# OBAMA NOMINATES SPY STATE CONSIGLIERI TO REPLACE JUSTICE SCALIA

## JUDGE GARLAND'S WEALTH GREW OVER \$800,000 ANNUALLY FOR 17 YEARS WHILE HE BACKED HIS CLINTON & BUSH SPY STATE SPONSORS IN THE NSA, FBI, JUSTICE DEPARTMENT AND RAYTHEON

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | MAR. 16, 2016, UPDATED MAR. 19, 2016 | PDF

**FIG. 1 – JUDGE MERRICK B. GARLAND.** On Mar. 16, 2016, President Obama nominated Judge Garland to replace the late Justice Antonin Scalia. Investigation so far into Judge Garland's history reveals his intimate relationship with the Washington Cartel who led the secret expansion of NSA surveillance under the Patriot Act snooping provisions. As is well known, this snooping included the illegal bulk surveillance of Americans by the NSA. This legacy should disqualify Garland. In addition, Garland would be another Harvard Law graduate on an already Harvard-stacked court.

Judge Garland was appointed to the DC Circuit Court in 1995 by Bill Clinton. He worked closely with Clinton confidante, James P. Chandler. Chandler has been IBM's chief outside counsel, founder of the IBM Eclipse Foundation in 2001, and patent counsel to Columbus, Ohio innovator, Leader Technologies starting in 2000.

Chandler stole Leader's social networking invention in 2002, then secretly fed it to BM and IBM's Eclipse Foundation membership. The evidence is now overwhelming that Mark Zuckerberg and others used this stolen Leader source code to start Facebook and other social platforms. These social platforms were custom-made to give the NSA a cheaper, faster, easier platform for mass surveillance.

**(MAR. 16, 2016)**—The now familiar fingerprints of the Washington Cartel are all over DC Circuit Judge Merrick B. Garland, Obama’s nominee to replace the late Justice Antonin Scalia.

## HARVARD SKEW

We'll start with Judge Garland's education. He's yet another Harvard Law School graduate. This fact alone should disqualify him since 5 of the 8 current justices are also Harvard graduates. American jurisprudence is already horribly skewed to the Harvard Law worldview. This imbalance can only be corrected by diversifying the Supreme Court to include lawyers who represent a broad range of educational backgrounds. The country is currently choking on all things Harvard.

The Harvard skew extends throughout the Obama Administration, especially in banking and technology by a cartel that is in the process of taking over the Internet with the recently Obama-endorsed "Internet of Things." [Click here for the Top 33 Harvard corruptors.](#)

These people include the heads of the CIA In-Q-Tel venture capital firm, Facebook, Instagram, Obamacare, Google, White House technology, JPMorgan, Goldman Sachs, Justice Department, SEC, Commerce, State Department and others in Silicon Valley.

## WHERE ARE THE PROTESTANTS?

Further, Garland is Jewish. The court does not now, and would not in the future, reflect a balance of belief systems consistent with the American population. We need to move the court toward balance, not further away from it.

For example, Protestant Christians make up approximately 53% of the American population, yet **there is not a single Protestant on the court.** Following John Paul Stevens's retirement in June 2010, the Court has an entirely non-Protestant composition for the first time in its history

### FACTS: PROTESTANT CHRISTIANS

53% of the United States population,  
0% (0 of 9) representation on the U.S. Supreme Court

### JEWISH

2.2% of the United States population,  
44% (4 of 9) representation with a Garland appointment

## FOLLOW THE MONEY

**\$3,456,340 (1995)**

At his [Nov. 30, 1995 Senate confirmation hearing](#), Judge Garland disclosed his net worth at \$3,456,340.

**\$19,055,000 (2012)**

[On Judge Garland's 2012 financial disclosure](#), he disclosed that his net worth has jumped up to \$19,055,000 million. Note: Judicial financial disclosures are dubiously vague. Rather than give actual amounts, they show ranges. For example: P1: \$1,000,000 to \$5,000,000. Many sins can be and are hidden in such wild ranges. The Judiciary Club takes care of its own first, followed by political sponsors, large attorney firms, financiers, corporate glad-handers, and lastly, the American people.

In short, while working as a full time federal judge for the last 17 years, Judge Garland's net worth increased magically an average of \$823,000 per year.

**UPDATE MAR. 25, 2014**

**FIVE CRITICAL AFI POSTS ON JUDICIAL**

# JUDGE GARLAND PROFITS BEAT BERNIE MADOFF!

Judge Garland averaged 32% (or \$823,000) per year in net gains from his investment portfolio. By comparison, even Bernie Madoff's scam promised investors only about 12% per year. Genius or inside trader? It's one or the other.

Even Bernie Madoff did not promise what Judge Garland achieved in 17 years of portfolio profits

Photo Portfolio

It is now evident that the Washington Cartel rewards its secret society with investment tips to judges, bureaucrats and politicians. Those tips are the bribe du jour of the Washington "establishment" on both the left and right. With such insider relationships, who needs votes?

Both Trump and Bernie appear to be threatening their status quo.

# JUDGE GARLAND'S SPONSORS: (1) EXPANDED NSA SNOOPING ILLEGALLY, (2) COLLUDED WITH IBM AND (3) AIDED THE THEFT OF SOCIAL NETWORKING ... ALL IN THE NAME OF "NATIONAL SECURITY"

It took some digging, but AFI researches uncovered a copy of [Judge Garland's Nov. 30, 1995 Senate confirmation hearing](#) late this afternoon.

## GARLAND: 15 JOBS IN 18 YEARS

Between 1977 and 1995, Merrick B. Garland changed jobs 15 times, or 1.2 years per job. Normally, professional resume readers consider such job hopping an indication that this person is not a good risk. [Garland Employment Record \(pages 43-44\)](#).

## POWERFUL INSIDER: CHIEF JUDGE

Oddly, Garland changed jobs 15 times in his first 18 years of employment, then has stayed in the same job at the DC Circuit for the last 19 years. That job must suit him better.

After more digging, researchers believe Garland was being groomed for his current job. Then, once he was in place at the DC Circuit, he has done the bidding of his taskmasters as CHIEF JUDGE of that court. This put him in one of the most powerful jobs in the Judiciary to carry out the agenda of his sponsors. Some experts, according to CBS News, believe his DC Circuit Court of Appeals is the second most powerful behind the Supreme Court. (Source: Scott Pelley, CBS Evening News, Mar. 16, 2016).

On Sep. 6, 1995, Bill Clinton nominated Judge Garland for the DC Circuit Court of Appeals, on the recommendation of his and Hillary's legal adviser, Harvard Law professor James P. Chandler, III.

William J. Clinton

Hillary R. Clinton

James P. Chandler

Chandler was pushing through the Economic Espionage Act, the False Statements Accountability Act, and numerous Executive Orders on national security at the time. He was also working closely with the NSA, FBI and other national intelligence bodies on the precursors to the illegal NSA bulk data collection scheme that emerged ready-made following 9-11 (2001).

WILL HUMANK ND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves

# CONFIRMATION DISCLOSURES TELL MANY TALES... WHEN AVAILABLE

As part of the nominating process, judge candidates must testify before the Senate Judiciary Committee and submit a financial disclosure and detailed biography. The Senate compiles all this information. [S. Hrg. 104-512. \(Nov. 30, 1995\). Judge Merrick B. Garland Senate Confirmation Hearing. Purdue.](#)

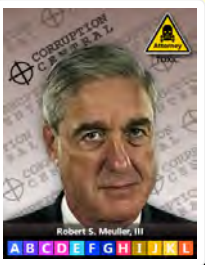

Surprisingly today, librarians at the Government Printing Office in Washington, D.C. were **unable** to locate Judge Garland's 1995 confirmation records. However, AFI researchers persisted and uncovered a copy in the archives at Purdue University. One would have thought such basic information about one of the most important Supreme Court nominees in living memory would be readily accessible to the public. It was not.

The Senate also published the letters of recommendation submitted on behalf of the judicial candidate by decision influencers. These letters carry a lot of weight with these busy committee members. See Table 1 below.

## ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

### LEADER TECHNOLOGIES Inventor Protection Act (Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

—a technology upon which the President and U.S. government now rely;

—a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

Rescind. Investigate. Sanction. Certify.

**Contact your representatives. Ask them to pass it.**  
Real American inventors need your support.

The U.S. Senate held a confirmation hearing to appoint Stephens to be Assistant Attorney General on Sep. 20, 2001. [S. Hrg. 107-603](#), just a week after 9-11.

In Stephens' 2001 Senate hearing, he disclosed Merrick B. Garland as a personal reference in his Senate hearing. [Stephens Hearing, p. 72](#). Therefore, this definitively ties Garland to Stephens' Raytheon interests. See below.

[Stephens Senate 2000 Financial Disclosure](#) is hand-written. **Researchers only see hand-written financial disclosures among lawyers applying for jobs in the Executive Branch.** (The information is not searchable electronically.) Stephens did not disappoint. Stephens' holdings carry the now unmistakable signature of the Washington Cartel (i.e., Vanguard, Fidelity, Janus, Harbor). And yes, Stephens holds Fidelity Contrafund, just like Eric Holder, John Roberts, Evan Wallach and others in the Leader v. Facebook judicial corruption.

In 2005, Stephens also disclosed Margaret G. Gill, Airtouch, Sr. VP for Legal, External Affairs, as a reference. [Id., p. 72](#). In 1995, [Ms. Gill also endorsed Judge Garland](#), in his Senate confirmation hearing. This is clearly a tight clique of lawyers.

In 2001, Stephens disclosed a Justice Department relationship with IBM (including undercover operations), which proves his association with Leader Technologies' patent counsel, James P.

## GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's Leader v. Facebook attorney Gibson Dunn LLP. She credits this firm with the reason why not a single Wall Street banker has gone to jail since 2008. Click here to read her article "Everybody hates whistleblowers." Examiner.com, Apr. 10, 2012. Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

Chandler, who also advised IBM and its inside counsel, David J. Kappos, who was appointed by Obama as Patent Office Director in 2009. [Stephens Hearing, p. 74](#)

Stephens later become senior vice president and general counsel of Raytheon Corp., a prime defense contractor, weapons manufacturer and vendor to the spy state.

Raytheon missile products are suspected by a highly credible senior aircraft manufacturing official to have been used on 9-11. He/she has investigated the gapping holes in the official story of 9-11 from both engineering and forensic perspectives. He/she oversaw manufacturing of certain portions of a well known aircraft.

For example, none of the crash sites had customary debris fields that one would normally find for commercial jets full of passengers and cargo (e.g., clothes, papers, luggage, children's toys). Also, the crash sites were bereft of titanium jet engines. He/she said that the titanium in a jet engine does not burn or disintegrate in a crash. The inferno, as spectacular as it is, never gets hot enough to melt titanium.

Jet fuel burns at 800° to 1500° F. Titanim melts at 3,034° F. You do the math. The myth debunkers (or astroturfers-propogandists) have steered clear of these facts.

Before the Garland nomination, this aircraft industry expert had said he/she believes that the site evidence makes Raytheon cruise missiles the more likely cause of the 9-11 site damage signatures. We had not published this previously, but when Raytheon's chief counsel became associated with the Garland nomination and the illegal NSA surveillance programs, this research may be material, and is certainly worth further investigation.

This statement followed right after Davis cited Facebook's chief inside counsel in the Leader v. Facebook case, Theodore Ulylot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. [Click here for a PDF version of Julie Davis' article.](#)

## CONCLUSIONS

- 1. NSA SPY STATE RELATIONSHIPS:** It appears that Judge Garland had a secret NSA Spy State agenda and set of relationships coming into his current job, and will certainly carry it into the Supreme Court, should he be confirmed.
- 2. DUBIOUS FINANCIAL GAINS:** Judge Garland's ability to grow his financial portfolio by over \$800,000 per year while a full time judge needs to be investigated for possible insider trading and/or collusion with Wall Street.
- 3. NO MORE JUDGES FROM HARVARD!** Judge Garland's spy agenda and dubious finances aside, the country needs to diversify its legal perspectives on the Supreme Court to include a majority NOT from Harvard.
- 4. RAYTHEON LOYALTIES** Judge Garland's sponsor, Jay B. Stephens, and therefore Raytheon, cruise missile manufacturer, ties him to the military-industrial complex. This taints Garland's objectivity. This association is disturbing and raises all sorts of other questions about Garland's association with the spy state agenda of the intelligence agencies and their private "Big Data" beneficiaries, including Silicon Valley and Wall Street.

For these reasons alone, the Garland nomination should be abjured.

## OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the

it for you. We welcome and encourage anonymous comments, especially from whistleblowers.

Google Joins Facebook-Led Initiative That is Rewiring Data Centre's Search-engine giant contributing designs for high-voltage server racks to Open Compute Project Foundation  
The search engine giant, part of Alphabet Inc., on Wednesday said it is contributing designs for its high-voltage server racks to the [NON-PROFIT] Open Compute Project Foundation, an effort to share designs for data-center equipment that has changed the balance of power in the computer-hardware industry.

Facebook claimed that it developed an innovative, pre-fabricated and modular construction approach and, extolling its benefits, encouraged the entire datacenter industry to shift from traditional practices to this new method. Facebook Mines Data Off Cancer Sites, Users Say

By NICHOLAS IOVINO courthouse news service  
Facebook spied on users that relayed private health information on the websites of major cancer institutes and harvested the data Websites for the medical institutes feature a secret "Facebook code" that "commandeers" users' web browsers and sends private information to the social media giant, Smith claims in his 92-page complaint.  
A person's health condition is the second most valuable piece of personal data sought after on the web behind login credentials and passwords, according to a 2015 study on web privacy and security cited in the complaint.

## CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

Email comment by TEX:

I watched Merrick Garland as Obama stood with Biden to announce his nomination to SCOTUS. He cried. He was so happy, he cried. Didn't the press go after Boehner for crying? And he was standing with Joe Biden , who in the late 1990's ( before his hair plug procedure ), had blasted the GOP for nominating a SCOTUS nominee during the presidential "political season". Obama said that the GOP was just playing politics this time, but the Dems had good reason to object in the 1990's. Shouldn't the press see this hypocrisy ? HA. Every time I see this crap, I become more convinced that it is time to clean house. All of them. Both sides. But don't be fooled.....the next two or three court appointees will be perhaps the most important in our history. This election will have huge consequences.

And how about the conservatives using secret meetings to begin clandestine measures to abrogate the will of their party.....i.e., block Trump. These hypocrites did the same thing in 2012 by not showing up to vote for Romney because he was a Mormon, and now they are using Romney to spearhead this ouster campaign. Is Romney that dumb? If he had fought this hard to defeat a crippled Obama, Trump would still be building hotels and firing idiots on TV. The GOP caused Trump. Obama caused Trump. Hillary caused Trump. And Romney caused Trump. Thank goodness this maverick showed up.

Americans are sick of an illusion of care. Politicians and the press, for the most part, don't care about me or you, or the needy, or the minorities, or our economy, or our schools.....if they did, we wouldn't have Trump. If the military vets had been cared for, we wouldn't have Trump. If the economy was working for us, we wouldn't have Trump. If we had actually tried to win from time to time, we wouldn't have Trump.

But we do, and we need to support his cause, guide his intentions, and pray for him. And in case you are wondering, I have a license to carry a weapon, and a constitutional right to pray. I am clinging to both. The man in office ( B Hussein Obama ) , wants to get control of both. Hillary and Sanders do too. Listen to Hillary. She now says that she is the extension of Obama. I hope they are cellmates during the next president's term. And do we need a cry baby on our Supreme Court ? Why are most judges wimps?

Have a great day, TEX=

In his best-selling memoir, Duty, former CIA Director and Secretary of Defense Robert M. Gates, comments (pages 446-449):

"...As we began the Afghan surge, 75 percent of all casualties were due to IED's...Once again, I went outside the regular bureaucracy to tackle these issues, and to do so urgently...We still had two wars going, one of them about to get significantly bigger [in Afghanistan]. Three years into the job, I just couldn't figure out why I still needed to be exhorting people on the urgency of taking care of the troops."

In short, even the Pentagon, with its clear mission of winning wars AND protecting our troops has taken their eyes off the ball. It took a passionate, caring leader like Gates to exert his influence to protect our family members, friends, and fellow citizens from harm's way. These people put their lives on the line for our country and were not being protected adequately. In addition, consider the scandal regarding the poor medical care provided to some of our veterans when they returned home!

With regard to cyber warfare, Gates writes: In dealing with America's vulnerability to cyber attacks on computers so vital to our critical infrastructure, business, and government, we were in uncharted waters both bureaucratically and legally. There was a deep division within the government--over who should be in charge of our domestic cyber defense: government or business, the Defense Department's National Security Agency, the Department of Homeland Security, or some other entity. There was a split

### CODE OF CONDUCT FOR U.S. JUDGES

"CANON 2: A JUDGE SHOULD AVOID IMPROPRIETY AND THE APPEARANCE OF IMPROPRIETY IN ALL ACTIVITIES"

### GALLERY OF JUDICIAL MISCONDUCT

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in Leader Techs, Inc. v. Facebook, Inc., 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact

between those whose priority was national security and those whose priority was the protection of privacy and civil liberties. The result was paralysis. Soon after my arrival in office, I asked the department's deputy general counsel for a memo on what kind of cyber attack--by us or on us--would constitute an act of war justifying a response in kind or conventional military retaliation. I WAS STILL WAITING FOR A GOOD ANSWER TO THAT QUESTIONS THREE YEARS LATER. [Editor: Caps added.]

Our government leaders have all too often taken their eyes off the ball. Clearly, many are focused on feathering their personal nests. Also clearly, many are indeed dedicated public servants.

We need to do everything we can to make sure the latter group prevails at the ballot box and during government approval processes.

Sorry for being redundant ("crooked attorneys").

It is astounding that the ENTIRE legal community is SILENT on all this corruption. I guess exposure is bad for business?

Speaking out for justice interferes with their tee times.

Seriously, attorneys can only practice as a privilege granted by their license. It is not a right. On paper, the lawyer ethics rules say an attorney who does not speak up is just as guilty as the one acting unethically. That rule is being IGNORED!!!!@\$\$%&%##% So, why have rules? Lets just strap on pistols like the good old days of the Wild West and shoot it out. I guess that's what these legal "professionals" want? Oh wait, they want our guns. Hmmmmm.

Judge Lourie also failed to apply his own law-test in Group One v. Hallmark Cards to the evidence. Well, well. After reading the revelations of this post about Merrick B. Garland and his New World Order cronies, I received this YouTube from a friend:

Looks to me like the globalists seized upon Leader Technologies' social networking invention and bastardized it to control the global information (telecom, banking, advertising, entertainment, social, payments). It also looks like Apple under Steve Jobs did not play, then once Jobs died, Cook relented somewhat by embedding the "Dual EC DRBG" backdoor spy algorithm. But now it looks like Cook has had second thoughts. Sooooo, now the globalists want to take Apple down too?

By the way. Leader Technologies is from Ohio. Why isn't Ohio governor John Kasich defending Leader as one of his own small business from these bad boys? He being the tender heart for jobs and all. I guess he wants his citizens to all have low paying service jobs, what was I thinking? Could it be because he is taking money from George Soros and Mark Kvamme (former LinkedIn). He appears to be bought and paid for by the same people identified in this Alex Jones video.

Most transparent administration in history sets record for failure to find requested documents

posted at 8:31 pm on March 19, 2016 by John Sexton  
In more than one in six cases, or 129,825 times, government searchers said they came up empty-handed last year. Such cases contributed to an alarming measurement: People who asked for records under the law received censored files or nothing in 77 percent of requests, also a record. In the first full year after President Barack Obama's election, that figure was only 65 percent of cases.

[...]

The FBI couldn't find any records in 39 percent of cases, or 5,168 times. The Environmental Protection Agency regional office that oversees New York and New Jersey couldn't find anything 58 percent of the time. U.S. Customs and Border Protection couldn't find anything in 34 percent of cases.

"It's incredibly unfortunate when someone waits months, or perhaps years, to get a response to their request - only to be told that the agency can't find anything," said Adam Marshall, an attorney with the Washington-based Reporters Committee for Freedom of the Press.

See disclosure of substantial holdings in Facebook and Facebook-related stocks.

Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in Pfaff v. Wells Electronics, Inc.—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. See Motion to Disclose Conflicts of Interest.

Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr. Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. See a full analysis of these events at Donna Kline Now! Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also
