SEN. DIANNE FEINSTEIN, SOROS, QUEEN’S PRIVY COUNCIL STOLE SOFTWARE TO PUSH FOREIGN INTERFERENCE IN U.S. ELECTIONS

Feinstein owns controlling interest in AVID "election management" MSM teleprompter control system

Her 20-year Chinese spy staffer evidently used sensitive Senate intelligence to brainwash the American public via AVID ISIS LeaderPlus

SEN. FEINSTEIN RUNS FOREIGN INTERFERENCE IN U.S. ELECTIONS USING THE SENATE’S MOST SENSITIVE DATA

ROGER STONE SPEAKS: On Nov. 18, 2017, Twitter censored New York Times best-selling author Roger Stone completely. Every red-blooded American should be outraged, Republican, Democrat and Independent alike. If Roger’s voice is silenced today, yours is next. We must break this embargo. Click here to read and share Roger’s latest perspectives on the Battle for our Republic, including his responses to his critics (who have not been censored).

PAY-to-PLAY NEW WORLD ORDER
This timeline shows how insiders sell access & manipulate politicians, police, intelligence, judges and media to keep their secrets

Clintons, Obamas, Summers were paid in cash for outlandish speaking fees and Foundation donations. Sycophant judges, politicians, academics, bureaucrats and media were fed tips to mutual funds tied to insider stocks like Facebook. Risk of public exposure, blackmail, pedophilia, “snuff parties” (ritual child sexual abuse and murder) and Satanism have ensured silence among pay-to-play beneficiaries. The U.S. Patent Office is their toy box from which to steal new ideas.
**(AUG. 15, 2018)**—On Jul. 27, 2018, even left-leaning *Politico* could not ignore this corruption. They disclosed that Sen. Diane Feinstein (CA) had Chinese spies working for her while she oversaw the powerful Senate Judiciary and Intelligence committees, as well as the Democratic Party. Her staffers refused to provide substantive comment.

*Sen. Feinstein’s financial disclosure* clearly shows that she holds a greater than 10% financial interest in *AVID Technologies, Inc.*. AVID supplies the newsroom management software named *AVID LeaderPlus “Election Night Headache Relief”* used widely around the world. Richard C. Blum is Sen. Feinstein’s husband. The senator and her husband are worth $94 million. See *AVID Technologies, Inc.*, Co. No. 0000896841. *(Accessed Aug. 07, 2018).* Form 4 Insider Trading. SEC Edgar.

Clearly, being a U.S. Senator can be a personal cash cow for a senator like Feinstein who is willing to trade on her insider information. Evidently Feinstein cashes in, just like George Soros, by using her influence to make markets go up and down strictly based on the Senate proceedings she influences, along with her Chinese handlers.
project at Avid corporation, maker of TV and radio production equipment, called the Avid ISIS Client Guide and the Avid LeaderPlus Election Night Headache Relief. This system enables Malloch-Brown, Romney, Soros and the Senior Executive Service (SES) to push out a common propaganda narrative to control "perception management" on election night. "Perception management" is a Deep State shadow government mind control term for brain washing. It enables them to trigger their unthinking minions with emotional memes and programmed response triggers. For example: RACIST! MYSOGNINIST! NAZI! WHITE SUPREMACIST! HOMOPHOBIC! BITTER CLINGER! XENOPHOBIC PUTIN-LOVER! MUSLIM-HATER! DEPLORABLE! MEXICAN-HATER! IMPEACH TRUMP! WE LIE BECAUSE WE LOVE YOU! . . . and now PEDO-PHOBE! BOY-MAN LOVE HATER! . . . ad nauseam. It is now quite evident that these globalists are intent on ripping apart America’s Judeo-Christian moral heritage and the Constitution.

British Privy Counselor Lord Mark Malloch-Brown is a director of Investec Plc which has over 400 subsidiaries spread around the world. One of those companies is ISIS Management Limited. ISIS developed the AVID ISIS System for pushing video files used in newsrooms.

AVID LeaderPlus and AVID ISIS together give Feinstein and Malloch-Brown the ability to push censored news and false stories to all subscribed newsrooms at the same time. The LeaderPlus product specializes in pushing election night stories right to a news reader’s teleprompter. They don’t even have to think. They just read whatever Feinstein and Malloch-Brown want.

HILLARY PAID FACEBOOK IN 2009–2010 FOR A "TEMPLATE FOR WINNING ELECTIONS"

On Sep. 26, 2009, Hillary Clinton and her U.S. State Department started secretly paying Facebook for a “template for winning elections” (Facebook Manager Dmitry Shevelenko). See GSA Contract No. SAQMMA09M1870. (This is just one of 12 Facebook contracts; only three of Hillary Clinton’s State Department contracts with Facebook are still listed between Sep. 2009-2010 during the Leader v. Facebook patent infringement trial. This proves that the U.S. government obstructed justice in the Leader v. Facebook trial.

On Nov. 01, 2016, Hillary, Obama, John Podesta and Robby Mook took a $1.5 billion donation from Google's Eric Schmidt to implement the U.S. Digital Service run out of the White House.

The software being used by these corruptocrats is Columbus-based innovator Leader Technologies’ invention of social networking that was stolen by their patent attorney, James P. Chandler, Ill (also a Feinstein advisor), and given to the IBM Eclipse Foundation (formed Nov. 29, 2001) for distribution to Silicon Valley companies weaponized by the rogue C.I.A. for mass surveillance and private money-making for the C.I.A. outside the
oversight of Congress. Readers should also note that AVID’s “LeaderPlus” product name likely violates Leader Technologies’ trademarks as well. See the [Crimeline](https://americans4innovation.blogspot.com/2018/08/sen-dianne-feinstein-soros-queens-privy.html) for more proof of the theft of social networking.

Here is a diagram of the “Internet of Things” election rigging system financed and controlled by Sen. Dianne G.B. Feinstein and her corruptocrat co-conspirators:

**ROGUE C.I.A. MSM BRAINWASHING SYSTEM DISCOVERED. HERE’S HOW IT WORKS ALL OVER THE WORLD**

Criminal actions by either foreign nationals or affiliated U.S. citizens aimed at influencing U.S. elections would be subject to prosecution under various U.S. statutes.

The [Logan Act](https://americans4innovation.blogspot.com/2018/08/sen-dianne-feinstein-soros-queens-privy.html), for instance, bars any U.S. citizen from interacting with a foreign government to influence policy. But many experts believe this law is overly broad, and there have been no successful prosecutions in its near 220 years. And while the term “collusion” is cited in the context of Russian interference in the 2016 election, collusion itself is only prohibited in the antitrust law arena. For more, see Dan Abrams’ [Law & Crime](https://americans4innovation.blogspot.com/2018/08/sen-dianne-feinstein-soros-queens-privy.html).
Abrams writes: "Six years ago, the U.S. Supreme Court upheld a decision by a U.S. District Court in Washington, D.C., that Congress can ban individuals who lawfully reside in the U.S. and are neither U.S. citizens nor ‘permanent residents’ from making donations or gifts related to any election. In that case, Bluman v. Federal Election Commission, a three-judge panel said the limitation was a legitimate tool for government to prevent ‘foreign influence over U.S. elections.’"

If it is illegal to donate to money to interfere in U.S. elections, which it is, then having investments in companies that build software to interfere in our elections is worse. It is treason.

**DIANNE FEINSTEIN: OUR 2ND RICHEST $94 MILLION BRAINWASHING VOTE RIGGER IN THE SENATE**

**LET’S TAKE A LOOK AT THE MSM BRAINWASHING MASTERS:**

**GIBSON DUNN LLP exposed as one of the most corrupt law firms in America**
Feinstein has a long history of Senior Executive Service (SES) affiliation. In fact, in 1979, as mayor of San Francisco, she was one of the first big city mayors to invite the SES to takeover management of city services.

Senator Feinstein is privy to our nation’s most top secrets in her memberships on the Senate Judiciary and Intelligence committees. She and her husband Richard C. Blum have clearly been trading on that information to make her the second richest Senator in Congress at $94 million.

Sen. Feinstein’s collaboration with Privy Counselors Lord Mark Malloch-Brown and Sir Geoffrey Pattie in global MSM brainwashing technology appears to push her over the line into criminality and treason.

Investigative Reporter Julia Davis investigates Facebook’s Leader v. Facebook attorney Gibson Dunn LLP. She credits this firm with the reason why not a single Wall Street banker has gone to jail since 2008. Click here to read her article “Everybody hates whistleblowers.” Examiner.com, Apr. 10, 2012. Here’s an excerpt:

“Skillful manipulation of the firm’s extensive media connections allows Gibson Dunn to promote their causes, while simultaneously smearing their opponents and silencing embarrassing news coverage.”

This statement followed right after Davis cited Facebook’s chief inside counsel in the Leader v. Facebook case, Theodore Ullyot, who appears to have helped lead the Leader v. Facebook judicial corruption. Interesting word choices associated with Gibson Dunn LLP: manipulation, smear. Attorneys swear a solemn oath to act morally, ethically, and in support of democratic principles. They promise to conduct themselves in a manner than instills confidence among the citizenry in the rule of law and the Judicial system. These promises appear to be meaningless. Click here for a PDF version of Julie Davis’ article.

LORD MALLOCH–BROWN, SOROS, ROMNEY RIG ALL MAJOR VOTING MACHINES

SIMPLE FIX: (1) IDS, (2) PAPER BALLOTS, (3) INKED THUMBS, (4) UNBROKEN BIPARTISAN CHAIN OF CUSTODY, (5) BAN AVID ISIS LEADERPLUS MSM TELEPROMPTER NEWS FEEDS
CALL TO ACTION:

We must protect the vote. Now. We cannot allow these criminals to hijack any more elections. Free and fair elections are the property of the citizens in this Republic, not the government. We have gone to sleep. Now that we are awake, we must take action across this country in the coming weeks to protect the 2018 midterm elections.

We must ensure an unbroken bipartisan chain of custody. That should be your rallying cry. This will essentially eliminate the imminent danger from rigged electronic voting machines. Back to the future: (1) Voter IDs, (2) Paper ballots, (3) Inked thumbs, and (4) Unbroken bipartisan chain of custody! It is really that simple.

In addition, God-fearing citizens of the United States and the world must call upon President Trump and loyal American leaders to defund the feeder systems used by these SES corruptocrats.

Ask President Trump to write the check to Leader Technologies for their Miller Act Notice so they can help implement new technologies that respect Constitutional privacy and property and help implement a truly Free Press.

MR. PRESIDENT: DEFUND THESE CRIMINALS AND FUND THE MILLER ACT NOTICE

Mr. President, please pull the plug on these corruptocrats and their illegal funding streams. Since they are all based on fake

values, no real services will be affected.

In addition, write the Miller Act Notice check to Leader Technologies for 18 years of unpaid use of their revolutionary social networking invention—which these Privy Council criminals have hijacked with the SES to takedown the American Republic. This will generate new cash streams to free up our economy from the globalist stranglehold. This will also empower Leader Technologies and other actually creative people in America to fix our foundering ship of state. See [Leader Technologies files trillion dollar bond lien on the U.S. Government](https://americans4innovation.blogspot.com/2018/08/sen-dianne-feinstein-soros-queens-privy.html).

One Miller Act Notice check starts the ball rolling, Mr. President.

In addition, Leader shareholders have proposed a win-win solution to the collapse of the American Free Press, as well a large new revenue source without raising taxes. Leader principals are willing to funnel these payments back into establishing a truly Free Press. See [Leader proposes trillion dollar fed revenue while lowering taxes](https://americans4innovation.blogspot.com/2018/08/sen-dianne-feinstein-soros-queens-privy.html).

Jacqueline Thomsen. (Aug. 15, 2018). FCC shuts down Alex Jones’s flagship radio station. The Hill.

The Federal Communications Commission (FCC) has shut down conspiracy theorist Alex Jones’s flagship radio station.

The Austin American-Statesman reported Wednesday that the pirate radio station, Liberty Radio, was hit with a $15,000 fine and at least temporarily pulled from the airwaves.

The newspaper reported that a lawsuit filed in federal court in Austin alleged that Liberty Radio had functioned without a license since at least 2013, and had been transmitting from a tower at an Austin apartment complex.

charging that the station was also illegally broadcasting on an FM wavelength.

The Associated Press reported that Walter Olenick and M. Rae Nadler-Olenick were named as the defendants in the lawsuit, and the apartment complex where the station was transmitting from is linked to the pair.

The Olenicks reportedly told the FCC that they would not pay the fine and would treat any agency representatives as trespassers.

Groups calls for Facebook to be broken up

A group calling itself Freedom from Facebook slammed the social media giant in a complaint to the Federal Trade Commission. It slams Facebook's privacy policies and suggests remedies to combat what they call Facebook's 'monopoly.'

A coalition of organizations is planning to ask the Federal Trade Commission to break up Facebook in order to restore control to its 2 billion users and prevent further abuses of privacy.

Freedom from Facebook, which has decried the tech giant’s mishandling of user data during the Cambridge Analytica scandal, says that Mark Zuckerberg’s company is likely in violation of a 2011 consent decree it signed with the FTC.

The FTC is currently examining whether the tech behemoth did, in fact, violate the 2011 consent decree. If the commission finds that it did, Facebook could be facing fines in the trillions of dollars that would likely bankrupt the company.

“We can’t build a service that is subjective just to the whims of what we personally believe,” Dorsey told NBC News’ Lester Holt in an exclusive interview.

Twitter CEO Jack Dorsey on Wednesday defended the company’s decision this week to put Infowars’ Alex Jones in a seven-day “timeout” after Jones urged his viewers to ready their “battle rifles” against the media.

Dorsey said he resisted banning Jones, the embattled conspiracy theorist and radio host, despite calls to do so, some of which came from inside Twitter.

“We can’t build a service that is subjective just to the whims of what we personally believe,” Dorsey told NBC News’ Lester Holt in an exclusive interview.

Judge Leonard P. Stark, U.S. District Court of Delaware, trial judge in Leader Techs, Inc. v. Facebook, Inc., 770 F. Supp. 2d 686 (D.Del. 2011). Judge Stark heard his jury foreman admit that the jury made the on-sale bar decision without any evidence other than speculation, and yet he supported that verdict anyway. Just months before trial, Judge Stark allowed Facebook to add the on-sale bar claim after the close of all fact discovery and blocked Leader from preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader’s prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the Pfaff v. Wells Electronics, Inc. test for on-sale bar, even after instructing the jury to use it. (See that Jury Instruction No. 4.7 here.) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook’s entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the “heavy burden” of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See analysis of Judge Lourie’s T. Rowe Price holdings re. the Facebook IPO. Judge Lourie also failed to apply his own law-test in Group One v. Hallmark Cards to the evidence. After debunking all of Facebook’s evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale

Big Tech has a big bias problem.

Social media platforms that once facilitated the free exchange of ideas and information are now actively seeking to silence and censor conservative opinions.

This new Orwellian impulse that is taking over Big Tech is particularly problematic because social media websites, which are supposed to be safe spaces for all free speech, get special legal perks.

Under Section 230 of the Communications Decency Act, websites such as Facebook and Twitter are not treated as publishers of “information provided by another” – which would subject them to libel laws and other headaches publishers have to deal with – because they “offer a forum for a true diversity of political discourse.”

This means social media platforms are not merely private companies who can censor whomever they wish – They are considered, by law, to be public forums that allow free and open debate.

**Judge Kimberly A. Moore**, U.S. Court of Appeals for the Federal Circuit, panel judge in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Moore stood to benefit financially from undisclosed holdings in Facebook. See disclosure of substantial holdings in Facebook and Facebook-related stocks.

Judge Moore failed to follow the long-held precedent for testing on-sale bar evidence in Pfaff v. Wells Electronics, Inc.—an evident and intentional omission coming from a former patent law professor. After debunking all of Facebook’s evidence on appeal, Judge Moore created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

**Judge Evan J. Wallach**, U.S. Court of Appeals for the Federal Circuit, member of the three-judge panel in Leader Techs v. Facebook, Inc., 678 F.3d 1300 (Fed. Cir. 2012). Judge Wallach is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallach holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. See Motion to Disclose Conflicts of Interest. Judge Wallach continued in silence even after Clerk of Court Horbaly failed to provide him with Dr. Lakshmi Arunachalam’s motions (according to his Federal Circuit staffer Valeri White), and yet the bar verdict from being overturned—a clear breach of constitutional due process.
Email comment by BeBop:

SURPRISE. SURPRISE. WE'RE BEING WORKED OVER BY THE IRS TOO.

A whistleblower made this shocking allegation to me last week: the IRS was tipping off members of Congress to corporate takeovers so the elected officials could profit from insider trading.

My snitch also charged that higher-level employees of the IRS also used that information to enrich themselves.

This may sound crazy but remember: Up until a few years ago members of Congress were allowed to trade stock based on information they got while performing their public duties.

It wasn’t until 2012, during President Obama’s tenure, that the practice was banned.

But the difference between what had been going on legally until 2012 and what my whistleblower is contending is enormous.

Everyone assumed that members of Congress were just profiting from things they happened to learn while working on their committees — that a drug was going to get turned down by the FDA, for instance, or that a company was sniffing around to see how regulators would feel about a merger.

Clerk signed an order regarding that motion on Judge Wallach’s behalf. See a full analysis of these events at Donna Kline Now! Judge Wallach also failed to police his court’s violation of Leader’s Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge’s chambers after he had just invalidated Facebook’s sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallach also failed to police his court when he failed to apply the Supreme Court’s Pfaff v. Wells Electronics, Inc. test for on-sale bar evidence, which included even the Federal Circuit’s own Group One v. Hallmark Cards, Inc. test—a test which Judge Lourie should have advised Judge Wallach to follow since Judge Lourie helped write that opinion. Group One test omission analysis.
