WASHINGTON IS AN INFERNO OF CORRUPTION

C.I.A. HARVESTS SOCIAL MEDIA, SELF-FUNDS TENS OF BILLIONS OF DOLLARS FOR PAYOLA; THEN FEEDS THE DATA TO WALL STREET AND SILICON VALLEY CRONIES

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | JUL. 30, 2015 UPDATED AUG. 02 | PDF

Secrecy laws are meant to protect the innocent, not shield the guilty.

BREAKING NEWS: On Jul. 28, 2015, former Democratic President Jimmy Carter admitted Washington, D.C. is overrun by "unlimited" cartel bribery. [Click here for video coverage.](#)

ORIGINAL POST

(JUL. 30, 2015)—Whistleblowers have confirmed that the C.I.A. secretly funded the meteoric rise of social media in 2004 using social networking inventions stolen from Columbus, Ohio innovator Leader Technologies.

The conduits for this theft were: (1) IBM via (2) THE ECLIPSE FOUNDATION, IBM's then inside counsel (3) DAVID J. KAPPOS (later

Obama's Patent Office director), Leader's patent attorney, former George Washington University Law Professor (4) JAMES P. CHANDLER, and (5) ERIC H. HOLDER, JR. (later Obama's Attorney General).

On Jan. 17, 1961, in his farewell address ([view actual 1961 TV broadcast clips](#)), President Dwight D. ANY TECHNOLOGY STOLEN BY A LAWLESS C.I.A. IS ITSELF LAWLESS

The C.I.A., Eclipse, Kappos, Holder and Chandler formed The Eclipse Foundation on Nov. 29, 2001 as the stealth vehicle by which they would claim IBM copyright ownership of Leader's ideas, then release Leader's invention as "Open Source." [See previous post.](#)

Bottom line, social media has a wholly lawless foundation. The C.I.A.'s cronies in Silicon Valley and Wall Street are doubling down on this corruption in an evident attempt to conceal the dirty secrets about their origins. They are stonewalling and trying to shout down truth tellers.

This Cartel is speeding up its data-control activity while Obama is still in office. For example:

- IBM's "The Internet of Things" promotion has cranked up.
- Xerox has come out of the woodwork.
- Microsoft just released Windows 10—free (apparently stealing and selling user data is more lucrative than selling software, despite their pabulum about piracy).
- Promotion of "the Cloud" is everywhere.
- Common Core is being shoved down the States' throats.
- Massive Open Online Courses (MOOC) is being implemented in universities across the country.
- Net Neutrality is law, for now.
- HealthCare.gov is advertising extensively for new targets.
- Under his "Datapalooza" program, Obama's chief technology officer, Todd Y. Park, released mountains of research "big data" on individual Americans out of government data stores, much of it healthcare related. (Park took his company, Castlight Health, public during that time with nary a word from the S.E.C. about that glaring conflict of interest.)
- The federal government allowed over 22 million detailed federal employment portfolios to be hacked.
- AFI has been warning about this disturbing pattern for years. Now, it is finally becoming obvious to all. **Seemingly random, misguided or incompetent Presidential activities, and those of his agency heads, suddenly fit together once one understands the true agenda. They were not fired because as true believers they were only following the Cartel orders.**

tyrannical themselves in peace time.

Today, the C.I.A. has abused secrecy to amass unwarranted power and wealth, just as President Eisenhower feared.

HIS TASKING: RUN INTERFERENCE FOR THE C.I.A. AND DIGITAL CRONIES

FIG. 2—BARACK H. OBAMA.
He has been providing executive and regulatory cover for a totalitarian liberal plan involving the C.I.A., George Soros, Wall Street and Silicon Valley to "fundamentally transform America" by insuring that digital cronies take control of America's underlying digital infrastructure. Then, by manipulating the daily messages, those who control the bits and bytes, control the masses (in their minds anyway). [See Fig. 7 below for more.](#)

THE UNHOLY GRAIL: "DARK PROFILES" ON EVERY CITIZEN IN AMERICA AND ON THE PLANET

All these developments serve one goal: to populate the "dark profiles" of the Facebook-CIA Cartel so that citizens can be digitally manipulated for decades.

The Eclipse Foundation gave away Leader's invention by re-labeling it with an IBM copyright and giving it away as their "Open Source" Eclipse IDE (Interface Development Environment) starting with Version 1.0 in Nov. 2001.

Leader fully debugged a key module on Oct. 28, 2003. Coincidentally, that is the same night that Mark Zuckerberg hacked into the dormitory computers at Harvard to steal student photos.

FIG. 7— CONTACTING THE CONGRESS. Almost all of the Congressional websites for Representatives and Senators are **100% monitored by the C.I.A. Cartel**—in direct violation of the C.I.A.'s mandate not to operate within the borders of the U.S., except in narrow terrorism matters. Are America's elected representatives now C.I.A. terror suspects? Perhaps on the Cartel's planet. Who knows?

The Cartel justifies hiding their illegal activity behind a veil of secrecy. Senate and House oversight is nonsensical since those same people are invested in the Cartel's mutual fund cronies (hush money), especially Vanguard, Fidelity, UBS, JPMorgan, Morgan Stanley, Goldman Sachs, Wells Fargo and T. Rowe Price. Something has gone horrible wrong. Eisenhower's fears were justified.

The following social services are directed in one way or another by the C.I.A. Cartel:

On Nov. 29, 2001, the C.I.A., IBM and Professor James P. Chandler (author of the Economic Espionage Act of 1996; and both IBM and Leader Technologies intellectual property counsel) formed The Eclipse Foundation as the vehicle to steel Leader Technologies' social networking inventions and feed them to friends and rivals alike as "Open Source" (after claiming IBM copyrights on the innovations). Their free Eclipse

IDE (Interface Development Environment) has become the spy-state development tool of choice for MOBILE DEVICE SOFTWARE (Android, Apple iOS, Blackberry). It enables C.I.A. backdoors to everything social.

BUMPER STICKER: Stop Facebook Property Theft.
www.fbcoverup.com

WILL HUMANKIND EVER LEARN: Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

LEADER TECHNOLOGIES Inventor Protection Act (Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

—a technology upon which the President and U.S. government now rely;

—a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

*Rescind. Investigate.

Contact your representatives. Ask them to pass it.

Real American inventors need your support.

... 100% MONITORED BY THE C.I.A. CARTEL?

FIG. 8—Constituent feedback to the U.S. Congress is essentially 100% monitored by the C.I.A. Cartel that includes Facebook, Instagram, Google, YouTube, Twitter and Storify (Livefyre)—all IBM Eclipse Foundation Members, also funded by the C.I.A. The C.I.A. has no charter to operate broadly within the United States by design. This abuse of intelligence power is frightening. A secret American C.I.A. intelligence state is being excused at every turn under the umbrella of "national security."

CONGRESSIONAL DECEPTION: THE ILLUSION OF FEEDBACK DIVERSITY

Americans are given the illusion of a diversity of feedback options, when in reality, 100% of the Congressional feedback data is [fed straight to the C.I.A. shadow state](#) and their commercial cronies for permanent storage in "dark profiles" on every citizen in America.

THE C.I.A. SHADOW STATE KNOWS ALL (THEY AREN'T EVEN SUPPOSED TO OPERATE INSIDE THE UNITED STATES—BY CHARTER)

Are you comfortable with an un-elected, self-appointed, Harvard-hubris dominated shadow state called the C.I.A.—an intelligence agency that doesn't even have a charter to operate inside U.S. borders—owning and managing every morsel of digital data about you?

Are you comfortable with the C.I.A.—a proven child predator—owning and managing every morsel of education data about your child (Common Core, MOOC)?

Perhaps not since J. Edgar Hoover's reign of terror at the F.B.I. have we seen this level of intelligence misconduct in American life.

IN-Q-TEL—PRIVATELY FUNDED C.I.A. INTELLIGENCE—ADOLF HITLER WOULD BE JEALOUS

The difference this time is that the C.I.A. was somehow permitted to set up a PRIVATE venture capital arm, [In-Q-Tel](#). This private company funds technology deals that generate tens of billion of dollars in revenue that the C.I.A. plows back into building its castle walls higher and more impenetrable. How would we know? It's all hidden behind "national secrets" smoke and mirrors. The spy-state is very evidently running America now. Congress is being toyed with and is just along for the ride?

National security has become the catch-all excuse to hide all these activities from public scrutiny.

President Obama is currently in Kenya lecturing the Kenyans to be less corrupt. This is the pot calling the kettle black given the level of corruption that his administration unleashed through his cronies at the C.I.A., led by his Harvard legal mentor, Professor James P. Chandler.

WHAT'S THE SOLUTION?

1. Defund, dismantle and prosecute the scoundrels with a real Attorney General, not the Cartel crony currently sitting in that chair; she's just following taskmaster orders.

IBM / C.I.A. ON THE MOVE

FIG. 9—On Mar. 31, 2015, IBM announced it would spend \$3 billion to push The Eclipse Foundation's "The Internet of Things" to which Facebook is a prime beneficiary.

This will perfect their hold on the embedded infrastructure of the Internet before Obama leaves office. IBM sold 750 "junk" patents to Facebook two months before the Facebook IPO and is Chandler's client. Chandler and former IBMer David J. Kappos launched IBM as the mother of all "patent trolls" in the late 1990's. It's no surprise that Obama appointed Kappos director of the Patent Office in 2009. Chandler looms large in Obama's hidden agenda.

Are Facebook's phalanx of attorney firms the equivalent of [Hitler's Brown Shirts](#)? IBM computers enabled Adolf Hitler to catalog Jews, Poles, gypsies, homosexuals and other undesirables before World War II. Many millions of those souls perished in the Nazi death camps. Now, Facebook is helping IBM and the C.I.A. build secret "dark profiles" on every American citizen via Facebook, HealthCare.gov, transportation, the "cloud," couponing, gaming and IRS "big data."

With those dollars the true innovators will be able to implement their inventions correctly, rationally, ethically, and in a way that respects children, decency, privacy, innovation and property.

If we allow these people to succeed, then our Republic will likely be incinerated by this corruption.

We cannot allow them to succeed.

Knowledge is power.

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

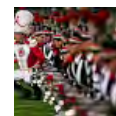

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ulyot, who appears to have helped lead the Leader v. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. I wonder how our Representatives and Senators are going to respond when they learn that they have been the targets of a long term covert CIA operation to scoop up and "data mine" the feedback from their constituents.

Their reaction should be a bell-weather as to the true state of our Republic.

Gee Tex, nothing gets by you, does it? LOL.

Have you checked out Boehner's and McConnell's financial disclosures by the way? Very Cartel-centric. Explains their sudden-onset flaccidity. They're blackmailed. They've been investing in the Cartel for too long. Those insider tips that seemed so hush hush and innocent at the time are now coming back to bite them..., and America.

John Boehner:

(in light of the revelation of Hillary's UBS bribes, sorry, "donations", Mr. Boehner's priority in UBS is telling. I am sorry, that was coincidental, what was I thinking). Reads like a Facebook Cartel Who's Who.

Mitch McConnell:

hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

The dots are becoming a straight black line.....

- Loud mouth Chris Mathews, MSNBC host, asked Debbie " the barking pit bull" Wasserman Schultz, the chairman of the DNC , if she could explain the difference between a socialist and a modern Democrat. She, not surprisingly, couldn't. There isn't any.
- as we learned 100 years ago at Okla State , a conservative arts school, socialism requires central planning by the elites so that workers perform their assigned workload and everyone gets supposed equal pay. Only the elite should have access to surplus. For the commoner, personal passions, ideas, and competition are not only discouraged, it's criminal.
- socialism requires that data and personal information be gathered by the elites so that planning becomes more controllable. Hiding info from socialists is criminal. Gathering info on the sheep is not. The end justifies the means. This AFI blog is exposing the underbelly of central planning.
- the two current front runners in the Democratic/ socialist party are in fact socialists. Bernie Sanders is an announced socialist. Hilary has built her entire political agenda around the teachings of the great American hater, Saul Alinsky and his manifesto, Rules for Radicals. Her thesis can be found on line.....it is about the great mind of Saul Alinsky. He was a radical socialist. She is a socialist.....period.
- most Democrats from the Hubert Humphrey days have no clue that their party has abandoned free enterprise, individual liberties, and true charity for the needy.
- the notion of politically correct is a socialist concept. They use words to cover actions. They divide every possible class, race, gender, etc. . They confuse the folks with jargon and blame capitalists and folks of faith for all of our ills.
- but, oops, Hilary is being exposed. Her actions for forty years are being uncovered . She is truly a liar and corrupt. They are trying to refute them, but the pile is growing. Now, Americans are listening to an awkward politician (Trump) because his rhetoric is factual despite being bombastic. His honest carping is refreshing. Bottom line.....honesty is still highly regarded in this country.

And we all know that Trump will engage the elitists that are illegally controlling all information flow . OMG, what shall they do ? This should be fun and possibly what American citizens have been waiting for.

The only hope of the socialists is that they can uncover some huge scandal on Trump. They are trying to paint him as greedy because his has more money coming in than going out.....a profit is surely greedy. His hat drives the socialists crazy. What else do they have ? His persistent use of the word " I" is unnecessary . This is about "us" , but he will get better with that part of it.

Over the next few months the GOP will figure out that Trump is actually the way that disgusted American's are giving the middle finger to our politicians, our judges, the UN, China, illegal border crossings, and the MSM. Seriously, he is a big middle finger to Obama and Hilary. This is a turning point and I can't get this smile off of my face.

Have another great day, TEX

Yuri Milner is mentioned in this post. He's been sitting in Moscow pretty quiet. Then, I turned on Charlie Rose the other night and voila! There was Milner -- one of the greatest fleecers of the Russian People of all time -- promoting a sort of Nobel Peace Prize for Intellectuals. How precious.

Now the Cartel wants to buy the silence of thinking people with big prizes from their ill-gotten gain. This is truly priceless and an obscene morality.

Of course. The Cartel members are narcissists who fancy themselves as intellectuals and they wish to perpetuate their kind. Communism 2.0. (It didn't work the first time, so why not double down?)

Stalin's Five Year Plans were corrupt and inefficient (not to mention inhumane in their reliance on Gulag forced labor camps to supplement those inefficiencies), but these Cartel people are believers that they can tweek those flaws through technological control while they sip their Pinot Grigio in Napa Valley and monitor the masses with their drones.

IBM and Microsoft (The Eclipse Foundation) are practically the only tech companies on the list—and they top the list. Bill Gates of Microsoft knew Facebook was stolen and used the info to bribe his way in to The Eclipse Foundation or he got an invite?, Bill Gates did invest in Facebook and he did it knowing Facebook was stolen. Former President Jimmy Carter came very close to admitting the Cartel that has been uncovered by AFI researchers and the Leader v. Facebook judicial corruption scandal implicating Chief Justice John G. Roberts, Jr.

AFI Research has identified the early 1990's and then Harvard professor turned World Bank chief economist, Lawrence "Larry" Summers, as the genesis of the current C.I.A. / IBM / Facebook / Soros Cartel running the Obama Administration. Fresh students Sheryl K. Sandberg and Yuri Milner were their flunkies then.

This Cartel had its beginnings with the Clinton Administration, gained full steam with George W. Bush Administration (C.I.A. backing and protection - James P. Chandler), then began raping and pillaging under the Obama Administration.

As a simple old man sitting on a rocking chair on my front porch, I seem to be losing touch with the real world. Here's a few things that really have gobsmacked me of late.

-- we continue to release known criminals that are citizens of other countries into our society and they kill our folks every day. Why are our border agents, local authorities, and ICE told to stand down?

--we trade five known terrorist killers into the middle eastern Islamic world for a cowardly soldier who knowingly abandoned his watch post, left his fellow soldiers vulnerable, sought comfort from the enemy, and recently violated his uniform again by smoking grass at a gathering of potheads while awaiting his court martial proceedings. Our president (puke) did a group cumbaya hug with his hippie parents at the Rose garden, and extolled the American virtue of leaving no soldier behind. Obama probably had a hookie with them before his press conference. Susan Rice later told us that Bergdahl served admirably (puke again).

-- Hillary chose to leave some behind in Benghazi. It was her call. She did it. They died, she lied. Why?

District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. (See [that Jury Instruction No. 4.7 here](#).) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See [analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO](#).

Judge Lourie also failed to apply his own law-test in *Group One v. Hallmark Cards* to the evidence. After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

-- now our Navy leaders are considering filing criminal charges against the Lt. Commander in Tennessee that used his personal weapon to fire on the "son of Islam" that was mowing down our unarmed soldiers. Why? He should be a national hero.

--we allow thugs and militants to burn down and destroy fragile inner city infrastructure including schools, drug stores, food stores, and churches. Our liberal mayors in NYC, Baltimore, St Louis, Chicago, Detroit, etc. have done nothing to protect law abiding folks from these creeps. . We stand down . Why?

--Obama and Hillary (puke) have attacked the film makers of the recent Planned Parenthood genocide and organ harvest as "a war on women". Last year PP mutilated almost 1,000,000 little folks with their heartless abortive techniques. Half of those babies were girls.....baby little women . Did you see the short scene where they're moving around these tiny organs and discussing cost per organ ? That's a real war on women. Why are we standing down ?

--every day Iran issues a new manual (fatwah) against the U.S. And Israel. Not only are we standing down , we are assisting them with our actions. Why?

When you have had enough, please get radical. That's what the MSM calls me and other conservative citizens who speak out, and support opposition to this transformation of our country. Excuse me while I puke.

Have a great day, TEX

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. [See disclosure of substantial holdings in Facebook and Facebook-related stocks.](#) Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in *Pfaff v. Wells Electronics, Inc.*—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. [See Motion to Disclose Conflicts of Interest.](#) Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr. Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the
