckerberg, who famously describes himself as a hacker. In fact, his address is "1 Hacker Way." This information only further prejudiced Leader Technologies' claims of patent infringement against Facebook. A reasonable person can readily see Clinton's pattern of corrupt conduct as a public official. She is sworn to impartiality, yet evidently favored Facebook—even though the Leader v. Facebook case imperiled Facebook's claims of ownership.
Lawfare

**On Aug. 01, 2009**, Dr. Christi Scott Bartman, Program Director Public Administration and Public Policy, American Public University, wrote her dissertation on LAWFARE. She said this asymmetric warfare is being employed with predictability by "other states and [globalist] international bodies such as the UN." Globalist belligerent George Soros has aligned his Open Society Foundations with the UN.

BARTMAN: "The Soviet Union and the Russian Federation practiced manipulation or exploitation of the international legal system to supplement military and political objectives, or lawfare, via the definition of aggression and aggressive war, from 1933 through 1999. Though also practiced by others, the Soviet Union and the Russian Federation stand out through their use of lawfare earlier and with a greater degree of consistent strategic implementation. They continued to operate on a dual front, both legally in international bodies and through international treaties, and illegally or quasi-legally, through manipulation or exploitation of the system to supplement their military agenda. The consistent definition for aggression and aggressive war lent a degree of predictability to future actions of other states and international bodies such as the UN. The Soviet Union and Russian Federation used the structure they were instrumental in setting up consistently to serve their political and military purposes."

[674]

346. **On Aug. 3, 2009**, Fenwick & West LLP disclosed Leader’s patent as social networking prior art in U.S. Pat. No. 7,756,945, Marc Andreessen et al. (forced by the patent examiner).[108] A year earlier, Andreessen had become a Facebook director on Jul. 1, 2008. However, Fenwick has failed to disclose Leader as prior art in hundreds of Facebook patent filings subsequently. Such non-disclosure is called "nequitable conduct" and is the patent word for fraud.

On Aug. 7, 2009, David J. Kappos, IBM chief intellectual property counsel, was appointed as director of the U.S. Patent Office by Obama in a recess appointment that riled the opposition. Neither Kappos nor Chandler nor Fenwick disclosed their conflicts or sought conflicts waivers from Leader.

Kappos dumped all of his IBM stock and placed most of his financial chips on The Vanguard Group (a big winner in the Facebook initial public offering in 2012).[258]

On Aug. 16, 2009
NSA director James L. Jones reached out to Hillary Clinton on her personal email server. Jones was implementing the most massive and illegal bulk surveillance of Americans by the NSA in the history of the United States. This NSA communication with Secretary of State Clinton is an obvious breach of security.[275]

Hillary Clinton & U.S. State Department paid $120,000 to Facebook to supply "*template for winning elections*"—a.k.a. illegal election rigging by U.S. government officials

**On Sep. 26, 2009** Hillary Clinton and the State Department signed a $120,000 Contract No. SAQMMA09M1870 with Facebook to provide "Facebook pages to build an international community to discuss relevant issues of the day." The Facebook contact was Dmitry Shevelenko whose LinkedIn profile states that between Feb. 2009 and Aug. 2010 he was a Facebook Relationship Manager.

More specifically:[389] Interfering in U.S. elections is a criminal violation of the Hatch Act 5 CFR 733.106(d).[392]

On Sep. 29, 2009 Barack Obama issued Executive Order 13511 titled "Continuance of Certain Federal Advisory Committees," including the National Infrastructure Advisory Council (NIAC) previously authorized by Executive Order 13231.[342]

On Sep. 29, 2009 the Clinton Health Access Initiative, Inc. registered as non-profit corporation File No. 800164348 in Arkansas disclosing Bill and Chelsea Clinton as directors.[474]
On Oct. 16, 2009, Secretary of State Hillary Clinton promoted Facebook via a video appearance by the U.S. State Department-funded Alliance of Youth Movements Summit in Mexico City, Mexico while discovery disputes over Facebook’s stonewalling discovery of Mark Zuckerberg 2003-2004 Harvard files and emails broil in Leader v. Facebook. Interference in judicial proceedings by federal officials and agencies is a violation of 18 U.S. Code 1505 that gave Leader Technologies the right to an impartial tribunal free of government tampering with potential witnesses.[428]

Click image to view U.S. State Department YouTube video. If it disappears, as this sort of damning evidence has a habit of doing in Leader v. Facebook, here is the raw MP4 video file for download. The Facebook promotion is at 37 secs. into the video.

On Oct. 22, 2009, Leader’s attorney Philip A. Rovner stated about the Discovery stonewalling: "with Facebook’s admission that it has never looked for responsive emails for production, it is increasingly apparent that Facebook has not sufficiently searched for responsive information at this stage of the case . . . Facebook is attempting to do an end-around to avoid its discovery obligations."[110]

In Oct. 23, 2009, the following day during a Discovery hearing, Magistrate Judge Leonard P. Stark’s stated: "I am inclined to the view that prior deposition testimony related to what materials were relied on in the development of the Facebook website sounds to me like it may very well prove to be relevant and the production of it could also streamline and thereby make more efficient the deposition process in this case."[111]
On Oct. 27, 2009. four days after Magistrate Stark’s stated inclination to order Facebook to provide the Facebook website development production, Facebook’s legal team changed law firms from White & Case LLP to Cooley Godward LLP (Heidi Keefe).[112] Neither Cooley nor Stark disclosed their evident conflict with Cooley’s justice adviser Stern.

On Nov. 13, 2009. Facebook filed for Leader’s patent to be reexamined by the Patent Office.

On Nov. 16, 2009. Bill Clinton was paid a $150,000 speaking fee by KPMG, New York, a member of the IBM Eclipse Foundation and Facebook auditor.[317]

On Dec. 17, 2009. The Obama administration prosecuted FBI contractor Shamai Leibowitz for leaking documents to the media in April 2009. Leibowitz says he leaked because he felt FBI practices were “an abuse of power and a violation of the law” which he reported to his superiors at the FBI “who did nothing about them.” (According to the ACLU: “Amazingly, the sentencing judge said, ‘I don’t know what was divulged other than some documents, and how it compromised things, I have no idea.’ ”)[799]

On Dec. 21, 2009. Hillary Clinton’s staff circulated a 12-page draft of her upcoming "Internet Freedom" speech in which she promoted Facebook as an "eDiplomacy" tool. The drafters included Derek H. Chollet. Chollet likely helped implement The Clinton Foundation / Soros Open Society Foundations management of the State Department agenda. Chollet is a former adjunct professor at George Washington University (where James P. Chandler is emeritus professor intellectual property). He was on Obama's transition team and worked for Hillary from as principal deputy director of policy planning (2009-2011). Chollet became Obama's senior director on the national Security Council.

Other drafters were Cheryl D. Mills, Nora F. Toiv, Jacob J. Sullivan, Alec J. Ross, Anne-Marie Slaughter, Philip J. Crowley, Tomicah S. Tillemann and Lissa Muscatine. [468] [235]

On Dec. 21, 2009. two months later, in Leader’s fourth motion to compel Facebook to provide the discovery information first requested on Feb. 20, 2009[113]—ten months earlier—Rovner said Facebook’s new excuse was that it would be an "enormous and undue burden" to "provide the historical changes to the Facebook Website [a change log used in any normal development effort involving multiple programmers]."[114]

On Dec. 29, 2009. Hillary Clinton used her personal email account, hrod17@clintonemail.com, to exchange drafts of a speech on "Internet Freedom." The draft of Clinton's speech was redacted by the State Department as classified.[235]
On Dec. 29, 2009

Hillary Clinton used her personal email account, hrod17@clintonemail.com, and identified numerous members of the Eclipse Foundation, namely Cisco, Yahoo, Symantec, eBay, MicroTech, Microsoft, Apple, Twitter, Square (Larry Summers & Marc Andreessen, Facebook directors and advisors), Google, Mobile Accord, Howcast, MexTel (Carlos Slim, see Stratfor leaks), NYU, TechPresident and Harvard, as her guests for a tech dinner. The draft of Clinton’s speech was redacted by the State Department as classified.[236]

On Dec. 31, 2009

Barack Obama issued Executive Order 13526, Classified National Security Information. Sec. 4.3(b)(6) established an inner circle of six agency heads who report to the President on all security classifications. This effectively created a secret White House Intelligence Agency with near dictatorial powers. This order was drafted by Professor James P. Chandler, former Harvard professor, advisor to Obama, Clinton, Holder, Kappos . . . and Leader Technologies, Inc., from whom he confiscated their social networking invention and fed it to this secret intelligence network via IBM and The Eclipse Foundation which was formed on Nov. 29, 2001. The agencies in the secret White House Intelligence Agency reporting solely to the President are:[228]

1. Secretary of State
2. Secretary of Defense
3. Secretary of Energy
4. Secretary of Homeland Security
5. Attorney General
6. Director of National Intelligence (C.I.A.)

2010

In 2010. The IRS secretly began “targeting” conservative groups seeking nonprofit tax-exempt status, by singling out ones that have “Tea Party” or “Patriot” in their names.

Army intelligence analyst Bradley Manning began illegally leaking classified information to WikiLeaks revealing, among other matters, that the U.S. is extensively spying on the United Nations.

Obama administration pursued espionage charges against NSA whistleblower Thomas Drake. (According to the ACLU: spy charges were later dropped and Drake pled guilty to a misdemeanor. The judge called the government’s conduct in the case “unconscionable.”)[799]
Hillary's "Internet Freedom" speech signaling George Soros / Facebook domination of State Department agenda

On Jan. 21, 2010 - Hillary Clinton delivered her "Internet Freedom" speech in which she promotes social networking numerous times (an obvious reference to Facebook, without naming Facebook due to the pending Leader v. Facebook patent infringement lawsuit), social networking (Facebook by inference), Google and George Soros Open Society Foundations grantees and funders including, Global Network Initiatives, Microsoft, Freedom House, The Aspen Institute. [469] [235] [471]

Sheryl K. Sandberg, Facebook COO, admits in an email to Hillary and aide Cheryl D. Mills participating in the drafting of Hillary's Internet Freedom speech. This email was stonewalled by the State Department until corruption watchdog Judicial Watch pressed Judge Sullivan to order the release, which he did. [413]

Such naked promotion of social networking cast a pall over the Leader v. Facebook trial. It sent and unmistakable message to U.S. agencies, attorneys who wanted Obama appointments to judgeships (like Leader v. Facebook magistrate Leonard P. Stark), and the courts not to touch Hillary's Internet darlings like Facebook—tampering with witnesses on steroids.

Interference in judicial proceedings by federal officials and agencies is a violation of 18 U.S. Code 1505 that gave Leader Technologies the right to an impartial tribunal free of government tampering with potential witnesses. [428]
371. On Mar. 09, 2010, Judge Joseph J. Farnan issued his Markman Order eviscerating Facebook’s inequitable conduct claim (that Leader had no innovation). [116]

372. On Mar. 16, 2010, Bill Clinton was paid a $175,000 speaking fee by Verisign, Washington, D.C., a member of the IBM Eclipse Foundation and client to Fenwick & West LLP and James W. Breyer, Accel Partners LLP, Facebook’s second largest shareholder. [317]

373. On March 17, 2010, Barack Obama nominated Leonard P. Stark to the Delaware District Court bench where the Leader v. Facebook case was proceeding. Chandler evidently recommended Stark. Vice President Joe Biden sponsored Stark who proceeded to pave the way for State Department (Hillary Clinton) and Patent Office (David J. Kappos) use of Facebook. [255]

374. On Apr. 01, 2010, David J. Kappos, Director, U.S. Patent Office, launched a Facebook page without disclosing a conflict of interest with Leader whose Facebook-inspired reexam was occurring at his Patent Office—a prima facie conflict. [117]
Thereafter, Leader principals were informed that Facebook continued to give lip service to Discovery cooperation while continuing to obfuscate. Leader was subsequently informed that Facebook denied that they had access to or possession of any of Mark Zuckerberg’s and Facebook’s computer hard drives, emails and other electronic media from Facebook’s formative days in 2003-2004 ("Zuckerberg Information").

Leader principals were informed that Facebook claimed that earlier versions of their computer source code did not exist prior to 2009 when Leader’s expert witness, Dr. Giovanni Vigna, University of California, Santa Barbara, forensically examined Facebook’s computer source code. This explanation did not ring true since computer programming source code is the life-blood of any credible software development effort, and is backed up routinely between versions (often called "builds") to avoid loss of valuable work. This practice is especially important when many programmers must work together to write, debug and test each build of a program before releasing it for use. Facebook claimed illogically that they had kept no build backups for the first five years of their existence.

On May 25, 2010, Bill Clinton was paid a $175,000 speaking fee by Vista, Chicago, Illinois, a member of the IBM Eclipse Foundation.[317]

On May 26, 2010, Bill Clinton was paid a $175,000 speaking fee by Visa, Washington, D.C., a member of the IBM Eclipse Foundation and Facebook supplier.[317]

On May 28, 2010, The government secretly applied for a warrant to obtain Google email information of Fox News reporter James Rosen in a leak investigation, without telling Rosen.[799]
On Jun. 04, 2010, in Mark Zuckerberg’s deposition, Leader principals were informed that Zuckerberg was instructed by Facebook attorney Heidi L. Keefe, Cooley Godward LLP, not to answer any questions about his admitted hacking activities while at Harvard in 2003-2004:

BY MR. ANDRE [Leader counsel]:

"Q. I’ll ask the question again. Mr. Zuckerberg, did you hack into the Harvard servers to get the photographs of the students to use in Facemash?

MS. KEEFE [Facebook counsel]: Same objection and this time I instruct you not to answer

BY MR. ANDRE:

Q. Are you taking your counsel’s advice?

BY MR. ZUCKERBERG:

A. Yes."[118]

Leader principals were informed that the denial of access to the historical Facebook information, and Zuckerberg’s refusal to answer any questions about his Harvard hacking activities precluded Leader from obtaining any facts from Facebook about its 2003-2004 formative period, other than what was publicly available. Leader was thus forced to go to trial without these facts which were important to Leader’s willfulness claim, and which may have generated new claims based on the truths uncovered.

On Jun. 15, 2010, David J. Kappos, U.S. Patent Office Director, spoke at Peking University School of Transnational Law as guest of Hillary Clinton and the U.S. Department of State. Source: Judicial Watch FOIA releases of Hillary Clinton’s private email server.[245]
Three weeks before *Leader v. Facebook* trial start, Obama forced his unconfirmed nominee, Leonard P. Stark, to become trial judge in this case.

On Jun. 24, 2010, freshly nominated Magistrate Judge Leonard P. Stark appointed to replace *Leader v. Facebook* trial Judge Joseph J. Farnan. This move contradicted Farnan's prior statements of interest in presiding at the trial. Stark immediately allowed Facebook to add a new on-sale bar claim and blocked Leader from conducting additional discovery on the new claim. Stark's ruling blocked Leader from deposing James P. Chandler, a material witness as well as a subject matter expert. Such conduct is a evident abuse of discretion and violation of Leader's due process right to prepare defenses on the new claim.

On Jun. 24, 2010, Marne L. Levine (a.k.a. "Marnie") left the White House as Special Assistant to the President for Economic Policy, and previously as Chief of Staff to Larry Summers, Director of the National Economics Council, to become Facebook's Vice President of Global Public Policy. [303]
On Jun. 27, 2010, John T. Chambers, CEO, Cisco, an IBM Eclipse Foundation member, committed $1 billion in Russia to "drive entrepreneurship and sustainable innovation." The funds came with a fivephase collaborative plan, which will see Cisco support the Skolkovo Innovation Center Project, establish a second global headquarters for Cisco’s Emerging Technologies Group in Skolkovo and foster development and innovation in technology. Skolkovo was a key element in Hillary Clinton's pay-to-play Russian Reset. Google and Intel also jumped on board. Cisco, Google and Intel are all Clinton Foundation donor along with several dozen other companies involved in Skolkovo.

[430] [431]
On Jun. 29, 2010, Bill Clinton was paid $500,000 for a speech by Renaissance Capital, a Moscow, Russia investment bank with ties to the Kremlin. Renaissance assigned a "buy" rating to Uranium One stock this same month in which the Russian state-owned nuclear agency, ROSATOM, sought controlling state in Frank Giustra's company.

In 2005, Bill Clinton had used his influence for his friend, Frank Giustra (and likely for Goldman Sachs), to purchase valuable mining rights in Kazakhstan for Giustra's fledgling company, UrAsia Energy Ltd. Within two years, UrAsia was purchased by Uranium One that quickly ran into cash trouble and was sold to Russia, prompting the arrest of Kazatomprom's (the Kazakh seller) chief executive, Moukhtar Dzhakishev. Secretary of State Hillary Clinton did not oppose the Russian stake in Uranium One on or about Jun. 29, 2010, and she did not disclose her and Bill's substantial conflicts of interest surrounding the Uranium One deal. Numerous stakeholders in Uranium One had made contributions to various Clinton Foundations, as shown in the table below. [329]

386. **On Jun. 30, 2010** Bill Clinton was paid a $100,000 speaking fee by DocuSign, San Francisco, California a member of the IBM Eclipse Foundation.\[317\]

387. **On Jul. 8, 2010** (11 days before the Leader v. Facebook trial), Barack Obama appointed Theodore B. Olson, Gibson Dunn LLP, as well as 10 other attorneys with close Facebook ties) to be a member of the Council of the Administrative Conference of the United States. Thomas G. Hungar, Olson's law partner and fellow protégé of Chief Justice John G. Roberts, Jr., became Facebook's appeals attorney in Leader v. Facebook on May 18, 2011.\[354\]

388. **On Jul. 14, 2010**. Bill Clinton was paid a $175,000 speaking fee by Microsoft, Washington, D.C., a member of the IBM Eclipse Foundation, Facebook supplier and large Facebook shareholder. Microsoft has donated up to $500,000 and Bill and Melinda Gates, Microsoft's founder, up to $25,000,000 to The Clinton Foundation.\[320\] \[317\]
On Jul. 18, 2010, Leader opposed Facebook’s introduction of substantial new on-sale bar evidence on the eve of trial—despite the legal requirement in 35 U.S.C. § 282 for Facebook to notify Leader in writing at least 30 days before trial of "the name and address of any person . . . as having previously used or offered for sale the invention of the patent in suit." Judge Stark allowed the new evidence and denied Leader the opportunity to depose the witnesses, or to have technical experts evaluate the evidence.[175]

On July 19, 2010, the Leader v. Facebook patent infringement trial began.

Leader v. Facebook trial split verdict

On Jul. 28, 2010, the Leader v. Facebook jury returned in a split verdict. Leader proved that Facebook infringes Leader’s patent on 11 of 11 claims and that there was no prior art. Facebook prevailed on an "on-sale bar" claim—a claim not asserted until Jun. 24, 2010, three weeks before trial, and not proven according to the well-settled Pfaff and Group One evidence tests.[120]

On Aug. 03, 2010, Thomas G. Hungar, Gibson Dunn LLP, represented the Federal Circuit judges and the Federal Circuit Bar Association ("FCBA") in a conflicts of interest case involving Chief Judge Randall R. Rader. Subsequently, the Leader v. Facebook panel of judges, as members of the FCBA, was silent about their prior reliance on Hungar’s legal counsel.

U.S. State Dept. collaboration with CGI (Clinton Global Initiative) re. "outreach to the Muslim World"

On Aug. 19, 2010, Hillary Clinton, Jake Sullivan, Huma Abedin, Cheryl D. Mills and Anne-Marie Slaughter email reviewing the Clinton Global Initiative (CGI) "outreach to the Muslim World" with Partners For a New Beginning (PNB) that includes members of the IBM Eclipse Foundation: Intel, Cisco, The Case Foundation, Exxon and Morgan Stanley.[429]

395. On Aug. 25, 2010, Leader asked the court to set aside the on-sale bar verdict for lack of evidence and failure to apply the well-settled Pfaff and Group One legal tests. [122]

397. On Sep. 15, 2010, Bill Clinton was paid a $175,000 speaking fee by Deloitte & Touche, Las Vegas, a member of the IBM Eclipse Foundation.[317]

398. On Sep. 16, 2010, Russian Yuri Milner changed the name DST to Mail.ru; Milner was by then Facebook’s largest outside investor.
On Sep. 16, 2010

Christina Sass, Clinton Global Initiative (CGI) program director, sent a 62-page CGI leadership email and briefing to two U.S. State Department ambassadors. The primary recipient was Melanne S. Verveer, Hillary Clinton's first-ever Ambassador-at-large for Global Women's Issues. Verveer's husband, Philip L. Verveer, U.S. State Department Ambassador of Telecommunications also received the email.

Also copied on the email were Rachel B. Vogelstein, Dept. of State director of global women's issues, and Giulia Marchiori, CGI government relationships director.

The documents reveal a revolving door relationship among Barack Obama, the State Department, Bill & Hillary Clinton and The Clinton Foundation, also called the Clinton Global Initiative (CGI). In fact, it appears that CGI was running State Department policy. It reveals over 600 companies, organizations, and individuals supporting The Clinton Foundation with tens of billions of dollars in projects, mostly outside the United States. They include numerous Clinton Foundation and Hillary campaign donors, including Goldman Sachs, JPMorgan, Barclays Bank, Citigroup, World Bank, Accel Partners (In-Q-Tel – C.I.A., Facebook), Microsoft, Cisco, IBM, John Podesta, Carlos Slim (part owner of The New York Times), Frank Giustra, Uranium One and Qualcomm, among many.

On Oct. 01, 2016, Philip L. Verveer, Obama chief legal advisor for the hand off of the management of ICANN management (Internet Corporation for Assigned Names and Numbers) of Internet domains to globalist forces. However, the Clinton Foundation donors listed above were primary beneficiaries of the ICANN hand off. Therefore, Barack Obama and Verveer were duty-bound to recuse themselves from these decisions. Failure to recuse was illegal. Both men signed ethics statements promising to "avoid even the appearance of impropriety."[496]

“Brennan is behind the witch hunts of investigative journalists learning information from inside the beltway sources,” writes one Stratfor official to another.

The email continues: “Note — There is specific tasker from the [White House] to go after anyone printing materials negative to the Obama agenda (oh my.) Even the FBI is shocked. The Wonder Boys must be in meltdown mode…”

“The Wonder Boys” reportedly refers to the National Security Agency (NSA). Brennan later becomes President Obama’s CIA Director. [799]
Hillary Clinton & U.S. State Department paid $265,000 to Facebook to supply "template for winning elections"—a.k.a. illegal election rigging by U.S. government officials

On Sep. 30, 2010
Hillary Clinton and the State Department signed a $265,000 Contract No. SAQMMA09M1870 with Facebook to provide "Facebook pages to build an international community to discuss relevant issues of the day." The Facebook contact was Dmitry Shevelenko whose LinkedIn profile states that between Feb. 2009 and Aug. 2010 he was a Facebook Relationship Manager. More specifically:[390]

Dmitry Shevelenko LinkedIn Profile:
"Politics and November 2010:
Developed Facebook's political advertising go-to-market strategy for the November 2010 elections. Worked with [U.S. government] agencies and campaigns and help them use Facebook Ads & Pages to drive awareness, persuasion, fundraising, and votes. Established a template for winning elections using advanced Facebook marketing."[391]

A previous contract under the same contract number for $120,000 was awarded a year earlier on Sep. 26, 2009.

**On Dec. 21, 2010**. Senator John Barrasso sent President Obama a letter seriously questioning the advisability of allowing the Nuclear Regulatory Commission (NRC), with Secretary of State Hillary Clinton's sign off, to approve the sale of 20% of America's uranium reserves to Russian Uranium One via Russian Atomredmetzoloto (ARMZ). The NRC's response (also included in the footnote) failed to disclose Hillary Clinton's astounding conflicts of interest involving Bill Clinton, Frank Giustra, UrAsia, ARMZ and Uranium One. It should be noted that the NRC failed to disclose in the letter Bill Clinton's close friend Frank Giustra and major Clinton Foundation donor and partner, including the Clinton Giustra Enterprise Partnership (CGEP) and the Clinton Giustra Sustainable Growth Initiative (CGSGI), but rather, used this convoluted reference: "U.S. subsidiaries of Uranium One Inc. (the formerly Canadian, now Russian-owned firm that is the parent of the two U.S. subsidiaries)." It appears to a reasonable person that the NRC was covering up for the Clinton Foundation pay-to-play activities.[846]

**On Dec. 27, 2010**. Despite Sen. John Barrasso's critical questions about national sovereignty surrounding deals with Russian Uranium One and ARMZ, the NRC rushed ahead and published a description of the uranium rights on U.S. properties sold to Uranium One and AMRZ, stating: "The Willow Creek Project, formally known as Irigaray and Christensen Ranch, is composed of two distinct sites (Figure 1). The Irigaray site (Figure 2) contains the Irigaray central processing plant (CPP) and wellfields and is located in southeast Johnson County, approximately 10 miles northeast of Sussex, Wyoming; 43 miles southeast of Buffalo, Wyoming; and 90 miles north-northeast of Casper, Wyoming."

Tellingly, the Nuclear Regulatory Commission did not respond to Senator Barrasso's Dec. 21, 2010 letter until Mar. 21, 2011—three months after the deal was underway.

Is this not treasonous conduct by President Obama and Secretary of State Hillary Clinton? [847]

U.S. intel community vastly expanded its surveillance authority, giving itself permission to spy on Americans who do nothing more than “mention a foreign target in a single, discrete communication.” Intel officials also began storing and entering into a searchable database sensitive intelligence on U.S. citizens whose communications are accidentally or “incidentally” captured during surveillance of foreign targets. Prior to this point, such intelligence was supposed to be destroyed to protect the constitutional privacy rights the U.S. citizens. However, it is required that names U.S. citizens be hidden or “masked”—even inside U.S. intel agencies—to prevent abuse.[980]

416. In early Feb. 2011, after receiving an anonymous tip, CBS News investigative correspondent Sharyl Attkisson began researching the Department of Justice “gunwalking” operation nicknamed “Fast and Furious” that secretly let thousands of weapons be trafficked to Mexican drug cartels. One of the “walked” guns had been used by illegal aliens who murdered U.S. Border Patrol Agent Brian Terry in December 2010. [799]

417. On Feb. 10, 2011, Eclipse released Version 3.6.2. [125]
On Feb. 16, 2011

Hillary Clinton delivered her second "Internet Freedom" speech.[414]
According to Sheryl K Sandberg's Feb. 16, 2011 email to Cheryl D. Mills and Hillary (stonewalled by the State Department in Judicial Watch v. State FOIA and only eventually released by court order).[413]

Sandberg: "Facebook [is] are grateful for the opportunity to offer our ideas and suggestions as Alec Ross and other were field testing elements of the framework—only the most recent example of the effective and productive collaboration we find in working with your senior colleagues. We look forward to continuing to work together and supporting the Secretary in this important work. On behalf of Mark Zuckerberg and myself, please give her our warmest congratulations."

The "field testing elements" Sandberg mentions is undoubtedly the Sep. 30, 2010 contract (and numerous subsequent contracts) Hillary Clinton and the U.S. State Department entered into for Facebook to build a "template for winning elections" directed by Facebook employee Dmitry Shevelenko in clear prohibition of a federal agency from interfering in U.S. elections. See Sep. 30, 2010 entry,[390] not to mention the obstruction of justice by the State Department in Leader v. Facebook since these Facebook employees are all potential witnesses in the case.

Hillary Clinton appointed former Obama political advisor Alec Ross as Director of Innovation on Apr. 06, 2009. According to Sandberg, Facebook assisted Ross in preparing the Internet Freedom speech and "field testing" the election rigging software that Facebook was preparing for the State Department. See Apr. 06, 2009 entry.

The Puffery of Female Criminality

Sandberg also made reference to a sycophantic CNN Money puff piece about her.[416] Tellingly, she disclosed a cozy relationship with CNN in her statement about the article that "we allowed" with regard to the article's content.

Sandberg invited Secretary Clinton to a "completely off-the-record" dinner series "I run in my home" named "Women of Silicon Valley." However, she noted the one exception to the confidentiality of this dinner was the CNN puffery article that clearly reinforces hers and Hillary's mutual feminist agenda. Also notable is the CNN URL Sandberg gave to Clinton. That was a link to a private version of the article at CNN carrying a date three weeks before it was published. Further revealing CNN's readiness to allow Sandberg to edit her own press.

Also featured in the CNN puffery article is Theresia Gouw Ranzetta, a longtime employee of Accel Partners LLP, the largest venture capital holder of Facebook.
Facebook's largest outside shareholder is Accel Partners' managing director James W. Breyer. Gouw is the leader Accel manager in numerous Accel Partners limited partnerships that hold Facebook stock.

Tellingly, in the CNN puffery, Sandberg sang the praises of her mentor, former serial employer and Harvard professor, Lawrence "Larry" H. Summers—the evident godfather of this entire NSA Deep Spy State cartel.

Note in the CNN puffery that Gina Bianchini, CEO of Ning, is highlighted. Bianchini's partners is Facebook director Marc Andreessen, thus completing this loop of criminal insiders, all feeding each other's criminality—easily the largest financial crime in the history of the world.

Also highlighted is Google Asian and Latin American representative, Sukhinder Singh Cassidy. Google's central role in the NSA Cartel and theft of Leader Technologies' social networking invention via the IBM Eclipse Foundation is now legend.

CNN puffery gives the illusion of female diversity in Silicon Valley; Sandberg, Bianchini, Cassidy and Ranzetta play along like good little (valley) girls.

Note that the CNN puffery gives the illusion of female diversity in Silicon Valley, when in fact, these women are mere props for the male-dominated NSA Deep State social media spy state corruption. Like the illusion of diversity of choice in social media options, the Deep State also portrays the politically-correct illusion of gender diversity.
Barack Obama's Silicon Valley Pay-to-Play New World Order Dinner

Robert McNamee (Facebook, Silver Lake Partners, Dell, EMC, T. Rowe Price) has donated up to $250,000 to The Clinton Foundation. [320]

On Feb. 22, 2011, CBS’ anchor reporter Sharyl Attkisson broke news about “Fast and Furious” on The CBS Evening News. After the story aired, the government issues an internal memo that sought to “push positive stories” to contradict the news. [799]

“Given the negative coverage by CBS Evening News last week . . . ATF needs to proactively push positive stories this week, in an effort to preempt some negative reporting, or at minimum, lessen the coverage of such stories in the news cycle by replacing them with good stories about ATF.”

423. **On Mar. 14, 2011** Stark affirmed that Facebook was infringing Leader’s patent on 11 of 11 claims, but then refused to set aside the unfounded on-sale bar verdict. In fact, he made nonsensical use of a late nineteenth century criminal decision as his sole support for not overturning the unsupported on-sale bar ruling. That case had never been use in a civil patent case in the history of the United States. [Sounds like Loretta Lynch and James B. Comey's decision not to prosecute Hillary Clinton based on in that case hesitancy to use an old law as the basis for their decision surprising everyone.] This is more evidence that the same group of attorneys are sitting in the NSA Deep State background directing traffic.[126]

**On Mar. 30, 2011** Russian Yuri Milner, DST/Digital Sky, Facebook's largest outside investor overpaid $100 million for a Silicon Valley mansion worth $50 million.[127] Milner and Sheryl K. Sandberg are protégés of former Harvard president, Larry Summers, when he was chief economist at the World Bank. Summers, with assistance of Sandberg and Milner proposed a disastrous Russian voucher system that pundits credit with spawning the current Russian oligarch system. Milner’s investor, Alisher Usmanov, is now "the richest man in Russia," and has remarkably avoided all of Obama’s sanctions.[128]

**On Apr. 06, 2011** Glenn Beck and Fox News announced that Beck will leave Fox over controversies surrounding Beck's exposés of Deep State financier George Soros. Soros profited substantially from the Facebook public offering in 2012. He has also profited from preferential regulatory treatment by Barack Obama's Deep State cronies at the Securities & Exchange Commission and the Departments of Commerce, State, Education, Health & Human Services and Energy, to name a few. Beck's departure from Fox cleared the deck to appoint Deep State kingpin, James W. Breyer, Accel Partners LLP, Facebook's 2nd largest shareholder as a Fox director. Breyer was also a Wal-Mart director. The Wal-Mart Foundation and Walton Family have donated up to $10 million to The Clinton Foundation.[320] [297] See also Sep. 02, 2011 below.

Merck Pharma hid vaccine kill switches extracted from monkeys since the 1950s

On Apr. 18, 2011, missing footage of an interview with vaccine pioneer Dr. Maurice Hillemann surfaced. Hillemann discloses that in 1953 Merck Pharmaceuticals produced polio vaccine that contained the cancer causing virus SV-40. The weaponized virus was tested on one million Russians and one million Americans after which the vaccine caused cancer tumors. This deadly "kill virus" or "kill switch" side effect was suppressed in the announcements of a 100% cure rate for the polio virus. Dr. Jonas Salk was heralded a hero of the polio cure, yet no one raised the issue of its deadly cancer side effects caused by SV-40 and other embedded viruses along for the ride.

May 04, 2011. Leader Technologies filed an appeal of the split verdict in Leader v. Facebook at the U.S. Court for the Federal Circuit. Federal Circuit judges involved were Randall R. Rader, Alan D. Lourie, Evan J. Wallach and Kimberly A. Moore who all failed to disclose massive holdings of Facebook interests. Randall Rader was later dismissed from the bench in a corruption case with a Facebook law firm.[1350] [1351] [10]

434. On Jun. 01, 2011. Fidelity (Robert Ketterson) invested $74 million in pre-IPO Facebook "dark pools" shares.[131]

436. On Jun. 14, 2011. Joe Lockhart, former White House Press Secretary for Bill Clinton hired by Facebook as VP of communications.[246]
On Jun. 28, 2011. Obama U.S. Attorney for Arizona Dennis Burke secretly leaks sensitive government information to Fox News, allegedly to retaliate against ATF whistleblower John Dodson in the Fast and Furious case. (Burke is former chief of staff to former Arizona Governor Janet Napolitano.)[799]

On Jun. 29, 2011, Larry Summers joined Andreessen Horowitz right before Facebook paid $1 billion for Andreessen’s client, Instagram. As a result, Summers played on both sides of the deal by simultaneously advising his protégés at Facebook, Sheryl K. Sandberg, chief operating officer, and Marc Andreessen, Facebook director, as well as Andreessen who was invested in Instagram. Such conduct is a material breach of the Business Judgment Rule.[133][1000]

In Aug. 2011, U.S. Attorney Burke resigned while under investigation for the improper leak of sensitive information about Dodson. The Inspector General later confirmed the leak and Burke apologized.[799]

In Sep. 2011, White House operative Schultz invited CBS journalist Sharyl Attkisson and several other national journalists to off the record backgrounder about Fast and Furious documents subpoenaed by Congress. Later, on the phone, Shultz screamed and cussed at Attkisson as she asked questions raised by the Fast and Furious documents.[799]

On Sep. 01, 2011. U.S. Department of State published document storage resource named “American Corners – Quick Info for Partners” that announces Facebook Groups and americanspaces@yahoo.com—insecure sites and email.[247]
On Sep. 02, 2011, James W. Breyer, Accel Partners LLP, Facebook's 2nd largest shareholder, announced as new director candidate for Fox Corp. This followed Glenn Beck's departure for his George Soros exposés, and the likely pressure Soros put on Fox advertisers to drop Beck sponsorships. Soros and Breyer are deeply associated in the activities of the Deep State and the theft of Leader Technologies' invention.

On Oct. 4, 2011, in an internal email, Attorney General Eric Holder’s top press aide Tracy Schmaler emailed White House operative Schultz calling CBS reporter Sharyl Attkisson “out of control.” Schultz replied, “Her piece was really bad for the AG.”

On Oct. 25, 2011, Hillary Clinton received research information on her private email server from aide Jake Sullivan on Provigil, a drug treatment for Parkinson's Disease.

On Nov. 03, 2011, The Eclipse Foundation, IBM and Eurotech provided MQTT messaging technology to Facebook. Quite evident from this timeline is that Facebook stonewalled discovery because they did not want Leader to see The Eclipse Foundation code—which had its origins in Leader’s source code and invention shuffled to Eclipse by James P. Chandler.
450. **On Nov. 18, 2011**, President Obama appointed Evan J. Wallach to the Court of Appeals for the Federal Circuit Court of Appeals. Senator Harry Reid sponsored Wallach, who served as his chief counsel (1986-1987). Wallach was assigned to the *Leader v. Facebook* panel with no prior experience in patent law.

451. **On Nov. 30, 2011**, Stratfor-CIA's annual financial spy report to the board of directors identified 12 of 16 consulting clients who were known IBM Eclipse Foundation members (Cedar Hill Capital [Goldman Sachs], Dell, Deloitte, Emerson, Pritzker, VCU [Virginia Commonwealth Univ.] Qatar, Wal-Mart, Ziff Brothers [Soros' chief security officer, Paul Genzberg's next client], Coca Cola, Hunt Oil, Intel, Northrop-Grumman (TASC), Chevron LATAM, NEW-UNIDENTIFIED, INTL-NOV, INTL-OSCAR). Penny Pritzker was appointed Secretary of Commerce by President Obama on Jun. 26, 2013.[218]

452. **In Dec. 2011**, amid much criticism, Justice Department finally, officially retracted the false letter it had submitted to Congress in February. The letter had stated that the Fast and Furious allegations of gunwalking were untrue.[799]

Slaughter presented nothing novel. Adolf Hitler, long before Anne-Marie Slaughter, successfully harnessed Germany's private companies (e.g., Krupp, Ford, IBM, Volkswagen, Bayer, General Electric, Siemens, General Motors, Mercedes Benz, BMW) to his public goals.

On Dec. 08, 2011, Secretary of State Hillary Clinton spoke at the Internet Freedom Conference in Fokker Terminal, The Hague, Netherlands. In her speech, she specifically identified her intimate relationship with Eric E. Schmidt, CEO of Google and later Alphabet. She began: "Well, good evening, and it’s wonderful to be back in The Hague. I want to thank my colleague and friend, Foreign Minister Rosenthal, a longtime friend, and co-conspirator from time to time, Eric E. Schmidt."

On Jan. 27, 2012, Bill Clinton was paid a $200,000 speaking fee by White & Case LLP, Washington, D.C., a member of the IBM Eclipse Foundation and Facebook counsel in Leader v. Facebook.

On Feb. 01, 2012, Facebook filed a Form S-1 Registration announcing its intention to issue shares to the public. Fenwick & West LLP was Facebook’s lead securities counsel. Fenwick did not seek a waiver of conflicts of interest from Leader.

458. **On Feb. 12, 2012**, Sheryl K. Sandberg, Facebook chief operating officer, exchanged a sycophantic email message with Hillary Clinton and Huma Abedin about:[412]

a. Joe Lockhart's employment as press secretary at Facebook (see Jun. 14, 2011) along with Rahm Emmanuel's former staffer, Sarah Feinberg;

b. A Clinton *Elle* magazine interview with Rachel Combe flattering Sandberg;

c. the "ambition gap" wherein the two women decrying un ambitious women ("hold themselves back and feel less confident than they should");

459. **On Feb. 13, 2012**, at approximately 10:30pm, remote intruders secretly downloaded new spy software proprietary to a federal agency onto CBS reporter Sharyl Attkisson’s work computer. (The software was secretly attached to a legitimate Hotmail email and downloaded in the background after a pop-up ad appeared).[799]

461. **On Feb. 21, 2012**, Bill Clinton was paid a $175,000 speaking fee by UBS, Miami, Florida, a member of the IBM Eclipse Foundation and Facebook underwriter.[317]

One of Park's companies, Castlight Health, actually did a $2 billion public offering (Feb. 4, 2014) while Park worked at the Obama White House.[332] Castlight's underwriters were Facebook's underwriters, Goldman Sachs and Morgan Stanley. [324] Park's company when he came to the Obama White House was Athenahealth. He claimed that he had sold his stock, but many Obama cronies run the company, making Park's claim of impartiality dubious. Athenahealth is a big beneficiary of Obamacare, for which Park was the architect.[320][321]

Park also failed to disclose substantial Chinese involvement in Obamacare via underwriters and stakeholders in Baidu ADR. Baidu revealed a web of interconnections among Park's companies, Athenahealth and Castlight Health, with Obamacare adviser Robert Kocher MD (Obamacare architect and director at Athenahealth and Castlight), Baidu underwriters T. Rowe Price and Baillie Gifford / Vanguard (major Facebook investors), Ann H. Lamont (Oak Investments, Meritech, major Facebook investor) and Baidu's first Mark Zuckerberg-like CEO, Robin Y. Li.[331]
IBM, the original patent troll

Mark Loughridge, CFO, IBM
David J. Kappos, Director, US Patent Office; former IBM chief counsel
Mark E. Zuckerberg
James P. Chandler, III, outside counsel to IBM, Leader Technologies

IBM holds over 67,000 patents, the most in the world. Pundits know well that IBM does not sell their valuable patents. IBM creates and holds good patents. However, in the late 1990's, David J. Kappos and James P. Chandler began a "patent trolling" program to attack the industry with IBM patents of little or no value. The objective was to use IBM market power to cajole license settlements from smaller companies who did not want the expense of fighting IBM. The patents sold to Facebook are of little or no other value than for industry harassment purposes by Facebook's rapacious gaggle of lawyers, including Chandler Law Firm Chartered, Fenwick & West, Cooley Godward, Gibson Dunn, Latham Watkins, Weil Gotshal, Perkins Coie, Orrick Herrington, Skadden Arps, Blank Rome, White & Case and Mayer Brown. Indeed, IBM, Kappos and Chandler are the original "patent trolls."

IBM, Kappos and Chandler were evidently gifting 750 IBM junk patents to their Eclipse offspring, Facebook, so they too could enjoy the benefits of harassing other technology companies going forward. These companies use their market power and public relations firms to flip the patent troll story into disinformation against real inventors. They accuse real inventors of being the trolls who sue the big company for quick money.

Hillary Clinton had two unpublished meetings at the State Department with George Soros, Sidney Blumenthal and Sean Wilentz. The official State Department public schedule either never logged these meetings or censored the record. According to Hillary' private email, Cheryl D. Mills and Jake Sullivan attended. Four days later, Clinton met with Facebook chief operating officer, Sheryl K. Sandberg. Three weeks later, on Apr. 17, 2012, Obama's Patent Officer director, David J. Kappos, ordered an unprecedented third re-examination of Leader Technologies' social networking patent. Six weeks later, on May 8, 2012, the Federal Circuit protected Facebook in Leader's appeal. Eight weeks later, on May 18, 2012, Facebook went public. Eight weeks and three days later, Facebook insiders cashed in $13.26 billion in stock. Certainly an uncanny sequence of events among such busy people.

Patent Office Director David J. Kappos ordered an unprecedented third reexamination of Leader’s patent to the Patent Trial and Appeals Board (“PTAB”), even after Facebook had failed on the same arguments four times previously.

Kappos assigned a former IBM and Microsoft employee, Stephen C. Siu, as chief judge and staffed this PTAB kangaroo court with **IBM, Xerox and Microsoft cronies**—who had collectively issued over 169 patents to those companies. One of the staff attorneys, William J. Stoffel, even lists Facebook interests as conflicts (IBM, Fidelity, Vanguard). Fidelity and Vanguard were two of the largest pre-IPO mutual fund investors in the Facebook. Kappos himself owned up to $1.1 million in Vanguard shares.[140] Not a single Patent Office official involved with the 3rd re-exam disclosed their myriad of Leader and Facebook conflicts.[141] Predictably, on Oct. 17, 2012, this PTAB kangaroo court invalidated the entire patent, mysteriously reversing ten years of opinion to the contrary, and now affirming Microsoft and Xerox prior art, even though a jury had decided otherwise.[142]

Facebook insiders cashed out $13.26 billion of their stock on Day 3 of the initial public offering. This level of insider stock sale so early in an initial public offering is unprecedented.

The insiders included James W. Breyer (Facebook chairman), Ping Li and James Swartz (Accel Partners LLP), Yuri Milner (DST, Mail.ru, Digital Sky Technologies, and third largest shareholder), Mark Zuckerberg, Goldman Sachs, Peter A. Thiel, Meritech Management and Microsoft.

Russian Yuri Milner was a $3.79 billion winner. Milner has been a disciple of Larry Summers since his college days at the World Bank. Milner authored an essay proposing a voucher system favored by Summers to privatize the Russian economy. This reckless proposal was forced upon Russia and gave rise to the mob rule today known as Russian oligarchs. Larry Summers very evidently took advantage of an "insane and unnecessary haste" to destabilize the Russian economy, line his pockets, and pump the pre-IPO Facebook valuation to $100 billion. [128] [267]

Ann H. Lamont, Meritech Management, who netted a paltry $263 million, is married to failed Senate candidate, Edward M. Lamont, grandson of J.P. Morgan. The Lamont financial portfolio reads like a Who's Who of the Facebook IPO. Fidelity, JP Morgan Chase, Morgan Stanley, T. Rowe Price, Microsoft, IBM, even Boston Scientific. They had up to $71 million invested in 81 Goldman Sachs and JPMorgan mutual funds alone. [315]

Most of these shareholders were also clients of Facebook securities law firm, Fenwick & West LLP. [136] This insider trading ignored the normal "lock-up" period that restricts such insider trading. This egregious conduct sparked an epic rant by CNBC's Jim Cramer about Peter A. Thiel netting $633 million, who said on air: "There isn't anything about Facebook is done in the right fashion . . . where are the brokers coming out and saying this isn't right?" Cramer was later muzzled by the network. [314] See this Cramer YouTube rant below.

On Jun. 20, 2012, Security Week computer security analyst Jesus Oquendo published an article titled "Microsoft, the CIA and NSA Collude to Take Over the Internet" in Infosec Island (Security Week) where he has concluded:

"So many people are blurring the lines with technology and politics it is scary."

"... big brother seemed to have their hands in the cookie jar..."

He had determined from his professional insight that:

"They [CIA, NSA and Microsoft] created a completely separate operating system somewhere in the Beltway. Microsoft decided to give the agencies the specific code to make the rogue changes." [651]

485. **In Summer 2012**, the FBI incidentally stumbled across emails revealing CIA Director Petraeus’ affair with his biographer Broadwell. FBI Director Robert Mueller was notified of the affair on a date the government will not disclose. The FBI later said it interviewed Petraeus and Broadwell, and concluded national security hasn’t been breached. The FBI kept all of this information secret. In late summer, on a date the government would not reveal, the FBI notified Attorney General Holder of the Petraeus affair. [799]

486. **On Jul. 01, 2012**, Secretary of State Hillary Clinton improperly used unsecured, personal email domain to email President Obama from Russia, according to the Hillary Clinton FBI 302 agent interview form dated 08-31-2016. [980] [981]
On Jul. 16, 2012, the Federal Circuit denied Leader’s request for an en banc rehearing. The judges remained silent about their financial and relationship conflicts.\[147\]

Leader's CEO, Michael McKibben, learned about this ruling the same day, while conducting a live FoxBusiness interview with Shibani Joshi, even before Leader's attorneys had received notice of the ruling.\[295\] Joshi refused to reveal her source at the Federal Circuit, although it is believed to be the Clerk of Court, Jan Horbaly, who resigned soon after. This is yet more evidence of the judicial / media corruption.

On Jul. 16, 2012, the Federal Circuit Bar Association entered Leader v. Facebook via Edward R. Reines, Weil Gotshal LLP. The judges again failed to disclose their conflicts of interest, especially Judges Kimberly A. Moore and Randall R. Rader. On May 23, 2014, Reines and Rader were caught colluding. This collusion triggered Rader to resign as chief judge and leave the bench.\[148\]
On Jul. 18, 2012, Leader principals first learned about the existence of 28 Facebook computer hard drives and Harvard email archives from 2003-2004, several days after the United States Court of Appeals for the Federal Circuit ruled in favor of Facebook in Leader’s appeal on May 8, 2012. The hard drives had been in the possession of Gibson Dunn LLP (Thomas G. Hungar, Chief Justice John G. Roberts, Jr.’s protégé) during the entire Leader v. Facebook proceeding. Leader first read the depositions of Facebook expert witnesses Michael F. McGowan and Bryan J. Rose, examiners for, LLC, conducted by Dean Boland.

The Stroz Friedberg testimony examined 28 Facebook/Zuckerberg computer hard drives and Harvard emails "[i]n around Sep. of 2010."

According to this sworn Facebook expert testimony, the 28 hard drives were being stored at the offices of Mark Zuckerberg’s personal attorney, McManis Faulkner LLP, and the examination was under the direction of Gibson Dunn LLP attorneys, particularly Mr. Matthew Benjamin.[149]

After reading the Friedberg testimony, Rovner’s suspicions were proven correct—that Facebook stonewalled during Discovery in order to hide the existence of the Zuckerberg Information.

Leader realized that the 2003-2004 Zuckerberg Information to which Facebook had previously denied Leader access during Discovery had been under the control and supervision of Facebook’s attorney, Gibson Dunn LLP, during the entire pendency of the Leader v. Facebook case.

Thomas G. Hungar of Gibson Dunn LLP was the appeals attorney for Facebook in Leader v. Facebook,[150] yet he was silent about the existence of the 28 Facebook/Zuckerberg computer hard drives and Harvard emails.

Leader has been systematically denied the opportunity to do a one-to-one comparison of Leader’s source code, business, technical and prior litigation information with the Zuckerberg Information, despite the Federal Circuit being compelled by motion to act to preserve the hard drives and reveal the conflicts of interest of the judges.
On Sep. 06, 2012. Barack Obama published a research paper on the Senior Executive Service (SES). The paper recommended increased emphasis on the role of SES as a Fifth Column alongside career civil servants. This paper gave him the excuse to eventually issue Executive Order 13714—Strengthening the Senior Executive Service [SES] on Dec. 15, 2015.[1002] [1020]

On Sep. 11, 2012. Islamic extremists launched the terrorist attacks on U.S. compounds in Benghazi, Libya, killing Ambassador Chris Stevens and three other Americans. For two weeks Obama SPOX blamed it on a YouTube video and said it was not a terrorist attack. They repeated this lie to the slain employees' families at Andrews Air Force Base when their bodies were returned to the United States, including Patricia Smith, mother of slain officer Sean Smith.

Hillary has since changed her story about the Patricia Smith exchange. Smith openly and has repeatedly called Clinton "a liar." Hillary Clinton's emails, pried out of the State Department in FOIA requests by Judicial Watch, prove that on the night of the attack, Hillary told Chelsea Clinton that it was a terrorist attack.

Still unpublished stand down orders to rescue these men during the firefight were issued either by Barack Obama or Hillary Clinton, according to military officials who were equipped and ready to respond with overwhelming force. The State Department and Hillary Clinton have stonewalled these disclosures.[265]

Some Obama officials became frustrated with CIA Director Petraeus and his post-Benghazi attack behavior, as he opposed efforts to edit out mentions of terrorism from the public Benghazi talking points. Petraeus deputy Mike Morell was given authority over the edits, and aligned with Hillary Clinton’s State Department against Petraeus’s desires.[799]

NEVER FORGET: May their memories be eternal.

In Oct. 2012, CBS began airing Sharyl Attkisson’s Benghazi stories which relied on whistleblowers and numerous government-linked confidential sources. These sources reported that the Executive Branch was clamping down on leaks to reporters re: Benghazi.

DOJ continued its stepped-up National Security Division cyber efforts, holding specialized training at DOJ headquarters for the National Security Cyber Specialists (NSCS) network and the Criminal Division’s Computer Crime and Intellectual Property Section (CCIPS).

President Obama issued top secret presidential directive on Oct. 16 ordering intelligence officials to draw up a list of overseas targets for cyberattacks. According to The Guardian, the directive also “contemplates the possible use of cyber actions inside the US.”

As CIA Director Petraeus’s interagency relationships became increasingly strained over his stance on Benghazi, unnamed FBI agents reached out to Republicans in Congress to tell about Petraeus’s affair. They eventually landed at the office of Republican majority leader Eric Cantor. With the presidential elections about a week away, Cantor stayed mum on the Petraeus rumors and instead contacted the FBI about them. [799]

The FBI interviews Petraeus and Broadwell a second time.

On Oct. 05, 2012, Bill Clinton was paid a $200,000 speaking fee by Vanguard Group, Washington, D.C., an IBM Eclipse Foundation and top ten mutual fund investor in Facebook. Vanguard's former CFO, Anne Rockhold, is a former director of the National Venture Capital Association (NVCA) and is currently employed by James W. Breyer, Accel Partners LLP, Facebook's second largest shareholder. [317]

On Oct. 10, 2012, Bill Clinton was paid a $200,000 speaking fee by Deutsche Bank in Scottsdale, Arizona, a member of the IBM Eclipse Foundation and Facebook underwriter. Deutsche Bank has donated up to $200,000 to The Clinton Foundation. [320] [317]
On Oct. 11, 2012, Hillary Clinton convened Accountability Review Board (ARB) to investigate State Dept. actions surrounding Benghazi. After the ARB and Congress call for Benghazi-related documents, top Clinton aides Cheryl D. Mills and Jake Sullivan are allegedly present at a document sorting session in the basement of the State Dept., according to Deputy Assistant Secretary Raymond Maxwell, who later told me he witnessed the operation. No law enforcement body contacted or interviewed Maxwell. [265]

On Oct. 16, 2012, Bill Clinton was paid a $200,000 speaking fee by Vanguard Group, Washington, D.C., an IBM Eclipse Foundation and top ten mutual fund investor in Facebook. On Oct. 17, 2012, the PTAB (IBM) kangaroo court, led by chief judge Stephen C. Siu, an IBM/Microsoft crony, reversed itself and invalidated Leader’s entire patent in secret.[152] They did a 180 degree about face on arguments that Facebook had lost four times previously.

On Oct. 18, 2012, Bill Clinton was paid a $175,000 speaking fee by UBS, Pittsburgh, Pennsylvania, an IBM Eclipse Foundation and Facebook underwriter.[317]
501. **On Oct. 23, 2007.** Bill Clinton was paid a $200,000 speaking fee by Goldman Sachs in Newport Beach, California, a member of the IBM Eclipse Foundation and Facebook underwriter. Goldman Sachs has donated up to $100,000 to The Clinton Foundation. Former Goldman Sachs CEO, Jon Corzine, has donated up to $250,000 to the Clinton Foundation.[320] [317]

503. **On Oct. 25, 2012,** Bill Clinton was paid a $206,500 speaking fee by Oracle in Cabo San Lucas, Mexico, a member of the IBM Eclipse Foundation and Facebook supplier.[317]

506. **On Nov. 2, 2012,** the FBI questioned President Obama’s vice chair of the Joint Chiefs of Staff James Cartwright in a leak investigation regarding material in a book written by a New York Times reporter. Cartwright denied being the source (but later admitted he was, and was convicted in the case).[799]
506. **On Nov. 6, 2012**, President Obama defeated Mitt Romney in Campaign 2012. CIA Director Petraeus was scheduled to testify to Congress next week about the Benghazi attacks. Officials claimed this day is the first time Director of National Intelligence Clapper was notified about the Petraeus affair by an unspecified official at the Justice Department. Clapper called Petraeus and urged him to resign.[799]

508. **On Nov. 13, 2012**, the FBI initiated a body of cyber security case investigations that would later relate to CBS' Sharyl Attkisson’s computer intrusions.[799]

509. **On Nov. 7-9, 2012**, Attorney General Holder hosted a national training conference at DOJ headquarters for the expanded efforts of DOJ’s National Security Cyber Specialists (NSCS). The Obama administration said somebody unspecified notified someone at the White House about the Petraeus affair on Nov. 7. The President was reportedly looped in for the first time on Nov. 8 and accepted Petraeus’ resignation on Nov. 9. Petraeus’ planned appearance before Congress to testify on Benghazi was canceled.[799]

510. **On Nov. 13, 2012**, Bill Clinton was paid a $200,000 speaking fee by Bank of America in Palm Beach, Florida, a member of the IBM Eclipse Foundation and Facebook underwriter. Merrill Lynch (acquired by Bank of America) has donated up to $250,000 to The Clinton Foundation. Bank of American Foundation has donated up to $1 million to the Foundation.[320][317]
Leader petitioned the U.S. Supreme Court to overturn the Federal Circuit.[153] Chief Justice John G. Roberts, Jr. did not disclose his conflicts of interest from his substantial Facebook interests or his prior relationship to Facebook's attorney, Thomas G. Hungar, Gibson Dunn LLP.

Leader sued Facebook on Nov. 19, 2008 for willful patent infringement, damages and injunctive relief ("Leader v. Facebook"). A jury trial was held from Jul. 19-28, 2010 resulting in a split verdict.[003] Leader proved that Facebook infringes Leader’s patent on 11 of 11 claims and that there was no prior art. Facebook prevailed on an "on-sale bar" claim—a claim not asserted until Jun. 24, 2010, three weeks before trial.[004] Leader appealed the on-sale bar verdict to the U.S. Court of Appeals for the Federal Circuit on May 04, 2011,[005] then, when the appeals court failed to apply its own well-settled Pfaff and Group One legal tests, Leader petitioned the U.S. Supreme Court on Nov. 16, 2012, but was denied a hearing on Jan. 7, 2013.[006]

On Nov. 26, 2012, David J. Kappos, Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office, announced his intention to leave the agency effective the end of January 2013. Just three weeks earlier, on Oct. 17, 2012, an unprecedented kangaroo court convened in secret and invalidated Leader Technologies' patent for its invention of social networking, despite the fact that Leader had prevailed on identical arguments on four previous occasions, twice in federal court and twice in previous Facebook-inspired reexaminations. See #kappos-fiat-patent-court above.

Bill Clinton was paid a $300,000 speaking fee by Dell, Austin, Texas, a member of the IBM Eclipse Foundation and Facebook supplier.[317]
514. In Dec. 2012, two intelligence-connected sources separately suggested to CBS’ Sharyl Attkisson that she was likely under government surveillance due to her reporting. One source told her the government had pushed the envelope like never before and that the public would be shocked to “learn the extent that the government is conducting surveillance of private citizens.” As Attkisson arranged a forensic exam of her computer, evidence later showed the intruders then attempted to cover their tracks and to erase evidence of their intrusion. However, the erasures left additional forensic evidence.[799]

516. **On Dec. 26, 2012** U.S. State Department published Facebook Part 1: Getting Started with Facebook – A field guide for missions, posts and IRCs. This document was disclosed as a part of a FOIA disclosure in Judicial Watch v. U.S. Department of State.[248]

517. **On Dec. 27, 2012** Sens. Ron Wyden (D-Ore.) and Mark Udall (D-Colo.), who had classified knowledge as members of the Senate Intelligence Committee, publicly warned of the “back-door search loophole” or searches of incidental collection of innocent Americans.

“As it was written, there is nothing to prohibit the intelligence community from searching through a pile of communications, which may have been incidentally or accidentally been collected without a warrant, to deliberately search for the phone calls or e-mails of specific Americans.”

518. **In 2013**, Obama administration brought court martial against Army intelligence analyst Bradley Manning, who had changed his name to Chelsea, for a 2010 leak of classified information to WikiLeaks that revealed American military and diplomatic activities across the world. Manning was sentenced to 35 years in prison, the longest punishment ever given in a U.S. leak case. Oddly, Manning was then pardoned by the very same President Obama on Jan. 19, 2017 who had incarcerated him/her.[799]

519. **In Jan. 2013**, two forensics examinations confirmed unauthorized remote intrusions and monitoring of CBS's reporter Sharyl Attkisson's work and personal computers. The information was not publicly reported at this time.[799]

523. **On Jan. 23, 2013**, Hillary Clinton testified to Senate Foreign Relations Committee and House Foreign Affairs Committee where she uttered her infamous "What difference, at this point, does it make?" about finding out the truth surrounding the murder of four of her State Department employees in Benghazi, Libya and who fabricated the Internet video story.[265]

524. **On Jan. 23, 2013**, the Obama administration prosecuted C.I.A. whistleblower John Kiriakou for leaks to a reporter as he blew the whistle on the C.I.A.’s secret torture program. He was the first C.I.A. officer convicted of providing classified information to a reporter.[799]
524. **C.I.A. DARPA Mind Control Program for Social Media to manipulate political "narratives"**

*On Jan. 29, 2013,* an anonymous whistleblower revealed a secret C.I.A. DARPA (Defense Advanced Research Projects Agency) mind control program conducted by The Center for Strategic Communications based at the University of Arizona. The head of the project, Steve Corman, has worked extensively in the area of strategic communication as it applies to terrorism and "extremism"—or what could be called that targeted Christianity and Islam. The secret government program sought to induce and "the war of ideas." The project was intended to disrupt religious "narratives" with desired propaganda and literally change people's minds.

This project entered its implementation Phase III in the run up to the 2016 Presidential election. The Arizona State University project leaders are experts in social media and received $6.1 million to develop actionable strategies to disrupt "master narratives" (like one's Christian and Islamic beliefs) in the name of controlling extremism. The program focused on finding trigger words and phrases that provoked desired emotional responses by using words in lieu of magnetic resonance pulses to the brain—irrespective of the truth or proper context of the information (aka "virtue signalling"). For example, "Crusades" emotionally triggers some Moslems, as does "Jihad" with some Christians. NSA Clapper's Big Lie

On Mar. 12, 2013, NSA Director James R. Clapper lied to Senator Ron Wyden (D-Ore) and Congress:

Sen. Wyden: "Does the NSA collect any type of data at all on millions, or hundreds of millions, of Americans?"

Gen. Clapper replied untruthfully: "No, sir." rubbing his head.

Sen. Wyden asked, "It does not?"

Still rubbing his head, Clapper hedged, knowing the NSA was engaged in high crimes and he was covering it up: "Not wittingly. There are cases where they could inadvertently, perhaps, collect, but not wittingly."

On Jun. 06, 2013, nine weeks later, NSA whistleblower Edward Snowden revealed that the NSA is involved in a massive bulk data collection program on all American citizens called PRISM. [525] [526] [527]

On Mar. 22, 2013, "Guccifer" hacked Hillary Clinton's emails via aide's account showing that Clinton had received confidential information from a public account. [265]
On May 01, 2013, Marne L. Levine (Deutch) appointed director of Ghegg, an online education company financed by Deep State member Kleiner Perkins.[303]
On Apr. 07, 2013 The Clinton Foundation was renamed The Bill, Hillary & Chelsea Clinton Foundation. The foundation has and/or continues to operate under at least 30 "Fictitious Names" (Arkansas Secretary of State), including the names listed below.

The originating foundation was formed on Oct. 23, 1997 as the William J. Clinton Foundation.

Note: Most news biographies state that Bill Clinton formed his foundation after he left the presidency in 2001. However, the Arkansas Secretary of State public records cited here show the news reports to be uniformly in error.

Williams & Connolly LLP was paid $88,200 in legal fees in 1998. Scandalously, the firm also represented the State Department in stonewalling discovery requests for Hillary Clinton emails related to The Clinton Foundation. See Aug. 23, 2015.

534. **On Apr. 12, 2013**, the government Foreign Intelligence Surveillance Agency (FISA) court secretly approved the latest FBI request to continue obtaining daily telephone records of millions of U.S. Verizon customers. The judge ordered Verizon to turn over the information to the National Security Agency (NSA). This directly contradicted Clapper’s March 12 testimony to Congress. [799]

535. **On May 10, 2013**, after longstanding denials, the IRS admitted to and apologized for targeting Republican Tea Party groups for mischief, which included discussing developing pretenses for prosecution, leading up to the 2012 election. [799]

536. **On May 13, 2013**, the Associated Press (AP) publicly announced that it had learned of the Justice Department’s secret subpoena of phone records for 20 AP reporters, in a leak investigation. Attorney General Holder personally approved the subpoenas, which were issued to Verizon rather than AP. AP called it a “massive and unprecedented intrusion” into news-gathering operations. [799]

537. **On May 17, 2013**, Fox News learned that the Justice Department secretly labeled reporter James Rosen a possible “criminal co-conspirator” and “flight-risk” in obtaining warrants to monitor Rosen’s State Department movements, phone records and emails in a leak investigation starting in 2011. [799]
538. **In Jun. 2013**, the FBI secretly opened a case on CBS' reporter Sharyl Attkisson’s computer intrusions under the auspices of a national security issue. The FBI contacted CBS without Attkisson’s knowledge, but failed to contact or interview Attkisson. (The FBI later withheld Attkisson’s FBI file in its entirety without explanation, and other documents, despite multiple Freedom of Information Act requests.) News of the FBI case involving Attkisson’s computer intrusions are circulated internally to the Justice Department’s national cyber security group, and grouped with a set of cases opened in November 2012.[799]

FBI interviewed U.S. businessman Carter W. Page, who’s lived and worked in Russia, regarding his ongoing contacts with Russians. Page reportedly told FBI agents their time would be better spent investigating the Boston Marathon bombing (which the FBI’s Andrew McCabe helped lead). Page later claimed his remark prompted FBI retaliatory campaign against him. The FBI, under McCabe, will later wiretap Page after Page became a Donald Trump campaign adviser. FBI secretly recorded suspected Russian industrial spy Evgeny Buryakov. It is later reported that Page helped FBI build the case.[980]

539. **On Jun. 05, 2013**, Eclipse released Version 4.3.[155]
On Jun. 06, 2013, NSA Whistleblower, Edward Snowden, revealed that most large online data services providers participate in an NSA program to sweep up all user data into NSA computers for "Big Data" analysis and data mining. The companies revealed are Microsoft (9/11/07), Yahoo (3/12/08), Google (1/14/09), Facebook (6/3/09), Paltalk (12/7/09), YouTube (9/24/10), Skype (2/6/11), AOL (3/31/11), Apple (added Oct, 2012—one year after Steve Jobs died, replaced by former IBMer Timothy D. On Jun. 6, 2013, at a hearing, Sen. Mark Kirk, R-Illinois, asked Attorney General Eric Holder if the NSA spies on members of Congress. Holder answered that the NSA had no “intend” to spy on Congress, but that the issue is better addressed in private. [799]

On Jun. 11, 2013, Thomas G. Hungar, Gibson Dunn LLP, disclosed his close professional relationship to Chief Justice John G. Roberts, Jr. Neither man revealed this conflict of interest due to their prior relationship. [156]

On Jun. 16, 2013, NSA whistleblowers Thomas Drake, William Binney and J. Kirk Wiebe stepped forward to support NSA leaker Edward Snowden. The trio said the NSA "collects huge swaths of communications data from U.S. citizens." They had spent decades in the top ranks of the agency, designing and managing the very data-collection systems they say have been turned against Americans.

When they became convinced that fundamental constitutional rights were being violated, they complained first to their superiors, then to federal investigators, congressional oversight committees and, finally, to the news media.

They said they could not get anyone in Congress, courts, Department of Justice or inspector general's office to pay any attention. They called the misconduct "systemic," "Leviathan surveillance," "criminal," "broad waste" and "abuse." They called Congressional oversight "a joke," "rubber stamp" and a "myth." They said the secret FISA judges have no way to assess the veracity of a surveillance request, so they approve virtually everything. They say Congress has been "misled" and "bamboozled." [407]
544. **On Jul. 02, 2013**, Director of National Intelligence Clapper apologized to Congress for his false testimony in March regarding widespread collection of data on Americans.

545. **On Aug. 06, 2013**, armed Coast Guard agents under the Department of Homeland Security raided the home of reporter Audrey Hudson at 4:30am with a search warrant for her husband’s firearms. As they searched the house, they read Hudson her Miranda rights and confiscated documents that contained “confidential notes, draft articles, and other newsgathering materials” belonging to Hudson including the identities of whistleblowers at the Department of Homeland Security. (Hudson sued and later received a settlement from the government.)[799]

NSA insiders say the protection of this mineral mining is the real reason behind the tragic pretext "Rwandan Genocide" in which over one million Rwandans lost their lives.[665]
In Sep. 04, 2013, James B. Comey was appointed FBI Director by Barack Obama. He replaced his long-time mentor Robert S. Mueller.

Most employers would consider such job hopping a sign of instability, but in government legal circles, that makes you qualified to be FBI director. It appears that he was being groomed. 552. **In 2014**. Russia invaded Ukraine. Ukraine stepped up hiring of U.S. lobbyists to make its case against Russia and obtain U.S. aid. Russia also continued its practice of using U.S. lobbyists.

Ukraine formed National Anti-Corruption Bureau as a condition to receive U.S. aid. The National Anti-Corruption Bureau later signed evidence-sharing agreement with FBI related to Trump-Russia probe.

Ukrainian-American Alexandra Chalupa, a paid consultant for the Democratic National Committee (DNC), began researching lobbyist Paul Manafort’s Russia ties.

FBI investigated, and then wiretapped, Paul Manafort for allegedly not properly disclosing Russia-related work. FBI failed to make a case, according to CNN, and discontinued the wiretap. [980]

On Feb. 4, 2014, Castlight Health, Inc. went public while Castlight's founder, Todd Y. Park was Obama's White House chief technology officer. Castlight is a supplier to Obamacare and Healthcare.gov, major infringers of Leader Technologies' social networking invention. Obamacare vendors are being given backdoor access to private IRS data, because Chief Justice John G. Roberts, Jr. declared Obamacare a tax.

Remarkably, the cast of actors in this Castlight Health S-1 Registration offering reads like a Who's Who of Leader Technologies infringers and fraudsters: Fenwick & West LLP (Gordon K. Davidson, Leader Technologies' former counsel), Fidelity Investments, Oak Investments (Ann H. Lamont), Robert Kocher MD (Obama's former Obamacare adviser), Cooley Godward LLP (Facebook's Leader v. Facebook trial attorney), T. Rowe Price ($100 million in Series D and Facebook underwriters including Goldman Sachs, Morgan Stanley and Allen & Co).[324][331]

"The Deep State is hiding in plain sight... groupthink drives the Deep State."

On Feb. 21, 2014. Bill Moyers interviewed Mike Lofgren, a former GOP congressional staff member with the powerful House and Senate Budget Committees. Lofgren joined Moyers to talk about what he calls the Deep State, a hybrid of corporate America and the national security state, which is “out of control” and “unconstrained.” In it, Lofgren says, elected and unelected figures collude to protect and serve powerful vested interests. “It is … the red thread that runs through the history of the last three decades. It is how we had deregulation, financialization of the economy, the Wall Street bust, the erosion or our civil liberties and perpetual war,” Lofgren said.

Lofgren says the Deep State’s heart lies in Washington, DC, but its tentacles reach out to Wall Street, which Lofgren describes as “the ultimate backstop to the whole operation,” Silicon Valley and over 400,000 contractors, private citizens who have top-secret security clearances. Like any other bureaucracy, it’s groupthink that drives the Deep State.[794]

*Leader v. Facebook* trial preparation, Leader’s source code, in whole or in part, has only ever been in the custody of four outside entities:

1. **Professor James P. Chandler, III,** [165] The Chandler Law Firm Chartered, Leader’s intellectual property counsel;[166]
2. **Fenwick & West LLP,** Leader’s business and intellectual property counsel teamed with Professor Chandler;[167]
3. **the U.S. Patent Office,**[169] and
4. **the U.S. Copyright Office.**[168]

594. It is notoriously known in Washington, D.C. that James P. Chandler, III was an outside intellectual property adviser to IBM, NSA, Justice Department, Congress and The White House, among others.[170]

595. Following significant effort by Facebook to gain access to Leader’s source code from 2003-2004—the same time period denied Leader—the district court allowed Facebook access. However, Leader was informed that its source code was examined only by Facebook attorneys, and never by a Facebook technical expert.[171]

Afterwards, "McAuliffe-aligned political groups donated about $700,000 to Mr. McCabe’s wife Jill McCabe . . . for her campaign to become a Democrat state Senator in Virginia." The fact of the McAuliffe-related donations to his wife of FBI’s McCabe—while FBI was investigating McAuliffe and Clinton—later became the subject of a conflict of interest inquiry by Inspector General.[980][542]

599. On Feb. 13, 2015. Obama signed Executive Order 13691, Promoting Private Sector Cybersecurity Information Sharing. This order gave authority for Obama's government agencies to enter long term contracts with Silicon Valley cronies of the White House-run spy-state apparatus set up after Executive Order 13526, Dec. 29, 2009. This order, drafted by Professor James P. Chandler, is replete with contradiction and ambiguity. It contains reference to 128 nest orders and 22 nested directives. See an overview of these nestings in Fig. 40 below.[229]
600. **Also on Feb. 13, 2015** John L. Hennessy, Stanford University President, welcomed participants on Cybersecurity and Consumer Protection to Stanford. Hennessy's fingerprints are all over The Eclipse Foundation and the Obama Administration spy state agenda. He participated in the Feb. 17, 2011 tech dinner with President Obama and serves as a director of two Eclipse members, Cisco Systems and Google.[285]

601. **Feb. 19, 2015** Bill Clinton was paid a $225,000 speaking fee by UBS, Nashville, Tennessee, a member of the IBM Eclipse Foundation and Facebook underwriter.[317]

603. **In late Feb. 2015**, in discussions, the State Department informed the House Benghazi Committee that Hillary Clinton did not have a government email address, and that it had never had possession of her emails until her attorney first turned them over—in paper form—to the State Department in Dec. 2014.[265]

604. **In Mar. 2015** Attorney General Loretta Lynch privately directed FBI Director James Comey to call the FBI Clinton probe a "matter" rather than an "investigation." Comey followed the instruction, though he later testified that it made him "queasy."[980]
People you trusted are now hijacking the Internet

On Mar. 02, 2015, the Pay to Play White House:

- IBM pay to play
- Dell pay to play
- EMC pay to play
- Xerox pay to play
- Qualcomm pay to play
- Micron Tech pay to play
On Mar. 02, 2015, a week later, in a little reported meeting, President Obama and his senior adviser, Valerie Jarrett, met at the White House with his so-called "Technology CEO Council" comprised of executives from Xerox (Ursula M. Burns), Dell (Michael S. Dell), Micron Technology (Dermot Mark Durcan), Qualcomm (Steven M. Mollenkopf), IBM (Virginia M. Rometty) and EMC (Joseph M. Tucci). In other words, the chief technology thieves among The Eclipse Foundation and its new Siamese twin, the AllSeen Alliance.

Ostensibly, this group discussed Obama’s priorities for immigration, cyber security and free trade. However, as now expected from this President, the actual agenda likely revolved around the overarching agenda of the Facebook Deep State cartel—The Eclipse Foundation and their need to accelerate implementation of "The Internet of Things" before Obama leaves office.

Notably, on Dec. 10, 2013, The Linux Foundation established a mirror image of The Eclipse Foundation called the "AllSeen Alliance." AllSeen is comprised of most of the same members as Eclipse with an uncannily similar mission. As is now a common pattern among Obama and Facebook Cartel collaborators, this is another shell game to fool the great unwashed American who, they believe, is "too stupid" to understand these executive deceptions.

Roger McNamee (Facebook, Silver Lake Partners, Dell, EMC, T. Rowe Price) has donated up to $250,000 to The Clinton Foundation. IBM has paid Bill Clinton $200,000 in speaking fees. Xerox has paid Hillary Clinton $225,000 in speaking fees. [320] [317]
On Mar. 02, 2015, Barack Obama convened a meeting of key hardware and software suppliers to the IBM Eclipse NSA Deep State Spy cartel. On Oct. 12, 2015, two of the participants, Dell and EMC, announced a $67 billion merger, two days after Barack Obama paid a private visit to a third participant, Qualcomm, on Oct. 10, 2015. [087]

On Mar. 02, 2015 The New York Times reported Hillary Clinton may have violated federal regulations by using personal email account "hdr22@clintonemail.com" for public business as secretary of state. [265]
608. **On Mar. 04, 2015**. Associated Press reported that Hillary Clinton’s personal email address traced to private email server at her Chappaqua, New York home registered under pseudonym. House Benghazi Committee privately issues two subpoena: one for emails from Clinton’s personal account, the other for documents it requested in Nov. 2014 (but did not receive) relating to 10 senior State Dept. officials. Hillary Clinton does not disclose the subpoena but tweets, "I want the public to see my email. I asked State to release them. They said they will review them for release as soon as possible."[265]

*The New York Times* broke news about Clinton’s improper handling of classified email as secretary of state. In internal emails, Clinton campaign chairman (and former Obama adviser) John Podesta suggested that Obama withhold Clinton’s emails from Congressional Benghazi committee under executive privilege.[980] [982]

609. **On Mar. 7, 2015**. President Obama said he first learned of Clinton’s improper email practices "through news reports." Clinton campaign staffers privately contradicted that claim emailing: "... it looks like [President Obama] just said he found out [Hillary Clinton] was using her personal email when he saw it on the news." Clinton aide Cheryl Mills responded, "We need to clean this up—[President Obama] has emails from" Clinton’s personal account.[980]

610. **On Mar. 10, 2015**. Hillary Clinton answered questions about her email practices for the first time. She told reporters:

It was more convenient to use the private server.

"I wanted to use just one device for both personal and work emails instead of two."

Last year, she deleted nearly 31,000+ emails that were "private."

She will not turn over her personal email server.

She "fully complied" with the law.

She has turned over to the State Dept. 55,000 pages of work-related emails.

There were 62,320 emails in her account: 30,490 were public business; 31,830 were private.[265]
whistleblowers revealed proof of collusion[184] among Professor James P. Chandler, Fenwick & West LLP, IBM, Facebook and The Eclipse Foundation with the NSA and C.I.A. in the misappropriation of Leader’s social networking invention. Further proof of this collusion is evident in the investors in Cloudera, Inc. —"the open source software that powers the data processing engines of the world’s largest and most popular web sites . . . Founded by leading experts on big data from Facebook, Google, Oracle and Yahoo." [185]

"Big Data" Cloudera’s investors include:[186]

a. **Accel Partners LLP** ("James W. Breyer")—Facebook’s largest shareholder,

b. **In-Q-Tel**—the Central Intelligence Agency’s ("C.I.A.") venture capital arm,

c. **T. Rowe Price**—holder of more than 5% of Facebook shares, and

d. **Kleiner Perkins Caufield & Byers (John Doerr, Theodore "Ted" E. Schlein)**—Fenwick & West LLP client; James W. Breyer collaborator at the National Venture Capital Association ("NVCA"); including In-Q-Tel, Fidelity (Robert C. Ketterson), Vanguard Group and Kleiner Perkins.

It was later reported that Obama intel officials were incidentally capturing communications of U.S. members of Congress and organizations in the U.S. while secretly recording Israeli Prime Minister Benjamin Netanyahu’s discussions about the Iran deal, which he opposed.

639. **On Aug. 12, 2015**, a secret Obama White House intelligence operation incorporating Wall Street and Silicon Valley cronies discovered buried in a Executive Order No. 12958, Apr. 17, 1995 and its progeny right up to the latest Obama executive orders. This order involves Professor James P. Chandler, Bill and Hillary Clinton. Chandler was appointed to the National Infrastructure Assurance Council on Jan. 18, 2001, just two days before Clinton left office. [232]
640. **On Aug. 12, 2015**. Hillary & Bill Clinton release their 2014 financial disclosure, which combined with previous disclosures since 2001, revealed that they have been paid $117.2 million in total speaking since between 2001-2015, including $15.48 million in IBM Eclipse Foundation Deep State members.[317]

641. **On Aug. 15, 2015**. *The New York Times* revealed that more revelations from NSA Whistleblower, Edward Snowden, show that "AT&T Helped U.S. spy on Internet on a Vast Scale."[252] Hillary Clinton, in a campaign appearance at the Iowa State Fair, revised her statement about classified email a second time, stating that she never sent or received any that were "marked" classified.[265]

642. **On Aug. 19, 2015**. Hillary Clinton’s personal lawyer told a Senate committee that all data, including emails, were erased from her server prior to it being turned over to the FBI. Clinton told reporters the investigation surrounding her server "has nothing to do with me." She contradicts the Inspector General by reiterating that she never sent or received classified material.[265]

643. **On Aug. 20, 2015**. researchers discover that Barack Obama's Executive Order 13526, Sec. 4.3(b)(6) established a secret spy agency run out of the White House and overseen by Professor James P. Chandler, III, Leader Technologies' former patent attorney.[228]

**On Aug. 23, 2015**. researchers discover that Catherine S. Duval, Williams & Connolly LLP, oversaw IRS email production and now oversees State Department Benghazi/Hillary Clinton email production stonewalling. Williams & Connolly LLP (senior partner Paul Mogin) prosecuted the first case, *United States v. James Hsu*, 155 F.3d 189 (1998), under the Economic Espionage Act of 1996, authored and overseen by Professor James P. Chandler, Leader Technologies' former patent counsel; IBM chief outside counsel.[237] [238] [239] [240] [241]
645. **On Aug. 24, 2015**, the left-leaning CREDO political action group called for President Obama to "come clean" on AT&T's voluntary cooperation with the illegal NSA bulk data collection of American metadata from phone and Internet communications.[252][242]

646. **In Sep. 2015**, Glenn R. Simpson, co-founder of political opposition research firm Fusion GPS, was hired by the website *Washington Free Beacon* to compile negative research on presidential candidate Donald Trump and other Republicans.[980]

647. **In Oct. 2015**, President Obama used a "confidentiality tradition" to keep his Benghazi emails with Hillary Clinton secret.[980]

648. **On Oct. 10, 2015**, President Obama made a mysterious four-day trip for private meetings with Qualcomm in San Diego. This trip was unreported by the mainstream media. Qualcomm is one of six (IBM, Xerox, Dell, Micron Technology, Qualcomm and EMC) IBM-Eclipse Foundation companies (thieves of Leader Technologies' social networking invention) that met with Barack Obama and Valerie Jarrett at the White House on Mar. 2, 2015. See Fig. 8 above.[253]
649. **On Oct. 12, 2015**
Dell announced a $67 billion buyout of EMC, the cloud computing storage company. Dell and EMC met with Barack Obama and Valerie Jarrett at the White House on Mar. 3, 2015 along with other IBM-Eclipse Foundation members Xerox, Micron Technology, IBM and Qualcomm.[254]

Bharara is likely to have fabricated these charges as a false narrative to hide the Deep State Spy Cartel's collusion with JPMorgan and Fidelity (named in the indictment) in the development of offshore "dark profiles" on JPMorgan customers. [316]  

656. **In late 2015**, Democratic operative Alexandra Chalupa expanded her political opposition research about Paul Manafort to include Trump’s ties to Russia. She “occasionally shares her findings with officials from the Democratic National Committee and the Clinton campaign.” [980]
657. **On Nov. 20, 2015.** *The New York Times* reported that the NSA lied that it "ended" the email metadata program in 2001, citing "other authorities" that could be used to continue the program, which the agency has done.[280] [356]

658. **On Nov. 30, 2015.** State Department released 8,000 more Clinton emails (from her personal server); some of the emails received "classified" markings.[265]

659. **In Dec. 2015.** The Cybersecurity Information Sharing Act (CISA) passed. It required private Internet companies to “transmit cyber-threat indicators” to the Department of Homeland Security and granted the companies immunity from prosecution for sharing customers’ personal data in those cases. *The Wall Street Journal* reported that the Obama administration incidentally collected private communications by members of Congress while it spied on Israeli Prime Minister Netanyahu.[799]

“The NSA sweeping up “private conversations with U.S. lawmakers and American-Jewish groups . . . raised fears [of]—an ‘Oh-s— moment,’ one senior U.S. official said—that the executive branch would be accused of spying on Congress.” –*Wall Street Journal*, December 29, 2015
On Dec. 01, 2015, the larcenous couple, Mark & Priscilla Chan Zuckerberg, announced plans to give away his $45 billion Facebook stock to charity over his lifetime.[267]

Fig. 43—Mark and Priscilla Zuckerberg announced plans to offer fraudulent conveyances to unsuspecting third party charities. If accepted, all of these funds would have to be paid back by the charities, even if it is spent on the most worthy of good works. Zuckerberg donations are the fruit of a poison tree in the theft of Leader Technologies' invention of social networking at the inception of Facebook.

On Dec. 02, 2015, Americans for Innovation issued a PUBLIC NOTICE that any charity or person taking a Zuckerberg donation or investment is participating in a fraudulent conveyance (theft of Leader Technologies' social networking invention) that the law says they'll have to pay back, along and be liable for a laundry list of crime shown below.[266]

On Dec. 4, 2015, Donald Trump was beating his nearest Republican presidential competitor by 20 points in latest CNN poll.[980]
On Dec. 07, 2015, Michael T. On Dec. 9, 2015, FBI Director Comey replaced head of FBI Counterintelligence Division at Washington Field Office with Charles Kable.[980]
On Dec. 15, 2015, Barack Obama signed Executive Order 13714 - Strengthening the Senior Executive Service (SES). The SES was formed in 1978 by Jimmy Carter to ostensibly attract more skilled executive talent into the federal government. However, time has shown it to be a secret shadow government of embedded bureaucrats who have worked their way in like a cancer into the senior leadership of all American executive agencies. These bureaucrats operate independently of the federal employees, are paid separately, have their own flag and dole out their own pay and incentives. By the time Barack Obama left office, approximately 8,000 of the 10,000 SES members had been appointed by him as what is now called 'Obama stay behind army.' Hindsight shows that this executive order was intended to strengthen the claims of the SES to have no accountability to the President who is their titular head as chief executive of the Executive Branch that employs them. However, even in official SES documents they state that even the President cannot hire or fire them.[1402] [1029]
666. **On Dec. 23, 2015**, FBI Director James B. Comey, and SES member, named Bill Priestap as assistant director of Counterintelligence Division.

Priestap failed to disclose wife Sabina (Menschel) Priestap's father, Richard L. Menschel's, intimate financial association with Harvard University, HarvardX university federalization of educational curricula by the Deep State shadow government (M.O.O.C.—Massive Open Online Course), and James W. Breyer, Facebook director, former chairman and former chairman of the National Venture Capital Association (NCVA) with Louie Gilman, the rogue C.I.A.'s private venture capital slush fund named In-Q-Tel, also led by Kleiner Perkins, Vanguard Capital and Fidelity Investments—Facebook's largest mutual fund shareholder.[980] [962]

667. **In 2016**, it is not yet known publicly, but CNN later reported that the Obama Justice Department wiretapped Trump campaign manager Paul Manafort before the 2016 election over Russia ties, closed the investigation, then began surveillance anew sometime in the Fall and continued it through the early part of 2017.[799]

Obama officials vastly expand their searches through NSA database for Americans and the content of their communications. In 2013, there were 9,600 searches involving 195 Americans. But in 2016, there are 30,355 searches of 5,288 Americans. Justice Dept. associate deputy attorney general Bruce G. Ohr met with Fusion GPS’ Christopher Steele, the Yemen-born ex-British spy leading anti-Trump political opposition research project.[980]

668. **In Jan. 2016**, Democratic operative Ukrainian-American Alexandra Chalupa told a senior Democratic National Committee official that she feels there was a Russia connection with Trump.[980]

On Jan. 01, 2016, financial disclosures of presidential candidates (present and former) and majority leaders in Congress obtained:

a. George W. Bush
b. Mitt Romney
c. Rafael E. (“Ted”) Cruz
d. Bernard Sanders
e. Marco A. Rubio
f. John R. Kasich
g. Donald J. Trump
h. Hillary R. Clinton
i. Mitch A. McConnell (Top 20 Donors)
j. John A. Boehner (Top 20 Donors)

On Jan. 09, 2016, Bernie Sanders, Democratic presidential candidate, assailed rival Hillary Clinton for taking large speaking fees from the financial industry while she pretends to care for the middle class. Her public disclosures show that she received $2.935 million from her last 12 events. She received the following: Ameriprise $225,000, Apollo Management Holdings $225,000, Bank of America $225,000, Canadian Imperial Bank of Commerce $150,000, Deutsche Bank $485,000, Fidelity Investments $225,000, Golden Tree Asset Management $275,000, Goldman Sachs $675,000, Morgan Stanley $225,000 and UBS $225,000. Six of the ten were major underwriters and investors in the Facebook initial public offering on May 18, 2012.
On Jan. 09, 2016, Juniper Networks, one of the most prominent corporate security systems in the world, announced it will remove the Dual_EC_DBRG encryption algorithm that intentionally weakens the security of their products and very likely enables a backdoor by the U.S. National Security Agency (NSA). [336] Juniper senior vice president and CIO, Bob Worrall, made the dubious claim that Juniper was previously unaware of this vulnerability. But in fact, Juniper has registered its use of the Dual_EC_DBRG algorithm 11 times starting Oct. 05, 2012. See “NSA helped British spies find security holes in Juniper firewalls.” [338]

Juniper’s investors and officers since 1996 read like a Deep Spy State cartel Who’s Who (i.e., Xerox PARC, Sun, MCI, Qwest, Nortel, Siemens, Ericsson, 3Com, AT&T). For example, in Sep. 2015, Juniper took a $35 million Series D financing from Vectra Networks. Vectra has close investing relationships with Accel Partners (James W. Breyer) and Intel (Andy Grove). Illustrative of the incestuous interconnections, Juniper is invested in Vectra, which is invested in Juniper, which is invested in Vectra, ad infinitum.

Juniper lists Palo Alto Networks as a competitor. However, one of Palo Alto’s key investors is Greylock Partners started by Reid Hoffman (LinkedIn CEO, Facebook director, Accel Partners, James W. Breyer collaborator). This connects Hoffman to Greylock to Accel to Vectra, and therefore to Juniper. This makes Juniper an ally with Palo Alto, not a competitor. These Juniper representations to the investing public are lies.
The recent exposure of Juniper's misconduct only further reinforces the central role they play in moving forward the NSA spy state agenda. [334] [335] [337]

On Jan. 14, 2016, more Hillary Clinton emails reviewed by the Washington Examiner show pay-to-play access by The Clinton Foundation donors for U.S. State Department favors. Five of the nine reviewed are members of the IBM Eclipse Foundation: Cisco, GE, Morgan Stanley, Boeing and George Soros. Cisco has donated up to $1,000,000 to The Clinton Foundation. George Soros has donated up to $6 million. [320] [312]
673. **On Jan. 14, 2016** Goldman Sachs agreed with federal prosecutors to pay up to $6 billion to settle faulty mortgage claims from the 2008 financial crisis. *The New York Times* reported "Goldman is trying to enter 2016 with a clean slate and put much of its outstanding regulatory issues behind it."

*The Times* quoted Lloyd Blankfein, CEO of Goldman Sachs as saying, "We are pleased to have reached an agreement in principle to resolve these matters."

Not a single Goldman Sachs executive has been fired or prosecuted; they have received bonuses instead. **$6 billion is chump change for Goldman Sachs**, Goldman alone received over $13 billion in U.S. taxpayer "bailout" funds. JPMorgan (Jamie Dimon) received $25 billion. However, HSBC whistleblower Hervé Falciani revealed that at least some of these funds were shuffled offshore to money launderers where they were leveraged (e.g., $1 becomes $10 to loan) and came back to the U.S. to prop up client stocks, like Facebook.[201]

Clearly, Goldman and CEO Lloyd Blankfein are central actors in this global public corruption.[318]

**1993-2016, Pay to Play Global Organizers** — Bill and Hillary Clinton have received $1 million in speaking fees from Goldman Sachs alone.[232] Within a day of Bill Clinton meeting with Kazakhstan's strongman president, Nursultan A. Nazarbayev, on Sep. 03, 2005, Clinton convinced Mazarbayev to give coveted uranium mining rights to Clinton friend, Canadian Frank Giustra. Giustra was a uranium mining novice. Giustra then donated $152 million to the Clinton Foundation over the following months.[328] [329]

**1993-2016, U.S. Patent Office Toy Box Director**

Intellectual Property law professor James P. Chandler, III looms large over the seminal events in this timeline. He advised then President Clinton on national security and patent law between 1993 and 2001. In the process, he advised the NSA, C.I.A., IBM, Microsoft, Xerox and the technology world on encryption. After learning about Leader Technologies' social networking invention, he agreed to become their patent counsel in 2000, then he illegally shuffled Leader's ground breaking invention to IBM's Eclipse Foundation consortium who planned to exploit perhaps the most important invention since Thomas A. Edison's light bulb. He advised the Justice Department, FISA Court, Federal Circuit Court of Appeals. He advised the Patent Office. He was close to Eric H. Holder, Jr. and David J. Kappos, then got Barack Obama to put his friends in key positions to control the U.S. Patent Office's treasure trove of patent applications from which to steal the best ideas for this pay-to-play agenda. He was close to Fenwick & West LLP who he urged Leader Technologies to engaged as co-counsel. Fenwick is now Facebook's lead securities and patent attorney. The pattern of corruption is quite evident in hindsight.

As described in this timeline, Larry Summers has appeared with Goldman Sachs in tow at every point of inflection in this timeline.

Was the 2008 banking crisis orchestrated or accidental?

Lawrence ("Larry") H. Summers appears to have been greasing the skids for the Deep State in his own pay-to-play scheme. He took in over $2 million in "speaking fees" from financial
institutions in 2008 alone—before the so-called 2008 bank crash. The table below tells a different story. Summers appears to have fabricated the entire crisis. The chart even shows the connection to Iceland, where the crash allegedly started. The timeline tells us that for public figures like Summers and the Clintons, they had determined that they could charge exorbitant speaking fees as a pay-to-play system of cronyism. Such a patter of corruption is racketeering and punishable under both civil and criminal RICO laws.

1993-2001, U.S. Treasury Department — Protected by Bill & Hillary, Summers was instrumental in deregulating the banks by repealing Glass-Steagall Act. This removal of historic protections has fueled the corruption shown in this timeline. Summers' Harvard students, Sheryl K. Sandberg and Marnie L. Levine (Deutch), were at his side during all his time at Treasury. Remarkably, Sandberg now runs Facebook, and Levine runs Instagram.

2001-2006, Harvard University—While Summers was president of Harvard, he oversaw the creation of the Facebook story for Harvard alum, James W. Breyer, and his PayPal Mafia, who had just sold PayPal to eBay and were trolling for "the next big idea." Mark Zuckerberg agreed to play along in the theft of Leader Technologies' social networking invention. These collaborators teamed up with Harvard Law professor James P. Chandler to use this new communications platform for both commercial and intelligence purposes. Each would feed the other. The spy state agenda was born.

2008-2010, National Economic Council— Summers was appointed by Barack Obama to oversee the 2008 bank bailout. Levine became Summers' chief of staff. Goldman Sachs, Morgan Stanley and JPMorgan alone received over $38 billion in taxpayer funds. The facts show that in Summers' appointment by Obama, the fox was assigned to guard the hen house.

2013—not, Federal Reserve— Summers was iced out by his fellow economists from becoming chairman of the Federal Reserve. Over three hundred economists signed a petition against Summers running the Fed. This was poetic justice for Summers' reckless "globalbaloney" foisted on the Russian economy over the objections of most of his colleagues.

Summers' early 1990's Russian voucher debacle looms large over his secret tinkering now; even after his colleagues rejected his proposed Fed leadership

2008, Banker Buds—Summers' 2008 financial disclosure may have inadvertently proved that the 2008 bank "bailout" was contrived to feed cash to the Deep State's public-private New World Order agenda. In reviewing Summers' herculean 2008 speaking schedule, hindsight shows that Summers was probably worried about failing again with the U.S. economy the way he did in Russia. What other explanation makes sense for this break-neck speaking schedule to the financial sector?

Summers was clearly a man on a mission, but what mission? Public corruption is illegal. On the heals of this break-neck schedule and the conflicts of interest it created,
Barack Obama nevertheless flipped Summers the keys to the National Economic Council.

Separation of powers is undermined by collusion among Harvard alumni

1. JPMorgan (Jamie Dimon) and Goldman Sachs (Lloyd Blankfein) do their banking.

2. Professor James P. Chandler crafts judicial decisions to support the agenda.

3. James W. Breyer and Gilman Louie (CIA) arrange financing and recruiting for the agenda.

4. Eric H. Holder, Jr. and Loretta E. Lynch at Justice ignore laws unsupportive to the agenda.

5. Penny S. Pritzker at Commerce enforces only regulations that support the agenda.

7. Thomas J. Kim at the SEC bends securities laws to the will of the agenda.

8. John G. Roberts Jr. defined Obamacare as a tax to empower the agenda.

Can this pattern of public corruption be any more evident?

**Speaking Fees & Foundations**

(The Clinton Foundation, DoD Highlands Forum, The Eclipse Foundation, National Infrastructure Advisory Council) are the "pay to play" schemes for the political ringleaders

**Larry Summers' 2008 Financial Sector Speaking Fees**

Is this a man working to prevent similar economic chaos to that which he created in the former Soviet Union with his reckless privatization voucher scheme?

677.  On Feb. 22, 2016  C.I.A. whistleblower Jeffrey Sterling, who is currently serving jail time for leaking documents to The New York Times, accused the federal government of setting a double standard by refusing to aggressively prosecute Hillary Clinton for abusing classified information on her personal emails server. [346]
On Feb. 23, 2016, U.S. District Judge Emmet G. Sullivan ruled that State Department officials and top aides to Hillary Clinton (Huma Abedin, Cheryl D. Mills, Jake Sullivan, Anne-Marie Slaughter (A New World Order)) should be questioned under oath about whether they intentionally thwarted federal open records laws by using or allowing the use of a private email server throughout Clinton’s tenure as secretary of state from 2009 to 2013. [345]

On Feb. 25, 2016, a Facebook/IBM Health Hazard warning began circulating in the Internet. It warns users that Facebook and IBM are using the social networking invention of Leader Technologies illegally.

SURGEON GENERAL’S WARNING ABOUT FACEBOOK (AND IBM): Ingredients Are Stolen Property Whose Consumption Is Immoral, Violates The Rights Of Others, And May Subject You To Civil And Criminal Charges For Use Of A Fraudulent Conveyance.
On Feb. 25, 2016, Barack Obama announced plans to expand warrant-less data sharing between the NSA and American law enforcement under "new" authorities instead of the illegal FISA Court advisories allowing warrant-less NSA surveillance of American citizens under the Patriot Act. [362] [280] [356]

Barack Obama pressing forward with sharing NSA data (with his "public-private" Deep State of crony capitalists in Silicon Valley and on Wall Street)

Fig. 47--On Feb. 25, Barack Obama met with his National Security Council to devise a way to feed NSA data on Americans to law enforcement. Since this meeting comes on the heels of his Feb. 09, 2016 Executive Order designed to protect his public-private cronies offering "the cloud" and IBM's "The Internet of Things" from prosecution for their illegal acts. [343] This National Security Agency meeting is evidently the next nail in America's privacy coffin before Obama leaves The White House.

(Note: On Mar. 02, 2016, Google (aka Alphabet) CEO, Eric Schmidt, a member of the IBM Eclipse Foundation and NIAC, was appointed to chair a Pentagon Defense Innovation Advisory Board. [360] This board will advise the Pentagon on the "cloud." This board is very evidently another infiltration of our nation's digital infrastructure by crony capitalists.)

The "cloud" is a fiction. It is nothing more than other people's computers, not yours.

Whistleblower: Facebook lies about 28 Zuckerberg Harvard computer drives and emails proved

On Feb. 28, 2016: Gibson Dunn LLP whistleblower (Facebook's attorney in Leader v. Facebook) leaked conclusive evidence that Mark Zuckerberg, Facebook and their other attorney, Heidi L. Keefe, Cooley Godward LLP, lied before the Leader v. Facebook trial, thus committing perjury. They testified that they lost all of Mark Zuckerberg's 2003-2004 Harvard emails and computer files. However, Facebook's experts Michael F. McGowan and Bryan J. Rose, Stroz Friedberg (paid by Facebook and directed by Gibson Dunn LLP) testified on Jul. 18-19, 2012 that 28 Zuckerberg hard drives and Harvard emails had been in the custody of Facebook's attorneys, Gibson Dunn LLP and McManus Faulkner LLP, during the entire Leader v. Facebook trial. The leaked spreadsheet shows seven pages of emails (292 to be exact) between Zuckerberg and Paul Ceglia from Zuckerberg's Harvard email account that were in Gibson Dunn LLP's possession during the entire case. Such conduct is highly illegal obstruction of justice.[357][358]

On Feb. 29, 2016: Hillary R. Clinton's former aide, Cheryl D. Mills, was discovered to have maintained her top secret clearance after she left the State Department. Such a clearance could be used as a private (illegal) channel to continue feeding Hillary and Bill Clinton illegally acquired NSA intelligence on political competitors of their New World Order agenda articulated in Anne-Marie Slaughter's book A New World Order. Slaughter was Hillary's senior political adviser as Secretary of State.[361]

In Mar. 2016: Clinton campaign chair John Podesta’s email was hacked. FBI interviewed Carter W. Page again.[980]

Mar. 02, 2016: when asked by FBI attorney and paramore Lisa C. Page, in a secret text message who he planned to vote for, Peter P. Strzok, II, Deputy Assistant Director of the Counterintelligence Division, replied: “I suppose Hillary.”[865]
On Mar. 02, 2016, the Pentagon appointed Eric Schmidt, CEO, Google and Alphabet, to chair a Defense Innovation Advisory Board "meant to provide advice to the Department of Defense from a Silicon Valley point of view. . . the board would advise it [the Pentagon] on such Google topics as rapid prototyping, iterative product development, business analytics, mobile apps and the cloud." These topics are all well-covered by existing contracts. Therefore, this position clearly has a hidden agenda. The "cloud" is a fiction. It is nothing more than other people's computers, so this appointment is evidently designed to place Obama's crony capitalists inside the Pentagon.[360]

FBI Director Comey replaces head of Intelligence Division of Washington Field Office with Gerald Roberts, Jr.[980]
On Mar. 03, 2016, Bryan Pagliano, the information technology engineer who set up Hillary Clinton's private email server used by Hillary and her staff (Cheryl D. Mills, Huma Abedin, Jake Sullivan), was given immunity in exchange for his testimony.

On Sep. 11, 2015, Pagliano had pled the Fifth Amendment (privilege against self-incrimination) before Congress about his involvement in Hillary's highly illegal private email system.[359] [361]

**Fig. 48**—Hillary Clinton's private IT guy, Bryan Pagliano, began promoting IBM Eclipse's The Internet of Things immediately upon leaving Hillary's employment at the State Department. He went to work for Gartner Group promoting The Internet of Things to state government chief information officers. The pattern of corruption within the Obama Administration has taken on epic proportions.

After Pagliano worked for Hillary at the State Department, he went to work for the Gartner Group in Government Industries Research. Pagliano clearly had the inside scoop on IBM Eclipse's "The Internet of Things" agenda (promoted by Obama in his Feb. 09, 2016 executive order) because he presented "The Internet of Things: Smart Government with Speed" to the 2014 NASCIO Annual Conference (National Association of State Chief Information Officers).[363]

Mar. 04, 2016, Peter P. Strzok, FBI Deputy Assistant Director of the Counterintelligence Division, secretly texted to FBI attorney and paramore Lisa C. Page of Donald J. On Mar. 04, 2016, former presidential candidate Mitt Romney called current presidential candidate, Donald Trump, "a phony and a fraud." This conduct seemed amiss given the fact that Romney courted Trump's support and campaign donations in the 2012. Investigations into Romney's finances revealed his close association with the IBM Eclipse Facebook NSA Cartel exposed in this timeline. For example, Romney holds up to $45.1 million in Goldman Sachs investments alone. [364] Romney also concealed that he is a beneficiary of $967 million in Obama energy stimulus via a First Solar, Inc. company and its spin-off subsidiary, Agua Caliente LLC.[366] Romney had pretended to be against Obama's energy "boondoggle" during the 2012 campaign.

Ukrainian-American operative for Democratic National Committee (DNC) Chalupa met with top Ukrainian officials at Ukrainian Embassy in Washington D.C. to “expose ties between Trump, top campaign aide Paul Manafort and Russia,” according to Politico. Chalupa previously worked for the Clinton administration.

Ukrainian embassy proceeded to work “directly with reporters researching Trump, Manafort and Russia to point them in the right directions,” according to an embassy official (though other officials later denied engaging in election-related activities.)[980]

Paul Manafort hired by the Trump 2016 campaign.[800]

On Mar. 30, 2016

Ukrainian-American Democratic operative Alexandra Chalupa briefed Democratic National Committee (DNC) staff on Russia ties to Paul Manafort and Trump.

With “DNC’s encouragement,” Chalupa asked Ukrainian embassy to arrange meeting with Ukrainian President Petro Poroshenko to discuss Manafort’s lobbying for Ukraine’s former president Viktor Yanukovych. The embassy declined to arrange meeting but becomes “helpful” in trading info and leads.

Ukrainian embassy officials and Democratic operative Chalupa “coordinat[e] an investigation with the Hillary team” into Paul Manafort, according to a source in Politico. This effort reportedly included working with U.S. media.[980]
In Apr. 2016, Marc E. Elias, Perkins Coie LLP, the law firm for the Clinton campaign and DNC hired opposition research firm Fusion GPS founded by Glenn R. Simpson to investigate Trump. Fusion would go on to hire Christopher Steele, the former British spy who authored the infamous "dirty dossier."[865]

There was a second breach of Democratic National Committee computers. Washington Free Beacon broke off their deal with Glenn R. Simpson’s Fusion GPS for political opposition research against Trump.[980]

Apr. 05, 2016, Peter P. Strzok, FBI Deputy Assistant Director of the Counterintelligence Division, interviewed Clinton aide Huma M. Abedin.[865]

During Week of April 6, 2016, Ukrainian-American Democratic operative Chalupa and office of Rep. Mary Kaptur (D-Ohio), co-chair of Congressional Ukrainian caucus, discuss possible congressional investigation or hearing on Paul Manafort-Russia “by September” (before the 2016 election).

Chalupa began working with Yahoo! News investigative reporter Michael R. Isikoff, according to her later account.[980]

Apr. 09, 2016, Peter P. Strzok, FBI Deputy Assistant Director of the Counterintelligence Division, interviewed Clinton aide Cheryl D. Mills.[865]
On Apr. 09, 2016 the International Consortium of Investigative Journalists (ICIJ) released the complete Panama Papers database. Among the participants in these dubious offshore activities was DST USA II Limited, a key investor in Facebook, controlled by Russian oligarchs Alisher Usmanov and Yuri Milner. Usmanov and Milner invested several billion dollars in Facebook pre-IPO insider stock, brokered by Goldman Sachs. These investments pumped Facebook's valuation to $100 billion. These men then dumped their stock along with Goldman Sachs and others on Day 3 of the initial public offering.

The Panama Papers also revealed that the same Isle of Man intermediary representing DST also represents Urasia, the company that Bill Clinton helped obtain uranium mining rights in Kazakhstan in 2005. The owner of that company, Frank Giustra, then arranged for a total of $152 million to be donated to The Clinton Foundation.[402]
Fig. 50—Facebook disclosed only a few of Usmanov's many Facebook interests. On May 26, 2009, just months after Obama and Hillary took office, DST's Yuri Milner appeared out of thin air in Palo Alto, CA. Milner invested $200 million in Facebook. Tellingly, Milner did not demand a seat on the board of directors or oversight of his investment. Hindsight shows that Milner, Usmanov and DST (aka Digital Sky Technologies) were tapped by Milner's 20-year mentor, Lawrence Summers, to pump Facebook's pre-IPO stock value, then dump the stock right after the IPO. Goldman Sachs underwrote all this illicit conduct. [403] Pundits like CNBC's Jim Cramer were openly appalled at the insider conduct, but were quickly muzzled by CNBC owners who were all in on this weasely enrichment game with Hillary and Bill. 702. **On Apr. 10, 2016** in a national TV interview, President Obama stated that Hillary Clinton did not intend to harm national security when she mishandled classified emails. FBI Director James B. Comey later concluded that Clinton should not face charges because she did not intend to harm national security.

Around this time, the FBI begins drafting Comey’s remarks closing Clinton email investigation, though Clinton had not yet been interviewed.[980]
On Apr. 22, 2016, The Intercept revealed that "Google representatives attended White House meetings more than once a week, on average, from the beginning of Obama’s presidency through October 2015. Nearly 250 people have shuttled from government service to Google employment or vice versa over the course of his administration."[404]

On Apr. 28, 2016, Ukrainian-American Democratic operative Alexandra Chalupa is invited to discuss her research about Paul Manafort with 68 investigative journalists from Ukraine at Library of Congress for Open World Leadership Center, a U.S. congressional agency. On May 22, 2016, NSA whistleblower John Crane spoke publicly for the first time about being persecuted for just doing his job to protect NSA whistleblowers at the Department of Defense, and not being "a good team player." The illegal conduct uncovered by Crane fits hand-in-glove with the revelations of this timeline.[406]

Fig. 52 — NSA Whistleblower John Crane discovered profound mistreatment of NSA whistleblowers when he was hired at the Department of Defense to run the whistleblower program. But, when he brought the abuses to his superiors, he was told to be "a good team player" and remain silent. Being the grandson of a man who stood up to Adolf Hitler in the infamous Beer Hall Putsch (Nov. 8, 1923), he continued to speak up, within channels, and came to be arrested at gunpoint by the FBI and persecuted by the very whistleblower system he had been hired to support. Crane's findings point to the same timeframe of government misconduct exposed by this timeline, especially the timing of the theft of Leader Technologies' social networking invention.

On May 23, 2016, the FBI probe into Virginia governor and Clinton ally Terry R. McAuliffe became public. (McAuliffe was ultimately not charged with a crime.)

Justice Department Inspector General confirmed it is looking into FBI’s Andrew McCabe for alleged conflicts of interest in handling of Clinton and Gov. McAuliffe probes in light of McAuliffe directing campaign donations to McCabe’s wife.

The chances of this kind of shift happening are considered to be statistically impossible. Computer security expert Stephen Spoonmore, who worked with Arnebeck on exposing GOP election fraud in Ohio (2004) noted that when exit poll data varies more than 2% from the electronic vote totals, the electronic vote totals are questionable. 2% is also the US government threshold for election fraud. On Jun. 29, 2016. Patrick F. Kennedy gave a deposition testimony in Judicial Watch, Inc. v. U.S. Department of State, Case No. 13-cv-1263-EGS. He said repeatedly that Hillary Clinton's use of a private email server "did not strike any bells in my mind" as being improper. He claims he never recalled looking at either the "To" or "From" line and noticing that Hillary's emails were coming from a private server address "HRC@clintonemail.com" and not a "state.gov" address.

Kennedy's Shame: "Golly shucks, I just never noticed Secretary Clinton's emails came from a private HDR22@clintonemail.com server. What is a fella supposed to do? Follow the rules? I am only a career bureaucrat and Under Secretary of State. Gee willakers. (Lying and cheating is the 'new normal.' Didn't you get that memo?)"

Kennedy evidently lied to protect himself, the Clintons and the Clintons' collusion with the NSA and secret White House spy agency, Kennedy's former employer.

On Jun. 30, 2016. FBI circulated an internal draft of public remarks for FBI Director James B. Comey to announce the closing of the Hillary Clinton investigation. It referred to Mrs. Clinton’s “extensive” use of her personal email, including “from the territory of sophisticated adversaries,” and a July 1, 2012 email to President Obama from Russia. The draft concluded it’s possible that hostile actors gained access to Clinton’s email account.

Comey’s remarks were revised to replace reference to “the President” with the phrase: “another senior government official.” (That reference, too, was removed from the final draft.)

Attorney General Lorreta E. Lynch told the FBI that she planned to publicly announce that she’ll accept whatever recommendation FBI Director Comey made regarding charges against Clinton.
734. **In Jul. 2016**, Donald Trump had won the Republican nomination for president. 735. **On Jul. 1, 2016** under fire for meeting with former President Bill Clinton amid the probe into his wife, Attorney General Loretta E. Lynch publicly stated she’ll accept whatever FBI Director James B. Comey recommends—without interfering.

FBI senior legal counsel Lisa C. Page texted her boyfriend, FBI Deputy Assistant Director of Counterintelligence Peter P. Strzok, sarcastically commenting that Lynch’s proclamation is:

On Jul. 05, 2016, Americans for Innovation published proof of FBI Director James B. Comey's substantial conflicts of interest in decisions regarding whether or not to indict Hillary Clinton for her illegal use of private email servers while Secretary of State. Among his conflicts is his former directorship in the London bank and proven money launderer, HSBC. HSBC and its clients contribute heavily to The Clinton Foundation. Attorney General Loretta Lynch put Comey in charge of the decision despite these conflicts, and without full stepping aside in the wake of her secret meeting with Bill Clinton on the Phoenix Sky Harbor Airport tarmac a few days earlier on Jun. 30, 2016. Bill Clinton had appointed Lynch as a U.S. Attorney in the Eastern District of New York in 1999, thus making this meeting highly unethical since there was an active FBI investigation in process.[426]

FBI Director Comey recommended no charges against Clinton, though he concluded she had been extremely careless in mishandling of classified information. Comey claimed he had not coordinated or reviewed his statement in any way with Attorney General Loretta E. Lynch’s Justice Department or other government branches. “They do not know what I am about to say,” said Comey.

Fusion GPS’ Steele, an ex-British spy, approached the FBI with allegations against Trump, according to Congressional investigators.

Days after closing the Clinton case, FBI official Peter P. Strzok signed a document opening an FBI probe into Trump-Russia collusion.[980]
On July 10, 2016, Democratic National Committee (DNC) aide Seth C. Rich, reportedly a Bernie Sanders supporter, was shot twice in the back and killed. Police suspected a bungled robbery attempt, though nothing was apparently stolen. Conspiracy theorists speculated that Rich—not the Russians—had stolen DNC emails after he learned the DNC was unfairly favoring Clinton. The murder remains unsolved.

Figure: Seth C. Rich, was an American employee of the Democratic National Committee who was fatally shot in the Bloomingdale neighborhood of Washington, D.C. As of May 2017 the shooting was still under investigation by the D.C.

On Jul. 15, 2016, new previously stonewalled emails from Hillary Clinton's private email server were release by the State Department under court order to in the Judicial Watch v. Former Ukrainian Prime Minister Arseny Yatseniuk wrote on Facebook that Trump has “challenged the very values of the free world.”

Carter Page travelled to Russia to give a university commencement address. (Fusion GPS political opposition research would later quote Russian sources as saying Page met with Russian officials, which Page denied under oath and is not proven.)

FISC (Foreign Intelligence Surveillance Court) rejected the FBI request to wiretap Carter Page.

Obama national security adviser Susan Rice began to show increased interest in National Security Agency (NSA) intelligence material including “unmasked” Americans’ identities, according to news reports referring to White House logs.[980]

741. **On Jul. 18, 2016**, Dinesh D’Souza’s movie *Hillary's America—The Secret History of the Democratic Party* was released.[427]

742. **On Jul. 22, 2016**, *Americans for Innovation* published an analysis of how electronic voting fraud has been used in past election, notably the 2004 Ohio presidential election between George W. Bush and John Kerry. The article discussed how fraud techniques like “vote shifting” inside voting machines and using "Man in the Middle" interception of data destined for state vote tabulators. See Fig. 57.[424]

    WikiLeaks began publishing hacked Democratic National Committee emails. WikiLeaks’ Julian Assange denied the email source is Russian.[980]
On Jul. 24, 2016, the 1 hr. 5 min. documentary film *Clinton Cash - Everything is for Sale* was released. *Clinton Cash* investigates how Bill and Hillary Clinton went from being "dead broke" after leaving the White House to amassing a net worth of over $150 million, with over $2 billion in donations to their foundation. This wealth was accumulated during Mrs. Clinton’s tenure as US Secretary of State through lucrative speaking fees and contracts paid for by foreign companies and Clinton Foundation donors.[423]

This documentary can be viewed in full length by clicking the image below:
On Jul. 24, 2016, previously stonewalled emails were released to Citizens United in a court-ordered FOIA disclosure. Researchers also dug up copies of Arkansas Secretary of State corporation registrations for the Clinton Foundation and its 30 aliases. Among the emails was proof that the same Williams & Connolly LLP law firm that set up Clinton Foundation in 1997 also represents both Hillary Clinton, the State Department and IRS in the Clinton and Obama Benghazi, private server, IRS and conservative targeting scandals. Williams & Connolly LLP is also tied to the secret White House spy agency formed in 1995 by Bill Clinton’s Executive Order 12958. This order was likely drafted by Clinton legal confidante James P. Chandler—who also advised the FBI, NSA and Judiciary. This secret agency grew legs under George W. Bush and has been running under Barack Obama using warrantless wiretaps on anyone on the planet to gather dirt for blackmail and coercion, we believe. This explains how Bill Clinton's speaking fees could be so consistently extravagant. We believe that these globalists need Hillary Clinton’s election to perfect their globalist takeover, which is not yet complete.

This means that Williams & Connolly LLP had a client relationship with the Clintons and The Clinton Foundation (including its 30 aliases) from 1997 while Bill Clinton was President and Hillary was First Lady.
Such representation violates propriety and common sense, not to mention multiple Rules of Professional Conduct like [Rule 1.9 – Duties to Former Clients], including (b) (1):

"[A lawyer shall not . . . represent a person] whose interests are materially adverse to that person."

By representing the State Department in the Hillary Clinton private email scandal, Williams & Connolly has broken one of the most basic tenants of the public trust—avoid even the appearance of impropriety.

As further evidence of Williams & Connolly LLP’s duplicity in all things Clinton, they were James P. Chandler, III’s choice under Bill Clinton for the first prosecution of the Economic Espionage Act (EEA) in *US v. Hsu* (1998).

Many roads in the Clinton Foundation corruption story are suddenly terminating at Williams & Connolly’s front door.

745. **On July 25-28, 2016**, Democratic National Convention is held in Philadelphia. [980]

Democratic operative and Ukrainian-American Alexandra Chalupa left the Democratic National Committee (DNC) to work full-time on her research into Manafort, Trump and Russia; and provided off-the-record guidance to “a lot of journalists.”[980]
747. **Summer 2016**, Nellie H. Ohr, wife of Justice Dept. associate deputy attorney general Bruce G. Ohr was still on the payroll of Fusion GPS run by DNC operative Glenn R. Simpson. Fusion GPS’ Christopher D. Steele, a British citizen, briefed FBI leadership on his anti-Trump political opposition research. Weeks later, the info made it to FBI agent Peter P. “Strzok and his team,” according to *The New York Times.*[980]

748. **On Aug. 4, 2016**, the Ukrainian ambassador to the U.S. wrote an op-ed against Trump, evidently arranged by DNC Alexandra Chalupa.[980]

749. **On Aug. 05, 2016** Roger Stone wrote in *Breitbart* that the Clinton campaign was scapegoating the Russians to hide the fact it was hacked by an individual—Guccifer 2.0. (Stone said he had no reason to believe that Guccifer is in any way connected to Russian interests. Guccifer is an anonymous Twitter handle.)[800]
**On Aug. 05, 2016** decorated ex C.I.A. Agent Kevin Shiff spoke about the criminality rife within the C.I.A. and American intelligence.

"But the higher I got up in the Agency [C.I.A.], the more I began to see illegal, unconstitutional, sometimes criminal activity that the Agency, and some other sectors of the shadow government, I call it were doing things that were illegal and unconstitutional." Tr. 3: 5-9.

"When the the US government violates the Constitution, they are committing multiple felonies based on the foundation of our government. Tr. 3:17-19.

"We have a government that is functioning outside the Constitution . . . I call it the shadow government." Tr. 5:25-26.

"There is a massive, mammoth complex secret mechanism in the US government. It's called the intelligence community. It is so powerful that not even the Congress or the Senate can control it. Matter of fact, it controls them. It does whatever it wants." Tr. 10:18-23.

**On Aug. 08, 2016** Roger Stone said during a speech that he communicated with Julian Assnage of WikiLeaks. Later, he clarified that he had received information from a mutual acquaintance. Stone speculated that Assange documents may be related to the Clinton Foundation, which proved not to be the case.
752. **On Aug. 14, 2016 to Sep. 09, 2016**, Roger Stone and Guccifer exchanged Twitter messages when Stone reached out to lend support for Guccifer because he/she had been kicked off of Twitter. The exchange was innocuous. Stone did not bite on the data offered.[800]

On Aug. 14, 2016, *The New York Times* broke a story about cash payments made a decade ago to Paul Manafort by pro-Russia interests in Ukraine. The ledger was released and publicized by the National Anti-Corruption Bureau of Ukraine, evidently facilitated by DNC Alexandra Chalupa.[980]

**FBI Strzok: "insurance policy"against a Trump win**

**On Aug. 15, 2016**, CNN reported that the FBI was conducting an inquiry into Trump campaign chair Paul Manafort’s payments from pro-Russia interests in Ukraine in 2007 and 2009. After a meeting discussing the election in FBI Deputy Director Andrew McCabe’s office, the FBI’s Lisa C. Page and Peter P. Strzok text of needing an “insurance policy” in case Trump is elected.

Tellingly, on **Oct. 24, 2016**, Benjamin Wittes, confidant of FBI Director James Comey, editor of the blog Lawfare, Harvard Law, Brookings Institution, also wrote of the need for an “insurance policy” in case Trump wins. It’s the same phrase FBI officials Lisa Page and Peter Strzok had used when discussing the possibility of a Trump win.[980]
On Aug. 16, 2016. Cisco Systems admitted that WikiLeaks had revealed the NSA/C.I.A. have had a backdoor into its switches for over a decade.[646]

Ukrainian parliament member Serhiy Leshchenko held news conference to draw attention to Paul Manafort and Trump’s “pro-Russia” ties. The Ukrainian connection is evidently being organized by Ukrainian-born DNC operative Alexandra Chalupa.[980]

In approx. Aug. 2016, the FBI initiated a new wiretap against ex-Trump campaign chair Paul Manafort, according to CNN, which extended into at least through early 2017. Because this was not an investigation, but rather a counterintelligence operation, it was approved and directed by Peter P. Strzok[980]

On Aug. 21, 2016. Roger Stone tweeted that it would soon be John Podesta's time in the barrel. The context is that Paul Manafort was just pushed out of the Trump campaign for ties to Russia/Ukraine. Stone was intimately familiar with Podesta's work in Russia and Ukraine (through the Panama Papers) and was suggesting that if Manafort was going to be pressed on these relationships, so too should Podesta.[800]

758. In Sept. 2016, Fusion GPS’ (Glenn R. Simpson) Christopher D. Steele became an FBI source and used associate deputy attorney general Bruce G. Ohr as the point of contact. "Donald Trump is a problem solver. Hillary Clinton lacks a moral compass."

760. In Fall 2016, Trump opponents “shop” to reporters a political opposition research “dossier” alleging Trump is guilty of various inappropriate acts regarding Russia. The information is unverified (and some of it is false) and the press doesn’t publish it, but a copy is provided to the FBI.[799]
On Sep. 02, 2016, FBI Senior Counsel Lisa C. Page texted to FBI Deputy Director of Counterterrorism Peter P. Strzok that “[President Obama] wants to know everything we’re doing.”
'Fake News' epithet was created by Eric Schmidt / Google / Open Societies Fndn / Ford Fndn / George Soros—all Hillary donors—thru Harvard 'First Draft News' nonprofit front

On Sep. 13, 2016, the Harvard Kennedy School of Government nonprofit First Draft News, funded by Google, whose parent company is run by major Hillary Clinton supporter and donor Eric Schmidt, announced an initiative to tackle “fake news.” It appeared to be the first use of the phrase in its modern context. First Draft is also funded by the Ford Foundation and Open Societies Foundation (George Soros).

Schmidt had simultaneously provided $1.5 billion to "the Eric Schmidt Project" later named the U.S. Digital Service at the White House to manipulate the Presidential election for a Hillary win and continue building Google's illegal "dark profile" on all citizens. [980] [985] [986]

"The fake news problem is at the heart of the latest effort from First Draft, the Google-backed organization created to help newsrooms and other groups improve how they handle the sourcing and verification of stories from social media. The new First Draft Partner Network, which it announced today, will bring together over 30 news organizations (including The New York Times, The Washington Post, and BuzzFeed) and tech companies such as Facebook, Twitter, and YouTube to share best practices on how to verify true news stories and stop the spread of fake ones.” —NiemanLab, Sep. 13, 2016 (emphasis added).
763. **On Sep. 15, 2016.** Clinton computer manager Paul Combetta, Platte River Networks (the person who first disclosed the use of BleachBit to wipe Hillary's computing devices), appeared before House Oversight Committee but refused to answer questions, invoking his Fifth Amendment rights.[980]

764. **Sep. 19, 2016.** At a UN General Assembly meeting, Ukrainian President Poroshenko met with Hillary Clinton.[980]

765. **In mid-to-late Sep. 2016.** Fusion GPS’ Christopher D. Steele’s FBI contact told him the FBI wanted to see his opposition research “right away” and offered to pay him $50,000, according to *The New York Times*, for solid corroboration of his salacious, unverified claims. Steele flew to Rome, Italy to meet with the FBI and provide a “full briefing.”[980]

Curiously, Italy is the country where Eurotech SpA was organized by James P. Chandler, III, David J. Kappos (IBM), Microsoft, Cisco, Wind River and Intel for production of embedded intelligence backdoors into all software, hardware and firmware. Eurotech SpA senior executives included Morgan Stanley and Fenwick & West LLP executives.

766. **On Sep. 22, 2016.** Clinton computer aide Brian Pagliano was held in contempt of Congress for refusing to comply with a subpoena.[980]
On Sep, 23, 2016 it was revealed that the Justice Department had granted immunity from prosecution to five Clinton officials: former chief of staff Cheryl Mills, State Department staffers John Bentel and Heather Samuelson, and Clinton computer workers Paul Combetta and Brian Pagliano. 

Yahoo! News published an article by Michael R. Isikoff about Carter W. Page’s July 2016 trip to Moscow (Page has now been confirmed to have been an FBI asset). (The article was apparently based on leaked info from the Fusion GPS (Glenn R. Simpson) Steele anti-Trump “dossier” political opposition research.) [980]
On Sep. 26, 2016, the FBI Director James B. Comey released Part 3 of their Hillary Clinton Interview notes. The heavily-redacted disclosure claimed private "B6" and "B7C" exemptions to a central figure in Hillary Clinton's private email server scandal we'll call "Mystery Man."[494]

The B6 exemption is reserved for personnel and healthcare records. B7C is reserved for unwarranted invasion of personal privacy. It is inconceivable that the person handling Secretary of State Hillary Clinton's emails can be protected under B6 or B7C. These reasons for obscuring Mystery Man's identity appear to be fraudulent on the part of the Justice Department headed by Attorney General Loretta E. Lynch.

In addition, Mystery Man, under the direction Hillary's errand girl Monica R. Hanley, transferred Hillary's 2009-2012 email stored on an Apple MacBook to the newer email server being setup for her by Bryan Pagliano because she did not want to lose it. The FBI says that Mystery Man used a "dummy" Gmail account to move the 2009-2012 emails from the MacBook to the second Pagliano system managed for the Clintons by Platte River Networks in Colorado. Such a transfer breached the security and confidentiality of the transaction because Gmail/Google retains a perpetual, worldwide, irrevocable license to all content uploaded to Google. [489] [490] [491]

Most Gmail users are unaware that they license all their rights to emails and documents to Google. Google can then use, sell or publish the content the moment they "Agree" to the 1,500+ page (incl. links) user license agreement. The section titled "Your Content in our Services" is very clear:

"When you upload, submit, store, send or receive content . . . you give Google . . . worldwide license to use, host, store, reproduce, modify, create derivative works, communicate, publish, publicly perform, publicly display and distribute such content . . . The license continues even if you stop using our Service."

On Sep. 26, 2016, it was not publicly known at the time, but the government made a proposal to the secretive Foreign Intelligence Surveillance Court (FISC) court to allow the National Counter Terrorism Center to access “unmasked” intel on Americans acquired by the FBI and NSA. (The Court later approved as “appropriate”.[799]
770. **On Sep. 27, 2016** Justice Department Assistant Attorney General of National Security Division John P. Carlin announced he was stepping down. He was former chief of staff and senior counsel to former FBI director Robert S. Mueller, III.[980]

771. **On Sep. 29, 2016** Judicial Watch convened a panel of experts who blistered the FBI, Justice Dept., State Dept., White House, Congress for permanently damaging public trust in the administration of justice in the government corruption surrounding the Hillary Clinton email server scandal.[509]

772. **At the end of Sep. 2016** Fusion GPS’ Glenn R. Simpson and Christopher D. Steele met with reporters, including *The New York Times*, *The Washington Post*, *Yahoo! News*, *The New Yorker* and *CNN* or *ABC*. One meeting is at office of Democratic National Committee general counsel.[980]

773. **In early Oct. 2016** Fusion GPS’ Christopher D. Steele, the Yemen-born author of anti-Trump “dossier,” met in New York with David Corn, Washington-bureau chief of Mother Jones.[980]
Obama's Internet Fraud and Betrayal (ICANN give up)

**On Oct. 01, 2016** President Barack Obama promoted and allowed the management of ICANN (Internet Corporation for Assigned Names and Numbers) to be transferred offshore. This recklessness exposes all American and global Internet users to unconstitutional First Amendment censorship by unscrupulous globalist forces.

Stephen D. Crocker, chair of ICANN, participated in the Carnegie Endowment-sponsored Cryptography Conference on Jun. 07, 1993 where the plan for warrantless wiretapping of American citizens by the NSA was organized by Bill Clinton with his consiglieri James P. Chandler, III and Chief of Staff John D. Podesta.

Obama's chief legal advisor on this fraud is Philip L. Verveer, U.S. State Department Ambassador of Telecommunications, then chief counsel at the Federal Communications Commission (FCC).

A Sep. 17, 2010 document that proves this ICANN fraud emerged in a Citizens United FOIA request Doc. No. C05982380. Under court order, the State Department handed over to Citizen's United a long stonewalled email exchange between Clinton loyalists at the State Department, including two Ambassadors, and the Clinton Foundation.

One of the obscured recipients, Philip L. Verveer, has just colluded with President Obama to give up America's control of Internet domain management (ICANN). The problem is that Verveer has undisclosed (and therefore fraudulent) ties to the Clinton Foundation beneficiaries of this decision—including Goldman Sachs and Citigroup.

**WARNING:** Following OBama's ICANN betrayal, Chinese-style net censorship is next unless this decision is unwound. Will free people or immoral oligarchs define its future?

The Citizens United documents reveal a revolving door relationship among Barack Obama, the State Department, Bill & Hillary Clinton and The Clinton Foundation, also called the Clinton Global Initiative (CGI). In fact, it appears that CGI was running State Department policy. It reveals over 600 companies, organizations, and individuals supporting The Clinton Foundation with tens of billions of dollars in projects, mostly outside the United States. They include numerous Clinton Foundation and Hillary campaign donors, including Goldman Sachs, JPMorgan, Barclays Bank, Citigroup, World Bank, Accel Partners (In-Q-Tel – C.I.A., Facebook), Microsoft, Cisco, IBM...
John Podesta, Carlos Slim (part owner of *The New York Times*), Frank Giustra, Uranium One and Qualcomm, among many.

The Clinton Foundation donors listed above were primary beneficiaries of the ICANN hand off. Therefore, Barack Obama and Verveer were duty-bound to recuse themselves from these decisions. Failure to recuse was illegal. Both men signed ethics statements promising to "avoid even the appearance of impropriety."[496]

Fig. 52b – On Mar. 02, 2015. President Obama and senior adviser, Valerie Jarrett, met with chief beneficiaries of the stolen Eclipse Foundation code: IBM, Xerox, Dell, Micron Technology, Qualcomm and EMC. Given the timing of this meeting—a week after the radical "Net Neutrality" changes to Internet regulation by the FCC—the real agenda of this group was most likely to discuss progress on their common
agenda—the IBM et al "The Internet of Things" takeover of global digital infrastructure, which the FCC changes to Internet regulation helped facilitate.

On Oct. 03, 2016, Guccifer 2.0 leaked Clinton Foundation / Democratic National Committee (DNC) documents exposing massive pay-to-play that began occurring more than six months before the Nov. 2008 bank "bailout." Among the documents was a Jun. 20, 2008 spreadsheet titled "CJS Appropriations" (Commerce, Justice, Science). Among the globalist operatives evidently being driven by globalist hedge fund abuser George Soros, various Clinton-Obama loyalists were exposed, including Patrick F. Kennedy, John Lewis, Rahm Emmanuel, Debbie Wasserman Schultz, Anthony Weiner (Huma Abedin) and Nancy Pelosi.[459] [511] [512]

776. **On Oct. 3, 2016** FBI seized computers belonging to Anthony D. Weiner, who was accused of sexually texting an underage girl. Weiner is married to top Hillary Clinton aide Huma M. Abedin. FBI learned there are Clinton emails on Weiner’s laptop, but waited several weeks before notifying Congress and reopening the investigation.[980]

777. **On Oct. 4, 2016** FBI Director Comey replaced head of Counterintelligence Division, New York Field Office with Charles McGonigal.[980]

778. **On Oct. 07, 2016** Former vice chair of the Joint Chiefs of Staff James E. Cartwright pled guilty in a leak investigation to lying to the FBI about his discussions with reporters regarding Iran’s nuclear program.

On Oct. 14, 2016. Sean Hannity presented the best case to date for the criminal prosecution of the Clintons and Obamas.[516]

In mid-Oct. 2016. Fusion GPS’ Christopher D. Steele again briefed reporters about Trump political opposition research. The reporters are from The New York Times, The Washington Post, and Yahoo! News. Glenn R. Simpson, Fusion GPS founder was coordinating the work with Steele through DNC operative and Ukrainian-born Alexandra Chalupa in collusion with Yahoo! News reporter Michael R. Isikoff.[980]

784. **Obama hid his election rigging work with Eric Schmidt and Google: U.S. Digital Service**

On Oct. 18, 2016, President Barack H. Obama advised Trump to “stop whining” after Trump tweeted the election could be rigged. “There is no serious person out there who would suggest somehow that you could even — you could even rig America’s elections,” said Obama. He also called Trump’s “flattery” of Russian president Putin “unprecedented.”

What Obama failed to disclose is that he was conspiring with Eric Schmidt and Google who invested $1.5 billion in "The Eric Schmidt Project" later renamed the U.S. Digital Service. The existence of this conspiracy was uncovered from WikiLeaks John D. Podesta emails among Podesta, Cheryl D. Mills and Robby Mook, Hillary Clinton's reelection executives.

Oct. 19, 2016, ex-British spy Christopher D. Steele wrote his last memo for the anti-Trump “dossier” political opposition research provided to FBI. The FBI reportedly authorizes payment to Steele. Fusion GPS's Glenn R. Simpson reportedly paid him $160,000.

ca. Oct. 21, 2016, for the second time in several months, the Justice Department and FBI applied to wiretap former Trump campaign adviser (later discovered to be an FBI asset) Carter W. Page. This time, the request was approved based on new FBI “evidence,” including parts of Fusion GPS' (Glenn R. Simpson) “Steele dossier” and Michael R. Isikoff Yahoo! News article. The FBI failed to tell the court that Trump’s political opponent—the Clinton campaign and the Democratic National Committee—funded the “evidence.”
Harvard/Brookings Wittes: need an "insurance policy" in case Trump wins

**On Oct. 24, 2016** - Benjamin Wittes, confidant of FBI Director James Comey, editor-in-chief of the blog Lawfare, Senior Fellow in Governance Studies at the Brookings Institution, where he is the Research Director in Public Law, and Co-Director of the Harvard Law School – Brookings Project on Law and Security, writes of the need for an “insurance policy” in case Trump wins. It’s the same phrase FBI officials Lisa C. Page and Peter P. Strzok had used on **Aug. 15, 2016** when discussing the possibility of a Trump win.

Obama intel officials orally informed the Foreign Intelligence Surveillance Court of an earlier Inspector General review that uncovered their “significant noncompliance” in following proper “702” procedures that are supposed to safeguarding US citizens from improper National Security Agency (NSA) intelligence data unmasking.

**On Oct. 26, 2016** - At closed-door hearing before the Foreign Intelligence Surveillance Court, the Obama administration disclosed that it had been violating surveillance safeguards, according to *Circa*. It disclosed that more than 5 percent of its searches of the NSA’s database violated safeguards promised in 2011.

The judge for the Foreign Intelligence Surveillance Court held these hearings about Obama intel “702” surveillance violations. The judge criticized NSA for “institutional lack of candor” and states “this is a very serious Fourth Amendment issue.”
On Oct. 27, 2016, Judge Andrew Napolitano asked the obvious question on everyone's mind: **What happened to the FBI?**
The judge's conclusion:[532]

"The FBI has been corrupted by Obama and his team."

In late Oct. 2016, Fusion GPS’ Christopher D. Steele again briefed reporter David Corn from *Mother Jones* by Skype about the Trump political opposition research.[980]

On Oct. 28, 2016, FBI Director James B. Comey notified Congress that he was reopening the Clinton probe due to Clinton emails found on Anthony Wiener's laptop several weeks earlier.[980]
On Oct. 30, 2016

Mother Jones writer David Corn was the first to report on the anti-Trump “dossier,” quoting unidentified former spy, presumed to be Christopher D. Steele. FBI general counsel James A. Baker had reportedly been in touch with Corn, but Corn later denied Baker was the leaker.

The FBI terminated its relationship with Steele because Steele had leaked his FBI involvement in the Mother Jones article.

Steele reportedly maintained backchannel contact with the Justice Dept. through Deputy Associate Attorney General Bruce G. Ohr.

On Oct. 31, 2016

The New York Times reported that the FBI was investigating Trump and found no illicit connections to Russia.
Cheryl Mills (Apr. 15, 2014): "The Eric Schmidt Project"

Nov. 01, 2016 — New evidence proves that President Barack Obama hastily created the U.S. Digital Service on Aug. 20, 2014, in just seven (7) weeks as cover for what Hillary Clinton's chief of staff Cheryl D. Mills called "The Eric Schmidt Project" to support Hillary Clinton for President 2016. [577][867]

Figure: Barack Obama is using taxpayer funds to rig the 2016 election. In Oct. 2014 he sent his White House chief technology officer Todd Y. Park to Silicon Valley to help with Hillary’s campaign and to implement her Facebook election rigging software. Simultaneously, Obama hired Google engineer Mikey Dickerson at the White House and in just seven weeks created the U.S. Digital Service. Together, Park and Dickerson routed all election data through the White House, so that Obama could control the entire nation’s election . . . at least the parts that his operatives Bob Creamer, Robby Mook, John Podesta and Terry McAuliffe had not already rigged. See proofs below.

On Mar. 19, 2014, the GSA formed "18F" with a mission to simplify the government's digital services. 18F was staffed with Presidential Innovation Fellows. According to Google internal documents,[579] 18F has "informal ties to USDS" (U.S. Digital Service, see below). 18F targeted various federal agencies, most notably the Federal Election Commission (FEC).[576]

FEC documents confirm that the effort was to move all FEC data processing to the cloud and thus under the control of the IBM Eclipse Foundation established by IBM's chief inside counsel David J. Kappos. Kappos was appointed Patent Office director by Barack Obama in 2009. Kappos was a chief advisor to IBM's chief outside counsel James P. Chandler. Chandler was also counsel to the real inventor of social networking,
Columbus innovator Leader Technologies from whom Eclipse stole the technology being implemented by 18F, USDS and Google.

On Apr. 15, 2014, Eric Schmidt, CEO of Google, proposed "Notes for a Democratic Campaign" which the evidence shows the Barack Obama and the White House took control of and funded the leadership of this technical initiative via two former Obamacare techies Todd Y. Park, then WH Chief Technology Officer, and Mike Dickerson, Google engineer and soon to be named Administrator for the U.S. Digital Service.[577]

On Aug. 20, 2014, Obama appointed Google engineer Mikey Dickerson to lead a newly created U.S. Digital Service, first named "the Eric Schmidt Project" (see Apr. 15, 2014). Google's internal documents boast[579][867] "Current and former Googlers have also disproportionately staffed the new office[s]" for both the U.S. Digital Service and 18F.[578]

Below Left: A week after Dickerson’s appointment, and the creation of U.S. Digital Service (DNC-Hillary "the Eric Schmidt project," Todd Y. Park, U.S. Chief Technology Officer, was sent to Silicon Valley to work with Hillary Clinton’s campaign and implement Hillary Facebook election rigging software.

ca. Nov. 01, 2016. Barack Obama circulated an internal martial law plan which he was going to blame on alleged Russian interference in the 2016 election. However, the actual interference was occurring from the White House via the U.S. Digital Service which was funded with $1.5 billion from Eric Schmidt, Google, Alphabet. See previous timeline entry.[775]

796. On Nov. 6, 2016. FBI Director Comey told Congress that Clinton emails on Anthony Weiner's computer did not change his earlier conclusion: she should not be charged. Subsequent disclosure to the Senate Intelligence Committee show that Comey had drafted his Clinton exoneration letter weeks before the additional investigations had occurred, with drafting assistance from Peter P. Strzok.[980]
On Nov. 8, 2016, Donald J. Trump was elected president.

Obama National Security Adviser Susan Rice’s interest in NSA materials accelerates, according to later news reports.

Associate Deputy Attorney General Bruce G. Ohr meets with Fusion GPS co-founder Glenn R. Simpson shortly after the election.

The FBI interviews Ohr about his ongoing contacts with Fusion GPS.

In Nov. 2016, National Security Agency Mike Rogers met with president-elect Trump and was criticized for “not telling the Obama administration.”

On Nov. 17, 2016, President-elect Trump moved his Friday presidential team meetings out of Trump Tower.
800. **On Nov. 18-20, 2016.** Sen. John McCain and his longtime adviser, David J. Kramer—an ex-U.S. State Dept. official—attended a security conference in Halifax, Nova Scotia where former UK ambassador to Russia, Sir Andrew Wood, told them about the Fusion GPS anti-Trump dossier. (Kramer was affiliated with the anti-Russia *Ukraine Today* media organization). They discussed confirming that the info had reached top levels of FBI for action.[980]

**In late Nov. 2016.** Justice Dept. official Bruce G. Ohr officially told the FBI about his contacts with Fusion GPS’ Christopher D. Steele and about his wife Nellie H. Ohr’s contract work for Fusion GPS.[980]

803. **In Dec. 2016.** text messages between FBI officials Peter P. Strzok and Lisa C. Page are later said to be “lost” due to a technical glitch beginning at this point.[980]
On Dec. 8, 2016, Sen. John S. McCain met with FBI Director James B. Comey at the FBI headquarters and handed over the Fusion GPS (Glenn R. Simpson) anti-Trump research (Christopher D. Steele's 'dirty dossier'), elevating the FBI’s investigation into the matter. The FBI compiled a classified two-page summary and attached it to an intel briefing note on Russian cyber-interference in the election for President Obama.

Hillary Clinton made a public appearance denouncing “fake news.”

Hillary Clinton and Democratic operative David Brock of Media Matters announced he was leaving the board of Citizens for Responsibility and Ethics in Washington (CREW), one of his many propaganda and liberal advocacy groups, to focus on the “fake news” effort.

Brock later claimed credit—privately to of donors—for convincing Facebook to crack down on conservative fake news.[980]
George Soros bribes & controls media globally. He is the progenitor of the "fake news" attack on true news that exposes him

**On Dec. 05, 2016**, Malaysia Today published an expose of the Soros Media Empire that has so viciously exploited Malaysia's currency, the Malaysian Ringgit (MYR). It described how Soros manipulates media stories with disinformation that fabricates irrational investor panic in any currency market he wishes to hedge. This research helps confirm that Soros' minions are behind the current "fake news" attacks on conservative media outlets like Drudge Report, InfoWars, Before It's News, Stone Cold Truth, PrisonPlanet, The Real Alex Jones, Paul Joseph Watson, Steve Pieczenik, WorldNet Daily, The Free Thought Project, Breitbart, ZeroHedge and others who are exposing his agenda. Moral: Soros is not an investing genius, he is an evil manipulator on a global scale. [533]

On Dec. 10, 2016, Alex Jones broke down the total absurdity of the king and queen of fake news, Brian Williams and Hillary Clinton, declaring an all out attack on what they deem to be fake news. Despite Williams losing his job with NBC’s Nightly News last year for spreading fake news and Clinton being caught lying about an attack on a Bosnia trip, not to mention voting for a war that killed thousands that was based on fake news, they continue to push forward in their attempt to shut down the alternative press that is rapidly growing and pushing out the faltering mainstream media. As the EU demands social media sites censor fake news and Reddit, Facebook and other sites begin blocking Infowars and other alternative media it is now alarmingly evident that there is truly a war on for our minds.

Between Nov. 2016 & Jan. 2017, News reports claimed Rice’s interest in the NSA materials accelerates after President Trump’s election through his January inauguration. Surveillance reportedly included Trump transition figures and/or foreign officials discussing a Trump administration.

FBI secretly monitored and recorded communications between Russian ambassador, Sergey Kislyak and Lt. Gen. Michael Flynn, who later became President Trump’s national security adviser.

After Trump’s election, Obama officials took steps to ensure certain intelligence gathered regarding Trump associates was “spread across the government.” One Obama official would later say it was because they were afraid once Trump officials “found out how we knew what we knew,” the intelligence would be destroyed. However, Obama critics later theorized Obama officials were working to mount opposition to Trump’s presidency.

808. **On Dec. 29, 2016**, President Obama imposed sanctions against Russia for its alleged election interference.

President-elect Trump national security adviser Lt. Gen. Michael Flynn spoke with Russian Ambassador to U.S. Sergey Kislyak. The call was wiretapped by U.S. intelligence and later leaked to the press.

The State Department released 2,800 work-related emails from Huma M. Abedin, a top aide to Hillary Clinton, found by FBI on laptop computer of Abedin’s husband, former Rep. Anthony D. Weiner. [980]

**2017**

809. **In Jan. 2017**, according to CNN, a wiretap reportedly continued against former Trump campaign chair Paul Manafort, including times he spoke to Trump, meaning U.S. intel officials could have “accidently” captured Trump’s communications.

Justice Dept. Inspector General Michael E. Horowitz confirmed he is investigating several aspects of FBI and Justice Department actions during the Clinton probe.

Director of National Intelligence James R. Clapper testified to Congress that Russia interfered in the U.S. elections by spreading fake news on social media.

Justice Dept. official Peter J. Kadzik, who “tipped off” Clinton campaign regarding Congressional questions about her email, left government work for private practice.

In early Jan., the FBI renewed the wiretap against Carter W. Page, who was later identified to be an FBI plant/asset. [980]

810. **On Jan. 03, 2017**, Obama Attorney General Loretta E. Lynch signed rules allowing the Director of National Intelligence Eric R. Clapper to expand the Dec. 15, 2016 ruling allowing the National Security Agency (NSA) to widely disseminate surveillance within the government. [980]
On Jan. 5, 2017, the Intelligence Community leadership provided a classified briefing on alleged Russia hacking during the 2016 campaign, according to notes later written by national security adviser Susan E. Rice that Senators Grassley and Graham called "unusual."[980] [971]

After the briefing, according to notes made later by Rice, President Obama convened an Oval Office meeting with her, FBI Director Comey, Vice President Biden and Deputy Attorney General Sally Yates. The "Steele dossier" was reportedly discussed.

These activities were very strange considering that they occurred during their lame duck transition period between the Nov. 2016 election and the Jan. 20, 2017 inauguration of Donald J. Trump. These activities make them appear as if they did not believe they would be transferring power to Donald Trump.

On January 5, following a briefing by IC leadership on Russian hacking during the 2016 Presidential election, President Obama had a brief follow-on conversation with FBI Director Jim Comey and Deputy Attorney General Sally Yates in the Oval Office. Vice President Biden and I were also present.

President Obama began the conversation by stressing his continued commitment to ensuring that every aspect of this issue is handled by the Intelligence and law enforcement communities "by the book". The President stressed that he is not asking about, initiating or instructing anything from a law enforcement perspective. He reiterated that our law enforcement team needs to proceed as it normally would by the book.
On Jan. 06, 2017, FBI Director James B. Comey and other Intel leaders met with President-Elect Trump and his national security team at Trump Tower in New York to brief them on the alleged Russian efforts to interfere in the election.

Later (Jan. 20, 2017, see above), Obama national security adviser Susan E. Rice wrote herself an email stating that President Obama suggested they hold back on providing Trump officials with certain info for national security reasons.

After the Trump team briefing, FBI Director James B. Comey met alone with Trump to “brief him” on the Fusion GPS Steele allegations “to alert the incoming President to the existence of this material, even though it was salacious and unverified…” Comey later said Director of National Intelligence James R. Clapper asked him (Comey) to do the briefing personally.

New AFI research shows how the C.I.A. / NSA turned against American privacy rights. It revealed why reorganization of the C.I.A is a liberty imperative. The swamp of corruption in Washington, D.C. must be drained in order to save the American Republic. [544] [545] [980] [971]

On Jan. 10, 2017, the media reported on the leaked anti-Trump “dossier” compiled by the Fusion GPS political opposition research group containing unverified and at least partly untrue allegations of misconduct involving Trump and Russia.

The 35-page Fusion GPS anti-Trump “dossier” says that sources of the unverified info are Russians close to President Putin. [799]
814. **On Jan. 12, 2017**, the Obama administration finalized new rules allowing the National Security Agency (NSA) to spread certain intelligence to 16 other U.S. intel agencies without the normal privacy protections. President Obama commuted all but the last four months of Manning’s sentence for leaking intelligence information to WikiLeaks.

815. **On Jan. 13, 2017**, Senate Intelligence Committee opened an investigation into Russia and U.S. political campaign officials.
Women's March on Washington organized by rogue elements of the C.I.A.? Admitted C.I.A. Agent Feminist Gloria Steinem was a speaker.

On Jan. 17, 2017, the government and quasi-government / secretly nationalized ("public-private") organizations that likely comprise the rogue, unelected, unaccountable C.I.A. shadow government "Deep State" were identified.[569] The C.I.A. has been deceiving the American public for many decades.

For example, the C.I.A. formed and perpetuated the fraudulent American "feminist" movement starting in the late 1950's through their agents including Gloria Steinem, NOW (National Organization for Women), Ms. Magazine and the Independent Research Service (1959-ca.1968 ), as now revealed in video taped testimony from Gloria Steinem released by the JFK Assassination Archives where she was deposed about her role in the Independent Research Service, a C.I.A. front.[568]

https://youtu.be/pm-PFawZ0Ms | Raw *mp4 video file

These Steinem revelations beg the question about what role the C.I.A. Deep State played in the sometimes violent and certainly abusive "Women's March on Washington" (the C.I.A agent and feminist fraudster Gloria Steinem was a speaker; she claimed to speak for "We the People" and a "deep democracy"—a phrase certainly full of hidden meaning given her long association with the C.I.A Deep State shadow government) the day following the inauguration of Donald J. Trump. Given Mr. Trump’s skepticism about the role of the U.S. intelligence services in supporting Hillary Clinton's candidacy and the George Soros globalist agenda, the skepticism appears justified.

When will these unelected C.I.A. operatives stop meddling in the affairs of the American Republic? We the People have had our fill of these powermongers whose only real work is treachery disguised as "national security." Enough.

817. **On Feb. 2, 2017**, the news reported that five information technology (IT) computer professionals employed by Democrats in the House of Representatives were under criminal investigation for allegedly “accessing House IT systems without lawmakers’ knowledge.” The suspects included three brothers identified as Abid, Imran and Jamal Awan “who managed office information technology for members of the House Permanent Select Committee on Intelligence and other lawmakers.” The brothers were said to have been employed by three Democrats on the Intelligence Committee and “five members of the House Committee on Foreign Affairs which deal with many of the nation’s most sensitive issues and documents, including those related to the war on terrorism.”[799]

818. **On Feb. 3, 2017**, a Russian tech mogul named in the Steele “dossier” files defamation lawsuits against BuzzFeed in the U.S. and Christopher Steele in the U.K. over the dossier’s claims he interfered in U.S. elections.[980]

819. **On Feb. 09, 2017**, news of the FBI recordings of Lt. Gen. Flynn speaking with Russia’s ambassador was leaked to the press. *The New York Times* and *The Washington Post* reported that Flynn was captured on wiretaps discussing current U.S. sanctions, despite Flynn’s earlier denials. *The Washington Post* also reported the FBI reviewed Flynn’s calls with Russian ambassador and “found nothing illicit.”[799]

820. **On Feb. 13, 2017**, Trump National Security Adviser Flynn resigned, acknowledging he had misled Vice President Pence about his Russia conversations. [799]
Clinton, Bush, Obama Executive Orders & Presidential Directives that have created the current globalist rogue C.I.A. technocracy that stole & exploited Leader Technologies' social networking invention

On Feb. 17, 2017 the 23 executive orders and Presidential directives that have created the authority for the White House to set up and run a private intelligence agency reporting only to the President was compiled and published.[265]

George H. W. Bush:

"A New World Order" [616]

See also Jan. 16, 1991 timeline entry.

Law professor James P. Chandler drafted much, if not all, of these executive orders and presidential directives through all four Administrations (1989-2017)—he authored the Economic Espionage Act of 1996, among others; Chandler also became Leader Technologies' traitorous patent attorney (2000). He consulted to the Patent Office that developed new procedures to enable globalist infringers to steal promising patent applications in the name of "patent reexamination." Obama's Patent Office, director David J. Kappos (2009-2013) was a Chandler advisor and intellectual property counsel to IBM, the chief supplier of technology to the Deep State shadow government, to whom Chandler shuffled Leader Technologies' social networking invention to enable the Deep State spy networks.

On Jan. 20, 2017, Donald J. Trump became the 45th President of the United States of America.

Fifteen minutes after Donald Trump became president, former National Security Adviser Susan E Rice emailed memo to herself purporting to summarize the Jan. 5 Oval Office meeting with President Obama and other top officials. She stated that Obama instructed the group to investigate “by the book” and asked them to be mindful whether there were certain things that “could not be fully shared with the incoming administration.”

On Jan. 22, 2017, Intel info leaked to The Wall Street Journal reported “US counterintelligence agents have investigated communications” between Trump aide Gen. Michael Flynn and Russia ambassador to the U.S. Kislyak to determine if any laws were violated.[980]

On Jan. 24, 2017, Acting Attorney General Sally C. Yates sent two FBI agents, including Peter P. Strzok, to the White House to question Gen. Flynn.[980]

On Jan. 26, 2017, Acting Attorney General Sally C. Yates and a high-ranking colleague went to the White House to tell counsel Don McGahn that “the underlying conduct that Gen. Michael Flynn had engaged in was problematic in and of itself.”[980]
On Jan. 27, 2017, Acting Attorney General Sally C. Yates again visited the White House. [980]

On Jan. 27, 2017, President Donald J. Trump called the mainstream media (MSM) "the opposition party." In an exclusive interview with David Brody of the Christian Broadcasting Network (CBN), President Trump said:

"I think the media is the opposition party in many ways," the president said on "The Brody File," a program on CBN. "I'm not talking about everybody, but a big portion of the media, the dishonesty, total deceit, and deception. It makes them certainly partially the opposition party, absolutely." [736]

On Jan. 31, 2017, President Trump fired Acting Attorney General Sally C. Yates after she refused to enforce his temporary travel ban on Muslims coming into U.S. from certain countries. Andrew Weissmann, a key prosecutor on Robert Mueller’s team, praised Obama DOJ holdover Sally Yates after she lawlessly thwarted President Trump,” stated Judicial Watch president Tom Fitton.⁹⁸⁹ ⁹⁹⁰

Dana J. Boente became Acting Attorney General. (It was later revealed that Boente signed at least one wiretap application against former Trump adviser Carter W. Page.) ⁹⁸⁰

On Feb. 8, 2017, Jeff Sessions became Attorney General and Dana J. Boente moved to Deputy Attorney General.⁹⁸⁰

On Feb. 11, 2017, New York Post investigator Paul Sperry uncovered Barack Obama's plan to set up a seditious shadow government near the White House to harass and undermine the Trump White House using 30,000 OFA soldiers (Obama for America, Organizing for Action).⁶⁰⁵

On Feb. 14, 2017, *The New York Times* reported that the FBI had told Obama officials there was no “quid pro quo” (promise of a deal in exchange for some action) discussed between Gen. Flynn and Russian ambassador Kislyak.

Gen. Flynn resigned, allegedly acknowledging he misled vice president Mike Pence about the content of his discussions with Russia.⁹⁸⁰
On Feb. 17, 2017, *The Washington Post* reported that “Flynn told FBI he did not discuss sanctions” with Russia ambassador and that “Lying to the FBI is a felony offense.”

On Feb. 21, 2017, the rogue C.I.A. Deep State shadow government was identified by *Americans for Innovation* and many others as being glued together by pedophilia. Lord have mercy.

This conclusion is confirmed by FBI superstar Ted L. Gunderson, FBI Special Agent In Charge (ret.). See Ted's speech on May 12, 2005 timeline entry confirming rampant child sex trafficking that he says FBI REFUSES TO INVESTIGATE.

How Palantir Technologies' Peter Thiel, Alexander Karp, Gilman Louie (C.I.A. In-Q-Tel), James W. Breyer (Facebook, National Venture Capital Association) helped the NSA spy on the whole world

On Feb. 22, 2017, The Intercept, founded by Glenn Greenwald—The Guardian investigator who broke Edward Snowden’s story—just published a major investigative article on how Peter Thiel and Alexander Karp, two of the founders of Palantir Technologies, helped the NSA spy on the whole world. The leading investor in Palantir was the C.I.A.’s In-Q-Tel venture capital firm that illegally invests in private companies a a public institution. In-Q-Tel's CEO was Gilman Louie, a director of the National Venture Capital Association (NCVA) when Facebook's James W. Breyer was Chairman, along with Kleiner Perkins LLP's partner Theodore Schlein.[613]

In Mar. 2017, the House Intelligence Committee requested a list of unmasking requests made during a certain time period by Obama officials. The intelligence committee did not provide the information, prompting a June 1 subpoena.
On Mar. 01, 2017, The Washington Post learned and reported that Trump Attorney General Jeff Sessions had met with the Russian ambassador twice in the recent past. Sessions had told Congress he didn’t communicate with the Russians during the campaign. (The Russian ambassador had sought out and met with numerous high-ranking Democrat and Republican officials.)

Obama/Holder/Lynch violations of The Hatch Act prohibiting use of public funds for partisan politics uncovered

On Mar. 01, 2017, former president Barack Obama and the Eric Holder / Loretta Lynch Department of Justice admitted that they converted billions of dollars in settlement funds from 2008 bank bailout settlements with JPMorgan Chase, Morgan Stanley, Bank of America, Deutsche Bank, Barclays, and UBS to fund radical leftist political organizations like Black Lives Matter, La Raza and the National Urban League.

On Mar. 02, 2017, in an interview on MSNBC, Obama Deputy Assistant Secretary of Defense Evelyn Farkas said that once President Trump was elected, she urged her former colleagues to “get as much information as you can, get as much intelligence as you can [about Trump and his associates] before President Obama leaves the administration” and get it to “people on Capitol Hill.”

Trump Attorney General Jeff Sessions recused himself from any Trump campaign-related investigations after backtracking on earlier statements that he had not met with Russian officials prior to the election.[799]

On March 4, 2017, President Trump tweeted: “Is it legal for a sitting President to be ‘wire tapping’ a race for president prior to an election? Turned down by court earlier. A NEW LOW!” and “How low has President Obama gone to tapp my phones during the very sacred election process. This is Nixon/Watergate. Bad (or sick) guy!”
Vault 7: The Protection of Providence on the United States of America (the Deep State shadow government is collapsing under the weight of its own corruption)

Mar. 07, 2017

WikiLeaks released a C.I.A. data dump titled "Vault 7 Part 1 'Year Zero': Inside the CIA's global hacking force." John Bound, investigative reporter for Infowars, provides a precient overview of the WikiLeaks release. Then, Alex Jones interviewed Dr. Steve Pieczenik on the insider story of Vault 7 within the patriot intelligence community's war with the Deep State shadow government.[623] [626]

On Mar. 07, 2017 globalist eugenicist Bill Gates is surprised by a question about his and his wife Melinda's Bill & Melinda Gates Foundation advocacy of global eugenics programs for forced mass innoculations that contain "kill switches" like SW-40. Eugenics is a "set of beliefs and practices that aims at improving the genetic quality of the human population." These principles were implemented by Margaret Sanger in the creation of Planned Parenthood in 1916, and by Adolf Hitler in his Final Solution plan to annihilate Jews, gypsies, homosexuals, Poles and Slavs, among others, in order to purify the Aryan blood lines that they considered to be superior and preferred. Remarkably, the Klu Klux Klan (KKK) promoted Sangers' Democratic "urban plantation" agenda as a method for culling what were seen to be inferior African-American genetic pools in the growing inner cities, as well as poor rural white populations in Appalachia, among others.[625] See also Apr. 11, 2011.

844. **Mar. 09, 2017** WikiLeaks founder Julian Assange held a press conference to explain the bombshell release of Vault 7 exposing the Central Intelligence Agency's (C.I.A.) secret, illegal "parallel NSA" global digital spying operation that taps into phones, computers, TV and any Internet-connected device at will, without a warrant. This release further validates the findings and conclusions in this Americans for Innovation timeline.[621]

845. **On Mar. 10, 2017** Former Congressman Dennis Kucinich, a Democrat, stepped forward to support Trump’s wiretapping claim, revealed that the Obama administration recorded his (Kucinich’s) communications with a Libyan official in Spring 2011.[799]
On Mar. 15, 2017: Barack H. Obama appointed (2012) Honolulu, Hawaii federal judge Derrick K. Watson blocked President Trump's second executive order temporarily banning visas from six high risk terrorist countries Iran, Libya, Somalia, Sudan, Syria and Yemen. Given the highly political nature of Watson's decision, and the well known disagreement between Barack Obama and Donald Trump on this topic, the Code of Conduct for U.S. Judges required that Watson recuse himself "to avoid even the appearance of impropriety." Watson was a Harvard Law classmate of Barack Obama. Remarkably, just two days earlier, Obama had made an unaccompanied trip from Washington, D.C. to Honolulu. Obama was seen dining at the Noi Thai restaurant "likely within 5 minutes of the judge’s house at one point on the drive over" to the restaurant. How convenient.

The C.I.A. originated & funded (evil) "fake news" on a global rogue scale

On Mar. 17, 2017: Joel Witney's new book, "Finks: How the C.I.A. Tricked the World’s Best Writers," explores how the CIA influenced acclaimed writers and publications during the Cold War to produce subtly anti-communist material. During the interview, Robert Scheer, Robert Scheer Intelligence, and Whitney discuss these manipulations and how the CIA controlled major news agencies and respected literary publications (such as the Paris Review). Their talk comes at a particularly tense time in American politics, as accusations of "fake news" and "Russian propaganda" fly from both sides of the aisle. But the history detailed in Whitney’s book presents a valuable lesson for writers hoping to avoid similar manipulations today. Scheer opens the discussion with the question: "Were they really tricked?" "It could have been 'paid,' it could have been 'subsidized,' it could have been 'used,' it could have been 'collaborated with,' " Whitney responds. "So yeah, it might have been any other verb there besides 'tricked.'"[628]

Given this history of fake news, the current attempt by the Deep State shadow government to silence the criticisms from the alternative media by labeling them fake news is truly evil. The Book of Romans, Chapter 1: 18, 25:

"For the wrath of God is revealed from heaven against all ungodliness and unrighteousness of men who suppress the truth in unrighteousness. .
. For they exchanged the truth of God for a lie, and worshiped and served the creature rather than the Creator, who is blessed forever. Amen.

The NSA/C.I.A. (US), GCHQ (Britain), FRE (Sweden) do each other's rogue dirty work largely outside of government oversight

On Mar. 18, 2017: The documents leaked by Edward Snowden and retrieved from Glenn Greenwald prove that Sweden's security services and intelligence gathering are largely run by the NSA (US) and GCHQ (Britain). Therefore, any of these agencies can secretly do the work asked of them by another in order to give the official who asked for the information complete anonymity and deniability.[629]
On Mar. 20, 2017 at a hearing, lead House Intelligence Committee Democrat Adam B. Schiff placed Trump adviser Carter W. Page at the center of a theoretical alleged collusion with Russia. (It was not yet publicly known that the FBI has been surveilling Page.) Some critics saw Schiff’s storyline as an attempt to establish public justification for the Obama administration intel community’s controversial surveillance of the Trump adviser during the 2016 political campaign.[799]

On Mar. 21, 2017 Cisco Systems admitted a "critical bug" revealed by WikiLeaks Vault 7 allows the C.I.A. to secretly control 318 Cisco Switch Models. Also said that no fix was available. This admission neuters all claims to Internet security in the entire Internet. It opens corporate directors up to massive risk liabilities due to the vulnerabilities of their corporate digital assets.[645] [646]

To make matters worse, Cisco's official response is to pretend that the "bug" was unknown to them, despite their registering encryption backdoors into all their products with the National Institute of Standards and Technology (NIST) DRBG Validation List.[647]

Cisco chairman John T. Chambers is a member of the Deep State shadow government run by a rogue C.I.A. as exemplified by his membership and deep involvement with the IBM Eclipse Foundation, the National Infrastructure Assurance / Advisory Council (NIAC) and The Clinton Foundation.

On Mar. 22, 2017 Chairman of the House Intelligence Committee Devin Nunes publicly announced that he had reviewed evidence of U.S. citizens associated with Trump being “incidentally” surveilled by Obama intelligence officials, and that the names and information of the Trump associates were illegally leaked and/or used, mostly in November, December and January. Nunes attended a meeting at the White House to discuss. He was criticized for viewing the evidence and speaking of it publicly.[799]

In an interview on PBS, former Obama National Security Adviser Rice says “I know nothing about this . . . I really don’t know to what Chairman Nunes was referring.”
852. **On Mar. 24, 2017**, the political firm that compiled the Trump “dossier” that was leaked to the press, Fusion GPS, then refused to answer questions or document requests from Sen. Charles Grassley.[799]

853. **Mar. 28, 2017**, Peter Schweizer, author of *Clinton Cash*, and president of the Government Accountability Institute, explains John Podesta’s connections and partnerships with the Russian Government while he was an advisor to both Hillary Clinton and Barack Obama in 2011. This timeline shows that these Russian contacts reach back into 1992-1993 with the involvement of Larry H. Summers, Sheryl K. Sandberg, Yuri Milner and Alisher Usmanov.[638]

854. **On Mar. 31, 2017**, Democrat Adam B. Schiff was invited to the White House to review the intel material Republican Nunes saw earlier.[799]

855. **On Apr. 03, 2017**, multiple news reports state that prior to the election, Susan E. Rice had requested and reviewed “unmasked” intelligence on Trump associates whose information was “incidentally” collected by intelligence agencies.[799]
On Apr. 04, 2017, in an interview on MSNBC, Susan E. Rice seemed to reverse herself (having earlier said she knew “nothing” about unmasking of surveilled Trump associates) and admitted having asked for names of U.S. citizens previously masked in intelligence reports. Rice said her motivations were not political or to spy. When asked if she leaked names of U.S. citizens,

Rice replied, “I leaked nothing to nobody.”

On Apr. 06, 2017, House Intelligence Committee Chairman Nunes recused himself from the Russia part of his committee’s investigation.

On Apr. 08, 2017, investigative journalist Paul Joseph Watson prepared a summary of proofs that a massive global pedophile network is being covered up. Ted L. Gunderson, FBI Special Agent In Charge (ret) says "a rogue outfit . . . military criminal enterprise inside the US government" actually organizes these networks in order to compromised powerful politicians and businessmen into supporting the globalist Deep State shadow government agenda.[648]

On Apr. 11, 2017, someone leaked to The Washington Post, and the Post reported, that the FBI secretly obtained a FISA court order last summer to monitor Trump campaign associate Carter W. Page. Trump critics said the existence of the order proves there was possible criminal activity by Trump associates. However, Trump supporters say the leak was an attempt to frame damning revelations as they are coming to light: that the Obama administration was, indeed, surveilling the political campaign of at least one opponent. Therefore, Trump's much maligned tweet on Mar. 04, 2017 was proved to be true.[799]

Thompson, protégé of James P. Chandler, was identified by newly-appointed Secretary of State Hillary Clinton in 2009 as one of her globalist technology insiders. Hillary's emails proved that George Soros and his Open Society Foundations had effectively taken over the U.S. State Department.[236]

861. **On Apr. 14, 2017 (Good Friday, Great and Holy Friday).** Infowars reporter Millie Weaver conducted an in-depth investigation of the Internet black market known as the "dark net" or "deep web". With the aid of an anonymous source who has used their expertise in computer technology to assist the FBI in investigations regarding the sexual exploitation of children, Weaver exposes where and how pedophiles, traffickers and travel clubs use the Internet as a marketplace to indulge in nightmarish perversions. Lord have mercy.[653]

**May the Lord have mercy on and save these defenseless children.**

May the Lord strengthen and guide our patriots who are bringing these criminals to justice. Shame on the rogue C.I.A. Deep State shadow government for this depravity.

862. **ASSANGE: The lying C.I.A. should not be the agency assigned to protect America's First Amendment rights to free speech and freedom of the press, or even to comment on the subject for that matter**

**On Apr. 14, 2017.** WikiLeaks founder Julian Assange, issued a strongly worded press release redressing new C.I.A. Director Mike Pompeo for his ignorant comments about WikiLeaks and First Amendment rights to free speech and freedom of the press. [654]
Steele: Today, "NSA is surveiling and C.I.A. is blackmailing politicians . . . this is not legitimate intelligence . . . the U.S. intelligence community is a fraud."

On Apr. 17, 2017, veteran C.I.A. executive agent, Robert David Steele, says the rogue C.I.A. is now a "dangerous fraud" where the NSA spies on and the C.I.A. blackmails U.S. and overseas politicians.

Robert David Steele TRANSCRIPT (starts at 3m23s below)

"The fact is, the U.S. intelligence community is a fraud. And now it's a dangerous fraud, because since 9/11 the NSA has basically been surveilling, spying on all U.S. politicians, and the C.I.A. has been blackmailing U.S. politicians, including Senator John McCain and Senator Lindsey Graham.

And, the same is true overseas. The American intelligence money has corrupted other intelligence services, certainly including the Australian intelligence service, as well as the United Kingdom.

And, we now know that, and I've written eight books on this point, we now know that the craft of intelligence is a very righteous, decent craft. Its about decision support. It's about knowing what the question is, knowing who knows, collection management, processing the information from many sources, properly visualizing it, and then presenting it to a decision maker on a single index card with three colors: red, yellow and green. OK, so the craft of intelligence is very, very important.

The intelligence community [today] does not do intelligence. It does spies and secrecy that promote war and waste and bribery. It does not do decision support."
864. **On Apr. 28, 2017**, the NSA announced it “will no longer collect certain internet communications that merely mention a foreign intelligence target.” This after it secretly disclosed mass violations to the FISA court last October. The NSA also began deleting prior collected data. It says it’s doing this to avoid further violations.

865. **On May 02, 2017**, Obama’s former National Security Adviser Susan B. Rice declined Republican Congressional request to testify at a hearing about the unmasking and surveillance.[799]

866. **On May 03, 2017**, Members of Senate Intelligence Committee went to C.I.A. headquarters to get briefed on Russia-Trump connections. The following day, CNN asks Senate Intelligence Committee member Dianne Feinstein if there is evidence of “collusion between Trump associates and Russia during the campaign.” “Not at this time,” replies Feinstein.[799]

867. **On May 4, 2017**, it was revealed that in the election year of 2016, the Obama administration vastly expanded its searches of NSA database for Americans and the content of their emails and phone calls: From 9,500 searches involving 198 Americans in 2013 to 30,355 searches of 5,288 Americans in 2016.[799]
868. **On May 5, 2017**, Senator and former Presidential candidate Rand Paul (R-KY) formally asked the White House and intelligence community whether he was surveilled under the Obama administration.

869. **On May 14, 2017**, Former Director of National Intelligence James R. Clapper and ex-Deputy Attorney General Sally C. Yates, Obama administration officials, admitted to reviewing “classified documents in which Mr. Trump, his associates or members of Congress had been unmasked.” They wouldn't provide further details in public.[799]
On May 16, 2017, Ohio attorney Kenneth R. Donchatz, Attorney Reg. No. 0062221, was suspended indefinitely from the practice of law by the Ohio Supreme Court. Donchatz had been Leader Technologies' attorney since 2005. After years of poorly defending Leader and stringing out a series of meritless cases to drain Leader's resources, Donchatz eventually turned on Leader and sued their officers for puffed up billings.

Simultaneously, he sued his law partners to seize control of the Leader billing claim. In the process of mediation in the case, Donchatz lied to the court multiple times. Years later, the Cleveland Bar Association filed a disciplinary complaint against Donchatz for cheating multiple clients, including Leader. Notably, Donchatz was formerly an investigator for the Disciplinary Counsel who "characterizes himself as an expert in ethics' and has used the moniker 'the ethics monster'" according to the Ohio Supreme Court.

The Ohio Disciplinary Council ruled against Donchatz and suspended him for two years. Donchatz appealed to the Ohio Supreme Court. In his hearing (video below), Donchatz lied again. The justices clearly believed that Donchatz is a predator and suspended him indefinitely.

At one point during the Leader representation, Donchatz disclosed that he was invited to summer vacation in the Hamptons at Jim Swartz's estate. Swartz is a partner of Accel Partners LLP, one of Facebook's largest shareholders. Evidently, Donchatz was recruited to harass and try to destroy Leader Technologies from the inside with endless legal machinations.

Facebook/Accel Partners' attorney insider at Leader Technologies (a self described "ethics monster") is suspended indefinitely from the practice of law by the Ohio Supreme Court for serial misconduct

871. **On May 17, 2017**, former FBI Director Robert S. Mueller was appointed by Rod J. Rosenstein, Assistant Attorney General, as special counsel to oversee the investigation into alleged Russian interference in the 2016 U.S. elections. Neither Mueller nor Rosenstein disclosed their long personal relationship creating a conflict of interest; Rosenstein did not disclose his decades old conflict of interest concerning his wife, Lisa H. Barsoomian, who was mentored by Mueller and his replacement James B. Comey. **Barsoomian actually represented Bill Clinton** in *Hamburg v. Clinton*, 98-cv-01459-TPJ (DC District Court) and its appeal *Hamburg, Al v. Clinton, William J.*, Case No. 99-5053 (DC Circuit Court). These conflicts of interest are egregious and taint the entire special counsel proceeding. **Mueller, Comey, Barsoomian and Rosenstein were all Washington, D.C. U.S. Attorneys during 9/11** and very evidently played a role in the planning and cover-up of C.I.A. involvement in 9/11.\[735]\n
872. **On May 31, 2017**, document is disclosed to Justice Department in a lawsuit claiming the NSA engaged in “blanket surveillance” of the 2002 Winter Olympics in Salt Lake City, Utah (Mitt Romney President & CEO), collecting and storing “virtually all electronic communications going into or out of the Salt Lake City area, including the contents of emails and text messages” to “experiment with and fine tune a new scale of mass surveillance.” Former C.I.A. and NSA director Michael Hayden has denied such a program existed.\[799]\n
873. **On Jun. 01, 2017**, House Intelligence Committee issued 7 subpoenas including for information related to unmaskings requested by ex-Obama officials national security adviser Susan Rice, former CIA Director John O. Brennan and former U.S. ambassador to the U.N. Samantha Power. Chairman Devin Nunes said the intelligence community has been stonewalling the committee’s March request for a list of all the unmaskings that occurred during a certain time period.\[799]
On Jun. 01, 2017, President Donald J. Trump formally withdrew the United States from the Paris Climate Treaty that Barack Obama had committed to without Congressional approval.

The reaction from trendies is frantic. However, recently, a NOAA whistleblower claimed that there was a "thumb on the scale pusing for, and often insisting on, decisions that maximize and minimize documentation."[743]

Whistleblower DCLeaks leaked an Aug. 10, 2009 internal George Soros Open Society Foundations document written by Nancy Youman, a journalist, his director of the Open Society Initiative on Climate Change, describing how 'global warming' and 'climate change' were CREATED by George Soros, her boss, in 2007:

"Since George Soros became interested in global warming a few years ago, we have gotten up to speed on the issue and what is required to meet the climate challenge, learned about other funders' efforts, and intervened here and there. OSI has made or is in the process of making a couple of substantial investments in key climate initiatives: a) George Soros pledged $10,000,000/year for three years, beginning in 2008, to the Alliance for Climate Protection, founded by Al Gore"[745]

President Trump stopped a massive drain of cash from the United States in "carbon credits" designed to empower the global elite and place an energy tax on the global population.[740]

On Jun. 08, 2017, recently fired FBI Director James B. Comey testified before the Senate Intelligence Committee about his relationship to Donald Trump and alleged Russian hacking of the 2016 U.S. Election. Shockingly, Comey admitted under oath that he made notes of a dinner he had with President Trump on his personal computer, then leaked those notes to The New York Times via his personal attorney and Columbia Law professor Daniel C. Richman. This action likely violates multiple laws on classified information and national security.[748]
On Jun. 19, 2017, President Donald J. Trump hosted an "American Technology Roundtable." The attendees from commerce and academia included almost exclusively members of the rogue C.I.A. Deep State shadow government technology providers exposed in this timeline. [753]

On Jul. 03, 2017, Russia probe special counsel Robert S. Mueller, adding to his own conflicts of interest, appointed DOJ assistant U.S. Attorney Andrew D. Goldstein to the probe. In 2009, Goldstein represented JPMorgan Chase and is therefore heavily conflicted in this matter. JPMorgan had just received $25 billion in TARP bailout funds, then in 2013 paid a $13 billion penalty for selling fraudulent mortgages that prompted the bailout. In 2010, Goldstein went to work for U.S. Attorney Preetinder Bharara in the Southern District of New York. Neither Bharara nor Goldstein prosecuted even one of the big bank recipients of the 2008 bailout managed by Clinton/Obama crony Larry H. Summers. Facebook chief operating officer Sheryl K. Sandberg was chief of staff for Summers at the Clinton Treasury Department and a known Hillary Clinton supporter. Therefore, Goldstein's many close associations among JPMorgan, Facebook, Summers, the Clintons, Facebook, the DNC and Obama present substantial conflicts of interest dictating his recusal from this matter. JPMorgan was a substantial support of Bill & Hillary Clinton, Barack Obama and the Democratic National Committee. His bias against President Donald Trump is substantially evident. Leader/McKibben served Miller Act Notice on the White House for the theft of their social networking inventions by rogue Deep State intelligence operatives

On Aug. 03, 2017, Michael T. McKibben and Leader Technologies, Inc. filed a Miller Act Notice that was served on President Donald J. Trump at the White House. They claim the outright theft of their social networking inventions beginning in Feb. 2002 when they first met patent attorney James P. Chandler, III, who failed to disclose that he was an agent of the Deep State shadow government run by President Bill Clinton. The Miller Act Notice says the damages are valued at least $40 billion for historical damages, which they say is not actually close to the real number, and $184 billion per year in ongoing annual license fees. It appears that these amounts will be paid by the surety bond holders who supply the federal government's intelligence apparatus, companies like IBM, Microsoft, Xerox, etc. This puts the payout in the coming years at well over one trillion dollars. The claim is after taxes, which means the government may generate $20 billion or more per year in taxes from this claim as the bond holders pay out.

Inventor Michael McKibben included a short video explaining the circumstances which are covered in this blog. He explains how Leader Technologies discovered that their patent attorney, James P. Chandler, stole their social networking invention and fed it to IBM and the Deep State rogue shadow government. He also describes his former work in the former Soviet Union where he observed the death of the globalist assault on Christianity in Russia, which is now being repeated in America.

On Aug. 24, 2017, new research proves that Leader Technologies' former patent counsel James P. Chandler, III, stole Leader's social networking invention and gave it to his other client, IBM, to use as a global mind control system. IBM has been engaged in mind control ever since they started supplying computers to the Nazi Party in Germany in 1933.

The Bluebird Report to Congress (1999) revealed that:

“Between 1945 and 1955, 765 scientists, engineers, and technicians were brought to the United States under Overcast, Paperclip, and similar programs. It has been estimated that at least half, and perhaps as many as 80 percent, of the imported specialists were former Nazi Party members.”[781]

At the end of WWII, the newly-formed C.I.A. co-opted some 1,600 Nazi scientists, brought them to the U.S. and allowed them to continue their research. Some of them had worked on a Soviet mass mind control technique called AGITPROP (Agitation Propaganda).[785]

AGITPROP stages events with messages reinforced by media, news, films, literature, plays, pamphlets and other art forms to demonize opponents and condition the general population for an eventual crackdown on those opponents.

The CIA started in 1947 and exploited these scientists under various mind control programs including CHATTER, PAPERCLIP, OVERCASE, BLUEBIRD, ARTICHOKE, MKULTRA, MKNAOMI, MKDELTA, MKOFten MKCHICKWIT, MKSEARCH and Operation Midnight Climax (yes, even targeting San Francisco brothels!).[784]

Former C.I.A. officer Kevin Shipp believes Social-Civil revolution needed to restore the Constitution destroyed by the shadow government and Deep State

Author Edwin Black joined Alex Jones and Mike Cernovich live via Skype to address the reason behind keeping IBM afloat as a major company despite their clearly treasonous acts of aiding the Nazi enemy. FIG–IBM FIRST CENTRALIZED DATA ON CITIZENS FOR NAZI, GERMANY STARTING IN 1933. Today, IBM and the C.I.A. have continued that goal with different packaging, calling it IBM "The Internet of Things." The illegal mass surveillance of Americans has been bad at stopping terrorists, but it has been good at collecting all information about a person (work history, bank accounts, education, political beliefs, spirituality, opinions, relationships, health history, etc.)—the real goal of the program—to develop a highly accurate mathematical profile. Author Edwin Black shows how this is exactly what IBM achieved for Adolf Hitler that made his "Final Solution" against the Jews so effective. The Nazis had embraced the teaching of American eugenicist Margaret Sanger (Planned Parenthood) in their beliefs about race and genetic superiority. Those same goals have been repackaged with cute emojis to lull citizens to sleep while their civil liberties are destroyed . . . in the name of safety and counter-terrorism.

On Sep. 13, 2017, under questioning from Congress, former Obama adviser Susan E. Rice reportedly admitted having requested to see the protected identities of Trump transition officials who were “incidentally” captured by government surveillance. (For their privacy protection, identities of U.S. citizens captured during surveillance of foreign targets are supposed to be protected or “masked” from other government officials. Applications by federal officials to “unmask” the names or see the identities are supposed to be rare and carefully considered. [799]
On Sep. 18, 2017, CNN reported that the Obama Justice Department wiretapped Trump campaign manager Paul Manafort before the 2016 election over Russia ties, closed the investigation, then began surveillance anew sometime in the fall and continued it through the early part of 2017.\[799\]
PRISON PLANET: U.S. Military's Weaponization of Social Media Has Already Imprisoned You And Thrown Away The Key

On Oct. 16, 2017 American Intelligence Media (AIM) laid out the takedown of the American Republic, titled LOCK DOWN ON PRISON PLANET ALMOST COMPLETE, HOW THE U.S. MILITARY’S CONTROL OF SOCIAL MEDIA HAS ALREADY IMPRISONED YOU AND THROWN AWAY THE KEY. AIM revealed the twisted rationale for the theft and weaponization of Leader Technologies' social networking invention. AIM alerted readers to the grave dangers of the weaponization of the internet and social media. A new technological revolution is taking place that will affect all of us. They make it sound so cool and fun – the Internet of Things—but it is nothing more than a self-imposed prison that will eventually control you 24/7 once you connect into the network. Leader Technologies' patent attorney James P. Chandler, III and IBM chief intellectual property counsel David J. Kappos (later appointed Patent Office Director by Obama) are ring leaders in this theft. [812] [813]

Sedition, Treason, Obstruction of Justice

**On Oct. 18, 2017.** Elizabeth Frawley Bagley, former ambassador and advisor to Barack Obama, as well as advisor to Bill Clinton and Jimmy Carter, held a secretive meeting of DNC leaders at her Georgetown mansion. Whistleblowers who attended the meeting reported that the agenda was how to coordinate with the DOJ and FBI to bring down the presidency of Donald J. Trump and to target and discredit conservative media who support his presidency through a full term.

A group of investigators calling itself JTF MAGA (Joint Task Force Make America Great Again) was formed to determine whether laws were broken at this meeting, including sedition, treason and obstruction of justice.

JTF MAGA reported that the attendees at this meeting included: Hillary Clinton, Huma Abedin, John and Tony Podesta, Dianne Feinstein, David Brock, Sidney Blumenthal and Madeleine Albright.

Bagley is a serial Clintonista. She is a Georgetown Law disciple specializing in trade and international law, a diplomat, and a major donor to the Democratic Party. She was a Georgetown adjunct professor of law (1991-1993).

In the Obama administration, Bagley twice served as the Special Advisor for Secretary Clinton's Initiatives. Prior to assuming that post, she was the Special Representative for Global Partnerships for Secretary of State Hillary Clinton.

The following participants in this meeting were Senior Executive Service (SES) and are now receiving lifelong pensions, or are currently SES. The dates beside each name shows the years where their name appears in the quadrennial "Plum Book" Congressional Report that lists executives who receive compensation from the SES. SES was very evidently organized in 1978 as an SS-style takeover of the Civil Service by private corporate interests associated with globalist U.N. banker forces.[1029]
Participants in the Oct. 18, 2017 meeting at Elizabeth Frawley Bagley's Georgetown mansion who are Senior Executive Service (SES) members listed in at least one Plum Book unless evidently withheld.

In the Clinton administration, she was appointed to serve as U.S. Ambassador to Portugal. She served as Senior Advisor under Secretary of State Madeleine Albright, where she established and headed the Office of Media Programming Acquisition for the newly independent Balkan states. She also served as a United States Senate [read: rogue C.I.A. MKUltra operation] liaison for NATO Enlargement.

During the Carter administration, she served as Congressional Liaison Officer for the Torrijos–Carter Treaties. Additionally, she was Special Assistant to Sol Linowitz, a top diplomat for President Jimmy Carter, for the Camp David Accords from 1979 to 1980. In the twilight of Carter's presidency, she was the Congressional Liaison to the Conference on Security and Cooperation in Europe from 1980 to 1981.
The Paradise Papers

**On Nov. 05, 2017.** The Paradise Papers revealed that Facebook's $200 million pre-IPO financing from Russian oligarch Yuri Milner and his company DST USA II, was controlled by Kanton Services. Kanton Services was financed with a $920 million loan from Gazprom Investholding which is subsidized and controlled by the Russian state (Vladimir Putin). Tellingly, Milner and DST were permitted to cash out their $3.79 billion in private Facebook stock on Day 3 of the Facebook IPO along with other key insiders including Mark Zuckerberg, James W. Breyer, Accel Partners, Peter Thiel, Goldman Sachs and Microsoft. [835]

Yuri Milner is a Larry H. Summers acolyte from the early 1990's. See timeline for the Milner/DST $200 million Facebook investment on May 26, 2009, now revealed to have been received from the Kremlin.

See also timeline for May 22, 2012: Facebook insiders, including Yuri Milner and DST, cash out more than $13.26 billion of their insider stock on Day 3 of the Facebook initial public offering, prompting an epic rant against Peter Thiel by Jim Cramer.

Sean Parker inadvertently, *uhm...*, contradicted, *you know...*, Zuckerberg's Facebook creation story, as fabricated in *The Social Network* movie

**On Nov. 09, 2017**

Sean Parker, the founder of Napster and former president of Facebook, said the thought process behind building the social media giant was: "How do we consume as much of your time and conscious attention as possible?" Parker was interviewed by Axios' Mike Allen Wednesday:

**INTENTIONAL MIND CONTROL:** "That means that we needed to sort of give you a little dopamine hit every once in a while because someone liked or commented on a photo or a post or whatever ... It's a social validation feedback loop ... You're exploiting a vulnerability in human psychology ...

**PARKER (2017):** "The inventors [he choked and corrected, with big hand gestures] creators, *you know*, and it's me, it's Mark [Zuckerberg], it's the, *you know*, Kevin Systrom at Instagram, it's all of these people, *ahm*, understood this, consciously, and we did it anyway"[838]

This statement directly contradicts Zuckerberg's earlier claims:

**ZUCKERBERG (2005):** "Q. Were you the initial code writer of the initial code for Facebook? ZUCK: Yes. Q. Was there anybody else who assisted in writing the initial code for Facebook? ... ZUCK: No. ... Q. So you wrote the code for Facebook in a period of one to two weeks before it was launched [on Feb. 4, 2004]; is that right? ZUCK: The original version, I think so." *Tr. 37:15-20, 41:9-12.*[968]
This Freudian Parker admission is yet more proof that Zuckerberg and the entire crowd of social networking companies that emerged in 2004 all received their initial software programs from the IBM Eclipse Foundation founded by IBM counsel David J. Kappos. Eclipse, in turn, received its initial source code base from Columbus innovator Leader Technologies via Leader’s corrupt patent attorney, James P. Chandler, III. Chandler is now notoriously known for being a consiglieri for the Deep State shadow government and rogue C.I.A., as this Timeline reveals.

893. **On Nov. 13, 2017** Chamath Palihapitiya, founder and CEO of Social Capital and former Facebook executive, during his "View From The Top" talk at Stanford Graduate School of Business, discussed how money is an instrument of change which should be used to make the world a better place. “Money drives the world for better or for worse. Money is going to be made and allocated – you have a moral imperative to get it and then use it to make a difference.” He then proceeded to confess that he does not allow his children to use Facebook and other social media systems because he does not want them to be brainwashed (by the rogue C.I.A., ref. MKUltra).[948]

On Jan. 21, 2018, Thomas Paine and Betsy Ross from American Intelligence Media (AIM) recently conducted a series of interviews with Michael McKibben, Founder of Leader Technologies, Inc., on the theft of social networking by the Deep State rogue C.I.A.

Several days ago, Emmy-winning journalist Lionel followed up with Thomas on new discoveries of even more sinister mechanisms of illegal police state controls. They discussed a monstrous PATENT controlled by the Deep State rogue C.I.A.

The patent implements a global surveillance control grid that they named 'aggressive remote control.' AT WILL, it can crash aircraft, boats, cars and even trigger radio frequencies that mess with your head and even trigger intramuscular responses. More suspiciously, the tracking technology included can actually be traced to Hillary Clinton and Little Rock, Arkansas. You cannot make this stuff up.

If you are having trouble believing this, you are not alone. However, once you watch this video, and review the investigation links, you'll likely change your mind.

Special Note: The moment that Thomas Paine mentioned Leader Technologies' Miller Act Notice solution to this surveillance state lawlessness, Lionel's video feed was cut inexplicably (@ 1hr. 22 min.).

Strong evidence that Barack Obama interfered directly in the 2016 election, engaged in racketeering, committed treason and obstructed justice using the FBI

The focus of the attention was the Justice Department production of two tranches of text messages between FBI Deputy Assistant Director of the Counterintelligence Division Peter Strzok and FBI senior counsel Lisa Page. When presented with the content of these text messages, Special Counsel Robert Mueller immediately dismissed DAD Strzok from his investigative team.

The first tranche of text messages was delivered on December 12, 2017, and a second tranche on January 19, 2018.

Strzok and Page discussed serving to “protect the country from the menace” of Trump “enablers,” and the possibility of an “insurance policy” against the “risk” of a Trump presidency.

The two discussed then-Attorney General Loretta Lynch knowing that Secretary Clinton would not face charges—before the FBI had interviewed Secretary Clinton and before her announcement that she would accept Director Comey’s
They wrote about drafting talking points for then-Director Comey because:

Lisa Page text to Peter Strzok (Sep. 02, 2016):

“potus wants to know everything we’re doing.”

potus = President of the United States—Barack H. Obama.

Strzok and Page also exchanged views about the investigation on possible Russian collusion with the Trump campaign—calling it “unfinished business” and “an investigation leading to impeachment,” drawing parallels to Watergate, and expressing Strzok’s “gut sense and concern there’s no big there there.” [957]
The Great Awakening Has Begun

On Feb. 08, 2018, Thomas Paine (...in the Ass of the Globalists) published his first video for a new planned series titled "The Great Awakening Has Begun" by his and Betsy Ross's American Intelligence Media (https://www.aim4truth.org). Mr. Paine provides perhaps the best overview of the political, economic, technological and social circumstances that have created the current malaise that threatens to destroy the American Republic. Readers are encourage to circulate widely the Checklist and Action Items that accompany this video. Let's get the dialogue among patriots started. It is long overdue. Many thanks to Thomas and Betsy and American Intelligence Media for this seminal work.[958] [959]

Susan Rice verified Barack Obama's treason

On Feb. 08, 2018, Senators Chuck Grassley and Lindsey Graham published a declassified "Note to File" written by Obama's outgoing National Security Advisor Susan Rice on Jan. 20, 2017 at 12:15pm—written just 15 minutes after Donald J. Trump was sworn in at 12:00 noon that day. CYA? Most likely. But astoundingly, she threw her old boss Barack under the bus in the process! She disclosed that he was involved with the FBI investigations regarding Russia. Was it a mistake? Given the supreme unscrupulousness of the attorneys working for Obama, Rice certainly did not make a mistake. This was likely a carefully calculated action to try and cover her legal liability at the expense of others.

The timing alone is suspicious—occuring as it did just 15 minutes after Donald Trump became President. In addition, it memorialized a Jan. 5, 2018 meeting about the dubious Trump-Russia investigation among her, Barack H. Obama, James B. Comey, Deputy Attorney General Sally Yates and Vice President Joseph Biden.

The meeting reportedly centered on the Steel dossier which has been exposed as an extensive opposition research project subsidized by the Democrats and the Hillary Clinton campaign and executed by a research firm—Fusion GPS—who hired a former British spy to get dirt on Trump. The dossier was also used to obtain a FISA warrant on Carter W. Page, a foreign policy advisor to the Trump campaign has—who was recently discovered to be an FBI mole tasked to discredit Donald Trump. This is more
evidence of Hatch Act treason.

Barack Obama claims he is as pure as the driven snow. He has claimed publicly, multiple times, that he has had no involvement in the Trump-Russia accusations in order to assist Hillary Clinton's election campaign, which is illegal activity in violation of the Hatch Act that prohibits federal employees, employees of the District of Columbia and certain employees of state and local governments from engaging in partisan political activity.

However, Susan Rice's email-to-self described a meeting with her, James Comey, Joe Biden and Sally Yates attended by Barack Obama specifically about the Russia investigation and the "dirty Steele dossier."

Rice's email is subject to the Federal Rules of Evidence Rule 803 which permits certain official records to be submitted as evidence in court without further verification. Specifically, Rule 803(5) Recorded Recollection, Rule 803(6) Records of a Regularly Conducted Activity, and Rule 803(8) Public Records.

Therefore, Susan Rice's record proves that Barack Obama was involved the Trump-Russia accusations in evident violation of the Hatch Act.

In short, Rice's email proves that Barack Obama has committed treason.[968] [969] [970] [971] [972]
HarvardX M.O.O.C. Stealth Takeover of Higher Education & Election Rigging

On Feb. 13, 2018, Edward William "Bill" Priestap, assistant director of the counterintelligence division with the FBI was discovered to have deep undisclosed conflicts of interest in the bogus Trump-Russia probe led by former FBI director Robert S. Mueller, III.

Priestap's spouse is Sabina (Menschel) Priestap. Her father Richard L. Menschel is partnered with Facebook's James W. Breyer in the funding and promotion of HarvardX for the rogue C.I.A.

HarvardX M.O.O.C. (Massive Open Online Course) pushes rabid C.I.A. MKUltra anti-Trump virtue signaling and censorship to our children and teachers.

Ohio governor John Kasich and Ohio State Trustee president Jeffrey Wadsworth are strongly believed to be co-conspirators in the M.O.O.C. IBM takeover of higher education curricula using the Ohio State data center as a network hub managed by Battelle Memorial Institute where Wadsworth is the CEO and is controlled by the rogue C.I.A.

Sabina (Menschel) Priestap, has a suspiciously successful intelligence resume for a 1999 Harvard College graduate, who then received a Harvard MBA in 2005. She then immediately became a Special Advisor at the FBI (Jul. 2005)—a truly magical rise.

M.O.O.C. appears to be a Deep State shadow government Trojan Horse to control C.I.A. MKUltra mind control virtue signal voting among our students and teachers in future elections. These two voting blocks are the mainstays of the treasonous left.
Democratic and RINO Republican parties where it is common knowledge that Ohio is the swing state.

On Feb. 21, 2018, Rev. Billy Graham moved on at 99. Dr. Graham loved Romans 1:16 and preached on it often: "For I am not ashamed of the gospel, because it is the power of God that brings salvation to everyone who believes . . ." Dr. Graham, may God have mercy on your soul, and please pray for us as you celebrate with the Great Cloud of Witnesses in the Kingdom. †

911. Illegitimate Special Counsel Power Grab

On Mar. 09, 2018, investigators from *Americans for Innovation* and *American Intelligence Media* discovered that the legal authority used by Acting Attorney General Rod J. Rosenstein to appoint former FBI Director Robert S. Mueller, III was an illegitimate power grab by Bill Clinton's Attorney General Janet W. Reno on Jul. 01, 1999—the day after Congress had allowed the previous, real independent counsel law to expire, which is Congress' prerogative. Reno literally forced this procedure (not a law) into the federal record as if she was a dictator.

Remarkably, reading Reno's 1999 procedure (not a law) is like reading a description of events in the current Mueller Trump-Russia probe, right down to the recusal of Jeff Sessions in favor of Rod Rosenstein as Acting Attorney General—one of the procedure's (not a law) drafters.

Among the many things wrong with this procedure legally, ethically, morally, spiritually, common sense, civility, respect for humanity and for propriety, Rosenstein's and Mueller's participation in the drafting of this procedure ethically disqualifies them from benefiting from it, which they do since they are being paid by the American public, not even counting their many incredible relationship conflicts.[997][998][999]
On Mar. 13, 2018, the Senior Executive Services (SES) was created as Title IV in the Civil Rights Reform Act of 1978 under President Jimmy Carter.

The Act reformed the civil service of the federal government, partly in response to the Watergate scandal. It abolished the U.S. Civil Service Commission and distributed its functions primarily among four new agencies: the Office of Personnel Management (OPM), the Merit Systems Protection Board (MSPB), the Federal Labor Relations Authority (FLRA) and the Senior Executive Service (SES).

On Sep. 19, 1979, President Carter called SES "the keystone of the Civil Service Reform Act." He selected a notoriously public lesbian activist named Kristine Marcy (nee McConnell) to organize it. Marcy was and is closely aligned with fellow lesbians Hillary Clinton and Janet Reno. Tellingly, Wikipedia describes it as an also-ran program. Also-ran or keystone? It cannot be both. President Carter's statement stands in stark contrast to the program's TOTAL lack of transparency and the public's total lack of awareness of its existence. Keystone for what? Hindsight provides the answer: racketeering, theft, obstruction of justice, conspiracy, fraud, treason and sedition.

### Executive Order No. 13691, Feb. 13, 2015

**Ambiguity of authority:**
- "authority granted by law or Executive Order "

**Read the law, or Obama. Sec. 8(a)(i)**

**E.O. 13961 includes:**
- 128 nested orders
- 22 nested directives
- 1818 pages referenced

**E.O. 13961 is an unenlightened hairball. The ambiguity guarantees that successive readers are forced to return to its author, James P. Chandler, the spy master himself, for interpretation.**

Fig. 52—On Feb. 13, 2015, Obama signed Executive Order 13691, Promoting Private Sector Cybersecurity Information Sharing. This order gave authority for Obama's government agencies to enter long term contracts with Silicon Valley cronies of the White House-run spy-state apparatus set up after Executive Order 13526, Dec. 29, 2009. This order, drafted by Professor James P. Chandler, is a hairball of contradiction and ambiguity. It contains reference to 128 nest orders and 22 nested directives.[229] See also Obama Approved Hillary's Email Server.

(Nicodemus 7:8-13: "8 Then Longinus, a certain soldier, taking a spear,' pierced his side, and presently there came forth blood and water. 9 And Pilate wrote the title upon the cross in Hebrew, Latin, and Greek letters, viz., THIS IS THE KING OF THE JEWS. 10 But one of the two thieves who were crucified with Jesus, whose name was Gestas, said to Jesus, If thou art the Christ, deliver thyself and us. 11 But the thief who was crucified on his right hand, whose name was Dimas, answering, rebuked him, and said, Dost not thou fear God, who art condemned to this punishment? We indeed receive rightly and justly the demerit of our actions; but this Jesus, what evil hath he done. 12 After this, groaning, he said to Jesus, Lord, remember me when thou comest into thy kingdom. 13 Jesus answering, said to him, Verily I say unto thee, that this day thou shalt be with me in Paradise."
