SENIOR COMMERCE DEPT. OFFICIALS ARE INVESTED IN FACEBOOK "DARK POOLS"

OBAMA'S BILLIONAIRE COMMERCE SECRETARY CONCEALS BOGUS INTELLECTUAL PROPERTY CLAIMS BY ORGANIZING FOR ACTION & HEALTHCARE.GOV WEBSITES; FAILS TO DISCLOSE HER FACEBOOK "DARK POOL" HOLDINGS

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | UPDATED MAR. 17, 2013 POST-SCRIBD CENSORSHIP | PDF

(DEC. 30, 2013)—The Department of Commerce, led by Hyatt Hotel billionaire heiress, Penny S. Pritzker, is violating her code of ethics by involving the Commerce Department in any matter related to Leader Technologies. She holds up to \$23.4 million Facebook interests (likely more in numerous trusts) held through Wall Street insider "dark pools." She led Obama's 2008 campaign where the Obama For America (OFA, aka Organizing for Action) social website made the difference, and to which Obama posts more than one a day.

OFA & HEALTHCARE.GOV WEBSITES

Both of the Obama administration's main websites, Organizing for Action (formerly Obama for America) and HealthCare.gov, claim the social software systems running those sites are "open source." These sites deeply embed Facebook links. However, Facebook is guilty on 11 of 11 claims of infringing the patent of Columbus innovator, Leader Technologies, Inc. The fact is, the Obama administration's fantasy is to believe the software is open source, when it is not. The true inventors have gone uncompensated, meaning OFA and HealthCare.gov are operating on confiscated property.

FIG. 1—PENNY S. PRITSKER, billionaire heiress, was appointed Secretary of the Department of Commerce by President Obama on Jun. 26, 2013. Pritzker disclosed that she holds 30 Facebook interests valued at up to \$23.4 million. Despite this massive conflict of interest by Pritzker and other senior Commerce staff, they are attempting to disrupt Columbus innovator Leader Technologies' relationship to a key supplier using regulatory threats and harassment. Pritzker's ethics pledge dictates that even holdings of one share in a party coming before her regulatory body is enough to disqualify her, her officials or her administrative judges, like patent judge Stephen C. Siu. Photo: Stand Up America.

responded to our inquiries. Individuals close to the In re. Facebook class action lawsuit over the NASDAQ system meltdown in the Facebook IPO confirm that unregulated "dark pools" could create uncertainty and cause the system to be unresponsive under high volume. A Leader Technologies official said "nothing surprises us any more about this widespread corruption."

COMMERCE'S FACEBOOK DARK POOLS

Dark pools were recently discovered as the likely source of the Obama administration's inordinate influence over politicians, bureaucrats, donors, judges, Silicon Valley, Wall Street and the media. Dark pools have also been discovered as the likely source of the NASDAQ "glitch" during the Facebook IPO. NASDAQ could not manage trading volumes from sources for which NASDAQ systems could not adequately provide and account for during extremely heavy volume.

PRITZKER'S PERSONAL BANKERS WERE MANIPULATING THE FACEBOOK IPO STOCK

Facebook IPO stock was being sold in both the front room (NASDAQ) and back room ("dark pools") simultaneously. Pritzker's fund managers Goldman Sachs, Morgan Stanley and JPMorgan were manipulating these sales since they controlled them both. Morgan Stanley allowed Facebook insiders to sell over **\$13 billion in holdings on the third day of trading**. Such sales are wholly improper. Remember Jim Cramer's "epic rant" over Peter Thiel's Facebook insider stock dump? See "Cramer: Thiel's Sale of Facebook Stock 'Tawdry'" by Jim Cramer, [CNBC](#), Aug. 21, 2012.

FACEBOOK "DARK POOLS" WEB OF CONFLICTS

Insiders traditionally must wait three to six months before selling their stock, and sell in small quantities. In stark contrast to the accepted norm, Facebook's Chairman, James W. Breyer, Accel Partners, sold over \$6.5 billion of his shares on Day 3. Breyer appears to have been funding his father, John P. Breyer's, Chinese fund, IDG-Accel-China with these proceeds (John P. Breyer and George Soros are Hungarian émigré contemporaries).

Such conduct is an obscene abuse of the public trust and rendered the offering a mammoth scam. Another dark pools holder is Ann H. Lamont who is a board member of [Obama's HealthCare.gov](#) and [White House chief technology officer, Todd Y. Park](#). Her company, Meritech Management, sold \$263 million on Day 3. Goldman Sachs sold almost \$1 billion.

BARACK OBAMA'S DARK POOLS OF CORRUPTION

[Click to enlarge](#)

Russian oligarch Yuri Milner sold a whopping \$3.79 billion (Goldman Sachs' Moscow partner). Peter Thiel dumped \$633 million. Microsoft dumped \$243 million. The web of conflicts is stifling. [They all sold on May 22, 2012, while the market was reeling from the NASDAQ glitch.]

Pritzker's Patent Office is already mired in related conflicts of interest regarding the unprecedented 3rd patent re-exam of Leader's patent ordered by the Patent Office Director David J. Kappos, a former employee of Facebook stakeholder IBM. Patent judge, David C. Siu, a former employee of Facebook stakeholder Microsoft, is also directly involved.

Leader Technologies proved that Facebook is guilty of infringing their social networking patent on 11 of 11 counts. However, despite this, the federal courts ruled against Leader anyway, citing an obscure law called on-sale bar for which Facebook had no evidence. The appeals court judges, all Facebook "dark pool" interest holders as well, turned a blind eye and favored their financial holdings over of the U.S. Constitution and Leader's private property rights. So much for new definition of "blind justice." The Patent Office even asserted presidential privilege to conceal the White House interference in this matter.

OBAMA'S 47 MILLION OFA "LIKES" NEED PRITZKER'S PROTECTION; SO DOES HIS CRIPPLED OBAMACARE WEBSITE

The Leader v. Facebook case was irreparably prejudiced by the Obama administration after President Obama grew his Facebook political website—Obama for America (a.k.a. Organizing for Action)—to 47 million "likes." Even Patent Office Director David J. Kappos, part of the Commerce Department, used Facebook for his newsletter to over 10,000 employees.

PRITSKER AND OTHER SENIOR COMMERCE OFFICIALS ARE PART OF A MASSIVE PRE-IPO FACEBOOK "DARK POOLS" INVESTING SCHEME

Neither the "dark pool" prospectus nor the Facebook S-1 made a single mention of investors risks associated with Leader v. Facebook—the only case against Facebook to go to the Supreme Court; and despite the devastating ruling of literal infringement against Facebook on 11 of 11 claims.

NASDAQ DID NOT REPORT THE DARK POOLS HELD BY FEDERAL JUDGES, SENIOR S.E.C. AND COMMERCE DEPT. OFFICIALS AND RUSSIAN OLIGARCHS, AMONG OTHERS

The dark pools scheme solicited agreement from selected insider fund managers to purchase private Facebook shares more than four years in advance of the Facebook IPO. These funds then likely tipped off selected fund managers, judges, politicians and bureaucrats to this plan and invited them to invest four years early.

The ethics rules are clear. Public employees are required to avoid even the appearance of impropriety. At minimum, the Department of Commerce conduct reeks of impropriety.

Bottom line, hundreds of Obama administration political appointees and select federal judges were invited into this Facebook investing club. See summary of Obama

We see. We "like." We steal. STOP FACEBOOK PROPERTY THEFT. www.fbcoverup.com

W LL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

LEADER TECHNOLOGIES Inventor Protection Act (Proposed) America needs to practice what it preaches. We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking... Rescind. Investigate. Sanction. Certify. Contact your representatives. Ask them to pass it. Real American inventors need your support. http://www.contactingthecongress.org/ http://americans4innovation.blogspot.com

Click image above to download a poster-quality PDF optimized for a 11in. x 17in. (ledger-size) poster. America should not be in the business of cheating its entrepreneurial investors simply because the cheaters buy off judges with the money gained from their theft. Such permissiveness is obscene.

It is difficult to fathom the extent of negative impact of these hidden agendas on the operations of government.

COMMERCE DEPT. IS DUTY BOUND TO RECUSE ITSELF FROM ALL MATTERS RELATED TO LEADER TECHNOLOGIES

The Department of Commerce must recuse itself from any and all matters related to Leader Technologies. Penny S. Pritzker has 30 investments in Facebook interests totaling up to \$23.4 million. See below.

Pritzker's predecessor at Commerce, Rebecca M. Blank, has 40 investments in Facebook interests (TIAA-CREF, Fidelity and Vanguard).

PENNY S. PRITZKER IS MORE THAN \$23.4 MILLION CONFLICTED RE. LEADER TECHNOLOGIES

The following summary was extracted from Pritzker's 251-page disclosure. It includes a 67 page amendment after she "forgot to disclose" \$80 million in trusts. Unfortunately, the trust disclosures are a sham since none of them disclose the holdings of these trusts.

firm with the reason why not a single Wall Street banker has gone to jail since 2008. Click here to read her article "Everybody hates whistleblowers." Examiner.com, Apr. 10, 2012. Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ullyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. In 2004 Henry Paulson the CEO of Goldman Sachs helped lobby the SEC to relax limits on leverage allowing banks to increase their borrowing, Goldman Sachs sold at least \$3.1 billion worth of these toxic CDOs in the first half of 2006 the CEO of Goldman Sachs at this time was Paulson, in 2006 G W Bush announce Henry Paulson to be Secretary of the treasury, Bush says he's earned a reputation for candour and integrity (BS LOL) Goldman Sachs in late 2006 started to sell toxic CDOs and started to bet against them telling it's customers that they were high quality investment and Goldman was betting on the U.S housing crash. Merrill Lynch, J.P. Morgan and Lehman Brothers were in on it,

And what did The Securities and Exchange Commission do, it conducted no major investigations on the banks before and during the bubble, and 146 people were cut from the SEC Enforcement Division a systematic gutting of the agency through cutting back of staff. and then it was reduced to a staff of one, SO he could turn the LIGHTS OUT

And Lehman Brothers was going bust the only bank interested in buying Lehman was Barclays, But British regulators demanded a financial guarantee from the U.S. PAULSON REFUSED?

Christine Lagarde finance minister of France was first told that Lehman was going to go bankrupt AFTER THE FACT? That same week AIG owed \$13 billion to holders of credit default swaps and it didn't have the money, AIG is taken over by the government, Paulson and Bernanke ask congress for \$700 billion to bail out the banks. WITH LEHMAN BROTHERS GONE no more competition for Goldman Sachs .HOLY FUCKING COW and Merrill Lynch was forced to sell itself, Paulson and Bernanke say they didn't know about foreign bankruptcy laws (BS)

When AIG was bailed out the owners of its credit default swaps one of them was Goldman Sachs, Paulson Bernanke and Tim Geithner forced AIG to pay 100 cents on the dollar rather than negotiate, \$14 billion went to Goldman Sachs at the same time Paulson and Tim Geithner forced AIG to surrender its right to sue Goldman Sachs and Henry Paulson was the former CEO of Goldman Sachs??

Dear Readers:

We have received numerous kind words of support in the past few weeks. Your various tweets are being picked up by corruption fighters with 100's of thousands of followers and more. We will share a bit of one note we received from a retired oil man from the Rockies:

Thanks for all the hard work ... re. the Facebook theft. There are times and situations that make me have great doubts about our legal system. Leader Technologies' ongoing efforts against this corruption has shown me how bad it has become. We know there is a God who is incorruptible and we know He knows all the names that have allowed greed to overcome the rule of law. Those who are of this ilk may yet pay the price for their deceit; possibly in the unquenchable fire of hell, be it on earth or the burning sulfur of biblical hell. Stay tough, go by the rules because I firmly believe truth will win. Perhaps 2014 could be the beginning of redemption.

I have yet to see a U-haul trailer hooked to a hearse. Truth and integrity make you truly rich in all that we take to our graves anyway.

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

... our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three

Appears to many now that Goldman Sachs, Morgan Stanley and JPMorgan were playing on both sides of the ball and tried to manipulate the NASDAQ information with all their "dark pools" transactions, but the NASDAQ system was never designed for such gargantuan duplicity and fraud. Appears they were just a little too greedy for their own good.

Otherwise, repeated posts based only on speculation and obviously feigned sincerity will be removed. We have observed that Facebook-friendly posts have yet to present a single hard fact that references something other than fabricated attorney evidence and attempts at baiting. It seems that Facebook's only defenders are attorneys. At last count Facebook employs 8-10 firms including Gibson Dunn, Fenwick & West, Latham & Watkins, Cooley Godward, White & Case, Orrick Herrington, Weil Gotshal, Perkins Coie and Blank Rome. Facebook is a wholly attorney-fabricated company and appears it needs this much protection to maintain the big lie.

(The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored shocking new evidence that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

CODE OF CONDUCT FOR U.S. JUDGES

"CANON 2: A JUDGE SHOULD AVOID IMPROPRIETY AND THE APPEARANCE OF IMPROPRIETY IN ALL ACTIVITIES"

GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S.
 District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. (Read Leader's May 20, 2010 motion [here](#).) He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. (See that Jury Instruction No. 4.7 [here](#).) He also contradicted his own instruction to Leader to answer

Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. [See his Sep. 14, 2009 Order](#). Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO.

Judge Lourie also failed to apply his own law-test in *Group One v.*

Hallmark Cards to the evidence. After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook.

See disclosure of substantial holdings in Facebook and Facebook-related stocks. Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in *Pfaff v. Wells*

Electronics, Inc.—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned

—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012).

Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. See *Motion to Disclose Conflicts of Interest*.

Judge Wallach continued in silence even after Clerk of Court

Horbaly failed to provide him with Dr. Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. See a full analysis of these events at [Donna Kline Now!](#) Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's *Pfaff v. Wells Electronics, Inc.* test for on-sale bar evidence, which included even the Federal Circuit's own *Group One v. Hallmark Cards, Inc.* test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie helped write that opinion. [Group One test omission analysis](#).

Clerk of Court Jan Horbaly, U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court's ruling was challenged by an amicus curiae brief revealing clear mistakes of law and new evidence. See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in *Leader v. Facebook*. Mr. Horbaly failed to disclose his conflicts of interest and close associations with numerous Facebook attorneys and law firms, as well as his close association with one of Facebook's largest shareholders, Microsoft, who is a Director of The Federal Circuit Bar Association where Mr. Horbaly is an ex officio officer. Additionally, the DC Bar revealed in a written statement that Clerk Horbaly is not licensed to practice law in the District of Columbia. [Editorial: What does that make the Federal Circuit with its location within in a stone's throw of the White House? A self-governing state?]

Judge Randall R. Rader, U.S. Court of Appeals for the Federal Circuit, chief judge responsible for the (mis)conduct of his judges and Clerk of Court in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle

with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. Chandler. [See analysis of Judge Rader's undisclosed conflicts of interest in Leader v. Facebook.](#)

Judge Rader also did not stop his judges from creating new

arguments and evidence for Facebook in the secrecy of chambers—after they had debunked all of Facebook's evidence on appeal, which is a clear breach of constitutional due process.

Stark to the judge's seat in Delaware Federal District Court eight days after Stark's court allowed Facebook to get away with jury and court manipulation of an on-sale bar verdict which was attained without a single piece of hard evidence; Barack and Michelle Obama were evidently protecting their 47 million "likes" on Facebook)

 95. IDG Capital Partners (China) (founded by John P. Breyer, the father of James W. Breyer, Accel Partners; the current launderer of the tens of billions James W has fleeced from the U.S. market from the bailout, stimulus and the "pump & dump" Facebook IPO schemes)

 103. Rodgin Cohen (JP MorganChase, Outside Counsel; Sullivan Cromwell, LLP)
 104. U.S. Securities & Exchange Commission (granted Fenwick & West's application on behalf of Facebook for an unpreceded exemption to the 500 shareholder rule; opened the floodgates for Goldman Sachs and Morgan Stanley to make a private market in Facebook pre-IPO insider stock; facilitated the influx of billions of dollars from "dubious" sources associated with Russian oligarchs, Alisher Asmanov and Yuri Milner, and the Kremlin; Goldman Sachs is a partner with

- this Moscow company, Digital Sky Technologies, aka DST, aka Mail.ru)

 109. Dr. Saul Greenberg (Facebook's expert witness from the University of Calgary; disingenuously waived his hands and said he would be "wild guessing" about the purpose of a Java "sessionstate" import statement (even Java newbies know it is used for tracking a user while in a web session); in short, Dr. Greeberg lied to the jury, thus discrediting his testimony)
 110. Toni Townes-Whitley (CGI Federal; Michelle Obama's 1985 Princeton classmate; CGI "donated" \$47 million to the Obama campaign; CGI won the no-bid contract to build the www.healthcare.gov Obamacare website; CGI shut off the security features on Obama's reelection donation sites to increase donations)
 111. CGI Federal (US division of a Canadian company; Donated \$47 million to Obama's reelection, then received the no-bid contract to build the ill-fated Obamacare website; Michelle Obama's Princeton classmate, Toni Townes-Whitley, is a Senior Vice President of CGI; the website is replete with social features and links to Facebook)
 112. Kathleen Sebelius (Obama's Secretary of Health & Human Services since 2009 responsible for \$678 million Obamacare implementation; made the decision to hire CGI Federal on a no-bid contract despite the evident conflict of interest with Michelle Obama and \$47 million in Obama campaign donations by CGI; the website is replete with social features and links to Facebook)

- director, CEO, Athenahealth, Inc.; founder, director, CEO, Castlight Health, Inc.)
114. Frank M. Sands, Sr. / Frank M. Sands, Jr. (Founder and CEO, respectively, of Sands Capital Management LLC; failed to file S.E.C. Form SC 13G acquisition reports for Athenahealth, Inc., Baidu, Inc. (ADR) and Facebook stock during 2012; masked the association of Todd Y. Park with Athenahealth, Inc. and Baidu, Inc., and the association of both of those companies with the Facebook IPO fraud)
115. Robin "Handsome Reward" Yangong Li (CEO, Baidu, Inc. (ADR); appointed Jan. 2004, the same month that Mark Zuckerberg obtained Leader Technologies' social networking source code to start Facebook; Robin Y. Li is very likely associated with John P. and James W. Breyer through their Chinese entities, including IDG Capital Partners, IDG-Accel and other variants; Li appointed a junior attorney from Fenwick & West LLP, Palo Alto/Mountain View, namely Parker Zhang, to be his "Head of Patents;" Fenwick & West LLP represented both Leader Technologies, Inc. and Accel Partners LLC in 2002-2003 and had Leader's source code in their files.)

Kappos, who held over one million dollars in Facebook "dark pools" during the Leader v. Facebook proceedings; Kappos purchased this stock within weeks of his surprise recess appointment by President Obama; Kappos also was formerly employed by IBM, who sold Facebook 750 patents during the Leader v. Facebook proceedings; right before leaving the Patent Office, Kappos also ordered an unprecedented 3rd reexamination of Leader's patent without even identifying claims)
119. Mary L. Schapiro (Chairman, Securities & Exchange Commission; holds 51 Facebook "dark pools" stocks which held stock in Facebook, Baidu and more than a dozen Facebook crony companies; failed to regulate the "dark pools;" failed to disclose her substantial conflict of interest in regulating the run up to the Facebook IPO)

120. Robert C. Hancock (Chief Compliance Officer, Sands Capital Management, LLC; failed to file S.E.C. Form SC 12G notice of acquisition reports for Athenahealth, Baidu and Facebook during the period of the Facebook IPO in 2012; this conduct masked the conflicts of interest of Todd Y. Park, who was appointed by President Obama to be the U.S. Chief Technology Officer during this same period; Todd Y. Park is/has been founder, director and CEO of both Athenahealth and Castlight Health; Todd Y. Park deeply embedded the software from Athenahealth and Castlight Health into HealthCare.gov when he was CTO at Health & Human Services; none of these conflicts of interest were disclosed; Todd Y. 121. Jonathan Goodman (Chief Counsel, Sands Capital Management, LLC; failed to file S.E.C.
