OBAMA PROMOTES IBM CRIMINALITY IN LATEST EXECUTIVE ORDER

TRIES TO CODIFY IBM'S THEFT OF SOCIAL NETWORKING FROM OHIO INNOVATOR LEADER TECHNOLOGIES BY CALLING IT "THE INTERNET OF THINGS"

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | FEB. 12, 2016, UPDATED FEB. 25, 2016 | PDF

BREAKING NEWS! FEB. 23, 2016 - [C.I.A. whistleblower Jeffrey Sterling](#), currently serving jail time for leaking documents to The New York Times, said today from his prison cell that Hillary Clinton has been given a pass by the Obama Administration regarding her flagrant email abuses of classified information. Hillary's untouchability is evidently tied to Bill Clinton's defining role in the National Infrastructure Advisory Council (NIAC) and collusion with IBM and the IBM Eclipse Foundation exposed by Obama's latest executive order discussed in this post.

On Oct. 07, 2009, Samuel Palmisano, retiring IBM CEO and National Infrastructure Advisory Council (NIAC) charter member (including the membership of chief outside counsel, James P. Chandler), was awarded the 2008 National Medal of Science and the National Medal of Technology and Innovation by new President Barack Obama. Photo: Getty/Mandel NGAN

Social Networking: The True Story

HealthCare.gov's confiscation of this property cannot stand

Leader: 145,000 man-hours • over \$10 million • 20 people • solid engineering • hackers not welcome • affirms privacy, security, property • no foreign influence • respects U.S. Constitution

Facebook: "one to two weeks" • beer money • all by myself • 28 hidden hard drives • stole Harvard photos • hacks email • PayPal Mafia handlers • scofs at privacy • corrupts markets, judges, politicians & gov't agencies

A succession of executive orders preceded Obama latest order on Feb. 09, 2016.

- EO 13130 (Jul. 14, 1999, Clinton) became:
- EO 13286 (Feb. 28, 2003, Bush), then
- EO 13385 (Sep. 29, 2005, Bush), then
- EO 13446 (Sep. 28, 2007, Bush), then
- EO 13511 (Sep. 29, 2009, Obama).
- Now comes: EO [unnumbered] (Feb. 09, 2016, Obama).

These orders have created the American spy state "public-private" Cartel, with spy master James P. Chandler, IBM and Thomas E. Noonan directing traffic. All this activity has occurred outside of Congressional oversight.

This is the shadowy "Washington Cartel" that uses mass surveillance to blackmail, coerce and bribe bureaucrats, politicians, judges, academia and the media into submission, in our opinion. An endless stream of "dirt" on your targets is a powerful weapon to preserve power.

(FEB. 11, 2016)—Just a few days ago, on Feb. 09, 2016, Barack Obama signed an Executive Order creating the Commission on Enhancing National Cybersecurity (CENC).

OBAMA IS DOCUMENTING A PATTERN OF FRAUD AND RACKETEERING

President Obama wrote in protections for IBM's "The Internet of Things" market push. We believe this action is criminal on numerous counts. (1) He violates ethical pledges of impartiality by federal employees, (2) he fraudulently conceals his IBM loyalties, and (3) he colludes with a host of individual and companies across state lines in a pattern of RICO racketeering (Racketeer Influenced and Corrupt Organizations).

BARACK OBAMA EXECUTIVE ORDER, SEC. 3(A)(II), FEB. 09, 2016, COMMISSION ON ENHANCING NATIONAL CYBERSECURITY (CENC)

(ii) ensuring that cybersecurity is a core element of the technologies associated with the Internet of Things and cloud computing, and that the policy and legal foundation for cybersecurity in the context of the Internet of Things is stable and adaptable;

FIG. 2—Barack Obama Executive Order, Feb. 09, 2016, Commission on Enhancing National Cybersecurity (CENC). Obama identifies IBM "The Internet of Things" market initiative and is attempting to codify its stability and adaptability. Obama fails to disclose that IBM's claim to the enabling social networking technologies is fraudulent, having been stolen from Columbus, Ohio innovator Leader Technologies, Inc.

UPDATE MAR. 25, 2014

FIVE CRITICAL AFI POSTS ON JUDICIAL COMPROMISE

Fully updated Mar. 25, 2014 in the wake of the Scribd censorship:

1. **HOW PATENT JUDGES GROW RICH ON THE BACKS OF**

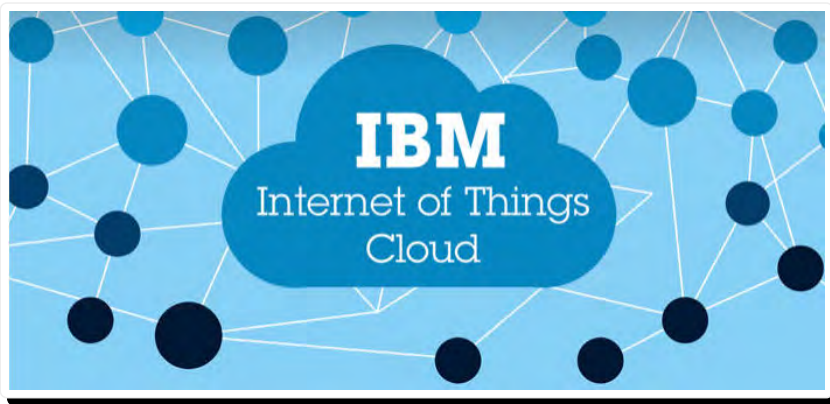

FIG. 3—IBM started using the term "The Internet of Things" and cloud computing in about 2009. Today, this theme dominates IBM's market push. Barack Obama is essentially using the power of the presidency to promote IBM in evident violation of the ethics rules, namely the [Standards of Ethical Conduct for Employees of the Executive Branch](#) (Subpart D - Conflicting Financial Interests, and Subpart E - Impartiality in Performing Official Duties).

Obama's order is the latest in a string of cybersecurity orders reaching back to Bill Clinton in 1999. On the surface the goal to protect the national from cyber threats seems noble enough. However, these orders are the devil's playground. They have created the illegal American spy state outside of Congressional oversight.

The councils created carry the same acronym:

- 1999-2001 National Infrastructure Assurance Council (NIAC) (Clinton)
- 2002-2016 National Infrastructure Advisory Council (NIAC) (Bush, Obama)

Here's the sequence of these secretive executive authorities, all funded by the U.S. Department of Commerce which also manages the U.S. Patent Office:

2002-2008
Bush EOs: [13286](#), 13385, 13446

Preparing the way for behind the scenes manipulation via IBM, Silicon Valley, Wall Street cronies during the next administration

The public record shows that IBM and its career IBMer Thomas E. Noonan have been fixtures at NIAC since inception.

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

On Aug. 29, 2002: Leader Technologies invention, magically appeared in **IBM** Eclipse Version 2.0.1, just 11 weeks after Leader had provided a custody copy of the source code to Chandler.

On Sep. 18, 2002: Bush appointed career **IBMer** Thomas E. Noonan to begin what would become a 14-year reign at NIAC (2002-2016), along with others, notably Cisco's John T. Chambers. Under George Bush, the name changed to the National Infrastructure Advisory Council, but the NAIC acronym was unchanged.

On Feb. 2-5, 2004: **IBM** Eclipse Foundation sponsored the first EclipseCON 2004.

On Feb. 4, 2004: Facebook launched during **IBM** EclipseCON 2004.

On Apr. 14, 2004: **Bush invited Wall Street to the spy state party, under the guise of "best practices;"** banks like Goldman Sachs, JPMorgan and Morgan Stanley (later Facebook underwriters).

On Dec. 08, 2004: **IBM** wrote they were "unable to locate" the original creator of the Eclipse social networking source code (Leader Technologies).

On Dec. 08, 2004: **IBM** sold the PC Group to the Chinese (Lenovo), underwritten by Goldman Sachs, JPMorgan and Credit Suisse (later Facebook underwriters).

On Feb. 10, 2007: Barack Obama announced his candidacy for president on Facebook, evidently an **IBM** spying creation.

On Aug. 07, 2009: Obama appointed another career **IBMer**, David J. Kappos, to run the Patent Office. Kappos is a Chandler protégé. The Patent Office is managed by the U.S. Department of Commerce which was and is also funding the NAIC executive orders. By Oct. 27, 2009, Kappos dumped his IBM stock and purchase The Vanguard Group—a big winner in the Facebook pintail public offering in 2012.

On Oct. 07, 2009: Obama awarded **IBM** the 2008 National Medal of Technology and Innovation social networking "The Internet of Things" invention which was **STOLEN** from Leader Technologies.

On Nov. 03, 2011: **IBM**, Eurotech SpA and The **IBM** Eclipse Foundation gave Facebook **IBM's** MQTT messaging technology.

On Mar. 22, 2012: **IBM** sold Facebook 750 patents.

On Apr. 17, 2012: career **IBMer** and Patent Office director, David J. Kappos, ordered Leader Technologies' patent killed by internal secret "reexamination" court. He assigned former **IBM** employee, Stephen C. Siu, as chief judge.

On Mar. 02, 2015: Obama and Valerie Jarrett met with his Pay-to-Play "Technology CEO Council" at the White House, including **IBM's** Virginia M. Rometty.

On Feb. 09, 2016: Obama promotes **IBM's** the "Internet of Things" by name in a new Executive Order likely in violation of ethics, racketeering and fraud laws, for starters.

IT IS TIME TO PULL THE PLUG ON THIS ABJECT CRIMINALITY MASQUERADING AS NATIONAL SECURITY.

BILL CLINTON INSTALLED JAMES P. CHANDLER TO NAVIGATE NIAC THROUGH THE BUSH YEARS

Tellingly, on Jan. 18, 2001, just a day before Clinton left office, he appointed James P. Chandler as a member of NIAC. Chandler was legal counsel to both IBM and Leader Technologies.

LEADER TECHNOLOGIES Inventor Protection Act (Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

—a technology upon which the President and U.S. government now rely;

—a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

Rescind. Investigate. Sanction. Certify.

Contact your representatives. Ask them to pass it. Real American inventors need your support.

Evidently, Chandler's role was to ensure that:
 (1) IBM controlled the emerging spy state and
 (2) Leader Technologies' new social networking invention became NIAC's core Internet architecture and applications.

[On Nov. 29, 2001](#), IBM and Chandler founded The Eclipse Foundation to become the repository of Leader Technologies' social networking invention.

ON AUG. 29, 2002, IBM published Leader's invention in IBM Eclipse Version 2.0.1 illegally marked with IBM copyrights. Chandler had received a custody copy of Leader's invention—his other paying client—**eleven weeks earlier**.

 George H. Conrades, Chairman and CEO, Akamai Technologies

FIG. 5—On Sep. 18, 2002, Thomas E. Noonan was appointed by George Bush, promoted by IBM outside counsel, James P. Chandler. Tellingly, Noonan gave a resume (shown above from NIAC's meeting minutes) that did not disclose that his Internet Security Systems is an IBM company and that he is a career IBM employee. This is very evidently willful deception. Chandler also does not disclose his close association with IBM and IBM's chief insided intellectual property counsel, David J. Kappos. Also tellingly, Kappos was appointed by Barack Obama as director of the U. S. Patent Office on [Aug. 07, 2009](#), in a surprise recess appointment.

ON SEP. 18, 2002, two weeks later, George Bush appointed Thomas A. Noonan as a member of NIAC, but cleverly disguised his long association with IBM.

[Noonan's current biographies](#) hide his deep IBM affiliation (1994-2008). Even NIAC's official records present a confused jumble of ambiguous associations. For example, [Noonan's LinkedIn profile](#) list five different affiliations from 1994 and 2008. He lists:

- GM, IBM Internet Security Systems, December 2006-June 2008 (1 year 7 months)
- CEO, Internet Security Systems (ISS) (an IBM Company) 1995-2008 (13 years)
- CEO, ISS (NASDAQ: ISSX, Acquired by IBM) 1994-2008 (14 years)
- Chairman and CEO, Internet Security Systems (ISS) 1994-2008 (14 years)
- CEO, Internet Security Systems March 1994-December 2006 (12 years 10 months)

FIG. 5—Thomas A. Noonan, career IBMer, BM Internet Security Systems (ISS) (1994-2008); Cisco (2009?-2016). His time after ISS appears to have been spent in Cisco surrogates.

How can one IBM employee be so confused about who he works for, unless he's not, but wants readers of his resume to be confused?

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's Leader v. Facebook attorney Gibson Dunn LLP. She credits this firm with the reason why not a single Wall Street banker has gone to jail since 2008. Click here to read her article "Everybody hates whistleblowers." Examiner.com, Apr. 10, 2012. Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ulyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless.

ongoing IBM affinities. IBM corporate website states: "Once an IBMer, always an IBMer." Judging from Noonan's post 2009 resume and current position at Cisco (another NIAC fixture), Noonan is receiving his "handsome reward" of significant financial gains, like another one of his dutiful counterparts at Baidu (China), Robin Y. Li.

AFI researchers see a now familiar Cartel pattern of obfuscation in Noonan's jumbled affiliations meant to confuse and discourage the casual reader from further investigation.

NOONAN HAS FAILED TO DISCLOSE COBIAN CORP (NOW IBM TOO)

Noonan failed to disclose a shady Cobian Corp, formed in Andover, Massachusetts on Nov. 04, 2002, just two weeks after George Bush / James P. Chandler appointed him to NIAC on Sep. 18, 2002. Germans Olaf Jacobi and Friedrich von Diest are identified on the incorporation papers. The incorporation attorney was a thuggish-looking Steffan Vounessea.

No evidence of a real Cobian Corp business exists.

However, on Oct. 11, 2006, IBM merged Cobian into Noonan's Internet Security Systems and moved the operation, such as it was, to IBM's Atlanta office at 6303 Barfield Rd NE, Atlanta, GA 30328.

Jan. 13, 2004. NIAC Meeting Noonan failed to disclose his affiliation with **IBM**

A. Evaluation and Enhancement Of Information Sharing and Analysis	<i>Thomas E. Noonan, Chairman, President & CEO, Internet Security Systems, Inc.; NIAC Member</i>

Ironically,
On Jan. 07-11, 2004, Leader Technologies provided notable alerting services to DHS (Dept. Homeland Security) Terrorex '04 simulation in Las Vegas, Nevada. DHS is the same organization that conducts Noonan's meeting and participates in the theft of social networking via Noonan and IBM.

http://www.ibm.com/press/us/2004/niac/niac_finaal_Minutes_011304.pdf

FIG. 6—THOMAS E. NOONAN disguised his IBM association to the National Infrastructure Assurance Council (NIAC) during its formative days. Noonan was recommended to this post by IBM chief outside intellectual property counsel, James P. Chandler. Chandler never disclosed his Noonan association to Leader Technologies, according to a Leader spokesperson. Noonan's public resumes are a jumble of on again, off again, overlapping disclosures of his career at IBM. Here are just a few of Noonan's vague and incomplete resumes: [Cisco](#), [Cisco-JouleX](#), [eWorks](#), [LinkedIn](#), [TechCrunch](#), [TechOperators](#), and [Bloomberg](#).

The evident purpose of Thomas E Noonan's jumbled biographies is to distance himself from his career IBM association which would lessen IBM's overarching control of NIAC activities to direct public policy on national security. Obama's latest executive order shows that IBM intends to embed the future of IBM in America's embedded infrastructure, just ensuring that the gravy train will be in perpetuity. One small problem for IBM is the fact that they rely on the seminal cloud computing invention of social networking that they stole from Columbus innovator, Leader Technologies. Click here: [NIAC Meeting Minutes from Jan. 13, 2004](#). Click here: [Terrorex 04 timeline](#).

NOONAN KNOWS ABOUT PERJURY. HIS FAILURE TO DISCLOSE COBIAN CORP APPEARS WILLFUL. WHAT ARE IBM & NOONAN HIDING?

On Oct. 11, 2006, IBM and Thomas E. Noonan merged Cobian Corp into IBM and Noonan became its chief executive and chairman. In Cobian Corp's Massachusetts filings, Noonan acknowledges that he knows what perjury is.

FIG. 7—THOMAS E. NOONAN demonstrates in this Cobian Corp disclosure that he is aware of the legal penalties for failing to disclose material information. However, nowhere does he ever disclose his association with Cobian Corp. To the best of our knowledge and research, Noonan has never disclosed Cobian Corp to the American public during his tenure at the National Infrastructure Advisory Council (NAIC). Click here: [Cobian Corp, MA Sec. of State Filing Apr. 06, 2006](#).

Cobian Corp appears to have been a "shell" company (no operations) that IBM and Noonan felt compelled to merge into IBM on Oct. 11, 2006 to make it go away. Given Noonan's and IBM substantial role in the secret workings of the NAIC, the American public have a right to know what Noonan and IBM are hiding.

FACT: IBM'S THEFT OF LEADER TECHNOLOGIES' SOCIAL NETWORKING INVENTION WAS OCCURRING CONCURRENTLY WITH THE COBIAN CORP FORMATION

The AFI Timeline shows for a fact that James P. Chandler and IBM were in the thick of the theft of Leader Technologies' invention at that time. [On Aug. 29, 2002](#), IBM Eclipse release version 2.0.1 On Nov. 04, 2002, Cobian Corp formed, and without any known operation. Then on Oct. 11, 2002, Cobian Corp was merged out of existence into IBM Internet Security Systems (Thomas E. Noonan's company) whereupon Noonan became its Chairman and CEO.

2002

- Aug. 22, 2003 Cobian Corp filed only one annual report

2006

Thomas E. Noonan's bio fails to disclose Cobian Corp anywhere. Nowhere does NIAC disclose Cobian or Cobian affiliations.

IBM has very evidently exploited Leader Technologies' invention of social networking and co opted it for its "The Internet of Things" strategy. It appears that BM's entire corporate strategy is now based on theft of Leader Technologies' invention. Even Barack H. Obama, the man we elected to protect the property and invention of all Americans, steals it for himself and his narrow-minded cronies. Click here: [PDF of this timeline](#).

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

... our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

Having now established that IBM and Thomas E. Noonan have been fixtures at NIAC since inception. And, having also established that IBM, James P. Chandler and Noonan are playing a **crooked game** with America's security and Leader Technologies' social networking invention, we now return to Barack Obama's latest Executive Order promoting IBM's the "Internet of Things."

IN ANY OTHER INDUSTRY, OBAMA'S PROMOTION OF THE IBM "INTERNET OF THINGS" BRAND SLOGAN WOULD BE AN OUTRAGE

It would be like Obama ". . . protecting the policy and legal foundation for product security in the context of:"

admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored **shocking new evidence** that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

OBAMA VIOLATES THE FEDERAL EMPLOYEE CODE OF ETHICS

Obama endorsement of IBM's The Internet of Things Cloud initiative, including his attempt to give it legal status, is a flagrant violation of 5 C.F.R. § 2635.702(c) that states:

"An employee shall not use or permit the use of his Government position or title or any authority associated with his public office to endorse any product, service or enterprise."

OBAMA VIOLATES THE RICO ACT

In addition, Obama's promotion of IBM's social networking "cloud" infrastructure crosses state lines to conspire with IBM and others to misappropriate Leader Technologies' invention violates the RICO (Racketeer Influenced and Corrupt Organizations) Act racketeering statute 18 U.S. Code § 1962(c) that states:

"It shall be unlawful for any person employed by or associated with any enterprise engaged in, or the activities of which affect, interstate or foreign commerce, to conduct or participate, directly or indirectly, in the conduct of such enterprise's affairs through a pattern of racketeering activity."

The wheels are coming off of this spy state Administration and its cronies.

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in Leader Techs, Inc. v. Facebook, Inc., 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Ninety-one percent of contributions to current presidential candidates made by Harvard faculty, instructors, and researchers in 2015 went to former Secretary of State Hillary R. Clinton, according to a Crimson analysis of Federal Election Commission filings.

Of the individuals who donated, 37 gave the maximum contribution for the primary period —\$2,700—to Clinton.

Of total donations, just \$8,850 went to Republican candidates Bush, Rubio, and Christie. The remaining \$3,290 in donations went to Democratic candidate Bernie Sanders. All other candidates—including GOP frontrunners Donald J. Trump and Ted Cruz, who came first in the Iowa caucuses last week—received no contributions from Harvard faculty, instructors, and researchers listed in the FEC filings

Barack Hussein Obama just put whip cream on his his cow patty of a presidency by announcing that he can't make it to Judge Scalia's funeral on Saturday. This action by BHO is despicable, mean spirited, and low class. Judge Scalia was a man of faith, integrity, had a brilliant mind for jurisprudence, and dedicated his life to the words of our founding fathers. Obama would rather hit the links.

You can bet your toosh that BHO would attend funeral services of Kanye West, Malcolm X, Saul Alinsky , Ahyatolla Khomeini or Fidel Castro. He has established a tradition of hating America and its founding values that is just incomprehensible . And to think that

held precedent for testing on-sale bar evidence in Pfaff v. Wells Electronics, Inc.—an evident and

intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned —a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. [See Motion to Disclose Conflicts of Interest](#). Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr.

Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. [See a full analysis of these events at Donna Kline Now!](#) Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's Pfaff v. Wells Electronics, Inc. test for on-sale bar evidence, which included even the Federal Circuit's own Group One v.

Hillary is running a campaign to follow in BHO's path of destruction. They make me sick to my stomach.

I sit in front of my TV this morning watching the highest religious funeral service available to a Catholic....the Burial Mass. The solemnity of the service is perfect for a great American such as Antonin Scalia. His son is one of the priest celebrants. As a Catholic myself, I can think of no greater send off than having a son at the altar.

Of course Barack Hussein Obama showed his disdain for America by refusing to attend this beautiful Mass. I can't wait to see how many attend BHO's funeral. As Yogi Berra said, " if I don't go to his funeral, he won't come to mine".

I pray that Obama's cold and calculating heart is softened by the love shown to this marvelous American icon and magnificent jurist. I pray that all of us find the true meaning of life:

- understand God, love God
- understand our neighbors, love our neighbors
- understand ourselves, love ourselves.

Go in Peace , Justice Scalia.

According to NSA whistleblower, Edward Snowden, on June 6, 2013, Apple began feeding customer data to the NSA. Interestingly, a year after Steve Jobs died.

<http://www.fbcoverup.com/docs/cyberhijack/cyber-hijack-findings.html#snowden>

So, the San Bernardino police should ask the NSA for the data. All sides in this supposed Apple encryption controversy are presenting faked up positions.

What's their end game? If history is a teacher, they want Congress to change some law that will further strengthen their secret control over digital networks, including the ability to conduct warrant-less surveillance on Americans in violation of the Bill of Rights.

History confirms Lord Acton (1834-1902): "Power tends to corrupt and absolute power corrupts absolutely."

Here is The Guardian's source data on Edward Snowden's disclosure that Apple has been sharing customer data with the NSA:

The simple math proves Zuckerberg is a liar. It is amazing that the lame stream media never did this math and discredited the kid long ago.

Leader Technologies testified that their social networking platform consisted of 750,000 lines of computer code by 2002. Code for which they had invested over \$10 million.

Zuckerberg testified in the Winklevoss Twins case that he developed the entire Facebook platform in less than two weeks. Leader Technologies proved that the engine running Facebook is Leader's invention.

Zuckerberg's math does not compute. He'd have to be typing 5.2 times faster than the fastest typist on the planet. 750,000 lines of code in 14 days. That is 53,571 lines per day. Let's say its a long 10 hour day. That would mean 5,357 lines per hour, or 89 lines per minute.

Currently, the fastest English language typist is Barbara Blackburn, who reached a peak typing speed of 212 words per minute during a test in 2005. At 12 words per line. Blackburn can type 17 lines per minute.

Hmmm. Fastest typist on the planet = 17 lines per minute

Zuckerberg claims 89 lines per minute (5.2 times faster than the fastest typist on the planet typing nonstop, 10 hours a day for two weeks, without a break.)

Zuckerberg's claim is impossible.
