EXPOSED: JPMORGAN HIDES SPY STATE CARTEL COLLUSION IN LOSS OF 83 MILLION CUSTOMER RECORDS

U.S. ATTORNEY PREET BHARARA LIKELY FLOATS CYBERHACK NARRATIVE TO COVER THE CARTEL'S ILLEGAL ACTIVITY

NOV. 19, 2015 UPDATE. Internet pioneer, **DR. LAKSHMI ARUNACHALAM**, former director of network architecture for Sun Microsystems at the formation of the modern commercial Internet, filed today in the U.S. Supreme Court against **J.P. MORGAN CHASE** for theft of her foundational patents on Internet transactions and for judicial corruption (JPMorgan investments and abuses of due process, property and civil rights). FIG. 1—PREETINDER BHARARA. THE SPY STATE CARTEL'S CLEAN-UP MAN.

U.S. Attorney Preetinder "Preet" Bharara has an uncanny ability to appear as the attorney-of-record on any and all matters involved with protecting Facebook and the NSA Spy State Cartel from being exposed. He is currently prosecuting New York businessman Paul Ceglia in his battle with Mark Zuckerberg and Facebook.

Now Bharara is protecting JPMorgan from a likely whistleblower who will show that JPMorgan gave over 83 million customer records to the Cartel to help populate their "dark profile" database in Sweden. These "dark profiles" gather Orwellian levels of data from Facebook, social media, public records, healthcare data, tweets, blogs, photos and wherever else a person's name appears—all without the user's knowledge. One cannot claim without the user's permission since most social sites include a slimy user license agreement where the user unknowingly gives up all their rights to privacy.

(NOV. 11, 2015)—On Nov. 10, 2015, New York U.S. Attorney Preetinder Bharara charged three Israelis with hacking over 83 million JPMorgan accounts since 2007.

AFI readers will recognize Bharara's name. He is the U.S. Attorney currently prosecuting [Paul Ceglia](#) in his battle with Mark Zuckerberg and Facebook. Bharara disrupted Ceglia's civil suit against Zuckerberg by filing criminal charges against Ceglia for allegedly forging a 2003 contract with Zuckerberg and Facebook. Ceglia has fled with his family for safety.

Snyder was recently caught lying in the Ceglia case. Gibson Dunn is well-known to have Chief Justice John G. Let's hope the justices of the California Superior Court have some scruples. We'll see. See previous post [Gibson Dunn Lawyers taint US v. Ceglia proceedings](#). UPDATE MAR. 25, 2014

FIVE CRITICAL AFI POSTS ON JUDICIAL COMPROMISE

Fully updated Mar. 25, 2014 in the wake of the Scribd censorship:

1. [HOW PATENT JUDGES GROW RICH ON THE BACKS OF AMERICAN INVENTORS](#)

Patent Office filings are

themselves. Chief Justice John Roberts ignored this mountain of conflicts. All these judges, including Roberts, had massive investments in Facebook, as did JPMorgan.

ANALYSIS: BHARARA WORKS FOR THE SPY STATE CARTEL

Bharara appears to be a Cartel clean-up man.

Bharara yesterday created the same sort of grandstanding brouhaha around these JPMorgan indictments as he did when he staged Paul Ceglia's arrest.

Bharara wants us to believe that these three Israeli men engaged in the activities that read like a laundry list of Cartel activities.

WOW, THESE WERE THREE BUSY ISRAELIS. NOT.

(It takes large, well-funded organizations to accomplish all the things they are being accused of.)

"The alleged enterprise included pumping up stock prices, online casinos, payment processing for criminals, an illegal Bitcoin exchange, and the laundering of money through at least 75 shell companies and accounts around the world." Reuters, Nov. 11, 2015.

1. **Pump and dump of stocks.** This was the Facebook IPO tactic; JPMorgan was an underwriter and allowed insiders like Goldman Sachs, James W. Breyer, Accel Partners and Microsoft to sell on Day 3)
2. **Online casinos** (practically all the Facebook underwriters, including JPMorgan, are laundering money through the Cayman Islands according to [HCBC whistleblower Hervé Falciani](#))
3. **Bitcoin and payment processing for criminals** also according to HCBC whistleblower Hervé Falciani
4. **75 shell companies.** See [2005 EuroTech SpA "Internet of Things" activity](#) organized by JPMorgan Italy executive; See also [2007 Stratfor WikiLeaks](#) revelations about C.I.A. offshore activity; See also [2008 James P. Chandler Cayman Islands offshore activity](#) with CRYPTO, Technest, AccelPath, EOIR Technologies and The White Oak Group.

JPMORGAN FINANCES THE SPY STATE CARTEL

Do you think they would let three Israelis compromise their plans for global hegemony for eight years, undetected?

FIG. 3—On Oct. 10, 2015, Obama made a mystery trip to Qualcomm in San Diego after visiting the victims of the Oregon shooting. With Dell taking EMC private, Obama's Cartel is consolidating their power into fewer and fewer hands who are not accountable to public shareholders. Not surprisingly, JOHN BOEHNER bailed as Speaker likely to avoid further pressure from the Cartel to do their bidding (Boehner is heavily invested in Cartel funds, notably UBS, Fidelity, EMC, IBM, Microsoft, Oracle, Xerox, Goldman Sachs, **JPMorgan Chase**, State Street, Symantec, Vanguard and Wal-Mart; so is MITCH MCCONNELL, notably Vanguard, T. Rowe Price, UBS, Barclays, Wells Fargo, American). The now evident agenda is to consolidate embedded technology control of the Internet so that the new Administration will conclude that their infrastructure is "too big to fail" or be unplugged. Sound like **JPMorgan**? Rest assured, they can and must be unplugged. A Republic cannot survive the intrusions on privacy created by these self-serving Harvard sycophants behind a national security smoke screen.

FAMILIAR CARTEL CONDUCT: ACCUSE YOUR ENEMIES OF YOUR CRIMES

shuffled out the USPTO backdoor to crony lawyers, banks and deep-pocket clients.

2. **WAS CHIEF JUSTICE ROBERTS BLACKMAILED** into supporting Obamacare by his ethical compromises in *Leader v. Facebook*?
3. **JUSTICE ROBERTS MENTORED** Facebook Gibson Dunn LLP attorneys.
4. **JUSTICE ROBERTS HOLDS** substantial Facebook financial interests.
5. **JUDGE LEONARD STARK FAILED** to disclose his Facebook financial interests and his reliance on Facebook's Cooley Godward LLP attorneys for his appointment.

BARACK OBAMA'S DARK POOLS OF CORRUPTION

STOP FACEBOOK PROPERTY THEFT

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

Bharara's boss, Attorney General Loretta Lynch chimed in, "one of the largest thefts of financial-related data in history." Bharara, Lynch and Eric Holder all graduated from Harvard Law.

ODOR OF CORRUPTION. JPMORGAN SECURITY: INCOMPETENT OR IN ON THE CARTEL'S SCHEME?

JPMorgan and the Cartel must really think Americans are stupid. We are supposed to believe that three Israelis could set up 75 shell companies and steal 83 million JPMorgan customer records over eight years without detection? Either JPMorgan's security people are totally incompetent, or they're in on the scams. There is no middle ground.

2007 WAS A FORMATIVE YEAR FOR THE CARTEL

Magically, Bharara claims the hack started in 2007.

Microsoft started feeding customer data to the NSA in 2007, according to NSA whistleblower Edward Snowden. Barack Obama announced his candidacy on Facebook that year.

When one reads Bharara's announcement between the lines, one discovers a now predictable smokescreen for another agenda. The story sounds real enough to believe, but all the people, names and dates are conveniently just out of reach, in Russia, Israel, and with a server in Egypt. That is one powerful server to be able to take down 83 million records without detection . . . for eight years. Yeh, right.

The story also contains an uncanny number of now known Spy State Cartel members like JPMorgan, Fidelity, Loretta Lynch, Preet Bharara, News Corp and Bitcoin. It would appear that by blaming the theft of data on these three Israelis, the Cartel will later be able to deny that the companies gave them their "Big Data" willingly.

BHARARA'S STORY IS NOT CREDIBLE

Laughably, Bharara says no JPMorgan account information, passwords and Social Security numbers were accessed. Only contact information.

Ask yourself, what hacker with the skill and sophistication that these men are supposed to have would set up "75 shell companies," hack 83 million customer records of one of the largest banks in the world, then steal only email addresses? Such a notion is truly humorous. Instead, they will sweep all the account information and at least sell it to the highest black market bidder.

What professional thief walks into a room and steals only the phone books and leaves 83 million piles of money on the table? Bharara's story is fabricated, we believe.

Obviously, this Bharara drama is a made-for-TV prosecution, in our opinion.

- We were fooled by Hollywood by The Social Network lies about Facebook's origins.
- We are being fooled by Facebook's corruption of senior federal judges in the Leader v. Facebook patent infringement case.
- We are being fooled by IBM's control of the social enterprise for NSA snooping.
- We are being fooled by the Harvard Law Cartel collusion among Barack Obama, Eric Holder, Preet Bharara, Loretta Lynch, Jamie Dimon, Lloyd Blankfein, John Roberts, James P. Chandler, et al.
- We are being fooled by false stories about Paul Ceglia's alleged forgery that has now been proved genuine, yet Bharara continues the persecution of Paul Ceglia.

Let's not be fooled about this new JPMorgan false story.

Click image above to download a poster-quality PDF optimized for a 11in. x 17in. (ledger-size) poster. America should not be in the business of cheating its entrepreneurial investors simply because the cheaters buy off judges with the money gained from their theft. Such permissiveness is obscene.

SPOILER ALERT: JPMORGAN LIKELY COVERING CARTEL TRACKS WITH THIS FALSE CYBERHACK STORY

JPMorgan is very likely covering their tracks, just in case their customer data ever turns up on Spy State Cartel databases (which it surely will). More likely, JPMorgan **has already** fed their customer information to the Cartel to help build their "dark profiles." These profiles are being stored offshore, in places like [Lulea, Sweden](#).

In other words, it looks like the Cartel is creating an excuse for how 83 million JPMorgan customers' data records (as well as Fidelity's) ended up in the Cartel's "dark profiles" overseas.

Remember, JPMorgan helped create and fund the Spy State Cartel. They have been profiting from the personal background information about every American citizen since the early 2000s as the quid pro quo for helping the NSA create the Spy State infrastructure. **That is a lot of all-too-tempting blackmail data.**

Facebook is doing its part to unite the world in this time of crisis in Paris. You can now update your profile to include an overlay of the French flag and Facebook has also implemented the "safe check in" feature so that users can notify their friends and family that they are safe in Paris. Thank you Facebook team!

While we stand together in standing with Paris, over the recent terrorist attacks, I do need to point out a couple of things:

1. While it is a nice gesture of solidarity, overlaying the French flag onto profile pics, I cannot do so. As a veteran, I will not raise any flag over Ole Glory. She is the one flag who I have, and will, fight for, if need be.

2. While you are throwing out praises to Facebook, for uniting the world, you must first throw out praises to Mike McKibben (Leader Technologies) for inventing the platform that Facebook now utilizes.

It is a known fact that Facebook was found guilty on 11 of 11 counts of 'Literal Patent Infringement'. Those facts are non-disputable, as they are a matter of record in a Federal Court.

And, Bill, that "safe check in" feature you speak of...I'm pretty sure it was the same Leader technology that was used to coordinate relief efforts during Hurricane Katrina.

So, I will close with my own gesture...

Thank you Leader Technologies for uniting the world in this moment of crisis!

Thank you Facebook, for being a willing spy accomplice into every facet of our private lives. Thank you Facebook for bastardizing a wonderful tool and turning it into the largest federally-controlled ponzi scheme the world has ever seen. Thank you Facebook for allowing untold National Secrets to be shipped off to foreign bidders. Thank you Facebook for undermining our National Currency, by propping up this insane BitCoin debacle. And finally, Facebook, thank you for using your bully pulpit to spew out anti-American, anti-capitalist propaganda, in pushing for open borders, stricter gun laws, and punishing those who choose to believe that Islam is the scourge of the earth.

Right on Steve n Amy,

Its about time we start thanking the inventor (McKibben and Leader Technologies) instead of the thieves.

Did you watch the Democratic debate? I'm feeling the Burn and even the "O." Those two crushed Hillary on Wall Street greed and fraud, Her attempt to equate Wall Street with 9/11. What a joke she was.

Among the Republicans, Kasich, Fioriina, Christie and Bush are definitely Wall Street darlings..

On the other hand, Cruz is aligned with the Burn and O. Cruz already calls the Wall Street Facebook Spy State "the Cartel."

This blog has definitely nailed the Cartel players in Figure 5..

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

Spy State aficionados are predictably running around like Chicken Littles trying to blame the Paris tragedy on data encryption, just like Obama ties every gun event to his Gun Control agenda. In our emotion and insecurity over 9/11, we gave the NSA carte blanche to spy on everyone. They turned that into a "Big Data" boon for their Wall Street and Silicon Valley commercial cronies. Let's not be fooled this time.

Remember, according to the FBI, NOT ONE terror incident in the USA since 9/11 was intercepted because of the NSA bulk data surveillance. Not one. So, what are they doing with all that data? They're selling it to Walmart, China, Japan, P&G, Wall Street, Silicon Valley, insurance companies, MOOC, Common Core, etc. etc. etc. When the service is free, you are the product.

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

Looks like they are planning to take over the Chinese financial system just like they did America's in the Fake Bank Crisis of 2008. Let's not be fooled this time around. After all, Bernie Sanders nailed these people in the last Democratic debate: They are ruled by greed and fraud.

A recent speech by our president :

" This past month has seen the world literally explode because poor, unemployed Muslim men have uncontrollable emotional issues due to climate change. They had no choice when they blew up a Russian passenger jet. The weather really bothered them. Then a few of these poor , jobless Muslim men (and women) were so worried about weather changes , they had to go into a few cafes and nightclubs in Paris to vent their discomfort with anthropogenic CO2 caused by capitalism. Shame on the Caucasian CEO's of America. Have they lost their heads? No. And that is why we never responded when Americans were beheaded while on their knees and men were burned on video while in cages. We'll just call them surrogate CEO's. Weather is the cause . Weather is our biggest enemy. I am giving climate change a RED LINE and I mean it this time.

So here's what I will do to help these frustrated young Muslims, the very future of a peace loving religion . I will release all prisoners at GITMO , give them guns and a few grenades , directions to Washington, DC, a new Quran, and put them on Obamacare. We owe them. Next , I will ask all policemen to stand down and let the other young minority folks seek revenge for having to live in America. Burning a CVS pharmacy is good use of their time, although the CO2 caused from smoke emission bothers me. I am not sure we need policemen. I will eliminate all previous US borders so the people of Syria, ISIS , and al-Queda can see how bad we are. Come on in. We need a few new ideas , especially recognizing the fact that Muslims build great hospitals, universities, and other charitable organizations. I also love their art work, operas, and innovative new technologies. I am not sure we need border patrols. They cause too many problems.

Under our new modified US law, women will rejoice because they won't have to work, show their faces, or study in school. It could reduce facial skin cancers with those burkas. The car insurance companies will be happy because women are terrible drivers and that will no longer be a possibility. They will only be required to have babies ,share husbands, and make wild screeching verbal noises when their men slaughter infidels.

I also am hereby today announcing, under the authority given to me fellow Muslims Valerie Jarrett, John Brennan (Security Advisor) , and Keith Ellison (Minnesota congressman) , and about 15 other close Muslim advisors in the White House , that Thanksgiving is now an integral part of Ramadan. No pork chops ! In closing let me say Allu Akbar ".

Have a great day and a Happy Thanksgiving, TEX

The NSA/Spy State Cartel lied, again. They DID NOT STOP BULK SURVEILLANCE on Americans in 2011 as they told Congress. THEY ARE STORING THE DATA OVERSEAS. Then, why do we let these people run our government, steal social networking technology from Columbus-inventor Leader Technologies, and snoop on our national conversation thru the Spy State Cartel: Twitter, Facebook, Google+, Instagram, LinkedIn, Flickr, IBM, Microsoft, etc.? Is our entire tech community compromised by spies in their board rooms? It appears that ALL their directors are NSA/Spy State Cartel spies.

Farivar, C. (Nov. 20, 2015). It's official-NSA did keep its e-mail metadata program after it "ended" in 2011. ArsTechnica.

The New York Times gets a new NSA doc confirming what some had long suspected.

Though it was revealed by Edward Snowden in June 2013, the National Security Agency's (NSA) infamous secret program to domestically collect Americans' e-mail metadata in bulk technically ended in December 2011. Or so we thought. A new document obtained through a lawsuit filed by The New York Times confirms that this program effectively continued under the authority of different government programs with less scrutiny from the Foreign Intelligence Surveillance Court (FISC).

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012).

Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. Excuse us while we go out and puke. We must rid Washington DC of these power-mongering attorneys and their law firms that have overrun our government.

By the way, this Dept. of Justice "opinion" was authored by another Harvard Law sycophant, Jack L. Goldsmith, III -- another James P. Chandler flunkie.

[Thank you to AFI investigators for this work today.]

K. Craine November 23, 2015 at 6:53 AM

It should also be noted that Jack L. Goldsmith, III was a colleague of fellow Assistant Attorney General Eric H. Holder.

As AFI has shown, Holder takes his orders from former Harvard Law professor James P. Chandler, NSA spy master. Goldsmith probably did not draft the Memorandum, Chandler likely did. Sources at George Washington Law say Chandler used to teach his students to write long opinions when they wanted to create a litigation playground where only attorneys win, and write short opinions when they wanted clarity and justice.
