LEGEND: Some

corruptocrat photos in this blog contain a stylized Christian Celtic Wheel Cross in the background alongside the text "Corruption Central" meaning we have put the person's conduct under the microscope and discovered that he or she is at the center of global corruption. Judge Amy Berman Jackson asserts that it is unambiguously (to her anyway) a rifle cross hair. This shows her woeful ignorance of theology, history, symbology and engineering. It could be many things, but she clearly *wanted* to see a rifle sight (ask her about her role in Fast and Furious gun running). Others assert equally ignorantly that it is a pagan or white supremacist symbol. This stylized Christian Chi-Rho Cross dates to

ORIGINAL POST

(JAN. 18, 2017)—Judge Theodore D. Chuang was just assigned by chief judge James K. Bredar to the first Uranium One indictment [U.S. v. Lambert](#), 18-cr-00012 (D. Md. Jan. 18, 2018). Mark T. Lambert, the former president of a Maryland-based transportation company was indicted on 11 counts related to foreign bribery, fraud and money laundering.

person's corrupt life, when studied under a microscope, has been found wanting, but that there is hope in Christ if the person repents from his or her wicked ways. It triples as a reticle or graticule built into all sorts of eyepieces in microscopes, oscilloscopes, surveying instruments, astronomy optics, precision pointers, binoculars, etching equipment, and yes, gun sights, but also computer mouse pointers! Therefore, to claim that it could only mean a gun sight, as Judge Jackson did, is truly ignorant. As shown, it is a call to prayer and repentance based upon microscopic observation of the corruptcrat's conduct. For Judge Jackson to use her ignorance of this symbol as the excuse to gag Roger Stone's FREE SPEECH right to defend himself is heinous abuse of authority. Chief Justice John Roberts should censor her immediately. Patriots must demand it.

PAY-to-PLAY NEW WORLD ORDER

This timeline shows how insiders sell access & manipulate politicians, police, intelligence, judges and media to keep their secrets

Clintons, Obamas, Summers were paid in cash for outlandish speaking fees and Foundation donations. Sycophant judges, politicians, academics, bureaucrats and media were fed tips to mutual funds tied to insider stocks like Facebook. Risk of public exposure, blackmail, pedophilia, "snuff parties" (ritual child sexual abuse and murder) and Satanism have ensured silence among pay-to-play beneficiaries. The U.S. Patent Office is their toy box from which to steal new ideas.

According to the [Code of Conduct for U.S. Judges Canon 2](#), federal judges must recuse themselves from presiding over cases where their involvement could be biased toward one party over the other. Canon 2 says that even the appearance of impropriety dictates recusal.

In a federal district court office, the *chief judge* is the person who generally assigns judges to cases. On paper, the courts are required to maintain an ethics database to pre-screen for conflicts. These databases have been discovered to be incomplete or outright fraudulent.

Each judge is responsible to submit his or her conflicts to the database. So for example, if you represented Goldman Sachs before being appointed to the bench, Goldman Sachs must go on the list of companies for whom you cannot hear cases. However, if you hold a Vanguard Index Fund where Goldman Sachs is

Fig. 3—Maryland Federal District Court chief judge James K. Bredar likely assigned Judge Chuang to the Uranium One case. However, Bredar himself *had no business touching this case or even allowing it to come to his court*. He was formerly employed at Perkins Coie LLP—the law firm swirling at the center of the Uranium One scandal. Bredar is evidently another James P. Chandler, III legal stooge, having graduated himself from Harvard, Yale and Georgetown. Chuang graduated from Harvard also.

Bredar disclosed DLA Piper LLP as one of his conflicts, and yet failed to mention that a predecessor to DLA Piper was Hill & Barlow LLP (Boston) where Robert Mueller was a partner along with a Chuang co-counsel with Ben T. Walker in defending Microsoft in a counterfeiting case *managed by Chandler* (who would eventually agree to be Leader Technologies' fated patent attorney). Bredar also worked a case with Rod Rosenstein where they imprisoned and deported at least nine individuals of Arab origin (*US v. Doe*, 564 F. Supp. 2d 480 (D. Md. 2008)) who had no legal counsel. Also notable, Bredar's confirmation hearing occurred at the *same time* as the soon-to-be *Leader v. Facebook* replacement judge Leonard P. Stark. the largest single holding, you are ostensibly not required to disclose Goldman Sachs after [Mar. 14, 2001](#) when the Judicial Conference approved what we call "[The Great Mutual Fund Scam.](#)"

So, if a chief judge has been directed by his or her Deep State shadow government handlers to rule a certain way, he or she will choose a compliant judge to preside over that case.

DEEP STATE CRIMINALS ARE PRESSING FOR PLEA BARGAINS & *RES JUDICATA*

Judges have an often-abused privilege called "judicial discretion." This gives them great latitude over the conduct of a case, including summary judgments and motions to dismiss. Generally, given enough time, a group of unscrupulous lawyers can concoct a way to convict a ham sandwich.

Once a judge absolves a criminal defendant of a crime in a motion to dismiss or summary judgment (pre-trial rulings), it is very difficult to overcome such a ruling under "*Res Judicata*." All you can do is appeal. However, if a corrupt judge is assigned to the appeal, the chances of seeing justice are nil. The U.S. Supreme Court takes very few appeals once you have lost your Circuit Court appeal.

Res Judicata means a person cannot be sued twice for the same matter. Therefore, the best way for the Deep State shadow government to be *absolved* of its crimes is to be tried in front of one of its many crony judges who will rule in their favor, and thus prevent a second trial on those counts.

In this Uranium One case, Judge Chuang was assigned by fellow Harvard Law grad chief judge [James L. Breder](#). Judge Breder was appointed by Barack Obama on April 21, 2010.

JUDGE THEODORE D. CHUANG CANNOT POSSIBLY CLAIM TO BE IMPARTIAL IN URANIUM ONE

A joint *Americans for Innovation* and *American Intelligence Media* investigation has uncovered a nest of ties among parties implicated in Uranium One. These ties engulf Judge Chuang in a twisted knot of interrelationships that make it impossible for him to be impartial.

Fig. 4—Theodore D. Chuang has no business touching the Uranium One case given his conflicts as well as those of his chief judge James K. Breder.

WILL HUMANKIND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

Click image above to download a poster-quality PDF optimized for a 11in. x 17in. (ledger-size) poster. America should not be in the business of cheating its entrepreneurial investors simply because the cheaters buy off judges with the money gained from their theft. Such permissiveness is obscene.

SOCIAL NETWORKING INVENTION THEFT

In addition, Judge Chuang is tied to central actors in the theft of the social networking invention, most especially Harvard Law professor James P. Chandler, III. Chandler agreed to be Leader Technologies, Inc.'s patent attorney in 2000, then stole Leader's invention and shuffled it to the IBM Eclipse Foundation. Eclipse then distributed it to the federal government and military-industrial complex in Silicon Valley.

MONSTROUS CYBORG "INTERNET OF THINGS" TOTAL SURVEILLANCE PATENT

Chuang was actually working at Robert Mueller's former law firm Wilmer Hale LLP (formerly Hale & Dorr LLP) when Hewlett-Packard engineer Richard C. Walker (aka Rick Walker) filed for patents on global surveillance. Walker filed these patents in the name of a sham company named "Kline & Walker LLC" that he has hidden from the public in all of his biographies. See [Meet The Person Who Can Remotely Crash Planes and Can Read Your Mind](#). (Note: Later we discovered that Kline & Walker's registered address is a *house* (not an office) that was walking distance to James P. Chandler's house in Potomac. Coincidence?)

This patent is just unbelievable. It even describes embedded cyborg chips in people, which it calls “wet-ware.” These chips can control muscles, emit mind-altering frequencies, and put people to sleep or otherwise disable them or their vehicles, including aircraft. Mobile phones are also similarly wired, including emitting light and sound triggers.

Examiner.com, Apr. 10, 2012. Here's an excerpt:

“Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage.”

This statement followed right after Davis cited Facebook's chief inside counsel in the *Leader v. Facebook* case, Theodore Ullyot, who appears to have helped lead the *Leader v. Facebook* judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. Although Chuang is in Hawaii, his office is part of Maryland District Court system. His ruling on the travel ban case was taken to the 4th U.S. Circuit Court of Appeals in Richmond, Virginia where it was upheld. The Trump administration then went to the Supreme Court for a ruling where Chuang's ruling, as well as other similar cases, were rejected.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The *Leader v. Facebook* patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on *Leader v. Facebook* until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

INDICTED ON 11 COUNTS RELATED TO FOREIGN BRIBERY, FRAUD AND MONEY LAUNDERING SCHEME

We call for Chuang's immediate recusal or dismissal of this case. Not only has he shown his extreme political bias in the Trump travel ban ruling, but he has no business being involved with the Uranium One case. He cannot possibly comply with the Code of Conduct Canon 2 which dictates that he *avoid even the appearance of impropriety*.

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in *Leader Techs, Inc. v. Facebook, Inc.*, 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision *without any evidence other than speculation*, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. (See that

[Jury Instruction No. 4.7 here.](#)) He

also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit,

On Mar. 14, 2001, James P. Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. See [disclosure of substantial holdings in Facebook and Facebook-related stocks](#).

Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in *Pfaff v. Wells Electronics, Inc.*—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal

throughout his career, will most likely become their judicial protector.

The Uranium One case includes the suspected involvement of Bill Clinton, Hillary Clinton, the U. S. State Department, Robert S. Mueller, III, James B. Comey, Rod J. Rosenstein, James P. Chandler, III, Loretta Lynch and Eric H. Holder, Jr.

CHUANG'S QUESTIONABLE BACKGROUND SHOULD BE AN IMMEDIATE DISMISSAL FROM THIS HIGH PROFILE CASE

Chuang's confirmation statement highlighted this case: [US v. Simons et al.](#), 97-CR-10334-GAO (D. Ma. Dec. 16, 1997).

Chuang collaborated with Microsoft to get an almost \$1 million conviction of defendants accused of counterfeiting Microsoft Office software. This was one of the first cases managed by law professor James P. Chandler, III who had coached the White House and Congress on passage of the Economic Espionage Act of 1996, Federal Trade Secrets Act and False Statements Accountability Act (legalizing lying to Congress and Courts) on [Oct. 11, 1996](#).

Chandler was tasked with advising all U.S. Attorneys, including Theodore C. Chuang, before bringing forward intellectual property criminal cases.

[SENATE TESTIMONY: p. 42](#)

Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. [See Motion to Disclose Conflicts of Interest](#). Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr. Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. [See a full analysis of these events at Donna Kline Now!](#) Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's *Pfaff v. Wells Electronics, Inc.* test for on-sale bar evidence, which included even the Federal Circuit's own *Group One v. Hallmark Cards, Inc.* test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie *helped write* that opinion. [Group One test omission analysis](#).

Clerk of Court Jan Horbaly, U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court's ruling was challenged by an *amicus curiae* brief revealing clear mistakes of law and new evidence. [See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in *Leader v. Facebook*](#). Mr. Horbaly failed to disclose his conflicts of interest and close associations with numerous Facebook attorneys and law firms, as well as his close

Judge Randall R. Rader, U.S. Court of Appeals for the Federal Circuit, chief judge responsible for the (mis)conduct of his judges and Clerk of Court in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. Chandler. [See analysis of Judge Rader's undisclosed conflicts of interest in Leader v. Facebook.](#)

Judge Rader also did not stop his judges from creating new arguments and evidence for Facebook in the secrecy of chambers—after they had debunked all of Facebook's evidence on appeal, which is a clear breach of constitutional due process.

This case shows that Chuang was taking instructions from Deep State shadow government lawyer James P. Chandler, III who was also advising Robert Mueller, Bill and Hillary Clinton, James B. Comey, Rod J. Rosenstein, James A. Baker. These individuals were deeply embedded in the FBI, NSA, CIA counterespionage operations.

Between 1990 and 1994, Ben T. Clements was a partner at Hill & Barlow LLP, Boston, according to his public biographies.

In 1990, Clements entered private practice at the Boston firm Hill & Barlow, which included a brief stint as special assistant district attorney for Middlesex County. In 1994, Clements was appointed an assistant U.S. attorney for the District of Massachusetts.

Between 2005-2010, Ben T. Clements was chief legal advisor to Gov. Patrick L. Duval.

Note that Duval is deeply connected to the D.C. criminal cabal as we outlined in our article entitled: **Mueller's Pathetic Attempt to Overthrow Trump and Prepare His 2020 Successor Fails Miserably**

In January 2005, when Patrick began his run for governor, Clements became a legal advisor for the campaign while maintaining his practice at Clements & Clements LLP. When Patrick won the election, Clements was offered — and accepted — the chief legal counsel position in the Patrick Administration.

WE DEMAND HIS RECUSAL

In the Senate Hearing document listed above, Chuang specifically told the Senate Judicial Committee at his confirmation hearing that he will recuse himself from matters related to Homeland Security.

CONFIRMATION STATEMENT, P. 661: "I would recuse in any litigation in which I had played a role. In particular, a case involving the United States Department of Homeland Security as a party might present a conflict of interest."

He worked at Homeland Security from 2009-2011, hence the statement of recusing himself from litigation regarding DHS.

Yet, here he is presiding over the most explosive homeland security in our nation's history. Is not the illegal handling of uranium a Homeland Security related matter?

88. **Harry Reid** (U.S. Senator; Judge Evan J. Wallach patron)
89. **Thomas J. Kim** (SEC, Chief Counsel & Assoc. Director) approved Facebook's 500-shareholder exemption on Oct. 14, 2007, one day after it was submitted by Fenwick & West LLP; Facebook used this exemption to sell \$3 billion insider stock to the Russians Alisher Asmanov, Yuri Milner, DST, Digital Sky, Mail.ru which pumped Facebook's pre-IPO valuation to \$100 billion; another Harvard grad,

On top of that, if you overlay the biographies of Mueller, Rosenstein, Clinton, and Chuang during this 2009-2011 time frame, one can't but wonder if Chuang wasn't complicit in the very crime itself. After all, he was General and Associate General Counsel of Homeland Security during the time that the Uranium One deals were being played out.

If confirmed, I would recuse in any litigation in which I had played a role. Sharyl Attkisson. (Jan. 19, 2018). Trump Year One: The Media. Full Measure.

There has been voluminous reporting on President Trump's misstatements and missteps — but the past few weeks I've been looking into what I think is one of the biggest stories of his first year as president: The Media. There's been a cascade of mistaken and false reporting from his first day in office. That's when Time magazine and others incorrectly claimed Trump had removed the bust statue of Martin Luther King from the Oval Office. That was just the beginning... the list is lengthy-and the mistakes always fell against Trump leading to the impression that bias is a factor in the media's mistakes. That's our cover story on Sunday's Full Measure.

Roger Stone. (Jan. 17, 2018). THE COMING 25TH AMENDMENT PLAY TO TAKE DOWN TRUMP. StoneColdTruth.com

January 17, 2018 Editor 0 Comments Donald Trump, Roger Stone
(By Roger Stone) The Establishment is in an uproar. Dirty trick after dirty trick has failed them. They were so sure Hillary would win! They were so sure they could control the narrative! They were absolutely positive that they would pull the levers of the Deep State and unseat Donald Trump with a relentless campaign of lawfare (warfare by lawyers).

President Trump has been a step ahead of them every time, so their Plan A - a recount followed by an attempted hijacking of the Electoral College failed, and their Plan B - "Deep State Soft Coup" is failing spectacularly. The failure to find any evidence whatsoever of Russian collusion means that Plan B has been a major dud. While special counsel Robert Mueller is still on course to bring some process oriented charge against the President such as perjury or obstruction of justice, the exposure of his entire inquiry as a partisan witch-hunt makes his success in reversing the results of the last presidential election unlikely. As Pat Buchanan has pointed out, unlike Richard Nixon, Donald Trump will not go quietly.

Word of the NSA's foul-up is emerging just as Congress has extended for six years the legal authority the agency uses for much of its surveillance work conducted through U.S. internet providers and tech firms. President Donald Trump signed that measure into law Friday.

Since 2007, the NSA has been under court orders to preserve data about certain of its surveillance efforts that came under legal attack following disclosures that President George W. Bush ordered warrantless wiretapping of international communications after the 2001 terrorist attacks on the U.S. In addition, the agency has made a series of representations in court over the years about how it is complying with its duties.

Admin. (Jan. 21, 2018). Newly Released Texts Between Anti-Trump FBI Agents Show They Knew Outcome Of Hillary Email Probe in Advance. True Pundit.

The Justice Department has given various congressional committees nearly 400 pages of additional text messages between two FBI officials who were removed from Special Counsel Robert Mueller's investigation into alleged collusion between the Trump campaign and Russian officials.

One of the newly discovered messages, lawmakers said, appeared to indicate that Peter Strzok and Lisa Page knew that charges would not be filed against Democratic presidential candidate Hillary Clinton as a result of the investigation into her email server – before Clinton was interviewed by the bureau.

Strzok and Page were pulled off the probe last summer after it emerged that some of their messages to each other included anti-Trump content. Strzok, an FBI counterintelligence agent, was reassigned to the Bureau's human resources division after the discovery of the exchanges with Page, with whom he was having an affair.

The FBI "failed to preserve" five months worth of text messages exchanged between Peter Strzok and Lisa Page, the two FBI employees who made pro-Clinton and anti-Trump comments while working on the Clinton email and the Russia collusion investigations.

The disclosure was made Friday in a letter sent by the Justice Department to the Senate Homeland Security and Governmental Affairs Committee (HSGAC).

"The Department wants to bring to your attention that the FBI's technical system for retaining text messages sent and received on FBI mobile devices failed to preserve text messages for Mr. Strzok and Ms. Page," Stephen Boyd, the assistant attorney general for legislative affairs at the Justice Department, wrote to Wisconsin Sen. S.Noble. (Nov. 19, 2017). Jeff Flake Was a Foreign Lobbyist for a Firm with Ties to Iran. The Independent Sentinel.

Before he was a senator, Jeff Flake was a foreign lobbyist who worked for a uranium mining firm with ties to Iran.

Between 1990 and 1991, Flake was a registered foreign agent for Rossing Uranium, a company which operates a mine in Namibia that is among the world's largest suppliers of the nuclear fuel.

It was quite lucrative for his company Interface Public Affairs.

Flake likes to pretend he's a D.C. outsider and a conservative, both of which are untrue. Flake said he never hid it, but what he doesn't say is he never spoke of it either.

The mine had a sketchy record which he had to have known but denied he did. Since 1970, the mine was partially owned - 69% - by an Iranian company Rio Tinto.

Jonathan Schanzer, vice president of research for the Foundation for Defense of Democracies, a conservative think tank, noted that in the 1990s the Iranian regime "was not a friend of the United States; it was an enemy." He added, "It's a question of judgment when you represent a company that is owned in part by Iran."

HOW TO FILE A FRAUD COMPLAINT AGAINST A UNIVERSITY

The following universities were announced as participants in Ohio State Provost Joseph A. Steinmetz's corrupt MOOC education initiative named "University Innovation Alliance" (UIA). We have identified the instructions and online forms you need to file a complaint with the participants. MOOC stands for "Massive Open Online Course."

You should complain about:

- (1) the intellectual property theft of social networking source code from Leader Technologies, Columbus, Ohio that is the software engine running the UIA;
- (2) the corruption at Ohio State University and OSU's collusion with Battelle Memorial Institute which helped steal the software being used by UIA; and
- (3) the mistreatment of OSU Marching Band Director Jon Waters regarding fabricated Title IX charges that were used to pave the way for Steinmetz to announce UIA.

Universities pride themselves on protection of intellectual property.

Therefore, these universities cannot participate in this abuse of inventor copyrights, patents and trade secrets by The Ohio State Trustees and Administration. If these universities participate knowingly with Ohio State in its theft of intellectual property, then they are aiding and abetting the theft of intellectual property on a "massive" scale... Massive Open Online Course (MOOC) also known as The Eclipse Foundation.

No. This is here and now. This is not science fiction.

The front man for government Big Brother has been identified and he holds the most disruptive patent ever facing civilization and human evolution. I interview Thomas Payne who along with Betsy Ross explore the corrupt U.S. Patent Office and how it has laid the digital web over the entire planet. No one will be able to escape unless we act now to sever its hydra-head.

These are critical pieces that accompany and supplement the items discussed and referred.

This was their most poignant video: Meet Big Brother — <https://www.youtube.com/watch?v=PIIbq...>

Mueller wants to question Trump about Comey, Flynn firings Evidence suggests a massive scandal is brewing at the FBI. FBI Director Christopher Wray's chief of staff, who also served in the same position for former Director James Comey, is leaving the department, according to a report Tuesday.

James Rybicki has come under increased scrutiny from GOP lawmakers in recent months about his role in the investigation into Hillary Clinton's use of a private email server, Fox News reported.

"Jim Rybicki notified me last month that he will be leaving the FBI to accept an opportunity in the corporate sector," Wray said in a statement. "While this is an exciting move for the whole Rybicki family, Jim will be dearly missed by the FBI family – and by me personally."

Cristina Laila. (Jan. 22, 2018). REPORT: FBI Director Wray Threatened to Resign Amid Trump, Sessions Pressure to Fire Deep State Andrew McCabe. Gateway Pundit.

According to Axios, FBI Director Christopher Wray threatened to resign amid pressure from AG Sessions and President Trump to fire Deputy Director Andrew McCabe.

Whose side is Christopher Wray on?? McCabe should have been fired a long time ago.

Axios reports:

Attorney General Jeff Sessions — at the public urging of President Donald Trump — has been pressuring FBI Director Christopher Wray to fire Deputy Director Andrew McCabe, but Wray threatened to resign if McCabe was removed, according to three sources with direct knowledge.

Sessions told White House Counsel Don McGahn about how upset Wray was about the pressure on him to fire McCabe, and McGahn told Sessions this issue wasn't worth losing the FBI Director over, according to a source familiar with the situation.

According to the report, McCabe will remain at his post as the Deputy Director to avoid a media firestorm over another shakeup with top FBI brass.

The White House just opened the floodgates for the explosive FISA memo to be released!

Deputy press secretary Hogan Gidley stated that the White House does not have to approve the release of a currently classified memo assembled within the House of representatives.

From The Daily Caller

"We don't have to approve it. They have the right to de-classify the document," Gidley told Daily Caller editorial director Vince Coglianes and WMAL host, citing "legal minds" consulted by the executive branch.

House Intelligence Committee chairman Devin Nunes assembled the memo with fellow committee members and staff based on classified information turned over by the FBI and the DOJ. The document allegedly contains proof that the Obama administration abused its authority to obtain surveillance warrants on members of the 2016 Trump campaign.

The DOJ has come under fire recently after it was revealed that a senior official, Bruce Ohr, had secretly met with Fusion GPS co-founder Glenn Simpson and former British spy Christopher Steele during the 2016 presidential elections.

Fusion GPS is the company behind the so-called Trump dossier, which had been funded by the Clinton campaign and the Democratic National Committee. Fusion GPS hired Steele to work on the report.:

NBC's Pete Williams: FBI Deputy Director Andrew McCabe stepping down @MSNBC

9:25 AM - Jan 29, 2018

FBI Deputy Director Andrew McCabe stepped down Monday as the agency's No. 2, multiple sources familiar with the matter told NBC News.

McCabe will remain on the FBI payroll until he is eligible to retire with full benefits in mid-March, the sources said.

One source familiar said McCabe was exercising his retirement eligibility and characterized McCabe's decision as "stepping aside."

McCabe has been at the center of ongoing tensions between the White House and the FBI and has reportedly been under pressure to quit from President Donald Trump, whose campaign is being investigated for possible collusion with Russia.

This is done through proper testing by means of electrochemical solvents, wherein the working fluid is soaked into the working fluid. Afterwards, the electrical testing of capacitors gets its first test. [Check out this site](#) to know more about high voltage diode.
