### PAY-to-PLAY NEW WORLD ORDER

This timeline shows how insiders sell access & manipulate politicians, police, intelligence, judges and media to keep their secrets

Clintons, Obamas, Summers were paid in cash for outlandish speaking fees and Foundation donations. Sycophant judges, politicians, academics, bureaucrats and media were fed tips to mutual funds tied to insider stocks like Facebook. Risk of public exposure, blackmail, pedophilia, "snuff parties" (ritual child sexual abuse and murder) and Satanism have ensured silence among pay-to-play beneficiaries. The U.S. Patent Office is their toy box from which to steal new ideas.

## NEWS FLASH! JUN. 21, 2015

# TPP CONTAINS SIMILAR SLIPPERY PATENT INFRINGEMENT EXCEPTIONS AS THE SUBSECTION (B) FRAUD EXCEPTION

President Obama has kept the Trans-Pacific Partnership trade agreement drafts secret. Why would a President doing The People's business negotiate such a sweeping deal in secret? Who's pockets is he lining? Clearly, the IBM / Eclipse Foundation / [AllSeen Alliance](#) / Chandler / NSA / Facebook / Accel Partners / JPMorgan / Soros / IDG Cartel.

Thankfully, Wikileaks has published various sections of the draft. [The TPP intellectual property section \(PDF version\)](#) is chock full of gobbledygook legalese that makes this agreement a *playground* for the unscrupulous. Here is just one example:

"Article QQ.E.13 Consistent with [Article QQ.E.5 (Exceptions)], each Party may provide that **a third person may do an act that would otherwise infringe a patent** if the act is done for purposes connected with the collection and submission of data in order to comply with the regulatory requirements of that Party or another country, including for purposes connected with marketing or sanitary approval."

What does this mean? It *exempts* any party to the TPP agreement ([40% of the world's GDP](#) | [PDF version](#)) from respecting the patents of another by simply issuing a *regulatory order* in the infringing country. This means that the U.S. Commerce Department, for example, could issue an order for an American company to violate the patent of a member nation for *any* reason, and visa versa. **This exception alone guts patent law.**

America's Founders believed patents and copyrights were crucial to the American economic engine, so much so that they are the only property rights mentioned in the Constitution ([Article I, Section 8, Clause 7](#)). If we do not respect the intellectual property of others, then they will not respect ours. Take away the motivation to invent and you create a welfare state. This seems to be the objective of the secret drafters. Who are they? Congress doesn't even know.

## TPP IS ANOTHER OBAMACARE DISASTER IN THE MAKING

What is wrong with our elected representatives that they would vote for this sweeping agreement without even reading it? Read it and see all the ways unscrupulous lawyers are being allowed to ruin our Republic. Fact: they work for The People. If they will not do The People's business honestly, ethically (without exempting their lies - see below), then boot them out. It is that simple.

## FIVE CRITICAL AFI POSTS ON JUDICIAL COMPROMISE

Fully updated Mar. 25, 2014 in the wake of the Scribd censorship:

### 1. HOW PATENT JUDGES GROW RICH ON THE BACKS OF AMERICAN INVENTORS

Patent Office filings are shuffled out the USPTO backdoor to crony lawyers, banks and deep-pocket clients.

### 2. WAS CHIEF JUSTICE ROBERTS BLACKMAILED into supporting Obamacare by his ethical compromises in *Leader v. Facebook*?

### 3. JUSTICE ROBERTS MENTORED Facebook Gibson Dunn LLP attorneys.

### 4. JUSTICE ROBERTS HOLDS substantial Facebook financial interests.

### 5. JUDGE LEONARD STARK FAILED to disclose his Facebook financial interests and his reliance on Facebook's Cooley Godward LLP attorneys for his appointment.

## ORIGINAL POST

(JUN. 10, 2015)—On Oct. 11, 1996, Congress passed and Bill Clinton signed the [False Statement Accountability Act](#), 18 USC § 1001. **On the same day**, Congress passed the Economic Espionage Act, authored by Professor James P. Chandler, that has given rise to the current NSA and FISA Court abuses of American privacy.

## BARACK OBAMA'S DARK POOLS OF CORRUPTION

**PERFECT EXAMPLE OF WHY SENATOR RAND PAUL IS RIGHT ABOUT READING LAWS FIRST**

Congress should read laws before passing them. 18 USC § 1001(b) was a Cartel devil dressed up as "accountability."

The False Statement law **gave judges, politicians, lawyers and their clients' permission to lie in judicial proceedings, including federal agencies.** Who is laughing besides the scoundrels who fooled Congress into passing this law?

Now we know why people like Lois Lerner

(IRS), James Clapper (NSA), John Koskinen (IRS), Eric H. Holder, Jr. (DoJ), Todd Y. Park (HealthCare.gov) lied so blatantly in their hearings. They *knew* they were protected by this law, buried in the books.

Subsection (a) is consistent with moral law, well-settled precedent and common sense—**don't lie; tell the truth**

However, Subsection (b) **exempts liars**

What?!

Yes, it is true.

**"Congress . . . chose to exempt from criminal liability certain kinds of lies to the federal government."**

9th Circuit Court Judge Susan P. Graber (2007)(Clinton appointee)

## MORE CARTEL PLOTTING

**NEW: Join No More Lies! campaign**

Our investigation into the genesis of this law revealed a now familiar incestuous group of co-conspirators among IBM, Professor James P. Chandler, David J. Kappos, Eric H. Holder, Jr., The Eclipse Foundation, Facebook, JPMorgan and Goldman Sachs.

### 18 USC § 1001 SUBSECTION (A):

(a) Except as otherwise provided in this section, whoever, in any matter within the jurisdiction of the executive, legislative, or judicial branch of the Government of the United States, knowingly and willfully—

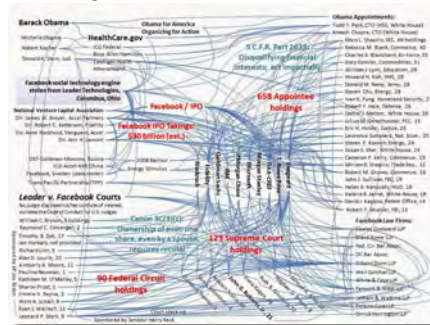

- (1) falsifies, conceals, or covers up by any trick, scheme, or device a material fact;
- (2) makes any materially false, fictitious, or fraudulent statement or representation; or

**FIG.5—CONGRESS MADE LYING TO THE GOVERNMENT AND THE COURTS LEGAL.** On Oct. 11, 1996, Congress passed the euphemistically named False Statements Accountability Act 18 USC § 1001. Subsection (b) of the Act made it legal to lie to courts and government agencies. Few Americans know about this law, but those unscrupulous lawyers who slipped it through Congress use it as their excuse to abuse power and line their pockets. This law must be rescinded with redress to its victims and punishment meted out to its perpetrators.

**CLICK HERE FOR WASHINGTON'S ETHICAL DISEASE DISCOVERIES RE. FACEBOOK "DARK POOLS"**

**STOP FACEBOOK PROPERTY THEFT**

**WILL HUMANKIND EVER LEARN?** Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

**ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!**

**LEADER TECHNOLOGIES**  
Inventor Protection Act  
(Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

- a technology upon which the President and U.S. government now rely;
- a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

*Rescind. Investigate. Sanction. Certify.*

**Contact your representatives. Ask them to pass it.**  
*Real American inventors need your support.*

Click image above to download a poster-quality PDF optimized for a 11in. x 17in. (ledger-size) poster. America should not be in the business of cheating its entrepreneurial investors simply because the cheaters buy off judges with the money gained from their theft. Such permissiveness is obscene.

(3) makes or uses any false writing or document knowing the same to contain any materially false, fictitious, or fraudulent statement or entry;

... shall be fined under this title, imprisoned not more than 5 years or, if the offense involves international or domestic terrorism (as defined in section 2331), imprisoned not more than 8 years, or both.

Subsection (b) was slipped into a law that had been unchanged since 1948. The 1996 revision ballooned from [81](#) to [284](#) words. How many Congresspersons read it before they approved it?

## A REAL LIFE "GET OUT OF JAIL FREE" CARD—SUBSECTION (B):

"(b) Subsection (a) does not apply to a party to a judicial proceeding,\* or that party's counsel, writings or documents submitted by such party or counsel to a judge or magistrate in that proceeding."

\* Judicial proceedings include administrative proceedings in government agencies: SEC, FEC, Commerce, Patent Office, HHS, IRS, DoE, DOD, FOIA, IG, Congress, DoT, etc.

## MARTINI + CORZINE = CARTEL AGENDA

The new law was sponsored by a one-term freshman Congressman from New Jersey, [William J. Martini](#), who magically pushed it through in just seven months.

Martini was subsequently sponsored for a federal judgeship by then Senator Jon S. Corzine, former CEO of Goldman Sachs.

Coincidentally (?), on the same day (Oct. 11, 1996) as the passage of this False Statement Accountability Act, [Professor James P. Chandler](#)

also pushed through the [Economic Espionage Act of 1996](#) (EEA). Chandler's EEA gave birth to the NSA spying on American citizens and its supposed oversight by the FISA Court, where 34,000 rubber stamped NSA requests have been approved and only 12 denied—a 0.03% rejection rate. Chandler agreed to become Leader Technologies' patent attorney in 2000 without disclosing his conflicting EEA agenda to co opt Leader's social networking invention for the NSA and its Wall Street and Silicon Valley cronies. Magically, *both* laws passed without dissent in both the House and Senate.

L/R: Hillary R. Clinton, Jon S. Corzine, William J. Martini. Martini is the author of 18 USC Sec. 1001(b) False Statement Accountability Act of 1996 that permits lawyers, judges and litigants to lie to courts and government agencies with impunity.

### FIG. 6—WHAT ROLE DID HILLARY CLINTON AND THE CLINTON FOUNDATION HAVE IN PUTTING FORWARD THE SUBSECTION (B) "GET OUT OF JAIL FREE" CARD?

# BEN FRANKLIN: TO SACRIFICE LIBERTY FOR SAFETY IS TO DESERVE NEITHER

To put Corzine's involvement in context, Corzine telegraphed his agenda as governor of New Jersey: "Nothing is more important than the safety and security of our citizens . . ." Despite this, he later bankrupted MF Global after losing \$1.2 billion in customer funds. Lesson: Whenever the greedmeisters on Wall Street are concerned about American safety and security, run.

## "DARK POOL" CARTEL CLUB MEMBERSHIP

Corzine's friends included a bevy of Harvard graduates, including Henry Paulson (*Treasury*), Barack Obama, Jamie Dimon (*JPMorgan*), Eric Holder (*Attorney General*), Preetinder Bhararra (*US Attorney, NY*), James W. Breyer (*Accel Partners*) Lloyd Blankfein (*Goldman Sachs*), Lawrence Summers (*Instagram*) and Professor James P. Chandler (*IBM / EEA / Eclipse / NSA*). These individuals were all involved, with numerous other Obama agency heads, in some way or another with the pre-IPO marketing of billions of dollars in [Facebook insider "dark pool" stock](#) using offshore money laundering havens recently exposed by HSBC whistleblower, Hervé Falciani. [See previous post.](#)

While the Facebook "dark pools" were being sold to the likes of [Russian oligarch Alisher Usmanov and Larry Summers' World Bank protégé Yuri Milner](#), Facebook lawyer, Thomas G. Hungar, [Gibson Dunn LLP](#), lied to Leader Technologies and the court in *Leader v. Facebook* that Mark Zuckerberg's 28 computer hard drives and Harvard emails were lost. Magically, however, two days after Leader's appeal was denied by the Federal Circuit court to whom Hungar had lied (Chandler's former law student, Randall R. Rader, presided as chief judge without disclosing his conflict), Zuckerberg's information appeared intact in *Ceglia v. Zuckerberg*.

Even though the Federal Circuit was notified about Gibson Dunn's concealment of Zuckerberg's evidence, they ignored it, as did Chief Justice John G. Roberts, Jr. and the [Supreme Court](#), in clear violation of the law.

See [AFI. \(Apr. 29, 2015\)](#). American public deserves to know what Zuckerberg is hiding. *Americans For Innovation*.

## GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's *Leader v. Facebook* attorney Gibson Dunn LLP. She credits this firm with the reason why not

a single Wall Street banker has gone to jail since 2008. [Click here](#) to read her article "Everybody hates whistleblowers."

[Examiner.com, Apr. 10, 2012](#). Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the *Leader v. Facebook* case, Theodore Ullyot, who appears to have helped lead the *Leader v. Facebook* judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. ### BELIEVE IT: LIES IN COURT ARE LEGAL.

If you still do not believe that the federal law, [18 U.S.C. § 1001\(b\)](#), absolves liars in a court among judges, attorneys and parties, read two affirmations of this law passed by the 9th Circuit Court of Appeals (not surprisingly, located in downtown San Francisco, CA—the proving grounds for the IBM / Eclipse / Facebook Cartel):

“The amended version of 18 U.S.C. § 1001 is unambiguous on its face. Statements made in judicial proceedings are excluded from liability under the statute by subsection (b).” [US v. McNeil](#), 362 F. 3d 570 (9th Cir. 2004) at 574.

“Our only task is to understand what Congress meant when it chose to exempt from criminal liability certain kinds of lies to the federal government. Under 18 U.S.C. § 1001(b), criminal liability does not attach to materially false statements submitted by a party to a judge in a judicial proceeding, even if the party makes the statements knowingly and willfully.” [US v. **NOTE:** Circuit Judge **SUSAN P. GRABER** is common to the *McNeil* and *Horvath* opinions. She actually authored the *Horvath* opinion. This revelation is so disgusting. I would have said there was some exaggeration or misunderstanding here, but after reading the confirmations of this sneaky law by the Circuit Courts, its really there.

I have prepared this cut and paste for our Senators and Congressmens' web forms. Use if you like. We need to get this law amended or repealed immediately. Let's take away these scoundrels' soft landing.

Dear NAME,

Re: Congress sanctioned lying to the courts and government in 1996

As unbelievable as this seems, I have read and reread 18 USC 1001, subsection (b) in context. It really does say that judges, lawyers and parties in "judicial proceedings" are immune from fraud charges for lying.

I ask you to immediately open an investigation, repeal this ridiculous law, and prosecute the people who maliciously foisted it upon our justice system and the American people.

Here's a site that explains the problem better than I can:

Elon Musk's space X company has asked the federal government for permission to begin testing on a project to beam Internet service from space,

Pay Pal Mafia gave the NSA/C.I.A. the keys to the backdoor to our privacy as the quid pro quo. The Pay Pal Mafia bankrolled Zuckerberg to implement the commercial versions of Leader Technologies' invention while the NSA and C.I.A. built backdoors into the code. And Elon Musk knew all about this and knew how facebook was stolen.

Zuckerberg appears to have been a pawn in Chandler's power play on behalf of IBM, the NSA and the C.I.A. (his clients). Abu Mohammed don't click the like button and don't think the NSA or the CIA give a dam just in it for the money and power

3. Two Policy Changes That Will Make America More Democratic (and less contentious), Dec. 21, 2012

## OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

*... our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.*

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

## CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The *Leader v. Facebook* patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S.

" So in summary today, I am just like you. I am a little people. I don't believe in gender, I work hard for my money, I tell the truth about everything, I believe that cops are bad for our cities, I believe that it's our fault that summer is here, I believe in free everything for everybody.....so go forth and , whatever." End of speech .

So it's official pant suits are back, TelePrompTer speeches are a way to remember lies, and people that listen to her sophistry are still idiots.

So after group hugs from her handlers, Hillary asked how much she got paid for that speech. "Nothing ? I got nothing? Why are we here? Let's get on my Lear jet and fly somewhere else so people can hear me say that global warming is our biggest enemy, and corporations cause inequality, and I have female parts "

The Silencing and Censorship of Opinions by Sharyl Attkisson on June 14, 2015

"I recently had the pleasure of interviewing liberal Kirsten Powers for C-SPAN about her new book, *The Silencing: How the Left is Killing Free Speech*, which takes on what she calls the "illiberal left" for using bullying, intimidation and political correctness to silence opinions that differ with their own.

Really, she is criticizing the unAmerican and unconstitutional trend-whether by liberals or conservatives-to censor all opinions with which they disagree.

She has amazing stories of the happenings on college campuses with kids being given "trigger" warnings on books and articles that might offend their sensitivities or give them PTSD by evoking an offensive image, and with college professors going berserk (and even physically attacking) when they see kids making perfectly legal demonstrations on campus but are delivering a message with which the professors disagree."

More Summers dirty secrets hidden in TPP are the patent and copyright landmines. Obama's cartel wants to use executive powers to override US intellectual property protections. They want to be able to waive the obligations of Asian counterfeiters, plagiarists and infringers to compensate writers, musicians, inventors who import to the US. Then, watch the flood of cheap knockoffs and copies of American ingenuity. Besides destroying our labor markets, more cheap goods will destroy our innovators by taking away their ability to make a living, reap the rewards of their creativity, and protect them from these deep-pocket Wall Street predators.

Goldman Sachs tried to hire Tom Hayes (to rig benchmark interest rates) Tom Hayes, a former trader charged with conspiring to rig benchmark interest rates, had become such a powerful player in 2008 that Goldman Sachs tried to hire him with a \$3 million signing-on bonus. In an email exchange shown to the court dated June 24, 2008, former senior UBS manager Sascha Prinz disclosed Goldman's offer to another senior manager Jerker Johansson and asked for approval to offer "one of my most talented young traders in Tokyo" an attractive bonus as an incentive to reject Goldman's "aggressive" pursuit. Each morning at a meeting of UBS's interest-rate-derivatives desk in Tokyo, Mr. Hayes would change his status on his Facebook page to reflect his daily desires for Libor to move up or down, Facebook then added the feature to tag certain friends or groups, (bankers lawyer Shady traders etc.) The ponzi scheme had everything it needed Larry Summers aka Goldman Sachs David Kirkpatrick set up libor manipulation info on facebook

Facebook Inc (NASDAQ:FB) is trying to make sure no other company's name bears resemblance to its own, The Wall Street Journal reported. The news comes after WSJ investigated such claims, and it turns out certain similar-name companies are being slapped with trademark-infringement cases by Facebook. The spokesperson also stated that Designbook's name can confuse consumers with the name Facebook and because of that it needs to be altered. The Wall Street Journal took a look at the documents filed by Facebook at the US Patent Office and found that the social network currently has around 100 recorded trademark legal notices still in proceedings. The spokesperson also stated that the number includes ongoing notices, as well as ones that are over. But the one thing that Facebook forgot to tell is the trademark name Facebook is fucking stolen??.

Facebook was also recently ordered by a Vienna court to respond to a class action data privacy lawsuit that was filed against Facebook in Austria by privacy activist and lawyer Max Schrems, which is seeking damages of €500 (£397) per plaintiff for alleged data protection violations.

## CODE OF CONDUCT FOR U.S. JUDGES

"CANON 2: A JUDGE SHOULD AVOID IMPROPRIETY AND THE APPEARANCE OF IMPROPRIETY IN ALL ACTIVITIES"

## GALLERY OF JUDICIAL MISCONDUCT

**Judge Leonard P. Stark**, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision *without any evidence other than speculation*, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. ([See that Jury Instruction No. 4.7 here.](#)) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (*Editorial*: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Email comment from Ohio:

I received this response from Senator Rob Portman regarding his vote on the NSA bulk data collection. I encouraged him to vote against it:

Dear My Name:

Thank you for contacting me regarding the USA Freedom Act and reforms of the National Security Agency's (NSA) data collection program. I appreciate your taking the time to share your views on this important issue.

As you may know, the Senate recently voted on the USA Freedom Act, which made extensive reforms to NSA surveillance programs, including banning the bulk collection of metadata and imposing new restrictions on the government's authority to acquire and analyze call records. On June 2, 2015, the bill passed by a vote of 67-32. I voted against the bill.

(This paragraph was in BOLD) Members of Congress have a broad array of responsibilities, but above all is the oath we take to defend the Constitution. I believe strongly in defending the United States from all national security threats, but we must also protect the civil liberties that define us as a country. The nature of the terrorist threat has blurred many of the lines of traditional foreign versus domestic information collection. As a result, we must use all the tools at our disposal to defend our country. Our enemies are determined, flexible, and persistent, and we must be as well. However, I remain concerned about the potential for government overreach. Our national security programs should be tailored towards a specific threat and avoid impacting innocent Americans. These surveillance programs must strike the right balance between defending ourselves from national security threats and upholding the civil liberties we all cherish.

I have concerns the USA Freedom Act will make us less effective in stopping terrorism and could put both our privacy and our security at risk by having hundreds of phone companies collect data instead of a small number of professionals with high-level security clearances. I also have concerns that this bill will impact the ability of our national security professionals to respond to threats by limiting the depth and breadth of information available to them. As this law is implemented, we need to ensure we have thorough oversight of its implementation and that we make the transition to these new processes as seamless as possible.

Thanks again for contacting me. I value your opinion and will keep it in mind as I work to protect this nation and the rights of U.S. citizens. For more information, please visit my website at [www.portman.senate.gov](http://www.portman.senate.gov).

Sincerely,  
Rob Portman

Email comment from Ohio:

I received this response from my other Senator Sharrod Brown (D). He agrees with Senator Rob Portman (R). Chalk one up for Ohio and freedom from government illegal invasion of our privacy!

Dear My Name:

Thank you for getting in touch with me regarding the USA Freedom Act and legislation that reaffirms civil liberties protections established under the Fourth Amendment to the United States Constitution.

Recent reports have unveiled classified programs that allowed federal intelligence agencies to collect and analyze data on individuals' phone calls. While the data collected and analyzed was limited and did not include the content of calls, the practice of reviewing Americans' phone records has raised serious questions about the impact of counterterrorism efforts on our privacy and civil liberties.

In response to these concerns, the USA Freedom Act was introduced to limit data collection authorities given to national security agencies under Patriot Act and FISA Amendments Act of 2008. This legislation would end bulk collection of Americans' phone records by the National Security Agency. This bill was passed by the Senate and signed into law by the President on June 2, 2015.

After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

**Judge Kimberly A. Moore**, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

**Judge Evan J. Wallach**, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although

While I fully support efforts to protect our nation, I believe that such efforts must not compromise the very foundation that makes our country great. Protecting our national security is important, but any sort of overbroad surveillance of American citizens is cause for serious concern. American citizens who have done nothing wrong rightfully expect that information relating to their phone calls or e-mails cannot and should not be accessed and stored by the government.

Thank you again for getting in touch with me.

Sincerely,

Sherrod Brown

Email comment by TEX:

It's interesting that the term "lie" as described in the amended law, includes the willful intent to distort or deceive. Why even put them under oath? Why ask a question of a person that can answer any way they want without fear of reprisal or punishment? Why bother? How many times over the last eight years have we experienced obvious lies under oath, yet no one is jailed or even fired?

A civil society that has written and approved codified laws that condone lying is a society hellbent on implosion.....thus the transformation of America of which Mr. Obama spoke of so eloquently. The elite are exempt from truth and honor, while U.S. subhuman drones are subject to telling the truth and following rules/ laws. Go figure.....

Dear Senator/Congressperson NAME,

I would like to bring your attention to an unconscionable law passed in 1996, the False Statement Accountability Act, 18 USC Sec. 1001(b) that sanctions lying to courts and agencies.

Here are two documents explaining the endemic problems it has caused:

Director Mueller, along with Acting Attorney General James B. Attorney General John D. Ashcroft denied his consent to attempts by White House Chief of Staff Andrew Card and White House Counsel Alberto R. The devil is certainly in these details.

For example, read this:

"Article QQ.E.13 Consistent with [Article QQ.E.5 (Exceptions)], each Party may provide that a third person may do an act that would otherwise infringe a patent if the act is done for purposes connected with the collection and submission of data in order to comply with the regulatory requirements of that Party or another country, including for purposes connected with marketing or sanitary approval."

Please know and understand the very First Act of Congress 1789 Oath of Office. they wording of the Preamble/Title was changed for purposes of taking the oath of office. this technically allows them to breach their employment contract the constitution we thought they swear an oath to. The words they are told to repeat "the constitution OF the United States" does not exist anywhere as a title to a document in law or at law. the organic title clearly states "the Constitution FOR the United States OF AMERICA".

The people/settlers were not aware of this as well what Ben Franklin did in the 1783 Definitive Treaty of Peace making the King Arch-Treasurer and Prince Elector of the United States of America. Plus giving the King a share of all the Gold, Silver and Copper found in America. the real power and spoils of war were awarded to the King and his heirs in perpetuity.

Some may ask, are the English still involved in our affairs. I think so, what right does the Queen and her lackeys have to amend and sign Americas documents. Queen Elizabeth controls and has amended U.S. Social Security.

See- S.I. 1997 NO.1778 The Social Security ( United States of America) Order 1997 Made 22nd of July 1997 coming into force 1st September 1997. At the Court at Buckingham Palace the 22nd day of July 1997. Now, therefore Her Majesty an pursuance of section 179 (1) (a) and (2) of the Social Security Administration Act of 1992 and all other powers enabling Her in that behalf, is please, by and with advise of Her privy Council, to order, and it is hereby ordered as follows:

"This Order may be cited as the Social Security (United States of America) Order 1997 and shall come into force on 1st September 1997."

Does this give a new meaning to Federal Judge William Wayne Justice stating in court that he takes his orders from England? This order goes on to redefine words in the Social Security Act and makes some changes in United States Law.

Remember, King George was the "Arch-Treasurer and Prince Elector of the Holy Roman Empire and of the United States of America." Read the Treaty of Peace (1783) 8 U.S. Statutes at Large. Great Britain which is the agent for the Pope, is in charge of the USA 'plantation.'

The truth is always in our face if we seek it.

What people do not know is that the so called Founding Fathers and King George were working hand-n-hand to bring the people of America to their knees, to install a Central Government over them and to bind them to a debt that could not be paid. First off you have to understand that the UNITED STATES is a corporation and that it existed before the Revolutionary war. See *Respublica v. Sweers* 1 Dallas 43. 28 U.S.C. 3002 (15)
