OBAMA PROMOTES IBM CRIMINALITY IN LATEST EXECUTIVE ORDER

TRIES TO CODIFY IBM'S THEFT OF SOCIAL NETWORKING FROM OHIO INNOVATOR LEADER TECHNOLOGIES BY CALLING IT "THE INTERNET OF THINGS"

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | FEB. 12, 2016, UPDATED FEB. 25, 2016 | PDF

BREAKING NEWS! FEB. 23, 2016 - C.I.A. whistleblower Jeffrey Sterling, currently serving jail time for leaking documents to The New York Times, said today from his prison cell that Hillary Clinton has been given a pass by the Obama Administration regarding her flagrant email abuses of classified information. Hillary's untouchability is evidently tied to Bill Clinton's defining role in the National Infrastructure Advisory Council (NIAC) and collusion with IBM and the IBM Eclipse Foundation exposed by Obama's latest executive order discussed in this post.

FIG. 1—BARACK OBAMA SHOWERS IBM WITH AWARDS, FAVORS AND "CRIMINAL" EXECUTIVE ORDERS

- EO 13330 (Jul. 14, 1999, Clinton) became:
- EO 13130 (Feb. 28, 2003, Bush), then
- EO 13385 (Sep. 29, 2005, Bush), then
- EO 13446 (Sep. 28, 2007, Bush), then
- EO 13511 (Sep. 29, 2009, Obama).

These orders have created the American spy state “public-private” Cartel, with spy master James P. Chandler, IBM and Thomas E. Noonan directing traffic. All this activity has occurred outside of Congressional oversight.

This is the shadowy ‘Washington Cartel’ that uses mass surveillance to blackmail, coerce and bribe bureaucrats, politicians, judges, academia and the media into submission, in our opinion. An endless stream of “dirt” on your targets is a powerful weapon to preserve power.

(FEB. 11, 2016) – Just a few days ago, on Feb. 09, 2016, Barack Obama signed an Executive Order creating the Commission on Enhancing National Cybersecurity (CENC).

OBAMA IS DOCUMENTING A PATTERN OF FRAUD AND RACKETEERING

President Obama wrote in protections for IBM’s “The Internet of Things” market push. We believe this action is criminal on numerous counts. (1) He violates ethical pledges of impartiality by federal employees, (2) he fraudulently conceals his IBM loyalties, and (3) he colludes with a host of individual and companies across state lines in a pattern of RICO racketeering (Racketeer Influenced and Corrupt Organizations).

BARACK OBAMA EXECUTIVE ORDER, SEC. 3(A)(II), FEB. 09, 2016, COMMISSION ON ENHANCING NATIONAL CYBERSECURITY (CENC)

(ii) ensuring that cybersecurity is a core element of the technologies associated with the Internet of Things and cloud computing, and that the policy and legal foundation for cybersecurity in the context of the Internet of Things is stable and adaptable;

FIG. 2: Barack Obama Executive Order, Feb. 09, 2016, Commission on Enhancing National Cybersecurity (CENC). Obama identifies IBM “The Internet of Things” market initiative and is attempting to codify its stability and adaptability. Obama fails to disclose that IBM’s claim to the enabling social networking technologies is fraudulent, having been stolen from Columbus, Ohio innovator Leader Technologies, Inc.
Barack Obama is essentially using the power of the presidency to promote IBM in evident violation of the ethics rules, namely the Standards of Ethical Conduct for Employees of the Executive Branch (Subpart D - Conflicting Financial Interests, and Subpart E - Impartiality in Performing Official Duties).

Obama's order is the latest in a string of cybersecurity orders reaching back to Bill Clinton in 1999. On the surface the goal to protect the national from cyber threats seems noble enough. However, these orders are the devil's playground. They have created the illegal American spy state outside of Congressional oversight.

The councils created carry the same acronym:

1999-2001 National Infrastructure Assurance Council (NIAC) (Clinton)
2002-2016 National Infrastructure Advisory Council (NIAC) (Bush, Obama)

Here's the sequence of these secretive executive authorities, all funded by the U.S. Department of Commerce which also manages the U.S. Patent Office:

The public record shows that IBM and its career IBMer Thomas E. Noonan have been fixtures at NIAC since inception.

IBM SPY STATE TIMELINE

On Jan. 18, 2001, Clinton appointed career IBM outside counsel (and his national security adviser), James P. Chandler to NIAC.

On Nov. 29, 2001, IBM provided a $40 million "donation" to start The Eclipse Foundation with their chief outside intellectual property counsel, James P. Chandler, who was also Leader Technologies' patent counsel, but who did not disclose his conflicts of interest, which is unethical and illegal for an attorney.

Stop Facebook Property Theft

We see. We "like." We steal. STOP FACEBOOK PROPERTY THEFT.

Will Humankind Ever Learn? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under Mao's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

BILL CLINTON INSTALLED JAMES P. CHANDLER TO NAVIGATE NIAC THROUGH THE BUSH YEARS

On Aug. 29, 2002, Leader Technologies invention, magically appeared in IBM Eclipse Version 2.0.1, just 11 weeks after Leader had provided a custody copy of the source code to Chandler.

On Sep. 18, 2002, Bush appointed career IBMer Thomas E. Noonan to begin what would become a 14-year reign at NIAC (2002-2016), along with others, notably Cisco’s John T. Chambers. Under George Bush, the name changed to the National Infrastructure Advisory Council, but the NIAC acronym was unchanged.

On Dec. 8, 2004, IBM wrote they were “unable to locate” the original creator of the Eclipse social networking source code (Leader Technologies).

On Dec. 8, 2004, IBM sold the PC Group to the Chinese (Lenovo), underwritten by Goldman Sachs, JPMorgan and Credit Suisse (later Facebook underwriters).

On Feb. 10, 2007, Barack Obama announced his candidacy for president on Facebook, evidently an IBM spying creation.

On Aug. 7, 2009, Obama appointed another career IBMer, David J. Kappos, to run the Patent Office. Kappos is a Chandler protégé. The Patent Office is managed by the U.S. Department of Commerce which was and is also funding the NAIC executive orders. By Oct. 27, 2009, Kappos dumped his IBM stock and purchase The Vanguard Group—a big violation of ethics, racketeering and fraud laws, for starters.

On Apr. 17, 2012, career IBMer and Patent Office director, David J. Kappos, ordered Leader Technologies’ patent killed by internal secret “reexamination” court. He assigned former IBM employee, Stephen C. Siu, as chief judge.

On Mar. 2, 2015, Obama and Valerie Jarrett met with his Pay-to-Play “Technology CEO Council” at the White House, including IBM’s Virginia M. Rometty.

On Feb. 9, 2016, Obama promotes IBM’s the “Internet of Things” by name in a new Executive Order likely in violation of ethics, racketeering and fraud laws, for starters.

LEADER TECHNOLOGIES Inventor Protection Act (Proposed)

America needs to practice what it preaches. We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking...—a technology upon which the President and U.S. government now rely.—a technology stolen by the Facebook G Ballet, who recruited the federal courts and Patent Office into their club of corruption.

Contact your representatives. Ask them to pass it. Real American inventors need your support.

Evidently, Chandler’s role was to ensure that:
(1) IBM controlled the emerging spy state and
(2) Leader Technologies' new social networking invention became NIAC’s core Internet architecture and applications.

On Nov. 29, 2001, IBM and Chandler founded The Eclipse Foundation to become the repository of Leader Technologies' social networking invention.

On Aug. 29, 2002, IBM published Leader’s invention in IBM Eclipse Version 2.0.1 illegally marked with IBM copyrights. Chandler had received a custody copy of Leader's invention—his other paying client—eleven weeks earlier.

THOMAS E. NOONAN (NIAC MEMBER FROM 2002–2016) DISguised DEEP IBM LOYALIES

ON SEp. 18, 2002, two weeks later, George Bush appointed Thomas A. Noonan as a member of NIAC, but cleverly disguised his long association with IBM.

Noonan's current biographies hide his deep IBM affiliation (1994–2008). Even NIAC's official records present a confused jumble of ambiguous associations. For example, Noonan's LinkedIn profile lists five different affiliations from 1994 and 2008. He lists:

- GM, IBM Internet Security Systems, December 2006–June 2008 (1 year 7 months)
- CEO, ISS (NASDAQ: ISSX, Acquired by IBM) 1994–2008 (14 years)
- Chairman and CEO, Internet Security Systems (ISS) 1994–2008 (14 years)
- CEO, Internet Security Systems March 1994–December 2006 (12 years 10 months)

How can one IBM employee be so confused about who he works for, unless he’s not, but wants readers of his resume to be confused?

NOONAN’S SHELL GAME

Noonan’s jumble of company names and titles are clearly meant to hide his continuous and

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook’s Leader v. Facebook attorney Gibson Dunn LLP. She credits this firm with the reason why not a single Wall Street banker has gone to jail since 2008. Click here to read her article “Everybody hates whistleblowers.” Examiner.com, Apr. 10, 2012. Here’s an excerpt:

“Skillful manipulation of the firm’s extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage.”

This statement followed right after Davis cited Facebook’s chief inside counsel in the Leader v. Facebook case, Theodore Ullyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless.
ongoing IBM affiliances. IBM corporate website states: "Once an IBMer, always an IBMer." Judging from Noonan's post 2009 resume and current position at Cisco (another NIAC fixture), Noonan is receiving his "handsome reward" of significant financial gains, like another one of his dutiful counterparts at Baidu (China), Robin Y. Li.

AFI researchers see a now familiar Cartel pattern of obfuscation in Noonan's jumbled affiliations meant to confuse and discourage the casual reader from further investigation.

**NOONAN HAS FAILED TO DISCLOSE COBIAN CORP (NOW IBM TOO)**

 Noonan failed to disclose a shady Cobian Corp, formed in Andover, Massachusetts on Nov. 04, 2002, just two weeks after George Bush / James P. Chandler appointed him to NIAC on Sep. 18, 2002. Germans Olaf Jacobi and Friedrich von Diest are identified on the incorporation papers. The incorporation attorney was a thuggish-looking Steffan Vounessea.

No evidence of a real Cobian Corp business exists.

However, on Oct. 11, 2006, IBM merged Cobian into Noonan's Internet Security Systems and moved the operation, such as it was, to IBM's Atlanta office at 6303 Barfield Rd NE, Atlanta, GA 30328.

**Fig. 6—Thomas E. Noonan disguised his IBM association to the National Infrastructure Assurance Council (NIAC) during its formative days. Noonan was recommended to this post by IBM chief outside intellectual property counsel, James P. Chandler. Chandler never disclosed Noonan's association to Leader Technologies, according to a Leader spokesperson. Noonan's public resumes are a jumble of on again, off again, overlapping disclosures of his career at IBM. Here are just a few of Noonan's vague and incomplete resumes: CBS News, TechCrunch, LinkedIn, TechOperators, and YahooNews.**

The evident purpose of Thomas E Noonan's jumbled biographies is to distance himself from his career IBM association which would lessen IBM's overarching control of NIAC activities to direct public policy on national security. Obama's latest executive order shows that IBM intends to embed the future of IBM in America's ongoing IBM affinities.

FIG. 7—THOMAS E. NOONAN demonstrates in this Cobian Corp disclosure that he is aware of the legal penalties for failing to disclose material information. However, nowhere does he ever disclose his association with Cobian Corp. To the best of our knowledge and research, Noonan has never disclosed Cobian Corp to the American public during his tenure at the National Infrastructure Advisory Council (NAIC). Click here Cobian Corp. MA Sec. of State Filing Apr. 06, 2006.

Cobian Corp appears to have been a “shell” company (no operations) that IBM and Noonan felt compelled to merge into IBM on Oct. 11, 2006 to make it go away. Given Noonan’s and IBM substantial role in the secret workings of the NAIC, the American public have a right to know what Noonan and IBM are hiding.

FACT: IBM’S THEFT OF LEADER TECHNOLOGIES’ SOCIAL NETWORKING INVENTION WAS OCCURRING CONCURRENTLY WITH THE COBIAN CORP FORMATION

The AFI Timeline shows for a fact that James P. Chandler and IBM were in the thick of the theft of Leader Technologies’ invention at that time. On Aug. 29, 2002, IBM Eclipse release version 2.0.1 On Nov. 04, 2002, Cobian Corp formed, and without any known operation. Then on Oct. 11, 2002, Cobian Corp was merged out of existence into IBM Internet Security Systems (Thomas E. Noonan’s company) whereupon Noonan became its Chairman and CEO.

IBM has very evidently exploited Leader Technologies’ invention of social networking and co opted it for its “The Internet of Things” strategy. It appears that IBM’s entire corporate strategy is now based on theft of Leader Technologies’ invention. Even Barack H. Obama, the man we elected to protect the property and invention of all Americans, steals it for himself and his narrow-minded cronies. Click here Thomas E. Noonan’s dubious Cobian Corp Thomas E. Noonan’s bio fails to disclose Cobian Corp anywhere. Nowhere does NAIC disclose Cobian or Cobian affiliations.
NOONAN’S SMOKING GUN: UNDISCLOSED RELATIONSHIPS REVEAL THE SPY STATE CARTEL PROMOTED BY CLINTONS, OBAMA, BUSH

Having now established that IBM and Thomas E. Noonan have been fixtures at NIAC since inception. And, having also established that IBM, James P. Chandler and Noonan are playing a crooked game with America’s security and Leader Technologies’ social networking invention, we now return to Barack Obama’s latest Executive Order promoting IBM’s the “Internet of Things.”

IN ANY OTHER INDUSTRY, OBAMA'S PROMOTION OF THE IBM "INTERNET OF THINGS" BRAND SLOGAN WOULD BE AN OUTRAGE

It would be like Obama “… protecting the policy and legal foundation for product security in the context of:”

Eat Fresh (Subway),
Just Do It (Nike),

admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored shocking new evidence that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook’s appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

**OBAMA VIOLATES THE FEDERAL EMPLOYEE CODE OF ETHICS**

Obama endorsement of IBM’s The Internet of Things Cloud initiative, including his attempt to give it legal status, is a flagrant violation of 5 C.F.R. § 2635.702(c) that states:

“An employee shall not use or permit the use of his Government position or title or any authority associated with his public office to endorse any product, service or enterprise.”

**OBAMA VIOLATES THE RICO ACT**

In addition, Obama’s promotion of IBM’s social networking “cloud” infrastructure crosses state lines to conspire with IBM and others to misappropriate Leader Technologies’ invention violates the RICO (Racketeer Influenced and Corrupt Organizations) Act racketeering statute 18 U.S. Code § 1962(c) that states:

“It shall be unlawful for any person employed by or associated with any enterprise engaged in, or the activities of which affect, interstate or foreign commerce, to conduct or participate, directly or indirectly, in the conduct of such enterprise’s affairs through a pattern of racketeering activity.”

The wheels are coming off of this spy state Administration and its cronies.

Ninety-one percent of contributions to current presidential candidates made by Harvard faculty, instructors, and researchers in 2015 went to former Secretary of State Hillary R. Clinton, according to a Crimson analysis of Federal Election Commission filings.

Of the individuals who donated, 37 gave the maximum contribution for the primary period—$2,700—to Clinton.

Of total donations, just $8,850 went to Republican candidates Bush, Rubio, and Christie. The remaining $3,290 in donations went to Democratic candidate Bernie Sanders. All other candidates—including GOP frontrunners Donald J. Trump and Ted Cruz, who came first in the Iowa caucuses last week—received no contributions from Harvard faculty, instructors, and researchers listed in the FEC filings.

Barack Hussein Obama just put whip cream on his cow patty of a presidency by announcing that he can’t make it to Judge Scalia’s funeral on Saturday. This action by BHO is despicable, mean spirited, and low class. Judge Scalia was a man of faith, integrity, had a brilliant mind for jurisprudence, and dedicated his life to the words of our founding fathers. Obama would rather hit the links.

You can bet your toosh that BHO would attend funeral services of Kanye West, Malcolm X, Saul Alinsky , Ahyatolla Khomeni or Fidel Castro. He has established a tradition of hating America and its founding values that is just incomprehensible . And to think that

Hillary is running a campaign to follow in BHO’s path of destruction. They make me sick to my stomach.

Congressional leaders to increase the degree of federal oversight for large university endowments Congress has the power to reclassify these large universities as private foundations instead of public charities, which are applied to private non-profit organizations like the Gates Foundation. Harvard, which manages a $37.6 billion endowment, has repeatedly argued against such measures.

Harvard University responsibility to educate and install a strong moral code into future world leaders and its leadership is failing to maintain the academic and civic focus, so what is Harvard mission statement a free blowjob in the oval of unscrupulous dealings enabled by Goldman Sachs Wall Street people who don’t cheat and steal. I sit in front of my TV this morning watching the highest religious funeral service available to a Catholic—the Burial Mass. The solemnity of the service is perfect for a great American such as Antonin Scalia. His son is one of the priest celebrants. As a Catholic myself, I can think of no greater send off than having a son at the altar.

Of course Barack Hussein Obama showed his disdain for America by refusing to attend this beautiful Mass. I can’t wait to see how many attend BHO’s funeral. As Yogi Berra said, 'if I don’t go to his funeral, he won’t come to mine'.

I pray that Obama’s cold and calculating heart is softened by the love shown to this marvelous American icon and magnificent jurist. I pray that all of us find the true meaning of life:
- understand God, love God
- understand our neighbors, love our neighbors
- understand ourselves, love ourselves.

Go in Peace, Justice Scalia.

Have a great day, TEX

Obama visited the Pope. Followed by the CEO of Google. Now the Pope says Trump is not a Christian. The Pope doesn’t appear to be doing his job on his impartiality. He leads a big institution full of people with a variety of opinions and needs to refrain from such comments and treat every one of his fellow men equally.

IBM supplied Adolf Hitler’s mass data collection devices. Looks like they have not learned their lesson. Now, IBM has wormed their way in to control our entire communications. Unplug the bas_jrd before they betray us like they betrayed the German people.

We wrote about this geek betrayal surrounding encryption and the data world’s illegal cooperation with the NSA in recent posts:

APPLE IS PRETENDING IT DOES NOT SHARE CUSTOMER DATA WITH THE U.S. GOVERNMENT.

THE U.S. GOVERNMENT PRETENDS THAT APPLE DOES NOT SHARE CUSTOMER DATA WITH THEM.

THIS CURRENT ENCRYPTION CONTROVERSY IS A SHADOW PLAY TO FOOL THE MASSES.

HERE ARE THE FACTS:

Here is a complete NIST List of companies who embed the Dual_EC_DRBG backdoor algorithm in Apple products.

Apple's Tim Cook says that Apple products don't have security back doors, but this list definitively proves that they do. Here are Apple's NIST entries:

96-97
209-220
222-227
350-374
422-426
575-577
581-602
716
718-721
725-733
800-812
816
763-771

Again, whatever these digital pirates say, assume they are actually doing the OPPOSITE.

According to NSA whistleblower, Edward Snowden, on June 6, 2013, Apple began feeding customer data to the NSA. Interestingly, a year after Steve Jobs died.

http://www.fbccoverup.com/docs/cyberhijack/cyber-hijack-findings.html#snowden

So, the San Bernardino police should ask the NSA for the data. All sides in this supposed Apple encryption controversy are presenting faked up positions.

What's their end game? If history is a teacher, they want Congress to change some law that will further strengthen their secret control over digital networks, including the ability to conduct warrant-less surveillance on Americans in violation of the Bill of Rights.

History confirms Lord Acton (1834-1902): “Power tends to corrupt and absolute power corrupts absolutely.”

Here is The Guardian's source data on Edward Snowden's disclosure that Apple has been sharing customer data with the NSA:

It’s worth noting that Apple can bypass the passcode on devices running software prior to iOS 8, with or without a court order. Even if they were able to unlock the phone, there is no assurance that any 3rd party applications that the terrorists used were not still further encrypted like what’s app. But I have to ask this question is this all just a marketing ploy Apple did sell out According to NSA whistleblower, Edward Snowden

Gangster Government: Barack Obama and the New Washington Thugocracy - (Hardcover)

David Limbaugh is an author and attorney and a regular weekly columnist for WND. His books include “Crimes Against Liberty: An Indictment of President Barack Obama,” “The Great Destroyer: Barack Obama’s War on the Republic” and the New York Times bestseller "Bankrupt: The Intellectual and Moral Bankruptcy of Today’s Democratic Party"

They met at the CARTEL: U.S. Patent Office! The scene of the crime in the theft of Leader’s social networking invention?????? These people are getting reckless.

The word in the coffee houses here is that the San Bernardino iPhone contains information that is damaging to the CARTEL, so they concocted a misdirection story to get the public thinking the opposite of what is really going on.

Everyone here knows from Edward Snowden’s NSA leaks that Apple has been feeding data to the NSA since October 2012. So, the idea that Apple is holding back from sharing the San Bernardino data is ludicrous. Just ask the NSA!!! Therefore, they want America to think the OPPOSITE - that Apple is protecting them, when in fact, the opposite is true . . . Apple is protecting the CARTEL from damaging information on that iPhone.

Let’s not be fooled any longer by these pathological liars.

Here’s more proof that the NSA is nothing but a two-bit blackmail hustler:

BEWARE OF ZUCKERBERG BEARING GIFTS. One cannot build a reliable house on a foundation of shifting sand.

Check out this great article I read on WIRED:
To make the world’s wireless networks faster and better, Facebook will build a new breed of gear—and freely share it with the world’s telecoms.

The simple math proves Zuckerberg is a liar. It is amazing that the lame stream media never did this math and discredited the kid long ago.

Leader Technologies testified that their social networking platform consisted of 750,000 lines of computer code by 2002. Code for which they had invested over $10 million.

Zuckerberg testified in the Winklevoss Twins case that he developed the entire Facebook platform in less than two weeks. Leader Technologies proved that the engine running Facebook is Leader’s invention.

Zuckerberg’s math does not compute. He’d have to be typing 5.2 times faster than the fastest typist on the planet. 750,000 lines of code in 14 days. That is 53,571 lines per day.

Let’s say its a long 10 hour day. That would mean 5,357 lines per hour, or 89 lines per minute.

Currently, the fastest English language typist is Barbara Blackburn, who reached a peak typing speed of 212 words per minute during a test in 2005. At 12 words per line.

So Blackburn can type 17 lines per minute.

Hmmm. Fastest typist on the planet = 17 lines per minute

Zuckerberg claims 89 lines per minute (5.2 times faster than the fastest typist on the planet typing nonstop, 10 hours a day for two weeks, without a break.)

Zuckerberg’s claim is impossible.

Bill Gates backs FBI not Apple, is Bill Gates coming out of the cold ? Mark Zuckerberg is the latest tech leader to voice his support of Apple against the FBI. Zuckerberg said I don’t think requiring backdoors is going to increase security, this is the guy that turned of of your privacy settings on facebook

The two companies made waves in July 2014 by making a deal in which IBM became a glorified value-added reseller of Apple devices, selling iPhones and iPads loaded with custom IBM apps to the enterprise. IBM has developed and delivered 100 different enterprise apps for iOS devices since then. Now, experts wonder what will come next from this partnership.

On Wednesday, IBM and Facebook are announcing a partnership to take a step closer to the ideal. The partnership stems from how the companies bring complementary strengths to the lucrative business of data-fueled marketing.
