MITT ROMNEY CONCEALED STAKE IN OBAMA ENERGY STIMULUS WHILE ATTACKING IT

ATTACK ON TRUMP HIDES SINS: ROMNEY, OBAMA AND GOLDMAN SACHS PLAYED SHELL GAMES WITH \$2.43 BILLION IN SOLAR ENERGY DEALS WHILE HIDING ROMNEY'S INTERESTS

FIG. 1 – MITT ROMNEY AND BARACK OBAMA are both blowing smoke about Obama's energy stimulus boondoggle. Both Obama and Romney pretended to be on opposite sides of the \$90 billion Obama energy "stimulus." However, Romney was a secret beneficiary in AGUA CALIENTE, LLC that received \$967 million in stimulus funds, and was tied at the hip with Goldman Sachs and Citigroup who loaned another \$1.46 billion to AGUA parent, First Solar.

(MAR. 07, 2016)—Mitt Romney just called Donald Trump a fraud and a phony. The accusations rang hollow given his enthusiastic previous acceptance of Trump's support for his failed 2012 presidential bid. With friends like Mitt, who needs enemies? Mitt's speech and actions didn't fit

his squeaky clean persona. This triggered AFI researchers to dig into Romney's finances for clues to who was pulling his strings. It didn't take long to discover the puppet masters.

Mitt Romney's 2011 tax return contained a lone reference to "LEASE PAYMENT FROM AGUA CALIENTE, LLC ___ \$100." It is buried on [page 66 of 204 pages](#). (You read correctly, it is a one hundred dollar disclosure.) "Agua Caliente" is Spanish for "hot water."

FIG. 2—Mitt Romney's oblique 2011 tax return disclosure of Agua Caliente, LLC, page 66 of 204 pages.

In his 2012 presidential debates with Barack Obama, Mitt Romney decried the "\$90 billion" that Obama handed out with a large chunk going to "solar and wind" energy companies that were either faltering or bankrupt. The "\$90 billion" appears to have been inflated, but that is beside the point. It was tens of billions of dollars.

ROMNEY: "AGUA CALIENTE, LLC"

However, **Romney hid his financial interest** in a spinoff of First Solar, Inc. named **AGUA CALIENTE, LLC**.

In a spate of dubious transactions in late 2011 (see timeline below), Romney leased something to AGUA CALIENTE, LLC. It was so important that it deserved IRS disclosure. He provided no explanation, so how could the IRS assess it? It appears it was a CYA disclosure so that he could not be accused of totally hiding it—a **favorite trick of the unscrupulous**.

ROMNEY'S "\$100 LEASE" SHELL GAME

On Aug. 05, 2011, **AUGA CALIENTE** was acquired by **NRG Energy** from **First Solar**. **Goldman Sachs** owned 5.9% of First Solar.

In Aug. 2011, AGUA CALIENTE received \$967 million in Obama energy stimulus.

On Sep. 11, 2011, First Solar was loaned \$1.46 billion by Goldman Sachs and **Citigroup**.

On Oct. 10, 2011, NRG Energy formed **NRG Solar Sonora** in Delaware.

On Nov. 03, 2011, NRG Solar Sonora formed **NRG Solar** in Arizona.

Mitt Romney disclosed a 2011 AUGA CALIENTE lease. See Fig. 2.

The [U.S. Department of Energy lists AGUA CALIENTE](#) is owned by NRG Solar, the company formed on Nov. 03, 2011.

Therefore, Romney's lease could not have occurred in Arizona until *after* the Nov. 03, 2011 incorporation of NRG Solar in Arizona.

UPDATE MAR. 25, 2014

FIVE CRITICAL AFI POSTS ON JUDICIAL COMPROMISE

Fully updated Mar. 25, 2014 in the wake of the Scribd censorship:

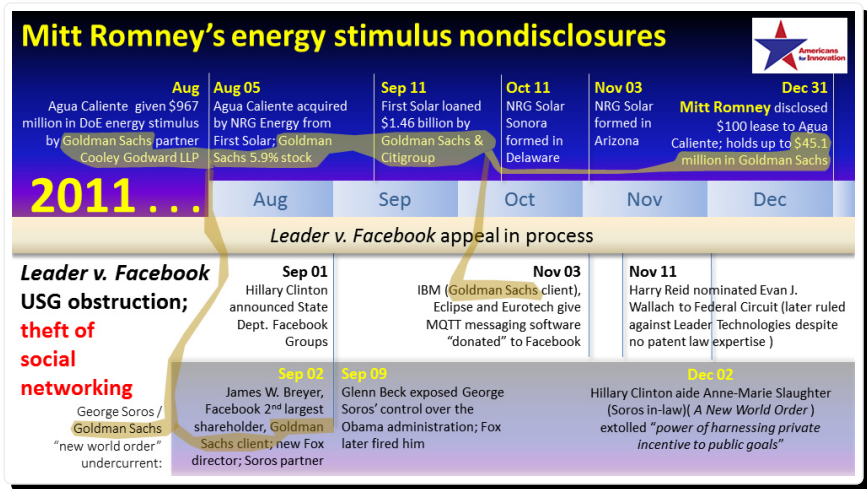

FIG. 3—Timeline of Mitt Romney's collusion with prime movers in Barack Obama's dubious energy stimulus.

ROMNEY HID ENERGY STIMULUS INVOLVEMENT WHILE CRITICIZING IT

In misdirection we have come to expect from the Washington Cartel, Mitt Romney played it well. He led the American people to believe he was against the Obama energy stimulus while he was secretly invested in it.

Further, he clearly supported Goldman Sachs' efforts to fund First Solar, NRG Energy, and thus AGUA CALIENTE. His 2011 financial disclosure reveals that he holds up to \$25.1 million in Goldman Sachs funds.

CRONY CAPITALISTS: LEFT, RIGHT AND CENTER

Mitt Romney, Barack Obama and Hillary Clinton are very evidently members of the same Crony Capitalist Club. Also evident is the fact that these scoundrels direct the "establishments" of both parties. In this small world, backroom deals are their bread and butter.

The U.S. Constitution is merely a speed bump.

Given the theft of global Internet infrastructure currently at play via the theft of Leader Technologies' social networking invention, it appears the Constitution's days of separation of powers, mutual accountability and fairness as institutional norms are numbered.

WHAT CAN YOU DO?

Resist in any way you can. Start stepping away from the cliff's edge. Get your feet planted on firm moral ground. Americans have *allowed* themselves and the Constitution to be compromised. That acquiescence must stop. Knowledge is power. [NOTE: For example, stop using Facebook and comparable social platforms. Stop backing corrupt politicians. Vote for people who may start cleaning up our corrupt government . . .]

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Sickle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

—a technology upon which the President and U.S. government now rely;

—a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

Contact your representatives. Ask them to pass it.

The FBI says that only Apple can deactivate certain passcode protections on the iPhone, which will allow law enforcement to guess the passcode by using brute-force.

Taking bets that if Hillary loses the election, Obama will pardon her on about January 19, 2017, just before he leaves office.

Bill Clinton did the exactly same thing when he pardoned former CIA director, John M. Deutch, on January 19, 2001. Deutch was being indicted for classified information on his home computer. Same legal adviser. Who might that be James P. Chandler III ???

Coincidentally, Marne L. Deutch, John's daughter-in-law, is a serial employee of Larry Summers since Harvard in the early 1990s. She worked for him when he ran Clinton's Treasury Dept. Then, she followed him as his chief of staff when he was president of Harvard (during Zuckerberg's time). Then, Marne became Summers' chief of staff as chairman of the National Economic Council in 2009 (the bank bailout). Then, she worked for a while at AOL. In 2010, just before the Leader v. Facebook trial, Marne became a Facebook VP. She is now chief operating officer at Instagram where Summers is a director. ANYONE WHO DOESN'T BELIEVE THE SYSTEM IS RIGGED BY JUST STUDYING MARNE L. DEUTCH SHOULD HAVE HIS OR HER HEAD EXAMINED !!!!

As we have seen in this Romney expose post, the Republican and Democratic "establishment" are sleeping in the same bed and taking payola from the same Wall Street bank corruptors.

This video is less than four minutes and is well worth it. I have summarized some of the key points below.

Think about it. FEDERAL GOV'T EMPLOYEES SHOULD BE CONFLICTED OUT OF VOTING ABOUT GOVERNMENT SPENDING REFORMS THAT COULD ELIMINATE THEIR JOBS (since they will benefit by decisions favorable to them keeping their jobs).

Government Gone Wild. (May 2, 2011). Special Interests...EXPOSED!!!

THE HIDDEN DANGER [VOTING CONFLICT OF INTEREST] OF BIG GOVERNMENT

https://youtu.be/xOAgT8L_BqQ

Government itself is its own special interest, and will do and or say almost anything to protect itself. . . our freedoms may be at stake if we don't cut government soon.

Our federal government has seen an explosion in its size over the last ten years, and both political parties are to blame for this. How big has it grown? Over the last decade, the number of private sector employees has grown only 1%. But, the number of federal government employees has grown 15%. We are now out of the era of big government and into the era of enormous government.

Basically, Congress used this recession to expand government and entrench government workers.

When this recession started, while you are worrying about paying the bills and keeping a roof over your family's head, the Transportation Department had just one (1) employee making over \$170,000 per year. Today, that number is 1,690 employees making over \$170,000 per year.

When this recession started, while you were worrying about keeping your job and putting food on your table, the Department of Defense had 1,868 employees making over \$150,000 a year. Today, that number is 10,100 employees making over \$150,000 a year.

The number of federal employees making more than \$100,000 doubled during this recession, in less than two years.

In 2009, the average total compensation for PRIVATE SECTOR job is \$61,051, and \$123,049 for a FEDERAL SECTOR job.

There are approx. 21,300,000 gov't employees (16% of voting electorate).

Do you think they are going to vote for government reform when they are feeding at the trough? Add spouses of federal employees to this total and we get 32% of voting electorate will vote to keep their job.

In other words, federal government employees and their families are conflicted out on the subject of their compensation. THE BUSINESS JUDGMENT RULE DICTATES THAT THEY RECUSE THEMSELVES FROM VOTES ON GOVERNMENT REFORM.

In public corporations, officers are not allowed to vote on their own salaries and benefits. They must recuse.

Our government has gone rogue.

Google Joins Facebook-Led Initiative That is Rewiring Data Centre's Search-engine giant contributing designs for high-voltage server racks to Open Compute Project Foundation. The search engine giant, part of Alphabet Inc., on Wednesday said it is contributing designs for its high-voltage server racks to the non profit Open Compute Project Foundation, an effort to share designs for data-center equipment that has changed the balance of power in the computer-hardware industry.

A British company specialising in the design of data centres filed a lawsuit against Facebook claiming that the social media giant stole its designs and that the substantial value of the work ended up in Facebook's Luleå Data Center in Sweden The extensively redacted suit was filed by the BladeRoom Group, which has offices in both the UK and California, on the 23rd of March in San Jose, California and does not detail the circumstances in which its intellectual property was allegedly exposed to Facebook. BladeRoom specialises in scalable, modular data centres with low PUE, and is accusing Facebook of having passed IP-protected designs to the Open Compute Project, which was established by Facebook in 2011 as an open repository of innovative data centre design.

"Facebook claimed that it developed an innovative, pre-fabricated and modular construction approach and, extolling its benefits, encouraged the entire datacenter industry to shift from traditional practices to this new method. What Facebook did not disclose, however, was that this methodology and the detailed know-how supporting its use had in fact been **STOLEN BY FACEBOOK** from BRG,"

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

... our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The *Leader v. Facebook* patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on *Leader v. Facebook* until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

CODE OF CONDUCT FOR U.S. JUDGES

"CANON 2: A JUDGE SHOULD AVOID IMPROPRIETY AND THE APPEARANCE OF IMPROPRIETY IN ALL ACTIVITIES"

GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision *without any evidence other than speculation*, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact

discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. ([See that Jury Instruction No. 4.7 here.](#)) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (*Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.*)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. [See analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO.](#)

Judge Lourie also failed to apply his own law-test in *Group One v. Hallmark Cards* to the evidence. After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook.

[See disclosure of substantial holdings in Facebook and Facebook-related stocks.](#) Judge

Moore failed to follow the long-held precedent for testing on-sale bar evidence in *Pfaff v. Wells*

Electronics, Inc.—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012).

Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. [See Motion to Disclose Conflicts of Interest.](#) Judge

Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr.

Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. [See a full analysis of these events at Donna Kline Now!](#) Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also

failed to police his court when he failed to apply the Supreme Court's *Pfaff v. Wells Electronics, Inc.* test for on-sale bar evidence, which included even the Federal Circuit's own *Group One v. Hallmark Cards, Inc.* test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie *helped write* that opinion. [Group One test omission analysis.](#)

Clerk of Court Jan Horbaly, U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court's ruling was challenged by an *amicus curiae* brief revealing clear mistakes of law and new evidence. [See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in *Leader v. Facebook*.](#) Mr. Horbaly failed to disclose his conflicts of interest and close associations with numerous Facebook attorneys and law firms, as well as his close association with one of Facebook's largest shareholders, Microsoft, who is a Director of The Federal Circuit Bar Association where Mr. Horbaly is an ex officio officer. Additionally, the DC Bar revealed in a written statement that Clerk Horbaly is not licensed to practice law in the District of Columbia. [Editorial: What does that make the Federal Circuit with its location within in a stone's throw of the White House? A self-governing state?]

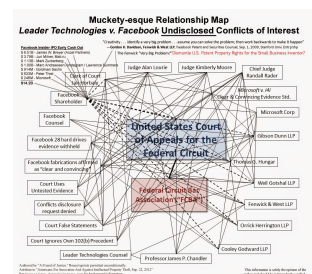

Judge Randall R. Rader, U.S. Court of Appeals for the Federal Circuit, chief judge responsible for the (mis)conduct of his judges and Clerk of Court in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting

relationships with a Leader principle with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. Chandler. [See analysis of Judge Rader's undisclosed conflicts of interest in Leader v. Facebook.](#) Judge Rader also did not stop his judges from creating new arguments and evidence for Facebook in the secrecy of chambers—after they had debunked all of Facebook's evidence on appeal, which is a clear breach of constitutional due process.

HOW TO FILE A FRAUD COMPLAINT AGAINST A UNIVERSITY

The following universities were announced as participants in Ohio State Provost Joseph A. Steinmetz's corrupt MOOC education initiative named "University Innovation Alliance" (UIA). We have identified the instructions and online forms you need to file a complaint with the participants. MOOC stands for "Massive Open Online Course."

You should complain about:

(1) the intellectual property theft of social networking source code from Leader Technologies, Columbus, Ohio that is the software engine running the UIA;

(2) the corruption at Ohio State University and OSU's collusion with Battelle Memorial Institute which helped steal the software being used by UIA; and

(3) the mistreatment of OSU Marching Band Director Jon Waters regarding fabricated Title IX charges that were used to pave the way for Steinmetz to announce UIA.

Universities pride themselves on protection of intellectual property.

Therefore, these universities cannot participate in this abuse of inventor

copyrights, patents and trade secrets by The Ohio State Trustees and Administration. If these universities participate knowingly with Ohio State in its theft of intellectual property, then they are aiding and abetting the theft of intellectual property on a "massive" scale... Massive Open Online Course (MOOC) also known as The Eclipse Foundation.
