(OCT 31, 2015)—On Friday, Oct. 30, 2015, the U.S. State Department released another batch of approximately **7,000 Hillary Clinton emails** that were sent to her private servers. Besides more proof of U.S. Government collusion to steal Leader Technologies' social networking invention, they expose a heinous "public-private" Obama-Clinton-Cartel policy that can only be described as a **New Fascism**.

The many redactions are more proof that John Kerry's State Department believes Hillary exchanged much classified information. It also reveals the substantial influence that Sidney Blumenthal had on Hillary's U.S. policy right from

the beginning of the Obama Administration in 2009.

AFI readers are reminded that Blumenthal and James P. Chandler, former Harvard Law professor and NSA spy master, have been tied at the hip since Bill Clinton's Administration. Blumenthal was running political cover for Chandler's spy state law changes that were getting passed in rapid succession (e.g., Economic Espionage Act of 1996, False Statements Accountability Act of 1996, DOMA).

Hillary privately hired Blumenthal, despite being told by Rahm Emmanuel, Obama's first White House chief of staff, not to engage him. This assured the continuation of the spy state agenda begun with Bill and Chandler in the early 1990s along with Harvard economics professor Larry Summers.

On Nov. 15, 2008, Bill Clinton spoke in Germany to AWD, a personal financial planner, one week after Obama was elected. He was paid \$450,000, three times his normal fee. This was his only Cartel speech in 2008. It occurred one week before Larry Summers was appointed by Obama to direct the "bank bailout." Making sure his and Hillary's Cartel winnings were/would be safe overseas?

Eleven weeks later, Leader's innovations appeared magically in the next version of IBM Eclipse, version 2.0.1. Within weeks, Carly Fiorina's HP and Bill Gates' Microsoft signed on to the IBM Eclipse Spy State Cartel feeding frenzy.

UPDATE MAR. 25, 2014

FIVE CRITICAL AFI POSTS ON JUDICIAL COMPROMISE

Fully updated Mar. 25, 2014 in the wake of the Scribd censorship:

1. **HOW PATENT JUDGES GROW RICH ON THE BACKS OF AMERICAN INVENTORS**

On Nov. 19, 2008, Leader Technologies filed a patent infringement lawsuit against Facebook for infringing their social networking invention. This lawsuit threatened to upset the Cartel apple cart.

On Jun. 06, 2009, Facebook opened a backdoor data feed to the NSA, as disclosed by NSA whistleblower Edward Snowden.

On Jun. 18, 2009, Obama nominated David J. Kappos, IBM chief inside intellectual property counsel, to be director of the U.S. Patent Office. Kappos and Chandler are the bookends of patent troll-ism at IBM. They invented it to monetize IBM "junk patents."

Photo Edward Snowden, Digital Trends

On Jul. 09, 2009, a month later, Blumenthal drafted Hillary's first policy speech to the Council on Foreign Relations (ignoring Emmanuel's prohibition of Blumenthal). Blumenthal highlighted the Administration's commitment to use Facebook—while Leader v. Facebook patent infringement case was proceeding—the ultimate U.S. government insult to innovation, entrepreneurialism and the rule of law.

"We must harness the power of new technologies and new means of connecting and communicating. Twitter and Facebook will become as much a part of the diplomatic lexicon as cables and demarches [political step or initiative]"

NOTE: This statement contradicts Hillary's testimony to the Benghazi Committee that she did not conduct much State Department business via email.

On Aug. 07, 2009, IBM's chief inside counsel, David J. Kappos, was appointed director of the Patent Office by Obama in a rare recess appointment. Kappos and Chandler are the original "patent trolls." Kappos then dumped his IBM stock and purchased 100% Vanguard mutual funds (Vanguard is heavily invested in IBM, Facebook and the Cartel, so Kappos merely shifted his IBM stock from one pocket to another.)

URGENT NSA—WHITE HOUSE SITUATION ROOM MESSAGE FORWARDED TO HILLARY'S PERSONAL EMAIL SERVER "H <hrod17@clintonemail.com>"

On Aug. 16, 2009, NSA director [James L.] Jones requested an urgent meeting with Hillary from the White House Situation Room, thus putting foreign state hackers on notice about concurrent event threats. This communication is classified by default. "H <hrod17@clintonemail.com>."

On Dec. 29, 2009, Hillary Clinton used her personal email account, "hrod17@clintonemail.com," to exchange drafts of a speech on "Internet Freedom." The draft of Clinton's speech was redacted by the State Department as classified.

On Jan. 09, 2010, Sidney Blumenthal labeled the Republicans incompetent for failing to demand Timothy F. Geithner's firing for colluding with AIG in the bailout.

LEADER V. FACEBOOK RIGGED TO PROTECT POLICY; U.S. PROPERTY LAW IGNORED FOR SPY STATE AGENDA

On Mar. 17, 2010, Obama nominated Leonard P. Stark to the Delaware District Court bench where the Leader v. Facebook patent infringement case was proceeding. Vice President Joe Biden was his sponsor.

On Mar. 22, 2010, Hillary had a heavily-redacted exchange on her "HDR22@clintonemail.com" address with Jake Sullivan and Huma Abedin with the subject "[Redacted] call." This is just a week after Leader Technologies' lawyers eviscerated Facebook's arguments at the Markman Hearing in the Leader v. Facebook patent infringement case. Having told the Council of Foreign Relations she would embrace Facebook, this was a very real threat to her credibility if Leader won this case.

[All the Leader v. Facebook monkey business with the installation of Obama's freshly-confirmed Judge Stark, Zuckerberg's stonewalling, and allowance of a new on-sale bar claim after the close of discovery, were clearly orchestrated. These arrangements give the State Department motive to conceal this evidence.]

On Apr. 01, 2010, David J. Kappos, former IBM chief intellectual property counsel, founder of the IBM Eclipse Foundation (Nov. 29, 2001), and new Patent Office director, started the U.S. Patent Office Facebook page.

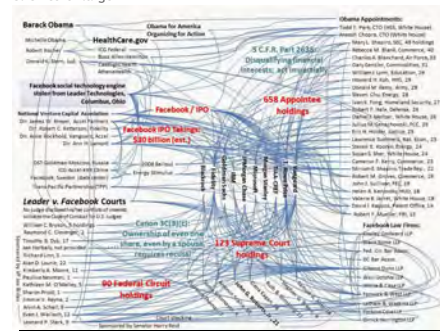

Patent Office filings are shuffled out the USPTO backdoor to crony lawyers, banks and deep-pocket clients.

2. **WAS CHIEF JUSTICE ROBERTS BLACKMAILED** into supporting Obamacare by his ethical compromises in Leader v. Facebook?
3. **JUSTICE ROBERTS MENTORED** Facebook Gibson Dunn LLP attorneys.
4. **JUSTICE ROBERTS HOLDS** substantial Facebook financial interests.
5. **JUDGE LEONARD STARK FAILED** to disclose his Facebook financial interests and his reliance on Facebook's Cooley Godward LLP attorneys for his appointment.

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Sickle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

On Apr. 01, 2010, **Mark Zuckerberg** refused to testify about his Harvard hacking in his *Leader v. Facebook* deposition, on advice of his Cooley Godward LLP counsel, Heidi Keefe. Cooley Godward partner, **Donald K. Stern**, was newly-appointed White House judiciary adviser.

ON FEB. 17, 2011, BARACK OBAMA MET WITH MEMBERS OF THE IBM-NSA SPY STATE CARTEL IN THEIR SILICON VALLEY LAIR TO TOAST THEIR DECEPTION OF THE AMERICAN PUBLIC AND THE WORLD CALLED "THE CLOUD" AND "THE INTERNET OF THINGS."

FIG. 3—On Feb. 17, 2011, President Obama met with members of the IBM Eclipse NSA Spy State Cartel in Silicon Valley, during the *Leader v. Facebook* patent infringement legal proceedings. Among Obama's comments that were prejudicial to Leader's lawsuit, Obama promised to reform the patent system (interminable "patent reexaminations" are now decimating the inventions of small inventors like Leader Technologies) and specifically praised Facebook, comparing the hacker thief Zuckerberg to Thomas Edison and the Wright Brothers. The Cartel is shown here toasting to the success of their criminality. **Photo: UPI.**

On Sep. 16, 2011, Obama signed the America Invents Act that opened the door for big-infringers to continue "strategic infringement" of patents that they have stolen, **including** Leader Technologies' social networking invention, using endless "patent reexaminations." David J. Kappos was the prime mover. Spy master James P. Chandler lurked in the shadows.

On Dec. 02, 2011, Hillary adviser, Anne-Marie Slaughter, promoted a new kind of techno socialism / fascism concept where private industry is harnessed to the will of the state.

LEADER TECHNOLOGIES Inventor Protection Act (Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

—a technology upon which the President and U.S. government now rely;

—a technology stolen by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's Leader v. Facebook attorney Gibson Dunn LLP. She credits this

firm with the reason why not a single Wall Street banker has gone to jail since 2008. [Click here](#) to read her article "Everybody hates whistleblowers." *Examiner.com*, Apr. 10, 2012. Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ulyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in

Much of that data is stored overseas, e.g., [Lulea, Sweden](#), outside the jurisdiction of the U.S. Constitution ("Inside the Arctic Circle, Where Your Data Lives," Business Week).

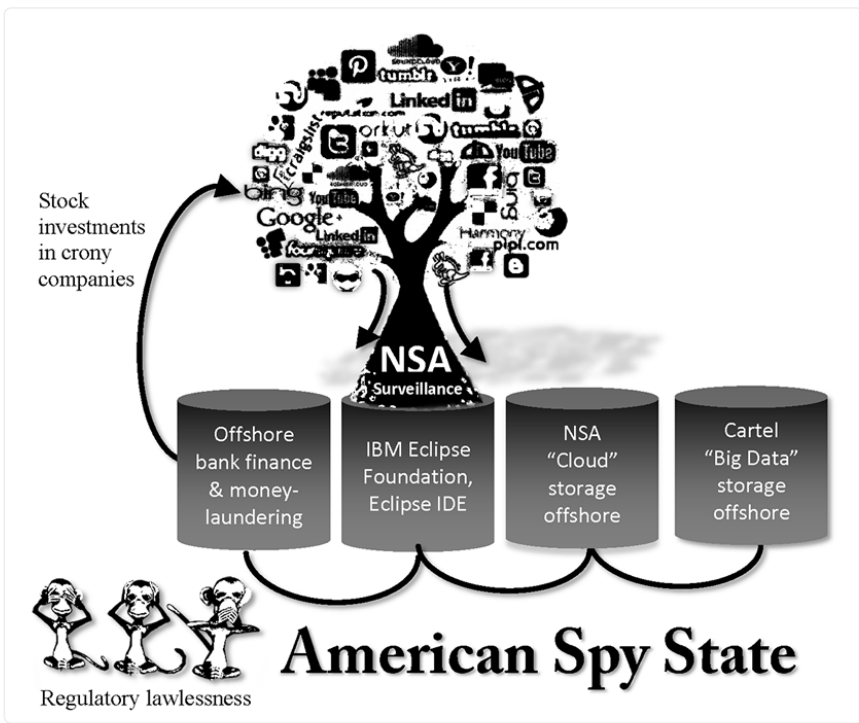

FIG. 4—The "social networking" industry generates huge financial profits. But the Cartel manipulates the industry illegally. Regulators turn blind eyes to the Cartel's "Big Data" stock manipulation. Corrupt judges, politicians and regulators are influenced and bribed with insider stock tips. This appears to be the largest Ponzi scheme in history. The Cartel also has the ability to influence elections, using social networking tools to influence voters and control elected officials.

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

correspondent for CBS News. The FBI background check is mandatory. I passed the check and received my HARD PASS.

Years later, in 2013, I learned of the intrusion of my work and home computers. The intruders utilized software proprietary to a U.S. government agency. I knew that the FBI had contacted CBS News and confirmed the computer intrusion. I knew that FBI case workers listed me as a "victim" in the computer intrusion, even though they never contacted me to investigate or help.

As part of my investigation to learn more about the identities of the computer intruders, I filed a Freedom of Information Act (FOIA) and Privacy Act request to review my FBI file (as every citizen has the right to do). I knew that — at the very least — my file would include information relevant to my White House HARD PASS background checks and the computer intrusion.

But I got stonewalled.
