GLOBAL SURVEILLANCE TECHNOCRACY UNCOVERED

LARRY SUMMERS FOUNDED CHINESE, RUSSIAN & U.S. SOCIAL NETWORKS WITH SUPPORT OF U.S. AGENCIES, BANKS AND TECH

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | MAY 29, 2014 | PDF

MAY 29, 2014 – NBC broadcaster Brian Williams interviewed whistleblower Edward Snowden last evening. Snowden shared chilling facts.

Edward Snowden

The NSA is collecting data on every American without a warrant under internal interpretations of the Patriot Act that have never been

scrutinized by public debate.

The NSA collects information on non-U.S. citizens and their leaders with abandon—conduct that begs the question: "Is the best way to support democratic ideals to abuse the privacy of others?" Snowden contends that having more data is not making us more secure. Clearly, the snooping is making the NSA the brunt of jokes across the globe. Brian Williams even admitted they made NSA jokes in the newsroom.

The FISA court, which is supposed to check abuses of power, is essentially staffed with "old boys" who approve

FIG. 1—LAWRENCE "LARRY" SUMMERS, Obama's first Director of the National Economic Council, appears to have personally directed the establishment and funding of the three largest social networks in the world: **FACEBOOK (U.S.)**, **VKONTAKTE (RUSSIA)** and **BAIDU (CHINA)**.

The two law firms who brought him the technology to achieve such an objective were **FENWICK & WEST LLP** and **CHANDLER LAW FIRM**. These firms had close relationships to the three-letter agencies: N.S.A., C.I.A., D.I.A. and F.B.I.

virtually all requests, and therefore, do not protect our privacy rights. It appears the FISA court is like one drunk recommending to another drunk to quit drinking.

In the 1990's, these agencies tried to force **Phil Zimmerman** into building a backdoor into his PGP (Pretty Good Privacy) encryption software, but he refused. Clearly, Facebook, Baidu and VKontakte are more cooperative since they know they are founded on stolen technology. Facebook's values are the polar opposite of Zimmerman's. And thus, their current cry of foul at the exposure of the NSA's activity rings hollow. Now we know why. Photo: Business Week

SNOWDEN'S CONCERNS WERE REBUFFED BY SUPERIORS

Contrary to complaints that he should have taken his concerns through channels, Snowden said he did go to his superiors, multiple times. (Isn't it interesting that the knee-jerk reaction of many policy makers was that he did not, without having any insight into whether he did or didn't?) However, he said the responses were classically bureaucratic, ranging from we'll get back to you to shut up if you want to keep your job.

WARRANTLESS SURVEILLANCE IS A MUCH BIGGER PROBLEM THAN THE NSA —ALL ROADS LEAD BACK TO HARVARD AND LAWRENCE "LARRY" SUMMERS

Investigations into the Leader v. Facebook judicial corruption scandal have now verified intimate, direct links among Lawrence "Larry" Summers, President Obama's first National Economic Advisor, and the world's three largest social networks: Facebook (U.S.), VKontakte (Russia) and Baidu.(China). None of these conflicts have ever been disclosed. Such nondisclosures are in direct violation of **SUMMERS' NOV. 2008 ETHICS PLEDGE** to the American People:

"As required by 18 U.S.C. § 208(a), I will not participate personally and substantially in any particular matter that has a direct and predictable effect on my financial interests or those of any person whose interests are imputed to me."

1. FACEBOOK (UNITED STATES) started at Harvard while **SUMMERS** was President on Feb. 4, 2004. In the 1990's, Sheryl K. Sandberg, Facebook's COO, was Summers' graduate student at Harvard, then protégé at the World Bank, then at the U.S. Treasury where she was his chief of staff. This alliance runs so deep that observers have concluded that Summers is the shadow power behind Facebook where Sandberg and Zuckerberg merely follow orders. [See Congressional Briefing.](#)

2. BAIDU, INC. (CHINA), called "the Chinese Facebook" was funded by D.E. Shaw & Co. while **SUMMERS** was Managing Director. Baidu's list of financiers replicates Facebook's (e.g., T.Rowe Price, Baillie Gifford, Vanguard, JPMorgan, Morgan Stanley, UBS, and a slew of secret Cayman Island investors). The current CEO, Robin Y. Li, was appointed the same month that Zuckerberg started Facebook on Feb. 4, 2004. Li named his Cayman Islands stock holding company "Handsome Reward." [See previous post](#); [See also Baidu S.E.C. filings.](#)

3. VKONTAKTE (RUSSIA), called "the Russian Facebook" (a.k.a. DST, Digital Sky, Mail.ru, Yuri Milner, Alisher Usmanov) was started by **SUMMERS'** other protégé from the early 1990's at the World Bank, Yuri Milner. Summers, Sandberg and Milner pressed upon the failing U.S.S.R. the now infamous and wrong-headed Soviet voucher system that spawned the current oligarch system. Chief among them is Alisher Usmanov, now "Russia's Richest Man." Usmanov and Milner funneled billions of dollars of funds from dubious origins to purchase pre-IPO Facebook private shares underwritten by Goldman Sachs, Morgan Stanley and JPMorgan. Some suspect that these funds were redirected TARP funds originally given to Goldman Sachs and Morgan Stanley and overseen by Summers when he was appointed as Director of the National Economic Council by President Obama.

THE HUBRIS OF THE CARTEL COULD NOT ADMIT THAT THEIR IDEAS WERE TRUMPED BY INNOVATORS IN COLUMBUS, OHIO

Two law firms, **FENWICK & WEST LLP** and **CHANDLER LAW FIRM**, both with deep Harvard Law ties, appear to have provided **SUMMERS** with the large-scale technological invention required to

UPDATE MAR. 25, 2014

FOUR CRITICAL AFI POSTS ON JUDICIAL COMPROMISE

Fully updated Mar. 25, 2014 in the wake of the Scribd censorship:

1. **WAS CHIEF JUSTICE ROBERTS BLACKMAILED** into supporting Obamacare by his ethical compromises in Leader v. Facebook?
2. **JUSTICE ROBERTS MENTORED** Facebook Gibson Dunn LLP attorneys. 
3. **JUSTICE ROBERTS HOLDS** substantial Facebook financial interests.
4. **JUDGE LEONARD STARK FAILED** to disclose his Facebook financial interests and his reliance on Facebook's Cooley Godward LLP attorneys for his appointment. 

BARACK OBAMA'S DARK POOLS

implement this global scheme—namely the social networking invention of their mutual client, Columbus innovator Leader Technologies, Inc.—U.S. Pat. No. 7,139,761.

Fenwick and Chandler are well known in Washington, D.C. circles to have deep, long-standing relationships with the NSA, CIA, DIA, JUSTICE and FBI intelligence gathering. Leader's first director, MAJOR GENERAL JAMES E. FREEZE, U.S. ARMY (RET.), was head of the U.S. Army Security Agency and #3 at the NSA. It would appear that Leader was thrown under the bus by this security cartel. Freeze and Chandler appear to have already been making plans for a universal Internet operating system at the time when Leader sought legal help from Chandler to protect their invention. Chandler's early website shows his collaboration with "THE OPEN GROUP" whose mission is "Boundaryless Information Flow."

PRESIDENT DWIGHT D. EISENHOWER, JAN. 19, 1961: BEWARE THE MILITARY-INDUSTRIAL COMPLEX

Fenwick's associations and inter-relationships with the CIA's IN-Q-TEL funding arm are notorious. In-Q-Tel's trustees include Marc Andreessen's former partner, JAMES BARKSDALE; a former Chairman of the National Venture Capital Association (NVCA), HOWARD COX; Stanford Professor ELISABETH PATE-CORNELL; and, Fenwick's collaborator at venture capital company Kleiner Perkins, TED SCHLEIN.

According to Senate testimony, Chandler advised the entire government on matters related to the Economic Espionage Act of 1996. It appears that once these individuals learned of Leader's invention, they planned to feed it to their other clients, like IBM, MICROSOFT, XEROX, ACCEL PARTNERS, BOSTON SCIENTIFIC and the U.S. GOVERNMENT.

For example, Leader v. Facebook trial testimony indicates that once Chandler saw Leader's invention, he advised them to "reduce it to practice" before he would file the patents. Patent experts say this advice was so horribly misguided, especially coming from a well-respected professor of patent law, that it had to have been intentional. Viewed in light of an intent to feed Leader's code to an international "open source group" network, it now makes perfect sense. Normally, a programming client would not give its attorney a full copy of its source code. In any event, Chandler did not file that code with Leader's provisional patent, even though he could have. Also note that Chandler taught intellectual property law both at George Washington University and at Harvard.

FENWICK HAS FILED PATENTS IN FACEBOOK'S NAME THAT ARE REALLY LEADER'S

According to trial evidence, Chandler claimed that Leader had over 60 patents or patentable inventions in 2001. It appears that Fenwick & West LLP filed those patents in Facebook's name instead. That same Lawrence Livermore National Laboratory CRADA (Cooperative Research and Development Agreement) document proves that Chandler and Fenwick were provided a copy of Leader's source code for ostensible safekeeping—all while Zuckerberg was still in high school. The question is: Safekeeping for whom? Clearly not for their client who invented it.

ACCOUNTABLE TO NO ONE

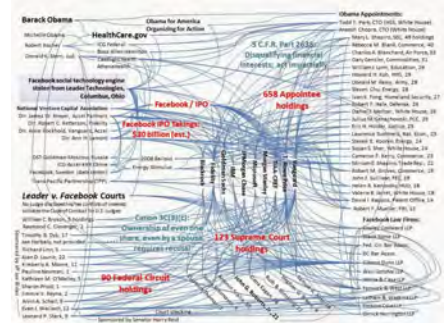

A common set of lawyers, financiers, regulators, judges and companies appear to be at the center of an emerging US-Chinese-Russian technocracy organized by Lawrence Summers & Friends that have relied upon stolen technology to organize and fund themselves, including:

STOP FACEBOOK PROPERTY THEFT

W LL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

The poster has a red and yellow background. At the top, it says "LEADER TECHNOLOGIES Inventor Protection Act (Proposed)". Below that, it reads: "America needs to practice what it preaches. We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking..." It then lists two points: "—a technology upon which the President and U.S. government now rely;" and "—a technology stolen by the 'Facebook Cabal' who recruited the federal courts and Patent Office into their club of corruption." At the bottom, it says "Rescind. Investigate. Sanction. Certify." and "Contact your representatives. Ask them to pass it. Real American inventors need your support." with two URLs: "http://www.contactingthecongress.org/" and "http://americans4innovation.blogspot.com".

TABLE1: Individuals and organizations known to be collaborating toward a supra-territorial technocracy.

A global data sharing ring has been established among them. HealthCare.gov was a key component of this plan. [Healthcare spending](#) is projected to be 18% of the Gross Domestic Product in 2014. Technocracy advocates evidently wanted that data to feed their algorithms.

To achieve their "big data" objectives, they arranged for **TODD Y. PARK** to start **ATHENAHEALTH** and **CASTLIGHT HEALTH** with funds from Cartel members. Then, they arranged to have President Obama appoint him CTO (Chief Technology Officer) at **HEALTH & HUMAN SERVICES** to implement his technology and "Datapalooza" there. Then, he moved over to the **WHITE HOUSE** as CTO to protect his creation. [See previous post.](#)

ROBERT C. KOCHER, MD, the architect of Obamacare, then quit the White House and went to work for Park's Athenahealth and Venrock financier to watch over their creation from the other end. No stone under the revolving door was left unturned, it appears.

H.H.S. & I.R.S. DATA—THE MOTHER LODES

HEALTHCARE.GOV gives these technocrats visibility into the mothers of all databases, **HHS** and **IRS**. To tie those two together, they evidently blackmailed **CHIEF JUSTICE JOHN G. ROBERTS** to flip his vote so that the system would be defined as a tax as the ruse to tap IRS data. Never mind that Robert's financial portfolio is stacked with Cartel crony stocks. Perhaps that was the blackmail.

Judges, regulators and agency heads have blessed this unholy union.

COULD THIS HIDDEN AGENDA BE THE CAUSE OF WASHINGTON'S DYSFUNCTION?

When someone knows your thoughts, all the time, they don't have to compromise.

When Harry Reid and Nancy Pelosi ran Congress, they shoved Obamacare down the public's throats, supported by lies from the President that you could keep your doctor. This plan for a lawless global technocracy required America's healthcare data. Reid's and Pelosi's handlers used this power to get access to HHS and IRS data.

Case in point, our sitting U.S. Chief Technology Officer, **TODD Y. PARK**, has implemented Athenahealth's and Castlight Health's technologies into HealthCare.gov. (Park signed the same Ethics Pledge to disclose conflicts that will benefit him that Summers signed.) This is a gross breach of ethics, yet the **ATTORNEY GENERAL ERIC H. HOLDER, JR.** is silent. Worse, [Castlight just filed to go public](#)—while Park is still working at the White House. These people don't even hide their disdain for law and ethics any longer. They know there will be no consequences for their lawlessness.

WHY DO "THE MASSES" KEEP USING THESE SYSTEMS? —TITILLATION

People keep using their devices because certain unscrupulous vendors offer a continuous stream of games, coupons, gossip, discounts, entertainment and sex—titillation. History teaches that unchecked pandering and titillation destroys empires from within. Compounding the problem, users leave their computers and iPhones on, which then allows

in the business of cheating its entrepreneurial investors simply because the cheaters buy off judges with the money gained from their theft. Such permissiveness is obscene.

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's Leader v. Facebook attorney Gibson Dunn LLP. She credits this

firm with the reason why not a single Wall Street banker has gone to jail since 2008. [Click here](#) to read her article "Everybody hates whistleblowers." *Examiner.com*, Apr. 10, 2012. Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ulyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney dark arts, destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The *Leader v. Facebook* patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from *Leader*

Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on *Leader v. Facebook* until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

CODE OF CONDUCT FOR U.S. JUDGES

"CANON 2: A JUDGE SHOULD AVOID IMPROPRIETY AND THE APPEARANCE OF IMPROPRIETY IN ALL ACTIVITIES"

GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. ([Read Leader's May 20, 2010 motion here.](#)) He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. ([See that Jury Instruction No. 4.7 here.](#)) He also contradicted his own instruction to Leader to answer

Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. [See his Sep. 14, 2009 Order](#). Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. [See analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO](#).

Judge Lourie also failed to apply his own law-test in *Group One v.*

Hallmark Cards to the evidence. After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. [See disclosure of substantial holdings in Facebook and Facebook-related stocks](#). Judge

Moore failed to follow the long-held precedent for testing on-sale bar evidence in *Pfaff v. Wells*

Electronics, Inc.—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the

secretary of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012).

Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. [See Motion to Disclose Conflicts of Interest.](#)

Judge Wallach continued in silence even after Clerk of Court

Horbaly failed to provide him with Dr. Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. [See a full analysis of these events at Donna Kline Now!](#) Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's *Pfaff v. Wells Electronics, Inc.* test for on-sale bar evidence, which included even the Federal Circuit's own *Group One v. Hallmark Cards, Inc.* test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie helped write that opinion. [Group One test omission analysis.](#)

Clerk of Court Jan Horbaly, U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court's ruling was challenged by an amicus curiae brief revealing clear mistakes of law and new evidence. [See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in *Leader v. Facebook*](#). Mr. Horbaly failed to disclose his conflicts of interest and close associations with numerous Facebook attorneys and law firms, as well as

his close association with one of Facebook's largest

shareholders, Microsoft, who is a Director of The Federal Circuit Bar Association where Mr. Horbaly is an ex officio officer. Additionally, the DC Bar revealed in a written statement that Clerk Horbaly is not licensed to practice law in the District of Columbia. [Editorial: What does that make the Federal Circuit with its location within in a stone's throw of the White House? A self-governing state?]

Judge Randall R. Rader, U.S. Court of Appeals for the Federal Circuit, chief judge responsible for the (mis)conduct of his judges and Clerk of Court in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle

with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James

P. Chandler. [See analysis of Judge Rader's undisclosed conflicts of interest in Leader v. Facebook.](#)

Judge Rader also did not stop his judges from creating new arguments and evidence for

Facebook in the secrecy of chambers—after they had debunked all of Facebook's evidence on appeal, which is a clear breach of constitutional due process.
