'THE INTERNET OF THINGS' WAS FASCIST FROM INCEPTION

Bill Clinton ordered the C.I.A., NSA & FBI to give intelligence secrets to select private companies on July 1, 1994 to achieve the globalists' agenda

The U.S. counter-intelligence community became a secret army for companies, judges & bureaucrats profiting from continuous war and stolen trade secrets

The Internet of Things is actually repackaged Nazi-style fascism and *must* be dismantled

PAY-to-PLAY NEW WORLD ORDER

This timeline shows how insiders sell access & manipulate politicians, police, intelligence, judges and media to keep their secrets

Clintons, Obamas, Summers were paid in cash for outrageous speaking fees and Foundation donations. Sycophant judges, politicians, academics, bureaucrats and media were fed tips to mutual funds tied to insider stocks like Facebook. Risk of public exposure, blackmail, pedophilia, "snuff parties" (ritual child sexual abuse and murder) and Satanism have ensured silence among pay-to-play beneficiaries. The U.S. Patent Office is their toy box from which to steal new ideas.

FIG. 1—MICHAEL V. HAYDEN, FORMER NSA DIRECTOR (1999–2005), FORMER C.I.A. DIRECTOR (2006–2009). Hayden was a primary implementor of

"The Internet of Things" which was the supreme embodiment of fascist crony capitalism—rewarding your friends and

punishing your enemies for power and profit. **The Internet of Things ("IoT") must be dismantled as the fruit of a poisoned tree.** Beyond the "fascist!" epithets, fascism is a political philosophy where the state controls the individual and plays favorites among private companies. The favored companies are allowed preferences and profits as long as they do what the dictator demands. This is exactly how Adolf Hitler operated Nazi, Germany under the direction of his New York, Boston, London and Zurich bankers, including [Prescott Bush](#) with help from Ambassador Joe Kennedy in London, we might add. This is evidently how the Deep State shadow government has literally gotten away with theft, murder and exploitation for decades. Until . . . The Trump Effect.

(FEB. 01, 2017)—Our regular readers know that Mark Zuckerberg did not create Facebook, and that Columbus innovator Leader Technologies' social networking invention was stolen by Leader's patent attorney James P. Chandler, III.

Chandler then formed the IBM Eclipse Foundation on Nov. 29, 2001 with a \$40 million "donation" from IBM's legal counsel David J. Kappos.

The larger question is why would the U.S. government so flagrantly abuse a real American inventor in violation of the Constitution?

Now we know.

BILL CLINTON LITERALLY CODIFIED C.I.A. & NSA FASCISM IN 1994

On Jul. 1, 1994, President Bill Clinton wrote "A National Security Strategy of Engagement and Enlargement." **Clinton actually authorized the C.I.A. and NSA to use their super-secret and illegal Echelon Program (started in 1947) to assist American private companies with whom he and Hillary were aligned in pay-to-play schemes.**

Curiously, **just weeks later** Clinton permitted the Rwandan Genocide false flag as his excuse to seize rare earth mineral mines in Africa for his pay-to-play high tech partners.

Congressional testimony later proved that C.I.A. teams on the ground monitored the slaughter of innocents in silence while NSA satellites video

Clinton's counter terrorism Executive Branch collaborators look uncannily similar to the nefarious actors being exposed in the current Russia probe, not to mention Benghazi, Server-gate, Fast & Furious, U.S. Digital Service Election Rigging, ISIS, Arab Spring, etc. State (Albright, Hillary, Rice, Christopher, Powell, Kerry), Justice (Chandler, Holder, Lynch, Mukasey, Ashcroft, Gonzales, Reno), Defense (Hayden, Gates, Panetta, Hagel, Carter, Cohen, Rumsfeld, Perry, Cheney), FBI (Mueller, Comey, Rosenstein, McCabe, Ohr, Strzok, Louis Freeh), CIA (Hayden, Clapper, Brennan).

These government officials, by providing intelligence data to selected private companies, committed treason by conspiring to promote modern day Fascism in America behind the smoke screen of incessant false flags and national security.

Bill Clinton, Jul. 1, 1994, PDF p. 19: “Partnership with Business and Labor: Our economic strategy views the private sector as the engine of economic growth. It sees government’s role as a partner to the private sector - acting as an advocate of U.S. business interests; leveling the playing field . . .”

You read this right. Clinton's directive actually authorized fascism. He ordered his intelligence agencies to help selected private companies. This is outrageous, but who complained? Apparently no moral voices were around. Everyone who knew about the scam was benefiting and silent. That is why we have not learned about this until now. RICHARD C. WALKER WAS RECRUITED AS A BOY KING CUT OUT FOR GLOBALIST, FASCIST TECHNOLOGY COMPANIES PLANNING GLOBAL TYRANNY

These fascists recruited engineer Richard C. Walker to front for their grand plan.

C.O.T.S.

The patent filings Walker began making in 1996 emphasized a well-known build vs. buy approach called "Commercial Off-the-Shelf Software" or C.O.T.S.

C.O.T.S. says buy commercial off-the-shelf technology whenever possible instead of build it. However, the devil is in this detail.

OUR COMMUNICATIONS ARE QUITE LITERALLY RULED BY FASCIST TYRANTS

Once the government picks a vendor, then that vendor becomes the de facto government supplier for life. Microsoft. Oracle. Cisco. AT&T. SAP. Apple. Motorola. Siemens. Lockheed. Boeing. Google. Etc. Power corrupts. Once the government agency implements that infrastructure, the argument, along with the bribes to grease the skids, says it is cost prohibitive to switch to a new vendor. Therefore, the natural evolution makes these decisions inherently corruptible. We quite literally, TODAY, live in a fascist American state where our communications infrastructure is ruled by tyrants. Period.

In short, C.O.T.S. is anti-competitive and unAmerican when promoted by the government for its own uses. President Trump is going to stop this.

RICHARD WALKER LITERALLY INCORPORATED THE SUPER-SECRET **C.I.A. ECHELON** **PROGRAM** IN HIS CLAIMS

Walker made an astounding claim in his patent filings. He actually dictated that his global data collection scheme:

W LL HUMANK ND EVER LEARN? Facebook's Orwellian doublespeak about property and privacy (theft) merely repeats the eventual dehumanization of the individual under MAO's Red Star, Stalin's SOVIET Hammer & Cycle and Hitler's NAZI Swastika. Respect for the inalienable rights of each individual is a bedrock value of democracy. The members of the Facebook Cabal abuse this principle at every opportunity. They evidently believe that they deserve special privileges and are willing to lie, cheat and steal in order to treat themselves to these privileges.

ASK CONGRESS: PASS THE INVENTOR PROTECTION ACT!

Click image above to download a poster-quality PDF optimized for a 11in. x 17in. (ledger-size) poster. America should not be in the business of cheating its entrepreneurial investors simply because the cheaters buy off judges with the money gained from their theft. Such permissiveness is obscene.

GIBSON DUNN LLP exposed as one of the most corrupt law firms in America

Investigative Reporter Julia Davis investigates Facebook's *Leader v. Facebook* attorney Gibson Dunn LLP. She credits this firm with the reason why not a single Wall Street banker has gone to jail since 2008. [Click here](#) to read her article

Read this Fig. 3 carefully. In the bottom left of the figure you'll notice that Walker claims sole ownership over this entire system. He has put both government entities and private companies on notice that he will license it to them. How did an Agilent Technologies nerd acquire such power? Someone should ask him.

This patent claims that Walker (and his Kline & Walker LLC company) is the sole owner of The Internet of Things. While those exact words are not said, the breadth of Walker's claims leave no doubt.

NOTE :For this reason Kline and Walker LLC will seek out all these named electronic manufactures and service companies in a cooperative effort to marry up and interface in the most economical fashion and commercially beneficial means for all including the end user. (in other words if there is engineered product that can be obtained through a specific modality preferable to a specific manufacture and their engineering staff that full fills the PFN protocol and any standard for such product application Kline and Walker LLC will cooperate, license and work to enhance and complete these products and systems in as amiable manner as possible for all. The major objective being to organize the PFN system and networks to provide accountable activities and management so badly needed for public safety and the environment , while insuring a good fair and just respect for individual's rights and their privacy.

FIG. 4—[Richard C. Walker. \(Oct. 01, 2001\)](#). p. 6, U.S. Pat. App. 660/325,538, WO2003029922. PFN/TAC system FAA upgrades for accountable remote and robotics control to stop the unauthorized use of aircraft and to improve equipment management and public safety in transportation (incl. C.I.A. Echelon). USPTO.

This is completely outrageous and shows how 9/11 was almost certainly achieved.

WALKER BENEVOLENTLY OFFERS HIS SYSTEM TO HELP RESTORE THE PUBLIC TRUST IN AIR TRAVEL:

Due in no small part to the sad events current to our nation, Kline & Walker Remote Management System the assignee of the PFN/TRAC System wishes to work in any collaborative effort with all commercial and government interests to safe the skies and build back the trust in the flying public. This spirit of cooperation is basic to developing this technology as a trusted system and to increase public safety, individual freedom and national and global security.

"Skillful manipulation of the firm's extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage."

This statement followed right after Davis cited Facebook's chief inside counsel in the *Leader v. Facebook* case, Theodore Ulyot, who appears to have helped lead the *Leader v. Facebook* judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the judicial system. These promises appear to be meaningless. WALKER FRONTS FOR ROGUE C.I.A. / NSA / FBI DEEP STATE FASCISTS

Walker dictates how he will license The Internet of Things to third parties in the government and private industry. This is just surreal. No nerd engineer would ever have this kind of power, unless he was given it or told to do it by insiders. This circumstance, besides revealing likely racketeering, conspiracy, organized crime, and is a betrayal of due process for every honest inventor who honestly puts forward claims to the Patent Office.

RICHARD WALKER'S PATENT COULD NOT WORK WITHOUT LEADER TECHNOLOGIES' SOCIAL NETWORKING INVENTION, SO THEY STOLE IT

Despite Walker's insistence that everyone license from him, he has not licensed the invention of social networking from Leader Technologies. Instead, as this Walker patent reveals, they just stole it.

Indeed, Walker's patent would not have worked on the large scale they describe without Leader social networking invention. We'll show that below.

First, these patents to remotely control vehicles started being filed within two months of the passage of the Economic Espionage Act of 1996 (EEA) during Bill Clinton's first term. The EEA was written by law professor James P. Chandler, III.

Robert Mueller, James Comey, Rod Rosenstein, Loretta Lynch, Eric Holder, Larry Summers were strategically positioned at the top of the Justice Department and Treasury. The patentee, Richard C. Walker, could have patented a ham sandwich had this group wanted it.

infringement, thievery, counterfeiting, hacking, greed, misinformation, exploitation, abuse, waste, disrespect, falsity, corruption, bribery, coercion, intimidation, doublespeak, misconduct, lies, deception, attorney "dark arts," destruction, confusion, dishonesty, judicial chicanery and lawlessness.

If we do not speak up, impeach derelict judges and imprison corrupt attorneys, we cannot possibly hope to start fixing the current ills in our society. Without justice and respect for private property, democracy has no sure foundation.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The *Leader v. Facebook* patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from Leader Technologies that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on *Leader v. Facebook* until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

Second, the evident intent of the Walker patent was to illustrate the technology planned for control of everything—The Internet of Things.

Third, Robert S. Mueller's law firm, Wilmer Hale LLP, formerly Hale & Dorr LLP, drove Walker's filings. Mueller was sworn in as FBI director just seven days before 9/11. This clearly implicates Wilmer Hale in the treachery.

Fourth, the global data sharing platform described in the patent was not doable by the likes of IBM, Microsoft, Boeing, AT&T and Cisco. They were all behind the curve from an R&D perspective when the Internet emerged. For example, Bill Gates thought it was a fad. The telephone pager network that Walker described could not scale to the volumes required for such global communication.

AGILENT TECHNOLOGIES IS EVIDENTLY A DEEP STATE SURVEILLANCE SUPPLIER

Walker's current employer, Agilent Technologies, was a spin off of HP that went public on [Nov. 18, 1999](#). That was only a week after Bill Clinton and his Treasury Secretary Larry Summers abolished Glass-Steagall. Summer's chief of staff then was Sheryl K. Sandberg, the subsequent creator of Gmail (2004) and the current chief operating officer of Facebook (2008 to

Facebook, Inc., 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader

from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the Pfaff v. Wells Electronics, Inc. test for on-sale bar, even after instructing the jury to use it. (See that Jury Instruction No. 4.7 here.) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO.

Judge Lourie also failed to apply his own law-test in Group One v. Hallmark Cards to the evidence.

After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

current). Another Summers employee then was [Marne L. Levine](#). Levine who married disgraced C.I.A. director [John M. Deutch's](#) son, and is now chief operating officer at Instagram. Deutch was pardoned by Bill Clinton on the same day as Marc Rich. It's truly a cozy little world at the top of the criminal Internet of Things.

Agilent raised \$2.1 billion and was the largest Silicon Valley public offering ever at that time. The usual globalist shadow government suspects were the Agilent underwriters: Goldman Sachs, Morgan Stanley, Credit Suisse, JPMorgan, etc. The insider trading is evident.

To put the Agilent Technologies / HP actions in context, on [Jul. 14, 1999](#), President Bill Clinton formed the National Intellectual Property Assurance Council (NIAC) by Executive Order #13130 with James P. Chandler, III.

A few months later on [Sep. 29, 1999](#), President Bill Clinton formed In-Q-Tel to run a rogue C.I.A. private venture capital company in Silicon Valley.

A few weeks later on [Nov. 12, 1999](#), Bill Clinton and Larry Summers, Clinton's Treasury Secretary and Chandler's Harvard colleague, abolished Glass-Steagall market protections separating underwriting and banking.

Evidently, Agilent Technologies and HP are key suppliers to the Internet of Things.

HP & AGILENT ARE COMPLICIT

Here is a complete U.S. Patent Office list of the patents attributed to Richard C. Walker as the inventor. Eleven (11) are assigned to [Hewlett-Packard](#) and fourteen (14) are assigned to [Agilent Technologies, Inc.](#)

These patents are very evidently refinements of Walker's "control everything" patent. They are full of euphemisms (deceptions) to obscure the true censorship purpose.

Judge Kimberly A. Moore, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. [See disclosure of substantial holdings in Facebook and Facebook-related stocks.](#)

Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in *Pfaff v. Wells Electronics, Inc.*—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook's evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

Judge Evan J. Wallach, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. [See Motion to Disclose Conflicts of Interest.](#) Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr. Lakshmi Arunachalam's motions (according to his Federal Circuit staffer Valeri White), and yet the Clerk signed an order regarding that motion on Judge Wallach's behalf. events at Donna Kline Now! Judge Wallach also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court's *Pfaff v. Wells Electronics, Inc.* test for on-sale bar evidence, which included even the Federal Circuit's own *Group One v. Hallmark Cards, Inc.* test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie helped write that opinion. **Group One test omission analysis.**

Clerk of Court Jan Horbaly , U.S. Court of Appeals for the Federal Circuit, clerk who signed all the opinions in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Clerk Horbaly and his staff obfuscated when the court's ruling was challenged by an amicus curiae brief revealing clear mistakes of law and new evidence. [See analysis of the misconduct and misrepresentations within the Federal Circuit Clerk of Court in *Leader v. Facebook*.](#) Mr. Horbaly failed to disclose his conflicts of interest and close associations with numerous Facebook attorneys and law firms, as well as his close association with one of Facebook's largest shareholders, Microsoft, who is a Director of The Federal Circuit Bar Association where Mr. Horbaly is an ex officio officer. Additionally, the DC Bar revealed in a written statement that Clerk Horbaly is not licensed to practice law in the District of Columbia. Court of Appeals for the Federal Circuit, chief judge responsible for the (mis)conduct of his judges and Clerk of Court in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Rader failed to manage his court resulting in a likely situation where his judges never even received briefs that they allegedly ruled on in favor of Facebook. Judge Rader also failed to disclose his conflicting relationships with a Leader principle with whom he may have had deep professional differences during his time at the Senate Judiciary Committee—his former professor of law at George Washington University Law Center, former Leader director Professor James P. Chandler. [See analysis of Judge Rader's undisclosed conflicts of interest in *Leader v. The FISA memo will be a bombshell, but if you REALLY READ the content of this post.... these revelations may be more serious, and will ENSURE Obama and the Clintons are DONE. They are truly amongst the most treasonous criminals ever.
