FIG. 1—MORE PAY-TO-PLAY NEW WORLD ORDER QUESTIONS FOR HILLARY CLINTON

On Sep. 6, 2005, Bill Clinton met with Kazakh strongman Nursultan A. Nazarbayev. Two days later, Bill’s friend, Frank Giustra, received coveted Kazakh uranium mining rights—even though Giustra had no uranium mining track record. The industry was stunned. Within months, The Clinton Foundation received $152 million in “donations” from Frank Giustra. Two years later, Giustra sold those rights for $3.1 billion. Hillary and Bill did not disclose their Foundation winnings until forced to recently by Canadian authorities. Goldman Sachs assisted Giustra, and everyone else swirling around the Clinton’s New World Order community organizing.

(JAN. 29, 2016) - On Sep. 06, 2005, Bill Clinton jetted to Kazakhstan with Canadian Frank Giustra in a hastily arranged meeting with President Nursultan A. Nazarbayev. Giustra had just incorporated a shell (new, not operating) company named UrAsia Energy Ltd. with the help of Goldman Sachs.
In the previous nine months, Clinton had been paid $925,000 in fees for six speeches to Goldman Sachs and Deutsche Bank. [The issue is not the amount of the fees, however dubious, but rather the audience. We believe that Bill and Hillary’s speaking engagements have merely been the smokescreen for their New World Order global community organizing.

Anne-Marie Slaughter, author of *A New World Order*, was one of Hillary’s first hires as Secretary of State on Jan. 23, 2009, just three days after Obama’s inauguration.]

While Bill was busy with Goldman Sachs and the uranium deal, Accel Partners invested $513 million in Facebook on May 26, 2005. A week later, Yuri Milner started Digital Sky in Moscow with Goldman Sachs as an investor. Accel Partners and Milner are Facebook’s second and third largest shareholders today. Goldman Sachs is one of Facebook’s underwriters who sponsored Facebook’s initial public offering (IPO).

On Sep. 07, 2005, a day later, Kazakhstan agreed to give UrAsia coveted uranium mining rights, even though Giustra had no uranium mining experience, and UrAsia was only a shell company. The mining industry was stunned.

**CLINTON PLAYED, GIUSTRA PAID**

In the months that followed, the Clinton Foundation received $152 million in donations from Giustra. Both Giustra and Clinton claim the donations were not pay to play. To paraphrase William Huntgate, a member of the Watergate Committee: “If an elephant walked into the room, some of you would insist that it was a mouse with a glandular condition.” [Insert suitable snarky comment here.]

**VIDEO: On Oct. 26, 2005**, nine weeks later, Accel Partners’ James W. Breyer and Mark Zuckerberg spoke to Stanford University students about Facebook. During the presentation, they solicited the students to write apps to run on Facebook. That solicitation was captured on video.

**IS THE QUESTIONER A RINGER? WATCH BREYER’S AND ZUCKERBERG’S BODY LANGUAGE.**
FRAUDULENT INDUCEMENT OF STANFORD UNIVERSITY STUDENTS TO MISAPPROPRIATE LEADER TECHNOLOGIES’ SOCIAL NETWORKING INVENTION STOLEN BY JAMES W. BREYER, ACCEL PARTNERS LLP, AND MARK E. ZUCKERBERG, FACEBOOK.

Since Facebook was proven in federal court to have been using Leader Technologies’ social networking invention, Breyer’s and Zuckerberg’s Oct. 26, 2005 solicitation would be fraudulent inducement, and this Stanford video is hard evidence of The Greatest Financial Crime in the History of the World.

Hillary Clinton’s stonewalled emails revealed her promotion of Facebook “E-diplomacy” from the start of her tenure as Secretary of State in early 2009. At that time, the Leader v. Facebook patent infringement trial was only months old. Hillary’s policy grossly interfered with Leader Technologies’ due process rights.

In the only part of the Leader v. Facebook trial that Hillary’s lawyer cronies could not control, the jury, Leader Technologies proved on 11 of 11 counts that Facebook infringes Leader’s U.S. Patent No. 7,139,761 for social networking.

CLINTON FOUNDATION’S $152 MILLION PRIMED THE FACEBOOK PUMP

Bill Clinton’s $152 million in Foundation donations from Frank Giustra appear to have been the seed money that Accel Partners and Goldman Sachs needed to get the Leader Technologies’ social networking invention ready for Barack Obama’s out-of-the-blue presidential announcement on Feb. 10, 2007, sixteen months later.

THE CLINTONS & RACKETEERING

The RICO Act, 18 U.S.C. § 1962 (Racketeer Influenced and Corrupt Organizations Act) requires proof of a “pattern of racketeering” activity. A pattern defined as two or more activities where the person directly or indirectly invests in, maintains an interest in, participates in, conducts the affairs of, or acquires income used to acquire an interest in an enterprise, among other things.

The U.S. Supreme Court said about racketeering of the kind described in Bill Clinton’s 2005 conduct alone:

“[A] democracy is effective only if the people have faith in those who govern, and that faith is bound to be shattered when high officials and their appointees engage in activities which arouse suspicions of malfeasance and...

The evidence shows that the developments in Facebook were a direct function of Bill Clinton's collaboration with Goldman Sachs.

1. Bill met with Goldman Sachs, then Accel Partners invested in Facebook.
2. Bill spoke in Kazakhstan, then his friend Frank Giustra (Goldman Sachs) received coveted uranium mining contracts for which he was not qualified (but Goldman Sachs wanted).
3. Bill started getting $152 million from Giustra, then Breyer and Zuckerberg induced Stanford students to write apps, after which Breyer secretly started WIN-IN-CHINA in Hong Kong, outside the knowledge of U.S. regulators (revealed by HSBC whistleblower Hervé Falciani).
4. Facebook was established with Bill’s and Goldman Sachs’ money, then Barack Obama announced his candidacy on the platform, eventually claiming that his presidency would “fundamentally transform America.”
5. Hillary became Secretary of State intent on making Facebook a cornerstone of her E-diplomacy, irrespective of whether or not Facebook was violating patent law.

Bill Clinton evidently used his influence as America’s former president to cajole President Nazarbayev to give the uranium mining contracts to UrAsia within a day, even though Frank Giustra had no experience in uranium mining (but Goldman Sachs had friends who did).

STOP FACEBOOK PROPERTY THEFT

WILL HUMANKIND EVER LEARN? Facebook’s Orwellian doublespeak about property and privacy (theft) merely repeats the eventual debasement of the individual under Mao’s Red Star, Stalin’s SOVIET Hammer & Cycle and Hitler’s NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

LEADER TECHNOLOGIES Inventor Protection Act (Proposed)

America needs to practice what it preaches. We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based Innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking — a technology upon which the President and U.S. government now rely — a technology stolen by the “Facebook Cabal” who recruited the federal courts and Patent Office into their club of corruption.

**JPMORGAN PAYS-TO-PLAY U.S. COURTS**

On Oct. 17, 2012, Bill Clinton gave a $200,000 pay-to-play junket speech to JPMorgan—just after JPMorgan made a fortune in Facebook’s May 18, 2012 initial public offering. The collusion among America’s senior federal judiciary with Wall Street and Silicon Valley is further evidenced in another patent case in addition to Leader v. Facebook. Dr. Lakshmi Arunachalam, Internet pioneer and former director of network architecture at Sun Microsystems, yesterday filed a motion at the U.S. Supreme Court in her patent dispute with JPMorgan who is infringing her web transactions patent. JPMorgan is muscling the judges to throw out the case on wholly unsupported grounds. Dr. Arunachalam outlines massive JPMorgan conflicts of interest among the presiding judges—they all have substantial JPMorgan financial holdings. With the exception of Delaware district court judge Sue L. Robinson who recused, the judges have obstinately refused to recuse themselves despite Judge Richard G. Andrews' admission that he has JPMorgan holdings. JPMorgan's attorney is Skadden Arps LLP, Hillary Clinton's former chief of staff, Christina M. Chen, worked for Delaware District Judge Leonard P. Stark, Obama / Clinton puppet judge presides in Leader v. Facebook.

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook’s Leader v. Facebook attorney Gibson Dunn LLP. She credits this firm with the reason why not a single Wall Street banker has gone to jail since 2008. Click here to read her article “Everybody hates whistleblowers.” Examiner.com, Apr. 10, 2012. Here’s an excerpt:

“Skillful manipulation of the firm’s extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage.”

This statement followed right after Davis cited Facebook’s chief insider counsel in the Leader v. Facebook case, Theodore Ullyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner that instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. Here we go. America......let the games begin. Iowa, start your engines. Our job over the next few months, beginning in Iowa, is to determine which person in the Presidential race is best equipped to lead us back from the edge of the abyss. The other option, of course, is to be total lemmings and jump over the cliff into history's dust bin. So here's my scorecard, and , believe me, I am a biased old man. My bias is to be unbiased.

Life is all about crossroads and seminal moments. Not all decisions are made with a complete understanding of unintended consequences. In government we have a long history of good intentions that cause more problems than we solve . We have to remember that America is an 'idea' not just rocks and dirt. Our idea was memorialized in our Constitution. Our Constitution was based on the principles of fairness, openness, true goodness, achievement, competition, free markets, and God's commandments. The notions of racial bias, gender bias, religious bias, and special privilege were recognized as being intolerable. So why today do we have a black president declare that we are a mean spirited racial nation? What race is Eric Holder , Loretta Lynch, Jeh Johnson, Oprah, Michael Jordan, Tiger Woods , Dr Ben Carson, Condoleezza Rice, James Clyburn, Alex Haley, Clarence Thomas, Thomas Sowell, JC Watts, Susan Rice, Sheila Jackson Lee, just to name a few? How can they have possibly been this successful in a hopelessly racial nation? And Hillary claims that women are treated as inferior because of the GOP. Let's name a few: ....the following companies have women in top leadership positions:

GM, Xerox, Oracle, Facebook, Lockheed Martin, Yahoo, Campbell Soup, PepsiCo, IBM, HP, Key Corp, and hundreds of others. It is a fact that the ladies have lost ground in every category under Obama and Hillary's watch. Women have a better chance to blossom in free markets!

And isn’t it a coincident that Hillary is a woman who was elected to Congress , held a big position in Obama’s terrible cabinet , and is running for America’s top job as a woman. Sounds like she wasn’t held back……especially if we take into account her history of incompetence , dishonesty, and criminality . She is running her campaign on female body parts, which incidentally is the same platform that her husband embodied and adored. Sadly, she has a few other platform positions as well. They are all centered on being Obama third term. I hope that the next four years she is in Federal court trying to lie her way out of Benghazi actions, and exposing America’s most precious secrets. America and the world simply deserve better.

So what about Sanders? C’mon, he’s a friggin’ socialist. If he is what the Democrats want then basically half of our nation wants to totally annihilate America’s grand experiment. He’s cute and precious but not a lover of our most precious secrets. America and the world simply deserve better.

What about the hopelessly inept GOP? What a bunch of non thinking bobbing heads. The entire bunch combined has offered exactly what the Dems have offered. Nada, nothing, nil. At least Trump has shown the courage of conviction. He is disgusting and crass which is refreshing and inspiring. PC judges support it anyway.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial Judge, Leonard P. Stark, U.S. District Court of Delaware, ignored the jury’s admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored shocking new evidence that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook’s appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

U.S. intelligence officials say "top‐secret" emails Hillary Clinton kept on her private email server when she headed the State Department include the real names of CIA spies serving undercover overseas — a violation of federal law that has put the agents in harm's way, The Observer reports.

And, The Observer's John Schindler writes, those emails also include the names of foreigners on the CIA payroll, possibly endangering their lives.

"At a minimum, valuable covers have been blown, careers have been ruined, and lives have been put at serious risk. Our spies' greatest concern now is what's still in Hillary's emails that investigators have yet to find," Schindler, a former National Security Agency analyst, says in his report.

Obama is a truly fascinating American president. Yesterday he spoke at a mosque in Baltimore and lectured US citizens for being mean to Muslims. He didn't say anything about the hundreds of deadly attacks by Muslims on Americans and American interests since the late 1970's. He speaks of their important contributions to American society while they obviously fail to integrate into our society when they get the chance. He claims to fight for equality of all women in America while Muslim men treat women as second class citizens. In their societies around the world, women can't drive, they can not hold public office, little girls don't go to school, and women can't show off their new hairdos. Obama is not an ignorant or misinformed man......he is either totally delusional, or a man with a non Christian, non atheist, non Jewish agenda. Whether he claims to be a Muslim or not, he is totally fascinated in their theocratic way of societal control. The mosque in which he spoke is actually on a terror watchlist........yet not once did he suggest that the local Imam should stop his radicalizing preaching. Why? Often when Obama speaks, he has all Christian wall artifacts removed or covered. Yesterday he stood in front of a very large Islamic symbol as he spoke.

So we have Obama, on one hand, soft selling Islam in America, and we have Hillary and Bernie, on the other hand, peddling socialism as a solution to our current economic malaise. Folks, we are facing a seminal American election. The way this is setting up, we don't have enough moxie to overcome the stage that has been set? This country has a massive pile of debt, a faltering economy, porous borders, and a broken political system. My second question is, when will these idiot Republicans stop their third grade antics and talk to us about solutions, plans, ideas, and leadership? Are we toast? I truly pray that a leader will emerge.

The controversy surrounding Monday’s Iowa caucuses ramped up Thursday, with the top Iowa paper calling for an audit into the results of the Democratic caucus, and declaring “something smells in the Democratic Party.”

[AFI EDITOR COMMENT: Just for the record, AFI contributing writers have been warning for several years now that the Cartel would alter the voting records in tight races to make sure their Manchurian Candidate would win. Electronic voting has made this even easier. Remember, that NSA backdoor named “Dual_EC-DRBG” algorithm that is embedded in everything including your toaster (including voting machines) has this DRBG algorithm embedded on the chips and in the software? Hello folks, it doesn’t appear that the Spy State Cartel is going to allow the 2016 election to be “free and fair” if we let them get away with this criminality. They know they don’t need to cook all the books, just those in swing precincts, like it appears they did for Hillary in Iowa.]

VIGILANCE.

Hillary and Bill’s cozy relationships with Goldman Sachs and the big banks is being outted by Bernie Sanders, I love it.

Here are some of Bernie’s more shining moments in the MSNBC debate last night:

Here are the facts that Hillary is artfully dodging:

Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook.

See disclosure of substantial holdings in Facebook and Facebook-related stocks. Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in Pfaff v. Wells Electronics, Inc.—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook’s evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. HOMELAND SECURITY WHISTLEBLOWER STEPS FORWARD

http://www.newsmax.com/Newsfront/dhs-ists-destroy-records/2016/02/06/id/713047/

A veteran official with the Department of Homeland Security claims he and other staff were ordered to destroy records on a federal database that showed links between possible jihadists and Islamic terrorist groups.

‘After leaving my 15-year career at DHS, I can no longer be silent about the dangerous state of America’s counter-terrorism strategy, our leaders’ willingness to compromise the security of citizens for the ideological rigidity of political correctness—and, consequently, our vulnerability to devastating, mass-casualty attack,” the former employee, Patrick Haney, wrote in an explosive column that was published late Friday on The Hill website.

Here is more coverage on DHS Whistleblower Patrick Haney:

Haney, P. (Feb. 05, 2016). DHS ordered me to scrub records of Muslims with terror ties. The Hill.

Amid the chaos of the 2009 holiday travel season, jihadists planned to slaughter 290 innocent travelers on a Christmas Day flight from the Netherlands to Detroit, Michigan. Twenty-three-year old Nigerian Muslim Umar Farouk Abdulmutallab intended to detonate Northwest Airlines Flight 253, but the explosives in his underwear malfunctioned and brave passengers subdued him until he could be arrested. The graphic and traumatic defeat they planned for the United States failed, that time.

Following the attempted attack, President Obama threw the intelligence community under the bus for its failure to “connect the dots.” He said, “this was not a failure to collect intelligence, it was a failure to integrate and understand the intelligence that we already had.”

Most Americans were unaware of the enormous damage to morale at the Department of Homeland Security, where I worked, his condemnation caused. His words infuriated many of us because we knew his administration had been engaged in a bureaucratic effort to destroy the raw material—the actual intelligence we had collected for years, and erase the dots. The dots constitute the intelligence needed to keep Americans safe, and the Obama administration was ordering they be wiped away.

This blog has been right on about Goldman Sachs and Billary’s central role in the Cartel, the theft of Leader Technologies’ social networking invention and the NSA spying on Americans. No wonder Billary has no good answer. Anything she says digs her political grave. I totally love it!!!! Right on AFI!!!!

Why can’t Hillary Clinton find a good answer on Goldman Sachs? Maybe there isn’t one. By Janell Ross February 6 The Washington Post

6. Compromise of a SAP is the single most dangerous security violation that can ever happen to the USA. Even the enormously damaging revelations of the Edward Snowden's TOP Secret SCI security compromise does not reach the level of a SAP compromise.

7. To put SAP information in to an unsecure sever like Hillary Clinton's unsecure server is a class one felony that could, in some cases, result in life in prison. That is because such a compromise is so dangerous that it could and likely will result in the death of people protected by and within the scope of the SAP.

As a former SAP Program Manager I believe it is inconceivable that if it is verified that Hillary Clinton's server actually had SAP information on it that she could possibly escape indictment and criminal prosecution. As hard as it is to imagine, that would even be worse then electing to not prosecute a mass murdering serial killer because even they could not inflict as much damage on our country as the compromise of a SAP. Compromise of a SAP not only could -- but without doubt would -- cause serious damage to our national security.

If it is true that Hillary Clinton had SAP information on her unsecure server, whether it was marked or not, you can be sure that the FBI will strongly recommend that charges be brought against Hillary Clinton and continue in an exhaustive investigation to trace back to every single person that had even the tiniest role in this unbelievable security compromise.

If the Attorney General, through “prosecutorial discretion,” elected not to prosecute this crime, I believe congress would have no alternative but to impeach her and the FBI would then have no choice but to conduct a criminal investigation of her for a deliberate cover up -- so grave is this security violation.

If President Obama were to pardon Hillary Clinton for a compromise of this magnitude he would render himself in the historical record as an “enemy of the state,” and could himself face criminal prosecution -- so grave is such a security compromise. Nobody, not even the POTUS could get away with something like this in our system of government. If anyone could escape persecution for compromising a SAP, we are deep trouble as a nation. No president who loves this country and is ttrue to his oath would ever allow anyone, not even his or her closest and most loved relative, to get away with a SAP compromise. It is simply unimaginable that this could ever happen.

If the ongoing investigation finds that Hillary Clinton compromised a SAP, then we all should know with certainty, regardless of political persuasion, that she is entirely unfit to hold public office of any kind let alone President of the USA -- and ALL Americans should never tolerate it. Compromising a SAP is an absolute “disqualifier” for public office and access to our nations most sensitive information - period.

P.S. It is my sincere hope that each of you will share this article, to help other Americans understand how grave Hillary Clinton’s alleged SAP compromise is. We can’t allow anyone so careless with this level of information to have access to any classified information ever again for as long as she lives. This would surely render her unqualified and unfit to hold any public office let alone POTUS if this allegation proves to be true.

Petition from the left-leaning CREDO. While the wording of the pitch blames Republicans and not Democrats who BOTH have their hands in the Wall Street cookie jar, all Americans have an interest in putting Wall Street's post deregulation greed and fraud back in the bottle that Bill Clinton and Larry Summers (Democrats) unleashed on the world when they abolished Glass-Steagall banking regulations in 1999.
