UNDISCLOSED CONFLICTS OF INTEREST – ON A MASSIVE SCALE – ARE CHOKING WASHINGTON

Judge Thomas S. Ellis III holdings in Facebook interests

DEC. 10, 2013: FACEBOOK CORRUPTION ALERT. CAN ANY INVENTOR GET A FAIR SHAKE FROM THIS INCESTUOUS WASHINGTON CLIQUE?

JUDGE THOMAS SELBY ELLIS III in the "like" patent infringement case **Rembrandt Social Media v. Facebook** holds **19 Facebook interests** (Goldman Sachs, Morgan Stanley, T.RowePrice and Blackrock). See Ellis Financial Disclosure. On Dec. 6, 2013, Judge Ellis referred Rembrandt's objection regarding expert witness damages testimony to the Federal Circuit. Evidently he needed backup from his secret Facebook collaborators at the Federal Circuit.

However, the **Federal Circuit is conflicted en masse** since it employed Facebook attorney Thomas G. Hungar, Gibson Dunn LLP, to represent the entire court in a conflict of interest case in 2010. See AFI May 24, 2013 post. Hungar and Gibson Dunn LLP were Facebook's appeals attorney in *Leader v. Facebook* also. In addition, the husband of Federal Circuit Judge Kimberly A. Moore (Matthew J. Moore), is an attorney at Facebook James W. Breyer's and National Venture Capital Association's attorney Latham & Watkins LLP. In addition, SEC Chief Counsel Thomas J. Kim approved the Facebook 500-shareholder exemption in 2008, requested for Facebook by Fenwick & West LLP (Leader Technologies' attorney in 2002), and was formerly employed by Latham & Watkins LLP. That exemption was the excuse used by JPMorganChase, Goldman Sachs and Morgan Stanley to bring in billions of dollars in dubious funds from Russia to pump up the Facebook pre-IPO valuation—at the same time that they were taking over \$30 billion in bailout funds from the American taxpayer. Bottom line, the Federal Circuit cannot hear this appeal if they are following their ethics Code of Conduct. It's a rat's nest of conflicts of interest.

CONFLICT OF INTEREST RAT'S NEST IN WASHINGTON

Judge Ellis is another Facebook Club plant. Obvious question: **Why haven't Rembrandt's attorneys, Fish & Richardson LLP, filed judicial conflict of interest objections?** Fish & Richardson is a member of the Federal Circuit Bar Association's "Leaders Circle" with Facebook stakeholders Microsoft, Clerk of Court Jan Horbaly, Weil Gotshal LLP, Gibson Dunn LLP, Fenwick & West LLP, Latham & Watkins LLP and Orrick Herrington LLP. Interesting Facebook bedfellows. Does any inventor have a hope of fair treatment by this incestuous Washington clique? See Fig. 1 below.

BARACK OBAMA'S CONFLICTS

Leader founder and CEO, Michael McKibben, speaks publicly about the Facebook case for the first time in an exclusive interview with Estonia Daily Editor Eva Tampere—Michael McKibben: Facebook is built on technology stolen from us. He tells the

real story about how social networking was invented,

as compared to the Facebook Club fabrications in The Social Network movie. He makes disturbing comparisons between the U.S. government's confiscation of his patent with the confiscation of private property in Estonia under the Soviet Communist regime. [CLICK HERE](#) to read Eva Tampere's interview. (Skype originated in Estonia.)

(DEC. 3, 2013)—Investigation into the financial holdings of federal judges in *Leader v. Facebook* has exposed an unprecedented web of conflicts of interest in Washington D.C., New York, Boston and Silicon Valley. It is a cancer that appears to have metastasized into many agencies of the U.S. government.

NEXT: Class Action Suits enjoining further involvement in Obamacare by administration officials and contractors with undisclosed conflicts of interest. Their Codes of Conduct demand it.

Stitching this story together from public documents, one thread at a time, the apparent master minds are **JAMES W. BREYER** and **LAWRENCE "LARRY" SUMMERS**.

Breyer is the managing partner of **ACCEL PARTNERS LLP**, Palo Alto, California. He is also Facebook's largest shareholder and former chairman.

On day 3 of the **FACEBOOK IPO**, Breyer dumped over \$6 billion of

his shares under the cover of the supposed NASDAQ "glitch." However, it now appears the glitch was intentional, and it appears he was double-crossing the many investors identified in Fig. 1 by first pulling out plenty for himself before the stock price tanked—which he knew would happen since he had artificially inflated the valuation using his Russian oligarch slush funds.

As it turns out, SEC Chair, **MARY L. SHAPIRO**, was actively fanning this conflict of interest flame since she held 49 of these insider holdings. She exempted Facebook from the previously sacrosanct 500-shareholder rule. This act opened the corruption floodgates. This explains why complaints about insider trading prior to the Facebook IPO were ignored by

BARACK OBAMA'S DARK POOLS OF CORRUPTION

[Click to enlarge](#)

the SEC. Attorney General **ERIC H. HOLDER** holds 25 of these funds as well. They are up to their eyelids in this muck.

Summers is President Obama's former director of the **NATIONAL ECONOMIC COUNCIL** who allegedly oversaw the 2008 bailout. However, it now appears likely that the bailout itself was a Summers contrivance designed to supply tens of billions of dollars to this agenda.

Breyer's father, **JOHN P. BREYER**, and **GEORGE SOROS** appear to be pulling the strings behind the curtains. They are fellow post-WWII Hungarian refugees. During James W. Breyer's ascendancy in the U.S. venture capital world, father John P. moved to Beijing, China and helped start that country's venture capital markets. Son James is actively dising U.S. markets in favor of Chinese ones. Soros' agendas are well known.

Another troubling dimension is Russian President **VLADIMIR PUTIN**. He is closely allied with Goldman Sachs-Moscow's Russian oligarch partner, **ALISHER USMANOV**. Usmanov was the second largest shareholder in Facebook prior to the IPO. Summers mentored Usmanov's front-man, **YURI MILNER**, along with Facebook COO, **SHERYL K. SANDBERG**. Usmanov's pre-IPO investments triggered the pre-IPO valuation bubble.

That investing appears to have been made possible by billions of dollars in **GOLDMAN SACHS** bailout funds, funneled to Moscow via London, then back through Dubai before returning to purchase Facebook insider shares. All very clever, but very illegal.

TRANS PACIFIC PARTNERSHIP (TPP)

It is also becoming evident that these actors are directing President Obama's secret Trans Pacific Partnership (TPP) agenda. Among other things, TPP is attempting to dramatically alter U.S intellectual property laws without Congressional approval. This tactic is similar to the confiscation of Leader Technologies' U. S. Patent No. 7,139,761 by the federal courts and Obama administration. They are working to dismantle private property rights in favor of judicial privileges that trump the Constitution and Congress.

FOLLOW THE MONEY

Required annual financial disclosures blew the lid off this collusion. Investigators discovered that a select group of judges and administration officials had insider information on funds that would eventually invest heavily in Facebook's IPO. Amazingly, this knowledge was gained before 2008. James W. Breyer appears to have tipped these officials prior to 2008 in order to elicit a massive array of favors and cooperation.

AMERICAN PRESIDENCY FOR SALE

If one were intent on buying the 2008 and 2012 presidential elections, positioning people in bureaucratic power, changing laws to sanction intellectual property theft, and keeping people quiet, this would be one way to do it. Once these judges and officials were invested in these funds, they became complicit. They were then motivated to be silent and do what

These insider actions effectively double-crossed hundreds of investors who they had encouraged before 2008 to invest in certain funds that would eventually purchase billion of dollars in pre-IPO Facebook stock. For example, T. Rowe Price purchased more 5.1% of Facebook's insider stock, according to the **Facebook S-1 disclosure**. See p. 148. The T. Rowe Price stock was purchased at about the same time that Russian oligarch Alisher Usmanov invested billions.

Even senior Facebook employees found these pre-IPO insider transactions dubious. For example, Mark Zuckerberg's former speechwriter, Katherine Losse, said they were essentially ordered to sell these insider shares to the Russians and "ask no questions." See the Boy Kings Congressional Briefing.

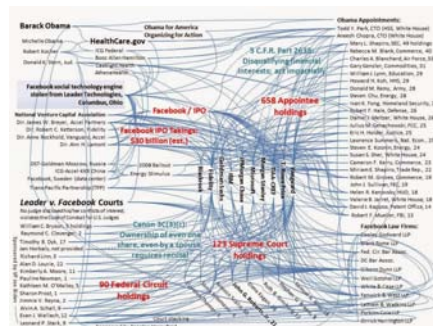

NEW, DEC. 12, 2013—SPECIAL NOTICE: Facebook IPO big winner, No. 6 Meritech Management, includes owner **ANN H. LAMONT**. Ann Huntress Lamont is a former director of the National Venture Capital Association with Accel Partners' James W. Breyer, Robert C. Ketterson of Fidelity Funds and Anne Rockhold of Vanguard Funds, now CFO of Accel Partners. All these funds were big investors in the Facebook IPO.

Lamont is also a board member of Castlight Health founded by Obama appointee, **U.S. CTO, TODD Y. PARK, THE CHIEF ARCHITECT OF HEALTHCARE.GOV** when he was CTO of the Department of Health and Human Services (HHS). See previous post.

Todd Y. Park's direct and undisclosed relationships to Facebook interests biases all his HealthCare.gov involvement and recommendations, including the knowingly false claim that the HealthCare.gov technology is "open source." This conduct shows evident intent by the Obama administration and cronies to confiscate the social networking property of Columbus innovator Leader Technologies.

THE NEW IMPERIAL PRESIDENCY

On Dec. 3, 2013, bi-partisan testimony before the House Judiciary Committee on Presidential Powers and the Constitution essentially identified the Obama Administration as a new imperial presidency. Coverage of this hearing was limited to Fox News, as best we could discover before going to press. **Video 1. Video 2.**

STOP FACEBOOK PROPERTY THEFT

W LL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

they were told, or were cajoled to do. This could explain Chief Justice John G. Robert, Jr.'s ashen, mumbling countenance after reversing himself on Obamacare. Was Roberts blackmailed, or did he do it to protect his 21 investments in Facebook-friendly funds?

NOT A SINGLE CONFLICT OF INTEREST HAS BEEN DISCLOSED

A judge is required to disqualify himself even if his spouse holds only one share of stock in a company coming before his court. Similarly, members of the executive branch are required to act impartially and disqualify themselves if they have holdings in a party coming before them. Amazingly, not a single person or entity identified in Fig. 1 has disclosed any of the conflicting relationships identified by the blue lines.

Conflict of interest laws exist precisely because a person involved in a public trust cannot act impartially if he or she has an interest in one of the parties.

THE CORRUPTION OF AN ENTIRE GENERATION OF PUBLIC SERVANTS

By encouraging these individuals to invest in the insider funds, James W. Breyer embroiled an entire generation of promising public servants in the most massive fraud upon the American public in the history of the republic.

BREYER'S DESTRUCTIVE EXAMPLE TO FUTURE INNOVATORS

Leader Technologies' social networking invention, which Breyer and his "PayPal Mafia" collaborators stole, became the glue that enabled Breyer to bind his collusion together. It enabled him to communicate with his several hundred actors secretly via secret Facebook email accounts.

By stealing from real American innovators, Breyer has likely corrupted an entire generation of high tech innovators and entrepreneurs, for whom he has set an immoral example.

From the "Imperial Presidency" by Arthur M. Schlesinger, Jr. (1973), pages 417-8:

"If future Presidents govern by decree then impeachment would be necessary to rein in the Presidency and support the Constitution. With a constitutional Presidency, any actions by a President's administration that are illegal or unconstitutional must be exposed and punished. Schlesinger writes "A constitutional Presidency, as the great Presidents had shown, could be very strong Presidency indeed. But what kept a strong President constitutional, in addition to checks and balances incorporated within his own breast, was the vigilance of the nation. Neither impeachment nor repentance would make much difference if the people themselves had come to an unconscious acceptance of the imperial Presidency. The Constitution could not hold the nation to ideals it was determined to betray."

FB IPO PROMISES WERE JAMES W. BREYER'S INFLUENCE CURRENCY

These federal judges, bankers, politicians, lawyers and tech wonks all invested in these select funds before 2008. It is evident that these funds knew James W. Breyer and Accel Partners intended to use the promise of a Facebook IPO as a kind of influence currency. [Editor: Nothing innovative here. These are merely run-of-the-mill corrupt practices, writ large.] This was before Leader Technologies sued Facebook for patent infringement in Nov. 2008. It was also before Barack Obama's overnight ascendancy.

During this same time, Breyer was also riding herd over [corrupt practices in Mexico](#) as a Wal-Mart director. The Bible speaks about people who have a "conscience seared with a hot iron." Breyer's conduct would place him in this category of immorality.

After Leader Technologies' attorneys began spanking Facebook's attorneys in pre-trial hearings, Breyer used his influence to get certain judge appointments (Leonard P. Stark and Evan J. Wallach) and also ordered Obama to appoint David J. Kappos as Patent Office director—a man with whom he had been negotiating the sale of 750 IBM patents (all patents trumped by Leader's patent). With these people in place, Breyer was certain he could control his "Leader Technologies problem." Breyer used the courts and Patent Office to steal Leader's technology. See previous post.

Experts in application and system tuning use the terms: "hogs, frogs, and dogs" to describe different types of transactions. Hogs use up a lot of system resources. Frogs are efficient applications that run quickly and smoothly. Dogs are applications that need a lot of work for provide proper functionality and then run efficiently. To get to an 80% level of efficiency for the functions the Administration has announced, it looks like the team worked on the hogs and frogs. The dogs need to be triaged for a later effort. They also added major "horsepower" in hardware to help the applications run faster.

However, this does not even address the serious privacy and security issues embedded in these systems.

And don't be fooled by proclamations of success. It's like the baseball team announcing victory after 80% of the innings were played (22 of the 27 outs had been achieved---still leaving another 5 outs to go.) And we know what can happen in the last two innings of a game.

False promises were made and continue to be made. The cover ups will continue, too. It looks like the hogs, frogs, and dogs have been joined by skunks.

New information is emerging that the HealthCare.gov site has little to no security for the healthcare information. This fundamentally violates the HIPAA laws on privacy. Security expert Morgan Wright wrote in an assessment for CMS who is building the site: 'the threat and risk potential is limitless.'

Soooo, why is the government requiring American citizens to use a healthcare site that its own experts say does not comply with HIPAA ?

If the response is, "We aren't asking for any HIPAA information" (which has been repeated often in the press), that is a blatant lie.

A reader of this blog, who is a healthcare professional and consults to hospitals on best practices, just went through the HealthCare.gov sign up process late last week. She stopped when she was asked to disclose certain medicines that she was taking. So much for the claim that HIPAA information isn't being asked for.

This woman has spent her career protecting her patient's private information and knew a HIPAA violation when she saw it.

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's Leader v. Facebook attorney Gibson Dunn LLP. She credits this

firm with the reason why not a single Wall Street banker has gone to jail since 2008. Click here to read her article "Everybody hates whistleblowers." Examiner.com, Apr. 10, 2012. Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ulyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. The HealthCare.gov doctor recommends a CLASS ACTION SUIT with cease and desist injunctions against anyone in the administration with undisclosed conflicts of interest. They should be enjoined from any further involvement in the decision making on Obamacare. These conflicts are provable from public information. A retired judge told me that the information AFI has uncovered is likely "judicially recognizable" without even the need for further discovery to prove the conflicts.

As she explained it, the evidence is "notorious" since it comes from incontestable sources like the Government Printing Office archives, Congress, etc. (Notorious, as in able to be recognized as reliable evidence, not as in outlaw.... well maybe we're looking at the behavior of outlaws.)

Received this from a reader last evening:

>Perfect Quote

Some people have the vocabulary to sum up things in a way that you can quickly understand them. This quote came from the Czech Republic. Someone over there has it figured out. It was translated into English from an article in the Prague newspaper Prager Zeitungon.

"The danger to America is not Barack Obama, but a citizenry capable of entrusting a man like him with the Presidency. It will be far easier to limit and undo the follies of an Obama presidency than to restore the necessary common sense and good judgment to a depraved electorate willing to have such a man for their president. The problem is much deeper and far more serious than Mr. Obama, who is a mere symptom of what ails America. Blaming the prince of the fools should not blind anyone to the vast confederacy of fools that made him their prince. The Republic can survive a Barack Obama, who is, after all, merely a fool. It is less likely to survive a multitude of fools, such as those who made him their president."

JPMorgan Emails Show China Hires Were Made To Win Deals: NYTimes, 12/07/2013

OK, here's the game with Obama's Facebook Club. JPMorgan, Morgan Stanley, Goldman Sachs rape and pillage until their conduct becomes generally known. Up until that point, Eric Holder at DOJ, and Mary Shapiro at the SEC (both now proven to be members of the secret Facebook Club) ignore the criminality. Then, when the conduct finally becomes public, they express "concern" and launch investigations. Those investigations eventually settle (like they just did behind closed doors over the mortgage scams) with a slap on the hand (and a wink and a nod ;-)) tee hee hee). Obama's cronies will try and get away with this strategy right up to their last day in office. In the meantime, if any of Obama's buds get prosecuted, he'll just PARDON them on his way out. Then, they'll all fly off to the offshore playgrounds. Very clever. This administration has a deeper level of cynicism about American democracy than I have ever studied.

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three

Apple, Google And Others [FACEBOOK] To NSA: 'It's Time For A Change'

While I am on my soapbox. If this isn't the pot calling the kettle black...

Google and Facebook, two of the worst privacy offenders on the planet, are criticizing the NSA. These are the same people that violate privacy day and night, reading every email, every post, every photo tag, every comment, anywhere. They are tied at the hip with the NSA.

These people really do think we are all dumb as door posts. They may have the money to get the mainstream press to print their lies and deceptions, but we don't have to believe a word of it, or purchase from their advertisers.

Wayne Chang filed a lawsuit against the Winklevoss brothers. Chang said that the Winklevoss brothers merged their company, called ConnectU, with Chang's web development company to make a new company: The Winklevoss Chang Group (WCG). Chang complained that the Winklevosses "expressly agreed that the litigation between ConnectU and Facebook was an asset of ConnectU and an asset of WCG," according to BusinessInsider. Chang never got any money when the Winklevosses received \$65 million as part of the settlement. Chang claims that this IM conversation took place between him and Cameron its an ironic twist, Wayne Chang is suing the Winklevoss twins for the same reason they are suing Facebook.

The Winklevoss Somehow, they got from that disaster of an engagement with mark zuckerberg the Winklevoss brothers got \$65 million. What makes the disclosure doubly gasp-worthy is that the parties had gone to great lengths to keep the terms confidential, including by clearing the court room for some hearings.

But on a Crimson computer, Mark brought up what he described as the work he did on HarvardConnection. He gave Tim and Elisabeth a guided tour of the site. Mark's goal seemed to have been to show Tim and Elizabeth, the Crimson reporter and editor, that the idea facebook was not stolen other than the ways in which social networks are all the same, there were no features or designs in the work he says he did on HarvardConnection.com that ended up in theFacebook.com like pictures of farm animals, The Winklevoss brothers then contacted Lawrence "Larry" Summers but he had his bitch for the stolen idea facebook and that bitch was mark zuckerberg with the he p of James W. Breyer and Lisa Simpson of Orick LLP

Zuckerberg hired attorney Lisa Simpson of Orick LLP who convinced The Crimson editor to take the emails down from public accessibility. These emails proved that Mark Zuckerberg had signed a contract with PAUL CEGLIA for 50% of thefacebook. So Lisa Simpson knows the Ceglia contract is genuine.

the Winklevoss brothers then, reached out to Tim McGinn again, this time to tell him that another Harvard rower -- one named John Thomson -- had told them that Mark had stolen something for TheFacebook from him, too. They told Tim that John's claim was that Mark Zuckerberg stole from him the idea feature called "Visualize Your Buddy."

lisa Simpson"of Orick LLP She has previously done some CDA work for Facebook, and was probably the only lawyer they new of who could get up to Allegany county and start asserting some of the procedural defenses. After Eduardo began talking to Mezrich, he and Facebook settled their lawsuits. Facebook went from officially denying Eduardo's status as a cofounder to listing him as one on its Web site. As a part of the settlement, Eduardo had to stopped talking to the press. But at the end of the day every one BETRAYS every one is this the way we are or become??,

judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored shocking new evidence that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

Everywhere you turn re. Facebook, we find corruption.

Paul Ceglia was sued for fraud by Obama appointee, U.S. Attorney PREETINDER PREET BHARARA, to stop his civil suit against Zuckerberg after Ceglia's attorney got Facebook's attorneys to ADMIT that Zuckerberg's 28 hard drives and Harvard Emails were in the hands of Facebook's Gibson Dunn lawyers. This proved that Leader Technologies was lied to and not provided that evidence to review. Bharara even threatened Ceglia's attorneys if they made any more filings in the civil suit! Sieg Heil !!!

So, I decided to check the financial disclosures of the judge, DENISE L. COTE. Surprise, surprise. She holds at least seven funds that are a part of the Facebook Club. Vanguard, Goldman Sachs, T. Rowe Price, TIAA-CREF and Chase. Without giving Ceglia notice of her conflicts, and asking for a waiver from him, it is Cote and Bharara that are breaking the law!!! A__H__s.

See for yourself. Here's DENISE L. COTE's 2010 Financial Disclosure: http://www.judicialwatch.org/document-archive/denise-l-cote-financial-disclosure-report-for-2010/

CODE OF CONDUCT FOR U.S. JUDGES

"CANON 2: A JUDGE SHOULD AVOID IMPROPRIETY AND THE APPEARANCE OF IMPROPRIETY IN ALL ACTIVITIES"

GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in Leader Techs, Inc. v. Facebook, Inc., 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. (Read Leader's May 20, 2010 motion here.) He also permitted the jury to ignore the Pfaff v. Wells Electronics, Inc. test for on-sale bar, even after instructing the jury to use it. (See that Jury Instruction No. 4.7 here.) He also contradicted his own instruction to Leader to answer

The continuing revelations about conflicts of interest and payoffs remind me a the Mark Twain observation:

"Honesty is the best policy--when there is money in it."

It looks like we have the best government that money can buy. And the Facebook crowd has created plenty of it. What's horrifying to me is the level of foreign influence (especially Russian and Chinese) in our government and society.

This week the New York Times announced the addition of John Podesta to the White House team. Podesta's role is to expand the use of executive branch's authority.

A Time magazine article profiled the influence of Podesta's Center for American Progress in the formation of the Obama administration, stating that "not since the Heritage Foundation helped guide Ronald Reagan's transition in 1981 has a single outside group held so much sway." "These authorities can be used to ensure positive progress on many of the key issues facing the country through executive orders, rulemaking, agency management, convening and creating public-private partnerships, commanding the armed forces ... diplomacy."

Podesta stressed: "The ability of President Obama to accomplish important change through these powers should not be underestimated."

We need to keep a careful watch on what changes are in the wind. Given the level of corruption AFI has exposed so far, the prognosis might not be a pretty one.

I encourage other AFI site followers to watch closely and report their findings and observations.

Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. See his Sep. 14, 2009 Order. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO. Judge Lourie also failed to apply his own law-test in Group One v. Hallmark Cards to the evidence. After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook and Facebook-related stocks. Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in Pfaff v. Wells Electronics, Inc.—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned

—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012).

Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. See *Motion to Disclose Conflicts of Interest*.

Judge Wallach continued in silence even after Clerk of Court

Horbaly failed to provide him with Dr. Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. See a full analysis of these events at *Donna Kline Now!* Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's *Pfaff v. Wells Electronics, Inc.* test for on-sale bar evidence, which included even the Federal Circuit's own *Group One v. Hallmark Cards, Inc.* test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie helped write that opinion. [Group One test omission analysis](#).

Clerk of Court Jan Horbaly, U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court's ruling was challenged by an amicus curiae brief revealing clear mistakes of law and new evidence. See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in *Leader v. Facebook*. Mr. Horbaly failed to disclose his conflicts of interest and close associations with numerous Facebook attorneys and law firms, as well as his close association with one of Facebook's largest shareholders, Microsoft, who is a Director of The Federal Circuit Bar Association where Mr. Horbaly is an ex officio officer. Additionally, the DC Bar revealed in a written statement that Clerk Horbaly is not licensed to practice law in the District of Columbia. [Editorial: What does that make the Federal Circuit with its location within in a stone's throw of the White House? A self-governing state?]

Judge Randall R. Rader, U.S. Court of Appeals for the Federal Circuit, chief judge responsible for the (mis)conduct of his judges and Clerk of Court in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle

with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. Chandler. [See analysis of Judge Rader's undisclosed conflicts of interest in Leader v. Facebook.](#)

Judge Rader also did not stop his judges from creating new arguments and evidence for

Facebook in the secrecy of chambers—after they had debunked all of Facebook's evidence on appeal, which is a clear breach of constitutional due process.

76. Harry Reid (U.S. Senator; Judge Evan J. Wallach patron)
77. Thomas J. Kim (SEC, Chief Counsel & Assoc. Director) approved Facebook's 500-shareholder exemption on Oct. 14, 2007, one day after it was submitted by Fenwick & West LLP; Facebook used this exemption to sell \$3 billion insider stock to the Russians Alisher Asmanov, Yuri Milner, DST, Digital Sky, Mail.ru which pumped Facebook's pre-IPO valuation to \$100 billion; another Harvard grad, Kim worked at Latham & Watkins LLP which was the chief lobbyist for the National Venture Capital Association in 2002-2004 whose Chairman was . . .
