# SHADOWY IBM ECLIPSE FOUNDATION LORDS OVER AMERICAN MEDIA AND POLITICS

## IBM, MICROSOFT AND NSA STOLE SOCIAL NETWORKING INVENTION TO CREATE AN INTERNET "PUBLIC-PRIVATE PARTNERSHIP" MACHINE THAT SPIES ON EVERYONE

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | APR. 18, 2016, UPDATED APR. 23, 2016 | PDF

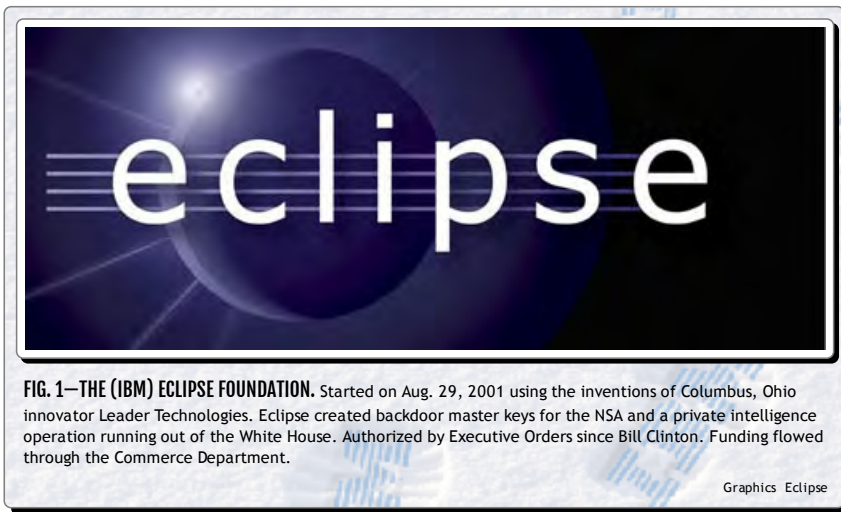

FIG. 1—THE (IBM) ECLIPSE FOUNDATION. Started on Aug. 29, 2001 using the inventions of Columbus, Ohio innovator Leader Technologies. Eclipse created backdoor master keys for the NSA and a private intelligence operation running out of the White House. Authorized by Executive Orders since Bill Clinton. Funding flowed through the Commerce Department.

(APR. 18, 2016)— On Nov. 29, 2001, IBM “donated” \$40 million to The Eclipse Consortium (later renamed The Eclipse Foundation) to promote “open source” software (free to users without licenses).

The formation of Eclipse was nonsensical to IBMers because IBM’s culture was and still is to create proprietary software and hold patents and copyrights. In fact, IBM is today the largest holder of patents in the world.

New evidence shows that IBM has built a spy platform for a secret White

House intelligence group created starting from Bill Clinton Executive Orders, carried on through Bush and doubled-down under Obama. Eclipse is fueled by Wall Street. Users are enticed into giving up its intellectual property in exchange for false promises of security and privacy.

On Aug. 29, 2002, Eclipse issued version 2.0.1 of its source code (the secret sauce of a computer program). That version included all of the innovations of Columbus, Ohio innovator, Leader Technologies, Inc.

Eleven weeks earlier, Leader had given a custody copy of its invention to their patent attorney, James P. Chandler, III. Chandler was also IBM's chief outside intellectual property counsel.

At that time, David J. Kappos was IBM's chief inside intellectual property counsel.

The Aug. 28, 2002 Eclipse Version 2.0.1 carried false IBM copyright claims over Leader's innovations and references to an (Eclipse) Common Public License (CPL) version 0.5.

Trouble is, Chandler was also Leader Technologies' patent attorney and owed a duty of loyalty to his client to disclose this conflict of interest, but he did not, according to Leader officials.

FIG. 3—DAVID J. KAPPOS, IBM Steward of The Eclipse Foundation Common Public License version 0.5 (2001); now partner at Kravath Swaine LLP, IBM attorney

## ORIGINS OF THE SLIPPERY END USER LICENSE AGREEMENTS NOBODY READS

AFI investigators were able to obtain a copy the Eclipse CPL version 0.5 (the earliest version). The document is a smoking gun in numerous ways.

First, it formed the basis for virtually all subsequent user licenses agreement used in the "social" world to this day. You know, the 1,500-page End User License Agreement that no one reads--even though you as the user sign away all of your privacy and property rights to your intellectual property and privacy in exchange for use of the service.

This means that all claims of ownership made by the major providers are fraudulent (since they received their base social software platform from Eclipse--all of them).

## FRAUDULENT IBM COPYRIGHT CLAIMS AND ASSIGNMENTS

Second, it does not disclose Leader Technologies' invention at the base of its source code. Therefore, the license itself may fraudulently induce third parties to use Leader invention as if it is coming from IBM.

By 2008, Eclipse boasted 191 members—a veritable Who's Who of technology companies, their banks and mutual funds, and their federal government cronies, including IBM, Google, Alphabet (Google), YouTube (Google), SAP, Oracle, Sybase, Rational, HP, Wind River, Intel, Motorola, Hitachi, Samsung, Nokia, In-Q-Tel (C.I.A.), National Security Agency (NSA), National Venture Capital Association (NVCA), Fidelity, T. Rowe Price, Vanguard, Morgan Stanley, EMC, Dell, Facebook, Instagram (Facebook), LinkedIn (Facebook), WhatsApp (Facebook), Square (Facebook), Squarespace (Facebook), PayPal, Goldman Sachs, Togethersoft, Borland, QNX, Qualcomm, Xerox, Micron Technology, Cisco, Netflix, Apple, AOL, Kleiner Perkins, Yahoo, Tumblr (Yahoo), Flickr (Yahoo), Twitter, Computer Associates (CA), Microsoft (via University of Washington), Nokia (Microsoft), Siemens, IDG, BEA, AMD, NetApp, NEC, Compuware, Novell, Blackberry, TIBCO, SAS, Toshiba, Texas Instruments, Tsinghua University (Beijing), Wells Fargo, Honeywell, UBS, Credit Suisse, Deutsche Bank, Barclays, State Street Corp, Bank of America and JPMorgan.

## STRANGE BEDFELLOWS

What was the quid pro quo for this unlikely collaboration of normally fierce competitors? Promise of free (Leader Technologies) social networking source code? Blackmail? Government contracts? Coercion? Greed? All of the above? This list of competitors and strange bedfellows is not logical otherwise.

## THE "GEE BEAV" EXCUSE

Google was a early creation of The IBM Eclipse Foundation. [Google went public on Aug. 18, 2004](#). IBM sold its famed PC Group to Lenovo (China) a three months later on [Dec. 8, 2004](#), the [same day](#) The Eclipse Foundation claimed in internal documents they were "unable to locate" the original source of their source code (Leader Technologies, Columbus, Ohio), even though Leader's patent attorney, James P. Chandler, III was also IBM's chief outside counsel. "Beav" was Eddie Haskell's nickname for Beaver Cleaver in the 50's sitcom Leave it to Beaver.

For those who may not know (most of us), "Android" is merely IBM Eclipse by another name.

**FIG. 5—IBM (SECTION 7, PARAGRAPH 4) AGREEMENT STEWARD SMOKING GUN** proves that BM's chief intellectual property counsels in 2001, internal and external, were the progenitors of the modern day End User License Agreements, that nobody reads, and which force the user to waive of intellectual property rights to the state, essentially. Big brother is hear, disguised as a user license agreement. This agreement indeed has "fundamentally transformed America" and the world. All intellectual property on the planet is under the full controls of the IBM Eclipse Cartel, which is directed out of the White House without an ounce of Congressional oversight.

Source Eclipse

Since IBM Eclipse distributed Leader's source code to a Who's Who of the technology world, including Facebook, based upon this Common Public License, this means the center of legal gravity for the fraudulent distribution of Leader's invention was David J. Kappos and James P. Chandler.

Remarkably, Kappos was appointed as director of the Patent Office by Barack Obama on [Aug. 07, 2009](#) in a controversial recess appointment.

Subsequently, Kappos pushed through the "America Invents Act" which arguably has done more to destroy inventor rights than any patent reform in the last 100 years.

Despite Leader Technologies proving four times that their social networking patent claims for novel and innovative, Kappos formed an unprecedented secret court inside the Patent Office and declared Leader's patent invalid on Oct. 17, 2012. Kappos announced his resignation as director of the Patent Office six weeks later.

In American law, fraud undoes a [Kappos kangaroo court](#) judgment. Kappos' secret court that acted unlawfully against Leader Technologies' patent was staffed with IBM and Microsoft loyalist patent judges led by former IBM and Microsoft employee, Stephen C. Siu.

While Chandler and Kappos were busy fixing their Leader Technologies problem, Chandler busied himself with the legal framework by which the NSA and a secret White House

They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

## ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

### LEADER TECHNOLOGIES Inventor Protection Act (Proposed)

America needs to practice what it preaches.

We have no business lecturing the world about free enterprise and the rule of law, when we permit the investors in Ohio-based innovator Leader Technologies to go uncompensated for the risks they took to help invent social networking . . .

—a technology upon which the President and U.S. government now rely;

—a technology *stolen* by the "Facebook Cabal" who recruited the federal courts and Patent Office into their club of corruption.

Rescind. Investigate.  
Sanction. Certify.

Contact your representatives. Ask them to pass it.

Real American inventors need your support.

# IBM ECLIPSE SPAWNED DEBASED POLITICS, BUSINESS, BANKING AND TECHNOLOGY

Despite The Eclipse Foundation’s central role in the development of social networking, The Eclipse Foundation has received almost no mainstream media or political scrutiny. One likely reason is that the politicians and the mainstream media are all, by design, are hooked on the illegal drug—the allure of free services that generate advertising revenue and personal information.

Armed with dirt on every American and foreigner, Hillary and Bill busied themselves collecting speaking fees around the planet at approximately \$250,000 per event. These bits of personal information also yeilded sizable “donations” to The Clinton Foundation. [See previous post](#) about the \$3.1 billion Kazakhstan uranium deal brokered by the Clintons resulting in a contribution of \$152 million to The Clinton Foundation.

We The People must put a stop to this immorality.

A stable political and economic house cannot be built on this corrupt foundation.

Attkisson, S. (Apr. 21, 2016). State Department removed Benghazi files after subpoena. Full Measure.

<https://sharylattkisson.com/state-department-removed-benghazi-files-after-subpoena/>

Beyond the issue of Hillary Clinton's use of a private server for public business, including some classified materials; and beyond the fact that some of the documents continue to be improperly withheld from Freedom of Information requests after years, many more questions have arisen. One of them surrounds the State Department's removal of Benghazi-related files from the secretary of state's office a year ago, even though they were under Congressional subpoena.

It goes without saying that subpoenaed records are not to be removed or withheld. But in case there was any alleged confusion, the Benghazi Committee says it was explicit in its instructions: "The requests included standard language that "Subpoenaed records, documents, data or information should not be destroyed, modified, removed, transferred or otherwise made inaccessible to the Committee."

3. [Two Policy Changes That Will Make America More Democratic \(and less contentious\)](#), Dec. 21, 2012

## OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

. . . our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

## CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The Leader v. Facebook patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The

misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on Leader v. Facebook until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

## WELCOME TO DONNA KLINE NOW! READERS!

AFI has been supporting Donna and is now picking up the main Leader v. Facebook coverage (she will continue coverage as well).
