LEGEND: Some corruptocrat photos in this blog contain a stylized Christian Celtic Wheel Cross in the background alongside the text "Corruption Central" meaning we have put the person's conduct under the microscope and discovered that he or she is at the center of global corruption. Judge Amy Berman Jackson asserts that it is unambiguously (to her anyway) a rifle cross hair. This shows her woeful ignorance of theology, history, symbology and engineering. It could be many things, but she clearly *wanted* to see a rifle sight (ask her about her role in Fast and Furious gun running). Others assert equally ignorantly that it is a pagan or white supremacist symbol. This stylized Christian Chi-Rho Cross dates to 312 A.D. when Emperor Constantine adopted the symbol after his history-changing "By this sign, you shall conquer" vision on the Milvian Bridge. A similar Wheel Cross form was widely used in Ireland by the eighth century. The triple entendre indicates that the person's corrupt life, when studied under a microscope, has been found wanting, but that there is hope in Christ if the person repents from his or her wicked ways. It triples as a reticle or graticule built into all sorts of eyepieces in microscopes, oscilloscopes, surveying instruments, astronomy optics,

precision pointers, binoculars, etching equipment, and yes, gun sights, but also computer mouse pointers! Therefore, to claim that it could only mean a gun sight, as Judge Jackson did, is truly ignorant. As shown, it is a call to prayer and repentance based upon microscopic observation of the corruptcrat's conduct. For Judge Jackson to use her ignorance of this symbol as the excuse to gag Roger Stone's FREE SPEECH right to defend himself is heinous abuse of authority. Chief Justice John Roberts should censor her immediately. Patriots must demand it.

On the surface, TikTok is a subsidiary of ByteDance that is controlled by the Chinese government. Notoriously, TikTok has teamed up with Huawei to oppress and murder the Uighur minority in northwestern China as a part of Google's Dragonfly use in state censorship. President Trump rightly blocked TikTok from being offered in the U.S. until the company could show that it would not be a tool for Chinese spying on Americans.

Various "great American companies" like Microsoft, Oracle and Walmart have offered to operate TikTok in America. After much kabuki theater surrounding the terms of the deal, China has just agreed to the President's terms and to allow Oracle to run the platform.

In other words, China was, we believe, always going to agree with the terms, they just had to make it look like they were resisting.

Microsoft, Oracle and Walmart are not the good guys here. Rather, they're agents of China, or rather, China's handler: The British Pilgrims Society, in our opinion.

UPDATE MAR. 25, 2014

ANYWAY?

Let's listen in on this hypothetical conversation between the recent British international trade minister, now Oracle director, Baroness Fairhead, and Xi Jinping, Premier of the People's Republic of China:

Fairhead: "Hello Xi, Rona here."

Fairhead: "First off, thank you for superb execution on the Coronavirus hoax. It's a real propaganda coup to weaponize the common flu! We can recycle that and keep the fear going forever. Very useful. We blind sided the Trump administration and set them up to agree to this TikTok deal. Well done."

Xi: "My pleasure."

Xi: "Now, what are your orders on TikTok? It is a very effective surveillance tool for our security police, so how do we add U.S. citizens into your global database without disturbing our operations?"

Fairhead: "Trump's people are technology ignoramuses, so our Crown Agent Senior Executive Service is still very much in control of global communications and propaganda within the Executive Branch, C.I.A., FBI, DoJ, Navy, Congress and the Courts."

Fairhead: "I just got approval from London for you to allow Oracle to run TikTok in the U.S. We need to unify with your social credit score system right away."

Fairhead: "First, push back on the deal, then agree to it. That will make for some good drama for the little people."

Xi: "Will do. Please give my regards to the Pilgrims Society inner sanctum. I think it is just hilarious that Americans are so stupid that they still don't know we are in control of everything. Cecil Rhodes was a brilliant strategist. I have his picture on my wall, next to mine."

Fairhead: "Agree. They are stupid. They hired me, a British secret agent, to be an Oracle director and no regulator or director said anything about my flimsy conflicts disclosure. Bwahahaha."

Fairhead: "Americans don't deserve a Constitution. Royal

This deal will give Oracle the green light to modify the TikTok and Oracle software to enhance TikTok, not protect the U.S. from Chinese surveillance.

Indeed, the IBM Eclipse Foundation has been giving up America's sovereignty to China ever since they stole Leader Technologies' social networking trade secrets ca. 2001.

The TikTok modification will unify the Chinese and American social credit score data. When Oracle has fully implemented TikTok, the Pilgrims Society will be able to more easily “mount” the world’s databases (that mostly use Oracle data storage) and thus put the icing on the cake of total global surveillance.

ORACLE IS ENGAGING IN ICONIC PILGRIMS SOCIETY FRAUD

The British Pilgrims Society has infiltrated Oracle, just like they have infiltrated virtually every aspect of American life in education, politics, banking, commerce, patents, courts, healthcare, publishing, media and agriculture.

Tellingly, the other Oracle directors are aiding and abetting Baroness Fairhead’s espionage by allowing a British saboteur to influence policy on the Oracle board.

CURRENT EDITORIAL FOCUS

We are an opinion blog that advocates for strong intellectual property rights. We welcome commenters and contributors. The *Leader v. Facebook* patent infringement case first came to our attention after learning that the trial judge, Leonard P. Stark, U.S. District Court of Delaware, ignored his jury's admission that they had no evidence to support their on-sale bar verdict, but the judge supported it anyway.

The judicial misconduct has deteriorated from there, replete with two of the three judges on the Federal Circuit appeal panel, Judges Alan D. Lourie and Kimberly A. Moore, holding Facebook stock that they did not disclose to the litigants, and later tried to excuse through a quick motion slipped in at the last minute by the Clerk of Court, Jan Horbaly, and his close friends at The Federal Circuit Bar Association. (The DC Bar subsequently revealed that Mr. Horbaly is not licensed to practice law in Washington D.C.)

The judges ignored [shocking new evidence](#) that Mark Zuckerberg withheld 28 hard drives of 2003-2004 evidence from *Leader Technologies* that could prove actual theft (and therefore claims even more serious than infringement). In addition, Facebook's appeal attorney, Thomas G. Hungar of Gibson Dunn LLP, has close personal ties to just about every judicial player in this story. The misconduct appears to reach into the U.S. Patent Office through abuse of the reexamination process by Facebook. We will stay focused on *Leader v. Facebook* until justice is served, but we also welcome news and analysis of intellectual property abuse in other cases as well.

The new Oracle director Baroness Rona Alison Fairhead, Commander of the British Empire (CBE). Baroness Fairhead was appointed to the Oracle board on Jul. 10, 2019.

We can prove from this appointment alone that espionage and treason are afoot at Oracle and TikTok. This involves not only Baroness Fairhead (espionage) and the Oracle directors (treason), but the regulatory bodies who have all turned a blind eye to this criminality, which includes Ernst & Young LLP and Oracle's attorneys who are perpetuating the securities fraud, in addition to the espionage and treason.

preparing its defenses to this new claim. Judge Stark allowed the claims despite Leader's prophetic argument that the action would confuse the jury and prejudice Leader. He also permitted the jury to ignore the *Pfaff v. Wells Electronics, Inc.* test for on-sale bar, even after instructing the jury to use it. (See that Jury Instruction No. 4.7 here.) He also contradicted his own instruction to Leader to answer Interrogatory No. 9 in the present tense (2009), then permitted the jury to interpret it as a 2002 admission as well. Facebook's entire on-sale bar case is based upon this interrogatory. (Editorial: Hardly sufficient to meet the "heavy burden" of the clear and convincing evidence standard.)

Judge Alan D. Lourie, U.S. Court of Appeals for the Federal Circuit, panel judge in *Leader Techs v. Facebook, Inc.*, 678 F.3d 1300 (Fed. Cir. 2012). Judge Lourie stood to benefit financially from undisclosed holdings in Facebook. See analysis of Judge Lourie's T. Rowe Price holdings re. the Facebook IPO.

Judge Lourie also failed to apply his own law-test in *Group One v. Hallmark Cards* to the evidence.

After debunking all of Facebook's evidence on appeal, Judge Lourie created new argument in the secrecy of chambers to support Facebook and prevent the on-sale bar verdict from being overturned—a clear breach of constitutional due process.

American public company directors, and British directors for that matter, are subject to the **Business Judgment Rule (BJR)** - fiduciary duties of good faith, loyalty and due care).

The BJR requires that a company director disclose all material relationships that affect, or might affect, that person's ability to represent the shareholders objectively—without the taint of self-interest.

Actually, conflicts of interest are OK as long as they are disclosed.

With such disclosure, the public, regulators, shareholders and fellow directors can then assess that director's ability to act impartially for all the shareholders.

When conflicts are evident, that director may be asked to recuse oneself from decisions involving those subjects. However, if the public is not aware of the conflicts, then the opportunity to self-deal are very high, as we see here.

Baroness Fairhead is easily worth \$50 million or more. For example, in just one of her several dozen corporations owned by her and her husband, **Thomas Edwin Fairhead**, the couple loaned just one company almost \$6 million without any requirement for repaying the principle. See B2B NEW YORK LIMITED (UK). See [Timeline](#). Fairhead did not disclose this real estate leasing company to the Oracle shareholders.

Judge Wallace is not a patent attorney. This begs the question as to why a judge with no knowledge of patent law was assigned to the case. Would anyone ask a dentist to perform brain surgery? The Federal Circuit was specially formed to appoint patent-knowledgeable judges to patent cases. There is no evidence so far in the judicial disclosures that Judge Wallace holds stock in Facebook, although when he was asked on a motion to disclose potential Facebook holdings and other conflicts of interest, he refused along with the other judges. See [Motion to Disclose Conflicts of Interest](#). Judge Wallace continued in silence even after Clerk of Court Horbaly failed to provide him with Dr.

See a full analysis of these events at [Donna Kline Now!](#) Judge Wallace also failed to police his court's violation of Leader's Fifth and 14th Amendment constitutional right to due process when he participated in the fabrication of new arguments and evidence for Facebook in the secrecy of judge's chambers after he had just invalidated Facebook's sole remaining item of evidence (using disbelieved testimony as ostensible evidence of an opposite). Judge Wallace also failed to police his court when he failed to apply the Supreme Court's *Pfaff v. To reiterate, *none* of the 31 Baroness Rona Fairhead relationships in the paragraph above were disclosed in Oracle's notices to shareholders. *This is evident fraud.*

Notably, we include Fairhead's HSBC relationships to **James B. Comey** when he was an HSBC director along with Fairhead and another Oracle director, Israeli-born **Safra A. Catz**.

Baroness Fairhead's HSBC relationship with **Sir Jonathan Edward Symonds** is also noteworthy because of his simultaneous relationships to Oracle director **Jafra A. Catz** and to longtime HSBC risk director **Marc M. Moses**.

Department (Eric H. Holder, Jr.).

After this consent decree deal was spawned, James B. Comey became HSBC corporate counsel, then became FBI director.

Baroness Fairhead has a fiduciary duty to disclose these cozy HSBC relationships, and did not.

Perhaps one or two omissions can be excused, but failing to disclose 31 out of 39 conflicts is maliciously intentional and evidently meant to hide her Pilgrims Society relationships.

For example, would you elect a convicted rapist to be director of a home for battered women? Neither should Oracle be hiring a British secret agent to help govern policy of an American

laundering to break U.S. sanctions and let off HSBC executives.

Later, Attorney General Lynch designated James B. Comey to *exonerate* Hillary Clinton in her criminal release of classified information from her private server.

Hindsight shows that Hillary was selling the information to the highest bidder in a pay-to-play enrichment of her Clinton Foundation. The purpose was to destroy American sovereignty and allow the British Pilgrim Society to fully move in and run America. See [AFI: \(Aug. 26, 2020\)](#). Henry Kissinger has been spying for the (British) Pilgrims Society, likely since the late 1940's. *Americans for Innovation*.

Baroness Fairhead was an evident actor in this espionage with Comey, Lynch, Obama and Clinton, among others including former C.I.A. directors who were actually working for MI6 under the cover of "Five Eyes" sedition.

Similarly, perhaps the easiest way to take Oracle director Baroness Rona A. Fairhead off the Pilgrims Society playing field is to jail her for her evident Oracle disclosure fraud in addition to her espionage.

The world is just waking up to Fairhead's handler, the British Pilgrims Society, so, until they do, we need to put the Baroness in Guantanamo for the rest of her life for the career-long treachery she has been involved in.

Joining Fairhead in Guantanamo should be the other Oracle directors and auditor Ernst & Young LLP, who aid and abet her criminality.

Described above is abject immorality.

Morality must win the day.

The Eclipse IDE (interface development environment) is used throughout the world as the basis for all social media interactions on the web. The predominant backend data storage for social interactions is... Oracle.
