## DISASTROUS RISE OF A LAWLESS C.I.A.

### PRESIDENTS FROM WASHINGTON TO EISENHOWER FEARED THREATS TO LIBERTY FROM ABUSES OF POWER BY THE MILITARY-INDUSTRIAL COMPLEX

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | JUL. 17, 2015 **UPDATED JUL. 28** | PDF

Secrecy laws are meant to protect the innocent, not shield the guilty. Americans For Innovation.

**UPDATE, JUL. 20, 2015**

### THE C.I.A. IS A CHILD PREDATOR

Secrecy laws are evil when they shield the guilty instead of protect the innocent.

THIS IS A STORY OF CAUSE AND EFFECT: On Jul. 13, 2015, PBS began airing [Web Junkie](#) by Israeli filmmakers Shosh Shlam and Hilla Medalia. They highlighted the health crisis of Internet addiction exploding among Chinese teenagers. China is the first country to formally classify an addiction that American parents know all too well. One boy insisted "Reality is too fake." The C.I.A.—via its hijack of cyber space with The Eclipse Foundation and IBM—is culpable for these predatory practices that lure children online via games, Facebook, Common Core, MOOC and a host of snooping apps. The C.I.A. (In-Q-Tel) has become a digital Pied Piper for the world's children. The C.I.A. and their legal, academic and commercial cronies' secret agenda is to collect our children's demographic data ("Big Data"—"The Cloud"—"Analytics"), store it in "dark profiles," then titillate and manipulate them forever. In short, the C.I.A. and cronies have become child predators on an unprecedented global scale.

ORIGINAL POST

**(JUL. 17, 2015)—U.S. law is clear.**

The mission of the Central Intelligence Agency (C.I.A.) is to collect and analyze information from foreign countries about potential risks to national security. Their job is to pass that information along to U.S. government officials. See [Senate Intelligence library](#).

The C.I.A. has no law enforcement or arrest authority, and can only investigate U.S. citizens suspected of terrorist activity in a foreign country. In short, their job is to gather information outside the U.S. By contrast, the FBI has law enforcement authority inside the U.S. and cannot operate outside the U.S.

**FIG.1—PRESIDENT DWIGHT D. EISENHOWER WARNED OF THE ABUSE OF POWER BY A MILITARY-INDUSTRIAL COMPLEX.** On Jan. 17, 1961, in his farewell address, President Dwight D. Eisenhower warned us about the threat to liberty and the democratic process from unwarranted influences within the "military industrial complex." He should know. He led the world armies in defeating Nazi Germany in World War II. He feared the very military tools he used to defeat global tyranny would become tyrannical themselves in peace time.

## C.I.A. HAS BECOME A SELF-FINANCING SHADOW STATE ANSWERING TO WALL STREET AND HARVARD HUBRIS

However, the C.I.A. is managing, making and investing **billions of dollars** in the private financing of tech companies through its Silicon Valley venture capital company, In-Q-Tel, inside the U.S., protected by a dozen corrupt international law firms which need to be dismantled.

**FIG. 2—COVERT CIA OPERATION.** The C.I.A. formed The Eclipse Foundation with BM in 2001. Is the solar eclipse symbolism coincidental? Death to the American Constitution? Click graphic (Top PDF, Bottom, PNG).

In-Q-Tel's Gilman Louie was appointed to the board of the **National Venture Capital Association (NVCA)** in 2004 when James W. Breyer became NVCA chairman along with Fidelity's Robert Ketterson and Kleiner Perkins' Ted Schlein.

Breyer was and is managing director of Accel Partners LLP, Facebook's largest investor and an uber-Harvard alum. IBM-Eclipse launched **EclipseCON 2004** on Feb. 2-5, 2004. Facebook launched on Feb. 4, 2004. You do the "coincidental" math.

This all happened just a few months after Leader Technologies completed debugging of key elements of its patented invention in Columbus. In 2010, Leader proved that Facebook infringes its patent on all counts, yet the courts protected Facebook, only to learn afterwards that all the judges in the case were invested to the gills in Facebook interests, even Chief Justice John G. Roberts, Jr.

**FIG. 3—JOHN G. ROBERTS, JR.** Holds substantial stocks in Facebook and cronies that he did not disclose before refusing to hear Leader's appeal.  
Photo WaPo

WikiLeaked emails from Austin-based Stratfor confirm that the C.I.A. provided much if not all of the early financing of Facebook. [See previous post.](#)

The evidence is now clear that IBM's Eclipse Foundation, under the C.I.A.'s direction, spawned the "social" tech world, which rose like a Phoenix in 2004 from the ashes of its inadequate client-server technologies after the theft of Columbus-based Leader Technologies' invention of social networking technology.

Using simple geometric logic:

- Lawless means "not governed by or obedient to laws."
- The CIA has no legal authority to operate broadly inside the U.S.
- The CIA is operating broadly inside the U.S.
- **The CIA is operating lawlessly.**

The C.I.A. investments in Facebook, IBM, The Eclipse Foundation are clearly outside its charter since it operates these companies inside the United States.

## C.I.A. IS OPERATING LAWLESSLY

With no charter to operate within U.S. borders, the following facts become unmistakable:

1. Facebook's creation was lawless.
2. Barack Obama's meteoritic rise via Facebook intelligence was lawless.
3. Barack Obama's lawless acts as President are founded on his reliance on a lawless C.I.A. intelligence machine.
4. The Patent Office's Facebook page is lawless.
5. **America's children have been lured into using a lawless CIA-managed social platform to share with their friends. This is lawless and predatory.**
6. American "social" advertising profits are founded on a lawless premise.
7. Silicon Valley's reliance on mobile is fueled by lawless Eclipse Foundation code

On Jan. 17, 1961, President Dwight Eisenhower warned us to:

EISENHOWER, Jan. 17, 1961: "Guard against the acquisition of unwarranted influence, whether sought or unsought, by the military-industrial complex. The potential for the disastrous rise of misplaced power exists. We must never let the weight of this combination endanger our liberties or democratic processes."

On Nov. 15, 2013, WikiLeaks released The Global Intelligence Files—over 5 million emails from the Texas headquartered "global intelligence" company Stratfor. The emails date between July 2004 and December 2011. They reveal the inner workings of a company that fronts as an intelligence publisher, but is in reality an arm of the CIA.

The emails show [Stratfor's convoluted web](#) of informers, pay-off structure, payment laundering techniques and

**FIG. 6--SHEA MORENZ, STRATFOR-CIA.**

Stratfor's documents reveal their exploitation of government insider information to make money. Their former Goldman Sachs Managing Director, Shea Morenz, formed StratCap with other senior Stratfor executives using convoluted off-shore banks to make their trading appear independent.

Stratfor also did secret deals with dozens of media

organizations and journalists, from Reuters to the Kiev Post, which they formally named their "Confederation Partners," but privately called them their "Confed Fuck House." Such relationships destroy all notions of a Free Press and are corrosive to a Republic where separation of powers is a core

## INTERVIEW WITH BUSINESSMAN WHO MET MALCOLM MOOS, AUTHOR OF THE "MILITARY-INDUSTRIAL COMPLEX" PHRASE

**FIG. 4—Eisenhower's Farewell Warning.**

by An AFI Contributing Writer exclusively for this post. 7/17/2015.

It was a real treat one day to have an esteemed university president, [Malcolm Moos](#), address our undergraduate 20th Century American history class.

Our professor wanted us to hear directly from a primary source, and this one was an important historical figure. We were too young and lacked enough historical perspective to truly appreciate how important his message would be.

Malcolm Moos

We were studying the Eisenhower Administration. As Ike was ending his second term as U.S. President in 1961, he asked his speech writer, Malcolm Moos, to focus on major new threats facing our country.

Moos told our class about his insights into what he named the "military-industrial complex." He had lists of retired military officers who had become senior businessmen in the private defense industry. To him, this posed a great threat of undue influence.

This observation was consistent with Ike's experience. One document in Moos' archives (rediscovered in 2010) features a typewritten note from the president lamenting that when he joined the military in 1911, there were 84,000 Army soldiers—a number that had ballooned roughly tenfold by 1960. "The direct result of this continued high level of defense expenditures has been to create a permanent armaments industry of vast proportions, where none had existed before..."

Ike warned us about the "military industrial complex" in his farewell speech on January 17, 1961. It also echoed of Presidents Washington (in his

## STOP FACEBOOK PROPERTY THEFT

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

## STRATFOR-CIA IS THE KGB DEPARTMENT OF DISINFORMATION REVISITED

**FIG. 7—JAMES P. CHANDLER**

Leader Technologies' patent counsel Took custody of Leader's source code, then just 11 weeks later, Leader's innovations appeared en masse in IBM Eclipse Foundation version 2.0.1 on Aug. 29, 2002, the day before he met with Montgomery County, Maryland officials promoting IBM, Eclipse, the CIA and the Patent Office

[See previous posts](#)

During the Cold War, the KGB ran a highly successful "Department of Disinformation" operation in the USA led by Colonel Vasily R. Sitnikov.

Stratfor appears to be plagiarizing Sitnikov's book. Disinformation is the pollution of facts in an effort to steer the target toward desired outcomes. Sitnikov was highly successful at influencing the American media during the Vietnam War.

Today, the movie The Social Network is a good example of Stratfor-CIA disinformation. The evidence is now clear that Mark Zuckerberg did not invent social networking, Michael McKibben and Columbus, OH-based innovator Leader Technologies did.

However, to lure the general public into believing a Big Lie, euphemistically called "a different narrative" about Facebook's origins, the C.I.A. hired Hollywood to exploit the general public's ignorance of computer programming. They spun the yarn that Zuckerberg did it all by himself in less than two weeks. The mainstream media, NBC, ABC, CBS, CNN, FOX played along too. The Stratfor revelations show us why the media supported the false Zuckerberg Harvard narrative—they were in on the deception. They

wanted the Facebook IPO that they were promised as the quid pro quo for their cooperation.

## GEORGE SOROS' GLOBAL SECURITY CHIEF & LABOR SECRETARY TOM PEREZ PLAYED ALONG

**FIG. 8—BARACK H. OBAMA, THOMAS E. PEREZ, LABOR SECRETARY.** Did Obama direct his agency heads to turn a blind eye to the CIA's theft of technologies to build the "social" Internet with permanent backdoors to spy on Americans? The [Stratfor 2007 subscriber mail lists](#) (spreadsheet files attached to PDF) unearthed by WikiLeaks was prepared more than a year before the so-called 2008 banking crisis. That "crisis" now appears nothing more than a cleverly packaged and intentional C.I.A. smokescreen to confuse the unsuspecting and seize digital controls globally. **Never mind that billions of human beings on the planet were damaged.**

George Soros' security chief, Paul Genzburg, was more than a subscriber to Stratfor.

**FIG. 9—PAUL GENZBURG.** George Soros' longtime global security chief. After Soros he went to work for the Ziff Brothers, also a Stratfor-CIA client.

On Oct. 13, 2009, Genzburg wrote Stratfor's Fred Burton:

"Hey Fred [Burton], I've got a question for you. I'm gonna do some work for the John Pritzker family in SF. Could be mutually productive, if you catch my drift..."

On Oct. 30, 2009, Genzburg wrote Burton:

"I've mooched too much off you guys so please bill me."

Farewell Address) and Jefferson (in his inauguration speech) about the threat of our country becoming involved in entangling alliances abroad.

Moos' threat is certainly even more of a concern today. With the insights we now have from Wikileaks and AFI, it is clear that this undue influence has mushroomed, and continues to pose a both a military major threat and a threat to our rights as citizens.

Revealing the details of these threats is one important step. The next steps in combating the abuses of power and putting into motion corrective actions are critical for the well-being every citizen of our republic.

## LEADER TECHNOLOGIES Inventor Protection Act (Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

—a technology upon which the President and U.S. government now rely;

—a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

## C.I.A. "NATIONAL SECURITY" PROTECTIVE BLANKET FOR CRONIES

With such corrupting relationships, and with the most powerful intelligence organization on the planet behind you to throw a national security blanket over your misconduct, is it any wonder why Washington cannot get anything done?

Notably, Perez worked for the county council in Montgomery County, Maryland at the time that Leader Technologies' patent attorney, Professor James P. Chandler, pitched the county on behalf of IBM, the CIA and Patent Office.

Just eleven weeks earlier, Chandler had taken custody of Leader's invention source code, ostensibly for escrow "safekeeping." However, magically, Leader's key innovations all appeared in the next version 2.0.1 of IBM's Eclipse Foundation source code—one day before Chandler met with Montgomery County officials. [See previous post](#).

## INVESTING FOREKNOWLEDGE IS FRAUD, NOT GENIUS; C.I.A. CAN EASILY MANIPULATE MARKETS FOR THE BENEFIT OF CRONIES

Both Soros and his hedge fund understudy and Facebook director, Peter Thiel, Clarium Capital, profited from the 2008 banking crisis.

The Stratfor disclosures show that Soros and Thiel use their CIA insider information to manipulate markets. Stating the obvious: it's easy to buy low and sell high when your Stratfor cronies are fabricating the news upon which you trade. Such foreknowledge is fraud, not genius. [See Bloomberg, Jul. 31, 2008](#).

## CERBERUS—THE FAST & FURIOUS GUN RUNNER—ANOTHER CIA OPERATION GONE WRONG?

Cerberus is also a Stratfor subscriber. Cerberus is the company whose AR-15 rifles murdered U.S. Agent Brian Terry in Eric Holder's bungled Fast & Furious operation (still stonewalled by the Justice Department). JPMorgan is Cerberus' banker. [See previous post](#).

The circle of wagons in these deceptions is tightening.

## BANKERS, ACADEMIA & TECH FED AT THE STRATFOR-CIA DISINFORMATION TROUGH

[According to WikiLeaks Stratfor emails](#), bankers represent the largest Stratfor subscriber sector. UBS alone had 45 unique person-subscriptions (subscribers to multiple lists were only counted once), followed by Morgan Stanley 34, Citigroup 21, JPMorgan 20 and Smith Barney 15. Borrowing from Genzburg: "if you catch my drift..."

By comparison the US Army dominated the government sector with 101, followed by the Air Force with 22, Department of Justice 16 and Navy 14.

Academia is dominated by the University of Texas with 37 (Stratfor's backyard), followed by Harvard 26, then Yale 19.

**FIG. 10—PENNY S. PRITZKER**, billionaire heiress, was appointed Secretary of the Department of Commerce by President Obama on Jun. 26, 2013. [Pritzker disclosed that she holds 30 Facebook interests valued at up to \\$23.4 million](#). Despite this massive conflict of interest by Pritzker and other senior Commerce staff, they are attempting to disrupt Columbus innovator Leader Technologies' relationship to a key supplier using regulatory threats and harassment. Pritzker's ethics pledge dictates that even holdings of one share in a party coming before her regulatory body is enough to disqualify her, her officials or her administrative judges, like Leader v. Facebook patent judge Stephen C. Siu. Photo: Stand Up America.

## REVERSE THE CORRUPTION OF THE AMERICAN REPUBLIC BY A LAWLESS C.I.A. AND ITS MILITARY-INDUSTRIAL CRONIES

The "disastrous rise of misplaced power" that President Eisenhower's feared is upon us.

Reversal of this corrosion is our only option if we wish to redeem our Republic.

Email comment by TEX:

America was the best idea that the world ever conceived as a way for citizens to live with one another safely and freely. The Founders not only saw the new world as an opportunity to extricate itself from England, but they also spent thousands of hours studying the greatest minds before them ( Locke, Blackstone, Cicero, Plutarch ) to ensure minimum federal intrusion and maximum ability for the individual to achieve his dreams. The United " States" was brilliantly designed for the citizens to vote with their feet. If a man and family wanted to explore, there was plenty of land out west. If they wanted to live among Catholics, Maryland was their place. If they wanted to share Puritan values, they moved to Massachusetts. The entire Constitution, Bill of Rights, and Amendments were written to limit government. The Founders were , indeed, cognizant of the failures of the nations before them that imploded because of " power and greed" of their political sycophants.

Of course America was a country of immigrants. It started with a few settlers that went toe to toe with the natives that had previously established their own faith and traditions, most of which were not acceptable to the new migrants from Europe. The settlers not only fought the Indians, they fought among themselves and then with the British rulers. Americans were used to fighting, literally fighting, for their beliefs. Through the next 200 years , Americans proved to be the toughest and smartest fighters on the planet. They not only fought for their rights and beliefs, but also fought and died for other humans that wanted to be free. In retrospect, these attempts to help others caused more harm than good.

---START, TEX Part II---

So how did this country lose its will to fight for freedom and liberty? What happened that we so cavalierly eschew our Constitution , borders, laws, family lifestyles, and faith ? In my opinion, it has been creeping year to year until it finally became so overwhelming that it now looks impossible to avert the inevitable collapse. Of course history is replete with failed empire after failed empire. All became "government top heavy", all had massive moral and integrity collapses, and all tried to tax and spend their way out of their death spirals. None were successful and we will not be either.

The incredible inculcation of the various behemoth government agencies into our personal lives, the lack of probity in their explanations when cornered, the massive linkage of agendas between the elitists, makes it seem unstoppable. The fear to say words ( too PC), the attempt to take our source of personal protection ( guns), the need to have someone black or someone with female parts despite their lack of preparedness to govern , and so on and so on, is so ignorant at this stage in our collapse. We need honest, outspoken, unafraid, and prepared leaders. It would be great if a leader was a minority of race or gender, but not a minority of truth and honesty . This next election can not be to simply to set another " first". It has to be about leadership and preparedness. It has to be a person not entrenched in one party or the other.

This AFI blog, although not a hugely followed media enterprise, has discovered the lifeline of the progressive, new socialism. It has pointed out the obvious and interconnected formula.....social networking and mind control. The fascinating piece of their nefarious intentions is the fact that , under their agenda, the print and network news media must die a certain death and these lemmings don't see it. Most folks in our country get their news and ideas from the new kids on the block, not the NY Times, NBC, CBS, or Washington Post. Wake up boys, you are goners ,too. Just watch the response of Obama, Holder, Lerner, the San Francisco city council, and of course Hillary, when one of these dinosaurs asks a legitimate news question. Major Garrett of CBS got spanghewed by Obama when he asked about why the Iran deal did not include the prisoners being held by Iran because they are Christians. It is so obvious that they must stamp out legitimate challenges. The others can be cast as "crazies" but the public won't accept that all media is crazy. They must comport or the progressive transformation mission will fail.

America is an idea. There are lots of beautiful rocks and dirt and mountains on other continents. If we forget this notion, we , too, will be in the dust bin of former greats. If you want to keep your country, you had best get involved. The best place to start is to unravel their control in social media .

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

Hi TEX,

We know for sure that the AFI following includes federal judges and at least two international Cartel law firms! How do we know?

In court filings, JPMorgan's Skadden Arps LLP law firm complained to the Federal Circuit in Pi-Net v. JPMorgan (Dr. Lakshmi Arunachalam SOA patents) about AFI publicizing their financial and relationship conflicts of interest. They accused Dr. Arunachalam of publishing AFI.

In court filings, Facebook's Gibson Dunn LLP law firm in Paul Ceglia v. Mark Zuckerberg complained to the Federal District Court of Southern New York (Judge Vernon Broderick) about AFI publicizing the attorney and judge financial and relationship conflicts of interest. They accused Paul Ceglia and his attorneys of publishing AFI.

In court filings, Patent Office Judge Brian J. McNamara complained about AFI publicizing his JPMorgan, SAP, Microsoft, Wells Fargo, Citigroup, etc. financial holdings in SAP's reexamination of Dr. Lakshmi Arunachalam's SOA patents. He did not like AFI labeling this conduct corrupt. McNamara took great offense at the hazardous waste warning symbol superimposed on his photo. He tried to spin it into a threat. He consumed a whole, long paragraph in his opinion to describe the skull and crossbones part of the international yellow triangle while failing to describe the word "Attorney" warning right below the crossbones on the sign. LOL. He accused Dr. Arunachalam of publishing AFI.

Notice a pattern of accusation in their complaints? They don't think anyone else besides their victims is paying attention to their corruption.

So, some of the right (corrupt) people are reading AFI anyway! Perhaps they will heed your pithy warnings and repent. We only need one good whistleblower. It could even be a junior clerk who has been taking good notes and making copies of important evidence of the wrongdoing they are witnessing.

David Kirkpatrick in an email said he was going to meet Mr. Hayes in London, and he did, Hayes handed over a UBS 'instruction manual' to David Kirkpatrick but didn't not say what happen at the meeting, but David Kirkpatrick and Henry Blogget knew about libor fixing and knew what he had in his hands was a Gold mine, and it didn't take long for Harvard's Larry Summers to get his hands on this Gold mine, Goldman Sachs got there hands on this Gold mine, Libor - the London interbank offered rate - is calculated from submissions made daily by certain "panel" banks, in 2008 Goldman Sachs tried to hire Tom Hayes with a \$3 million signing-on bonus, Facebook then added the feature to tag certain friends or groups, (bankers lawyer Shady traders etc.) The ponzi scheme had everything it needed Larry Summers aka Goldman Sachs David Kirkpatrick helped set up libor manipulation info on facebook and they all knew facebook was stolen?? zuckerberg was just a puppet. this scam was back up by NSA the collection metadata facilitates that goal since it allows IBM, CIA, Eclipse members, and Facebook, to know everyone's connections and networks, intimately. It also allows them to line their pockets with Ponzi scheme scams rip-off and public offerings where their collaborators invest in each others' stock offerings, Spying on the World to make Money??

WE GOT SWINDLED buy politicians in 1999 Lawrence Summers and Rubin passed the Gramm Leach Bliley Act

You are right on Dave123.

According to September 10, 2009 Senate Testimony (a really big pile of total SEC BS and excuse-making for dropping the ball) on how the SEC "missed"

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

Email comment by TEX:

Old TEX is evolving. Our socialist, passivist, ill prepared, cowardly, and very nosy government is on to something. I have analyzed the actions of these arrogant wimps and see where they want us to be. Here's my analysis.

- 1) our allies are truly our enemies. We can have too many friends.
- 2) no guns will mean no crimes. Peace comes from group hugs.
- 3) contribution does not matter, because all of us should enjoy outcome equally
- 4) Christianity and capitalism are major causes of inequality.
- 5) Iran , with a big bomb, is good for peace and prosperity. Why should we worry about looney tune mullahs that want their people to die while killing all infidels ?
- 6) the answer to crumbling neighborhoods with crime, drugs, and lack of hope is to let kids burn down drugstores and schools
- 7) even though a baby fetus is not a real person to Planned Parenthood, the tissue and small organs are alive and valuable. We fund over \$500 million a year to these loving folks to kill babies and sell parts so that they can have a nice income and big homes.
- 8) lying and deceiving is allowed but telling the truth is hurtful and not politically acceptable.
- 9) borders are mean spirited . So a few of those people kill our kids. So what?
- 10) the word sanctuary means freedom from responsibility and repercussions. Criminals are people, too.
- 11) the First Lady has a total expense allowance for vacations that has three commas, and nine 0's
- 12) climate change causes all of the above.
- 13) the only way to stop spending is to spend more. Debt is good. The more the better.
- 14) marijuana is a solution to knowing too much and knowledge is troublesome. Our president has a love of that way to relax. It helped him figure everything out.
- 15) taking air out of a football gets more attention from Congress than crazy Muslim kids shooting up a military base or a recruiting office.
- 16) Bruce Jenner is called heroic while police officers are thought to be destroying our society. Anyone in a uniform is a problem. They deserve to be shot.
- 17) family is old fashioned.....too many restrictions.
- 18) a desire for personal privacy is so selfish. Only the elites can hide stuff like college transcripts.
- 19) history is what we want it to be , not what really happened. A teachers agenda is more important than patriotism, freedom, and a civil society.
- 20) And finally, my "white skin " needs to be taxed. White people are the bane of America. White privilege is really hateful .

Now I see why that NAACP black face painted, lying white girl in Seattle and that lying Elizabeth Warren , the alleged Indian princess, wanted to shed the white thing and go rogue. I see why Al Sharpton feels that he is above paying \$ 4.5 million in back taxes. I see why Obama will not talk about his 50% white privilege. Since white women ( Hillary) have been picked on by white guys, I see why Bruce Jenner did his / her thing. And I see why Dr Carson , who refuses to buy into that agenda, is despised by the progressives. It is starting to make sense.

Yep, I , like all progressive liars , am evolving. Thank goodness evolution is more about elites controlling the herd and not about real adjustments to the challenges of herd survival which puts the elites in the same category as the rest of you sheeple . Just remember, progressives have one common characteristic.....change everything that is "America " and call it transformation .

discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the Pfaff v. Wells Electronics, Inc. test for on-sale bar, even after instructing the jury to use it. (See [that Jury Instruction No. 4.7 here.](#)) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

**Judge Alan D. Lourie**, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See [analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO](#).

Judge Lourie also failed to apply his own law-test in *Group One v. Hallmark Cards* to the evidence. After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

**Judge Kimberly A. Moore**, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook.

NEWS FLASH - Richter, G. (Jul. 22, 2015). Judicial Watch: Donor Lists Were Used by IRS to Target Audits

Judicial Watch says it has obtained documents that show Internal Revenue Service employees used donor lists from conservative non-profit groups to target people for audits.

The group obtained the documents in a Freedom of Information Act request as part of a lawsuit against the IRS.

The records show how the U.S. Chamber of Commerce was targeted for possible "high scrutiny," Judicial Watch said.

"These documents that we had to force out of the IRS prove that the agency used donor lists to audit supporters of organizations engaged in First Amendment-protected lawful political speech," said Judicial Watch President Tom Fitton.

In a 2011 article by Matt Taibbi in Rolling Stone, former SEC employees were interviewed and commented negatively on the SEC's Office of the Inspector General (OIG). Going to the OIG was "well-known to be a career-killer". And after you have closed a MUI that has not become an investigation you should "dispose" of any documents in connection with the MUL. The SEC has been accused of missing numerous red flags and ignoring tips on Madoff's alleged fraud, SEC Assistant Director of the Office of Compliance Investigations Eric Swanson had met Madoff's niece, Shana Madoff, when Swanson was conducting an SEC examination of whether Bernard Madoff was running a Ponzi scheme because she was the firm's compliance attorney. The investigation was closed, and Swanson subsequently left the SEC, and married Shana Madoff.

SEC has been accused of missing numerous red flags and ignoring tips not just on Madoff's. A similar failure occurred in the case of Allen Stanford, who sold fake certificates of deposit to tens of thousands of people, many of them working-class retirees. In 1997, the SEC's own examiners spotted the fraud and warned about it. But the Enforcement division would not pursue Stanford, despite repeated warnings by SEC examiners over the years. After the Madoff fraud emerged, the SEC finally took action against Stanford in 2009. Kotz violated ethics rules by overseeing probes that involved people with whom he had conflicts of interest due to "personal relationships. then you got SEC employees who receive improper gifts or other favors from financial companies

According to former SEC employee and whistleblower Darcy Flynn, also reported by Taibbi, the agency routinely "destroyed thousands" of documents related to preliminary investigations of alleged crimes committed by Deutsche Bank, Goldman Sachs, Lehman Brothers, SAC Capital, and other financial companies involved in the Great Recession. In June 2010, the SEC settled a wrongful termination lawsuit with former SEC enforcement lawyer Gary J. Aguirre, who was terminated in September 2005 following his attempt to subpoena Wall Street figure John J. Mack in an insider trading case involving hedge fund Pequot Capital Management; The Securities and Exchange Commission knew of the impending 2008 financial crash but did nothing to stop it, and Securities and Exchange Commission conducted no major investigation of the banks during the bubble. In October 7, 2008, 146 people were cut from the SEC Enforcement Division. Under the law, investigative records must be kept for 25 years, the Destruction of documents

The debate boils down to this: What does an investigative record mean to Congress? And the courts? Under the law, those investigative records must be kept for 25 years. But federal officials say no judge has ruled that papers related to early-stage SEC inquiries are investigative records. The SEC's inspector general says he's conducting a thorough investigation into the allegations. Nov. 29, 2015 was set as a MEANINGLESS DATE. Some analysts will continue to get access after that date. So that date is no date. Then, they say nothing can be destroyed until all litigation is resolved. Interesting that they are all big on following evidence laws when they want to, but destroy Hillary Clinton's and Lois Lerner's emails while Congressional inquiries are occurring.

Given the breadth of this abuse of privacy and property by the NSA, the litigation will likely be ongoing for a decade or more. And of course, backdoors for "special" Cartel analysts, and off-shore copies of the data will allow the bad boys to keep dipping into it forever. It's all safely stored in the NSA/Facebook "dark profile" stash somewhere off-shore. This data is gold to the unscrupulous. They're not going to destroy it, no matter how many slick press releases they issue and get their lemmings at Newsweek to publish.

Conclusion: This NSA data will never go away. So much for the "NSA to Destroy Data..." public relations pablum.

Dear Rain. Your comment confirms the revelations of this THE INTERCEPT investigation. The C.I.A. / NSA is indeed operating without a moral compass.

"AMERICAN AND BRITISH spies hacked into the internal computer network of the largest manufacturer of SIM cards in the world, stealing encryption keys used to protect the privacy of cellphone communications across the globe, according to top-secret documents provided to The Intercept by National Security Agency whistleblower Edward Snowden."

On January 17, 2014, President Barack Obama lied to the American people in

to disclose his conflicting relationships with a Leader principle with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. Chandler. [See analysis of Judge Rader's undisclosed conflicts of interest in Leader v. Facebook.](#) Judge Rader also did not stop his judges from creating new arguments and evidence for Facebook in the secrecy of chambers—after they had debunked all of Facebook's evidence on appeal, which is a clear breach of constitutional due process.

his address on the NSA spying scandal exposed by Edward Snowden. Obama said: "The bottom line is that people around the world, regardless of their nationality, should know that the United States is not spying on ordinary people who don't threaten our national security and that we take their privacy concerns into account in our policies and procedures."

In reality, the leaked top-secret NSA/British intelligence document described an operation called "Highland Fling" which data mined the email accounts of French and Polish employees of Gemalto, a major SIM manufacturer.

They had no probable cause to suspect these individuals other than a HUNCH that information gathered MIGHT lead to something useful. An ACLU analyst said, "These people were specifically hunted and targeted by intelligence agencies, not because they did anything wrong, but because they could be used."

These people are indeed lawless.

Who are these people we've let lose in the bowels of our government? CIA child predators. NSA stalkers. Planned Parenthood baby-parts traffickers. I just received this message from my Senator:

Dr. Nucatola discussed how organs were preserved during the abortion process with an eye towards later sale:

"We've been very good at getting heart, lung, liver, because we know that, 'I'm not gonna crush that part, I'm gonna basically crush below, I'm gonna crush above, and I'm gonna see if I can get it all intact.'"

These people sound hauntingly similar to the likes of Josef Mengele, Hitler's "Angel of Death." He experimented on Auschwitz death camp prisoners, including babies -- since they were just "tissue" and not human beings.

Isn't this the inevitable result when you give money and power to amoral and immoral people? Where are the checks and balances we were supposed to have to stop people like these from gaining power and influence? I forgot. The fox is guarding the hen house. They let them in the back door.
