OBAMA LECTURES NORTH KOREA WHILE HE STEALS INTELLECTUAL PROPERTY DAILY

OBAMA TAPPED STEPHEN C. SIU TO DISRUPT LEADER TECHNOLOGIES' SOCIAL NETWORKING PATENT TO AMASS MONEY, VOTES & POWER

Sharyl Attkisson, Barack Obama

Photos CBS, White House

JAN. 6, 2015 UPDATE: ATKISSON SUES U.S. GOV'T

Former CBS investigative reporter **SHARYL ATKISSON** has sued the Justice Department for using "highly sophisticated methods" to hack her computers to learn the identities of her confidential sources for newsgathering and articles critical of the Obama Administration in Fast & Furious and Benghazi. She cites Department of Justice documents confirming involvement by Eric Holder and the FBI in a secret inter-agency network that "will help strengthen partnerships between department and agencies across the U.S."

government." We believe this network is founded on the theft of Leader Technologies' inventions led by IBM, former IBM counsel and Patent Office Director David J. Kappos, Eric H. Holder and Professor James P. Chandler, Leader's former patent attorney and a long-time senior cyber-security adviser to BM, NSA, Harry Reid and the Department of Justice. See this and [previous post](#) re. "The Internet of Things."

Sharyl Attkisson's claims: (1) [Attkisson et al v. Holder et al](#), (2) [FTCA Federal Tort Claim](#) and (3) [Docket](#).

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | DEC. 24, 2014, UPDATE JAN. 6, 2015 | PDF

(DEC. 24, 2014)—President Obama and Attorney General Eric Holder seem to have taken the alleged hack of Sony by North Korea a little too personally.

Apparently, only Obama's government is allowed to steal intellectual property. Ironically, Obama's brouhaha over a satirical comedy ignores his exploitation of Columbus-based Leader Technologies' social networking invention for a decade.

MEN WHO LIVE IN GLASS HOUSES SHOULD NOT

L/R: U.S. HACKER-IN-CHIEF, KOREAN UNDERSTUDY

FIG. 1—BARACK OBAMA & KIM JONG UN make competing claims about North Korea's alleged hack of Sony Entertainment. Irrespective of how silly it appears for a U.S. President to spend time defending actor Seth Rogen's satirical comedy, **HACKER-IN-CHIEF'S**

Request for **DOWNLOAD**
Congressional Intervention

HealthCare.gov's confiscation of this property cannot stand

Leader: 145,000 man-hours • over \$10 million • 20 people • solid engineering • hackers not welcome • affirms privacy, security, property • no foreign influence • respects U.S. Constitution

Facebook: "one to two weeks" • beer money • all by myself • 28 hidden hard drives • stole Harvard photos • hacks email • PayPal Mafia handlers • scoffs at privacy • corrupts markets, judges, politicians & gov't agencies

John Adams, or ...?

THROW STONES

The Sony hack is child's play. **OBAMA** and **HOLDER** have orchestrated one of the greatest intellectual property thefts of all time—the theft of Leader Technologies' social networking invention. Aided by **IBM'S DAVID J. KAPPAS** (later **PATENT OFFICE** director), Leader's attorneys Washington, D.C.-based **JAMES P. CHANDLER**, and Silicon Valley's **FENWICK & WEST LLP** (later Facebook's attorney), Holder helped create **THE ECLIPSE FOUNDATION** on Nov. 29, 2001. Their mission was to capitalize on Leader's breakthrough innovations for themselves and their grand plans.

GLOBAL CONTROL OF "THE INTERNET OF THINGS"

Their agenda is voracious and global: banking, finance, education, politics, economics, healthcare, tax, regulation, environment, law, security, legislation, energy, social, entertainment. They want it all, and they were not going to let Leader's intellectual property rights stand in the way of their vision for **"THE INTERNET OF THINGS"** (a global agenda pressed by IBM, Intel, Microsoft, Cisco, and Wind River).

Eclipse set out to eviscerate Leader's intellectual property rights in legal sophistry

In their Grand Poobah benevolence, these people decided that Leader's invention should be "open source" (freely available to all) and not owned by Leader. Never mind that Leader had invested over \$10 million and 145,000 man-hours to invent it, had been awarded multiple patents, and had proven in federal court that Facebook was guilty on 11 of 11 counts of using the invention illegally. According to sources, Chandler, a professor emeritus of law at George Washington University, once told a Leader official "sometimes the rights of a few must be sacrificed for the rights of the many." Textbook socialism.

Here are just a few ways President Obama's government has exploited Leader's invention. Obama's government has relied heavily on Leader's invention for its existence.

HACKER-IN-CHIEF BARACK OBAMA'S INTELLECTUAL PROPERTY SINS DWARF KIM JONG UN'S

1. Candidate Barack Obama announced his candidacy on Facebook—Leader's invention, on Feb. 10, 2007.
2. Obama relies on Leader's invention for Organizing For America (OFA), formerly Obama For America, for daily propaganda and donations.
3. Obama and Holder hired Facebook's Cooley Godward LLP attorney, Donald K. Stern, to recommend White House judge selections that included the Leader v. Facebook judge, Leonard P. Stark, then they allowed Cooley Godward LLP to defend Facebook in the trial. Corruption personified.
4. Obama's 2008 and 2012 election victories are credited to the demographic data gleaned from Facebook—Leader's invention.
5. Obama appointee, David J. Kappos, former IBM chief intellectual property counsel

the more serious question is "Who is the greater intellectual property thief?" Obama or Un?

In our estimation, President **BARACK OBAMA** is the hands down winner with ample proof of his theft of and reliance on the social networking invention of Columbus, Ohio innovator Leader Technologies, Inc. One of the Hacker-in-Chief's accomplices is the patent hacker-judge **STEPHEN C. SIU**, as this post shows. So much for this American judge's pledge to avoid even the appearance of impropriety."

Obama's first lieutenant was Patent Office Director and former IBM chief intellectual property counsel, **DAVID J. KAPPAS**,

UPDATE MAR. 25, 2014

FIVE CRITICAL AFI POSTS ON JUDICIAL COMPROMISE

Fully updated Mar. 25, 2014 in the wake of the Scribd censorship:

1. HOW PATENT JUDGES GROW RICH ON THE BACKS OF AMERICAN INVENTORS

Patent Office filings are shuffled out the USPTO backdoor to crony lawyers, banks and deep-pocket clients.

2. WAS CHIEF JUSTICE ROBERTS BLACKMAILED into supporting Obamacare by his ethical compromises in Leader v. Facebook?

3. JUSTICE ROBERTS MENTORED Facebook Gibson Dunn LLP attorneys.

and The Eclipse Foundation founder, started the Patent Office Facebook page on May 14, 2010, two months before the Leader v. Facebook trial in a clearly prejudicial defiance of propriety.

6. Obama has incorporated Leader's invention throughout HealthCare.gov, most specifically through the activities of Todd Y. Park's two "social" medical companies, Castlight Health and athenahealth—Yes, Park implemented his own company's technology in Obamacare—more textbook corruption.
7. Obama's government has pressed for release of government "big data" to Facebook cronies; this helps populate "The Internet of Things" global data base on every citizen. "Dark Profiles" are being created on every U.S. citizen in the unregulated hands of private entities.
8. The NSA, IRS, FEC, HHS and SEC have been feeding these dark profiles.
9. Obama's agencies have pressed Congress and C-SPAN to exploit Leader's technology and feed these dark profiles.
10. We're just getting started with this list . . .

ONLY CRICKETS ARE CHIRPING IN ERIC HOLDER'S LAW ENFORCEMENT BACKYARD

What has Eric H. Holder done to protect Leader's property rights? <<< [Click here to hear Eric Holder's crickets](#)>>>. Instead, he has failed across the board to prosecute profligate judges, attorneys, regulators, politicians and bureaucrats who are supporting this agenda.

Tellingly, neither has Holder prosecuted a single Wall Street executive for the so-called 2008 banking meltdown. The similarities of inaction are apparent. Perhaps the 2008 "crisis" was an elaborate fabrication to create an excuse to implement "social" technology broadly—before the world could figure out this agenda?

ANATOMY OF HACKER-JUDGE STEPHEN C. SIU

Here's an example of how Obama, Holder and Chandler executed their agenda with minions inside the Patent Office. Kappos assigned patent judge Stephen C. Siu to handle the unprecedented third reexamination of Leader Technologies' patent. (Kappos' invocation of this special director power designed only for the most extreme of hardship situations had never been seen before in living memory.)

STEPHEN C. SIU,
Patent Judge in
Leader v. Facebook
(Photo: LinkedIn)

Here's the timeline of Judge Siu's entry into the Leader v. Facebook case:

2012	
Mar. 22	IBM sold 750 patents to FACEBOOK
Apr. 17	DAVID J. KAPPPOS ordered the 3rd Leader reexam; assigned STEPHEN C. SIU and IBM, MICROSOFT, XEROX cronies
May 19	Facebook public offering; Kappos' and Siu's investments benefited substantially
2013	
Apr. 29	Patent Judge Stephen C. Siu magically affirms IBM, Xerox and Microsoft prior art that Facebook had lost on resoundingly at trial and in two previous reexams. A total reversal in favor of Facebook, IBM and The Eclipse Foundation.
Conflicts Disclosures?	None. Zero. Zip. Zilch. Nada. Kappos and Siu worked for IBM; Judge Siu worked for Microsoft; staffers had issued 212 patents to IBM, Microsoft and Xerox; Kappos and Siu held Facebook, IBM, Microsoft and Xerox stock; Kappos ran a Patent Office Facebook page and posted regularly. Siu failed to disclose his IBM and Microsoft relationships when citing their failed prior art in the 3rd reexam. Siu failed to disclose his legal team's plethora of relationships with IBM, Microsoft, Xerox and Facebook.
Table 1: Timeline of Patent Office conflict of interest in Leader v. Facebook.	

Judge Siu is a former Microsoft employee as well. Siu's three-judge panel and attorneys had collectively issued 212 patents to **IBM, Microsoft and Xerox**. Staff attorney William J. Stoffel lists IBM and major Facebook investors Vanguard and Fidelity as conflicts. Therefore, these people should never have touched this matter, and yet they not only touched it, they eviscerated it.

4. **JUSTICE ROBERTS HOLDS** substantial Facebook financial interests.

5. **JUDGE LEONARD STARK FAILED** to disclose his Facebook financial interests and his reliance on Facebook's Cooley Godward LLP attorneys for his appointment.

BARACK OBAMA'S DARK POOLS OF CORRUPTION

Click to enlarge

CLICK HERE FOR WASHINGTON'S ETHICAL DISEASE DISCOVERIES RE. FACEBOOK "DARK POOLS"

STOP FACEBOOK PROPERTY THEFT

We see. We "like." We steal.

STOP FACEBOOK PROPERTY THEFT.

www.fbcoverup.com

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

During the proceedings, Siu cited Facebook arguments about Microsoft and Xerox that Leader had already refuted soundly three times, once at trial and twice in previous reexams. Then magically, Siu's Patent Trial and Appeals Board (PTAB) reversed 10 years of decisions validating Leader's innovations. Siu ignored the Code of Conduct that requires judges to flee even the appearance of impropriety. The conflicting Facebook-IBM-Microsoft-Xerox associations among Kappos, Siu, Stoffel make the reexamination a transparent fraud. See p. 33 [Request for Congressional Intervention](#).

In lockstep, these officials cite a euphemistically named "safe harbor" exemption buried on page 202 of a 241-page Judicial Conference "[advisory opinion](#)." However, that same opinion says "even one share" of stock held by a spouse demands disclosure. It also says that the exemption does not apply if you get regular portfolio reports, which all mutual funds are required by law to provide twice a year. Neither does the exemption apply if the judge buys and sells stocks out of the fund, which Siu does.

Bottom line, the "safe harbor" excuse is a ruse for hiding holdings in crony companies. It's "the dog ate it" excuse that no one appears to have questioned until AFI started alerting Americans to this grossly unethical practice.

JUDGE SIU STUFFED HIS POCKETS WITH FACEBOOK STOCK AND RELATED INTERESTS

Siu's relationships with IBM, Microsoft, Vanguard and Fidelity notwithstanding, Siu also invested up to \$2.1 million in 28 mutual funds that hold 644 holdings totaling a whopping \$140 billion (with a B) stocks and bonds in Facebook and companies with direct Facebook interests, most notably Facebook's underwriters.

Six of Siu's funds hold \$4 billion in Facebook stock directly, including Facebook's largest mutual fund investor, Fidelity Contrafund (Ticker Symbol FCNTX). Contrafund is reserved for the Facebook Cartel elite, including Chief Justice John G. Roberts, Jr., Eric H. Holder and three of the four Leader v. Facebook judges.

FIG. 3—MUTUAL FUNDS are secretly organized to be held among select oligarchs and their friends who only pretend to favor a free market Republic. The so-called "safe harbor" excuse for not reporting portfolio holdings has corrupted American public life to its core. Most public officials are on the take through their mutual funds. Until this corrupt practice is overhauled, self-dealing, bias and deep-pocket power over public officials destroys the republican principle of equal treatment before the law.

Graphic: Americans For Innovation

FIG. 4—HILLARY WEIGHS IN ON JUDGE STEPHEN C. SIU'S PROFLIGACY: What difference does it make?

[Read: The damage I helped create has already been done. Move on folks. Didn't you get the memo? I am above the law, just like patent judge Stephen C. Siu and everyone else in this administration.]

Photo Reuters

LEADER TECHNOLOGIES
Inventor Protection Act
(Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

—a technology upon which the President and U.S. government now rely;

—a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

Rescind. Investigate.
Sanction. Certify.

Contact your representatives. Ask them to pass it.

Real American inventors need your support.

7. [USPTO-reexam Sham](#)
8. [Zynga-gate](#)

FIG. 5—ADMINISTRATIVE PATENT JUDGE STEPHEN C. SIU failed to disclose 644 conflicting holdings in Facebook interests while judging *Leader v. Facebook*.

Methodology: We studied public SEC filings to catalog the portfolio holdings inside these funds. Once you determine the "ticker symbol" for the fund, like Fidelity Contrafund's is FCNTX, the annual FORM N-CSR reports for the fund can be easily obtained at www.sec.gov. A single holding was counted as one, no matter whether it reflected a \$1 billion Facebook investment or a \$10 million JPMorgan bond. If two different funds held the same underlying nested fund that contained Citigroup stock, for example, that Citigroup interest was counted twice, since each holding is a separate conflict of interest. SEC filings are "judicially recognizable," meaning they can be used as evidence in court without further verification.

Siu, Stephen C., *Undisclosed Facebook Interest Holdings in Leader v. Facebook*, reported Apr. 02, 2014

FIG. 6—ANALYSIS OF ADMINISTRATIVE PATENT JUDGE STEPHEN C. SIU'S undisclosed financial holdings in Facebook interests during his work to invalidate Leader Technologies' validly issued and well-tested patent for social networking. Siu has 644 Facebook conflicts of interest in *Leader v. Facebook* worth \$140 billion. [Click here to download this PDF directly.](#)

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's *Leader v. Facebook* attorney Gibson Dunn LLP. She credits this

firm with the reason why not a single Wall Street banker has gone to jail since 2008. [Click here to read her article "Everybody hates whistleblowers." Examiner.com, Apr. 10, 2012.](#) Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the *Leader v. Facebook* case, Theodore Ulyot, who appears to have helped lead the *Leader v. Facebook* judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in

FIG. 6—FACEBOOK S-1 (PUBLIC OFFERING) REGISTRATION (MAY 16, 2012) showing the underwriters with substantial interests in Facebook. These disclosures occurred during the *Leader v. Facebook* proceedings and were therefore substantial grounds for judicial recusals where judges held these evident Facebook interests. Judicial financial disclosure reveal that every judge in *Leader v. Facebook* was profoundly conflicted. Each judge held substantial stocks directly in Facebook through their funds, most notably Fidelity, Vanguard and T. Rowe Price funds. CERTAIN AMERICAN JUDGES SUFFER FROM SUDDEN-ONSET-WEALTH SYNDROME

Judge Siu's financial conflicts show the same pattern of investing that we have uncovered in about 50 judges, politicians and bureaucrats dubbed "The Facebook Cartel." The sudden-onset wealth acumen acquired by these individuals is truly magical.

WHAT'S THE END GAME?

We are often asked where we think these people are headed with the now evident collusion. We believe these people have convinced themselves that the world will be better off if they surreptitiously take control of the global digital infrastructure.

THE END JUSTIFIES THE MEANS

This Cartel has decided that *Leader's* patents, Dr. Arunachalam's patents, Paul Ceglia's civil rights, Johannes Van Der Meer's patent, your health data, your IRS financial data, your banking data, your choice of physician, your privacy, etc. are required, even if they must lie, cheat, steal, wage war, betray, propagandize, and fabricate diversions to get them. Ironically, a very high percentage of these people are Harvard graduates who have formed a quite unholy alliance with Wall Street and Silicon Valley.

BEFORE OBAMA LEAVES OFFICE ...

President Obama's priorities over the next two years will reinforce this agenda, we predict. His priority to lower Pacific trade barriers, deregulate Internet domain naming, immigration, executive orders, stonewalling, vote subgroup pandering are not random or incompetent. They make perfect sense in light of the

THE CARTEL WANTS IT ALL.

support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. [Click here for a PDF version of Julie Davis' article.](#)

Cartel's agenda to seize control of America's digital infrastructure, in perpetuity.

Nothing else matters in this agenda. Not America. Not the Constitution. Not property and privacy rights. Not human decency.

If this Cartel is permitted to take over the digital pipes of our lives, they will control our conversation, finances and votes through titillation, coercion, advertising, propaganda, censorship and message manipulation.

Is the American citizen (We the People) "too stupid" to stop this takeover?

We don't think so.

Merry Christmas to all.

Let's restore our sacred America rights in the New Year before these profligates do even more damage. The long lesson of history is that citizens either defend their rights, or they lose them.

* * *

ON SIMPLICITY: AFI readers ask regularly for Cliff's Notes of our posts. We made an editorial decision some time ago to err on the side of giving you the full facts, rather than try and summarize them prematurely. Here's the problem: This corruption is perpetrated by devious minds who hide their misconduct in misdirection and sophistry (e.g., you and I say "He lied" while they say "He ran afoul of the situation with misperceived facts."). You'll read this in spades in the tortured 13-page Office of Government Ethics (OGE) advisory linked below. While these guys get paid \$800 an hour, the rest of us must do real work. So, it stands to reason that our findings will be complex. That said, now that the pegs are starting to drop into their respective holes, perhaps we will be able to start summarizing soon. We invite those who have knowledge of these events to anonymously email us at: amer4innov@gmail.com (Thank you to those who have already!)

FIG. 7—Only the end game that matters to the Facebook Cartel is control of America's entire digital infrastructure by the time Barack Obama leaves office. Why do you think he is working so feverishly to stack the courts with cronies? Then, if you try and protect your Constitutional rights, his cronies will continue to underpin the Cartel's agenda. With crooked judges, lawyers and law, the world is their oyster.

Leader v. Facebook judicial misconduct exposes a constitutional crisis The theft of Leader Technologies' patent by Facebook, and the effo...

EDITORIALS

1. DC Bar refuses to investigate attorney misconduct in *Leader v. Facebook* - Unwillingness of DC attorneys to self-police may explain why Washington is broken, Dec. 30, 2012
2. Will the U.S. Supreme court support schemers or real American inventors? Facebook's case dangles on a doctored interrogatory. Eighteen (18) areas of question shout for attention, Dec. 27, 2012
3. Two Policy Changes That Will Make America More Democratic (and less contentious), Dec. 21, 2012

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

... our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for

Rain Onyourparade December 27, 2014 at 3:15 AM

Obama and Holder look like wind up toys for the globalists George Soros, Andy Grove and John P. Breyer.

What do Soros, Grove and Breyer have in common? They are all post-World War II Hungarian Jewish refugees with Christian names (George, Andrew, and John). From ethnic and religious perspectives, the fact that they are Jewish is neither here nor there, but to the extent that this fact may reveal hidden agendas, it becomes noteworthy as a potentially strong motivator for collusion. It is a notorious fact of history that Hungarian Jews were severely persecuted by the Nazis, along with Poles, homosexuals, Gypsies and Russians (deemed no better than swine by Nazi anthropologists). Soros is the garish one (throws around wild amounts of money to progressive liberal and outright socialist causes). Grove does the blocking and tackling (electronic chips). Breyer is the secretive manipulator (high tech publishing and venture capital). Breyer was the founder of Computer World magazine.

Breyer's son, James W. Breyer, is the managing partner of Silicon Valley-based Accel Partners LLP, the largest stockholder in Facebook, former chairman of Facebook, former Walmart director, client of Leader Technologies' former attorney, Fenwick & West LLP. Breyer is also a lavishly donating Harvard alum who likely coopted Harvard president Larry Summers into their plan to help fabricate a Harvard origins story for Facebook a few years after they started THE ECLIPSE FOUNDATION. Barack Obama and Eric Holder were other useful byproducts.

The Breyers have set up shop in China (IDG CHINA) and have gone very quiet since the framework of this agenda was first exposed. Keep asking WHERE IN THE WORLD IS JOHN P. BREYER? Then, follow the money. Then, watch for George Soros around every corner. 8-O (deer in the headlights).

Remember James W. Breyer's staging of Zuckerberg's coming out at Stanford on October 26, 2005? This video is evidence of a crime IMHO. Breyer and Zuckerberg are SOLICITING Stanford students to write "apps" for the software platform they stole from Leader Technologies. Legally this is no different than a drug dealer soliciting students to sell drugs on campus. Barack Obama announced his candidacy for President on this stolen platform just 16 months later. Hmmmm.

James W. Breyer and Mark E. Zuckerberg Interview, Oct. 26, 2005, Stanford University:

http://youtu.be/WA_ma359Meg

The birds are coming home to roost.

I always did think Obama and the Zuckerberg gang were too lovey dovey. zuckerberg always has been an idiot, ah, ya know, dude, and Obama becomes one when he is off his teleprompter. Two thieving peas in a pod.

So, the "BIG DATA" agenda is to compile 600 or so pieces of metadata on every citizen... like a DIGITAL IDENTITY FINGERPRINT? Then, this cartel will have all the data they need to control our every move? They'll know how we vote, who we might vote for with the right incentive (executive order), what we buy, who we buy from, who we do business with, who we socialize with, ad nauseum? They are as we speak sucking this data out of healthcare institutions through HealthCare.gov, IRS, election commissions, social data stream, banks, etc.? ... and all this will be in private hands in undisclosed secret locations around the planet simply because we all "checked the box" on the slimy user license agreements, like the Facebook data center in Sweden? Where are our elected representatives on this? Oh wait, I forgot, they hold these same mutual fund bribes along with our judges. IBM appears not to have learned its lesson from WWII when it compiled secret files on its undesirable citizens, then confiscated their property on Kristallnacht.

strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

WELCOME TO DONNA KLINE NOW! READERS!

AFI has been supporting Donna and is now picking up the main Leader v. Facebook coverage (she will continue coverage as well).

Email comment by TEX:

America's greatness as a nation can be defined by many different parameters, historical feats, many remarkable men and women, and such things as its natural ocean barriers from predator nations. All in all, it was a perfect idea, at a perfect time, and for the right reasons. The folks in the new world wanted freedoms, liberties, and opportunities to achieve their dreams. They could be employers or employees, they could be teachers or students, they could be leaders or followers. In any case, they could control their own destinies as long as they followed the laws (our Constitution) created by our brilliant founders. Our society allowed winners to win and losers to lose. But it also allowed for movement from one class to another. There was no royalty or predetermined winners or losers.

I have attached below an article written in 2009 about the man we elected in 2008 to "fundamentally transform America". It is abundantly clear that Obama had, and retains, a disdain for the very fabric that made America the greatest idea ever created for governing. He must believe in his heart that the only way to create a new progressive, socialistic society is to pick winners and losers, at all levels, even if it usurps the Constitution in the process. Remember the words of his mentor Saul Alinsky, "the ends justifies the means". Simply look at how health insurance was imposed, how our borders have been obliterated, the new functions of the IRS, the dismantling of our military, the theft of patents that hampered his agenda, and even the dilution of state rights by the bullying from the Federal government. It's all about transformation. It's all about imposing an agenda.

To those readers that believe AFI is just making stuff up because "the blog is racial", please read the article below with an open mind. It was written by a techie with no agenda. Then, piece together what is presented in this article to the many other "co-inventors" presented over the past year by AFI on this blog site. Any rational, logical thinker can see a pattern of corruption and deception that follows the school of thought of "the ends justifies the means". And the fascinating outcome is that those that participated in this corruption gained billions of dollars of wealth with no opposition. I will end this rant with a question for you. If a couple of patents were obstacles to Obama's agenda, which of the following choices would he make?

- he would honor the law and take another route. or,
- he would pull a few insiders together (Larry Summers, David Kappos, Eric Holder, Mark Zuckerberg, etc.) and create a plan that could bulldoze his way to achieving his agenda without regard for those that were damaged in the process.

Before you answer, let me point out a typical Obama move yesterday in Hawaii. Two Captains in the US military stationed in Honolulu had been planning a wedding for a year. The venue was a small, isolated golf course on Oahu. The bride to be was so excited about the wedding and the reception. It was her dream man, and dream location. Then the call came the day before her wedding. Obama had decided to play golf there and they had to change their wedding to a different location.....the next day! And Obama didn't change his plans.....they did. Can you imagine what is in this man's heart?

Have a great day.....and Happy New Year. TEX

James W. Breyer knew Facebook was a stolen idea he said he was going to expose Mark Zuckerberg as a Thief but it was all a lie just to get more info for the stolen idea facebook, and on October 26, 2005 you sold out like a little whore at Stanford Breyer is the secretive manipulator when Breyer stole Leader Technologies software platform it was of to Stanford with his little prick mark zuckerberg.

Harvard president Larry Summers knew zuckerberg had stolen the idea facebook and fabricated a Harvard origins story for Facebook, Zuckerberg is an admitted forger and an admitted hacker, Orrick, the firm Eduardo Savrin accused of conspiring with Zuckerberg to deprive him of his shares when he stole the idea facebook. Orrick perjury and conspiring along with Zuckerberg to protect his stolen empire, Orrick you now that facebook was stolen. Zuckerberg is a self-confessed hacker who never invented anything in his life.

I watched the National Championship semifinals and was struck by a General Electric ad titled "Ideas are Scary" The premise is that ideas are never accepted by the status quo and only find their true home in the bosom of one of the most monopolistic companies on the planet—General Electric.

<http://youtu.be/sfmQvc6tB1o>

This is GE Propaganda Brainwashing 101. It also reinforces former Patent Office Director David J. Kappos' statement sometime back in 2009 when he first became patent director. Kappos said:

"People no longer innovate individually."

<http://patentlyo.com/patent/2009/05/dave-kappos-as-next-pto-director.html?cid=6a00d8341c588553ef01156f7efdcf970c>

Kappos' statement makes no sense and telegraphed his intent to allow his IBM cronies to steal whatever they wanted, including Leader Technologies patents, Dr. Arunachalam's patents, Johannes Van Der Meer's patents, Paul Ceglia's civil rights under the logic that such moves would be benevolent in order to save those ideas from the "scary" world. More liberal socialist clap trap.

They must be pulling out all the stops to get their digital pipelines in place before Obama leaves office. What we need are some more whistle blowers in the bowels of this collusion. C'mon wolves, let's keep on their tails.

Speaking of interlopers, did you see the Sugar Bowl Postgame? The Great Ohio State President Interloper Michael V. Drake was prancing around on the platform like a little rooster with his semifinal championship hat on. I guess when you are a liar, cheat and a thief, that's the closet you can get to actually earning something real like the OSU football team did. Bama put up a great fight. Who was sure they wouldn't score again and tie it? Not me! That game ranks right up there with the best. Get off the stage Drake the Snake. You are usurping the honor from people who do deserve it and who actually work straight up for their honors.

A MUST READ IPWATCHDOG ARTICLE: You may also find the linked IP Watch Dog article enlightening. It further reinforces what AFI has discovered regarding the anti-inventor "America Invests Act" agenda. I don't think most elected representatives have any idea what booby traps to real inventors this Act introduced. It gave the ultimate CLUB to deep-pocket patent infringers.

"If patents inhibit innovation then why don't countries without a patent system have run away innovation? If patents get in the way of innovation why do countries with the strongest patent rights have the most innovation? If patents get in the way of technological advancement then why haven't we seen smartphones stagnate? ...

Bad actors are to blame and the media, public and Congress have been sold a bill of goods by those who want to destroy the patent system in the United States."

<http://www.ipwatchdog.com/2014/10/12/silicon-valleys-anti-patent-propaganda-success-at-what-cost/id=51643/>

discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. (Read Leader's May 20, 2010 motion [here](#).) He also permitted the jury to ignore the Pfaff v. Wells Electronics, Inc. test for on-sale bar, even after instructing the jury to use it. (See [that Jury Instruction No. 4.7 here](#).) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. See his Sep. 14, 2009 Order. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See analysis of Judge Lourie's T. Rowe Price holdings [re. the Facebook IPO](#). Judge Lourie also failed to apply his own law-test in Group One v. Hallmark Cards to the evidence. After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Kimberly A. Moore, U.S.
