PROOF: ROBERT MUELLER CANNOT BE IMPARTIAL IN THE RUSSIA INVESTIGATION

MUELLER'S DEEP STATE RELATIONSHIPS WILL POLITICIZE THE FBI YET AGAIN

CONTRIBUTING WRITERS | OPINION | AMERICANS FOR INNOVATION | MAY 18, 2016, UPDATED JUN. 05, 2017 | PDF

FIG. 1 – ROBERT S. MUELLER. FBI director for 12 years from 2001 to 2013 under George Bush (Republican) and Barack Obama (Democrat). His 2011 financial disclosure revealed investments in two hedge funds with assets held in 55 other hedge funds valued at \$106.2 billion. One third of those funds are headquartered in the Cayman Islands. Mueller did not disclose the components of those exclusive, invitation-only funds as financial disclosure ethics law requires. A director of one of his funds, Mellon Optima L/S Strategy Fund, LLC, is Harvard Professor Benjamin M. Friedman. Friedman was chair of Lawrence "Larry" H. Summers' dissertation committee. This relationship to Summers is a massive conflict of interest since banks in which Mueller is invested were beneficiaries of the 2008 TARP bank bailout that Summers directed. None of those bankers has ever been prosecuted for the toxic mortgage criminality.

PAY-to-PLAY NEW WORLD ORDER

This timeline shows how insiders sell access & manipulate politicians, police, intelligence, judges and media to keep their secrets

Clintons, Obamas, Summers were paid in cash for outlandish speaking fees and Foundation donations. Sycophant judges, politicians, academics, bureaucrats and media were fed tips to mutual funds tied to insider stocks like Facebook. Risk of public exposure, blackmail, pedophilia, "snuff parties" (ritual child sexual abuse and murder) and Satanism have ensured silence among pay-to-play beneficiaries. The U.S. Patent Office is their toy box from which to steal new ideas.

BILDERBERG GLOBALISTS

A "forum" of 131 self-styled "elites" from 21 countries is meeting in Chantilly, Virginia at the Westfields Marriott hotel behind a heavily guarded, fenced-off compound—despite the fact that many of them support open borders!

Strangely, this collusion among bankers, politicians, spies, money launderers, drug dealers, technology providers, pedophiles, human traffickers, satanists, arms dealers and eugenicists has received almost no mainstream media coverage in the U.S. outside the patriot real news media and the British press—even though it is arguably a much more significant meeting of world leaders than the G8. Thankfully, [Infowars' David Knight and Owen Shroyer](#) are there, as is Canadian [Dan Dicks from Press for Truth](#). Watch as the Bilderberg participants arrive at Dulles Airport and systematically refuse to answer basic Dan Dicks questions about the proceedings that include public officials, including Sen. Lindsey Graham and Sen. Tom Cotton, in likely violation of the Logan Act (unauthorized citizens who negotiate with foreign governments).

The [Bilderberg participants include at least 3 companies and individuals](#) who were major beneficiaries in the May 18, 2012 Facebook initial public offering—very evidently the funding kick off event for the New World Order run by the Deep State shadow government and policed by a rogue C.I.A. Facebook relies on the social networking invention of Columbus innovator Leader Technologies from whom the C.I.A. stole it in 2001-2003. See [Timeline](#).

Larry Summers was at Bilderberg 2017.

Consistent with the stream of lies and deceptions of the Bilderberg globalists, Harvard's [Lawrence "Larry" H. Summers](#) attended Bilderberg and *refused* to answer even simple questions from the public by Press the Truth as he departed from Dulles Airport. Summers has been at the center of the New World Order globalist plan since George H.W. Bush days. He forced the ill-fated privatization vouchers on the Soviets at the World Bank. He was Bill Clinton's former Treasury Secretary, Obama's bailout director, Russia's Mail.ru Yuri Milner's banking coach, Facebook's Sheryl K. Sandberg's mentor, and Silicon Valley's Instagram director where his former chief of staff Marne L. Levine (Deutsch) is the chief operating officer. [Watch "no comment" Summers squirm](#) when Press the Truth asked him about his participation at Bilderberg.

Normally, Summers is all too eager for publicity and attention. Yet tellingly, even though he was just sitting in Dulles Airport waiting for his plane following his Bilderberg participation, he was uncharacteristically tight-lipped. Public figures do not have the presumption of privacy. They are *required* to speak about matters affecting the welfare of the public.

Lawrence H. "Larry" Summers - Bilderberg 2017 participant; Harvard, World Bank, Clinton, Bush, Obama NSA / C.I.A., Facebook/Instagram, Google/Alphabet, Open Society Foundations; Clinton Foundation Spy State organizer; leading globalist organizing the George Soros-funded, unelected "New World Order" international corporate combine collective.

ROSENSTEIN'S WIFE REPRESENTED BILL CLINTON IN 1998—COURT RECORDS ARE MISSING—ETHICS RULES REQUIRED HIS RECUSAL

Lisa H. Barsoomian, U.S. Attorney, wife of Assistant Attorney General Rod J. Rosenstein. Graduated from Georgetown Law. Protégé of James B. Comey and Robert S. Mueller. Represented Bill Clinton in 1998. Researchers say the Internet has been cleansed of information about Barsoomian which is a telltale sign of a protected rogue Deep State C.I.A. operative. She has specialized in opposing Freedom of Information Act requests on behalf of the intelligence community.

uses another organization as "cover" for their activities.

Rod J. Rosenstein has no business being involved at all in the Hillary Clinton/DNC-triggered Russia investigation, much less the selection of his mentor Robert S. Mueller, III as special counsel. This is because Rosenstein's wife, Lisa H. Barsoomian (no photo available), represented Bill Clinton in 1998 with her boss, R. Craig Lawrence (6,459 cases, 321 pgs. 10 MB). Lawrence also represented Mueller (3 times), Comey (5 times), Obama (45 times), Kathleen Sebellius (56 times), Bill (40 times) and Hillary (17 times) between 1991-2017. Barsoomian has herself represented the FBI (at least 5 times). Barsoomian's loyalties are clearly tainted. How could such "pillow talk" not have influenced Rosenstein? This clearly violates the "appearance of impropriety" lawyer rules. It is obvious they owe their careers as U.S. Attorneys to Comey, Mueller, Obama, Bush and the Clintons, and CANNOT therefore be impartial. The other odd situation is Barsoomian's NIH (National Institute of Health) email address even though she has been involved in 100's of cases representing the D.C. Office of the U.S. Attorney. Is she on loan from the C.I.A.? The C.I.A. often

NEWS UPDATE! MAY 20, 2017

Rod J. Rosenstein

A B C D E F G H I J K L

Robert S. Mueller, III became FBI Director on Sep. 04, 2001. Tellingly, he stepped out of the spotlight twelve years later, just months after NSA director James Clapper lied to Congress about NSA surveillance on [Mar. 12, 2013](#), and Edward Snowden's disclosure of that PRISM program on [Jun. 06, 2013](#). Snowden also revealed the [profound collusion](#) among Google, Facebook, Microsoft, Yahoo, AT&T, Verizon, Skype, Apple, AOL, Instagram, WhatsApp, Flickr, Tumblr, YouTube, Google+, Reddit and hundreds of others with this rogue C.I.A. / NSA group. These men, women and companies have a lot to hide. So far, they have *all, including Mueller, Comey and Rosenstein*, escaped accountability.

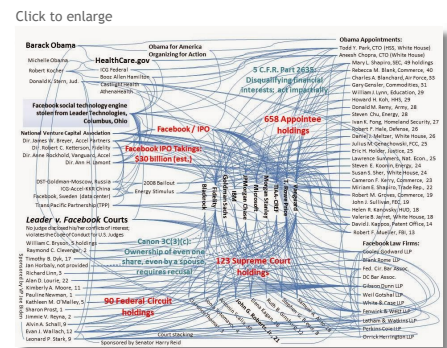

illegal surveillance activity. His predecessor J. Edgar Hoover used salacious illegal surveillance to blackmail his opponents. Likewise, *Mueller has been doing the same thing for the Deep State, according to many whistleblowers.* Mueller is not credible, despite ignorant, complicit or blackmailed politicians who say his "reputation for integrity and honesty is above reproach." Mueller also did not investigate Silicon Valley and Wall Street's collusion with Clapper either. And yet, Mueller made sure his net worth increased dramatically from \$1.8 million (2001) to up to \$7.0 million (2011) in ten years while pulling down his FBI salary. See [previous post](#).

Numerous whistleblowers, like former FBI superstar Agent In Charge [Ted L. Gunderson](#), say that 9/11 was an "inside job." They say 9/11 was *fabricated* to scare Americans into The Patriot Act—as the pretext for dubious new laws and executive orders allowing the state to seize property and privacy. In other words, their plan was to undermine The Bill of Rights. Gunderson called them a "rogue outfit" and "a covert military criminal government enterprise."

So, what are Mueller and the Deep State up to? What activity are they hiding behind this smokescreen? Deputy Attorney General Rod Rosenstein could have picked anybody, and yet he picked his old colleague—the man with 9/11 blood on his hands. In fact, since Mueller, Rosenstein and Comey were all close U.S. Attorney colleagues inside the intelligence apparatus, the 9/11 Deep State inside job and cover-up could bring them all down. Now, that is

Rosenstein is married to Lisa Barsroomian. Barsroomian represented the FBI against Judicial Watch and many other FOIA requesters to block disclosure requests.

See *Judicial Watch v. FBI*, 01-cv-00248-RMU among her 165 cases as U.S. Attorney (with Mueller, Comey & Rosenstein).

www.fbcoverup.com

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

- a technology *stolen* by the “Facebook Cabal” who recruited the federal courts and Patent Office into their club of corruption.

understandable motive to appoint Mueller.

She even represented the [C.I.A. in opposing FOIA requesters](#).

Readers are encouraged to study the [2001 TIMELINE](#) closely. *(Please be patient to let the timeline load, it will then take you automatically to the 2001 bookmark.)* **The collusion within the intelligence community is obvious when seen in context.** Mueller was appointed director of the FBI just seven days before 9/11, which [C.I.A. whistleblower Susan Lindauer](#) said was a widely known plan inside the agency from at least Apr. 2001—at least six months earlier.

Mueller knew about 9/11. He and his FBI / C.I.A. colleagues *allowed* it to happen. They even aided the "terrorists" with training, manpower, materiel and intelligence. It is now public that Mohammed Atta was a C.I.A. asset (ref. [Abel Danger](#)—the Wikipedia write up is an evident cover-up given all the whistleblower testimony). Lindauer and other whistleblowers say the FBI also provided the explosives for the first World Trade Center bombing. **Mueller failed to prosecute a single complicit insider.** In fact, Gunderson said the FBI and C.I.A. have been behind every major false flag act of terror since Clinton when globalist new world order operatives inside the US government began to consolidate power via technology and the Internet (ref. [Jun. 07, 1993 FBI encryption backdoor key conference](#)). To cover up for the Deep State, Mueller helped persecute whistleblowers.

Mueller's appointment is an insult to common sense and decency. It is also a flagrant breach of ethics laws. He deserves jail, or worse, in our opinion, not a microphone. No doubt the FBI shredders are busy this weekend. Spread the word.

(MAY 18, 2017)—It is a huge surprise that former FBI Director Robert S. Mueller, III has been chosen to lead the FBI Russia investigation, because there seem to be direct ties between him and the Deep State.

Mueller investments in Clinton / Obama political collaborators: AT&T, Autodesk, Bank of America, Cisco, IBM, JPMorgan Chase, Microsoft, NetApp, Qualcomm, State Street, Vanguard, Wells Fargo.

MUELLER INVESTED IN UNTRACEABLE FUNDS IN THE CAYMAN ISLANDS

One can hardly imagine a more biased individual to run the Russia investigation. In addition, Mueller has two financial holdings of specialized hedge funds (Mellon Optima L/S Strategy Fd LLC and Defenders Multi-Strategy Hedge Fund LLC where they manage \$106.2 billion with secretive reporting rules) with **36% headquartered in the Cayman Islands** where HSBC, whose directors included former FBI Director Comey, managed money

For a full analysis of Mueller's financial relationships, see our previous post: [Betrayal: Former FBI director \[Robert S. Mueller\] colluded with Cartel offshore money laundering havens](#) (AFI, Mar. 25, 2016).

Acting FBI Director Rod Rosenstein, yet another Harvard Law insider, appears to have either: (a) thrown his new boss, Donald Trump, under the bus in one of Rosenstein's first official acts, or (b) expects Mueller to hang himself in this very public arena.

Rosenstein's appointment raises the question as to whether Deep State operatives like him and former Goldman Sachs executives, like Steve Mnuchin, can change their allegiances once they have been so tightly enmeshed in the Deep State's secret society of drugs, sex, pedophilia and blackmail. See [FBI Agent In Charge Ted L. Gunderson statement](#).

MUELLER AND ROSENSTEIN HAVE BEEN DEEP STATE LAW COLLEAGUES FOR DECADES

Rosenstein has worked closely with Mueller at the Justice Department since 1990. Both Rosenstein and Mueller worked with then Assistant Attorney General Eric H. Holder, Jr. during the Bush presidency.

MUELLER FAILED TO PROSECUTE OBVIOUS CRIMINALITY ASSOCIATED WITH THE DEEP STATE TAKEOVER

During their Justice Department employment, numerous major scandals were not prosecuted like the 9/11 cover-up, NSA warrantless surveillance of Americans, encryption backdoor for the C.I.A. and FBI in 1993, the seditious 2008 bank "bailout" raid of the Federal Reserve and TARP, theft of social networking invention by the Deep State, energy stimulus, Obamacare robbing of Fannie and Freddie, The Clinton Foundation pay-to-play, Clinton Haiti fraud, global pedophilia rings, IRS political targeting of the Tea Party, BLM land redistribution, America Invents Act, Fast and Furious, Hillary email scandal, etc.

Given Rosenstein's decades of ties to the Deep State, one wonders why President Donald Trump appointed him. The Deep State is now engaged in brazen acts of treason apparently to bring down Donald Trump's duly-elected administration. For example, GQ news commenter Keith Olbermann just called for foreign intelligence agencies to help the Deep State bring down Mr. Trump's administration—the definition of sedition.

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's *Leader v. Facebook* attorney Gibson Dunn LLP. She credits this firm with the reason why not

a single Wall Street banker has gone to jail since 2008. [Click here](#) to read her article "Everybody hates whistleblowers." *Examiner.com*, Apr. 10, 2012. Here's an excerpt:

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the *Leader v. Facebook* case, Theodore Ulyot, who appears to have helped lead the *Leader v. Facebook* judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. ONE WOULD EXPECT MUELLER WILL POLITICIZE THE FBI INVESTIGATION, YET AGAIN.

In conclusion, the facts are unavoidable. Robert S. Mueller has substantial conflicts of interest and should recuse himself as Special Counsel, before the public demands he be fired.

The temptation for Mueller to politicize this investigation to benefit his Deep State handlers seems just too high.

Why is the President of the United States being investigated when the Clintons, Huma Abedin and Anthony Weiner are still at large and most certainly should have had a special prosecutor investigating them? And, what about all those calls for special counsel to look into Justice Scalia's wiretapping and suspicious death.

The irony is, the Clinton matters were then FBI Director Mueller's decisions to make, and he refused. What does that tell you?

Just a thought... Is it possible? Given the incredible number of things that Mueller DIDN'T investigate during the Bush, Clinton, Obama eras. And, given that Trump ABSOLUTELY KNOWS HE IS INNOCENT... that Trump let this happen because he knows that Mueller is now going to find the leakers and find all kinds of extremely unattractive information about the Clintons and the Obamas and publish it?

Cody Derespina. (May 18, 2017). Mueller, Comey have had long, close relationship. Fox News.

Robert Mueller, Comey's predecessor at FBI from 2001-2013, has a lengthy, close and somewhat controversial history with the man suddenly at the center of investigations swirling around Trump. Mueller on Wednesday evening was appointed by Deputy Attorney General Rod Rosenstein as special counsel to oversee the Justice Department's investigation into alleged Russian meddling in the U.S. presidential election and related issues.

Trump's critics contend several of his top campaign aides - including onetime campaign chair Paul Manafort, adviser Carter Page and former National Security Adviser Michael Flynn - had suspicious, if not illicit, contacts with Kremlin-linked officials. Trump has denied any collusion with the Russian government and no evidence has been publicly presented to show such collusion.

Trump fired Comey May 9, in part, Trump said later, because the Russian investigation was dragging on. Press leaks, including to Fox News, later established that Comey had written a memo to himself detailing at least one encounter with Trump where the president had suggested he would like to see any investigation of Flynn ended.

3. [Two Policy Changes That Will Make America More Democratic \(and less contentious\)](#), Dec. 21, 2012

OUR MISSION

American citizens must fight abuse of the constitutional right for authors and inventors to enjoy the fruits of their inventions, as a matter of matter of basic property rights and sound public policy. Otherwise, instead of innovation, creativity, genius, ideas, vision, courage, entrepreneurship, respect, property, rejuvenation, morals, ethics, values, renewal, truth, facts, rights, privacy, solutions and judicial faithfulness,

... our society and economy will be dragged down (and eventually destroyed) by copying, infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The *Leader v. Facebook* patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on *Leader v. Facebook* until justice is served, but we also welcome news

and analysis of intellectual property abuse in other cases as well.

Kit Daniels. (May 18, 2017). BREAKING: COMEY CAUGHT COMMITTING PERJURY TO CONGRESS? Comey's May 3 Senate testimony contradicts reported February memo. Infowars.

Former FBI Director James Comey said he was never told to stop an investigation due to political reasons during testimony to the Senate Judiciary Committee on May 3, 2017, which contradicts his new claim that Trump pressured him to stop the Flynn investigation in February.

Comey now claims President Trump asked him to shut down the federal investigation into former national security adviser, Michael T. Flynn, in an Oval Office meeting in February, according to a reported memo Mr. Comey says he wrote after the meeting.

The New York Times claims this February memo is the "smoking gun," but in fact it contradicts Comey's sworn testimony on May 3.

WASHINGTON, D.C. - The coup d'état plan being implemented by New World Order elements within the Deep State in concert with the corporate-controlled mainstream media depends on successfully perpetrating the disinformation "Russian Collusion" big lie as the pretext upon which to impeach President Trump this year.

President Trump's Counter-Intelligence Step #1 is a function of President Trump's power as U.S.A. chief executive to change the subject, forcing the Deep State and the Mainstream Media to focus their time, attention, and message not on the "Russian Collusion" meme, but on a theme of President Trump's choosing.

Never forget, among the massive powers of the presidency under the Constitution, the president in foreign affairs is Commander in Chief, and in domestic affairs the counterpart of Chief Executive Officer.

Garth Kant. (May 19, 2017). LEAKED TRUMP MEMO COULD BACKFIRE BIG-TIME ON FORMER FBI DIRECTOR - 'No evidence Comey alerted the Justice Department, as he is duty-bound to do'. WND.

WASHINGTON - The leak of the infamous Comey memo to the press might severely boomerang on the former FBI director, according to legal experts.

Democrats are hoping newly appointed special prosecutor Robert Mueller will find President Trump committed obstruction of justice by allegedly telling former FBI Director James Comey to drop the investigation into former national security adviser Mike Flynn.

Those hopes are based on a New York Times report that Comey drafted a memo after a meeting with Trump in February that said the president had asked the director to "let this go," in reference to the Flynn investigation.

Everything hangs on the accuracy of that account, but a number of factors put its credibility into question.

"With the stroke of a pen, Rod Rosenstein redeemed his reputation," writes Dana Milbank of the Washington Post.

What had Deputy Attorney General Rosenstein done to be welcomed home by the Post like the prodigal son?

Without consulting the White House, he sandbagged President Trump, naming a special counsel to take over the investigation of the Russia connection that could prove ruinous to this presidency.

Rod has reinvigorated a tired 10-month investigation that failed to find any collusion between Trump and Russian hacking of the DNC. Not a single indictment had come out of the FBI investigation.

Yet, now a new special counsel, Robert Mueller, former director of the FBI, will slow-walk his way through this same terrain again, searching for clues leading to potentially impeachable offenses. What seemed to be winding down for Trump is now only just beginning to gear up.

Also to be investigated is whether the president tried to curtail the FBI investigation with his phone calls and Oval Office meetings with FBI Director James Comey, before abruptly firing Comey last week.

Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Today, May 19th 2017, WikiLeaks publishes documents from the "Athena" project of the CIA. "Athena" - like the related "Hera" system - provides remote beacon and loader capabilities on target computers running the Microsoft Windows operating system (from Windows XP to Windows 10). Once installed, the malware provides a beaconing capability (including configuration and task handling), the memory loading/unloading of malicious payloads for specific tasks and the delivery and retrieval of files to/from a specified directory on the target system. It allows the operator to configure settings during runtime (while the implant is on target) to customize it to an operation.

According to the documentation (see Athena Technology Overview), the malware was developed by the CIA in cooperation with Siege Technologies, a self-proclaimed cyber security company based in New Hampshire, US. On their website, Siege Technologies states that the company "... focuses on leveraging offensive cyberwar technologies and methodologies to develop predictive cyber security solutions for insurance, government and other targeted markets.". The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. David McCabe. (May 18, 2017). FCC moves ahead with plan to scrap net neutrality rules. Axios.

The long-anticipated rollback of net neutrality rules has officially begun. The FCC voted along party lines on Thursday to formally consider Chairman Ajit Pai's plan to scrap the legal foundation for the rules and to ask the public for comments on the future of prohibitions on blocking, throttling and paid prioritization.

Why it matters: This is the next step in the decade-long political fight over how to regulate the networks that have redefined politics, culture and the economy. Silicon Valley and telecom giants have opposing views of how web traffic should be treated on the way to reaching consumers — an increasing issue now that digital content is supplanting nearly every other format. The FCC has already been flooded with heated comments from both sides of the battle.

Thursday on CNN's "Anderson Cooper 360," Harvard law professor Alan Dershowitz called into question the purpose of the Department of Justice naming Robert Mueller as a special counsel to investigate Russian involvement in the 2016 presidential election.

Dershowitz argued Mueller's appointment would benefit Trump given that "collaborating with the Russians" to get elected wasn't illegal and Mueller's role would be to investigate illegalities.

"[I] think he will be the beneficiary of the special prosecutor," Dershowitz said. "A special prosecutor is supposed to investigate a crime and most of the things that have been leveled at the Trump administration are not criminal acts. Donald Trump is may not survive the summer. That means America has been disenfranchised . This means that we are being told that you will live in an America that is solely controlled by the Deep State as opposed to a Constitutional Republic.

Special Prosecutor Appointed to Investigate Imaginary Violations of Law with NO PROOF of Any Wrongdoing

In response to the announcement that President Trump was going to be the source of a special prosecutor's investigation, he released a number of tweets. Trump labeled the investigation into his campaign's close ties with Russia "the single greatest witch hunt of a politician in American history!"

Trump followed up with more expressions of outrage as he posted, "With all of the illegal acts that took place in the Clinton campaign & Obama Administration, there was never a special "counsel" appointed!" Trump's furious response contradicted the White House's effort in which they claimed that he was reacting calmly to the announcement of a special counsel.

The New York Times reported early Thursday a detailed description of an account of Trump's initial response to the media. Just who is leaking to the NYT? Just 30 minutes before the country knew, the White House was informed the Justice Department would be appointing a special counsel.

How much of a difference the PAC money made is unclear, but the cash infusion helped pay for TV commercials, campaign literature, and online ads to promote the candidacy of the civil rights attorney who has never worked as a prosecutor.

RYAN BUNDY SEEMED uneasy as he settled into a white leather chair in a private suite at the Bellagio in Las Vegas. As the eldest son of Nevada rancher Cliven Bundy, who had become a national figure for his armed standoff with U.S. government agents in April 2014, Ryan had quite a story to tell.

Eight months had passed since Cliven and hundreds of supporters, including heavily armed militia members, faced off against the federal government in a sandy wash under a highway overpass in the Mojave Desert. Now, here in the comforts of the Bellagio, six documentary filmmakers trained bright lights and high-definition cameras on Ryan. They wanted to ask about the standoff. Wearing a cowboy hat, Ryan fidgeted before the cameras. He had told this story before; that wasn't the reason for his nerves. After all, the Bundy confrontation made national news after armed agents with the Bureau of Land Management seized the Bundy family's cattle following a trespassing dispute and the accumulation of more than \$1 million in unpaid grazing fees. But the Bundys, aided by their armed supporters, beat back the government, forcing agents to release the cattle and retreat.

Paul Bedard. (May 19, 2017). FEC BOSS WHO TRIED TO MUZZLE DRUDGE NOW ON SOROS PAYROLL. Washington Examiner.

The former chairwoman of the Federal Election Commission, who famously eyed regulating the politics of conservative outlets like the Drudge Report, has joined an advocacy group funded by George Soros and run by his son.

Ann Ravel is the first fellow listed with the California advocacy group New America.

Her fellowship began in March and pays a \$30,000 stipend.

"We want to help amplify the work of each of our fellows, both to help them better articulate and reach their target audience, and to raise their profiles as change-makers," according to the group.

Since leaving the FEC, Ravel has continued to speak out for more election regulation, especially on the internet where she sees political advertising shifting to in the next presidential contest.

Robert Mueller has a serious conflict of interest that should disqualify him from serving as special counsel.

He has had a long and close relationship with someone who will surely become a pivotal witness -James Comey.

No one doubts Mueller's sterling credentials. That is not the issue. He is eminently qualified. The problem arises in his duty to fairly and objectively evaluate the evidence he gathers.

How can Americans have confidence in the results if they know the special counsel may harbor a conspicuous bias? They cannot. The conflict inevitably discredits whatever conclusion is reached. It renders the entire investigatory exercise suspect, and it only elevates the controversy surrounding it.

No One Trusts Geoengineering—But Pretty Soon It's Not Going To Be a Choice

This haze is caused by airplanes, and it is gradually whitening blue skies, says Charles Long of NOAA's Earth System Research Laboratory in Boulder, Colorado. "We might be actually conducting some unintentional geoengineering here," Long said at a press conference this week at the American Geophysical Union Fall Meeting in San Francisco.

Geoengineering involves the manipulation of an environmental process in such a way, usually deliberate, that it affects the Earth's climate. For instance, previous researchers have proposed combating global warming by intentionally seeding the atmosphere with small particles, or aerosols, to scatter some sunlight and reduce the amount of heat trapped by greenhouse gases.

After reading this article, the 'war' the little hypothetical war that Trump needs to wage is 'internal'. He needs to turn the telescope of foreign affairs to a microscope on internal affairs and clean house. I don't see that he has anything to lose. Simply clean house, take the spy state tool away, and create a new media channel. It would change everything. Think of a world where the liberal media was 'silenced'.

'Double, double toil and trouble; Fire burn and cauldron bubble.' The witches in Macbeth.

President Trump's administration is now at a high boil as he faces intense heat from all sides. The Republican Party has backed away from their embattled president. US intelligence agencies are baying for his blood. The US media plays the role of the witches in 'Macbeth' as it plots against Trump.

One increasingly hears whispers about impeachment or the wonderful 1964 film about a military coup in Washington, 'Seven Days in May.'

As in Shakespeare's King Lear, Trump stands almost alone on a blasted heath, howling that he has been betrayed. The world watches on in dismay and shock.

Björn Seelmann. (May 19, 2017). The War against 'Fake News': The Rise of the Orwellian Ministry of Truth. Before It's News.

The battle-lines in the information war are drawn. The mainstream media, which the people increasingly see as unreliable, believes that the free flow of ideas and information on the Internet is a threat to our well-being.

The war on 'fake news' began in earnest in November 2016. The Washington Post then released a blacklist, compiled by anonymous source PropOrNot, on which 200 sites were accused of "Russian propaganda efforts to undermine American democracy and interests."

Among those blacklisted are former Republican delegates, former presidential candidate Ron Paul, former US Assistant Secretary of Finance Paul Craig Roberts, The Corbett Report, Natural News and SOTT.

Evidence for why these 200 websites are guilty as charged has still not been delivered. With no proof, the mainstream media simply declares these websites and the people behind them as a danger to society.

Ginni Thomas. (May 21, 2016). OBAMA HOLDOUTS IN TRUMP ADMINISTRATION HIDING HILLARY EMAILS FOR YEARS - "We should be waiting just a few months for them to get their act together". Daily Caller / Infowars.

Judicial Watch's President Tom Fitton is astounded: The Trump officials he finds working on Freedom of Information cases he files are still, typically, Obama holdovers.

Those holdovers, he told The Daily Caller News Foundation, are telling Judicial Watch it will be years before it can get former Secretary of State Hillary Clinton's emails. "Frankly," Fitton told TheDCNF, "we should be waiting just a few months for them to get their act together."

Trump should take the point of view that the government belongs to Americans- and its agencies need to tell the people what they are up to, Fitton said. "If there is no good reason for withholding information, give it to them and give it to them quickly."

Trump should embrace "extreme transparency," for his administration — as well as for former President Barack Obama's administration. Americans would benefit by knowing more about what Obama did and what he obstructed from the public while in government. Fitton is especially interested in Obama's alleged spying on candidate Trump and other political opponents.

 >
 > His comment that terrorists don't worship god, they worship death , was spot on and it hit home. They don't care who they kill. They kill more Muslims than Christians and Jews combined. I am confident that each and everyone of these leaders has a fear of ISIS. They worry about their future generations just like we do. They didn't know how to proceed because America was so weak and wishy washy. Those days are over. American Muslims have to be relieved. Hopefully they want peace. Trump is ready to use the might of the greatest country in mans brief stay on earth to fix this mess.
 >
 > Barack Obama lit the Arab Spring fire. He supported Iran and Syria. He gave ISIS room to grow. Trump inherited a powder keg including N Korea and Russia. Russia chose to support Syria and Iran. He will squeeze these miscreants until they implode. Trump just cut Russia off in the Middle East. Putin is cornered unless he equivocates on Syria and Iran. If he continues to support them, he will fail. These countries are about to isolated and marginalized.
 >
 > Trump's speech was well written and well delivered. The beauty is that he meant it and it will come to pass. The Democrats are hanging on to this "Trump is a Russian spy" conspiracy but this is prima facie evidence that he is for America and world peace. After honest evaluation, this speech will be considered a seminal turning point in world history.

This came from a friend of mine. May or may not be true, but seems logical.
 Have a great day, TEX

There are very few crime/mystery novels that approach this true story for compelling drama, intrigue and brinkmanship (with the nation in the balance).

Don't believe the fake-media story that Trump made a mistake or huge gaffe by firing Comey.
 Don't believe the media narrative from the left that it was an attempt to silence Comey from some investigation into Trump.
 Don't believe the RINO narrative that Comey is a good guy just trying to do his job in terrible circumstances and the timing was bad.
 Don't believe the lie that Comey was admired and respected by career FBI investigators and agents.
 Don't believe the lie that Trump's "tweets" are not professional and have no strategic purpose. His tweets are weaponized and deadly.

James Comey is a poisonous snake of the highest order... a deep-water Swamp Denizen who has been highly paid to deliberately provide cover for high-level corruption by the Clintons and Obama. He is has been central to trying to destroy the Trump campaign and then the Trump administration from the start. He is as dirty as they come in DC. He had highest-level cover (the FBI no less) and was deep into an effort to eliminate Trump. Trump had to move hard, fast, and at exactly the right time to cut the head off the snake without getting bitten by the snake or being finished by the other swamp denizens.

Begin by noticing how the President fired Comey when Comey was 3,000 miles away from his office, that Comey had no inkling he was being cut, that all his files, computers, and everything in his office were seized by his boss Sessions and the justice department. This was not a violation of protocol, it was tactical. Notice how Prez Trump compartmentalized the strike and did not inform any of his White House "staff" to prevent leaks. Notice how he emasculated Comey and the swamp denizens by letting them know in a tweet that the Attorney General got information (surveillance "tapes" from the seizure of Comey's office) to let Comey and his handlers know that Trump's DOJ has the goods on them. This was a brilliant, strategic and totally imperative move at exactly the right time against horrible, evil and corrupt powers infesting our government.

The Highlights:

Comey was a minor assistant US attorney in the late 90's. He only gained power and money by being the DOJ official who "investigated" and cleared Bill Clinton of any wrong-doing in Clinton's totally corrupt pardon (for huge payoffs) of criminal financier Marc Rich as Clinton was leaving the Presidency. This is how Comey began his career as a creature of the "swamp" years ago, as a servant of the Clintons.

Comey provided "cover" for the Clintons in their gaining incredible power and wealth after leaving office through pardoning a billionaire money-launderer, arms dealer and criminal. Comey was a key piece in how the Clintons upped their corruption game and gained incredible wealth through their foundation after leaving the White House. A huge part of the scheme was giving Marc Rich a free pass when he should have spent life in prison, and that is what Comey covered-up for the Clintons. This set up Comey to be part of the corruption machine, making him powerful and wealthy.

Immediately after doing the Clinton's dirty work as a DOJ official, Comey resigned from the DOJ and took a position as the head attorney (Counsel) of the Lockheed Martin company, a huge military contractor. While he was in that position Lockheed became a major contributor (millions) to the Clinton Foundation and its fake charity spin-offs. In return for these payment to Clinton Inc., Lockheed received huge contracts with Hillary's state department. Comey was the chief legal officer of Lockheed throughout this period of contributions to Clinton Inc. in return for State Dept. contracts.

In late 2012, after overseeing Lockheed's successful relationship with the Hillary State Department and the resulting profits, Comey stepped down from Lockheed and received a \$6 million dollar payout for his services.

In 2013, the largest bank of England, HSBC Holdings, was deep into a scandal. Investigations by federal authorities and law-enforcement had revealed that for years HSBC had been laundering billions of dollars for Mexican Drug Cartels, channeling money for Saudi banks who were financing terror, moving money for Iran in violation of the sanctions, and other major criminal activity. HSBC's criminality was pervasive and deliberate by the Bank and its officials. HSBC was a huge Clinton Foundation contributor (many millions) throughout the "investigation" and Bill Clinton was being paid large personal fees for speaking at HSBC events (while Hillary was Sec of State). Eric Holder and the Obama Justice Department did what they were paid to do, and let HSBC off of the hook for a paltry 1.2 Billion dollar fine (paid by its stockholders), and not one Director, officer or management member at HSBC was fired or charged with any criminal. Exactly when everyone involved with HSBC Bank (including the Clintons and all of their "donors") were being let off without penalty, and cover had to be provided to HSBC, Comey was appointed as a Director and Member of the Board of HSBC (in the middle of the fallout from the scandal). He was part of the effort to cover up the scandal and make HSBC "respectable" again.

After about a year as HSBC director, despite his lack of any law enforcement experience, no DOJ leadership experience, and no qualifications for the job, Comey was appointed FBI director by Obama. The only qualification Comey had was that the Clinton's and their cronies knew Comey was in bed with them, was

compromised and was willing to do their dirty work. Comey was appointed to the FBI right when Hillary was leaving the State Department, and was vulnerable to the FBI because she had been using a private-server, mis-handling classified information, selling access to favors/contracts from the State Department to Clinton Foundation Donors (including Comey's Lockheed Martin), and much more. Remember that this was about the time the Inspector General of the State Department found over 2 billion "missing" from the State Department finances during Hillary's tenure.

The obvious conclusion is that Comey was appointed to the FBI (along with other reliable Clinton-Obama cronies) to run interference for the Clinton's and Obama's at the nation's federal law enforcement agency (in conjunction with a corrupt Department of Justice). Comey was and is owned by the Clintons. He owed all of his power and wealth to being part of their machine and providing them with cover.

In late 2015 and early 2016, information began to come out about the Clinton Foundation and its use by the Clinton's as a multi-billion dollar slush fund for corruption and political favors. (even Chelsea's wedding had been paid for by the "charity") This was right as Hillary was beginning her campaign for President. It was revealed that the Foundation had never completed required reports or had an audit. Supposedly the FBI, under Comey, began an "investigation" of the Clinton Funds. A "professional" accounting firm was brought in by the Clintons to do a review, file some reports, make recommendations to the Clinton Foundation Board, and provide a veneer of legitimacy to the Clinton Fund operations. Predictably, one of the partners in the firm that was chosen (and paid lots of money) is the brother of James Comey (FBI Director). This brother owes James Comey \$700,000 for a loan James gave him to buy a house, and presumably some of the money from the Clinton Fund was used to make payments to James on the loan. Over 2 years later and nothing has happened as a result of the FBI "investigating" the Clinton Funds under Comey.

No one in congress or federal law enforcement was intending to actually pursue the Clintons, but Judicial Watch and other independent sources obtained information proving that Hillary had been running her own server, sending out classified information, etc. This information began to come out right in the middle of her campaign to be coronated as President. A "show" investigation had to be performed to appear to look into it and clear her. Who to use?...the reliable shill James Comey.

As head of the FBI, Comey (and his lackeys in key positions) deliberately screwed up the investigation into Hillary's use of a private server and her plain violation of national security law on classified information. The investigation was deliberately mis-handled in every aspect. Comey gave immunity to all of Hillary's lackeys, did not use subpoenas or warrants, lost evidence, allowed the destruction of evidence, failed to do any searches or seizures of evidence, did not use a grand-jury, did not swear witnesses, did not record testimony, allowed attorneys to represent multiple suspects (corrupting the testimony). Everything that could be done to ruin the FBI investigation and to cover for Hillary was done. A "slam-dunk" case became a mess. Immunity was given every witness even though they provided no help. Maybe more importantly, by focusing the FBI on the email scandal, attention was drawn away from the much bigger scandal of the Clinton Foundation that could bring down a huge number of corrupt politicians, lobbyists, and even governments.

Originally, Comey's job was simply to totally botch the Hillary investigation and ruin the case against her and her minions within the FBI regarding her emails. At the same time Comey also started work on a parallel assignment to illegally "wiretap" and surveil Donald Trump and every other person involved in the Republican campaign. He was tasked with digging up any dirt or fact that could be used to hurt the Trump campaign later. This included using a fake "dossier" paid for by the Clinton campaign to obtain authorization for the surveillance and to try to associate Trump's campaign with the Russians. Under Comey's direction the Trump/Republican campaign was monitored and surveilled and all information was provided to the Obama Whitehouse and the Clinton camp all during the campaign.

Loretta Lynch was supposed to complete the coverup for Hillary as Attorney General by issuing a finding that the deliberately botched FBI "investigation" did not justify prosecution of Hillary. But someone screwed up and Bill Clinton was video'd meeting with Loretta Lynch in Arizona shortly before she was supposed to make her decision on Hillary (interference with a federal investigation), and

Lynch could no longer credibly squash the Hillary scandal. The solution, give the job to James. The Clinton's owned him and he would have to do whatever is necessary to provide cover.

Comey goes on national TV and violates every rule of the FBI, the Justice Department and American law enforcement by revealing some of the FBI's "evidence" of what Hillary did (enough to make it look like the FBI and Comey did some investigation), then declaring that there was no "intent" and clearing Hillary. He did what he was ordered to do. The Justice Department and Obama backed Comey's coverup and it looked like Hillary had survived the scandal.

Then, right before the election, the NYPD obtained pervert Anthony Wiener's laptop and found classified emails from Hillary on the laptop. The NYPD began leaking details to new-media outlets, and the story was about to explode. Comey once again stepped in to cover Hillary. He short-circuited the NYPD leaks by publicly acknowledging the laptop and the emails, but then claimed just days later that hundreds of thousands of emails had all been reviewed and "nothing new" was on the laptop. Once again, he had done his job. Providing cover and FBI "protection" for Hillary on the newest scandal when it broke.

If Hillary had won, Comey would have kept right on providing cover for the corruption of the Clinton machine. He would have kept the FBI paralyzed, prevented the Clinton Fund from being investigated, and continued to do his job as the Clinton's personal scandal eraser at the FBI.

BUT TRUMP WON.

The Swamp and its bottom-dwelling denizens realize they are at risk from this political outsider who is not connected to the uni-party machines. Before Trump takes office, a "failsafe" plan is implemented to ruin Trump's administration and try to force him out of the Presidency. The key players committed to the plan are the democrat politicians, the RINO establishment, the media, the Obama-Clinton operatives imbedded throughout the intelligence agencies and the entire bureaucracy, and most importantly, the Obama DOJ and JAMES COMEY. The scheme is to smear Trump with Russian "connections," through a fake FBI "investigation" and more importantly, to trap him into a charge of criminal interference with the FBI. COMEY IS THE CENTRAL FIGURE IN THE SCHEME TO TAKE DOWN TRUMP.

The surveillance of the Trump campaign is continued after he is elected, all participants are "unmasked" illegally, and the transcripts are leaked throughout the government and to the media. When General Flynn appropriately calls Russian officials on behalf of Trump, they brush off the old fake "dossier" and all of the surveillance of the campaign, and Comey creates the "Russian Conspiracy" investigation. With help by RINO swamp kingpin and warmonger sell-out McCain, the fake "Russian pee dossier" is leaked to the press. There is no actual evidence of any collusion or connection between Trump or his campaign with Russia, but that does not prevent Comey from initiating an "investigation" at the FBI. This provides Comey with protection from Trump firing him immediately. Comey (or his minions) constantly leak news of the "Russia Investigation" to the media, and the media does its scripted part by screaming constantly about "Russia." The Democrats fill their role and constantly scream about "Russia." McCain and the RINO establishment do their part by promising to "investigate" how the Russians influenced the campaign.

Immediately after Trump is sworn in, the DOJ Hillary/Obama operatives and Comey start the direct attack. This is before Sessions has been appointed to the Department of Justice and the DOJ is still controlled by Obama operatives. DOJ Obama appointee Sally Yates approaches the Whitehouse with news that General Flynn had been in contact with Russia and alleges that he might be compromised. She reveals that there is an FBI "investigation" into the Russia ties (which they are constantly leaking to the media themselves). The White House Counsel (who Yates talks to, not Trump) asks for some more information.

The day before the promised additional information is to be provided by Yates to the Whitehouse, Comey sets up a dinner with Trump. If he can get Trump to ask about Flynn or try to intervene regarding Flynn or Russia then Trump can be charged with "interfering with an FBI investigation." MY OPINION IS THAT COMEY SURVEILLED AND "TAPED" THIS MEETING IN HIS ATTEMPT TO SET UP TRUMP.

This is a two-pronged attack. It protects Comey and DOJ democrat holdovers from being terminated by the new administration because they are involved in

Trump knows it is a set up by Comey and that he is probably being recorded (tips from FBI or DOJ who are not part of the corruption?) Maybe because his phone calls in the Whitehouse as President have already been bugged and released to the media. (FBI is in the best position to do this) Maybe because he was used to the Mafia in NY trying to shake him down every time he built a hotel.

Comey tells Trump that Trump is not under investigation regarding Russia, but that others involved with the campaign are being investigated. Trump does not take the bait and attempt to intervene about Flynn or the Russia scam. Later, Flynn is cut loose because he is being used by Comey and the Obama-holdover Justice to try to damage Trump. He did not thing wrong, but if he stayed the charge of “interfering with an investigation” might seem to have teeth. Comey verbally tells Trump on two more occasions that he is not being investigated, but refuses to state this fact publicly or when testifying in Congress.

Trump knows everything I have gone through above about Comey. But he has to move carefully. He has to get his Attorney General and Deputy AG in place, get enough leverage on the Russia narrative, and ideally get rid of Comey in a way that allows him to obtain all the information that Comey has been accumulating (if he is taping Trump he is taping others). Comey, and others testify in Congress. Under oath, both Sally Yates and Intelligence officials from the Obama administration state that there has been no actual evidence of any collusion between the Trump campaign and Russia. More importantly, Comey, while refusing to say that Trump is not under investigation, testifies that he has informed the Senate Intelligence Committee heads who exactly is under investigation regarding Russia.

Trump tells almost no one at the White House that he is moving against Comey (so no leaks... no listening in on his conversations) Trump somehow contacts Sen. Grassley (the Chair of the Senate Intelligence Committee) and confirms that Comey told the Senator that Trump was not under investigation personally. Trump gets both the Attorney General and the new Deputy Attorney General to legitimately review Comey’s unprofessional actions at the FBI and to recommend in writing that Trump terminate Comey. Somehow Comey goes to California (at the request of AG Sessions or already scheduled and someone at FBI telling Trump?).

Trump seizes the moment and acts. While Comey is in California, 3000 miles away and 7 hours from his office, Trump prepares a letter firing him (with Sessions and the Deputy AG recommendations attached). In the letter Trump states that he had been told 3 times by Comey that he (Trump) was not under investigation. The letter is hand-delivered to the FBI headquarters by DOJ officials to lock-down and seize everything in Comey’s office, including all surveillance files (“tapes”) of Trump and others. All of Comey’s files, docs, computers and “tapes” are taken to Sessions at DOJ. They are not taken to the Whitehouse or Trump, but to Sessions, who has every right to have them. Sessions can tell Trump that Comey had surveillance tapes of Trump that contradict what Comey has been telling Trump, and perhaps tapes of conversations with other swamp “conspirators.” But Trump does not have them personally or at the Whitehouse.

HOW TO FILE A FRAUD COMPLAINT AGAINST A UNIVERSITY

The following universities were announced as participants in Ohio State Provost Joseph A. Steinmetz’s corrupt MOOC education initiative named “University Innovation Alliance” (UIA). We have identified the instructions and online forms you need to file a complaint with the participants. MOOC stands for “Massive Open Online Course.”

You should complain about:

- (1) the intellectual property theft of social networking source code from *Leader Technologies*, Columbus, Ohio that is the software engine running the UIA;

the FBI investigation. Comey intends to follow through with the plan to take down Trump.

But because of his brilliant timing on this, Trump has Comey's files, documents and information safely with Sessions at DOJ. Trump sends out a "crazy" tweet that says: "James Comey better hope that there are no "tapes" of our conversations before he starts leaking to the press."

The media and the politicians go crazy about the "inappropriateness" of this tweet. They accuse Trump of "taping" everyone at the WhiteHouse (forgetting that the Presidents phone calls with foreign leaders have been "taped" without his knowledge.)

Notice that Trump did not say he taped anyone, or that he has any tapes at the White House. It seem apparent that Trump is telling Comey that the DOJ (who has every legal right to possess it) has the surveillance information and files from Comey's office, the "tapes" obtained and kept by Comey. Comey and all the Swamp Creatures understand the clear message... their plan has failed and Trump's DOJ is now holding all the cards.

The whole Russia interference scheme crashes and burns. While the mouthpiece media, Hollywood and the insane fringe continue to scream about Russia and Comey being fired, the politicians who will soon be in the crosshairs of a legitimate (and ticked) FBI and DOJ are starting to fall strangely silent. Comey realizes all the leverage is with Trump and that he will be lucky if he is not added to the Clinton Death List because of his knowledge (better not take any baths near an electrical outlet or get on any airplanes).

Comey tells Congress he will not testify and writes a public letter to the FBI accepting his firing and telling them he does not want to discuss why or how he was terminated. Senator Grassley and Senator Feinstein (she must be covering her butt in fear ...) issue public statements confirming that Comey told them that the "Russia Investigation" does not involve President Trump personally.

AG Sessions and his Deputy AG use the Comey trove of information to determine who has been part of the Comey Syndicate at the FBI. They will be appointing an "interim" Director of the FBI shortly who has not been compromised by Comey, Clinton or Obama. That "interim" Director does not have to be approved by Congress or anyone, and can immediately begin cleaning house at the FBI of all Comey/Clinton/Obama minions, initiating investigations of the Clintons, Clinton Fund, violations of intelligence confidentiality laws by Susan Rice and Obama, human trafficking in DC, political corruption... draining the Swamp. Using the Comey files they can be fairly certain they are not getting another Comey as an "interim", and they do not have to wait for the circus of appointing a new permanent "Director" through Congressional approval. Most of the heavy lifting on rooting out FBI corruption and starting investigations into the swamp will be done by the "interim" before a new director is appointed. I suspect the Trump administration hopes the approval FBI Director process will be slow and tedious, so there is no political interference with the housecleaning that is starting.

In one masterstroke, Trump has eliminated a truly toxic and dangerous enemy to his administration and our country, dealt a horrendous blow to the Clinton/Obama and deep state machines, begun the restoration of the integrity of the FBI and the DOJ, and gained incredible ammunition to begin hunting the foul creatures in the swamp.

Happy Hunting President Trump... and God Bless!

(2) the corruption at Ohio State University and OSU's collusion with Battelle Memorial Institute which helped steal the software being used by UIA; and

(3) the mistreatment of OSU Marching Band Director Jon Waters regarding fabricated Title IX charges that were used to pave the way for Steinmetz to announce UIA.

Universities pride themselves on protection of intellectual property.

Therefore, these universities cannot participate in this abuse of inventor copyrights, patents and trade secrets by The Ohio State Trustees and Administration. If these universities participate knowingly with Ohio State in its theft of intellectual property, then they are aiding and abetting the theft of intellectual property on a "massive" scale... John Podesta, former Secretary of State Hillary Clinton's 2016 national campaign chairman, may have violated federal law by failing to disclose the receipt of 75,000 shares of stock from a Kremlin-financed company when he joined the Obama White House in 2014.

The outlet also states that Podesta appears to be linked to a \$35 million transaction between a Kremlin-funded company and a company he sat on the board of.

NEW YORK-

The attack on me by Clinton campaign Chief John Podesta is an attempt to deflect attention from his criminal activities in the former Soviet Union. Podesta is at the heart of a Russian-government money laundering operation that financially benefits Podesta personally and the Clintons through the Clinton Foundation.

To be clear, although I have had some back-channel communications with Wikileaks I had no advance notice about the hacking of Mr. Podesta nor I have I ever received documents or data from Wikileaks.

The charge that I am working for Russian intelligence or any Russian interest is also false. Don't confuse me with John Podesta's brother, Tony Podesta, who runs the firm that got \$180,000 from Uranium One, the Russian government's uranium company to which Hillary Clinton transferred 20 percent of U.S. uranium.

Just how much money did Viktor Vekselberg, a controversial Russian billionaire investor with ties to the Vladimir Putin and the Russian government, launder through Metcombank, a Russian regional bank owned 99.978 percent by Vekselberg, with the money transferred via Deutsche Bank and Trust Company Americas in New York City, with the money ending up in a private bank account in the Bank of America that is operated by the Clinton Foundation?

PART OF THE CIA EVIL EMPIRE, CORRECTION FACEBOOK, HAS SECRET RULES. IMAGINE MY SHOCK. IT USES STOLEN INVENTIONS FROM REAL INVENTORS. ZUCKERBERG IS A FRAUD ALONG WITH HIS LAWYER AND BANKER HANDLERS.

Nick Hopkins. (May 22, 2017). FACEBOOK'S SECRET RULES AND GUIDELINES EXPOSED. Sci-Tech Today.

Facebook's secret rules and guidelines for deciding what its 2 billion users can post on the site are revealed for the first time in a Guardian investigation that will fuel the global debate about the role and ethics of the social media giant.

The Guardian has seen more than 100 internal training manuals, spreadsheets and flowcharts that give unprecedented insight into the blueprints Facebook has used to moderate issues such as violence, hate speech, terrorism, pornography, racism and self-harm.

There are even guidelines on match-fixing and cannibalism.

The Facebook Files give the first view of the codes and rules formulated by the site, which is under huge political pressure in Europe and the US.

They illustrate difficulties faced by executives scrambling to react to new challenges such as "revenge porn" -- and the challenges for moderators, who say they are overwhelmed by the volume of work, which means they often have "just 10 seconds" to make a decision.

"Facebook cannot keep control of its content," said one source. "It has grown too big, too quickly."

It didn't have to end this way for James Comey.

The former FBI director could have avoided the national embarrassment of being fired by the president of the United States if he had only done one thing differently. So says a former Department of Homeland Security officer and whistleblower.

"Mr. Comey made a fatal error, and I can tell you exactly when it was," Philip Haney told host John Wells on a recent episode of "Caravan to Midnight." "When he finished his investigation of the Hillary email stuff, he gave the press conference, and he came right up to the ultimate edge of saying that she committed criminal acts, and then, all of a sudden, in another blink, the next sentence he said, 'But no reasonable judge would indict her on criminal charges.'

"That was his fatal error, because what he should have done right there is simply said, 'And now, I'm going to give it to Loretta Lynch and let her make the final decision.' That was the moment right there. Everything else has been downhill from there."

Dotcom, on the other hand, begs to differ. One year after the high-profile raid of his home and the shut-down of one of the most popular sites on the Web, Dotcom hosted a launch party for his latest endeavor, simply called Mega. On the anniversary of the end of Megaupload, Dotcom discusses the year since his arrest and what the future holds in regards to both his court case and the Internet alike. Speaking with RT's Andrew Blake from his Coatesville, New Zealand mansion, Dotcom weighs in on the US justice system, the death of Aaron Swartz, the growing surveillance state, his own cooperation with the feds and much more.

GH/JM COMMENT, Part I

1st Encounter - WHITEWATER SCANDAL

Comey's first encounter with the Clinton's was in 1996 when he:

"served as deputy special counsel to the Senate special committee on the Whitewater investigation, chaired by Republicans at the time, which linked Hillary Clinton to the mishandling and destruction of documents."

Comey reportedly dug into:

"allegations that the Clintons took part in a fraud connected to a Arkansas real estate venture gone bust. No charges were ever brought against either Clinton, but the scandal would eventually lead to independent counsel Kenneth Starr's probe that would result in the Lewinsky scandal."

K. Craine May 23, 2017 at 6:41 AM

GH/JM COMMENT, Part II

2nd Encounter - MARC RICH PARDON SCANDAL

Comey next was involved with the Clintons when in the early 2000's when he was:

"involved at both ends of the case of Marc Rich, a billionaire oil trader indicted for tax fraud and trading with Iran during the hostage crisis, who was later pardoned by President Bill Clinton during his final day in office in 2001. In a letter to the Senate, Comey describes working as both the lead prosecutor in New York on the original case against Rich in 1983 and then later, in 2002, overseeing criminal investigations into Clinton's last-minute pardons.

The investigations concluded there was no wrongdoing on the president's part, despite public outcry over evidence that Rich's ex-wife had donated to Hillary Clinton's Senate campaign."

GH/JM COMMENT, Part III

3rd Encounter - BENGHAZI COVER-UP / HILLARY'S PRIVATE EMAIL SERVER SCANDAL

Comey's third encounter with the Clintons came before the 2016 Presidential election. Hillary Clinton set up a private email server that she used when Secretary of State under the Obama Administration. Government employees are mandated to use government email accounts similar to employees in the private sector. Hillary allowed others on her team to use her private email system as well, including Huma Abedin, her assistant and close confidant.

Through a series of events Hillary's email system was discovered and the FBI and Comey got involved. One question that needed to be answered was whether Hillary's actions with her emails led to gross negligence with national defense information which would be a serious crime according to the Espionage Act of 1913.

Hillary went to great lengths to hide the fact that she was using a private email server and made many excuses which later turned out to be lies. For example, she claimed that she didn't know a 'C' on her emails meant classified. Unfortunately, her emails contained at least five different emails that contained information on the exact location or travel plans of US Ambassador Chris Stevens, who was murdered in Benghazi. His killers knew exactly where he was going to be when they got him.

Clinton's team eventually deleted her emails and then cleaned her server with a program called 'Bleachbit'. They did this after these items were requested in subpoenas from Congress.

On June 27th Bill Clinton met with US Attorney General Loretta Lynch in her plane in Arizona for a half an hour. Comey never commented on this meeting but within a week Lynch's Department of Justice dropped the investigation into Hillary's emails and FBI's Comey made the announcement. Comey's statements were later compared to Hillary's prior statements -

-----Staff. (Jul. 05, 2016). Hillary Clinton vs. James Comey: Email Scandal Supercut. ReasonTV.
<https://youtu.be/wbkS26PX4rc>

After FBI Director Comey announced that the FBI would not recommend criminal charges be filed against Hillary, he was grilled in Congress by US Representative Trey Gowdy -

-----Staff. (Jul. 07, 2016). Trey Gowdy Shreds Hillary Clinton's Lies During Hearing With FBI's James Comey. Western Journalism.
<https://youtu.be/6Z8pnk2rvYo>

Trey Gowdy Shreds Hillary Clinton's Lies During Hearing With FBI's James Comey. Western Journalism.

Americans were very upset with the FBI announcing that criminal charges were not recommended against Hillary Clinton regarding her emails. Anyone who looked into it knew she was guilty of numerous crimes.

K. Craine May 23, 2017 at 6:51 AM

4th Encounter - ANTHONY WEINER / HUMA MAHMOOD ABEDIN PEDOPHILIA & CLASSIFIED DOCUMENTS LAPTOP SCANDAL

Comey's fourth encounter with the Clinton's came in late October 2016 when it was announced that the FBI was reopening its investigation into Hillary's emails. Apparently emails recovered in the pervert Anthony Wiener case ended up being related to the Hillary investigation. Wiener is the husband of Clinton confidant Huma Abedin and reportedly Clinton emails were found on Huma's computer after Huma stated under oath that all her emails were turned over. At about the same time an email released from WikiLeaks showed that Hillary's longtime assistant Cheryl Mills ordered Hillary's email server to be bleached clean.

None of this mattered to Comey as a few days later, Comey announced that he was letting Hillary off again with no charges filed.

K. Craine May 23, 2017 at 6:54 AM

GH/JM COMMENT, Part V

CONFLICTS OF INTEREST: LOCKHEED MARTIN, CLINTON GLOBAL INITIATIVE, HSBC, CLINTON FOUNDATION, DLA PIPER

Comey's Family and Their Clinton Related Activities

Comey served as general counsel at Lockheed Martin until 2010 when he departed with over \$6 million to show for it. That same year Lockheed Martin became a member of the Clinton Global Initiative and "won 17 contracts from the U.S. State Department, which was led by then-Secretary of State Hillary Clinton," Big League Politics reports.

Comey just so happened to have joined the board of the British bank HSBC Holdings in 2013, which just so happens to be a Clinton Foundation partner.

However, one of the most important conflicts of interest is Comey's brother Peter Comey's role at the Washington law firm DLA Piper, where he serves as "Senior Director of Real Estate Operations for the Americas".

As Big League Politics reported, "DLA Piper's offices [shortly before the election] . . . confirmed that the law firm immediately [patched] callers through to Peter Comey's direct line there."

DLA Piper is one of the top ten all-time career campaign donors for Hillary Clinton. On top of this, DLA Piper also happens to do the Clinton Foundation's taxes. DLA Piper performed the 2015 audit of the Clinton Foundation.

Big League Politics reported that:

Property records show that James Comey owns the mortgage on his brother Peter Comey's house in Virginia. Therefore, James Comey had a direct financial relationship with a DLA Piper executive at the time he was investigating Clinton.

GH/JM COMMENT, Part VI

VALERIE PLAME / C.I.A. / CRAZY MSM-GENERATED AND SUSTAINED RUSSIAN CONSPIRACIES

Comey's Attacks on Republicans

Note that Comey wasn't always a softball throughout his career. During George W. Bush's Presidency Comey appointed:

"the special investigator to lead the probe into the leaking of CIA officer Valerie Plame's name, a politically charged inquiry that resulted in the conviction of Vice President Dick Cheney's adviser Scooter Libby."

The Plume case was a sham from the start. Plume claimed that she was outed by someone in the Bush Administration for being in the CIA yet it was reported that she was outed as working at the CIA 2 years before she was supposedly outed by the Bush Administration. The outcome of the case was months of liberal media attention and Scooter Libby's conviction for perjury for saying something he could have just as easily pleaded the 5th. (It was a witch hunt!)

Comey also denied having any information about President Trump being wiretapped and did nothing to shut down the crazy Trump/Russia conspiracy that is promoted non stop by the MSM since Trump won the Presidency.

When you look into it, it looks like the firing of Comey was a giant step in draining the swamp.

California Democrat Representative Maxine Waters held \$200,000 in Russia-linked retirement accounts in 2015, even while she hypocritically calls for President Donald J. VENTURA, Fla. — The constellation of political groups in Democratic strategist David Brock's network are aiming to raise roughly \$40 million in 2017, the Clinton antagonist-turned-top ally told roughly 120 donors gathered here on Saturday.

Speaking shortly before a forum of the candidates for Democratic National Committee chair on the third day of his weekend conference at the Turnberry Isle golf resort, Brock told the wealthy party members that approximately half of the money would go into 501(c)(3) arms of the organizations, and the rest would be for the 501(c)(4) or super PAC sides.

Brock's groups include Media Matters, a liberal news media watchdog; ShareBlue, a liberal news site; American Bridge, the party's primary opposition research organization; and Citizens for Responsibility and Ethics in Washington (CREW), which carries out legal actions. CREW will be a particular locus of activity this year, according to donors briefed on the plans.

Special Prosecutor MUELLER PURGED FBI Training Docs After 9/11, Compromised FBI

Former FBI Assistant Director James Kallstrom spoke to Maria Bartiromo earlier this month, prior to Robert Mueller being named as special prosecutor and chief phantom Russian chaser in the leftist attempt to destroy the Trump Presidency. The topic of the interview shifted to the issue of the real collusion, that of the Muslim Brotherhood and CAIR taking a prominent role and infiltrating the FBI. He describes how the White House, under both George W. Bush and the Obama regime and the FBI, including specifically Robert Muller, changed to accommodate the demands of the terrorist front organization after the Twin Towers came down.

Kallstrom says, "You know, right after 9/11, in my view, Bob Mueller, who was then the director, sort of acquiesced with CAIR, which is actually a front group, in my view, of the Muslim Brotherhood. And there was a lot of connections to the Muslim Brotherhood in the White House, without getting into detail."

Since taking over the FCC earlier this year, commission chairman Ajit Pai has released the text of most proposals a month before they're voted on. This is done in the name of transparency, so the public knows what the commission is up to. But it's also done so that the commission can begin receiving comments and factor them in to the revised version of each proposal that it ends up voting on.

This is the same process that happened with the commission's proposal to kill the 2015 net neutrality rules. An initial draft was published last month, and yesterday we got to see the revised draft that ended up being voted on. In between, there were plenty of comments made for the FCC to look at: 2.6 million as of today. (Though tens of thousands appear to be fake.)

The Obama administration knowingly let in at least 16 admitted MS-13 gang members who arrived at the U.S. as illegal immigrant teenagers in 2014, a top senator said Wednesday, citing internal documents that showed the teens were shipped to juvenile homes throughout the country.

Sen. Ron Johnson, chairman of the Senate Homeland Security Committee, said a whistleblower turned over Customs and Border Protection documents from 2014 detailing the 16 people who were caught crossing the border.

"CBP apprehended them, knew they were MS-13 gang members, and they processed and disbursed them into our communities," Mr. Johnson, Wisconsin Republican, said.

The gang members were part of the surge of UAC, or "unaccompanied alien children," as the government labels them, who overwhelmed the Obama administration in 2014, leaving Homeland Security struggling to staunch the flow from Central America.

The National Security Agency under former President Barack Obama frequently violated privacy protections while scouring through overseas intercepts - and failed to disclose the extent of the problems until late last fall, Circa reported Wednesday.

According to the outlet, declassified documents unveil serious constitutional abuses by the intelligence community - showing more than 5 percent of searches seeking internet data on Americans inside the NSA's controversial Section 702 database violated safeguards.

The Obama administration disclosed the problems at a closed-door hearing last Oct. 26 before the Foreign Intelligence Surveillance Court, Circa reported.

The court even rebuked administration officials, saying the failure to disclose the extent of the violations earlier amounted to an "institutional lack of candor" and the improper searches constituted a "very serious Fourth Amendment issue," Circa reported, citing a court document from April.

WAT? SCUMBAG ATTORNEYS FABRICATING DOCUMENTS? IMAGINE MY SHOCK.

Solange Reyner. (May 24, 2017). WASH POST: COMEY USED POSSIBLY FAKE DOCUMENT TO JUSTIFY DECISION TO END CLINTON PROBE. Newsmax.

Former FBI Director James Comey used a possibly fake Russian document to justify his decision to end the investigation into Hillary Clinton's use of a private email server to send

classified information during her tenure as Secretary of State, The Washington Post reported.

The document, received by the FBI in March 2016, mentioned a supposed email between then-Democratic National Committee Chairwoman Debbie Wasserman-Schultz and Leonard Benardo, an official at the Open Society Foundations founded by George Soros, where Wasserman-Schultz said then-Attorney General Loretta Lynch told a top Clinton campaign aide she would not allow the Clinton probe to go too deep.

Comey might have used the document to go public with his decision in order to make it clear the FBI, and not the Justice Department, was making the call, the Post reported.

"It was a very powerful factor in the decision to go forward in July with the statement that there shouldn't be a prosecution," a person familiar with the matter told the Post. "The point is that the bureau picked up hacked material that hadn't been dumped by the bad guys [the Russians] involving Lynch. And that would have pulled the rug out of any authoritative announcement."

The FBI, though, later found the document to be bad intelligence and some sources believed it to be a fake planted to confuse the agency. Wasserman Schultz and Bernardo told the Post they do not know each other and have never communicated. The Clinton campaign aide, Amanda Renteria, said she does not know Lynch. People close to Lynch said she does not know Renteria.

"It didn't mean anything to the investigation until after [senior FBI officials] had to defend themselves," one person familiar with the matter told the Post. "Then they decided it was important. But it's junk, and they already knew that."

Robbie Gramer, Emily Tankin. (May 24, 2017). John Kerry Slams Trump Administration in Harvard Commencement Speech. FP.

Former Secretary of State John Kerry largely held his tongue on Donald Trump's raucous and controversial presidency — until now. In a commencement speech Wednesday before Harvard University's Kennedy School, Kerry slammed Trump and the noxious political

environment in Washington in which politicians and former politicians slam each other.

"I did not come here to be partisan or political or pessimistic. But I did come here to tell the truth," he said, before launching into a partisan, political, and somewhat pessimistic tirade.

A reporter who was a firsthand witness to an incident late Wednesday involving Montana GOP candidate Greg Gianforte and a reporter for the Guardian now admits she may have misstated some details of her initial story.

Guardian reporter Ben Jacobs claimed Gianforte, locked in a hotly contested special election for Congress, body-slammed him and broke his glasses at a campaign event Wednesday. Local authorities have brought misdemeanor assault charges against Gianforte.

"You know, and I'm the one who said that ... I saw both his hands go up ... I guess it could've been on his clothes, I don't know."

There is, so far, no direct video of the incident; only audio has been produced publicly. Among the small handful of eyewitnesses was Fox News reporter Alicia Acuna.

Acuna wrote a report published on Fox News that detailed what happened as Jacobs aggressively questioned Gianforte.

Mainstream Media (MSM) is pushing invalidated, unsubstantiated and crazy conspiratorial stories about President Trump colluding with Russia to win last year's election. But liberal media won't touch the story about former DNC staffer Seth Rich being gunned down in Washington DC last year.

Democrats and their media continue to push the false tale that Trump worked with Russia to steal the 2016 Presidential election. This lie is being promoted on all media outlets as a matter of fact even though there is no evidence to support the accusation. Democrats and the MSM have argued that Trump somehow supplied DNC emails to WikiLeaks that impacted the election and gave the victory to Trump. This is of course is false on all levels. For example, DNC emails were released by WikiLeaks before the election but for the most part the MSM ignored them. Also, the emails did contain information that showed unethical, if not criminal, actions by John Podesta and Hillary Clinton before the campaign, but there is no information to date that proves that the emails released were in any way false or made up.

Hillary Clinton's creepy former Campaign Manager John Podesta has a history of seedy and alleged illegal activity. The late Andrew Breitbart, entrepreneur and creator of Breitbart.com knew this back in 2012 (warning on language):

Jon Fingas. (May 24, 2017). CONGRESSIONAL INTERNET PRIVACY BILL WOULD COUNTER FCC ROLLBACKS - Even civil liberties advocates aren't entirely happy with it, however. Engadget.

The US House of Representatives may have voted to roll back the FCC's privacy rules and let internet providers sell your browser history without your explicit permission, but there's a proper replacement waiting in the wings... maybe. Tennessee Representative Marsha Blackburn has proposed a bill, the Browser Act, that would have both internet providers and content providers (like Facebook or Google) get your permission before selling data. They couldn't refuse service if you disagreed, either. The measure would theoretically please both privacy advocates as well as those telecoms that saw the FCC's ISP-only regulation as unfair, such as AT&T. However, there are still serious areas of concern -- it's possible that this bill would anger both sides.

Most notably, the bill would prevent both the FCC and states from pursuing similar online privacy regulations. Is a privacy issue better-suited to the FCC than Congress? Too bad. And civil liberties groups aren't entirely convinced that the Browser Act is as much of a boon to privacy as it could be. The ACLU's Neema Singh Guliani tells Recode that "gutting" the FCC regulation wasn't the answer to privacy issues -- there should have been a "replacement," she says.

Jon Fingas. (May 24, 2017). FCC STONEWALLS FOR EVIDENCE OF CYBERATTACK - There are concerns it's trying to hide grassroots support for net neutrality. Engadget.

The FCC swears that a denial of service attack hit its servers hours after Last Week Tonight's John Oliver rallied support for net neutrality, but where's the evidence? Well, don't expect it any time soon. In an interview with ZDNet, the regulator's David Bray says the FCC won't release the logs that might show who was responsible for the incident. The logs contain private info like IP addresses, he says. Bray does note that there wasn't a botnet involved, though -- instead, the traffic came from commercial cloud services using the FCC's public programming interface. But if it wasn't a botnet, then who was involved? Some critics are concerned that the FCC isn't exactly being forthright.

The advocacy group Fight for the Future tells ZDNet that the FCC should disclose information "to the appropriate authorities and to journalists" to have them investigate the data while maintaining privacy. And if there's an organization behind the attack, the group says, the FCC should divulge who it is. That it isn't is worrying -- does the Commission not know, or is it trying to hide the origins? Fight for the Future is concerned that the traffic is either from net neutrality supporters (and thus evidence that the FCC couldn't/wouldn't handle opposition to its net neutrality rollback) or opponents trying to stifle criticism.

In this photo taken Oct. 5, 2016 file photo, Hillary Clinton's campaign manager John Podesta speaks to members of the media outside Democratic presidential candidate Hillary Clinton's home in Washington. Hacked emails reveal internal disagreement among top Clinton aides about her determination to hold a Clinton Foundation summit in Morocco that later drew attention over its reliance on large donations from foreign governments. (AP Photo/Andrew Harnik, File)

Peter Schweizer, president of the Government Accountability Institute and the author of "Clinton Cash," explained on Fox News Tuesday how a Russia connection to the Clinton campaign and Obama presidency is much bigger and more troubling than anything Democrats have accused Team Trump of.

During his appearance on "Fox & Friends," Schweizer alleged that Clinton campaign chair John Podesta probably violated federal law when he failed to disclose his stock holdings in a Kremlin-funded company.

"In 2011, John Podesta joins the board of this very small energy company called Joule Energy based out of Massachusetts," Schweizer said. "About two months after he joins the board, a Russian entity called Rusnano puts a billion rubles -- which is about 35 million dollars -- into John Podesta's company. Now, what is Rusnano? Rusnano is not a private company, Steve. It is a fund directly funded by the Kremlin. In fact, the Russian science minister called Rusnano Putin's child. So you have the Russian government investing in one of John Podesta's businesses in 2011, while he is an advisor to Hillary Clinton at the State Department."

The Seth Rich bombshells that are being dropped now are earth shattering, and according to sources, there is absolute panic at the highest levels of the DNC in Washington.

World Net Daily investigative journalist Liz Crokin is breaking huge news regarding the Seth Rich murder investigation, or the complete lack thereof. Crokin has discovered that DC police failed to visit the last bar at which Seth Rich was seen alive - it appears that even the most cursory investigation has been avoided. According to Crokin, the bar owner told her no one showed up to interview him, or any one else, nor was he ever asked for any bar video surveillance that might have been recorded of Rich's final moments.

Additionally, Kim Dotcom has publicly confirmed that he KNOWS that Seth Rich WAS the DNC Wiki-leaker. Dotcom says he is willing to share everything he knows with US government officials IF they can guarantee his safe passage into and out of the United States.

Dotcom says, "I KNOW THAT SETH RICH WAS INVOLVED IN THE DNC LEAK, If my evidence is required to be given in the United States I would be prepared to do so if appropriate arrangements are made. I would need a guarantee from Special Counsel Mueller, on behalf of the United States, of safe passage from New Zealand to the United States and back."

Harvard Law School professor emeritus Alan Dershowitz said Thursday that reports that White House senior adviser Jared Kushner was under FBI scrutiny on Russia pointed to an inquiry that was "being done backwards" and "raises great concerns about civil liberties."

"Usually, you can point to a statute and say, 'We're investigating crime under this statute,'" Dershowitz told Anderson Cooper on CNN before referencing special prosecutor Robert Mueller.

"What Mueller seems to be doing is saying: 'We don't like what happened. Maybe there was some collaboration. But I can't figure out what statute was being violated.'"

. . .

Dershowitz had some advice for Gorelick, whom he said was a former student.

"I would say, first to the investigators: 'Before you talk to my client, I want to know what your authority is. What your jurisdiction is.'"

Lacking that foundation, Dershowitz likened the Kushner inquiry to the words of Joseph Stalin's secret police chief, Lavrentiy Beria: "Show me the man and I'll find you the crime."

Wesley Pruden. (May 25, 2017). THE LATEST NEWS FROM THE PRESIDENT IN EXILE. The Washington Times.

The government in exile — the real one, according to the media — has had a busy week at home and abroad. “President Obama” has given up leading from behind and presumes now to lead from overseas. His secretary of state has a new mission, as missionary to the safe places where snowflakes fall.

Mr. Obama joined German Chancellor Angela Merkel in Berlin to lecture America and the West to quit being so beastly to the strivers of the Third World, and open wider the borders of the West. “We can’t isolate ourselves,” the former president said from a platform at the Brandenburg Gate. “We can’t hide behind a wall.”

This is the message that resonates with Mrs. Merkel and many of the Europeans, even it strikes a sour note at home and even in Britain, coming just days after the spawn of a Libyan immigrant murdered nearly two dozen Britons, including several children, and then blew himself up at a concert arena in Manchester.

Timing is everything, as the man said, and the president in exile used his appearance in Berlin as a coming-out party after nearly six months of playing celebrity in borrowed houses across the South Seas and the Caribbean, playing at golf instead of government. But boredom set it and when Frau Merkel agreed to receive him as a fellow head of state, well, why not? She knew she could count on him to deliver platitudes and goo-goo worthy of an American president in exile.

Washington (CNN)Then-FBI Director James Comey knew that a critical piece of information relating to the investigation into Hillary Clinton's email was fake -- created by Russian intelligence -- but he feared that if it became public it would undermine the probe and the Justice Department itself, according to multiple officials with knowledge of the process.

As a result, Comey acted unilaterally last summer to publicly declare the investigation over -- without consulting then-Attorney General Loretta Lynch -- while at the same time stating that Clinton had been “extremely careless” in her handling of classified information. His press conference caused a firestorm of controversy and drew criticism from both Democrats and Republicans.

Comey's actions based on what he knew was Russian disinformation offer a stark example of the way Russian interference impacted the decisions of the highest-level US officials during the 2016 campaign.

The Washington Post reported Wednesday that this Russian intelligence was unreliable. US officials now tell CNN that Comey and FBI officials actually knew early on that this intelligence was indeed false.

Bob Unruh. (May 26, 2017). JUDGE ORDERS PROTECTION SCHEME FOR ABORTIONISTS - Censors media's presentation of jokes about 'eyeballs in laps' and 'pull off a leg, or 2'. WND.

A federal judge in California, appointed under the pro-abortion agenda of Barack Obama, was infuriated that a newly released undercover video revealed abortionists at the top level of the U.S. industry joking about "eyeballs in laps" and other horrific incidents, and has censored the news media's delivery of that information to the American public.

The video, which appeared Thursday, included abortionists chuckling among themselves about the hardships of their work, including "heads that get stuck" and baby-parts customers who say they "want brain."

Judge William Orrick III late Thursday ordered the organization that has released more than a dozen undercover videos, all legally, revealing Planned Parenthood's baby body parts trade to remove the video.

The order immediately rippled through the Web, imposing Orrick's prior restraint decision on media outlets that also had posted the information.

The video, produced by the Center for Medical Progress, was posted on the website of one of the attorneys defending the group's leaders.

David Zublick. (May 22, 2017). BOMBSHELL! SETH RICH MURDER WAS A PIZZAGATE MOB HIT. America Talks / USA News.

On July 10, 2016, amidst the Hillary Clinton campaign and DNC being roiled by Wikileaks publications of DNC emails and John Podesta emails, Seth Rich, a DNC data analyst, was shot two times in the back, murdered. At the time, Wikileaks had made it abundantly clear that despite reports claiming the DNC and the Clinton campaign had been hacked, the information given to them came from a "leak," not a hack. After the murder, Wikileaks first offered a \$20,000 reward and second, Wikileaks founder Julian Assange was interviewed, spoke directly about the "risks" that leakers faced, then used Seth Rich's murder as an example of those risks. Was the murder of Seth Rich a PizzaGate "mob hit"? in this special report, David Zublick interviews Thomas Horan, who believes that the information Rich gave to Wikileaks contained evidence of email communications regarding the pedophile sex trafficking scandal that is rocking Washington, D.C. and the rest of the country, and that a

contract was put out on his life for doing so. This scandal is a worldwide crime syndicate that will eventually bring down some very powerful people...people whose lust for power has put them in some compromising positions, which, when exposed, will rock the very foundation of our country But many have already lost their lives for getting too close to exposing these people. The truth about Seth Rich's murder is about to be unsealed!

"Congress and the American public have a right and a duty...". Western Journalism.

House Oversight Committee Chairman Jason Chaffetz, R-Utah, is not taking no for an answer.

The FBI told Chaffetz on Wednesday that it would not, for now, hand over documents that included former FBI Director James Comey's internal memos of his meetings with President Donald Trump. Published reports based on leaked excerpts from those memos have portrayed Comey as saying he felt pressured by Trump to drop investigations into former national security adviser Michael Flynn and Russian meddling in the 2016 election.

The FBI did not refuse ever to supply the documents, but said that it could not hand the documents over in light of the appointment of Robert Mueller as special counsel to investigate issues related to alleged Russian collusion with the Trump campaign.

"Congress and the American public have a right and a duty to examine this issue independently of the special counsel's investigation," Chaffetz said in reply. "I trust and hope you understand this and make the right decision - to produce these documents to the committee immediately and on a voluntary basis."

THE WASHINGTON D.C. MAYOR, MURIEL BOWSER, IS A HILLARY CLINTON OPERATIVE. NOW PRESSURING THE SETH RICH FAMILY AND HER OWN POLICE TO SHUT DOWN THE INVESTIGATION INTO WHAT WAS VERY EVIDENTLY A POLITICAL ASSASSINATION TO PUNISH RICH FOR LEAKING DNC EMAILS TO WIKILEAKS.

Alicia Powe. (May 27, 2017). D.C. MAYOR: OF COURSE SETH RICH MURDERED DURING 1 OF OUR ROBBERIES - 'Any homicide in the District of Columbia gets the full attention of the police'. WND.

WASHINGTON - Responding to claims that Washington, D.C., Mayor Muriel Bowser directed

the Metropolitan Police Department to stop investigating the murder of DNC staffer Seth Rich, the mayor's office insisted to WND that Rich was killed in an attempted robbery and police are committed to bring closure to his case.

"This is a robbery that ended tragically. Any homicide in the District of Columbia gets the full attention of the Metropolitan Police Department," Bowser's deputy press secretary, Susana Castillo, told WND in statement Friday. "In fact, MPD has a cold case unit that focuses on solving homicides in D.C. no matter how old they are."

While Castillo maintains that Bowser's office "will continue to work with the Rich family to bring closure to this case as MPD does with all homicide cases," private investigators have told WND they are certain Bowser has ordered a halt to the investigation.

Jack Burkman, the head of the private, Washington, D.C.-based Profiling Project investigative team, claimed to WND on Wednesday that D.C. police officials have colluded with the mayor to suspended the investigation.

While police initially cooperated with his team of private investigators, now they refuse to cooperate with any parties involved and are withholding key evidence from the public and obstructing the investigation for political purposes, Burkman alleges.

The owners of a Russian bank are suing BuzzFeed for publishing a dossier containing unproven claims that the businessmen were involved in bribing Russian President Vladimir Putin years ago and took part in an alleged Russian government scheme to influence the 2016 U.S. presidential election.

Mikhail Fridman, Petr Aven and German Khan of Alfa Bank filed the defamation lawsuit Friday in state court in Manhattan, seeking unspecified damages from BuzzFeed as well as editor-in-chief Ben Smith, reporter Ken Bensinger and editors Miriam Elder and Mark Schoofs.

The suit seized on Smith admitting that at the time BuzzFeed published the dossier in January he knew aspects of the dossier were wrong and that other aspects of it were unproven. That admission indicates BuzzFeed had knowledge sufficient to meet the legal standard for libel, the court complaint says.

A federal prosecutor's body was discovered on a Hollywood, Florida beach with potential head trauma.

Brandon J. Whisenant, Jr.'s body was found Wednesday by a random individual. The police are attempting to determine if Whisenant's death was a "homicide, suicide, or something else."

The AP reports:

Hollywood police spokeswoman Miranda Grossman said Thursday that the body of 37-year-old Beranton J. Whisenant Jr. was found early Wednesday by a passerby on the city's beach. She said detectives are trying to determine if the death was a homicide, suicide or something else.

Whisenant worked for the U.S. Attorney's Office in Miami in its major crimes unit. He had joined the office in January. Court records show he had been handling several visa and passport fraud cases.

Acting U.S. Attorney Benjamin G. Greenberg said in a statement that Whisenant was a "great lawyer and wonderful colleague." The office declined to comment on the investigation.

Bannon, the former Breitbart executive whose no-holds-barred approach served Trump well in the homestretch of his presidential campaign, headed home from Trump's foreign trip and is reportedly the quarterback of an emerging war room of high-powered lawyers, surrogates and researchers.

President Trump proposed a temporary halt on refugee resettlement from six countries known to harbor Islamic terrorists, and the U.S. establishment went into convulsions, a level of hysteria not seen over any policy ever proposed by a modern-day president.

But in Japan there is no such debate about refugees. That's because the Asian nation has a permanent ban on refugees from Muslim countries.

John Bolton, former U.S. ambassador to the United Nations, referred to the lack of a problem with terrorism in Japan in an interview Friday on Fox News.

"This [G7 meeting] is being held in Sicily. The Italians are the hosts this year. And Sicily is one of the places in Southern Europe where so many of the refugees from North Africa come," Bolton said.

"We've just seen an attack in Egypt this morning on a busload of Coptic Christians by Islamic terrorists. So, I think this issue of how to deal with terrorism and how to deal with the refugee so-called problem, how to work better together in light of the Manchester attack, really this is the time to be very realistic about the threats that everybody, with the exception of Japan, around that table is facing."

WASHINGTON

U.S. intelligence agencies conducted illegal surveillance on American citizens over a five-year period, a practice that earned them a sharp rebuke from a secret court that called the matter a “very serious” constitutional issue.

The criticism is in a lengthy secret ruling that lays bare some of the frictions between the Foreign Intelligence Surveillance Court and U.S. intelligence agencies obligated to obtain the court’s approval for surveillance activities.

The ruling, dated April 26 and bearing the label “top secret,” was obtained and published Thursday by the news site Circa.

It is rare that such rulings see the light of day, and the lengthy unraveling of issues in the 99-page document opens a window on how the secret federal court oversees surveillance activities and seeks to curtail those that it deems overstep legal authority.

The document, signed by Judge Rosemary M. Collyer, said the court had learned in a notice filed Oct. 26, 2016, that National Security Agency analysts had been conducting prohibited queries of databases “with much greater frequency than had previously been disclosed to the court.”

It said a judge chastised the NSA’s inspector general and Office of Compliance for Operations for an “institutional ‘lack of candor’ ” for failing to inform the court. It described the matter as “a very serious Fourth Amendment issue.”

Pandora’s Box has been opened as Microsoft caves to China’s demands for full control over encryption and telemetry. This allows China a ‘back door’ to spy on everyone and every thing in its society. China is an autocratic Technocracy that is consumed with the micro-managed engineering of its entire society. Now, other nations will demand that Microsoft build ‘back door’ versions for them as well, and you can bet that the U.S. will be at the head of that line. - TN Editor

Microsoft’s event in Shanghai today may have been mainly about the Surface Pro, but there was also news of a new version of Windows 10. The new version — which we reported about a couple of months ago — is called Windows 10 China Government Edition and it makes a number of concessions to keep Chinese officials happy.

It’s a release that raises a lot of questions. The Windows 10 China Government Edition allows the country to not only use its own encryption, but also to control updates, remove unwanted apps, and manage telemetry. Users around the world will almost certainly be asking why control over telemetry is not an option for them, and what the implications of making changes for the Chinese government could be.

New revelations have surfaced that the Obama administration abused intelligence during the election by launching a massive domestic-spy campaign that included snooping on Trump officials.

The irony is mind-boggling: Targeting political opposition is long a technique of police states like Russia, which Team Obama has loudly condemned for allegedly using its own intelligence agencies to hack into our election.

The revelations, as well as testimony this week from former Obama intel officials, show the extent to which the Obama administration politicized and weaponized intelligence against Americans.

Thanks to Circa News, we now know the National Security Agency under President Barack Obama routinely violated privacy protections while snooping through foreign intercepts involving US citizens — and failed to disclose the breaches, prompting the Foreign Intelligence Surveillance Court a month before the election to rebuke administration officials.

Andrew Blake. (May 27, 2017). Lawsuit by Benghazi families targeting Hillary Clinton dismissed by Obama-appointed federal judge - Her private email use was 'in the scope of her employment'. The Washington Times.

A federal judge on Friday dismissed a lawsuit brought against former Secretary of State Hillary Clinton by relatives of two Americans killed during the 2012 attack in Benghazi, Libya.

Mrs. Clinton neither enabled the Benghazi attack by using her now-infamous private email server nor defamed its victims' parents afterwards, U.S. District Court Judge Amy Berman Jackson ruled Friday in Washington, D.C., casting aside claims raised on behalf of parents of slain State Department information officer Sean Smith and late CIA operative Tyrone Woods.

The Smith and Woods families sued Mrs. Clinton last August in D.C. federal court alleging she caused their sons' deaths by discussing sensitive State Dept. matters over an insecure, nongovernmental email system while secretary of state, supposedly providing terrorists with information used to plot the Sept. 11, 2012 ambush, according to the lawsuit.

Any emails sent by Mrs Clinton were within the scope of her position as secretary of state, the Obama-appointed judge ruled Friday, giving the court sufficient reason to dismiss the wrongful death claim on technical grounds, Politico first reported.

But as psychologists have observed over the decades, repeat a lie often enough, no matter how blatantly false it is, and many people come to believe it.

"Separation of church and state," in fact, is never mentioned in the Constitution or Bill of Rights, yet the left in politics, academia, law and the media have drilled it into Americans' consciousness as though it were true.

That's just one of many key insights from the popular book "The Marketing of Evil" that best-selling author and WND Managing Editor David Kupelian discussed recently on an internationally broadcast Christian TV show.

He is has been central to trying to destroy the Trump campaign and then the Trump administration from the start.

He is as dirty as they come in DC. He had highest-level cover (the FBI no less) and was deep into an effort to eliminate Trump. Trump had to move hard, fast, and at exactly the right time to cut the head off the snake without getting bitten by the snake or being finished by the other swamp denizens.

Begin by noticing how the President fired Comey when Comey was 3,000 miles away from his office, that Comey had no inkling he was being cut, that all his files, computers, and everything in his office were seized by his boss Sessions and the justice department. This was not a violation of protocol, it was tactical.

Notice how Prez Trump compartmentalized the strike and did not inform any of his White House "staff" to prevent leaks. Notice how he emasculated Comey and the swamp denizens

by letting them know in a tweet that the Attorney General got information (surveillance "tapes" from the seizure of Comey's office) to let Comey and his handlers know that Trump's DOJ has the goods on them.

This was a brilliant, strategic and totally imperative move at exactly the right time against horrible, evil and corrupt powers infesting our government.

The swamp is on notice that the President is on to them, they are sweating bullets because their criminal games of corruption are being pursued and they know it. They are screaming and ranting because they are desperate denizens of the swamp who are beginning to realize they are roadkill.

THIS IS WHAT YOU NEED TO KNOW ABOUT THE COMEY SCAM. Taken from credible public sources (readily available if you want to look or want me to send them to you), with a few reasonable "fill in the blank" conclusions of my own.

President Trump's budget proposal for the coming fiscal year is coming under fierce criticism from Democrats and the media but a House Budget Committee member who spent 20 years as a college economics professor is impressed by Trump's goals while warning that the president will need to address entitlement spending at some point.

The Trump administration released its \$4 trillion budget proposal while Trump himself was overseas. It calls for robust increases in national security spending while calling for considerable cuts to various government departments.

Democrats have claimed the budget is cruel and likely to cause children to die. Republicans warn the final appropriations bills probably won't look much like the Trump plan.

Rep. Dave Brat, R-Virginia, spent 20 years as an economics professor at Randolph Macon College. He believes Trump is generally on the right track.

The Left and hypocrisy go hand in hand. Since Obama has left office, the hypocrisy is more apparent than ever.

One such example was highlighted by a true conservative, Senator Ted Cruz. Cruz is calling for an investigation into Obama's meddling of other countries' elections. Isn't that what the Left is accusing Putin of doing? (via Free Beacon).

The Obama administration is guilty of the same thing they accuse Putin of doing. The Left doesn't even try to hide its hypocrisy anymore. Thank goodness conservatives like Ted Cruz are ready to dig deep into the Obama scandals.

After eight years of Obama, it is a miracle that we are still a superpower. That man was determined to undermine our position in the world. He claims it took "political courage" to not bomb Syria after the Syrian government used chemical weapons against their own people. What a joke.

Does it take political courage to send taxpayer money to violent militias in order to overthrow their governments? Does it take political courage to interfere in other nations' elections? These are all questions the globalists need to ask themselves.

Craig McKee. (Nov. 30, 2010). EXPLOSIONS BEFORE PLANE IMPACT: THE 9/11 ACCOUNT OF WILLIAM RODRIGUEZ. Truth and Shadows.

It's something you won't hear about in the mainstream media. A loud, devastating explosion in the sub-basement of the World Trade Center's North Tower BEFORE the impact of an airplane that hit between the 93rd and 99th floors.

That was the account of William Rodriguez, who was a 20-year employee of the World Trade Center until the towers were destroyed on Sept. 11, 2001. He was later hailed as a national hero for pulling people out of the buildings, saving a number of lives that morning. He was believed to be the last person to escape the North Tower before it fell. He was even photographed with President George W. Bush. Now, the government doesn't want to hear anything he has to say.

No matter how well known he is within the 9/11 Truth movement (in fact he's one of its best known figures), very few others have heard the things he has to say - things that make the purveyors of the official story very nervous.

1. Newton's Third Law of Motion: "For every action there is an equal and opposite reaction." An aluminum plane hitting a thick steel beam will have the same effect as steel beam being swung at the same speed and hitting the plane. It makes no difference which one is moving as to the effect on the plane and the beam. In both cases the thick steel beam will do damage to the plane and the beam will emerge relatively undamaged. The faster the speed at the point of impact, the more damage that will be done to the plane. Try punching a steel girder. No matter how fast your hand is traveling, you will not be able to break through it; you will eventually break your hand. It matters not if the girder is swung at your hand or you swing your hand at the girder; assuming the impact is at the same speed, the injury to your hand would be the same.

FINALLY MORE CIA PEOPLE ARE STARTING TO SPEAK UP ABOUT THE 9/11 COVERUP THAT FBI MUELLER DIRECTED.

Baxter Dmitry. (Jul. 22, 2016)

Ex-CIA and commercial jet pilot John Lear claims that the Twin Towers were not brought to the ground by planes crashing into them on 9/11, and now detailed information has been posted online corroborating his account.

In Lear's expert opinion the official claim that two planes crashed into the towers is actually "physically impossible."

With reports from the Kremlin that President Putin will release satellite images proving that the Twin Towers were destroyed by "controlled demolition" rather than by the force of two planes, enormous strides towards disproving the official 9/11 Commission version are taking place.

The grandson of Learjet founder Bill Lear, John Lear is a retired airline captain and former CIA pilot who has flown over 100 different types of plane during 40 years of active flying. He holds more FAA airman certificates than any other FAA certified pilot, and has flown secret CIA missions in Asia, Africa, Eastern Europe and the Middle East.

Have you noticed the movement to remove statues, memorials, flags and markers that commemorate the historical reality of the Confederacy in America?

Earlier this month, we saw another vivid example of this when New Orleans removed the last of three statues of Confederate heroes - Robert E. Lee, Jefferson Davis and P.T. Beauregard.

It's happening in dozens of states - not just Southern. Some of these monuments have been around for nearly 150 years.

What's this new war on the Confederacy all about?

I have a theory. I don't think it explains the phenomenon in its entirety. But I definitely think it's part of the explanation for the scorched-earth policy against American history, the attempt to erase any historical vestige of the most costly war in our history.

First, you will notice that Democrats are nearly always at the forefront of this kind of activity.

Why would that be?

George Soros' secret plan to destroy Trump in 7 months (using the economy)

Newly released records show that George Soros plans to turn a huge profit by bringing America down.

His stock portfolio reveals that Soros stands to make a fortune if the U.S. economy tanks — and he's figured out the easiest way to do that would be to have President Donald Trump impeached and removed from office by the end of the year.

The shadowy, leftist billionaire hates all-things Trump, but having him impeached isn't just personal anymore; it's business, too.

According to public filings, Soros Fund Management LLC invested \$764.3 million betting against the two greatest measures of U.S. business strength this year.

The S&P 500 measures the value of larger U.S. businesses, and the Russell 2000 measures smaller, publicly traded U.S. businesses.

It's widely accepted that antioxidants are healthy because they slow down the oxidation of certain chemicals in the human body. Left unchecked, oxidation damages cells. But what if you injected yourself with a substance that blocked the antioxidants from doing their job? Would that make any sense?

That was the analogy Michael Savage presented to his listeners in a recent episode of "The Savage Nation." The oxidants that damage cells represent terrorists who want to damage society. The antioxidants represent police and intelligence agencies.

"Now put between the antioxidants and the oxidants something that prevents the antioxidants from stopping the oxidants from damaging our cells, and you'll have the lawyers and the media," the popular talk radio host said.

Savage's guest, WND news editor Art Moore, agreed with the analogy.

We always knew that there were RINOS in Washington, but Opensecrets.org just revealed that some of those RINOS are actually traitors.

"The non-profit, non-partisan research group based in Washington, D.C., that tracks the effects of money and lobbying on elections and public policy, revealed that while George Soros is responsible for funding Democrats and progressive causes, he has also bankrolled Senator John McCain and a small but select group of other Republicans.

Unsurprisingly, all of the names revealed to receive funding from George Soros have a track record of opposition to President Trump."

The GOP recipients of the Soros Fund Managment are:

Sen. John McCain, (R-AZ)
House Speaker Paul Ryan (R-WI)
Sen. Marco Rubio (R-FL)
Gov. John Kasich, (R-OH)
Sen Lindsey Graham (R-SC)
Rep Carlos Curbelo (R-FL).

A list of all recipients can be found [HERE](#).

John McCain has been especially critical of Trump, even blasting him today for his stern phone call with the Australian Prime Minister. McCain and Graham also attacked Trump for implementing an immigration ban.

"We fear this executive order will become a self-inflicted wound in the fight against terrorism," McCain and Graham said in a joint statement, adding that Trump's executive order "may do more to help terrorist recruitment than improve our security."

It seems that every move Trump makes, the same characters are quick to delegitimize the president. Now it all makes sense.

Well, it is happening.

Ted Cruz is leading a group of U.S. Senators calling for an investigation into tax payer funds being filtered through the State Department to back groups associated with liberal billionaire George Soros and also, allegedly funding the meddling of foreign elections.

FREE BEACON - A GROUP OF LEADING SENATORS IS CALLING ON NEWLY INSTALLED SECRETARY OF STATE REX TILLERSON TO IMMEDIATELY LAUNCH AN INVESTIGATION INTO EFFORTS BY THE OBAMA ADMINISTRATION TO SWAY FOREIGN ELECTIONS BY SENDING TAXPAYER FUNDS TO "EXTREME AND SOMETIMES VIOLENT POLITICAL ACTIVISTS" THAT PROMOTE LEFTIST CAUSES, ACCORDING TO A COPY OF THE LETTER.

We all know Chuck Schumer and the Democrats are hopelessly corrupt. It is baked in their DNA and there is no changing them. They have denied their corruption for years but newly leaked court transcripts destroy this false narrative.

Supporters of Bernie Sanders are suing the DNC for rigging the primaries. And the defense Chuck as the leader of the democrats employs in the just released transcript will ruin him forever.

Sanders supporters accused the DNC of fraud and playing favorites to pick Hillary Clinton and rampant corruption and enrichment.

Dr. Jerome Corsi. (May 30, 2017). SETH RICH MYSTERY: DNC LEAKS CAME FROM INSIDE, NOT RUSSIAN HACKERS - Evidence reveals emails leaks an inside job not due to hacking. Infowars.

This article is Part 2 in a series of three articles investigating the Seth Rich murder. Read Part 1 [HERE](#).

Part 1 developed the following: Hillary's campaign, lax on cybersecurity and working with the DNC to make sure Sanders did not have a chance of winning, invited multiple attacks from both hackers on the outside and from leakers on the inside.

Part 2 makes clear the multiple hacks and multiple leaks that plagued Hillary's 2016 presidential campaign came from multiple sources.

The breakthrough in this series of articles is the attempt to apply intelligence analytical techniques to sort out the various known cybersecurity attacks on the Democrats during the 2016 presidential campaign to determine the rogue agent responsible for each separate known cybersecurity attack.

WASHINGTON, D.C. - Hillary's 2016 presidential campaign was hit by so many hack attacks and so many leaks, the CSI problem is almost impossible to decipher.

By election day, Hillary Clinton's electronic campaign began to resemble a corpse killed by multiple gunshot wounds.

The pattern of wounds upon wounds evident in the corpse were so combined and so

confused, it is today hard to tell - if not impossible - how precisely many shooters there were or who fired the fatal round.

To sort this out, we begin with the first hack attack on Clinton emails, the hack that began with Guccifer in March 2013.

Dr. Eowyn. (May 29, 2017). JOHN PODESTA IN A FRENZY CONVERTING \$40B CLINTON FOUNDATION ASSETS INTO GOLD, DIAMONDS & ARTWORK. D.C. Clothesline.

Independent journalist George Webb says that after President Trump fired FBI director James Comey, longtime Democrat operative and Clinton loyalist John Podesta is in a frenzy to unload \$40 billion from the Clinton Foundation — by buying up art, gold and diamonds, and spreading them out all over the world — before those assets are seized by a new FBI director.

Beginning at the 0:30 mark in the video above, Webb says:

“Right now . . . John Podesta is buying up artwork between every Jewish art dealer.”

Webb is asked: “How do you know that?”

Webb answers:

“I have a contact within the French intelligence that’s told me that. So they’re buying up artwork right now in every, they know every art dealer that he’s buying art from . . . What you’re dealing with is Trump could go get that 40 billion dollars right now and seize those assets. So before a new FBI director is named — [Acting FBI Director Andrew] McCabe knows all about the \$40 billion — you start moving this stuff to gold, diamonds, artwork and so forth, and you put it in your network . . . out into as many different countries as possible, so it’ll be so difficult to actually go seize. You have a contractual issue or an international issue every time you try to get some of this stuff that’s been moved. The money right now is being moved by John Podesta to artwork, diamonds and gold.”

Bob Unruh. (May 30, 2017). DID DEMS' 'RUSSIAN CONNECTIONS' CLAIM JUST DISINTEGRATE? Man who started investigation admits no evidence and has been caught lying to Congress. WND.

Did the Democrats’ orchestrated attempt to catch the Trump administration in a major scandal with Russia just blow up?

The Washington Times reported it was President Obama’s CIA director, John Brennan, who prompted the investigation into claims the Trump campaign had inappropriate contacts with the Russian government.

But that’s the same John Brennan who, like other top Democrats, has stated he has seen no evidence of collusion with the Russians, and the same John Brennan who, among the other indiscretions, was caught lying to Congress.

The Times reported on Memorial Day that the reason the Obama administration last summer started investigating the Trump campaign “has come into clearer focus following a string of congressional hearings on Russian interference in the presidential election.”

“House of War: Islam’s Jihad Against the World” conveys what the West needs to know about Islam and the violent, expansionary ideology that seeks the subjugation and destruction of other faiths, cultures and systems of government

"It was then-CIA Director John O. Brennan, a close confidant of Mr. Obama's, who provided the information - what he termed the 'basis' - for the FBI to start the counterintelligence investigation last summer. Mr. Brennan served on the former president's 2008 presidential campaign and in his White House," the report said.

Email comment by Sen. Rand Paul:

SIGN THE DECLARATION OF PRIVACY
<http://randpac.com/declaration-of-privacy>

You've probably seen it all over the news. I've tried to get the word out.

Your government is spying on you. Yes, you. They're violating the privacy rights of innocent Americans.

How are they doing it and getting away with it?
 That's a good question, so follow along for a minute with me, and then let me tell you how we have a vital opportunity this year.

Much of the information we collect in our intelligence agencies is supposed to be collected from and about foreign sources and potential overseas threats. The collection of this data uses a different standard than what can be gathered from most Americans.

But the NSA and other agencies use a "backdoor" loophole in federal law to reach many Americans and capture our information too, just because we spoke to someone overseas or used certain keywords in our emails.

None of our information is safe from this government abuse of power.

I want to make sure it ends. As you know, I've long fought against such abuses of our rights. Whether it is the Patriot Act or the CIA/NSA abuses, I've led the fight each and every time - with your help.

Help me today by telling the federal government - HANDS OFF. Add your name to the Declaration of Privacy Rights
 Why does it matter now? First you've seen the many news stories about the Trump administration and also other Presidential campaigns being spied on by the Obama administration. I have had multiple sources tell me it is true.

Second, the law they use to collection this information EXPIRES at the end of this year. That's right, we don't have to kill it - they have to keep it, which is a lot harder.

Help me make sure they don't get to renew these unconstitutional powers: Sign the Declaration
 You can make the difference today, because we may well have the administration on our side here, considering how President Trump is one of the victims of this abuse.

Let's make sure that's what happens. Also, please help RANDPAC spread the word. If we are going to win this fight, we will have to make sure it is a nationwide effort, with maximum possible attention. Share this email and the Declaration of Privacy after showing your support.

Stop the government from spying on all of us and demand they bring back our constitutional rights.

I'll keep you updated, this battle is going to heat up quickly. And as you can imagine, the establishment, the power of the government and the media will be against me.

That's why I'll need to make sure YOU are by my side. Thanks for reading this, and for all you do.

In Liberty,
 Rand Paul

Today Carter Page said the Obama Administration “falsified FISA warrants” against him. This follows charges last week that the Obama administration broke the law and abused their powers of surveillance. Those charges were not an “anonymous source” but the FISA Court itself who said not only did Obama break his own rules (that relaxed restrictions on spying on Americans) but called his actions a “very serious Fourth Amendment issue”. And the violations have now spread beyond the NSA to Comey’s FBI.

"Terrorists don't hate us for our freedom," the former NSA contractor asserted, "they don't even know what our freedoms are... Terrorists are incapable of destroying our rights or diminishing our society they lack the strength – only we can do that." - Edward Snowden

Whistleblower Edward Snowden does not mince words, and his ardent assessment of our perpetually-dwindling rights in the United States and around the world – offered live in a teleconference Tuesday – certainly didn't break that mold.

"Government will not act in accordance with the public interest unless it is made to," Snowden contended, beginning what would arguably be one of the most powerful public appearances since he blew the whistle and the U.S.' Intelligence Community's expansive surveillance programs in 2013.

"You may never be safe in any country – whether it's Brussels, or Russia, or Portugal, or the United States – to speak a necessary, but inconvenient, truth," he continued, addressing the erosion of free speech, and a lack of justice for those who exercise that right.

Barron Trump was watching television Tuesday at home with Melania when Kathy Griffin's photo appeared on the screen, and his initial reaction was that something terrible happened to his father.

Bob Unruh. (May 31, 2017). HANNITY: SEE WILDEST 'FRINGE CONSPIRACY THEORIES' PROMOTED BY LEFT - Did you hear the one about Rachel Maddow's view on assassinations as a political tactic? WND.

It has long been a key part of the left's playbook to smear conservative political opponents in broadcasting by creating a "controversy," linking the opponent to the controversy and then asking advertisers why they associate with someone who is so "controversial."

The result, all too often, has been predictable: Companies want to avoid offending any customers so they withdraw their advertising from those unfairly labeled.

But now it's time for the "equalizer," or in this case the MediaEqualizer.com, which is doing for liberals and progressives the same thing far-left operations like Media Matters claim to have been doing to conservatives for years: exposing them.

The newly launched website on Wednesday displayed headlines including "Why does Rachel Maddow so often embrace fringe conspiracy theories?" and "Rachel Maddow Show: Advertisers and contact information."

The conservative pushback comes just as the attacks against Fox News' Sean Hannity have reached their peak.

CNN host Alysia Camerota was ripped to shreds by former White House Chief of Staff John Sununu for the media's irresponsible coverage — and the brutal tongue lashing left the now-liberal host speechless on live television.

After leaving Fox News three years ago, Camerota "fell in lock step with the CNN's leftward slant almost from day one," according to Red State.

Sununu, the former Republican governor of New Hampshire that later served in George H.W. Bush's administration as Bush's Chief of Staff, came on Camerota's show New Day on Tuesday to talk about the investigation into Donald Trump's son-in-law Jared Kushner — and Sununu wasn't there to take prisoners.

Sununu quickly attacked the irresponsible reporting by the mainstream media on "hypotheticals" without a "single piece of evidence."
