### WIKILEAKS UNCOVERED DIGITAL ELITISTS DRIVEN BY GREED, SMUGNESS & VULGARITY (BUT STILL PAID BY THE U.S. TAXPAYER)

#### LABOR SECRETARY THOMAS E. PEREZ LINKED TO CIA FRONT (STRATFOR), HOLDER, CHANDLER & LEADER IP THEFT—WIKILEAKS-CHANDLER DOCS

Continuing review of [WikiLeaks' Stratfor-CIA documents](#) provides more confirmation of ties between Leader Technologies' treacherous patent attorney, James P. Chandler, Obama's Labor Secretary Thomas E. Perez, and Montgomery County, Maryland officials.

County officials met with Chandler on August 30, 2002, just 11 weeks after Chandler took custody of Leader's source code, and the day after Leader's innovations magically appeared in version 2.0.1 of IBM's Eclipse Foundation source code, on Aug. 29, 2002. See [Hijack Timeline](#).

Chandler's handwritten notes mentioned county executive, Doug Duncan. Duncan was Perez's council boss at the time. Judicial Watch wrote that Perez is "flagrantly racist" and that "Perez and Holder lied to Congress and have instigated a divisive and bitter race war within the DOJ."

More and more divisive Obama nominations tie to Chandler—who appears to be a CIA spy master. See more [WikiLeaks and Judicial Watch evidence](#). A review of [Perez's financial disclosure](#) reveals a now familiar disproportionately high priority on certain Facebook Cartel mutual funds, including Fidelity, TIAA CREF and T. Rowe Price. These funds hold substantial stocks in [Obamacare vendors](#) with whom Perez associated while at the U.S. Department of Health and Human Services. Here is Perez's Stratfor subscription email: Thomas.Perez@da.hhs.gov.

Did Obama direct his agency heads to turn a blind eye to the CIA's theft of technologies to build the "social" Internet with permanent backdoors to spy on Americans? Thanks to Wikileaks, The Baltimore Sun, Judicial Watch and Chandler's own leaked personal notes, Perez is directly implicated

ORIGINAL POST

(JUL. 09, 2015)—On May 29, 2015, AFI first reported whistleblower information about an Aug. 30, 2002 stenographer's notes of a meeting between law Professor James P. Chandler, Leader Technologies intellectual property attorney, and Maryland development officials.

Chandler's intelligence agenda (who is cited in the WikiLeaks documents as well) is further confirmed by newly leaked emails by WikiLeaks from a U.S. government intelligence front, Texas-based Stratfor.

## NEW 7/12/15: CIA-STRATFOR 2007 TARGET FRIENDS LIST

Darryl O'Connor, Stratfor's Chief Operating Officer, monitored a [friends list of more than 340 academics, bureaucrats and bankers.](#)

The bankers feeding at this trough are now familiar Facebook Cartel names: JPMorgan, Morgan Stanley, Citigroup, Wells Fargo, UBS, Bank of America.

### DO YOU REALLY KNOW THESE PEOPLE?

More than 34 mainstream media names appear: NBC, CBS, ABS, FOX, CNN, CNBC, MSNBC, BBC.

Certain large universities dominate this spy list: Texas, Harvard, Georgetown, Stanford, GW, Yale, Ohio State, Washington and Duke.

BM and Microsoft (The Eclipse Foundation) are practically the only tech companies on the list—and they top the list. Tellingly, the University of Texas is #1 (Stratfor managements' alma mater), followed closely by Harvard (full of Obama, Holder, Chandler, Supreme Court cronies).

### POLLUTE POLITICS, ACADEMIA, JUDICIARY AND THE FREE PRESS

Stratfor/CIA's strategy was to pollute the media, academics, judiciary, politics and commerce with disinformation disguised as "independent analysis." Such disinformation was perfected by the Soviet KGB during the Cold War. It is

On Jan. 7, 2011, Stratfor analyst, Sean Noonan, wrote:

"the CIA provided a lot of the initial capital for Facebook."

He also revealed deep non-public knowledge of regulatory activities, writing to fellow Stratfor analysts:

"the SEC is investigating trading of Facebook and Zynga shares on secondary markets. It sounds like they will investigate the GS sale too."

(AFI had received copies of numerous complaints filed at the SEC by friends of Leader Technologies about the Facebook stock activity that failed to disclose the Leader v. Facebook litigation as well as the duplicity of Facebook securities attorney, Fenwick & West LLP, Leader's former attorney.)

The "secondary markets" were the dubious "dark pool" markets that Facebook's underwriters and mutual fund investors employed to sell Facebook's private shares to foreign investors without SEC oversight. They also allowed people to hide investments; people like crony judges in this CIA / IBM / Facebook / Eclipse Foundation Cartel.

Federal judges have glommed on to a dubious "safe harbor concept" that theoretically exempts judges from having to disclose their stock holdings held inside mutual funds—a nonsensical ethical notion (when one actually thinks about it) that Chandler helped push through the Judicial Conference without public debate (so they would be willing to hand down corrupt decisions, like in Leader v. Facebook, Pi-Net v. JPMorgan and Ceglia v. Zuckerberg, when Chandler and Holder instructed them). [See previous post.](#)

"GS" is Goldman Sachs. Stratfor's President, Shea Morenz, is a former Goldman Sachs executive who collaborates closely with Stratfor.

UPDATE MAR. 25, 2014

## FIVE CRITICAL AFI POSTS ON JUDICIAL COMPROMISE

Fully updated Mar. 25, 2014 in the wake of the Scribd censorship:

### 1. HOW PATENT JUDGES GROW RICH ON THE BACKS OF AMERICAN INVENTORS

Patent Office filings are shuffled out the USPTO backdoor to crony lawyers, banks and deep-pocket clients.

### 2. WAS CHIEF JUSTICE ROBERTS BLACKMAILED into supporting Obamacare by his ethical compromises in Leader v. Facebook?

### 3. JUSTICE ROBERTS MENTORED Facebook Gibson

Michael Mooney, Stratfor Systems Administrator, is reported by analyst Sylvia Ganush on [Sep. 2, 2013](#) (p. 14) as saying: "...moral of this story: don't get your information from STRATFOR, unless you like it suitably polluted..."

## SEPARATION OF POWERS & FREE PRESS DESTROYED

Scott Stewart, Stratfor analyst, wrote Michael Mooney on [Feb. 25, 2009](#) describing accessing his State Department email account ([What? Stratfor advertises itself as an independent analyst](#)): "After I get through that [State Department password] I still need to use my normal password to get through the second layer."

lunch"

"Patriot: Very dangerous person"

"Target-Soft: ...drunken congressman looking to get laid"

Why is this unaccountable private contractor targeting members of Congress, disrespecting the Constitution and the Rule of Law, and calling patriotic Americans dangerous?

## NEFARIOUS WEB OF INFORMERS, MONEY-LAUNDERING AND "PSYCHOLOGICAL METHODS"

[Wikileaks' analysis](#) of the five million Stratfor emails stated: "The emails show Stratfor's web of informers, pay-off structure, payment-laundering techniques and psychological methods."

Stratfor's CEO, George Friedman (who resigned after the WikiLeaks revelations; but remains a principle in Stratfor's numerous off-shore money-laundering operations), wrote about their techniques for controlling the behavior of their targets:

Disgraced Stratfor CEO George Friedman: "You have to take control of him. Control means financial, sexual or psychological control."

## COMPLEX OFFSHORE SHARE STRUCTURE FOR BRIBES, MONEY-MAKING AND SELF-FINANCING

In another confirmation of AFI findings, Stratfor organized "a complex offshore share structure . . . designed to make StratCap appear to be legally independent. But confidentially, Friedman told Stratfor staff: "Don't think of StratCap as an outside organization. It was to be nothing more than 'another aspect' of Stratfor life" of secret cash bribes and money-making. [See previous "dark pools" post on institutional bribery](#); See also [Facebook propped up by global money launderers](#).

## KREMLIN OLIGARCHS INVITED TO PLAY

Noonan's email thread was titled "FSB owns your social network?" "FSB" is the Russian secret police, formerly the KGB. Noonan wrote, "Kremlin-owned Russian oligarchs are purchasing all or pieces of Western social networking."

Noonan's Stratfor colleague, Lauren Goodrich, wrote, "Russian oligarchs Alexander Mamut... Alisher Usmanov... & Yuri Milner... have bought shares over the past year in: Facebook, Zynga, Groupon, Twitter, Mail.com, Mail.ru, Headhunter and Livejournal" [Mark Zuckerberg's Oct. 28, 2003 online Harvard diary on the night of "Let the hacking begin" ].

## FACEBOOK GIVES US "THE NAMES OF YOUR FAMILY MEMBERS AND YOUR KNOWN ASSOCIATES"

On [Apr. 23, 2010](#) (before the *Leader v. Facebook* trial, and just one day after Judge Leonard P. Stark appeared at his Senate confirmation hearing, then subsequently replaced veteran judge Joseph Farnan, obviously ordered by Holder and Obama), Stratfor analyst, Fred Burton, wrote,

"This may also drive the privacy nutz and hippies crazy. There is also a [Facebook is] a tremendous intel collection tool for a hostile intelligence agency. One stop shopping to collect whatever I need to know for my [intelligence] dossier on future FSO's (Stratfor employees), case officers and Top Secret govt hacks. I know who was drunk last night, Chip's KA frat brothers, your association of cross dressing, the names of your family members AND your known associates. Our dot.com world has made it very easy for the case officers at the Russians, Cubans, VZ, CIA and MOIS."

The WikiLeaks include a spreadsheet list showing Stratfor's "Lifetime" gift list of 281 people. It includes politicians, bureaucrats, bankers and academics. One name that catches the eye is Joseph Lonsdale.

Dunn LLP attorneys.

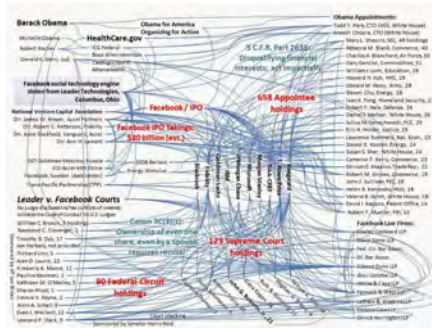

4. **JUSTICE ROBERTS HOLDS** substantial Facebook financial interests.

5. **JUDGE LEONARD STARK FAILED** to disclose his Facebook financial interests and his reliance on Facebook's Cooley Godward LLP attorneys for his appointment.

## STOP FACEBOOK PROPERTY THEFT

WILL HUMANK ND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

## ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

## CIA, JPMORGAN BUDDIES: PETER THIEL, JOSEPH LONSDALE, FACEBOOK & PALANTIR

Lonsdale is a partner of Facebook's director and large investor Peter Thiel starting from their PayPal days in the early 2000's. Together they used their PayPal experience to launch Palantir in 2004—at the same time as the first public EclipseCON 2004 conference, and simultaneously with the launches of Facebook and LinkedIn. [Editor: Just coincidence. LOL.]

(Wait! Zuckerberg's 2005 ConnectU testimony said he invented everything for Facebook by himself just a few months earlier in "one to two weeks." Has anyone in the Facebook Cartel sent Leader Technologies a thank you note? I didn't think so.)

### ONCE YOU DOWNLOAD THEIR APPS, YOUR PERSONAL DATA IS COMPROMISED (SNIGGER)

"They [Thiel and Lonsdale] devised ways to get information about a person's computer, the other people he did business with, and how all this fit into the history of transactions." They "decided to turn PayPal's fraud detection into a business."

Thiel and the CIA's In-Q-Tel funded Palantir. Numerous intelligence agencies including the NSA, CIA, FBI, DIA, and Wall Street banks including JPMorgan, are customers. Palantir operates in secret without oversight or accountability.

### "EVIL THINGS"

Palantir's senior legal adviser filed an amicus curiae (friend of the court) brief supporting the NSA's warrantless surveillance of American citizens. Cyber security expert Christopher Sogholan, said of Palantir's services:

"I think their clients [Palantir's] could be using it for evil things."

Bottom line, the cyber world is being hijacked by the immoral, or at best amoral, likes of Stratfor's personnel and their deep-pocket clients.

The evidence mounts that the CIA, in collaboration with IBM and law Professor James P. Chandler, used The Eclipse Foundation and plotted to steal Leader Technologies social framework invention.

### BOLD LIES BY MISGUIDED REPROBATES

These people appear to be motivated by a misguided morality that sacrifices liberty, privacy and property on the altar of national security.

They learned from Hollywood's contribution to the lie, The Social Network movie, that they could get the masses to believe a "Facebook origins narrative" that replaced the truth of the CIA and IBM origins, and in its place a 19-year old Harvard sophomore willing to lie on cue. They have deployed streams of endless

FIG. 4—JOSEPH LONSDALE, PALANTIR. Former PayPal employee with Peter Thiel, Reid Hoffman (LinkedIn) and Matt Cohler (Instagram).

Lonsdale started Palantir with Thiel in 2004. Lonsdale's history parallels the other members of the Facebook / IBM / Eclipse / Accel Partners Cartel in their exploitation of Leader Technologies' social networking innovations.

The funding for this Cartel came initially from an expansive secret bargain with the CIA and IBM to cede the security and privacy of the unsuspecting public to a ubiquitous spy-state that included the fleecing of public financing markets so that the conspirators could self-fund, without the need for Congressional funds or oversight. The Judiciary has swallowed hook, line and sinker, guided by law Professor James P. Chandler, who brought Leader Technologies' inventions to the cartel via IBM.

## LEADER TECHNOLOGIES Inventor Protection Act (Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

—a technology upon which the President and U.S. government now rely;

—a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

Rescind. Investigate.  
Sanction. Certify.

Contact your representatives. Ask them to pass it.

Real American inventors need your support.

titillation to distract the masses while they consolidated power with the help of the man they put in the White House.

They lured users into their spy-state web behind Leader's quantum-leap-forward technical innovations. That was the carrot.

The stick was the murky world of intelligence with its treacherous history of abuse when it becomes the state itself.

Cartel and the Obama administration plan to seize control of the Internet before this administration leaves office? Seems they do. Blanket NSA metadata collection facilitates that goal since it allows IBM, CIA, Eclipse members, including Facebook, to know everyone's connections and networks, intimately. It also allows them to line their pockets with Ponzi scheme public offerings where their collaborators invest in each others' stock offerings. It also allows the state-spy machine to become privately financed and able to ignore Congressional oversight. Once they know your networks they can control you. The agenda here is utterly immoral, yet packaged in the red, white and blue of national security or protect-our-kids smoke screens.

Email comment by TEX:

A year ago my Ivy- educated , 37 year old , conservative minded son, suggested that I watched too much FOX News and read too many articles about the frightening world events both economically and politically. He thought that I would surely have a stroke. Oh, heaven forbid, that I be informed and care. And now that I cheer loudly for the walking hair comb-over, Donald " community organizer" Trump , my son really thinks that he should take over all family controls. I explained that our current community organizer ( BHO) never built one thing ,or created one job, or faced one tough negotiation, or added one dollar of value to society before we ignorantly elected him our president. Trump has done all of those things , and he did it with his own money, fair and square. He did it not because he is a lucky white guy, but rather because he is smart.....real smart. Trump may not be president or even a nominee, but he will not be distracted from saying what he believes because of "political correctness " nonsense. Donald Trump is a thousand times more qualified to lead a complex , zillion dollar, multifaceted organization than Barack Hussein Obama ( or whatever his name is) ever was.

Will the Donald create controversy? I hope so. He has already forced the wimpy GOP cadre to face the tough issue of living with a no border, lawless country. Of course the political conundrum is that by telling the truth, the illegals that the Dems think should vote , will not vote for Trump. If Obama has his way, we will print absentee ballots for every swinging dipstick in the world. That's six billion people on their side. Is that more than 47% that Romney got eviscerated for stating truthfully? After all , "transformation" should not be exclusively just for us lucky people. And why should we care? Americans are terrible people. We must be held accountable for every bad thing that we have done to everyone throughout our terrible first 250 years. As soon as Michelle gets back from her world tour, and Obama gets off of that big airplane after playing a few rounds of golf with his buddies, and as soon as the White House has one more big celebrity party, we should get on with making the U.S. a more average country. Can you imagine that Trump has the gall to want America , the greatest idea ever conceived , to come back strong?

And oh, do you want a President that makes you gasp because he's truthful and brash, or do want one that lies with impunity and makes you gasp ? And both have bad hair.

Have a great day, TEX

PS. This AFI post is very troubling and frightening. There are too many " coinky dinks" for these happenings and results to be random. The elites have gotten away with lies and deceit for way too long. ....Trump scares these guys to death. He will call them out. Look past Trump's buffoonery and listen to what he says. He's actually very clever and will be fun to watch. =

Help me out.... The Liberals defend sanctuary cities as honorable and necessary. Question. Can my town be a sanctuary city? It's certainly small but we unanimously oppose folks that don't like America. Get out . We are now a sanctuary. How about sanctuary states? Texans love Texas. It you live here and don't want to be free, get out . We are a sanctuary state and want to be free from government central control . We have a sanctuary neighborhood. If you don't like golf, get out. I like this sanctuary thing , whatever sanctuary means.

## OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

**THE GLOBAL INTELLIGENCE FILES**

([//wikileaks.org/the-gifiles.html](http://wikileaks.org/the-gifiles.html))

On Monday February 27th, 2012, WikiLeaks began publishing The Global Intelligence Files, over five million e-mails from the Texas headquartered "global intelligence" company Stratfor. The e-mails date between July 2004 and late December 2011. They reveal the inner workings of a company that fronts as an intelligence publisher, but provides confidential intelligence services to large corporations, such as Bhopal's Dow Chemical Co., Lockheed Martin, Northrop Grumman, Raytheon and government agencies, including the US Department of Homeland Security, the US Marines and the US Defence Intelligence Agency. The emails show Stratfor's web of informers, pay-off structure, payment laundering techniques and psychological methods.
