

Lillian Scott Troy, Deported From U. S. Not Wanted at Home

LONDON, Nov. 13. — Replying to a question in the house of commons today as to whether Lillian Scott Troy would be allowed to return to England, Home Secretary Shortt said she had been deported as an undesirable alien and that for the same reason she would not be allowed to return.

Miss Lillian Scott Troy of San Francisco arrived in New York last April after being deported. One ground for objection to her presence in England was said that she had worked to secure the release of Baron Louis von Horst, interned by the British government in 1914. She was an assistant in the management of his companies.

Keep The Servants Satisfied

DON'T ask them to do useless things that your neighbor does not require of her servants. Don't ask your cook to bake bread. She knows that baking is a ally form of drudgery that does not result in better bread or in the saving of a penny.

AMERICAN-MAID BREAD

Keeps her smiling. It is good and no hot baking hours. Clean, crisp, wholesome. A new bread—not just a new name—makes children strong and healthy.

At the Country Club

When I had finished cleaning I was surprised that I had not only a clean house but a clean conscience. I was very tired but I was very happy about my appearance, especially when I saw that the house was so clean. I had been so busy with my work that I had not had time to think of my own appearance. I had been so busy with my work that I had not had time to think of my own appearance. I had been so busy with my work that I had not had time to think of my own appearance.
